COMMITMENT TO INNOVATION

Point Blank Body Armor, Inc. is recognized as one of the first companies in the United States to design and manufacture body armor. Since 1973, Point Blank has grown into an internationally diversified company with the most visible brand recognition, considered today to be the premier source of body armor systems in the world.

At Point Blank, we know the complex and ever changing threats law enforcement and corrections officers face each day and intrinsically understand their needs for optimum ballistic protection that combines maximum comfort and mobility with split-second adaptability.

For over 4 decades, Point Blank has helped shape major developments in the body armor industry. Our unyielding commitment in delivering maximum-performance products which consistently exceed military, National Institute of Justice (NIJ) and International requirements are a testament to our superior quality standards.

LIVE FIRE SHOOT DEMONSTRATIONS

Since the value of body armor has become so clear in light of today's hostile conditions, our engineering team and ballistic specialists take extraordinary measures in ensuring that our armor is consistent with the needs of our customers.

We continuously monitor the law enforcement and corrections communities to assess the potential of new street and institutional threats. Once a new product is available, our highly trained technical support specialists routinely perform live-fire shoot demonstrations nationwide. These events allow law enforcement officials and our distributors an opportunity to experience the exceptional performance of our ballistic systems first-hand.

Wear It For LIFE™

BALLISTICS

Protecting your community starts with equipping yourself with body armor that not only meets the highest level of protection but also exceeds your expectations for lightweight comfort and performance. At Point Blank, we're constantly pushing the limits beyond what you thought was possible in ballistic technology. We currently have more NIJ .06 certified products than any other ballistics company in the industry with a key emphasis of providing our customers with lighter, more flexible body armor systems with greater ballistic capabilities. More officers trust the Point Blank brand because when it comes to meeting your needs for life protecting technology, expectations can never be too high.

All models, data and specifications are subject to modification by manufacturer without notice.

Inside our world-class PBEI Technology and Testing Center, a state-of-the-art ballistic laboratory allows us to continuously develop maximum-performance products which consistently exceed National Institute of Justice (NIJ), U.S. Military, Government (DEA and FBI) and International testing requirements. The Center also includes a dedicated R&D Garment Design Department that designs cutting-edge concealable and tactical carriers and a host of tactical accessories with the highest level of ergonomic fit and finish. This combination of ballistic expertise and garment design provides a seamless culmination of the most advanced body armor systems that are unparalleled in ballistic protection and comfort.

At Point Blank, we strive to produce systems that combine maximum comfort and mobility with split-second adaptability. We are excited to offer you the latest advancements in ballistic technology and more options according to your required threat level and specifications for weight and performance.

born from science.

proven by the elite.

ALPHA ELITE

First Among The Finest

Battle-tested by the military elite and now available for law-enforcement professionals, the Alpha Elite Series doesn't just surpass previous levels of performance and comfort.

It creates an entirely new standard.

A Revelation: Dyneema®

Force Multiplier Technology by DSM

The Alpha Elite Series is the first body armor to be based on Dyneema® Force Multiplier Technology by DSM, available only from Point Blank. It breaks new ground in polymer science and ballistic technology. DSM Dyneema started with Dyneema®, the world's strongest fiber, and made it even stronger. In its unique unidirectional construction, it results in body armor weighing just 0.63 pounds per square foot (NIJ Level II) achieving a new low in weight and a new high in flexible, all-day comfort. But there's much more to the Alpha Elite story:

- Created for – and combat-proven by – elite U.S. special-operations forces
- Multi-hit and special-threat performance that exceeds FBI protocol
- Available in concealable and tactical configurations
- NIJ Standard 0101.06 certified

FEEL THE LIGHT.

ALPHA ELITE
BLACK

The World's Lightest Level IIIA Body Armor, Even Lighter

When Point Blank introduced the revolutionary Alpha Elite Series, we set a new low, creating the lightest body armor in history. Now we've done it again. The new Alpha Elite Black is even lighter than our original Alpha Elite, weighing a mere .79 psf. And with the latest generation of Dyneema® Force Multiplier Technology by DSM, a Point Blank exclusive, it offers a combination of light weight and protection previously unknown to ballistic science—with 9mm V50s greater than 2,000fps!

Contact us today to learn more. And get ready to Feel The Light.

CONCEALABLE

Point Blank’s Concealable Body Armor Systems are specially designed to defeat specific threats and to suit personal needs for comfort and fit. The Elite, Vision®, Hi-Lite, Python, and Standard concealable carriers showcase leading-edge innovations which address critical factors such as the officer’s work environment, type of duty assignment/ammunition, and geographic climate, among others. The end result of our uncompromising due diligence are vests that you can comfortably wear everyday, that are backed by Point Blank’s unparalleled quality assurance standards.

Self Suspending Ballistic System

The Solution to Gravity

WITH Self Suspending Ballistic System keeps ballistic panels in place and maximizes coverage area.

WITHOUT Self Suspending Ballistic System, ballistic panels can potentially sag and wrinkle.

ThorShield™

While body armor saves lives and less-lethal devices such as electric stun guns prevent some fatal encounters, officers remain exposed if their body armor does not include ThorShield™. ThorShield™ is a highly conductive, specialized fabric that is placed inside of a carrier. It ensures the electric current discharged from an electro-shock weapon flows through the fabric rather than the body.

Durable, lightweight and exceptionally flexible, ThorShield™ is exclusively available in Point Blank body armor products.

All models, data and specifications are subject to modification by manufacturer without notice.

Key Features

Distinctive Carrier Shape

The shape of your ballistic panel affects the comfort, fit and long term wearability of your body armor. Point Blank offers several different options that allow you to select a shape according to your individual preference for coverage and comfort.

Considered the new benchmark for concealable body armor, the ergonomic design and shape of Point Blank’s carriers emphasize comprehensive protective coverage while offering maximum maneuverability.

MC Shape

The MC is a male concealable ballistic pattern which is designed to increase concealability without sacrificing coverage or interfering with mobility. It utilizes Point Blank’s proprietary Self Suspending Ballistic System.

MX4 Shape

The MX4 is a female concealable ballistic pattern which is designed with a contoured shape to accommodate the female anatomy while providing optimal ballistic coverage and around-the-clock comfort. It utilizes Point Blank’s proprietary Self Suspending Ballistic System.

Python Shape

The Python is a male concealable ballistic pattern which is designed to offer an alternative fit style for males as well as an alternative suspension system and shoulder adjustment.

Trilhouette Shape

The Trilhouette is a female concealable ballistic pattern which is designed to offer an alternative fit style for females as well as an alternative suspension system and shoulder adjustment.

Trufit Shape

The Trufit is a mid-chest ballistic pattern which is designed with more coverage on the sides of the chest to accommodate both males and females with athletic builds. It utilizes Point Blank’s proprietary Self Suspending Ballistic System.

ELITE MALE

Features

Ergonomically designed for a tailored fit with minimum visibility

Self Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier

Easy-access to ballistic suspension through peel-back shoulder design for easy adjustment

Smart-Fabric technology helps keep you cool, dry and comfortable

Durable Water Repellent (DWR), microfiber outer shell

Micro-Spacer Inner Mesh inset positioned along the parasternum features HeiQ moisture management and anti-microbial properties

Top Loading Combo Plate Pockets accommodate 5" x 8" trauma inserts as well as 6" x 8", 7" x 9" or 8" x 10" plates in front & back

Four 2" x 12" elastic side straps with hook tabs offer 8 point adjustability

Optional 4" x 12" side straps available

Two Breathe-O-Prene® shoulder straps

Removable elastic cummerbund stabilizes vest and provides a secure fit

Easy access ballistic panel removal with external YKK standard zipper on outer lower torso

Low profile loop used for side strap attachment points

Narrow front tail design provides a secure, less bulky fit (available with or without shirt tails)

Available with ThorShield™ sleeve electroshock weapon protection (optional)

Elite concealable ballistic panels fit into Crossover Carriers

Available in MC shape

Available colors:

Black, White, Navy & Tan

Introducing the Revolutionary Elite Body Armor System

Incorporating the latest advancements in ballistic and Smart Fabric technology the new Elite concealable body armor system truly outperforms and over delivers in weight, thinness, flexibility and overall performance. Offered with virtually the lightest weight and highest performing NIJ .06 Level II and IIIA ballistic systems in the market today, the Elite vest provides unparalleled comfort and protection, that is matched by none.

