

OUTSTANDING DEGREASING PERFORMANCE...

Concentrated enzyme-fortified cleaner/degreaser. Attacks and eliminates grease and other contaminants to achieve a cleaner and safer floor surface. The enzymes enhance surface soil removal, and penetrate deep into porous surfaces and grout lines to attack a wide range of embedded soils. Controls odors by breaking down odorous and odor causing organics.

DIRECTIONS FOR USE:

For use as an A4 cleaner in food processing applications, this product must be diluted at 2 ounces per gallon of water, and application must be followed by a thorough water rinse.

Always dilute properly and utilize proper protective equipment. Dilute in mop water up to 8 oz. per gallon to provide heavy duty degreasing. Dilute 2 oz. per gallon for normal conditions. Wet a clean mop head in mop bucket and wring to desired dampness. Use mop to agitate and recover product and soils, or squeegee to drain. Change water as needed. Rinse with clean water.

Alternate pump-up sprayer degreasing method:

Fill pump-up sprayer with concentrate. Fill mop bucket with clean warm water. Spray desired area to be cleaned evenly with concentrate from the pump-up sprayer (follow directions from pump-up sprayer manufacturer). Allow solution to stand for 1 to 3 minutes. Wet a clean mop head in mop bucket and wring to desired dampness. Use mop to agitate and recover product and soils, or squeegee to drain. Change water as needed. Rinse with clean water.
