

3-POINT HITCH BOOM MOWERS

RAISING THE BOOM.

CONSTANTLY RAISING OUR GAME.

*At Diamond Mowers, no job is done casually and no work is unimportant. We build the toughest, most reliable and safest heavy-duty equipment in the business. It's that simple. We raise everything in Sioux Falls, South Dakota, USA and that goes for our line of 3-Point Hitch Boom Mowers. Demand Better. **DEMAND DIAMOND.***

BUILT ABOVE AND BEYOND

No matter what dimension or weight our equipment might be, it is always built with a heavy-duty, all-day attitude. Always. Our line of 3-Point Hitch Booms raises your capabilities and efficiency every single day they're in the field. These units clean overgrowth from fence lines, cut back overhead trees, handle CRP and terraces, ditches, waterways and more. 3-Point Hitch Boom Mowers mount on tractors with ease and dismount just as easily. All Diamond 3-Point Hitch Boom Mower shells are constructed of 100,000 psi steel housing—a rating nearly 3x stronger than standard A36 steel. Take down all manner of brush and various tree sizes, leaving behind a Diamond shine.

*Demand Value. **Demand Diamond.***

ROTARY VS. FLAIL: GOING HEAD-TO-HEAD

Well, it's not really a fight. Both our rotary and flail heads are top notch (actually, they're 2 notches above top notch). The difference is the working environment, your needs and the ultimate goal.

The **ROTARY MOWER** is an overall faster cut for brush and some trees. It leaves a rougher cut than the flail's finer finish. And, the rotary does require some added safety precautions. Over the long haul it can cost you less to operate.

The **FLAIL MOWER** offers a safer operating platform, while providing a much more manicured and clean cut. Its higher quality cut will require a slower tractor speed. In long-term costs it will generally run higher than the rotary mower.

*Demand Right. **Demand Diamond.***

3-POINT HITCH BOOM MOWERS

AVAILABLE MOWER HEADS

40" ROTARY MOWER HEAD

- Cuts up to 4" diameter brush/trees
- Diamond proprietary Tri-Hex mulching disc provides greater inertia in tough conditions. *Tri-Hex disc is covered by an unprecedented 5-year warranty.*