Elite NIJ 0101.06 Ballistic Options

Available with NIJ .06 Level IIA, II and IIIA Ballistic Systems

ELITE FEMALE

Features

Contoured shape forms around the female frame and bust area

Flexible design provides optimum maneuverability and comfort for daily wear

Self Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier

Easy-access to ballistic suspension through peel-back shoulder design for easy doffing and donning

Smart-Fabric technology helps keep you cool, dry and comfortable

Durable Water Repellent (DWR), microfiber outer shell

Micro-Spacer Inner Mesh inset positioned along the parasternum features HeiQ moisture management and anti-microbial properties

Top Loading Combo Plate Pockets accommodate 5" x 8" trauma inserts as well as 6" x 8", 7" x 9" or 8" x 10" plates in front & back

Four 2"x8" elastic side straps with welded hook tabs offer 8 point adjustability: Optional 4"x8" side straps available

Two Breathe-O-Prene® shoulder straps

Removable elastic cummerbund stabilizes vest and provides a secure fit

Easy access ballistic panel removal with external YKK standard zipper on outer lower torso

Low profile loop used for side strap attachment points

Narrow front tail design provides a secure, less bulky fit (available with or without shirt tails)

ThorShield™ sleeve electroshock weapon protection available (optional)

Available in MX4 & Trufit shape

Available colors:

Black, White, Navy & Tan

Shown in Navy

Lightest Weight Ballistic Performance

Available with the Alpha Elite Ballistic Series, the Elite offers superb performance plus the lowest weight ever to be achieved in body armor at an unprecedented 0.79 pounds per square foot for a NIJ .06 Level IIIA model.

VISION MALE

Features

Self Suspending Ballistic System™ (SSBS) provides optimal protective coverage

Outlast® Smart Fabric technology inner material helps keep you cool and dry

ThorShield™ sleeve electroshock weapon protection (optional)

Aegis™ antimicrobial protective properties resists growth of bacteria, mold and mildew

Durable Water Repellent (DWR) micro-fiber outershell

Removable 2"x12" waist straps provide 8-point adjustability - Optional 4"x12" straps available

Removable internal cummerbund stabilizes rear ballistic panel and helps prevent riding up when sitting

Top loading, low profile plate pockets in the front and back accommodates 5"x8" Trauma inserts as well as 6"x8", 7"x9" or 8"x10" SPEED Plates, depending on the size of the carrier.

With DryRun™ Technology

Hi-Lite concealable carriers feature high performance comfort fabrics called DryRun®, which utilizes Sorbtek® permanent moisture management and environmentally safe A.M.Y.® antimicrobial yarns. Through its Catch/Move/Release technology, DryRun® provides up to 6 times more moisture movement capacity than standard nylon, polyester and other moisture wicking fabrics. Less bacteria also means less odor through A.M.Y.®, which permanently inhibits the growth of odor causing bacteria on fabrics.

MOISTURE MANAGEMENT PERFORMANCE (15 cm movement time in minutes)

Sorbtek®

A.M.Y.®

antimicrobial yarns for odor control

STANDARD

MALE

Male Features

Durable outershell is constructed of first quality, dimensionally stable 65% polyester/ 35% cotton fabric with a soil resistant finish

Integrated carrier design provides comprehensive protective coverage with enhanced mobility

Removable 2"x12" waist straps provide 8-point adjustability - optional 4"x12" straps available

Self-Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier

Plate pockets in the front and back accommodate 5"x8" Trauma inserts as well as 6"x8", 7"x9" or 8"x10" SPEED Plates for additional blunt trauma protection

Removable internal cummerbund stabilizes rear ballistic panel and helps prevent riding up when sitting

Split shirt tail construction or optional no tail

Standard concealable ballistic panels fit into Crossover Carriers

Available in MC shape

Available colors: Black, White, Navy & Tan

An Industry Standard

The Standard ballistic system has earned a reputation as the reliable "workhorse", capable of defeating high energy threats while providing lightweight wearability. Officers throughout the country trust this industry standard and continue to depend on it for their protection.

Female Features

Contoured carrier construction offers greater maneuverability

Smart Seam™ construction comfortably supports the bust and accommodates different measurements

Self Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier

Adjustable side straps offer 8-point adjustability

Durable, poly/cotton outershell construction

Standard plate pocket in the front and back to conceal 5x8", 7"x9" or 8x10" SPEED Plates

Removable internal cummerbund

Narrow cut, shirt-tail construction or optional no tail

Additional protection - includes 5"x8" Soft Trauma Insert

Available in MX4 & Trufit shape

Available colors: Black, White, Navy & Tan

CROSSOVER

Point Blank's Crossover carriers offer the ultimate fusion of comfort and around-the-clock performance. Combining the ergonomic design of a concealable carrier with the functionality of a load-bearing vest, Crossover carriers such as the R20-D, Uniform Shirt Carrier (USC), Gresham, Endeavor, and MAVERICK provide the best combination of form, fit, and versatility. Ideally suited for daily wear in any environment, these multi-functional carriers allow for rapid insertion of Point Blank ballistic panels. In minutes, the officer has ballistic protection in a lightweight, exceptionally durable carrier that can be easily adapted for equipment-carrying assignments.

All models, data and specifications are subject to modification by manufacturer without notice.

Key Features

Self-Suspending Ballistic System (SSBS)

This patented, low profile ballistic suspension system features stretch Breathe-O-Prene® shoulder straps which directly connects to the front and back ballistic panels, ensuring firm placement inside the carrier. By keeping the ballistics completely suspended, this highly effective strapping feature prevents the ballistic panels from rolling, sagging and bunching. It also helps maintain the original shape and coverage of the ballistic panels throughout the life of the vest.

Load Bearing Capability

Point Blank's Crossover Carriers feature heavy-duty, nylon stitched, load bearing webbing which provides quick and secure attachment of various MOLLE compatible pouches and accessories – in just about any location on the vest. This provides convenient customization according to your individual requirements, while giving you the opportunity to utilize other magazine pouches and issue gear. Integrated front and back pockets also accommodate hard armor plates so that you can immediately upgrade your protection.

GUARDIAN

- Adjustable shoulders and side area
 - Left and right shoulder mic tabs
 - VELCRO® and pin badge area
 - Center zipper for easy don / doff
 - VELCRO® name plaque
 - Two chest zipper pockets
 - Two lower VELCRO® pockets
 - Inner spacer mesh material areas
 - Removable internal cummerbund
 - Rear drag handle
 - Internal front plate pocket and top loading back plate pocket
 - Available in MOLLE and slick configuration
 - Cable routing openings
- Available colors:** Black, Ranger Green, OD Green & Midnight Navy

GUARDIAN FRONT OPENING Specially Designed...

Easy to don and doff, the Guardian combines the versatility of a front opening vest with an advanced design which offers maximum protective coverage.

Guardian Options

- SPEED Plates & SPEED Plates Plus
- Level III or IV Hard Armor Plates
- Additional Equipment Pouches
- Custom Agency ID Placard

Shoulder Strap Attachment Point

HI-VIS

The Hi-Vis carrier is specially designed for first responders. Within minutes, the Hi-Vis carrier can provide up to Level IIIA protection with insertion of Point Blank concealable ballistic systems. The responder can quickly don the newly converted vest, while the ballistic panels remain comfortably suspended from the shoulders. This versatile vest provides instant protection, multi-functional utility pockets to hold emergency equipment and optimum comfort in the most challenging environments.

Hi-Vis Options

- SPEED Plates & SPEED Plates Plus
- Level III or IV Hard Armor Plates

Shoulder Strap Attachment Point

HI-VIS FRONT OPENING CARRIER

- Adjustable shoulders and side area
 - Left and right shoulder mic tabs
 - Center Zipper for easy don / doff
 - Sewn on utility pockets
 - Mesh inner material for breathability
 - Internal plate pocket
 - High visibility material
 - Reflective tape
 - Cable routing openings
- Available color:** (as shown)

MAVERICK CARRIER

Specially Designed...

