Egan is a proud vendor for INDEAL, a buying and marketing organization designed specifically for Contract Office Furniture Dealers. To learn more, visit www.indeal.org.

Project Registration

Egan gives you the freedom to resolve any number of complex project requirements with sophisticated visual presentation products, space dividers for privacy and collaboration as well as lecterns, cabinetry and decorative items that exploit a number of product platforms. Why not put our team to work for you when making important choices?

Egan Project Registration gives you a quick and easy way to call attention to your project.

Who can register a project with the factory?

Egan Project Registration is open to all of our customers and channel partners. This includes end users, facilities managers, designers, architects, dealer sales reps, project managers and anyone else who may wish to register an existing or upcoming project with Egan Visual.

Why should I list my projects with Egan at all?

The End User is assured best value when our team of experts is given the opportunity to facilitate the decision making process. The Dealer enjoys dedicated project support and a smaller workload, and the Designer is assured that the right product will be specified for the look and function that the space requires.

How do I register my project?

Simply click on the Support tab at egan.com and navigate to the Project Registration box to begin registering your project. It takes only a moment!

What is involved in having a project registered?

When a project is registered with Egan, your needs are communicated directly to our factory sales team. This ensures that your project is prioritized at the factory level and a host of Egan resources is brought to bear.

When is the right time to register and let Egan know about my project?

Register early – or register late. Just register. Our team promises to rally to provide Egan product solution consultation, quoting support, samples and even custom mock-ups when your project warrants. The sooner we are brought into the conversation, the more we can do to help.

We look forward to hearing from you!

How To Use This Guide

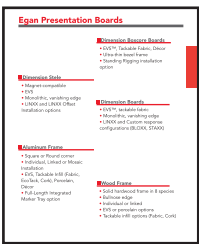

Step 1

Look for the tabs along the right side of the book to locate the product family.

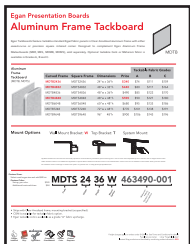

Step 2

Use the dividing page for assistance in choosing the right product. Go to the product page.

Step 3

Make an informed decision: take a look at various page elements to select and specify your final product.

Brief description of product.

Product drawing.

Product codes, dimensions, price, and configuration options.

Review features and options. See the opposite page for a complete list of features and option icons available.

Egan Presentation Boards

Aluminum Frame Tackboard

Egan Tackboards feature tackable standard EganFabric panels in Clear Anodized aluminum frame with either eased-curve or precision square mitered corner. Designed to complement Egan Aluminum Frame Markersboards (MER, MES, MDMB, MDMS), sold separately. Optional tackable Cork or Maharam fabric is available in Grades A, B and C.

MDTB

Aluminum Frame Tackboard (MDTB, MDTS)		Tackable Fabric Grades				
Curved Frame	Square Frame	Dimensions	Price	A	B	C
MDTB2436	MDTS2436	24" w x 36" h	\$340	\$74	\$111	\$159
MDTB4832	MDTS4832	48" w x 32" h	\$440	\$80	\$117	\$164
MDTB4836	MDTS4836	48" w x 36" h	\$490	\$85	\$122	\$170
MDTB4848	MDTS4848	48" w x 48" h	\$590	\$90	\$127	\$180
MDTB6048	MDTS6048	60" w x 48" h	\$680	\$95	\$133	\$186
MDTB7248	MDTS7248	72" w x 48" h	\$770	\$101	\$138	\$191
MDTB9648	MDTS9648	96" w x 48" h	\$900	\$106	\$143	\$196

Mount Options: Wall Mount Bracket: **W** Top Bracket: **T** System Mount: **S**

Top Mount brackets are universal and can be easily adjusted to accommodate any workstation panel measuring from 1 3/4" to 2 3/4" thick. Adjustable by 1/8" increments. Due to weight restraints 72" w x 48" h and 96" w x 48" h is not available with Top Bracket or System Mount. Brackets are aluminum with a clear anodized finish. Custom colors are not available on the brackets. Plastic protective sleeves are included to assure no damage is caused to the system. For panels 2 3/4" 4" deep please specify EOEEX at \$11.

Custom Sizes: Select next larger size and add \$65 fee.

Custom Color: Set up, per color \$135. Additional cost each item \$24.

Installation

Installation Support

Egan Visual products are well designed and intended for long lasting use in demanding environments when professionally installed.

Egan Visual offers a variety of support tools for the professional installer, including training videos, samples, installation instructions, and technical support (Call Customer Service).

Egan Visual does not warrant the installation of products (see Terms & Conditions).

Contributes to

LEED Support

In support of projects subject to the U.S. Green Building Council LEED green building rating system, Environmental Data Sheets are available for Egan Visual products. Egan Visual has certified LEED Green Associates on staff to assist with your LEED requirements. Available online at www.egan.com.

ISO9001:2008 and ISO14001:2004 Documentation

Egan Visual has been certified to have established, documented, implemented, and maintains a Quality Management System as well as an Environmental Management System, which are registered to the ISO9001:2008 and ISO14001:2004 standards respectively. Copies of these certifications required to support your project documentation are available online at www.egan.com.

GREENGUARD Certification

Egan promotes global sustainability, environmental health, and safety. Our products have low chemical emissions, preserving the quality of the air in which the products are used. GREENGUARD conducts strict chemical emissions tests, and certifies products that meet healthy interior standards.

Download your copy of Egan product GREENGUARD Certificates at www.egan.com.

Egan Platforms and Capabilities

eVS™ Egan Versa Presentation Surface (EVS™)

Egan Versa Presentation Surface (EVS) is an Egan exclusive patented-technology presentation surface introduced in 2002. It is a unique invention that distinguishes Egan products from the rest in the presentation furniture industry. EVS has inspired the creation of various whiteboard and projection screen products offerings. It is the unique tool for generating, capturing and presenting ideas. This technology surface enhances communication by supporting whiteboard brainstorming as well as data projection of popular presentation formats.

The matte-white finish reduces glare from ambient light in office environments. Glare can cause a reduction in character-to-background contrast, reducing the legibility of screen characters, which at the extreme can cause the contents of the whiteboard to become unrecognizable. Because this only affects viewing at eye level and from only parts of the room, many whiteboard users are not even aware of this major shortcoming! To overcome glare, whiteboard readers will often squint or move about to minimize the effect. EVS solves that problem.

EVS provides a matte-white surface with an incredibly low-gloss factor that is guaranteed-to-clean. The unique surface provides a comfortable 160° viewing angle of your projected image. That means you get a crisp, clear view from

almost any angle in the room, without dimming the lights.

When mounted on steel, EVS accepts magnetic accessories.

Versatility is also found in EVS' configurability. EVS is available in a variety of large and small format applications, can be applied on almost any even surface, and can be specified in a variety of sizes and shapes. Apply EganINK graphics, and let the sky be your limit! EVS is guaranteed-to-clean for 10 years.

White Porcelain Off-White Porcelain Dry-Erase Vinyl EVS

Above images illustrate the difference in surface glare on leading whiteboard formats.

- Egan Versa Presentation Surface Brochure
- A Guide to Presentation Surfaces Brochure
- Egan Versa Card
- EVS Technology Card
- Egan Color and Finish Guide

Environmentally Responsible Manufacturing

Egan Visual purchases veneer, hardwoods, MDF and particle board that is harvested from responsibly managed forests as designated by the Forest Stewardship Council (www.fsc.org), and are analyzed for optimum material usage.

Our ongoing commitment to environmental protection is based on seven basic fundamentals. These fundamentals are rigidly adhered to and monitored by the company's Environmental, Health and Safety Committee to gauge their environmental impact.

- Manufacturing process control
- Material selection
- Sustainable material sourcing
- Air quality
- Recyclable opportunities
- Supplier adherence
- Employee well being

Recent improvements include GREENGUARD Certification of our product line. The GREENGUARD certification program assures that products designed for use in indoor spaces meet strict chemical emissions limits, which contribute to the creation of healthier interiors. GREENGUARD certified products are suitable for use in environments where children spend significant periods of time studying, playing or residing.

Egan reduces emissions through the use of low-emission and water-based coatings. These coatings are applied in automated environments that eliminate overspray and minimize waste. A

sealed system environment heat cures the finish to eliminate open air dry time. Air quality testing is performed on a regular basis.

Programs reduce waste as well as divert recyclable material to the appropriate recycling sites. Recyclable corrugated paper is primarily used for product shipping. Egan manufacturing facilities are zero waste to landfill.

Packaging methods are continuously reviewed and redesigned to reduce excess.

Products delivered locally are blanket wrapped to reduce excess packaging waste. Direct shipments from Egan's manufacturing facility are generally skidded and stretch wrapped with corner protection to minimize the amount of packaging material used. Egan's head office and factory reduce waste by implementing recycling programs. Throughout the facilities there are receptacles for paper, glass and aluminum. We take proper and environmentally conscious measures when disposing of hazardous waste.

Employee staffed committees oversee all aspects of adherence and report to Senior Management.

Egan Visual has been certified to have established, documented, implemented, and maintains an Environmental Management System, which is registered to the ISO14001:2004 standard.

Egan Platforms and Capabilities

maharam EganFabric Program

Egan has a synergy program with Maharam Fabrics. From a library of thousands of fabrics, Egan factory tests and approves tackable textile designs in three quality grades. See the Egan Color and Finish Guide for grade "A" selections. Grades "B" and "C" are fashion driven and subject to frequent change, please visit www.egan.com for the most current listing. Each fabric piece is 54" wide and ideally suited to Egan manufacturing specifications. The grade level of the fabric determines the upcharge cost. The cost is added to the total cost of the specified product and applicable options.

Fabric Samples

Contact Maharam directly at 1-800-645-3943 or visit www.maharam.com for samples or memos for presentation. For your convenience, digital representations are available online at www.egan.com.

Flammability

Maharam textiles meet all appropriate flammability requirements (further details available, please contact Maharam):

- California Bulletin #117
- Compatible with California Bulletin #133
- Tunnel Test surface ratings
- Class I UFAC

maharam

To place an order please specify:

1. The Maharam fabric number, including color, dye lot (if applicable), name. For example: Maharam Medium Pool 463490-040
2. Based on this information, you can build the Egan product code, including finish and option codes, followed by the

CE2 A 6048 MP FL 463490-040

Code	Body Finish: Clear Anodized	Size: 60"W x 48"H x 3"D	Door Finish: Maple Veneer	Options: 2nd Flipchart, Lock	Maharam Fabric Pattern: Medium	Description: Pool
------	--------------------------------	----------------------------	------------------------------	------------------------------------	-----------------------------------	----------------------

EganFabric Program textile code as shown below:

Please see Customers' Own Material (COM) section below for detailed information regarding special fabric handling. Visit www.egan.com for further details on COM and Egan Fabric Program.

For more information see:

- Egan Fabric Program Card
- Egan Color and Finish Guide

Customer's Own Material (COM)

All Egan Tackable fabric components may be ordered with EganFabric Program textiles or with customer-supplied fabrics. Customer's Own Material (COM) handling is priced as \$110 list per order. The cost of textile and delivery are additional costs that are not included in Egan pricing. It is the customer's responsibility to determine if the fabric is appropriate for the application specified and that it meets applicable codes and regulations.

Egan reserves the right to reject fabrics that, in our opinion, would create unsatisfactory results on the intended application with our normal manufacturing methods.

If it is established that the textile selected will compromise the quality or integrity of Egan products, customers are contacted to discuss these concerns.

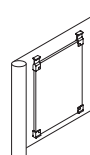

Egan does not accept responsibility for unsatisfactory results, overall appearance, fabric defects, flammability, normal durability, color fastness or any other quality issue after installation, beyond normal Egan quality standards.

At Egan Visual, we strive to craft superior results. Visit www.egan.com for further details on COM and Egan Fabric Program.

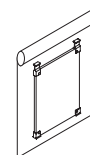

The following requirements are designed to produce the clarity of intention our craftspeople require.

COM Specification for Tackable Panels

1. Customer/Company Name
2. Contact name, phone number and email address
3. Egan product code, correctly specified
4. Fabric sample - indicate face side and pattern direction.
Supply a sample securely fastened to order showing pattern direction.
5. Customer purchase order with COM correctly indicated
6. Fabric manufacturer, fabric name, color, code and dye lot
7. Fabric requirements fully specified, including (but not limited to) horizontal/vertical direction, pattern matching, railroading, pattern repeats, reversibility.

