WorkZone® General Information

Basic Worksurfaces

Basic Worksurfaces (WBW)

Adjustable Keyboard Pad Worksurfaces (WAK)

Transitional Worksurfaces (WCT)

Features			
Solid core top	•	•	•
Plastic laminate surface	•	•	•
Flat vinyl T-edge	•	•	•
Postformed edge	•		•
74P edge	•	•	•
Elliptical postformed edge	•		•
Powder-coated legs	•	•	•
Seam-welded tubular steel frame	•	•	•
Chrome plated glides	•	•	•

Transitional Leg
Transitional leg bases are 6 inches shorter than standard leg bases for greater leg room and chair clearance when two surfaces are joined. When seated at the worksurface, “right” or “left” refers to the individual worksurface, not the assembled workstation. Cannot be ordered for an individual, free-standing worksurface.

Streamline Leg

Beam Frame

Modesty Panel Frame

Full Modesty Panel Frame

SPECIFICATIONS

Worksurface Frames

Heavy-gauge seam-welded tubular steel. Horizontal tabletop support tube, 16-ga., 1"x 1" steel. Floor support member, 16-ga., 1-1/8" x 1-3/4" belly rectangular steel tube. Top and floor support tubes are welded with 2 steel tube vertical leg members. The rear vertical support is 16-ga., 1"x2" steel tube. The front vertical support is 16-ga., 1"x2-1/8" bullet oval steel tube. Leg inserts enclose the space between the (2) vertical leg members and provide concealed management of wire from floor to worksurface. Leg inserts are extruded Polypropylene with sprayed clear acrylic scuff-resistant coating. Adjustable chrome-plated glides. Powder-coat finish on legs. There are three frame style options. The receptacle clearance beam option (WB) is a 16-ga., 1/2"x 1-1/2" steel tube cross brace, welded to two 14-ga., L-brackets for support. The modesty panel (WM) is 19-ga. steel. It is located 1-1/2" from the rear of the

worksurface. The modesty panel is 15.31" on the 29" tables and 13.31" on 27" tables. The full height modesty panel (WF) is 19-ga. steel. It is located 1-1/2" from the rear of the worksurface. The full modesty panel spans the space between the underside of the worksurface and the floor. It is only available on 29" height desks.

Worksurface Top

1-1/4" thick top, .030" high-pressure laminate top surface with .028" phenolic backing sheet. Available with flat-vinyl T-edge, 74P edge or 180° postformed and elliptical postformed front edge with .030" high pressure laminate and .028 phenolic backing sheet. Side and rear edges of postformed tops are finished with either .024" Polypropylene or .030" high-pressure laminate.

Surface Splice Plates

Die-formed steel splice plates attach to underside of units with screws. Two splice plates are provided with all surfaces. Standard connector plate provided when surfaces are of common height. Worksur-

face height change connector provided for connecting 29" to 27" high surfaces. Specify worksurface height change connector for connecting non-transitional worksurfaces of two different heights except when using T6 option..

Adjustable Keyboard Pad Worksurface

Die-formed L-brackets attach to table and keyboard pad with screws. Threaded hand knobs lock keyboard pad in position. Available with flat vinyl T-edge and 74P edge.

Weight Capacity

All WorkZone tables meet or exceed BIFMA 5.5 Standards. Please contact KI Customer Service for additional information.

Horizontal Wire Management Trough

Horizontal wire management trough (WW) connects below the worksurface top and is constructed of rigid Polypropylene with 1" deep by 1-1/2" high openings for cables.

Base Options

There are two options for the base, standard

chrome-plated adjustable glides (NC) or four swivel casters (WC). The caster option comes with two casters with locks and two non-locking and it raises worksurface height 2". Caster option not available on Workzone with Power, Shared leg, or Laptop Garage units. Overheads cannot be mounted on tables with caster option.

Guest Modesty Panel

The Guest Modesty Panel for P Shaped, Piano, and Square Shoe, peninsula work-surfaces is constructed of 19-ga. steel. It is located 4.5" from the guest side of the peninsula worksurface and is attached using 6, #10-1" screws. It is 9" high and comes in lengths to fit 60" through 84" peninsula tops. Not for use with peninsula end and side mount worksurfaces.