... to offer exceptional load bearing capabilities, the MAVERICK's durable construction can be easily adapted for equipment-carrying assignments. Instantly convert the MAVERICK into a protective vest with up to Level IIIA protection by inserting concealable ballistic panels. Highly versatile in design, the MAVERICK provides optimal functionality, comfort and performance.

Patented Self-Suspending Ballistic System (SSBS) keeps ballistic panels in place

500 denier nylon Cordura® carrier construction

Four rows of MOLLE compatible webbing around the vest

Adjustable side wings offers a secure fit and accommodates 5" x 8" trauma insert (optional)

Back to front side closure system with front overlap

Hidden, dual front "kangaroo" pockets capable of securing AR-15, M16, or similar magazines on front flap

Front plate pocket accommodates 5" x 8" trauma, 8" x 10" or 10" x 12" hard armor plates

Back plate pocket accommodates 8" x 10" or 10" x 12" hard armor plates

Adjustable internal cummerbund for load bearing stabilization

Ambidextrous cable channels from shoulder to mid-chest

Non-skid surfaces and curved "butt retention" system for ambidextrous weapon mounting

Mic tabs on shoulders for radio handsets

Easy Break Away Shoulder System with snaps and VELCRO® Brand Fasteners

Front and back 3" x 9" ID panels

Reinforced man-down strap

Available colors: Black, Red, OD Green, Ranger Green & Midnight Navy

POINT BLANK INTERNATIONAL

GEN 2

The Point Blank International is specially designed to meet global needs for a dual-functioning carrier which incorporates the contoured shape of a concealable vest which can also be worn externally as a tactical vest. This extremely versatile body armor system offers optimum adjustability with instant rifle protection by inserting hard armor plates in the front and back, easy access pockets. The result - maximum protection and total comfort at an exceptional value.

Removable ID patches

Top loading plate pocket

Elastic stretch side closure

Fits concealable shaped ballistics

Synch adjusting shoulder straps Side opening design with ballistic overlap provides greater adjustability and protective coverage

Internal cummerbund for adjustability

Bellowed plate pockets included on front and back of outer shell which allow for consistent, comfortable fit when ballistic panels are inserted

Front and back ID panel attachment area

Back to front adjustable side opening

Reinforced "man down" strap

Shoulder option designed to add removable ballistic protection or foam inserts for comfort

Available colors: Black, Coyote, OD Green, Ranger Green, Multi-Cam

GRESHAM ENDEAVOR

GRESHAM CARRIER

Accommodates Point Blank concealable side opening ballistic panels

500 denier nylon Cordura® carrier construction with MOLLE compatible webbing in the front

Top loading plate pocket accommodates a choice of 8" x 10" or 10" x 12" hard armor plates and 5" x 8" trauma inserts

Shoulder straps offers up to 3" of adjustability

Non-skid rifle stock retention surface

Concealed channel for communications wiring

Dual side closure system with VELCRO® Fasteners and durable safety lock buckles for a secure and adjustable fit

Internal cummerbund for greater stability and comfort

Fixed tab with dual grommets on upper left chest accommodates agency badge

1" x 5" Attachment point for ID placard in the front and 2" x 11" attachment for ID placard in the back

Mic tabs on shoulders

Man down strap

Available colors: Black, Midnight Navy & OD Green

ENDEAVOR CARRIER

Accommodates Point Blank concealable side opening ballistic panels

500 denier nylon Cordura® carrier construction with MOLLE compatible webbing in the front

Plate pocket accommodates 8" x 10" or 10" x 12" hard armor plates and 5" x 8" Trauma inserts

Specially shaped torso pads that are anatomically positioned to keep the wearer cool, dry and comfortable

Integrated shoulder design offers exceptional load bearing support

Webbing for radio handset on both right & left shoulders

Multiple access points for communications wiring

(2) Concealed kangaroo pouches to accommodate mags

(2) Multi-functional utility chest pockets (zipper access) with integrated pen compartments

1" x 5" Attachment point for ID placard in the front

1.5" x 3.5" Concealable ID front panel

4" x 11" Concealable ID back panel

Available colors: Black, Midnight Navy & OD Green

Options for Gresham & Endeavor

- SPEED Plates
- Level III or IV Hard Armor Plates
- Additional equipment pouches
- Custom agency ID placard

R20-D

R20-D CROSSOVER CARRIER

High-visibility identification with removable VELCRO® Fasteners can be placed on the front and back

Multi-functional pockets include (large and small utility pockets, mini flashlight pocket, magazine pocket and radio pocket)

Adjustable shoulder strapping system

Side-Closure System offers convenient adjustability with low profile VELCRO® Fasteners and elastic

Ballistic protection that accommodates NIJ Certified Point Blank ballistic panels

Internal pocket for trauma insert plate

Available colors: Black, OD Green, Ranger Green, Midnight Navy & Red

THE R20-D can be easily converted into a ballistic protective vest by allowing insertion of Point Blank ballistic panels. This carrier is offered with the following options (slick design, plate pockets, and MOLLE Compatible webbing system).

Go From **Covert**
To **Overt!**

R20-D Options

- R20-D With MOLLE Compatible Webbing System and Plate Pockets
- SPEED Plates/SPEED Plate Plus
- R20-D With Plate Pockets
- R20-D Firearms
- R20-D Slick

UNIFORM SHIRT CARRIER

The Uniform Shirt Carrier (USC) provides the protection you need with a stylized design that offers the professional appearance you want. Designed to be worn over the dress shirt, the USC features two multi-functional pockets, convenient side opening and a contoured shape for total comfort. Instantly convert the USC into a ballistic protective vest by inserting Point Blank concealable ballistic panels into the front and back interior pockets. Within a matter of seconds, the USC is ready to wear with up to Level IIIA protection.

MALE

Adjustable Side Straps

FEMALE

Durable polyester outershell

Soft poly/cotton inner lining

Adjustable shoulder strapping system

Internal pocket for trauma insert and hard armor plates

Two front pleated patch pockets

Concealable and removable adjustable side straps

Pen slits on pocket flaps for ambidextrous use

Badge tab holder

Name tab holder

Mic holder

Available colors: Black, White, Navy & Tan

Point Blank Ballistic Panels
Approved To Be Used With Uniform
Shirt Carriers, Including Those Offered
By "Elbeco" And "Blauer".

SPEED PLATES

SPEED PLATES & SPEED PLATES PLUS

SPEED Plates are the ultimate in lightweight armor protection against “exotic” rounds. Designed to be worn in the chest pocket of our concealable vests, SPEED plates are ultra thin and weigh only a half pound or less. These single curved plates feature 100% polyethylene construction.

Engineered to protect against high energy bullets, our **SPEED Plates Plus** are ultra-light, multi-hit protective inserts that consistently delivers exceptional ballistic performance against a wide-range of “special threats” bullets. As a Stand-Alone plate, it provides additional stopping power along with a high degree of trauma reduction, equaling unparalleled ballistic protection.

Features

- 1. Designed specifically with the patrol officer and first responder in mind to provide advanced rifle threat protection with their existing concealable vest system.
- 2. Stand-alone multi-hit rifle threat protection in an ultra thin, light weight package.
- 3. SPEED Plates Plus are designed specifically to defeat the most common rifle threats found on the street today (AR15/AK47)
- 4. Multiple shapes and sizes to easily upgrade your current trauma plate protection.
- 5. Advanced, lightweight hybrid design technology: No “spalling” or “fragmentation” found with heavy steel based plates.

TACTICAL

Point Blank's full-line of mission adaptable Tactical Body Armor Systems are exclusively designed to meet the demanding needs of high-risk tactical teams. Each vest features a fully-integrated modular design that offers instant adaptability, time-tested reliability and the most technologically advanced ballistic systems available today. More SWAT officers trust Point Blank's tactical vests because when it comes to responding to dangerous missions, they know there's no compromise when it comes to total protection.

Armor Protection Enhancement System

Point Blank's tactical vests are available with Level IIIA removable biceps and retractable groin protection which are essential in high risk situations. Designed for the active assaulter, the ballistic groin protector has a quick access pull-down feature and provides better range of motion. The biceps protector provides enhanced protection to the entire upper arm and shoulder area while accommodating trauma insert plates for additional protection. (Attachment for throat protector is also included).