Cut across the roll (known as 'railroading')

Cut up the roll (typical or normal direction)

8. Visit www.egan.com for COM Product Yardage Requirements.
9. All COM must be sent prepaid to:
Egan Visual Inc.
Attention: COM Receiver
300 Hanlan Road
Woodbridge, ON L4L 3P6 Canada
10. Label instructions securely applied to COM.

Egan EcoTack™

Egan EcoTack is a unique tackable panel that is an environmentally-friendly choice, providing LEED credit support. Standard colors are EganMetallic (EM) and EganBeige (EB). Custom colors are available, please call Customer Service for more information.

Available on select products. 42% recycled content, and 100% recyclable polyester. Class A fire retardant under ASTM E 84. Sound-absorptive with a Noise Reduction Coefficient (NRC) of 0.80.

Egan Platforms and Capabilities

Custom Stain Wood Finishes

Egan encourages custom stain applications. Egan endeavors to manufacture as consistent a wood finish as possible. For this reason, we have facilities to allow for manufacture of dimensioned moldings and veneer lay-up. Our finishing system is automated and ensures that the proper amount of stain and lacquer is sprayed on each product. However, as wood is a natural product, each log will vary in color and appearance. Egan's skilled carpenters match doors and components to enhance the natural and variable beauty of real wood. All veneers are small heart, center book matched and finished in a fast curing two component lacquer which provides a durable, open-grain silk-matte finish. Veneer is 1/64" - 1/32" thick. Occasional cleaning with any household furniture polish will maintain this finish like new for many years. Customer is responsible for the suitability of the final product. Many modern veneer selections are available through our Custom Response program.

Ordering Custom Stain

1. Provide sample species (Oak, Cherry, Mahogany, Maple and Walnut) with stain applied. Where possible please provide details of stain manufacture, product number, and application details so our crafts people can reproduce the custom stain as accurately as possible within Egan's normal manufacturing process.

2. Egan will produce a sample for review.
3. Egan will require signed approvals with PO. Natural variations are to be expected and are not Egan's responsibility.

Unfinished Wood Products

Unfinished Wood Products may be ordered by specifying:

- the specific wood species required
- and by tagging it "Ship to customer unfinished".

Preparing a product for custom staining requires additional steps to be taken, at no additional cost. Any complaint regarding the quality of a unit must be registered prior to any finish work being performed.

Note: Presentation Cabinets with tackable fabric panel on the inside of each door on any unfinished unit is supplied with paper wrapped around it to protect the fabric from stain during the finishing process. The paper should be carefully removed by cutting around the perimeter with an appropriate blade.

For more information see:
• Egan Color and Finish Guide

Custom Color

Product categories bearing this badge may be specified in any solid color of your choice. The Custom Color program is limited to color matches that do not have speckles, patterns or any metallic content. Egan uses polymer coatings which may be specified in custom colors. Our color engineers are comfortable with most color specifying tools including Pantone Matching System™ (specify Uncoated and Coated), WilsonArt® solid color, Sherwin Williams, Benjamin Moore, matte-finish laminates samples and customer supplied samples.

Egan will match the color specified as closely as our formulating process allows. Please note that color gloss cannot

be matched. There is a standard upcharge unless indicated otherwise. Samples are not provided for approval unless requested, additional charges may apply. Finishes outside of these parameters will be addressed on a sample by sample basis and additional charges may be applicable.

To Order:

1. Specify Matching System Type
2. Specify Matching System ID number
3. Where applicable provide appropriate sample
4. Provide Egan product code
5. Number of units ordered

Custom Color Volume Orders

Products bearing this badge are finished in an automated environment and have a list price indicated for the application of our Custom Color Program for a quantity of 1–5 pieces. When ordering 6 or more of any of these items, the economies of scale permit us to extend a one-time set-up fee of \$520 to the order. On higher volumes the set up charge may be waived.

Customer's Own Panel

Customer's Own Panel (COP) requirements for V-Series Mobile, Egan Lite Mobile, or EganMosaic may be coordinated with our Customer Service Department at 1-800-263-2387.

ADA Compliant and Universal Design

The Americans with Disabilities Act establishes precise guidelines to ensure facility design, and the products used within it are barrier-free. Any product bearing the ADA logo in the Egan catalogue meets this criteria. Products have been designed to accommodate use from a wheelchair, paying close attention to interior clearances and distance to controls or switches.

Egan Platforms and Capabilities

EganINK™: Custom Letters, Lines and Graphics

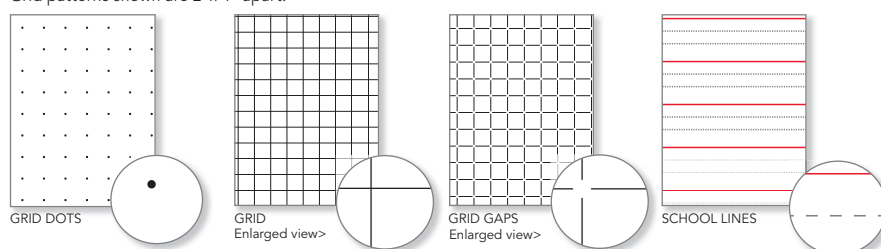

EganINK gives you the flexibility to make presentation board concepts that really communicate your message, sponsor your brand or coach your team. Visit www.egan.com for more information and ideas. EganINK is \$15.00 per square foot \$150 minimum based on the actual dimension of the board specified, not the size of the art to be printed. Décor panels are printed in full density color so images look rich and vibrant (\$20.00 per square foot \$200 minimum). One customer modification on acknowledgement. Additional modifications to customer supplied artwork will be subject to engineering cost of \$250. Durability is comparable to ASTM F793 10a Category I Wallcovering (Decorative). EganINK has a limited 1 year warranty. Porcelain surface is not EganINK compatible. Décor Panels are not a dry-erase product.

Purpose Specific Templates

EganINK is ideal for branded markerboards for healthcare, business, and education. The potential for premium and incentive product opportunities is limited only by your imagination giving you the flexibility to make whiteboard concepts that really communicate your message.

Grid Patterns

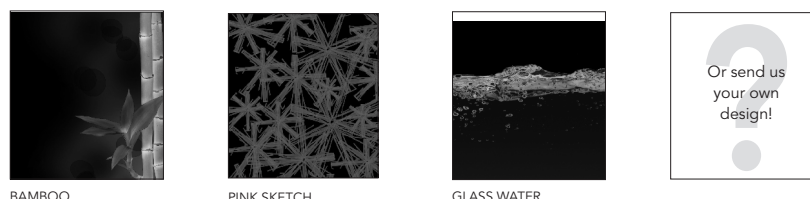

Grid patterns shown are 2 1/4" apart.

GlassWrite™ plus EganINK

Let the light shine in! Exclusive to Egan Visual the GlassWrite collection may be specified with full color continuous tone graphics printed on the interior layer of clear, or frosted glass.

Custom Design

Notation guides

Enhance your creativity by including lines or grids. Designs may be considered in two forms: guides and signage.

A —————	Guides are used to assist in drawing or writing neatly. These lines are to assist the user and not expected to be seen by viewers from a distance of more than 10 feet.	F —————	Signage must be clearly seen by viewers who may require visibility of the information from a distance of 20 feet or more. Lines F-I are suitable for signage.
B - - - - -		G —————	
C —————		H —————	
D - - - - -	Lines A-D are suitable for guides.	I —————	
E E is PermaGrid.			

TIP: Hold this page at a distance of 10' - 20' to understand legibility and size as it relates to your custom EganINK design.

Raster Graphics

A raster graphic contains a grid of individual dots (pixels) of color. Always supply raster images at a minimum of 200 dpi resolution (300 dpi preferred) at 100% reproduction size.

Vector Graphics

A vector graphic contains curves and lines that are described using mathematical equations. Always supply at 100% reproduction size with fonts outlined and no placed raster images below suggested raster specifications.

Typeface Selection

The minimum size and maximum black density recommended for EganINK reproduction is demonstrated in the guide at the right. Your text will appear as shown or larger if desired. Text smaller than shown should be considered unreadable from a distance greater than 10 feet.

For additional technical information on how to supply EganINK files, please download the "Specifier's Guide" at www.egan.com.

For more information see:

Egan Platforms and Capabilities

Custom Response Program

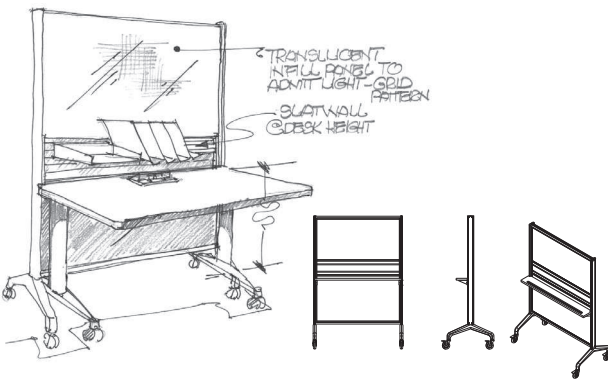

The Custom Response Program is designed to encourage specialized product development. Our manufacturing systems provide for variations and custom solutions. Working with initial direction from designers and clients, Egan will research and develop solutions that work within the Egan manufacturing process. **This makes the program ideal for those clients who require a single run of a substantial number of products and/or where there is an ongoing need.** Opportunities for complete product design where volume is available are also encouraged.

Our CAD specialists understand high-quality cabinetry and can quickly evaluate Custom Response Program requests. Contact your local Egan Representative with your product needs. Pricing and delivery is based on individual requirements.

Example #1

Original product: V-Series Mobile

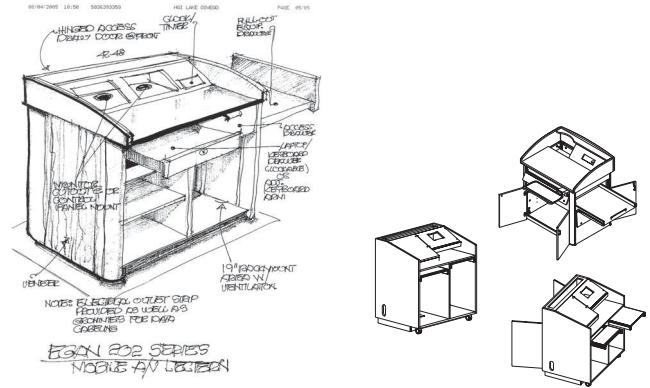

Custom product: Customer's Own Panel with customer's slat wall installed 30" from the floor to match desk height.

Example #2

Original product: 202 Mobile Instruction Center

Custom product: University Lecture Command Console 42" wide, with monitor and room control touchscreen and AV racking. A popular variation of the S2IM.

Custom Logo and Graphics Program

Egan will faithfully reproduce your logo, corporate identity or design on specified products.

About Computer-Assisted Engraving

A router bit follows a path supplied by the computer to carve out a design. Ideal for straightforward designs.

How to Estimate Custom Logos

Compare your logo to the samples below and select the version that is the closest representation of your logo.

Simple Art
Ideal for routing

Complex Art
Please contact Customer Service (customerservice@egan.com) for assistance

Note: Artwork must be approved prior to order acceptance.

Carved Engraving Design Estimation

Costs are based on time, complexity and number of colors. To estimate the cost of a carved engraving, follow these steps:

S2LF List	\$2 190
Setup, per order	\$455
Engraving	\$90
Color Blue (price per color)	\$85
Color Red (price per color)	\$85
	<u>\$260</u>

Total for the first unit of S2LF with engraved Custom Logo	\$2 905
Total for the second unit of S2LF with the same engraved Custom Logo	\$2 450

Note: This is a production line process where multiple unit orders will be more cost efficient. Please contact Customer Service for more information.

Artwork Requirements

Submit vector-based art created in a design program compatible with the import of graphics into AutoCad Software (such as Adobe Illustrator or Corel Draw).

Note: Pasting a pixel (bitmap) image into a vector program is not acceptable. Scanning of original art will be accepted only provided it is of "Camera Ready" quality, and may incur a digitizing cost of \$250.

Magnet FAQs

What is the difference between “magnet-compatible” and “NeoMagnet-compatible”?

Magnet holding power is a function of the magnet (e.g. size, type, and strength), the surface to which it will fix (e.g. metal type, and mass), and the distance they are from each other when the magnet is placed.

Egan products that are “magnet-compatible” are described as such because the product’s infill, or a substrate just below the visible infill, offer a high potential for magnetic holding power due to the material type, mass, and distance to the surface of the product. EVS™ Presentation Boards are a good example because there is a high grade steel substrate just below the EVS surface. So, “regular” magnets tend to adhere well, depending, of course, on the other big variable – the holding power of the magnet itself.

