

DRY FOAM CLEANS DEEP... Scientific blend of integrated surface active agents generates a dry, deep-cleaning, dense foam which penetrates, surrounds, and lifts out soils from carpet fibers. Enzymes elevate stain lifting power. Safe for use on stain resistant carpet.

ENCAPSULATING AGENTS EXTEND MAINTENANCE SCHEDULES... New polymeric technology enhances the formation of a drier, more friable residue, for ease of soil removal and reduction of re-soil issues.

LOW ENVIRONMENTAL IMPACT... This non-corrosive, non-flammable, phosphate free, biodegradable, low VOC, and slightly alkaline formulation addresses users' concern for environmentally sound cleaning procedures.

DIRECTIONS:

1. Pre-test cleaner on carpet for colorfastness in inconspicuous area. Do not use if color is affected.
2. Remove furniture and dry vacuum thoroughly.
3. Remove stains and pre-treat traffic lanes.
4. Dilute product 1:16 with water (1:8 for foam machines) and shampoo across carpet overlapping each pass.
5. Do not overuse solution. Avoid overwetting.
6. Optional extraction with clear water may be done at this time. Be sure to add defoamer to recovery tank.
7. Set carpet pile in one direction with carpet pile brush.
8. Restrict all traffic until carpet has dried.
9. After carpet is dry, vacuum thoroughly.

SAFETY DATA:

CAUTION: This product is slightly alkaline in nature. May cause skin or eye irritation. Use with adequate ventilation. Avoid contact with skin or eyes. Keep out of reach of children.

PRACTICAL TREATMENT:

Ingestion – Drink one to two glasses of milk or water. Do not induce vomiting. Get medical attention. **Skin or Eye Contact** – Irrigate with lukewarm water