Key Features

Self-Suspending Ballistic System (SSBS)

This patented, low profile ballistic suspension system features stretch Breathe-O-Prene® shoulder straps which directly connects to the front and back ballistic panels, ensuring firm placement inside the carrier. By keeping the ballistics completely suspended, this highly effective strapping feature prevents the ballistic panels from rolling, sagging and bunching. It also helps maintain the original shape and coverage of the ballistic panels throughout the life of the vest.

MOLLE Compatible Webbing System

Point Blank's tactical vests feature heavy-duty, nylon stitched, load bearing webbing which provides quick and secure attachment of various MOLLE compatible pouches and accessories – in just about any location on the vest. This interchangeable system offers convenient customization according to your individual requirements, while giving you the opportunity to utilize other magazine pouches and issue gear.

Optional GT Cobra Buckles Available

The GT Cobra Buckle System is available as an upgrade for PARACLETE® tactical vests. This adjustable system offers a variety of advantages, including the ability to easily don or doff the vest system without having to lift the front flap of the vest. The GT Cobra Buckle is extremely durable and lightweight—made of 100% high strength polymer with no metal components and a tensile load strength of 500 lbs with extreme crush-resistance. Designed to be more robust than any other type of plastic hardware buckle on the market, the GT Cobra Buckle is specially engineered for heavy load bearing operations and ideally suited for tactical carriers and applications that demand high performance. 100% U.S. Berry Compliant.

RAM-1

Ground Breaking...

... in design and ideally suited for response teams who require convenient load bearing capabilities combined with the flexibility to adapt to any rapid assault mission, the RAM-1 offers unsurpassed performance. With its ultra-durable construction and extreme versatility in fit, the RAM-1 offers brute force protection and more custom features than any other tactical vest on the market.

Self Suspending Ballistic System™(SSBS) keeps ballistic panels in place and optimizes protective coverage area

500 Denier nylon Cordura® DWR carrier construction with Spacer Mesh interior

Dual size combo plate pockets in the front and rear for 8"x10" or 10"x12" plates

Internal Plate Retention System with plate centering straps

Removable 4" internal cummerbund provides load-bearing stabilization

Adjustable, external cummerbund with removable stiffeners accommodate 5"x8" trauma inserts

Shock absorbing, 3" interior elastic shoulder straps for improved weight distribution and load bearing support

Shoulder strapping system offers up to 3" of adjustability with two D-rings for quick release

Ambidextrous shoulder webbing to hold radio microphone

Removable collar design offers improved helmet interface (optional)

Removable and adjustable throat protector (optional)

Removable bicep protector with plate pockets for optional 5"x8" ballistic plates (optional)

Two integrated "kangaroo" pockets capable of securing AR-15, M16 or similar magazines and bungee cord long arm to secure magazines

Heavy duty, reinforced "man down" strap

Durable butt retention surface for both left and right hand weapon mounting

Dual holster ambidextrous attachment system

Retractable, pull down groin protector (optional)

360° MOLLE Compatible Webbing Attachment System allows configuration of multiple pouches

High visibility, removable identification in the front, back and biceps

Multiple "web-clips" allow attachment of additional equipment

Complete tactical armor system includes 5 equipment pouches

Available colors: Black, Coyote, OD Green, Ranger Green and Multi-Cam

DRAGONFIRE GEN2

Taking Performance To The Edge...

... means not only delivering maximum protection but pushing the limits beyond what you thought was possible in a tactical vest. The Dragon Fire™ features Point Blank's exclusive Self Suspending Ballistic Technology, Rapid Release System and multiple sizing points for exceptional adjustability. This performance driven, side opening tactical armor system combines ultimate coverage and maneuverability with its ergonomically designed Critical Contour Cut while providing split-second adaptability - when you need it most.

NEW WEAPON CARRY SYSTEM

Our WCS (Weapon Carry System) is a one of a kind, unique, totally hands free, long gun carry system that creates little to no pressure points. A stable secure platform protects weapon/optics and gives the ability to select the safest muzzle direction, allowing you to draw your gun instantly. Whether hiking or hunting hogs, deer, dove, waterfowl or whatever task is required, the WCS is your one stop solution for weapon retention.

WCS AR

Designed to carry AR platformed rifles with or without accessories and compound bows.

1. Rifle safely secured in WCS AR

2. Grasp quick release and one-way snap

3. Firmly pull quick release away from WCS

4. Rifle ready to quickly deploy

WCS LONG GUN

Designed to carry shotguns, scoped rifles, SKS, AK47 and most long guns.

Quick Angle System

- Quickly and easily select the safest muzzle direction

Quick Draw

- Draw rifle with unbelievable speed and control
- Perform virtually any task imaginable while reducing fatigue
- Protects optics & increases gun safety by having positive gun control

WCS Long Gun shown in black with side extenders

Available Colors

- Multi-cam, Ranger Green and Kryptek Highlander

SPIDER

Designed to meet the ballistic protection needs of tactical forces, the SPIDER® features the most frequently requested mission specific options - all in this fully integrated tactical entry vest, unparalleled in security, comfort and functionality.

Features

Front opening design features 4" ballistic overlap and additional 3" side overlap

High performance ballistic protection accommodates front-opening Point Blank NIJ Certified Level IIIA ballistic systems

Removable throat protector is specially contoured for improved ballistic coverage

Removable 2-piece collar offers greater range of motion

Bicep plate pocket accommodates 5"x8" SPEED Plates

Adjustable cummerbund for additional load bearing support

Retractable groin protector and removable bicep protection

Hidden, dual front "kangaroo" pockets, capable of securing AR-15, M16 or similar magazines

Dual size combo plate pockets in the front and back accommodate 8"x10" or 10"x12" hard armor plates

Non-skid rifle stock retention surface for both right and left hand weapon mounting

Reinforced man down strap

Available with NIJ .06 Level IIIA Ballistic Systems

OPERATOR

Available with ThorShield

Originally designed for U.S.M.C. Special Operations Units, the OPERATOR tactical vest is specially engineered for speed and function. Ideal for tactical officers who need functional load-carrying capabilities with the versatility to adapt to any operation, the OPERATOR will hold up to the toughest demands while offering superior protection.

Operator NIJ 0101.06 Ballistic Options

Available with NIJ .06 Level IIIA Ballistic Systems

Features

- Shoulder cut allows proper stock weld
- Ultra low-profile protective coverage
- Modular system accommodates optional collar, throat, biceps, side gap, groin and lower back armor protection; accepts side SAPI carriers
- Front and back 10" x 12" internal plate pockets
- Front abdominal flap secures external cummerbund and includes kangaroo pouch for documents or holster
- Adjustable shoulder strapping system
- Emergency extraction drag strap
- Available colors:** Black, Coyote, OD Green, Ranger Green and Multi-Cam

NEW TWO-IN-ONE PLATE CARRIER

When a threat situation escalates and more than one operator needs hard armor protection, the Two-In-One Plate Carrier delivers the instant solution. This highly innovative plate carrier features front and back plate pockets for NIJ Level III or IV hard armor plates. Within a matter of seconds, a second operator can quickly remove the rear plate panel and don the plate carrier for immediate ballistic protection.

Features

- Accommodates 10" x 12" hard armor plates
- Has the ability to separate the back body to become a front for another person in need of protection
- One size fits most shoulder adjustment and elastic waistband
- Waist bands have pull straps to easily don and doff vest
- Can use 3" x 6" ID panels on front and back
- Additional 2" x 9" lower back ID panel and handle
- Durable and lightweight construction
- Can work with pouches (PCHMR3, PCHMR4 and PCHMD1)

K-9 TACTICAL

Designed by a Police K-9 Handler for his service dog, the K-9 Operations Vest is fully adjustable and may be deployed for searches, tracking extractions and more.