Egan products that are described as “NeoMagnet-compatible” offer good holding power when a strong magnet is used – for example, a “rare earth”, or neodymium magnet. The Egan NeoMagnet (see Accessories, in this Guide) is a neodymium magnet that has other features to improve its performance.

All products which are “magnet-compatible” are also “NeoMagnet-compatible”.

When using products which are described as “NeoMagnet-compatible”, Egan NeoMagnets should be specified for the best experience.

NeoMagnet warning

Contains small parts. Not for children under 3 years old. Keep magnets away from all electronic equipment or other items that have information stored magnetically. Egan Visual Inc. will not be liable for any damages of any kind related to the use of this product. Keep away from medical devices that may be susceptible to magnetic interference.

Additionally, be aware that magnets can be attracted to each other, with great force. Egan NeoMagnets are housed in machined, anodized aluminum, which provides additional product integrity, however like all magnets they should be used with care by being handled gently.

How much will the Egan NeoMagnet hold?

Tests conducted on new 8 1/2" x 11" sheets, 20-lb stock, not stapled or fixed to each other or anything else in any way. Sheets were fixed to the board in portrait orientation, with the magnet applied in the top third of the sheet, near the center. If the magnet did not slide, the sheets were deemed to be held.

Product	Pages Held
Dimension Stele Boxcore (DMB)	25
Aluminum Frame Markerboard - EVS (MER, MES)	20

Are there safety considerations with magnets?

Yes. All magnets have the potential to interfere with electronics.

Egan Presentation Boards

■ Boxcore Presentation Boards

- Modern ultra-thin bezel aluminum frame
- 1 1/8" and 3/4" depth options
- EVS, Linked, Tack, and Décor options

■ Wood Frame Presentation Boards

- Solid hardwood frame in 8 species
- Bullnose Edge
- EVS, Porcelain, Linked, and Tack options

■ Egan Dimension Boards

- Vanishing edge design
- Monolithic 1" thick
- EVS™, LINXX and Tack options

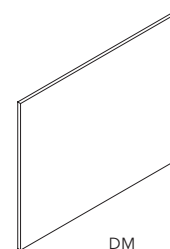

■ Aluminum Frame Presentation Boards

- Classic Egan aluminum frame
- Square and Curved corner designs
- EVS, Porcelain, Linked, Tack and Décor options

Egan Presentation Boards

Dimension Stele™

Since ancient times people have used the stele to communicate great ideas. The same has been said of the Egan Dimension board since Egan invented the monolithic presentation board category. Egan now presents Dimension Stele, featuring all the benefits of the Dimension board (guaranteed to clean, projection compatible, monolithic construction with vanishing edge) with a twist - it's magnet compatible. Thanks to its steel substrate below the EVS™, Dimension Stele can handle magnetic attachments from edge to edge. For added functionality, be sure to specify optional EganGrip.

Custom Sizes:

Select next larger size and add \$100 list

Custom Color Edge:

Additional cost per piece \$53 list or minimum upcharge \$300.

- Mounting cleats included. Standard mount is Egan Dimension Cleat (ACWALDIM). Boards mount with 3/8" space between wall and back of board.
- Egan offers a variety of marker trays. Dimension Marker Tray (ACDT) is recommended.
- Also available as STAXX and BLOXX configurations under Custom Response Program.
- Ships with two (2) assorted color Dry-Erase Markers and one (1) EganCloth.

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details. Parcel Service items (📦) ship 'Freight Included'. Instant Ship products are identified by combining codes indicated in **RED**.

Dimension Stele™ LINXX

Create a massive professional presentation surface with a monolithic, vanishing edge appearance with outstanding functionality; guaranteed-to-clean, projection-capable, and both standard- and Egan NeoMagnet-compatible.

Dimension Stele LINXX has been re-engineered for 2015 and is now easier to specify and simpler to install. Dimension Stele LINXX now uses standard Dimension Stele boards which are cleat-mounted and connected by small magnet sheets on the back side of the board. For 2015 you can now also combine boards of varying heights for a unique visual appearance.

How to specify Dimension Stele LINXX

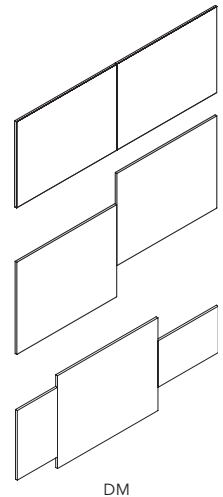

Select any combination of Dimension Stele boards to create your infinite length run. Separately, order one (1) Connector Kit for each vertical seam you create (typically, the number of boards you specify, less one). Dimension Stele LINXX is installed cleat mount with a hover appearance.

When selecting the Flush Finish option:

The Dimension Stele optional Flush Finish is also available for boards specified for Dimension Stele LINXX. To specify this, order the outside left board with a Flush Finish Left (FFL) option, and the outside right board with a Flush Finish Right (FFR) option.

New! OFFSET Installation

The new Dimension Stele LINXX design gives you the ability to install the individual boards vertically offset for a unique appearance! This does NOT need to be specified at the time of ordering and is an installation option; the installer merely staggers the wall cleats accordingly. Note: if specifying Flush Finish and also choosing to offset the installation, it should be noted that the offset board edges that are exposed (at either end of the common edge seam) are finished edges, with a 3/8" off the wall hover appearance.

DM

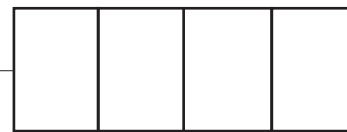

Connector Kit

Code	Description	Price per set
ACDMLINK-KIT	Dimension Stele LINXX Connector Kit. Use one (1) set for connecting 48"h boards, two (2) sets for 60"h, 72"h and 96"h boards.	\$60

Egan Presentation Boards

Tackable Wings

Tackable Wings are available in distinct tackable surface options; standard tackable Egan Fabric or Egan EcoTack™ included, or upcharge from Maharam Synergy Program. Both options feature a warp-free 3/8" tackable construction, factory-mounted on a 3/4" lightweight, recycled honeycomb core board, for an overall thickness of 1 1/8". Note: When installed beside a Dimension Stele Board the tackable surface is 1/8" proud to the adjacent EVS™ surface board. Available in Small Corner radius (1/8") or Large Corner radius (1 1/2") designs, with a Natural (NA), White (WH), or Custom Color (CC) edge on the board.

Dimension Stele™ Boxcore™

Dimension Stele Boxcore is a modern, professional grade presentation markerboard that is characterized by a monolithic appearance. The Boxcore frame sits flush against the wall and features a low profile when viewed from the front, thanks to its ultra-thin bezel. Dimension Stele Boxcore is constructed using Egan Boxcore technology which brings crisp edge definition, permits portrait or landscape orientation in the field, and provides robust edges for superior board quality and durability. EganINK™ compatible - customize your board for improved branding with bespoke graphics, signage, and more! Dimension Stele Boxcore is EVS-on-steel: a guaranteed-to-clean, dry-erase and projection-compatible low-gloss markerboard, that also accepts magnetic accessories. Frame is 1 1/8" (29mm) deep and can be specified in standard White (WH) or optional Clear Anodized (CA) aluminum.

Egan Standing Rigging

Egan Presentation Boards are available wall mount, track mount, wallcovering, freestanding, mobile, and more: now you can specify Egan Dimension Stele Boxcore in free space! Egan Standing Rigging is an all-new architectural-grade installation platform that brings a modern and unique tension wire installation without requiring complicated and custom-engineered architectural rigging. Install Dimension Stele Boxcore in any open space, at any height – all you need is a floor and ceiling as anchor points. The finished installation features the board suspended in midair on a simple tensioned wire rope (1x17 SSAC) assembly – with all the parts in the box from Egan.

ACESR-KIT

Where To Specify Standing Rigging

Egan Standing Rigging can bring high functionality and modern design aesthetic to almost any space. Consider complementing other architectural tension wire assemblies (live walls, rails, etc), creating workspaces in open floorplans, or even to install presentation boards in front of walls which cannot have fixtures (glass walls, demountable walls, partitions, etc).

How To Specify Boards

Egan Standing Rigging is available for specific Boxcore presentation boards. These boards have two additional features: first, they are optionally manufactured in a double-sided configuration with magnet-compatible EVS® on both sides; second, they feature mounting holes on the Boxcore frame for the Standing Rigging hardware.

How To Specify The Standing Rigging Kit

Order one kit per board to be installed. A Standing Rigging Kit includes hardware suitable for installing one board (of any standard size) with a floor-to-ceiling distance of up to 12'. For greater heights, contact Customer Service to specify longer wire.

For long continuous runs of boards, it may be possible for two boards to share one tension wire - please call Customer Service.

What's In The Box

The kit consists of track, wire, board mounts (stops and eye bolts) and termination hardware. What is not included: installation hardware (to mount the track), tools, and the tension gauge. Wire tension of 350lbs is recommended to stabilize the installation, and a wire tension gauge is required to measure this. If cutting the wire, the cut must be clean. If the installer does not have a tension gauge or wire cutter (appropriate for SSAC 1x19, such as Felco cutter), these are widely available and also available from Egan.

Installation

Installation instructions are included in the box, and installation is straightforward.

1. Install the upper and lower track.
2. Slide the turnbuckle into the upper track, with the wires hanging down. The wires have been fixed to the turnbuckle termination at the factory.
3. Screw the eye bolts into the factory-prepared holes on the Dimension Stele Boxcore frame.
4. Feed the wire through the eyebolts and the stop collars, temporarily fixing the stop collars to hold the board in place.
5. Cut off any excess wire and insert the wire into the quick connect fitting.
6. Insert the fitting into the lower track and tighten the turnbuckle to 350 lbs (gauge required).
7. True the board and tighten the stop clamps.

Presentation Board Boxcore™

Like our Aluminum Frame markerboard series, Egan Presentation Board Boxcore features a guaranteed-to-clean EVS™ surface bonded to steel, making it a professional grade dry-erase, magnet-compatible, projection-compatible, low-gloss presentation markerboard. Egan Boxcore technology provides robust edges and clean contemporary aesthetics. The Boxcore frame is clear anodized aluminum and sits flush against the wall, with the presentation surface 3/4" (19mm) proud from the wall. The distinct frame features a low profile when viewed from the front, thanks to its ultra-thin bezel.

Integrated wallmounts mean the board can be mounted in a landscape or portrait orientation, switching between them easily. Additionally, the back frame edge sits flush against the wall, concealing the mount. EganINK™ compatible - customize your board for improved branding with bespoke graphics, signage, and more!

Dimension Tack Boxcore™

Dimension Tack Boxcore features a 3/8" (9mm) deep tackable panel mounted proud on the board, for high holding power. It is designed to complement other Boxcore technology-based Egan presentation boards.

Dimension Tack Boxcore is constructed using Egan Boxcore technology which brings crisp edge definition, permits portrait or landscape orientation in the field, and provides more robust edges for excellent board quality and durability. The Boxcore frame sits flush against the wall and features a low profile when viewed from the front, thanks to its ultra-thin bezel. Frame can be specified 3/4" (19mm) or 1 1/8" (29mm) deep in standard Clear Anodized (CA). Available in EganFabric, EcoTack, Maharam, or Customer's Own Material.

Décor Panel Boxcore™

Décor panels with full-bleed, full color graphics are an exciting way to add signage, photos, and other graphics in corporate, healthcare, education, and other professional spaces. Egan Boxcore technology provides an ultra-thin Boxcore square corner frame finished in clear anodized aluminum, and is available in 3/4" (19mm) or 1 1/8" (29mm) depths with edges flush against the wall.

Printed in full density color so images look rich and vibrant. Décor Panels are not a dry-erase product, and are comparable to ASTM F793 10a Category I Wallcovering (Decorative). Available in large volumes, customized or serialized, or in a minimum order quantity of one unit. Reorientable portrait-to-landscape in the field.

Egan Décor Panels are designed to complement Dimension Stele Boxcore and Egan Boxcore Presentation Boards, or stand alone.

Aluminum Frame Markerboard

Egan Markerboards feature EVS™ surface or EganBoard Porcelain framed in clear anodized aluminum frame with either eased-curve or precision square mitered corners. Guaranteed-to-clean and never warp, Egan Aluminum Frame Markerboards are magnet-compatible, and are designed to complement curved or square corner frame Tackboards (MDTB), sold separately.

When specifying, it is important to notice that EVS and EganBoard Porcelain are designed with slightly different shades of white. When installed side-by-side, the difference in hue is noticeable. See the Egan Color and Finish Guide for details.