Fabric

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied.

The posted standard lead time will apply to the Special Cost Request.

WorkZone® General Information

WorkZone® with power

SPECIFICATIONS

PowerUp® Power/Data Module

The power/data module is inserted into a rectangular hole in the worksurface. The module has a flip-up cover and is 6-1/4" long x 3" wide x 2-1/2" high. It has one duplex receptacle (110 volts), dual data access and a power cord with a 3-prong plug. The cord is 108" long when used without 10-wire (NP) system and 22" long when used with 10-wire (T6) tables. Connections for phones, modems, printers and networks can be incorporated into the system, but must be ordered separately by the customer through a third party source. Communications wiring is completed in the field by the customer. Each unit ships with a data plate tree which provides holders for common jacks produced by AT&T, Panduit, and others. Contact KI Customer Service for more information. The single module is located at the rear right, rear left or center position of the worksurface widths 30" through 54". Two modules are available on 60", 66" and 72" wide rectangular surfaces and are located at the rear left and rear right position of the worksurface.

Data Door

The data door (WT) is constructed of rigid Polypropylene .06 wall thickness with a radius of 2-1/2". The door is 8" deep and 4-1/2" high. It attaches to the underside of the table top. The hanging bracket uses the same hole as the modesty panel and can also be used with WB option. Power and data cables are separated from each other by a 24-gauge steel divider that is 2" high by 2-3/4" deep. There is also space allowed for cord management. Available in black only.

Table-To-Table Wireway

The table-to-table wireway trough is a 16-gauge steel trough that attaches to the underside of the adjoining worksurface. The wireway is 3-3/4" deep by 4-1/4" wide. The wireway routes the 10-wire table-to-table connector and data wires between tables. The wire management trough also includes a splice plate that attaches the front of the adjoining tops together to prevent separation.

10-Wire 6-Circuit Pre-Wired Harness

Single sided, rigid 10-wire harness that holds two duplex receptacles (60", 66" and 72" wide tables provide access for up to four duplex receptacles). Harness contains

6 hot wire, 2 neutral wires and 2 ground wires and is commonly referred to as (6-2-2). The harness has mounting brackets to attach to the underside of the worksurface top with screws. The harness is 2-1/2" wide and the length of the harness varies with the size of the top. Power is obtained by use of the 10-wire Power Infeed Kit. Duplex receptacles are located under the worksurface are specified separately.

10-Wire Table-To-Table Connector

10-wire table-to-table connector consists of flexible mesh conduit which provides power connections from adjoining tables. The jumper is 17-3/4" long and is routed through the table-to-table wireway.

10-Wire Power Infeed Kit

The 10-wire infeed kit provides power from fixed, floor, or wall sources to the 10-wire harness. It includes six feet of plastic covered flexible conduit, and 3/4" waterproof 90° connector. Also included are two steel covers which replace the existing plastic vertical wireway.

UL Listed

The WorkZone® with PowerUp® System is listed to applicable UL standards and requirements by Underwriters Laboratories, Inc.

Two of the standards used to evaluate WorkZone® are UL/286 Office Furnishings and UL/723 Standard for Test for Surface Burning Characteristics of Building Materials.

The standard used to evaluate PowerUp® is UL 1363 Relocatable Power Taps.

WorkZone® General Information

WorkZone® Shared Leg & Laptop Garage®

Starter Unit

Adder Unit

Finisher Unit

Starter Unit - Each shared leg workplace requires a starter unit to be placed at one end of the table string. The starter unit is comprised of a worksurface, modesty panel, standard leg and transitional leg. Only one starter unit is required in a single table string.

Adder Unit - When three or more tables make up a table string, an adder unit is used to make up the middle portion of the table string. The adder unit is comprised of a worksurface, modesty panel and transitional leg.

Finisher Unit - The final table specified in a table string is the finisher unit. This unit is comprised of a worksurface, modesty panel and a standard leg.

All three units are joined together by the transitional legs, which are centered between the two worksurfaces and attach accordingly. When specifying the shared leg option, it is possible to specify tables with the Laptop Garage® in the same table string as other tables without Laptop Garages.