- Durable abrasion resistant outershell construction
- Improved adjustability at chest for a secure fit
- Designed for rapid donning/doffing
- Built-in harness guides
- Split collar for full range of motion during tracking
- Oversized Mil-Spec O-Ring for rapid lead attachment
- Spinal plate attachment for tactical
- Body, Chest and Tail Outershell

Available colors: Multi-Cam, Ranger Green, Tan and Black

TACTICAL ACCESSORIES

Enhance operational readiness and mission capabilities with our cutting edge tactical equipment. We deliver superior products that enhance the safety and performance of both domestic and international law enforcement and corrections professionals.

Key Features

Ballistic Shields

Ground breaking in design and unparalleled in functionality, maneuverability and overall performance, Point Blank offers a full line of ballistic shields available in different sizes, shapes and threat levels. Specially designed to provide greater agility for handgun deployment, the Aspis, Bellator, Phalanx and Trifecta shields provide multiple design features and provide exceptional protection against a variety of special threats.

Batons

Our complete line of batons are exceptionally durable and comfortable to carry and operate. The ergonomic design makes each model easy to access, open, control and retain due to the special grip options offered. Several different design configurations are available including a three-stage telescopic collapsible baton, alpha-lock baton, side handle baton, and straight batons in a variety of sizes that are engineered to meet your performance requirements.

Tactical Helmets

Constructed of high performing and light-weight aramid fibers in a composite matrix, our helmets provide solid protection against handgun bullets (9mm and .44 Magnum) and fragments. Our highly innovative helmet designs incorporate the latest bullet-resistant safety standards, customized sizing, ergonomic comfort, and technical functionality, developed specifically for law enforcement and military operations.

Hard Armor

Engineered to meet the unique needs of the first responder, we offer a variety of hard armor plates ranging in construction from ceramic/aramid to ultra-lightweight polyethylene. Offered in NIJ Level III, IV or Level III/IV In-Conjunction with Level IIIA, these plates provide superior protection from high velocity rounds. Available in different sizes, shapes and curvature options, our hard armor plates can meet the needs of any mission in the most extreme operating environments.

All models, data and specifications are subject to modification by manufacturer without notice.

GOSHIELD®

Features

Total 40 inches in length

Soft ballistic panels allow shield to unroll and provide instant protection (Separate storage bag included)

Upper flap unrolls and suspends from vehicle door, boat rail, or support for breaching

Front plate pocket for use with 10" x 12" stand alone certified hard armor plates in Level III or IV (Hard armor plate not included)

Easy access long pockets for housing of rods

Rigid rods provide framing reinforcement of shield

Return-to-Center mechanism for maintaining upper rod placement when shooting hands-free

Elastic tension for long rod pockets for securing rods in an active environment

Rigid rubber upper handle for maintaining grip integrity

Lower strap handle allows for two handle application

Multiple D-rings and fasteners to attach the sling

Sling permits hands-free shooting with pistol

Several points of attachment for slings enables cross-point or backpack style carry

MOLLE Compatible webbing allows for adjustments of slings and shield height

Folding positions to 30" or 25" allows for use in confined spaces

Bottom loading flap for ballistic panel insertion

Optional extra shoulder strap

Standard Model

Tandem Model

Revolutionizing the way shields are used, the **GoShield®** fulfills a gap that hard shields cannot match. Lightweight and exceptionally durable, this hands-free shield includes an ambidextrous quick release, adjustable padded sling, hard armor plate pockets to allow for protection against rifle bullets, and other key features. All this and it can be rolled up and secured to itself ready for quick deployment.

NEW EXECUTIVE BALLISTIC BRIEFCASE

With Point Blank precision, the Executive Ballistic Briefcase instantly converts from a lightweight, discreet briefcase to a fold-out ballistic shield with additional "special threats" protection (by inserting SPEED plates in the plate pockets). Within a matter of seconds, this convertible product can provide instant protective coverage against fragmentation and bullets. Ideally suited for dignitary protection details, private security and other high threat environments, the Point Blank Executive Ballistic Briefcase goes beyond traditional ballistic blankets by offering instant adaptability with maximum functionality in one, easy to deploy system.

Features:

- Highly durable nylon construction
- Two front plate pockets for 10" x 12" SPEED Plates
- Ergonomic rubberized molded handle
- Top flap to provide access to removable ballistic panels
- Concealed pull tab at the bottom of the bag for easy shield deployment
- Three retractable ballistic inserts
- Reinforced, triple handle straps for easy shield carry

Sizes:

- Folded - 20" x 13.5"
- Unfolded - 40" x 20"

BALLISTIC BLANKET

Point Blank Body Armor's Ballistic Blankets are manufactured from high-strength, lightweight ballistic fabrics which are designed to highly provide a protective barrier against (Level IIIA) ammunition.

Features

Abrasion and water resistant

6 Heavy-duty, nylon carry handles

Sizes

32"x72" | 36"x72" | 48"x72"

TRIFECTA III+

This new, high-performance shield design was completed by Point Blank during June-July 2014, and has been both internally and externally validated to ballistic performance levels that meet the requirements – NIJ Level III plus the M855* green tip”. This shield has no ceramic components and provides superior multi-hit performance.

Features

- Level III+ protection
- Sizes: 18”x24”, 20”x24” and 21” x 36”)
- 100 % Boltless System
- Unique two layer Ballistic solution
- Accurate handgun and long-gun deployment
- Stationary handle
- Thick high density foam pad
- Unique VELCRO® forearm strap attachment system

Special Threats Rounds Tested

- 5 rounds of 5.56 X 45mm. Federal, 62 grain Tactical Bonded, and impact velocity @ 2,800 +/- 75 fps.
- 5 rounds of 5.56 x 45mm M855 (Green Tip), 62 grain, impact velocity @ 3,050 +/- 75 fps.
- 5 rounds of 7.62 x 39mm Mild Steel Core, 123 grain, impact velocity @ 2,400 +/- 75 fps.
- 5 rounds of 7.62 x 51mm M80 Ball, 149 grain, impact velocity @ 2,750 +/- 75 fps.

Options

- LED light with strobe
- With or without viewport
- Transport Bag
- Utility Pouch

Technical Specifications

- Federal Standard NIJ-STD
- Aerial density - 4.5 psf
- Weight with viewport and light kit (35 lbs)
- Ballistic material - hybrid composite
- View port (3” x9”)

BELLATOR IIIA+

Features

- Level IIIA+ protection
- Federal Standard NIJ-STD
- Accurate long-gun deployment
- Ballistic Material - Hybrid composite
- Polyurea coating for enhanced durability and longevity
- 24”x 36” with viewport weighs only 14.40 lbs.
- Lightweight 24”x40” with viewport weighs only 16.10 lbs.
- Mitigates ricochets when deployed on the ground
- Unique VELCRO® forearm strap attachment system
- Thick high density foam pad 11”x7”x 1.5”
- Silhouette shape provides firearms deployment on both shoulders
- Better peripheral view
- Stationary handle

Special Threats Rounds Tested

- 9mm Fiocchi, 115-grain (FMJ) projectiles
- 9mm, 124-grain full metal jacketed (FMJ) projectiles
- .357 SIG 115-grain jacketed hollow point (JHP) projectiles
- .357 SIG 125-grain gold dot hollow point (GDHP) projectiles
- 44-mag., 240-grain semi-wadcutter gas checked (SWCGC) projectiles
- 9mm +P+, 127-grain supreme expansion technology (SXT) projectiles
- 5.7 x 28mm 27-grain SS195 lead free hollow point (LFHP) projectiles
- 5.7 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles
- 7.62 x 25mm, 95-grain TOKAREV (FMJ) projectiles
- .40 cal., 95-grain Aguila projectiles

Options

- With or Without View Port
- LED light with strobe (450 or 900 lumens)
- Transport Bag

HARD ARMOR PLATES

We offer several types of Hard Armor Plates capable of defeating high-powered Level III & IV rifle rounds either in combination with soft body armor systems or as a stand-alone. These plates are available in a choice of two shapes (full-size or shooter's cut), designed to meet your individual needs for comfort and function. Additional options include the choice of ultra-light polyethylene or ceramic plates which will affect weight and thickness.