Aluminum frame markerboards in square corner only are also available with a Full Length Integrated Aluminum Marker Tray (MFTE/MFTM).

Linked Aluminum Frame Markerboard & Tackboard

Featuring high-performance EVS™ or EganBoard Porcelain and aluminum frames with either eased-curve or precision square mitered corners. Link any combination of Linked Markerboards and Tackboards to create a superior quality communication wall 24"–96" high. When specifying, it is important to notice that EVS and EganBoard Porcelain are designed with slightly different shades of white. When installed side-by-side, the difference in hue is noticeable. See the Egan Color and Finish Guide for details.

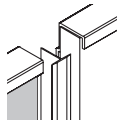

IE, IM, IT

Both EVS and Porcelain Linked markerboards accept magnetic accessories.

Egan Presentation Boards

EganMosaic™

EganMosaic brings you the high design flexibility of individual tesserae coming together as a user reconfigurable collaboration wall. EganMosaic is one of the most powerful, visually versatile and appealing surfaces available. The designer specifies a bespoke tile combination with dry erase space, tackable surface, magnet, custom graphics, and more, configured into a mosaic of workspaces, signage, wayfinding, note posting, whiteboard ideation, and even sound absorption.

16" x 16" and 16" x 32" tiles can be oriented landscape or portrait, and moved easily. Justified or staggered columns and rows of varying or uniform length, for infinite reconfiguration.

Egan Presentation Boards

Décor Panel

An Egan Décor Panel is a modern and positive way to add permanent visual communications to your office space. Specify full color, full coverage, full bleed, bespoke graphics for aesthetic appeal, signage, wayfinding and more. Designed to complement Egan Aluminum Frame (MER, MES) presentation boards, Décor Panels are not a dry-erase product, and are comparable to ASTM F793 10a Category I Wallcovering (Decorative). Available in large volumes, customized or serialized, or in a minimum order quantity of one unit. Reorientable portrait-to-landscape in the field.

Available in square and round corners. Aluminum frame boards in square corner only are also available with a full length integrated aluminum marker tray (MFTE, MFTM).

Egan Glass Markerboards

■ GlassWrite™

- Clear or Frosted, 6mm
- Captive Stanchion mount
- Shapes, Colors
- Up to 10 feet wide

■ EganAero™

- Pristine legibility
- Three distinct installation formats
- Modern and Postmodern visual substrates

■ GlassWrite MAG

- Magnet-compatible
- Frameless or Framed options
- White or colors

Egan Glass Markerboards

Egan is proud to offer you the finest range of glass-based visual presentation products in the industry. Using the pages that follow, you have the opportunity to specify glass markerboard products in a wide variety of designs, formats, and options (and for non-markerboard glass options, be sure to refer to TableScreens, Mobiles, and Cabinets elsewhere in this Guide).

Here's how to think about glass markerboards.

1. Glass Type
2. Frame design
3. Installation format
4. Sub-glass art or graphics

Glass Type

Egan brings you two distinct glass families, Egan GlassWrite™ and EganAero™.

Our classic GlassWrite series features contemporary SLS Float glass (with which most people are familiar – this is clear safety glass that has a green tint on any exposed edge) and low-iron (PPG Starphire®, Pilkington OptiWhite®) float safety glass that features better optical clarity (an exposed edge will show a very light blue tint). GlassWrite products are guaranteed-to-clean. Featuring glass infills which, in markerboards, range from 5/32" (4mm) to 1/4" (6mm) in thickness, GlassWrite products feature sparkling field depth beneath your dry erase markings.

Our 'best in glass' performer, EganAero products feature high-technology glass as found in your smartphone. The glass itself is ultra-thin (0.2mm to 1.0mm, or 1/128" to ~1/32"), this safety glass is manufactured in a number of different formats. Its pristine appearance is supported by superb scratch-resistance, and an **unprecedented elimination of parallax** which brings you the ultimate in glassboard writing clarity.

Frame Design

Both GlassWrite and EganAero products are available both unframed and framed. For a framed design intent, look for products featuring Egan Boxcore technology. This industrial design features a fully integrated 'unibody' construction with integrated frame and infill, resulting in a modern, robust, ultra-thin aluminum bezel that finishes the product neatly. For an unframed look, both GlassWrite (such as GlassWrite MAG, GlassWrite Shapes) and EganAero (EganAero, EganAero Hover) have various offerings. When the product is unframed, the exposed glass edge is finished or polished to mute the edge.

Installation Format

For an installation that results in the hardware being concealed from view, please specify framed product or unframed product with a "hover" appearance. These products are installed using cleats.

Unique to GlassWrite, certain products may be specified using captive stanchions. These anodized aluminum standoffs are installed through the prefinished holes in the glass.

Certain products are available mounted flush to the wall, using magnetic sheets and/or adhesives. EganAero, with finished installation that is sub-2mm proud of the wall, is an example.

Sub-Glass Art or Graphics

Like most Egan products, Egan GlassWrite and EganAero products can be customized with bespoke graphics. Look for the EganINK icon on the bottom of each page, to specify your sub-glass artwork, logos, templates, and more! Custom Colors also available.

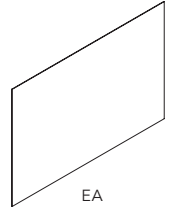

Egan Glass Markerboards

EganAero™

EganAero is the world's best glass markerboard. EganAero is, simply put, the world's thinnest, lightest, toughest, clearest glass markerboard. Along with its pristine surface and stunning, sleek profile (with a wall standoff roughly the thickness of a coin), EganAero brings functional benefits not found in any other markerboard. Writing on conventional glass results in messy, shadow-strewn outcomes. Writing on EganAero is a joyful exercise in precision, and yields crisp, clear legible results. EganAero is also easy to install, easy to move, and easy to uninstall.

Egan NeoMagnet compatible.

EganAero features glass thinness of 1mm, with an installed standoff profile from the wall of only 2mm (0.085"), including installation magnet. One easy-to-install magnetic mount is included in the base price.

EganAero (EA)

Egan Glass Markerboards

EganAero™ Hover™

EganAero is the world's best-performing glass markerboard, and in this configuration appears to "hover" off the wall for a unique aesthetic appearance. EganAero is, simply put, the world's thinnest, lightest, toughest, clearest glass markerboard. Along with its pristine surface and stunning sleek profile, EganAero brings functional benefits not found in any other markerboard. Writing on EganAero is a joyful exercise in precision and yields crisp, clear legible results.

EganAero Hover features glass thinness of 1mm, with an installed standoff profile from the wall of only 5/16" (8.5mm) to the front of the board. Rear of board is approximately 5/16" (7.3mm) from wall for a distinct Hover appearance. Features increased magnet-holding capability as compared to EganAero (flush mount). The product mounts with dual wall cleats (included) for parallel installation. Egan NeoMagnet, standard magnet and EganINK compatible.

EganAero™ Boxcore™

Writing on EganAero is a joyful exercise in precision, and yields crisp, clear legible results. EganAero is the world's best-performing glass markerboard and in Boxcore configuration features glass thinness of 1mm installed in a 3/4" (19mm) deep frame with ultra-thin bezel that sits flush on the wall. EganAero Boxcore is constructed using Egan Boxcore technology which provides a rigid frame and permits portrait or landscape orientation in the field.

Egan NeoMagnet, standard magnet and EganINK™ compatible. EganAero Boxcore frame is standard Clear Anodized (CA).

Egan Glass Markerboards

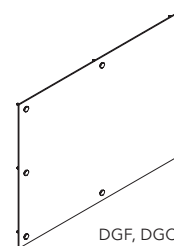

GlassWrite™

GlassWrite Markerboards are 1/4" (6mm) thick tempered glass frosted on the back side, or can be specified 'clear.' Go above and beyond with custom graphics available through our EganINK™ program (frosted glass only). GlassWrite Markerboards are frameless tempered glass dry-erase presentation boards with polished edges.

With frosted glass markerboards, wall color shows through for an unobtrusive yet highly effective visual communication surface. EganINK can be specified on frosted glass markerboards to really communicate your message or promote your brand. For solid colors please see GlassWrite Colors and GlassWrite MAG.

Standard mount included is Captive Stanchions. Edge Stanchions available on special quotations.

Once installed, overall product depth is ~1 3/8".

Egan Glass Markerboards

GlassWrite™ Shapes

Egan GlassWrite Markerboards are now available in custom shapes! Working with initial direction from designers and clients, the Egan Engineering team will develop solutions that work within the Egan manufacturing process. Email your art shape to customerservice@egan.com for approval.

GlassWrite Shapes is mounted using Post/Captive Stanchion Mount. General shape rules include a minimum curve radius of 3 1/4", and a minimum width of 6" on 'ear' of a polygon or any irregular protrusion. In certain circumstances minimum specifications can be smaller - call Customer Service for spot quote. Maximum outer dimension is 96"w. GlassWrite Boards are 1/4" (6mm) thick tempered glass, and available clear, frosted, or in colors. Once installed, the overall product depth is ~1 1/2".

Egan Glass Markerboards

GlassWrite™ MAG

GlassWrite Markerboards are 5/32" (4mm) thick tempered glass, bonded to steel. These dry-erase guaranteed-to-clean markerboards are available in standard back-painted white or optional custom color to match the style of your collaboration environment. In addition, the GlassWrite MAG Markerboard is Egan NeoMagnet compatible. Egan GlassWrite MAG Markerboards feature low-iron tempered safety glass (PPG Starphire® and Pilkington OptiWhite®) for high optical clarity, high light transmission, and reduced tint. Glass thickness is 5/32", overall product thickness is slightly greater.

- Magnetic: adheres to metal
- EganINK compatible

Egan Versa Presentation Surfaces

VersaPRO® Wallcovering

Egan VersaPRO high performance EVS dry-erase surface is designed for quick and easy installation by qualified installers, and is manufactured from similar materials to VersaJOT. Optional EganSystem Track framing is recommended. Volume pricing is available.

VersaPRO is offered in rolls or sheets in high tack self adhesive or Customer's Own Glue (COG) prepared. All edges are straight cut. No custom shape options are available. VersaPRO can be imprinted with EganINK™ on 48" or 54" heights and 1 foot – 400 feet lengths.

Note: VersaPRO installation surfaces require specific surface conditions be met.

Note: continuous patterns over 9' may have design restrictions. Please contact Customer Service for further details.

Installation Adhesive Options (choose one)

Egan Visual is not responsible for installation.

Adhesive Option

PSA-High	COG	Pressure Sensitive Adhesive (PSA)
H	G	installation is very quick and permits instant use of the product. PSA installations should be limited to 20 feet length or less and will not be cut on site or seamed. High tack adhesive (H) is suitable for painted and primed dry-wall applications.

Customers Own Glue (COG) installation is able to meet high expectation fit and finish when installed by a professional wallcovering specialist or qualified installer using customer's own wallcovering adhesive. The surface will be available for use after the installer supplied adhesive fully cures, typically 24 hours or as indicated by the adhesive manufacturer. This solution is recommended where the installation may be cut on site and or seamed for a wall to wall-floor to ceiling installation.

VersaPRO installation surfaces require specific installation surface conditions be met.

See installation instructions and videos online at www.egan.com. The manufacturer is not responsible for installation.

Specifying VersaPRO

VersaPRO-H

Pressure sensitive adhesive installation, offered in pre-cut sheets or custom lengths. Max size 54" x 400' VersaPRO-H is great for simple single piece installations.

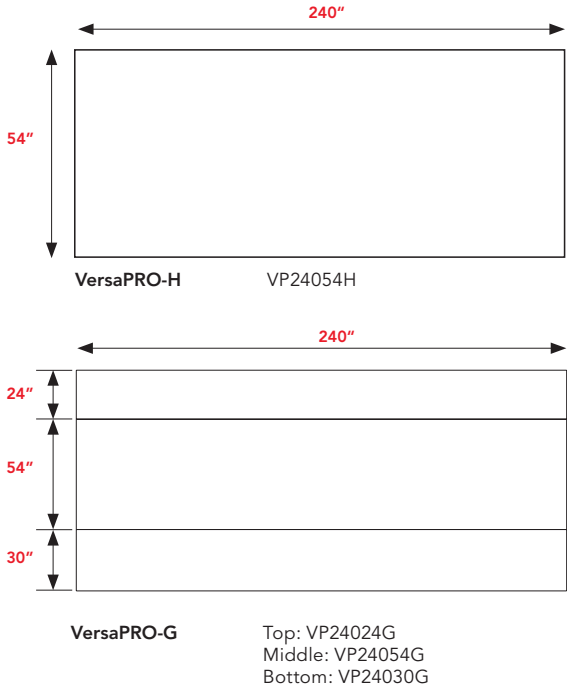

VersaPRO-G

Professional wall covering adhesive installation, offered in pre-cut sheets or custom lengths. Max size 54" x 400 feet VersaPRO-G is the choice where high expectation fit and finish is required in a floor to ceiling/wall to wall installation (note: visible seams to be expected). Unlike VersaPRO-H which must be installed exactly in position, VersaPRO-G utilizes a customer supplied wet adhesive that provides workable drying time and fitting around details like electrical fixtures.