SPECIFICATIONS

LAPTOP GARAGE

Garage Construction

The two-piece Laptop Garage enclosure and shelf shall be fabricated from 16-gauge steel and have a black powder-coated finish. The door shall be constructed from 5/8" thick MDF board and be covered with .040" thick high-pressure laminate on both sides. The edges shall be painted black. The door when opened by pressing a steel latch and catch assembly shall automatically rise by the force stored in two gas cylinders. These cylinders shall also provide the variable length linkage used to raise the pivot rod which shall activate dual scissors mechanisms hidden beneath a shelf. Each scissors mechanism shall be made from two 14-gauge x 5/8" wide straps, which are punched to accept plastic wear bushings. Upon reaching the maximum open position the cover shall automatically be fixed in that position by an 11-gauge steel gravity-activated lock

bracket. The unit shall allow access to the underside of the shelf if necessary due to the spillage of liquid or for cleaning or retrieval of a lost item in this position only. This shall be accomplished by lifting the shelf.

Garage Operation

The Laptop Garage unit shall be accessed by a simple push of a steel latch located on the front panel of the unit. Two gas cylinders shall raise the cover approximately 20 degrees. Manually lifting the cover to 14 degrees past vertical will automatically engage the gravity lock bar. This motion shall be assisted by (2) compression springs. Closing the unit shall be accomplished by pressing the gravity lever away from the user to release the cover, then pulling it down to the closed position. A rotary motion damper shall dampen the cover's movement. Final latching shall happen when the cover becomes flush with the primary worksurface.

Optional Lock Mechanism

Locking units shall be equipped with an

110/120v keyless operated solenoid. The solenoid shall allow the locking sequence to begin with the unit's cover in any position. Locks shall be programmable to lock and unlock all units within a room at the same time or individually. Keyless remotes ordered separately.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.
 • The absence of the ☐ indicates that no choice is required.
 • Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select horizontal wireway.

Add upcharge to unit price for WW option.

NW - No horizontal wireway

WW - Wireway

C Select paint color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
 Paint color includes pedestal.

D Select insert color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
 Insert color also includes horizontal wireway (WW) if selected.

E Select laminate surface.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

F Select edge color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
 Edge color offerings are based on edge style selections.

G Select fabric for privacy screen.

Refer to color addendum at ki.com or in KI Fabrics & Finishes binder.

H Select grommet option.

Grommets are required for overhead cabinet.

OGN - No worksurface grommet

OGY - Yes worksurface grommet

Grommets can be used for wire pass-through.

I Select pack option.

BP - Blanket pack

CP - Commercial pack

J Select key option.

KA - Key alike

KS - Key standard

NLC - No lock core

The key option is for the overhead. The pedestal is keyed as standard.

K Select grommet color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The □ indicates that a choice is required.

- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select edge style.

BN - Flat vinyl T-edge

74P - 74P edge

EP - Elliptical postformed edge

PF - Postformed edge

C Select height.

7 - 27" high

9 - 29" high

2 - 42" high

42" height only available on Stand-up worksurface.

D Select horizontal wireway.

Add upcharge to unit price for WW option.

NW - No horizontal wireway

WW - Wireway

E Select frame style.

Add upcharge to unit price for WF option.

WB - w/ Beam

WM - w/ Modesty panel

WF - w/ Full modesty panel

w/ Full modesty panel (available on 29" high only)

F Select location and type of leg.

TS - Standard legs

TL - Transition leg (left)

TR - Transition leg (right)

TB - Transition leg (both)

Note: If ordering Basic Worksurface as a freestanding unit, or if only one side connects to a transitional worksurface, the "TB" option for both transitional legs is not available.

G Select grommet option.

Grommets are required for overhead cabinet.

OGN - No worksurface grommet

OGY - Yes worksurface grommet

Grommets can be used for wire pass-through.

H Select paint color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

I Select insert color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder. Insert color also includes horizontal wireway (WW) if selected.

J Select base option.

NC - With glides (standard)

WC - With casters; add \$57

K Select laminate surface.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

L Select edge color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.

M Select grommet color.

Refer to color addendum at ki.com or

FINISH INFORMATION

Additional Laminate Offering
Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.
Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select edge style.

BN - Flat vinyl T-edge
74P - 74P edge

C Select transition direction.