*All weights are approximate

MODEL 10260 NIJ 0101.06 Level III Stand Alone Plate

Ballistic Performance
Average V50: 3130 fps
Rounds defeated:
• 7.62mm x 51mm
• 5.56mm x 45mm (M193)

Construction: Ultra high molecular weight polyethylene
Additional available sizes: 5"x7", 6"x6" and 6"x8"
Curvature: Multi-Curve
Thickness: 1.15"
Average V50: 3130 fps

Sizes	Weight*
8"x10" Shooter's Cut	2.23 lbs.
8"x10" Full-Size Cut	2.4 lbs.
10"x12" Shooter's Cut	3.3 lbs.
10"x12" Full-Size Cut	3.56 lbs.

MODEL 20260 NIJ 0101.06 Level III+ Stand Alone Plate

Construction: Polyethylene & Ceramic
Curvature: Multi-Curve (8"x10" & 10"x12")
Thickness: 1.25"
Also available in: 5"x7", 6"x6" and 6"x8"

Sizes	Weight*
8"x10" Shooter's Cut	3.5 lbs.
8"x10" Full-Size Cut	3.8 lbs.
10"x12" Shooter's Cut	5.0 lbs.
10"x12" Full-Size Cut	6.0 lbs.

Ballistic Performance
Average V50: 3456 fps
Rounds defeated:
• 5.56mm x 45mm (M855 / SS109)
• 7.62mm x 39mm (PS Ball / MSC)

MODEL 30260 (Lightweight) NIJ 0101.06 Level III Stand Alone Plate

Construction: Polyethylene
Curvature: Multi-Curve
Thickness: 1.05"

Sizes	Weight*
6"x6" Full-Size Cut	0.8 lbs.
6"x8" Full-Size Cut	1.0 lbs.
8"x10" Shooter's Cut	1.6 lbs.
8"x10" Full-Size Cut	1.7 lbs.
10"x12" Shooter's Cut	2.3 lbs.
10"x12" Full-Size Cut	2.7 lbs.

Ballistic Performance
Average V50: 3513 fps
Round defeated:
• 7.62mm x 51mm (M80)

STEEL PLATES NIJ 0101.04 Level III Stand Alone Plate

Construction: Steel
Curvature: Single-Curve
Thickness: 0.38"

Sizes	Weight*
6"x6" Full-Size Cut	2.65 lbs.
8"x10" Shooter's Cut	5.60 lbs.
8"x10" Full-Size Cut	5.70 lbs.
10"x12" Swimmer's Cut	7.90 lbs.
10"x12" Shooter's Cut	8.25 lbs.

Ballistic Performance
Rounds Defeated:
• 5.56mm x 45mm (M193)
• 5.56mm x 45mm (M855 / SS109)
• 7.62mm x 51mm (M80)

MODEL 10051 NIJ 0101.06 Level III/IV Stand Alone Plate

Construction: Ultra high molecular weight polyethylene and ceramic
Curvature: Triple-Curve
Thickness: 1.3"

Sizes	Weight*
6"x6" Full-Size Cut	2.4 lbs.
6"x8" Full-Size Cut	3.2 lbs.
8"x10" Full-Size Cut	5.3 lbs.
8"x10" Shooter's Cut	5.0 lbs.
10"x12" Full-Size Cut	8.4 lbs.
10"x12" Shooter's Cut	7.1 lbs.

Ballistic Performance
Average V50: 3446 fps
Rounds defeated:
• 5.56mm x 45mm (M855 / SS109)
• 5.56mm x 45mm (M855A1)
• 7.62mm X 39mm (API BZ)
• 7.62mm x 51mm (M61)
• 7.62mm x 54Rmm (API B32)
• .30-06-cal., 166-grain M2AP

HARD ARMOR PLATES

MODEL 10046
NIJ 0101.06
Level III/IV Plate in-Conjunction with Level IIIA Soft Armor

Construction: Alumina Ceramic/Aramid
Curvature: Triple-Curve
Thickness: 1.2"
Ballistic Performance: Average V50 (Level III ICW IIIA): 3586 fps, Average V50 (Level IV ICW IIIA): 3080 fps, Rounds defeated: 7.62mm x 51mm (M80), .30-06-cal., 166-grain M2AP

MODEL 10048
NIJ 0101.04
Level III/IV Plate in-Conjunction with Level IIIA Soft Armor

Construction: Alumina/Aramid
Curvature: Triple-Curve
Thickness: 0.79"
Internal Testing: 6 Rounds M80 Ball or 1 Round APM2
Ballistic Performance: Average V50 (Level III ICW IIIA): 3516 fps, Rounds defeated: 7.62mm x 51mm (M80), .30-06-cal., 166-grain M2AP

MODEL 10079
NIJ 0101.06 Level IV Stand Alone Plate

Construction: Alumina Ceramic/Aramid
Curvature: Triple-Curve
Thickness: 1.00"
Ballistic Performance: Average V50: 3194 fps, Rounds defeated: 5.56mm x45mm (M193), 7.62mm x 39mm (PS BALL/MS C), 7.62mm x 51mm (M80), 30.06-CAL 166 grain M2AP

MODEL 10082
NIJ 0101.04 Level IV Stand Alone Plate

Construction: Alumina/Aramid
Curvature: Multi-Curve
Thickness: 1.00"
Ballistic Performance: Rounds defeated: .30-06-cal., 166-grain M2AP

MODEL 10006
NIJ 0101.04 IV Stand Alone Plate

Construction: Ceramic/Composite
Curvature: Single-Curve
Thickness: 0.80"
Ballistic Performance: Average V50: 3548 fps, Rounds defeated: .30-06-cal., 166-grain M2AP

ESAPI 9900 PLATE SERIES
NIJ Standard 0101.06

Protection Type: Special (Military)
Construction: Uni-directional Polyethylene & Ceramic
Ballistic Performance: Rounds defeated: 5.56mm x 45mm (M855 / SS109), 7.62mm x 51mm (M80), 7.62mm x 54Rmm (LPS), 7.62mm x 54Rmm (API B32), .30-06-cal., 166-grain M2AP

20015 PLATE SERIES
NIJ 0101.06 Level IV Multi-Hit

Curvature: Multi-Curve
Thickness: 1.20"
Ballistic Performance: Average V50: 3326 fps, Rounds defeated: 5.56mm x 45mm (M855 / SS109), 5.56mm x 45mm (M855A1), 7.62mm X 39mm (API BZ), 7.62mm x 51mm (M61), 7.62mm x 54Rmm (API B32), .30-06-cal., 166-grain M2AP

TACTICAL HELMET

Ballistic Resistant Bolt Technology
Tested against 9mm 124gr. FMG

USA BUILT
★★★★★

Manufactured to meet stringent quality standards, the **PARACLETE® Tactical Helmet** delivers the level of ballistic and impact head protection demanded for tough tactical operations. The helmet is made of Aramid materials and built in the ACH shape. Helmets are available in a full range of cuts (full, mid and high), sizes (small to x-large) and colors (black, foliage green, olive green and tan). They come standard with 0.75" liner pads and 4-point harness with nape pad.

High Cut shown in Foliage Green

Mid Cut shown in Black

Full Cut shown in Tan

PTH-III A

Specifications

- Stops NIJ IIIA level threats (9mm and 44 mag) (NIJ 0106.01)
- Meets U.S. Army Standard for impact protection (CO/PD-05-04)

Weight**

- Full System – 3.06lbs. (1390 g) – Size Medium

Shell Geometry and Construction

- Low-profile design
- Designed for comfort
- Compatible with standard face shields, NVGs, chem/bio masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F (-40°C to 70°C)
- 3 Cut styles provide variable coverage options

Retention System

- 4-point attachment system with supportive neck pad
- Easily adjusted for a comfortable fit

Standard Suspension (with 3/4 pads)

Small	Up to 21.25"
Medium	21.25" - 22.5"
Large	22" - 23.25"
X-Large	22.5" - 24.5"

With the MSS Suspension Upgrade

Small	Up to 20"
Medium	20.75" - 21.75"
Large	21.75" - 23.25"
X-Large	22.5" - 23.5"

Suspension/Liner System

- Provides superior comfort by distributing the helmet's weight evenly
- Meets all the chemical-resistant tests required by the U.S. Army
- Lightweight, sweat-wicking material resists moisture buildup

Available colors: Tan, Foliage Green, Black and Olive Green

COMBAT HELMET - PCH

The **PARACLETE® Combat Helmet**, built in the ACH shape and to exacting military specifications, delivers ballistic and impact head protection. Manufactured to meet stringent quality standards, this aramid helmet exceeds U.S. Army specifications for Fragmentation, Resistance to Penetration and Backface Transient Deformation. They come standard with one NVG hole, 0.75" liner pads and 4-point harness with nape pad.