For wallcovering fit and finish and full wall to ceiling, VersaPRO-G is offered in rolls or sheets. All edges are straight cut (factory slitting is available, custom shape options are not available).

VersaPRO can be imprinted with EganINK on heights: 48" or 54" lengths: 10 feet - 400 feet.

Note: EganINK continuous patterns over 9 feet may have design restrictions. Please contact Customer Service for further details.

Note: Factory edges only butted together for seams.

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details.
Parcel Service items (📦) ship 'Freight Included'.
Instant Ship products are identified by combining codes indicated in RED.

Egan Versa Presentation Surfaces

VersaPRO® Wallcovering

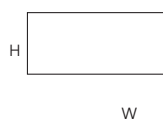

For Egan Presentation Surfaces up to 84" w x 54" h, please see VersaJOT. Egan VersaPRO is available in large formats, suitable for resurfacing large areas of wall, glass, metal, and chalkboard. Egan warrants the VersaPRO product only, as outlined in our Terms & Conditions. Installation and the installation environment are out of Egan's control and not warranted by Egan in any circumstance.

Sale Restriction

VersaPRO requires professional installation and the sale of products on this page is therefore limited to cases where a professional installer has been named for the project. Any dealer can purchase VersaPRO with a professional installer of their choice named on their purchase order. The installer is an independent contractor that you can engage directly for your project and they will warrant your installation directly.

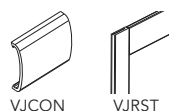

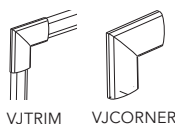

Egan Visual offers a variety of support tools for the professional installer, including training videos, samples. Fee-based Egan factory installer support and training is also available.

Egan Versa Presentation Surfaces

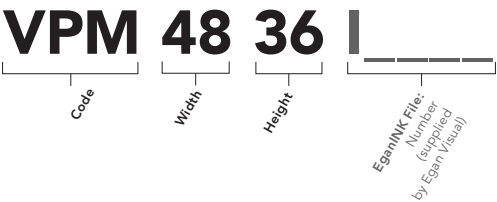

VersaPRO® Mag Wallcovering

VersaPRO Mag is a guaranteed-to-clean presentation wallcovering that is also magnet-compatible. VersaPRO Mag also simplifies installation: install the magnetic sheet to the wall, then snap the VersaPRO Mag into place - magnetically. Final product is magnet-compatible and can be field cut around switches and other wall features by your installer. VersaPRO Mag is compatible with VersaPRO Trim, and EganSystem 202 Upper and Lower Track Options (to trim both upper and lower horizontal edges).

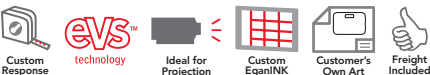

VersaPRO Mag has a maximum height of 36", and maximum width of 7', and should be specified as one continuous piece as matching seams is not recommended. Double cutting in the field is not recommended. Egan NeoMagnets compatible.

VersaPRO Mag (VPM)	Code	Dimensions	Price	EganINK
	VPM4836	48"w x 36"h	\$620	\$180
	VPM6036	60"w x 36"h	\$710	\$225
	VPM7236	72"w x 36"h	\$790	\$270
	VPM8436	84"w x 36"h	\$840	\$315

How To Order This Product:

- For lengths 84" to 120" please contact Customer Service.
- For lengths over 84" VersaPRO Trim (VJTRIM) must be used.
- Final installation is magnet-compatible.
- Can be field cut during installation for switches and other knockouts.
- VersaPRO Mag may be slit horizontally for custom applications. \$135 per order.
- Ships with two (2) assorted color Dry-Erase Markers, one (1) EganCloth and two (2) Egan NeoMagnets.
- Egan offers a variety of marker trays. Dimension Marker Tray (ACDT) is recommended.

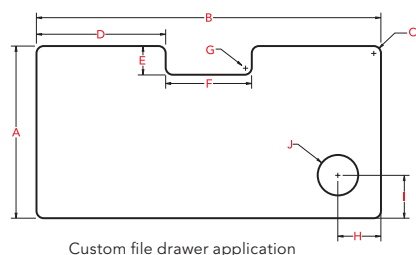

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details.

Egan Versa Presentation Surfaces

VersaJOT

Designed for quick and easy installation, this amazing pressure sensitive adhesive, dry-erase product applies to most finished surfaces in seconds. VersaJOT is offered in units precisely cut to Customer's Own Art patterns (COA). VersaJOT pieces are custom-shape, precision CNC cut from a 54" wide roll on an 84" long bed, and are applied with high-adhesive glue. Volume pricing is available.

Specifying VersaJOT

- A. Height
- B. Width
- C. Corner Radius**
- D. Notch Inset Horizontal
- E. Notch Inset Vertical
- F. Notch Width
- G. Notch Corner Radius**
- H. Knock-out Inset Horizontal
- I. Knock-out Inset Vertical
- J. Knock-out Diameter

VersaJOT is cut to your specifications for your custom requirement. Exact measurements are required.

** 1/4" radius corners are standard unless specified otherwise. Minimum radius corner is 1/8".

Customer's Own Art

Egan Visual is pleased to accept COA patterns prepared in suitable vector file formats: AutoCad (DWG or DXF), Adobe Illustrator (EPS or AI), Corel Draw (EPS or CDR) to Encapsulated Postscript (EPS). Egan Visual will execute designs exactly as provided. Suitable vector files contain mathematical shapes. Embedding or "copying-and-pasting" a raster image such as a BMP, PSD, JPG, GIF, or PNG into a vector file is not suitable and will be subject to engineering charges. All VersaJOT orders are customized. Egan Visual does not accept responsibility for errors in customer instructions. Submitting a purchase order with a suitable vector file for VersaJOT release Egan Visual from responsibility for specification errors discovered upon installation.

VersaJOT (VJ)

VersaJOT is cut from a 54" w roll and is offered on a linear foot basis. For an accurate quote, call Egan Customer Service.

LFT	Price/LFT	EganINK/LFT
7-49	\$88	\$155
50-99	\$79	\$147
100+	\$70	\$138

• 7 linear feet is the minimum order size

How To Order This Product:

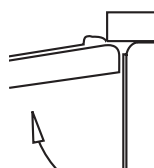

- One knock-out shape provided at no charge. Additional knock-outs, add \$135 per sized pattern. Upcharge applies once per drawing when number of knock-outs are 2 or more on that same drawing.
- Engineering charges of \$135 minimum will be applied to orders with incorrect file format.
- Maximum dimensions are 54" x 84". VersaJOT has a thickness of 0.050". Minimum corner radius 1/8". Egan guarantees +/- 1/16" accuracy overall.
- Square footage to be taken from gross material requirement for final pattern.
- A self adhesive compact marker tray kit (VJCO) is available.
- Add 1" to both Width and Height when specifying EganINK square footage.
- Ships with two (2) assorted color Dry-Erase Markers and one (1) EganCloth.

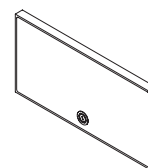

Installation Guidelines for VersaMAG and VersaJOT

Edge Overhang: Measure VersaMAG/ VersaJOT to inset especially on rounded corners. Example "A" will cause VersaJOT to peel off. Example "B" is a good inset from the edge.

Clearance Required: Allow for clearance on moving surfaces. The hutch door in this example does not have enough clearance (1/16"), causing an obstruction at the hinge area.

Specify VersaJOT with a 1/8" inset around edges and locks to ensure a good fit. VersaMAG is NOT available with notches or cut outs.

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details. Parcel Service items (📦) ship "Freight Included". Instant Ship products are identified by combining codes indicated in **RED**.

Egan Versa Presentation Surfaces

VersaMAG

Egan Versa Presentation Surface (EVS™) is a unique solution for combined dry-erase and projection situations. The guaranteed-to-clean dry-erase surface is second to none in performance and visual appeal. The matte-white, low gloss surface reduces glare and functions as a superb projection surface.

VersaMAG is EVS applied to a magnet. It installs magnetically on any metal surface, and is offered in popular sizes or as custom shaped up to a maximum of 84" x 47". VersaMAG is ideal for smaller locations where a metal surface can be upgraded for dry-erase use. EganINK™ adds branding and increases functionality.

VersaMAG Run Standard (SM)

- 15" height features 1/4" eased corner detail to fit a variety of applications.

- 18" height features 1/4" eased corner detail to fit a variety of applications.

EganSystem

■ EganSystem 202

- Markerboards and tackboards
- Track compatible

■ EganSystem Office

- Track mounted
- Markerboards and tackboards
- Shelving
- Storage cabinets

■ EganSystem Track

- SystemTrack - designed by Egan, up to 4 boards deep
- GripTrack
- TackRail track
- Upper and lower options

■ Lightweight: VersaBoard

- Incredibly light weight
- Double-sided EVS™ surface: reversible and reorientable
- SystemTrack compatible
- Track option for adhesive mount on glass

Upper Track Options

EganSystem offers track components for optimum communication flexibility and simplicity all in one product line. The discrete linear track is wall mounted at 81" high. EganSystem components are then easily suspended from the track. End caps are included. EganSystem Upper Track is designed to work with a wide variety of track mounted products including markerboards, tackboards, shelving and cabinets.

SystemTrack (ST)

Code	Description	Dimensions	Price
EMST96	SystemTrack. Includes end caps (EMTSEC). EganMetallic (EM).	96" (8ft.) lengths	\$112
ESST96CL	SystemTrack. Includes end caps (ACTSECCL). Charcoal (CL).	96" (8ft.) lengths	\$112
ESST96PY	SystemTrack. Includes end caps (ACTSECPY). Putty (PY).	96" (8ft.) lengths	\$112
EMTSEC	End Caps for SystemTrack. 1 pair. EganMetallic (EM).		\$5
ACTSECCL	End Caps for SystemTrack. 1 pair. Charcoal (CL).		\$5
ACTSECPY	End Caps for SystemTrack. 1 pair. Putty (PY).		\$5

• Egan SystemTrack can be field cut and butt-joined to desired length.

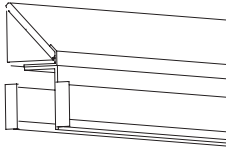

GripTrack (GT)

Code	Description	Dimensions	Price
EMGT96	GripTrack. Includes end caps (EMTSECG). EganMetallic (EM).	96" (8ft.) lengths	\$157
ESGT96CL	GripTrack. Includes end caps (ACTSECGCL). Charcoal (CL).	96" (8ft.) lengths	\$157
ESGT96PY	GripTrack. Includes end caps (ACTSECGPY). Putty (PY).	96" (8ft.) lengths	\$157
EMTSECG	End Caps for GripTrack. 1 pair. EganMetallic (EM).		\$25
ACTSECGCL	End Caps for GripTrack. 1 pair. Charcoal (CL).		\$25
ACTSECGPY	End Caps for GripTrack. 1 pair. Putty (PY).		\$25

- A built-in paper holder is integrated into the mounting extrusion of the track to suspend flipchart sheets directly from the track.
- Specify GripTrack with EganSystem Office Shelves and Cabinets for a safe and secure installation.
- Egan GripTrack can be field cut and butt-joined to desired length.

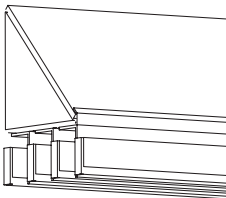

TwinTrack (TT)

Code	Description	Dimensions	Price
EMTT120	TwinTrack. Includes end caps in EganMetallic (EM).	120" (10ft.) lengths	\$920
ESTT120CL	TwinTrack. Includes end caps in Charcoal (CL).	120" (10ft.) lengths	\$920
ESTT120PY	TwinTrack. Includes end caps in Putty (PY).	120" (10ft.) lengths	\$920

- One track is mounted to the wall and one additional tracks are mounted on the TwinTrack assembly.
- Ships with five (5) clear, impact-resistant bumper guides that attach to the bottom frame of the boards to act as a spacer. When optional EganSystem boards are lined up in front of each other, the spacer prevents movement when using the front panel.
- These products are not compatible with TwinTrack due to size restrictions: EVPR, ESR, EMTBFC, ESSH, ESOC, EMSCR, ASCRTSRPS.
- Egan TwinTrack may be factory cut to specific lengths. Contact Customer Service for details.

