

BUSH-WHACKER® FLEX-WING SERIES

MD-144

FLEX-WING ROTARY CUTTER

The Bush-Whacker MD-144 is a 12-foot cutter designed to provide the same heavy-duty performance you'll receive from Bush-Whacker's larger cutters, but is scaled to excel for those using the reduced horsepower found in smaller tractors. You'll be amazed at how Bush-Whacker has provided such BIG time features in this smaller-sized unit.

The MD-144 is a 12' flex-wing rotary cutter that is perfect for 35 HP and up tractors. This durable cutter was specifically designed for the "weekend farmer" and the small to medium size rancher looking to reduce cutting time. We are certain you'll find the MD-144 has what it takes to get the job done!

Check out the specs on Bush-Whacker's MD-144....we're tops in class in basically all specifications.

DRIVELINES

#1 in its class with Cat 5 Drivelines on the Main Unit and Cat 4 Drivelines on the Wings

GEARBOXES

#1 in its class with 120 HP capacity

GEARBOX SHAFTS

#1 in its class with a 2" output shaft

CUTTING CAPACITY

#1 in its class with 2" cutting capacity

CUTTING HEIGHT

#1 in its class with a cutting height between 1 ½" to 13"
