

ARE YOU RECYCLING YOUR SHOULDER GRAVEL?

The **All American** **DiSK**

- An efficient tool for grading road shoulders; removes berm on roadside edge to enhance water runoff.
- Prepares gravel on roadside edge for smooth, efficient transfer to road crown.
- Removes clumps of rooted material for even grading.
- Made from quality materials for years of trouble free service.
- Attaches to any tractor with a Category II three point hitch.