MultiTrack (MT)

Code	Description	Dimensions	Price
EMMT120	MultiTrack. Includes end caps in EganMetallic (EM).	120" (10ft.) lengths	\$1 450
ESMT120CL	MultiTrack. Includes end caps in Charcoal (CL).	120" (10ft.) lengths	\$1 450
ESMT120PY	MultiTrack. Includes end caps in Putty (PY).	120" (10ft.) lengths	\$1 450

- One track is mounted to the wall and three additional tracks are mounted on the MultiTrack assembly.
- Ships with nine (9) clear, impact-resistant bumper guides that attach to the bottom frame of the boards to act as a spacer. When optional EganSystem boards are lined up in front of each other, the spacer prevents movement when using the front panel.
- These products are not compatible with MultiTrack due to size restrictions: EVPR, ESR, EMTBFC, ESSH, ESOC, EMSCR, ASCRTSRPS.
- Egan MultiTrack may be factory cut to specific lengths. Contact Customer Service for details.

VersaPRO Trim Option by EganSystem (EWWT, left/right)

EganSystem Track is an ideal frame for VersaPRO presentation surface installations. Horizontal runs of EganSystem Track install top and bottom and are complemented by vertical trim on the sides to complete the frame. Egan also encourages properly installed third party framing to match the existing décor.

Code	Description	Price
EWWT54	60" vertical trim for use with EganSystem Upper Track options. Left/right pair. EganMetallic (EM). Field cut for 48" installations. An ideal frame for VersaPRO.	\$112

- For Custom Color, add 15%. \$135 minimum.

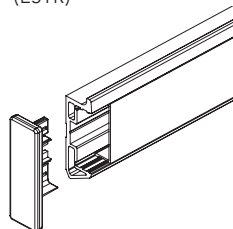

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details.
Parcel Service items (📦) ship 'Freight Included'.

Upper Track Options

Egan Tack Rail presents the opportunity to specify a tackable rail infill, permitting you to affix maps, photos, memos and more. This allows materials to be attached to the rail with the use of pins or tacks. A variety of tackable material colors are available as infill options or infill can also be installed in a convex orientation for a smooth, non-tackable finish.

Tack Rail (ESTR)

Code	Description	Infill, Tackable Material	Infill, Cork
ESTR96	96" w Tack Rail with tackable infill. Clear Anodized (CA) aluminum rail finish. 1/4" tackable strip depth. Includes end caps (ACTSECTREM).	\$180	\$160
ACTSECTREM	End Caps for Tack Rail. 1 pair. EganMetallic (EM).	\$5	

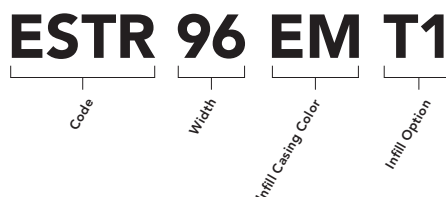

Infill Casing Color

Code	Description

AVBE	N/A	Two left and two right corner mounts, two rubber standoffs, two edge mount brackets. Restricted to 6 lb. max. weight load. VersaBoard not included. Finished in EganMetallic (EM).	\$34

Top Mount	Dimensions	Description	Price
AVBPA	2" to 3 3/16"	Two left and two right corner mounts, two rubber standoffs, two Top Mount assemblies. Specify size as per code. Restricted to 6 lb. max weight load. VersaBoard not included. Finished in EganMetallic (EM).	\$56
AVBPB	3 3/16" to 4 7/16"		\$56
AVBPC	4 7/16" to 5 5/8"		\$56

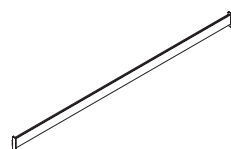

AVBT	N/A	Two Track corner mounts, two Track bumpers. Board not included. Compatible with Egan VersaBoards. Required for Glass (AVBG) and Magnetic Mount Kits (AVBM), wing bumper. Finished in EganMetallic (EM).	\$34
-------------	-----	---	-------------

VersaBoard Track Kits (EVB)

For lightweight VersaBoards only. Not compatible with EganSystem or EganSystem Office.

Adhesive-backed EganMetallic (EM) SystemTrack designed to support lightweight VersaBoards on glass windows, walls, or any smooth surface that will not accommodate a fastener. VersaBoard not included. EganSystem 202 and EganSystem Office products are too heavy for this application. For this type of installation, VersaBoard must be specified with Track Mount (AVBT) corners.

AVBG

Glass Mount	Dimension	Price
AVBG37	37" lengths	\$78
AVBG49	49" lengths	\$90

AVBM

Magnetic backed 37" and 49" lengths of EganMetallic (EM) SystemTrack designed to support lightweight VersaBoards on metal-surfaced panel systems, partitions or file cabinets. VersaBoard not included. EVS and EganBoard Porcelain system boards are too heavy for this application. For this type of installation, VersaBoard must be specified with Track Mount (AVBT) corners.

Magnetic Mount	Dimension	Price
AVBM37	37" lengths	\$95
AVBM49	49" lengths	\$117

Note: These two unusual track options are designed for use with lightweight Track Mount VersaBoards ONLY and are restricted to a maximum 7 lb weight load. EganSystem 202 and EganSystem Office products are too heavy for this application.

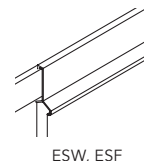

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details.
Parcel Service items (📦) ship "Freight Included".

EganSystem Office

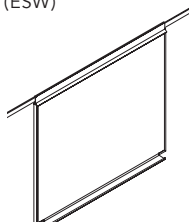

Markerboards & Tackboards

EganSystem Office is a unique track solution featuring markerboards, tackboards, shelving and cabinets. The system is designed with a continuous track hanger that runs across the width of the product, evenly distributing weight to safely support shelves and cabinets. The hanger slides easily across the track for quick, simple re-configuration. With GripTrack (GT) and EganSystem Security Locks (QB), products are prevented from unwanted movement. The entire line is ideal for office environments, providing utility on the wall, without compromising floor space.

EganSystem Office Markerboard - EVS (ESW)

Accepts magnetic accessories

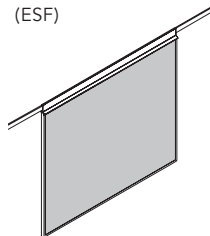

Code		Dimensions	Price	EganINK ¹
ESW3629	👉	36"w x 29"h	\$425	\$110
ESW3643		36"w x 43"h	\$470	\$160
ESW4229	👉	42"w x 29"h	\$450	\$130
ESW4243		42"w x 43"h	\$515	\$190

- Markerboards ship with a 32" slide-on marker tray, four (4) assorted color Dry-Erase Markers, and one (1) EganCloth.
- Available with EVS surface on one side only.

¹ Price per board. Minimum EganINK upcharge per order is \$150.

EganSystem Office Tackboard (ESF)

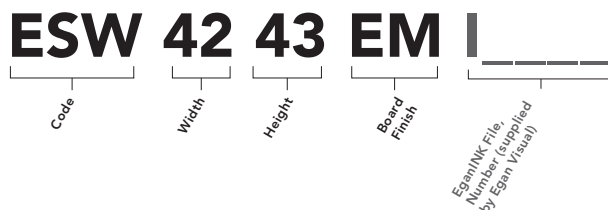

Code	Dimensions	Price	Tackable Fabric Grades		
			A	B	C
ESF3629	36"w x 29"h	\$400	\$78	\$112	\$157

EganSystem Office Shelving

EganSystem Office Shelving is a unique track solution designed with a continuous track hanger that runs across the width of the product to evenly distribute weight to safely support the shelves and cabinets. The hanger slides easily across the track for quick, simple re-configuration. With GripTrack (GT) and EganSystem Security Locks (QB), shelves are prevented from unwanted movement.

EganSystem Office Shelving (ESSH)

Code	Dimensions	Price
One fixed shelf (not shown)		
ESSH361	36" w x 16" h x 12 1/2" d	\$550
ESSH421	42" w x 16" h x 12 1/2" d	\$570
ESSH481	48" w x 16" h x 12 1/2" d	\$620
One fixed, one adjustable shelf		
ESSH362	36" w x 29" h x 12 1/2" d	\$650
ESSH422	42" w x 29" h x 12 1/2" d	\$685
ESSH482	48" w x 29" h x 12 1/2" d	\$730
One fixed, two adjustable shelves		
ESSH363	36" w x 43" h x 12 1/2" d	\$765
ESSH423	42" w x 43" h x 12 1/2" d	\$810
ESSH483	48" w x 43" h x 12 1/2" d	\$875

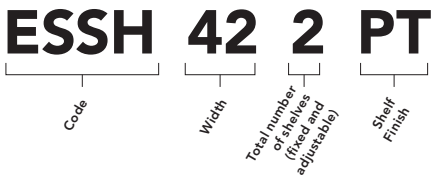

- Meets California State 2001 building code, section 1632A. See below for details.
- Shelves adjustable on 1 1/4" centers, bottom shelf fixed.
- GripTrack required for Security Lock option. Maximum load: 60 lbs./shelf.
- Supported from recommended 81" high SystemTrack or GripTrack.
- Shelves can be repositioned anywhere along the track.
- Orders for under six (6) units are shipped 'knocked-down', assembly required.
- The optional Security Lock is a patent pending device that prevents the shelf or cabinet from lifting off the GripTrack under seismic activity. See bottom of this page for installation details.

Select An Etex Finish

EganMetallic	Black	Charcoal	Gray	Platinum	Putty	Sand	Slate	Taupe
EM	BL	CL	GR	PT	PY	SN	SL	TA

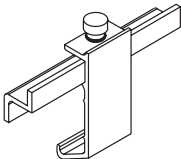

How To Order This Product:

- EganSystem Office Shelves ESSH codes are approved for wall mounting in accordance with California State 2001 building code section 1632A when installed Egan GripTrack as per California State OSHPD standards.
- For Custom Color, add 15%. \$135 minimum.

EganSystem Security Lock (QB)

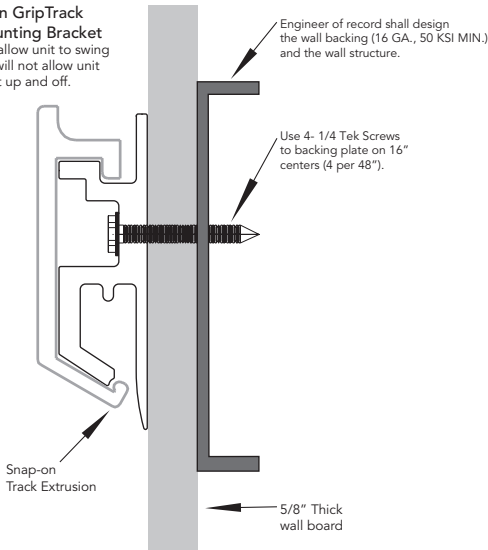

Code	Description	Price
QB	Security Locks for product security. One (1) pair.	\$85

- Egan Security Locks are designed to lock single units or a series of EganSystem Office products to the track. Great for security and to prevent shelves from lifting up and off the track. Requires GripTrack.

Egan GripTrack Mounting Bracket

Will allow unit to swing but will not allow unit to lift up and off.

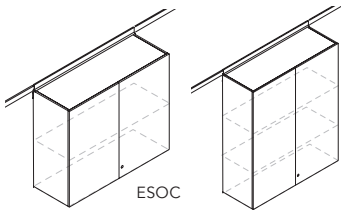

Freight charges apply on orders under \$1 200 list. See Terms and Conditions for details.

Egan Presentation Cabinets

VersaCabinet Boxcore™

VersaCabinet Boxcore utilizes the VersaCabinet body and offers increased functionality and a modern design aesthetic with new front-of-cabinet surface options for additional work space, tacked notes, or even custom graphics. Door front infill can be specified in EVS (magnet-compatible), Décor Panel or tackable fabric panel. The back of the door shows Boxcore frame, and features an EVS dry-erase guaranteed-to-clean writing surface, also magnet and projection compatible. Egan Boxcore technology brings crisp edge definition and durability, emphasizing the cabinet's clean lines and modern appearance.