High Cut

Mid Cut

Full Cut

PCH-III A Specifications:

- Significantly exceeds 2200 ft/s (670 m/s), 1.1 g (17 gr) FSP
- Exceeds all U.S. Army Standards for Fragmentation, Resistance to Penetration and Backface Transient Deformation
- Stops NIJ IIIA level threats

Weight**

- Full System – 3.06 lbs. (1390 g) – Size Medium

Shell Geometry and Construction

- Low-profile design
- Designed for comfort
- Compatible with NVGs, Chem/Bio Masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F (-40°C to 70°C)
- 3 cut styles provide variable coverage options

Suspension / Liner System

- Includes a 3/4" ACH Pad, designed to meet the blunt force trauma reduction requirements of the U.S. Army
- Movable comfort pads provide impact protection
- Provides superior comfort by distributing the helmet's weight evenly
- Meets all the chemical-resistant tests required by the U.S. Army
- Lightweight, sweat-wicking material resists moisture buildup

Retention System

- 4-point attachment system with supportive neck pad
- Easily adjusted for a comfortable fit

* Additional ballistic data and 3rd party test reports are available upon request.
** Includes full cut helmet, liner, retention system and hardware.

VIPER P2 HELMET

PARACLETE's lightweight **VIPER P2 HELMET**, built in the ACH shape and to exacting military specifications, uses advanced composite shell technology to achieve weight reduction while delivering advanced ballistic and impact protection with unsurpassed comfort for long-term use. They come standard with one NVG hole and the Modular Suspension System.

Full Cut

Mid Cut

High Cut

VIPER P2 Specifications:

*BALLISTIC PERFORMANCE:

- STANAG 2920
- Exceeds 2460 ft/s (750 m/s), 1.1 g (17 gr) FSP
- STANAG 2920 64 gr RCC Exceeds 1804 ft/s (550 m/s)
- 9mm FMJ RTP Multi-hit (5 impact exceeds 1400 ft/s [427 m/s])
- Stops NIJ IIIA level threats Weight**
- Full System – 2.63 lbs.(1191 g) – Size Medium
- Hybridized layer construction with an Ultra-high-molecular-weight polyethylene (UHMWPE) ballistic core
- Low-profile design
- Designed for comfort
- Compatibility with NVGs, Chem/Bio Masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F
- 3 cut styles provide variable coverage options
- 4-point integrated harness with unique buckle system
- Low profile ballistic bolts
- Dial Ratchet Mechanism adjusts the fit band – a simple one handed operation
- Infinitely adjustable while on the move
- Height adjustable nape pad to ensure superior NVG stability
- Adjustable crown net for sweat wicking, comfort and low pressure for extended use Impact Liner
- Low profile impact material does not contact the head in normal operation
- Provides a free flow of air to aid in cooling
- Exceeds U.S. Army ACH impact standards
- Tested with multiple hits and across all temperature ranges

*Additional ballistic data and 3rd party test reports are available upon request. Tested in accordance with ACH, CO/PD 05-04. **Includes full cut helmet, modular suspension system and hardware.

Made in

HELMET ACCESSORIES

7 Pad Liner System Pad Liner System

Movable sweat-wicking comfort pads provide impact protection and superior comfort by distributing the helmet's weight evenly. The 7-Pad Liner System includes 1 circular crown pad, 2 trapezoidal pads, and 4 oblong pads which are available in various thicknesses.

Retention System

Easily adjustable 4-point attachment system provides optimal retention and fit. Retention System includes nape pad, adjustable tensioners on straps, chin cut and buckle. The system accommodates small, medium, large and extra-large helmets. **Available in** Black, Olive Green, Foliage Green and Tan

Helmet Bag

Helmet storage bag composed of durable, water resistant fabric with drawstring opening and a personalized name tag.

Three Position Visor

Engineered for superior performance, the visor provides optimum high-impact protection, flawless options and maximum field-of-view. Designed for quick donning and doffing, it is scratch, fog and chemical resistant.

Modular Suspension System

The Modular Suspension System (MSS) is comprised of an impact liner, dial fit band, comfort pad system and retention system. The impact liner is made of low profile impact material and exceeds U.S. Army ACH impact standard. An adjustable crown net allows for sweat wicking and comfort. It suspends the helmet shell on the wearer's head, meaning the impact liner does not come into contact with the head, providing a free flow of air for cooling benefits. The system accommodates small, medium, large and extra-large helmets. Available in Black and Tan.

Mandible Guards

Offering lightweight blunt force protection for lower jaw in a durable, low-profile design. Mandible Guards attach to the Front Mount, minimizing training while enabling rapid attachment and removal of the system. Mandible and Visor are compatible with red dot sighting systems.

Precision Basic, Full and Mid Cut Helmet Cover

Full cut helmet cover includes elastic drawstring and 4 hook and loop tabs that allow the cover to stay securely in place on helmet. The system accommodates small, medium, large and extra large helmets. Available in Black, Multi-cam and ACU.

Precision Fit Enhanced Helmet Cover

Precision Fit Enhanced Helmet Cover for Full Cut helmets includes elastic drawstring and 4 hook and loop tabs that allow the cover to stay securely in place on helmet, elastic accessory loops and hook and loop for attaching patches, counterweights, etc. The system accommodates small, medium, large and extra-large helmets. Available in Black, Multi-cam and ACU.

Precision Fit Premium Helmet Cover

Precision Fit Premium Helmet Cover for Full Cut helmets includes elastic drawstring and 4 hook and loop tabs that allow the cover to stay securely in place on helmet, elastic accessory loops and hook and loop for attaching patches, counterweights, mesh covering for increased camouflaging and cable runs to reduce snagging. The system accommodates small, medium, large and extra-large helmets. Available in Black, Multi-cam and ACU.

Interlocking and Stand-Alone Long Rails

Interlocking and Stand-alone Long Rails offer a system upgrade enabling quick and easy head borne accessory attachment. Offering the ability to tailor the helmet depending on the mission at hand, the rail system allows for cameras, lights, and other accessories to be outfitted. The rails have

multiple entry points and accept widely used rail bases, such as the Desert Locust Goggle swivel clip, picatinny and winged rail bases. Interlocking Long Rails seamlessly integrate with the Front Mount and can be used simultaneously with the visor and mandible guards; Standalone Long Rails work with commonly used NVG mounts.

NVG Shock Cord

NVG Shock Cord is made of durable bungee material. It includes two clips and split rings which offers supplemental retention support of NVG device to the Front mount and stabilizes NVG and reduces rattling of device during use.

Visor/Mandible Guard Storage Case

Visor-Mandible Guard Storage Case is made of durable Cordura fabric with a brushed nylon inner lining to protect visor lens and elastic strap wraps to retain mandible guard. Available in Black and Multi-cam.

BATONS

ALPHA-LOCK

The Alpha Locking Baton offers an increased diameter construction for more effective street performance. It has a higher kinetic energy potential and greater feeling of balance in the hand.

21” Expandable Automatic Locking Baton

- Open: 21”
- Closed: 8.750”
- Handle Diameter - 1.085”
- Middle Tube Diameter: 0.755”
- Small Tube Diameter: 0.550”
- Material: 4130 Seamless Steel
- Finish: Black Chrome
- Weight: 23.2 oz.

Features

The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing

Closes with a push of a button - no need to strike the baton on the ground

Increased diameter compared to the standard Auto-Locking baton

Rotating shafts help maintain control of the baton during a struggle

Open passively or in a high-profile manner

The Friction Lock Baton is a durable three-stage telescopic collapsible baton. It has an adjustable retention clip within a barrel bore guide, which eliminates clip breakage during closing. This baton is comfortable to carry and easy to open with a flick of the wrist.

