EFFECTIVE DATES: June 1, 2014 through May 31, 2015

EXTENDED DATES: June 1, 2015 through May 31, 2016

1. AUTHORITY

- 1.1 This certifies that a contract has been executed between the Office of Purchasing and Travel, an Office of the Department of Finance and Administration for the State of Mississippi and the herein designated contractor or contractors pursuant to Section 31-7-7, Mississippi Code of 1972, Annotated, for the commodities specified herein.

2. APPLICATION

- 2.1 All purchases made by state agencies for commodities included under the provisions of this contract shall be purchased from the contractor receiving the award unless exempt by special authorization from the Office of Purchasing and Travel.

Under the provisions of Section 31-7-7 Mississippi Code of 1972, Annotated, the prices offered herein may be extended to the governing authorities. However, the governing authorities, by provisions of Section 31-7-12, Mississippi Code, may purchase commodities covered by state contracts from any source offering an identical commodity at a price that does not exceed the state contract price.

Commodities purchased under provisions of this contract from the awarded contractor or contractors or authorized distributors shall be exempt from competitive bid requirements otherwise applying to purchases by state agencies and governing authorities. Applicable purchase orders issued by state agencies, regardless of the total amount, do not require further approval by this office.

The term, governing authorities, shall be defined as to mean boards of supervisors, governing boards of all school districts, all boards of directors of public water supply district, boards of directors of master public water supply districts, municipal public utility commissions, governing authorities of all municipalities, port authorities, commissioner and boards of trustees of any public hospitals and any political subdivision of the state supported wholly or in part by public funds of the state or political subdivisions thereof.

3. RESTRICTION

- 3.1 Commodities not specifically listed herein may not be purchased under the provisions of this contract. It shall be understood that this contract supersedes all other contractual agreements applicable to the commodities covered herein.

During the term of this contract no purchase of the above designated commodities manufactured and/or distributed by the designated contractor or contractors shall be made at a price in excess of that established by the prices set out in this contract.

All orders shall be f.o.b. destination for orders of one thousand (1M) or more rounds. Orders cannot be refused if they fail to meet this minimum. If an order falls below one thousand (1M) rounds, a delivery fee which shall not exceed the actual invoiced freight may be added. CATALOG NO.: 680-41

EFFECTIVE DATES: June 1, 2014 through May 31, 2015

EXTENDED DATES: June 1, 2015 through May 31, 2016

- 4.2 Minimum Order Quantity: State agencies purchasing less than \$100 will not be required to buy from the state contract vendor. Vendors may honor the price for orders of less than \$100.
- 4.3 Delivery: Delivery shall be accomplished within thirty (30) days after receipt of order. If adverse conditions exist, this time frame could be modified slightly as circumstances warrant. If adverse conditions exist, this time frame could be modified slightly as circumstances warrant.

5. OTHER INFORMATION

- 5.1 Exemption Certificate: All agencies and governing authorities shall execute a certificate of exemption with each contractor, at or before issuing its first purchase order under this contract.
- 5.2 Catalog Format: Contract Format: OPTFM has listed a state contract number and a state contract *smart* number. The contract number is an automatically generated number. The smart number is a more unique identifier that lists OPTFM's agency's number, contract year and shows agencies that it is a statewide contract. Also there is an asterisk listed at the end of the smart number. The asterisk is added at the end of the number for searchable purposes only when searching in MAGIC; this is because each time a contract is changed, the Version number of the contract changes. It is not actually a part of the smart number. Either number can be used by agencies to search for this contract in the State's e-procurement system.
- 5.3 Description Format: The description format begins with a description of the minimum requirements. Following the minimum requirements is the rounds per box and boxes per case, the brand and load number of the item. In some instances, the actual description will not be the same as the minimum requirements. In these cases, the minimum requirements are followed by the actual description bracketed with asterisks.

6. ORDERING

- 6.1 Purchase Order Information: In writing the purchase order it will be necessary that you include the following information referencing the product.
 - A. Contract Number
 - B. Effective Dates
 - C. Item Name
 - D. Item Number
 - E. Brand and Stock Number
 - F. Quantity
 - G. Unit Price (per case)