Choose from single or double door cabinet models, which feature EVS dry-erase, guaranteed-to-clean surface on the interior of the cabinet (both body and rear of door). Optional accessories, which include Egan NeoMagnet (ACEAMAG) and Egan Tack Panels (TP) are sold separately. Accepts both standard and Egan NeoMagnet on the door front, door interior and body.

Egan Presentation Cabinets

EganAero™ Cabinet

EganAero Cabinet design is based on the popular Egan 202 VersaCabinet (CE2) body. EganAero cabinet is unique as it features the world's thinnest, lightest, toughest, clearest glass markerboard as the door front infill. Accepts both standard and Egan NeoMagnet on the door front, door interior and body.

Choose from single or double door cabinet models, which feature EVS dry-erase, guaranteed-to-clean surface on the interior of the cabinet (both body and rear of door). Optional accessories, which include Egan NeoMagnet (ACEAMAG) and Egan Tack Panels (TP) are sold separately.

EganAero Cabinet (CEEAB)

Code	Dimensions	# Doors	Modern ²	Postmodern ³	EganINK ⁴
CEEAB2436 ¹	24"w x 36"h x 3"d	1	\$1 490	\$1 610	\$90

Egan Presentation Cabinets

GlassWrite™ Cabinet

Based on the 202 VersaCabinet (CE2) body, GlassWrite Cabinet doors feature low-iron 5/32" (4mm) thick tempered safety glass (PPG Starphire® and Pilkington OptiWhite®) bonded to steel door infills for high optical clarity, and reduced tint.

Choose from single or double door cabinet models, which feature EVS dry-erase, guaranteed-to-clean surface on the interior of the cabinet (both body and rear of door). Optional accessories, which include Egan NeoMagnet (ACEAMAG) and Egan Tack Panels (TP) are sold separately.

- EganSystem Track compatible
- Integrated board storage

Dimension Mobile

Dimension Mobile shares the design appeal of the market-leading Dimension Stele™ and utilizes the unique Egan Boxcore™ industrial design for a high degree of stability when moving and when writing. With an EVS surface, an ultra-thin bezel, and a powdercoated white aluminum frame in 1 1/8" (29mm) depth, Dimension Mobile has a sleek, monolithic appearance with only a small visible seam at its borders. Base secures to body frame using Torx® bolts, designed for high seated strength and an attractive flush appearance.

Thanks to the low-profile base and Torx bolts, multiple units of Dimension Mobile can be nested successfully when not in use. To complement Presentation Board installations, specify a Clear Anodized (CA) aluminum frame at no charge. Optionally specify Custom Color (CC) frame and base. EganINK bespoke graphics are available.

GlassWrite Boxcore™ Mobile

Egan, the industry leader in Mobiles, brings you a number of innovations in the all-new GlassWrite Boxcore Mobile, allowing you to shape your space and collaborate anywhere with style. The unique Egan Boxcore industrial design brings a high degree of stability when moving and when writing on the mobile, yet offers a highly attractive finish with its ultra-thin bezel and anodized aluminum frame, 1 1/8" (29mm) thick.

GlassWrite Boxcore Mobile features a brilliant glass infill in standard White (WH). The safety glass is low-iron (PPG Staphire® or Pilkington OptiWhite®) for optical clarity of the color, and 5/32" (4mm) depth for reduced parallax as compared to 1/4" (6mm) glass. Glass is laminated to steel providing the Mobile with magnet-compatibility to complement its outstanding dry erase capability. Firmly anchoring the Mobile is a robust, powdercoated steel base, laser cut from 1/4" steel plate with welded brackets and a welded I-beam for additional stability and strength. Standard in EganMetallic (EM), or specify optional Custom Colors (CC). Base secures to body frame using Torx® bolts, designed for high seated strength and an attractive flush appearance.

Thanks to the low-profile base and Torx bolts, multiple units of GlassWrite Boxcore Mobile can be nested successfully when not in use. As with other Egan Mobiles, locked profiled casters are featured for stability when stationary, and easy, no-hassle mobility.

V-Series Mobile, Four-Point Base

V-Series Mobiles Four-Point Base models are designed to link or stand alone, creating linked partitions that can be positioned at almost any angle. These Mobiles feature a guaranteed-to-clean EVS™ dry-erase surface that accepts magnetic accessories. EVS surface is offered full height, or split height with EganMetallic (EM) bases. Accessory grooves in uprights provide easy location of Accessory Shelf (ACSHELF). For best, dust-free results, use quality dry-erase markers, and clean with an EganCloth™.

V-Series GlassWrite™ Mobile

GlassWrite Mobiles enliven open areas while creating privacy, and enhancing the natural light. Egan V-Series Mobiles may be specified with translucent frosted GlassWrite panels or combined with EganINK™. V-Series Mobiles feature Egan GlassWrite tempered glass panels offered full height or split height with EganMetallic (EM) bases. Designed to link or stand alone - see other V-Series Mobiles and V-Series Options. Accessory grooves in uprights provide easy location of Accessory Shelf (ACSHELF). EganINK custom letters, graphics or grids available.

Egan Lite Décor Mobile

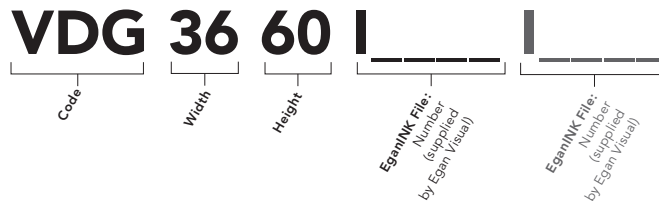

The Egan Lite Décor Mobile is an attractive visual communication enhancement that lets you convey custom messages, graphics, wayfinding, or signage in a professional grade mobile. Images are printed on both sides with EganINK™ in full bleed and high density color for a rich and vibrant look. Egan Lite Décor Mobile features a Clear Anodized (CA) frame and base design with either locking casters, or glide base.

Printed in full density color so images look rich and vibrant. Décor Panels are not a dry-erase product, and are comparable to ASTM F793 10a Category I Wallcovering (Decorative). For graphics with dry-erase compatibility specify an Egan Lite Mobile (VLF, VLG) with EganINK.

Egan TableScreens Mount Options

Surface Mount, Joiner Clamp, Cross Clamp and Edge Clamp are available on all Egan TableScreens. Mount options shown below apply to Dimension, GlassWrite and Boxcore models. Dimension TableScreen shown below.

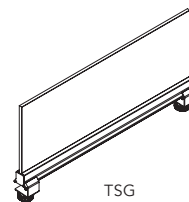

Surface Mount, Joiner Clamp, Cross Clamp and Edge Clamp are available on all Egan TableScreens. Mount options shown below apply to M-Series TableScreens.

GlassWrite™ TableScreens™

Egan continues to bring elegance to your workspace. New frameless GlassWrite TableScreen is 1/2" (12mm) thick glass with polished and chamfered edges. This product is designed as a single-piece standard clear or optional frosted glass for minimalistic, visually unobtrusive workplace concepts. Frosted side is not a dry-erase product.

GlassWrite TableScreens use Starphire® or OptiWhite® low-iron glass for low-tint clarity of the surface and the edges. This product is available in heights (measured from desk surface to top edge, when installed) of 8", 10", 12" and 14", and standard widths of 24", 30", 36", 48", 60" and 72". Not magnet-compatible.

GlassWrite™ Lumens TableScreens™

Egan lights the way on the leading edge of vertical writing surfaces and space dividers. GlassWrite Lumens TableScreens are base lit with high-efficiency LED lighting to rim the 1/2" (12mm) thick, frameless Starphire® or OptiWhite® low-iron glass upright panel with a stunning optical effect that gives them an ethereal, gemstone quality. A subtle and angular outline of low-intensity light separates each work surface from its neighboring area and creates an impression that only Egan Visual can offer.

This product is available in standard heights of 8", 10", 12" or 14" and standard lengths of 24", 30", 36", 48", 60" and 72". Additional sizes may be ordered through our Custom Response Program.

GlassWrite™ Boxcore™ TableScreens™

GlassWrite Boxcore TableScreens are an office enhancement for seated privacy, dry-erase annotations and visual interest. With ultra-thin bezel and pristine glass infill, GlassWrite Boxcore TableScreens make a statement with their distinguishing lines and modern finish. Featuring a 5/32" (4mm) low iron safety glass (Starphire® or OptiWhite®) infill for brilliant color clarity, GlassWrite Boxcore TableScreens are available in standard backpainted White (WH) or your choice of Custom Color (CC). The Clear Anodized (CA) aluminum 1 1/8" (29mm) frame, with its ultra-thin bezel, features Egan Boxcore construction for a robust, visually appealing installation.

GlassWrite Boxcore TableScreens are available in standard heights of 8", 10", 12", 14" or 18" and standard lengths of 24", 30", 36", 48", 60", and 72". Additional sizes may be ordered through our Custom Response Program.

Egan Mezzanine™

Egan Mezzanine instantly brings increased real estate, provides organization space, and divides space in a way that permits collaboration, all in one nonpermanent installation. The basic Mezzanine structure is available in a 3- or 4-post configuration, each in two standard depths. Mezzanine 4-post remains an 'open divider' for binders, books, or accessories. The 3-post may be configured with a space divider infill, separating work areas with either side being magnet-compatible EVS, or Tackable fabric. Ships completely knocked down.

Egan OpenOffice

EganONE Pro Cart™

The EganONE design intent contemplates a small plurality of people working together temporarily as they collaborate to achieve one unified voice or vision going forward. EganONE products carry a modern, slightly industrial look and design, characterized by Etex and anodized aluminum features. The EganONE Pro Cart brings you all the functionality you want in one cart.

Professional Grade construction: Etex finish, robust and clean Clear Anodized (CA) aluminum verticals, laser-cut steel feet, and industrial strength, total-lock casters featuring a 220 lb weight rating per wheel.

Project Cart capable: cabinet and drawer storage areas for binders, samples, and documents.

Projector Cart capable: accomodates standard, short throw, and ultra-short throw projectors, which can be secured through the top.

EganONE Dekke™

The EganONE Dekke starts with all the functionality of the EganONE Pro Cart and becomes a lectern-capable, standing-height collaboration center for small group impromptu sessions. Professional grade construction: Etex finish, robust and clean Clear Anodized (CA) aluminum verticals, laser-cut steel feet, and industrial strength, total-lock casters featuring a 220-lb weight rating per wheel.

Cabinet and drawer storage areas for binders, samples, and documents. Highly mobile, with its 4" diameter profiled wheels rolling easily across floor seams, small ridges, breaks, cables, elevator gaps, and other floor surface elements found in the modern or post-industrial workspace.

Technology capable: accomodates standard and short throw projectors. Inside, find an industry-standard AV rack with adjustable shelf. Additionally, the second or third decks can accommodate a laptop or keyboard as required. Front and back access doors provide easy access to equipment.

Egan OpenOffice

EganSolo™

EganSolo solves an emerging problem in today's open office: the smartphone. Many modern phones don't cope well with the rising ambient noise levels, and EganSolo becomes a simple, modern haven to easily step into while on the phone. Tests have shown that EganSolo, which cuts sound levels to 10-15dB, lets you hear better, permits you to be heard more clearly by the party on the other end, and inhibits others from overhearing the conversation. Available in a range of Etex body colors, EganFabric, and the full range of optional Maharam fabrics. EganSolo includes a small shelf for note taking, and the fabric panels are tack compatible.

How to Choose an Egan Lectern

Egan Visual offers an exceptional array of lecterns and presentation centers for any environment that calls for spoken presentations and focused information sharing. Our lecterns range from the beautiful and highly practical Egan SIO with its endless standard configurations to our attractive and technologically sophisticated TecTern Series.

Here are some things to keep in mind when considering which Egan lectern is right for your space:

Aesthetic

- Does your space require a Classic, Contemporary or a Technology lectern design?
- Is there a requirement for custom logos or graphics on the modesty facing or any other part of your Egan lectern?
- What finishes does your design palette call for?

The Presenter

- Is it important that your Egan lectern is height adjustable and/or ADA/barrier free for accessibility and comfort?
- Is it preferable that your Egan lectern include hand placement channels on the crown for the speaker's comfort?
- Do you expect a variety of media and presentation methods to be deployed from your Egan lectern (eg: printed notes, overhead projection/document camera)

Utility

- Will your presenters be using a laptop to deliver their message or will a native CPU be installed in or around your Egan lectern?
- Does your environment require that your Egan lectern be fully mobile and able to move easily from area to area with locking casters?
- Are there any number of audio-visual components that need to be added to your Egan lectern at the time of installation? (eg: racked equipment, room control components)

There are myriad applications for the lecterns offered by Egan. Everything you see in the following section of this Egan Price & Specification Guide is available as a standard product, a custom configured product with a host of elements to choose from, as well as fully bespoke lecterns and presentation centers that can be designed in partnership with you and our factory experts through our industry leading Custom Response Program.