FRICTION LOCK

Features

Basic Foam Grip – for a more traditional feel, a sure grip, and cushioning against shock

Super-Grip - a fluted surface texture that enhances control and retention

Safety Tip - crafted of urethane that allows passive drawing of the baton, useful for turning a suspect’s pockets inside out without the risk of injury from needles, knives, or other sharp objects

21” Friction Lock

- Foam Grip
- Finish: Black Chrome
- Open: 21”
- Closed: 8.750”
- Handle Diameter: 1.085”
- Middle Tube Diameter: 0.755”
- Small Tube Diameter: 0.550”
- Material: Steel 4130

26” Friction Lock

- Foam Grip
- Finish: Black Chrome
- Open: 26”
- Closed: 10.375”
- Handle Diameter: 1.085”
- Middle Tube Diameter: 0.755”
- Small Tube Diameter: 0.550”
- Material: Steel 4130

ELITE SIDE HANDLE

This control baton has been engineered with safety in mind. The design has been field tested and has been found to be highly effective for blocking, controlling, and striking.

Features

The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing

Closes with a push of a button - no need to strike the baton on the ground

Increased diameter compared to the standard Auto-Locking baton

Open passively or in a high-profile manner

Rotating shafts help maintain control of the baton during a struggle

21” Side Handle Expandable Baton

- OD Frame: 1”
- Shaft: 11/16”
- Weight: 22 oz.
- Open: 21”
- Closed: 13”
- Finish: Black Hardcoat Anodized Coating
- Material: 6061 Aluminum 7075 Aluminum Shaft

NYLON STRAIGHT

This durable baton is made of a weather resistant material that will not crack or peel. In addition, it is strong, lightweight, and affordable. It can be used with all standard baton techniques, tactics, and training programs.

Model	Length Closed	Diameter	Grip
24” Riot Baton	24” (60.96cm)	1” (2.54cm)	Nylon Foam
26” Riot Baton	26” (66.04cm)	1” (2.54cm)	Nylon Foam
36” Riot Baton	36” (91.44cm)	1¼”(3.18cm)	Nylon Two Knurl
36” Riot Baton with Ball	36” (91.44cm)	1¼”(3.18cm)	Nylon Two Knurl

These durable batons are made out of a weather resistant material, which makes it stronger than conventional batons and will not crack or peel. In addition, these batons are affordable and can be used with all standard baton techniques, tactics or training programs.

POLYCARBONATE

Model	Length Closed	Diameter	Grip
24” Riot Baton	24” (60.96cm)	1” (2.54cm)	Foam Grip

24” Riot Baton	24” (60.96cm)	1¼”(3.18cm)	Foam Grip
36” Riot Baton	36” (91.44cm)	1¼”(3.18cm)	Two Knurl-Grips
36” Riot Baton with Ball	36” (91.44cm)	1¼”(3.18cm)	Two Knurl-Grips

NEW PROTECTIVE EYEWEAR

sawfly
MILITARY EYEWEAR SYSTEM®

The Sawfly Eyewear System

is proven to be the top performing impact eyewear system available.

DESIGNED FOR FIT, function and comfort, this unmatched level of protection is specifically designed for the military. The curved lens provides an unrestricted field-of-view and maximum ventilation, while the adjustable arms and head strap ensure a perfect fit, every time. The Sawfly's lightweight frame and ultra-thin arms ensure a perfect fit with hearing protection and communications headsets while the lens provides optimum high impact protection with flawless optics. The result is a system that offers best-in-class performance: comfort, compatibility, optics and ballistic protection.

KEY FEATURES

THREE SIZES – Correct size ensures fit, comfort and optical performance. U.S. Army Authorized Protective Eyewear List: Small: NSN 4240-01-607-7512 Regular: NSN 4240-01-527-4051 Large: NSN 4240-01-527-4018

SUPERIOR BALLISTICS – High-impact polycarbonate lenses exceed military ballistic impact requirements for spectacles and goggles

FLAWLESS OPTICS – Precision manufactured lenses ensure distortion-free vision, full side impact protection and anti-fog performance

INTERCHANGEABLE – Lenses made of indestructible, optical grade polycarbonate that can be interchanged quickly for various light conditions and provide 100% protection from harmful UV-A, UV-B and UV-C rays

TOUGH – Scratch-resistant coating on both sides of lens; resists wide variety of chemicals, including DEET

COMMS-COMPATIBLE ARMS – Lean, extendable arms guarantee the utmost comfort, equipment compatibility and stay-put fit. Slimline ergonomically designed arms ensure hearing protection and head sets work as designed while the over molded underframe provides shock absorption and grip

RUGGED DURABILITY – Eye protection that lasts, performs and protects through all the rigors of combat – in a lightweight package that's just 1 ¼ ounces

PRESCRIPTION READY – Optional Rx insert is also compatible with Desert Locust®, Bullet Ant® Goggles and Wolfspider® Goggles.

REVISION PROTECTIVE EYEWEAR IS TOUGH ENOUGH TO WITHSTAND A SHOTGUN BLAST FROM 16 FEET (5 METRES)

FIREARM – Maverick Model 88, 26 inch barrel with improved cylinder choke

AMMUNITION – Remington 12 gauge, 1 ounce #6 shot

VELOCITY – 1300 fps ± 30 fps (396 m/s ± 9 m/s) at 16ft (5m)

RESULT – 25 strikes, no penetrations

OPTICAL PERFORMANCE

Sawfly eyewear has passed stringent military optical tests for visual clarity. Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV.

HIGH-CONTRAST LENSES

CLEAR LENSES – Maximize light transmittance.

Use indoors or at night.

SOLAR LENSES – Reduce extreme glare and squinting.

Use outdoors in bright conditions.

U.S. MILITARY KIT

OPTIONAL RX CARRIER

Low-profile defense for fast-moving, dynamic missions.

MISSION CRITICAL EYEWEAR®

Ballistic eye protection designed by and for operators to provide extreme low-profile defense for fast-moving, dynamic missions.

EXOSHIELD EXTREME LOW-PROFILE SYSTEMS

- **SUPERIOR BALLISTICS** High impact system exceeds ANSI Z87.1 and U.S. military (MIL-DTL-43511D, clause 3.5.10 and MIL-PRF-31013, clause 3.5.1.1) ballistic impact requirements
- **LOW-PROFILE** Close-fitting lens optimizes NVG and gear compatibility during air and ground assaults
- **ANTI-FOG / HARDCOAT** Flow-coat lens technology provides powerful OcuMax® fog and high-endurance anti-scratch protection
- **QUICK-RELEASE** Adjustable quick-release strap for ambidextrous, single-handed operation during fast-moving, dynamic missions
- **FLAWLESS OPTICS** Optical-grade polycarbonate lenses provide superior visual clarity and 100% UV-A-B-C protection

Exoshield shown withstood a shotgun blast from 16 feet using a Remington 870 12 gauge pump action shotgun, a 51cm bore with 1-¼ ounce #6 lead shot

BE REVISION READY.®

POUCHES

Point Blank's modular pouches include a patented attachment system that negates the need for clips, snaps, plastic tie downs, and cordage. The attachment device is permanently affixed to the equipment assembly, so it cannot be lost or otherwise separated from the pocket, pouch, or holster. This system will not rust or become unserviceable even under the most extreme environmental conditions and it maintains its flexibility in frigid climates. No other tactical modular attachment system in the world today can compare with its simplicity, durability, and flexibility.

Point Blank BODY ARMOR

According to research conducted by The Federal Bureau of Investigation (FBI), the risk of fatal injuries for officers who do not routinely wear body armor is 14 times greater than for those who do. As a company dedicated to serving the law enforcement and corrections community, startling statistics such as these, are the driving force behind our primary commitment, to provide the safest, most comfortable body armor in the world.

Officers trust Point Blank's line of concealable and tactical body armor because they know they don't have to compromise comfort for performance. As street threats increase in number and capacity, our experts in the Point Blank Enterprises Technology and Testing Center are continuously testing and evaluating new advancements in ballistic technology to produce vests which not only offer superior protection but optimum comfort for daily wear. Point Blank is proud to stand at the forefront of this endeavor and will work diligently to communicate the importance of body armor, so that officers will...
