

## BUSH-WHACKER® SKID STEER SERIES

# SSM-72

## BRUSH CUTTER SKID STEER ATTACHMENT

The Bush-Whacker Brush Cutter Skid Steer Attachment is the latest addition to the Bush-Whacker Family. Known for being some of the toughest, heavy-duty units in the Rotary Market, Bush-Whacker continues that tradition with its first entry into the Skid-Steer Market.

The Bush-Whacker Brush Cutter Skid Steer Attachment is a 6 foot skid steer mounted rotary mower that can take on the toughest jobs and is durable enough to cut a standing tree up to 11 inches in diameter, with a continuous cutting of brush up to 4 inches.

### BLADES

Two 3/4" thick alloy spring steel blades mounted on shoulder bolts to allow blades to swing freely. Blades also feature three (3) cutting edges.

### DECK

1/4" steel deck gives rigidity, heavy-duty construction, built to last.

### FRONT CHUTE

Open front chute directs brush into the blades while allowing operator visibility.

### HYDRAULIC MOTOR

Quick disconnects attach to skid steer accessory ports. Designed to handle high or low flow hydraulic systems.

### HYDRAULIC SPECS

The SSM-72 is compatible with any skid steer hydraulic system ranging from 16 - 25 gpm and pressures ranging from 1600 - 3000 psi.

### OPTIONAL REAR CHAIN GUARDS

# SSM-72 BRUSH CUTTER SKID STEER ATTACHMENT

## THE BUSH-WHACKER® DIFFERENCE

- Cutting capacity of 11 inches
- 1/4" Heavy Duty US Steel Decking
- Top in class cutting width (72")
- Heavy-duty to take on the toughest jobs!
- Automatically adapts to high and low flow hydraulics
- Only unit in its class to feature a 3/4" blade with three (3) cutting edges

*Specifications listed are standard; however, any State Department of Transportation specifications that may differ from standard Bush-Whacker® specifications will take precedence and be implemented into production.*