L - Left
R - Right
X - None

Transition direction is determined from the originating 24" or 30" basic or keyboard pad worksurface. All corner transitional surfaces connected at the same height do not require right (R) or left (L) transition direction. Use "X" for transition direction. Transition height required for "97" transitional.

D Select transition height.

77 - 27" to 27" high
97 - 29" to 27" high
99 - 29" to 29" high

E Select horizontal wireway.

Add upcharge to unit price for WW option.

NW - No horizontal wireway
WW - Wireway

F Select frame style.

Add upcharge to unit price for WF option.

WB - w/ Beam
WM - w/ Modesty panel
WF - w/ Full modesty panel
w/ Full modesty panel (available on 29" high only)

G Select grommet option.

OGN - No worksurface grommet
OGY - Yes worksurface grommet
Grommets can be used for wire pass-through.

H Select paint color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

I Select insert color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder. Insert color also includes horizontal wireway (WW) if selected.

J Select laminate surface.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

K Select edge color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder. Edge color offerings are based on edge style selections.

L Select grommet color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.

BN	- Flat vinyl T-edge
74P	- 74P edge
EP	- Elliptical postformed edge
PF	- Postformed edge

C Select transition direction.

L	- Left
R	- Right

Transition direction is determined from the originating 24" or 30" basic or keyboard pad worksurface. When ordering an End-of-Run worksurface, the adjoining worksurface must have a transitional leg. Order a right or left transitional.

D Select height.

7	- 27" high
9	- 29" High

E Select horizontal wireway.

Add upcharge to unit price for WW option.

- | | |
|-----------|-------------------------|
| NW | - No horizontal wireway |
| WW | - Wireway |

- F** Select frame style.
Add upcharge to unit price for WF option.

Overall height from worksurface to top of overhead is 36".
Overhead allows for 19¹/₂" clearance from worksurface to underside to shelf.

SPECIFICATIONS

Universal Overhead Cabinets

Overhead storage shall consist of overhead cabinet(s) and shelves. Overhead storage shall attach to worksurface with two overhead support stanchions for 30", 36", 42", 48", 54" and 60" sizes. Three overhead support stanchions for 66" and 72" sizes. 66"overheads shall consist of a 30" and 36" overhead combination. 72" overheads shall consist of a pair of 36" overheads.

Shelf dividers shall be powder-coated steel with installation and removal accomplished without the use of tools or fasteners.

Universal overheads and shelves shall be 17" high and shall have 19-1/2" clearance between the worksurface and the bottom of shelf. Overhead doors shall be available with painted steel, fabric, laminate, or veneer, with a Polypropylene extrusion handle. Locks shall be randomly assigned or keyed per customer requests. The end panels shall

be constructed of 14-gauge steel and have self-locking mounting tabs formed into the back edge. The shelf, back, and top shall be constructed from 18-gauge steel.

Balance® Overhead Cabinets

Overhead storage shall consist of overhead cabinet. Overhead storage shall attach to worksurface with two overhead support stanchions for 30", 36", 42", 48", 54", 60", 66" and 72" sizes.

Shelf dividers shall be powder-coated steel with installation and removal accomplished without the use of tools or fasteners.

Balance® overheads shall be 17" high and have 19-1/2" clearance between the worksurface and the bottom of shelf. The upper door shall be available in colored or translucent extruded rigid Polypropylene with spatter-coat finish, fabric, or laminate applied. The overall door thickness shall be 3/8". The lower door shall be an aluminum extrusion and be ergonomic in design. A center lock mechanism shall be utilized

between the upper and the lower doors for security. The overhead doors shall be effortlessly operated from either a seated or standing position through use of the upper or lower door. The upper door and lower door shall be synchronized in motion through the use of two 10-gauge linkages. The doors shall be assisted with two extension springs and require less than 5 pounds of force to operate. The upper door shall open over the outside of the case.

Privacy Screens (WZPR)

Two or three 1/8" cold rolled steel brackets, sandwiched between two 1/2" Gypsum boards joined together with industrial adhesive. The screens attach to the back of the worksurface with fasteners. Steel splice plates are used to align adjoining screens. Privacy screen is 19-1/2" high above worksurface.