Egan Lecterns

■ Contemporary

- 202 Series, OVO, and Egan SIO™ designs

Egan Lecterns

TecTern™ S2

The popular TecTern series takes inspiration from the highly customizable 202 series instruction lecterns, bringing high functionality in a contemporary design and modest footprint. TecTern S2 features the size-class of TecTern TWO, but introduces a base and crown that can be specified to your needs. Highly tech friendly, beginning with space for an optional finger touch monitor, laptop, or audience-facing monitor for digital logo or agenda display. Tech is accessible with front and back access panels. Up top, a sliding reveal on S2TM model offers additional document or note space, available simultaneously with monitor use. At the side, slide out the integrated visualizer deck for comprehensive presentations. S2TM includes annotation software.

Egan Lecterns

TecTern™ III

TecTern III brings a decidedly modern and sleek aesthetic to the Egan technology lectern series. With soaring lines and swooping expanses of clean space, TecTern III makes an intelligent statement about the presenter and the presentation. Interactive presentations are easy, with a fully-integrated interactive flat panel - finger touch control that even guest presenters can use, because it connects to the PC with no drivers to install.

T3TM includes annotation software.

Egan Lecterns

Egan SIO™

Egan SIO extends the modern lectern series with a highly practical, highly customizable unit. Giving the room a slightly modern look, available in all Egan standard Etex colors, Egan SIO has a distinct look with everything nested neatly between two gables. In base configuration, Egan SIO offers plenty of workspace on its flat, bordered surface, with room for a laptop on its standard pull-out shelf. Egan SIO features ample storage underneath and includes base leveling feet. Egan SIO ships CKD unless otherwise specified.

202 EganLectern

The Classic 'Front of House' lectern updated with the 202 design. Aluminum extrusions frame your choice of real wood veneer or durable Etex finish. Lockable storage and wiring grommets for field set-up of laptops, tablets and microphone. A 17° angled surface with a lip on the bottom is suitable for reference notes. Two casters on the presenter's side assure the lectern can only be moved by tipping the unit onto the casters. This design prevents 'run-away' when you lean upon the lectern.

Egan Accessories and Supplies

Tack Panels

Complement many of your Egan cabinets, boards, and mobiles with these easy-to-use tack panels. Egan Tack Panels are ~3/8" tackable material which adhere magnetically to a wide range of Egan products to provide additional functionality and can be specified with Egan EcoTack or your choice of fabrics for additional design flair. Offered here in standard sizes to fit Boxcore Presentation Cabinet doors (CEEAB, CEGMB, CEEB), standard sizes intended for EganAero Cabinet doors, and a range of standard sizes useful on any Egan standard-magnet-compatible EVS Presentation Board or Mobile.

Egan Standard Terms & Conditions

Egan Visual Standard Terms & Conditions are subject to change without notice. See www.egan.com for currently prevailing terms. All specifications, pricing, and other information is believed to be accurate at the time of publication (E&OE) but subject to change without notice. Prices herein are valid in the United States only and are stated in USD. Possession of this document does not constitute an offer to sell.

Freight Terms

United States orders are F.O.B. Buffalo, NY (14150-0888) or Woodbridge, ON, Canada. Freight is prepaid and allows for normal ground transportation within the 48 contiguous states. A minimum order of \$1 200 for the freight to be prepaid is applicable. Air Freight, Accessorial Charges such as: deliver to limited access site (mines prisons, military, schools and hospitals), blanket wrapped, inside deliveries, will calls, call before and special delivery beyond dock-to-dock delivery will be quoted and invoiced. Egan Visual's responsibility ceases when it turns the shipment over to the carrier.

Financial Terms

Terms are "prepayment with order" unless otherwise pre-approved, in writing, in advance, by Egan Visual. For such pre-approved accounts, the following shall apply: Orders are binding only upon acceptance by the executive office of Egan Visual. Orders accepted by Egan Visual shall be subject to the Terms and Conditions set forth in its Acknowledgment and Invoice, notwithstanding any variance in terms and conditions set forth in the buyer's order forms. Orders are subject to limit or withdrawal of credit at any time. Minimum order value is \$100.00 list.

The approved purchaser will be invoiced for the goods as they are shipped and payment is due thirty (30) days from the date of invoice. Late penalties will be charged on overdue invoices. Orders are payable in US funds and do not include taxes or installation. All orders accepted are subject to prices prevailing at time of shipment.

Specification Changes

Specifications published are nominal and believed to be accurate at the time of publication. The right to affect, change, or discontinue models at any time without prior notice remains the right of Egan Visual. This right to change applies to catalog contents, price lists, fabric or finishes, as well as details and dimensions.

Change Orders

Egan Visual's 'Order Acknowledgment' is final and binding and any subsequent change is subject to Egan's ability to secure materials and labor. Egan Visual reserves the right to increase the acknowledged price, if such a change warrants any extra charge.

Packing and Crating Charges

All products are shipped via common carrier, and are normally shipped one unit per cardboard container. Packaging charges are included in the price.

Cancellations

The cancellation of orders before production has begun is governed by Egan Visual's ability to conform, and a service fee may be imposed at its discretion. Once production has begun, neither standard or custom orders are subject to change or cancellation.

Shipping

Egan Visual reserves the right to ship by what is in its opinion the best method. Egan Visual is not responsible for delay, failure to deliver due to strikes lockouts, fires, floods, storms, acts of God or other causes beyond its control.

Storage

Orders will ship in accordance with Egan Visual's acknowledged shipping dates. If customers cannot accept delivery on this date, Egan Visual reserves the right to arrange storage at the customer's risk and expense.

Defects and Shortages

All claims must be reported in the first thirty (30) days after delivery of goods. Egan Visual assumes no responsibility for misuse or abuse.

Limited Warranty

Egan Visual warrants to the original purchaser, that for the stated warranty term of 5 years, Egan Visual will repair or replace any Egan Visual product which is found to be defective in material or workmanship. The decision regarding defect, and to repair or replace, will be at the sole discretion of Egan Visual.

This warranty is intended to cover all Egan Visual products. EVS and Porcelain writing surfaces are subject to the same warranty provisions but the term of the warranty for these surfaces will be extended from 5 years to a limited 10 year warranty. VersaPalette warranty is 30 days. EganINK™ has a limited one-year warranty, under ASTM F793 10a Category I Wallcovering (Decorative). Excluded from this warranty are some electrical devices and lift mechanisms which are supplied to Egan Visual by outside suppliers. These devices are subject to the manufacturers own warranty.

This Egan Visual warranty is also subject to the limitations and exclusions which follow. Egan Visual products are designed to be installation-ready, however Installation and the

installation environment are out of Egan's control and therefore installation is not warranted by Egan in any circumstance. Egan offers free installation support: see page 8.

Limitations and Exclusions

Egan Visual feels that its warranty is quite strong, but there are some limits to the Warranty which follow.

Failure to Follow Installation/Care Instructions

IMPORTANT. READ AND UNDERSTAND ALL INSTALLATION, USE, AND MAINTENANCE INSTRUCTIONS THAT YOU HAVE RECEIVED WITH YOUR NEW EGAN VISUAL PRODUCT.

Failure to do so may void this warranty. Before attempting to deviate from our instructions in any way please contact Egan Visual beforehand. If in doubt as to how to install any of our products please contact the Egan Visual dealer you purchased the product from or contact our Customer Service department immediately for help.

Implied Warranties

EGAN VISUAL MAKES NO IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE. THESE AND ALL OTHER IMPLIED WARRANTIES ARE SPECIFICALLY DISCLAIMED BY EGAN VISUAL. By "implied warranties" Egan Visual means warranties that are sometimes implied to have been given by the seller even though they are not set out in writing. The warranty as stated in this document is the complete and only warranty upon this product.

Place of Purchase

This warranty protects you only when you purchase your Egan Visual product from a qualified Egan Visual Dealer. You must have proof of purchase in order for this warranty to apply.

Improper Care, Conditions and Use

Egan Visual products are superbly constructed and will last many years in normal use. In spite of this, our products do require some routine maintenance and careful cleaning. Please take care to treat your Egan Visual products like the fine products that they are. Proper care and use are essential to preserving your rights under this warranty. Egan Visual will not repair or replace your products if improper maintenance or improper use causes damage. This warranty does not apply if your Egan Visual product is damaged by the use of non approved detergents, abrasives or other harsh cleaning agents. This warranty will not apply if inferior markers or brushes are used on the writing surface. For best results always use quality ketone based markers, Egan supplied markers and cloths are recommended. If marker suitability is in question, please call our Customer Service before using the product for the first time. Always be sure to test a cleaning product in an inconspicuous area before cleaning any of our wood finishes.

Accidents or Abuse

This warranty does not cover damage to Egan Visual product resulting from negligence, abuse or accidents: including burns, cuts, scratches, tears, scuffs, kinks, watermarks, paint, abrasive chemicals, permanent marker damage, or indentations. Conditions after leaving our facility are always beyond our control. Egan Visual is not responsible for freight or shipping damage, damage due to harsh environments or Acts of God.

Product Modification

Any product modification or alterations by dealer, consumer, or other parties not authorized by Egan Visual will void this warranty.

10 Year Warranty (EVS, Porcelain, GlassWrite, and EganAero writing surfaces)

Egan Visual offers a limited 10 year warranty, from the date of invoice, for all of its EVS and porcelain writing surfaces. This warranty does not cover damage to writing surface resulting from negligence, abuse or accidents: including burns, scratches, scuffs, kinks, paint, abrasive chemicals, permanent marker damage, damage from inferior quality dry-erase markers or indentations. Conditions after leaving our facility are always beyond our control.

Egan Visual is not responsible for freight or shipping damage, damage due to harsh environments or Acts of God. It should be noted that porcelain is not guaranteed to be an effective projection screen under any situation. While Egan Visual's low-gloss porcelain is the best in the industry, it is not a replacement for a proper projection surface.

Consequential or Incidental Damages

EGAN VISUAL WILL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES. Any loss, expense, or damage incurred in replacing any suspected defective Egan Visual product will not be reimbursed. The warranty of this product is limited to the replacement or repair of the Egan Visual product itself. Under no circumstances will the manufacturer be held responsible for incidental damages, repairs, labor or other costs incurred in removal or return of suspected defective Egan Visual product.

Returns

Merchandise may not be returned without Egan Visual's prior written consent. If returned within 30 days, and by agreement, a restocking and repacking charge will be deducted from the credit note in addition to any expense for reconditioning that may be necessary. Return transportation must be prepaid, packed in the original packaging.

Egan Freight Damage Policy

Report Damage Immediately

All goods are shipped FOB Egan Visual (see Terms & Conditions). However, in the event of freight damage we can assist your receiver with the claim. The legal responsibility of Egan Visual Inc. ceases when it turns the shipment over to a common carrier. The buyer has the sole obligation of seeking recourse against the carrier. All freight is given to the carrier and signed for in good condition. It is the responsibility of the receiver to sign for the goods in the presence of the carrier and note the condition in which they are received. Freight claims should be filled with the carrier.

Follow these procedures immediately upon receipt of shipment:

1. You must inspect the freight at the time of delivery and **note all damages** on the Bill of Lading/Delivery Receipt (P.O.D.). If there is obvious and severe damage, receiver has a right to refuse delivery. Receiver also has a duty to mitigate the loss. For example, you should only refuse affected product.
2. Upon discovery of the damages, the receiver must **immediately report the damages to the appropriate carrier contact**, asking for immediate inspection and request inspection report.
3. The notification of damages must be followed up in writing by fax or e-mail.
4. Unpack and inspect. Check your contents within three (3) days. If the shipment was delivered without noted damage but has CONCEALED DAMAGE, receiver typically has a very limited time to report it to the carrier and request a `concealed damage inspection`.
5. Tag and keep any packaging in which damaged goods are received in its original condition.
6. Contact Customer Service to initiate a Support Case and make arrangements for replacement product.

Purchase Order Requirements for Expedited Order Processing

Egan Visual strives to offer quality products at a great price. We value your decision to place your orders with us. In order to promptly acknowledge your orders we need you to supply sufficient and correct information. Please review the guide below.