Key Options

There are various key options available depending on the component model. The key alike option (KA) allows multiple

components of a workstation to be keyed alike. The lock number can be specified. The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The no lock core option (NLC) provides more flexibility in keying workstations alike. All locks and keys for the individual components specified with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation.

Fabric

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied. The posted standard lead time will apply to the Special Cost Request.

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

Kl's standard finish is the supplier's recommended finish for that color/pattern.
Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime.

SPECIFICATIONS

Letter Tray
20-ga. epoxy powder-coated steel, and plastic molded in color, then painted to assure color match. Steel and plastic joined permanently by sonic welding. Roll formed steel clip for component attachment to tool rail. ID clips included with tray.

Binder Bin
20-ga. epoxy powder-coated steel, and plastic molded in color, then painted to assure color match. Steel and plastic joined permanently by sonic welding. Roll formed steel clip for component attachment to tool rail. ID clips included with tray.

Slanted Storage
24-ga. epoxy powder-coated-steel, and plastic molded in color, then painted to assure color match. Steel and plastic joined permanently by sonic welding. Roll formed steel clip for component attachment to tool rail.

Key Options
There are various key options available depending on the component model. The key alike option (KA) allows multiple components of a workstation to be keyed alike. The lock number can be specified. The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The no lock core option (NLC) provides more flexibility in keying workstations alike. All locks and keys for the individual components specified with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select edge style.

BN - Flat vinyl T-edge

74P - 74P edge

EP - Elliptical postformed edge

PF - Postformed edge

C Select PowerUp® module location.

PUN - No module

PUL - Left module; add \$119

PUR - Right module; add \$119

PUC - Center module; add \$119

PUB - Both left and right modules; add \$241

PUB option only available on 60", 66" and 72" wide worksurfaces. PUC option: Overhead storage is not available on 66" or 72" basic WorkZone worksurfaces with center location PowerUp modules.

D Select height.

7 - 27" high

9 - 29" High

E Select wire trough.

Add upcharge to unit price for WT option.

NT - No wire trough

WT - Wire trough

Available in black only.

F Select electrical option.

Add upcharge to unit price for T6 option.

NP - No power

T6 - T6 power

If T6 power is specified, receptacles, jumpers and infeeds are to be specified separately

G Select frame style.

Add upcharge to unit price for WF option.

WB - w/ Beam

WM - w/ Modesty panel

WF - w/ Full modesty panel

w/ Full modesty panel (available on 29" high only)

H Select location and type of leg.

TS - Standard legs

TB - Transition leg (both)

TL - Transition leg (left)

TR - Transition leg (right)

I Select grommet option.

Grommets are required for overhead cabinet.

OGN - No worksurface grommet

OGY - Yes worksurface grommet

Grommets can be used for wire pass-through.

J Select paint color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

K Select insert color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder. Insert color also includes wire trough (WT) if selected.

L Select laminate surface.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard
offering, are available with two weeks
extended leadtime. To specify additional
laminates, use these designators followed by
the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recom-
mended finish for that color/pattern.

Note: Nonstandard laminates from these
suppliers (example: textured laminates),
require an upcharge and additional leadtime.
Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.

- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.

- B** Select edge style.

74P - 74P edge
EP - Elliptical postformed edge
PF - Postformed edge

- C** Select PowerUp® module location.

PUN - No module
PUL - Left module; add \$119
PUR - Right module; add \$119
PUC - Center module; add \$119
PUB - Both left and right modules; add \$241
 PUB option only available on 60", 66" and 72" wide worksurfaces.

- D** Select wire trough.

Add upcharge to unit price for WT option.
NT - No wire trough
WT - Wire trough
 Available in black only.

- E** Select electrical option.

Add upcharge to unit price for T6 option.

NP - No power
T6 - T6 power

If T6 power is specified, receptacles, jumpers and infeeds are to be specified separately

- F** Select frame style.

Add upcharge to unit price for WF option.

WM - w/ Modesty panel
WF - w/ Full modesty panel

- G** Select grommet option.

Overhead cabinet can NOT be ordered.

OGN - No worksurface grommet

OGY - Yes worksurface grommet

Grommets can be used for wire pass-through.

- H** Select paint color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.
