## ordering information and instructions

### Prices

All prices herein are delivered list prices. The terms and prices in this price list supersedes all other published price lists. Prices cover standard product only. Charges for additional changes to standard product will be quoted separately upon request. Jasper Desk reserves the right to change prices and specifications without prior notice. Prices herein are domestic prices only for shipment within the 48 contiguous states of the United States.

### Terms

Standard terms are 1% 15, net 30 days from date of invoice. Delinquent accounts may incur finance charges.

### Ordering Information

Authorized Jasper Desk dealers may order by phone, mail, or fax. Phone orders require confirmation by written order.

Orders should be placed with: Jasper Desk Company, Inc.  
225 Clay Street  
Jasper, IN 47546  
812.482.4132 PHONE  
812.482.9552 FAX  
800.365.7994 TOLL FREE

### Acknowledgements

All orders will be acknowledged promptly showing how the order was entered, its approximate shipping time, and other pertinent information. Please examine all acknowledgements carefully and notify Jasper Desk immediately of any discrepancies. Jasper Desk will not be responsible for errors made on orders placed by phone without written confirmation.

### Changes/Cancellations

All orders are acknowledged and are considered firm orders and therefore are not subject to change or cancellation. In the event that Jasper Desk agrees to accept a change/cancellation request prior to final production, a change/cancellation fee will be charged. Product(s) of special construction or with special finish are non-cancelable once production has begun.

### Shipping Schedule

Jasper Desk is committed to the most prompt shipment possible of all of its products. Every effort is made to ship as acknowledged, however, the acknowledged ship date is approximate. We will generally ship within (5) working days of the acknowledged ship date. If a firm ship date is necessary, please let us know and we will do all we can to meet your request.

### Availability

Standard products are available on a made-to-order basis, normally 6 weeks or sooner. Consult Customer Service for availability.

Products from Jasper Desk's Quickship Program are available within 10 working days from receipt of a clean, credit approved order. Large quantities may be subject to additional lead time. Quickship orders must be identified with "QS" behind model numbers in order to receive Quickship lead times.

### Special Orders

Jasper Desk is among the most flexible in the industry in accommodating specialized product requirements. Should a particular need arise requiring special finish, size modification, or customization of product, contact Customer Service for quotation and lead time. Custom orders are generally shipped within 6-8 weeks. Special orders are not subject to cancellation.

### Shipping - Carrier/Routing

Jasper Desk will reserve the right to select the carrier and routing, but will attempt to accommodate special requests.

### Delivery and Freight Charges

Delivered pricing is dock-to-dock and does not include inside delivery or installation. All shipments must be F.O.B. point of origin, freight prepaid and allowed, to one destination within the 48 contiguous states of the United States. Shipments outside the 48 contiguous states are prepaid and allowed to port of exit. Any charges arising from failure to meet a shipment, rerouting while in transit, or carrier storage charges are not included in the pricing shown. Charges resulting from late deliveries beyond our control are not the responsibility of Jasper Desk.

Small parts orders will be shipped via UPS. On all other orders, the following minimum poundage charges apply per order.

For shipments into the states of California, Oregon, Washington, Arizona, Nevada, Idaho:

Under 2,000 lbs.....\$250.00 Net  
2,000 lbs. and above.....No minimum poundage charge

For shipments into all other states excluding Alaska and Hawaii:

Under 500 lbs.....\$90.00 Net  
500 lbs. and above.....No minimum poundage charge

### Damaged Merchandise/Concealed Damage

All Jasper Desk products are shipped with the finest packing and cartoning, and our freight damage rate is among the lowest in the industry. Only furniture specialist carriers are used and all units are carefully inspected prior to shipment. Jasper Desk's liability for damages ceases upon receipt by the delivering carrier.

If a shipment is damaged in transit the following steps must be taken:

1. Before signing for the merchandise, make careful notation of all damages on the bill of lading and freight bill then contact factory for instruction.
2. You must file a claim with the carrier within 15 days of receipt of the shipment. Contact the carrier and request an inspection by an agent. This must be done within 15 days of delivery or the carrier will not entertain a total loss or damage claim
3. All shipping cartons must be retained for inspection by the carrier agent. Do not move items from the receiving location.
4. Contact Jasper Desk's Customer Service for an accurate estimate of replacement components, repair costs, or net cost on total loss.
5. On concealed damages the same steps should be followed. Failure to retain original cartons will result in claim denial.

### Will-Call Orders

Will-Call Orders must be inspected by the customer's personnel and checked for damage. A signed Bill of Lading will be proof that the merchandise was received in good condition. If an inspection is not performed, the customer shall have no recourse for recovery of damages at a later date.

### Manufacturing Defects

Claims of manufacturing defects will not be entertained without prior inspection by a Jasper Desk representative. Unauthorized deduction in payment of invoices will not be allowed.

### Returns

Returns must be authorized in writing by Customer Service. Any return of product not authorized will not be accepted. If the customer orders merchandise incorrectly, we will consider a Returned Goods Authorization providing the unit has not been removed from its original factory cartoning. If authorized, the customer will be required to pay all freight expenses incurred plus a 50% restocking fee. Any products of a specialized nature may not be returned due to ordering errors.

### Repair Charges

Authorization must be secured from Customer Service prior to incurring repair charges if Jasper Desk is expected to pay such charges.

### Shortages

If the shipment is not delivered in accordance with the quantity of cartons and packages as shown on the Bill of Lading, do not accept it until such shortages are noted on the Bill of Lading.

### Specification Changes

We reserve the right to change without notice any dimension, style or specifications of any model in Jasper Desk's product line. Dimensions shown in the price list are as accurate as possible. Actual sizes may vary up to 1" width, depth or height.

### Packing and Cartoning

Jasper Desk uses the finest packing and cartoning. For special packing and cartoning requirements, contact Customer Service.

### Selling Information

Possession of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Jasper Desk dealers.

## warranty

Jasper Desk warrants its products to be free from defects in materials and workmanship given normal use and proper care, for a period of ten (10) years of single shift service.

Electrical components, pneumatic lifts and casters are warranted to be free from defects in materials and workmanship for the following periods of time from date of initial shipment.

Electrical components - two (2) years

## **Laminate**

All chassis part surfaces are thermally fused melamine and have a PVC band where levelers are located.

## **Laminate Tops**

Tops are 1 3/16" thick and feature a .050 thickness high pressure face to maximize durability. Edges feature 3/32 PVC external band and available in two different profile options.

## **End Panels**

All panels are 3-ply balanced construction. Wing end panels feature adjustable levelers.

## **Modesty Panel**

Panels are 3/4" thick, 3-ply balanced construction.

## **Drawers**

Drawer side material is 3 ply 12mm vinyl wrapped particleboard with miterfold construction. Drawers are constructed with an attached drawer front.

## **Hardware**

Drawer Suspensions - All drawers utilize "A" grade heavy duty 100% full extension metal ball bearing slide for smooth operation. Box drawers are rated for 75 lbs and file drawers are rated at 100lbs. Lateral file drawers are rated at 150 lbs.

## **Locks**

Desk locks use pedestal locking. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. Lateral files are central locking as standard and feature an anti-tip mechanism that prevents more than one drawer from being opened at a time. Locks are optional in credenza pedestals and doors and returns.

## **Drawer Pulls**

Three sizes of Aluminum Bar pull available

**Wire Management** - Black rectangular grommets are standard on all returns, bridge and corner worksurfaces. Black wire access grommets are standard on all hutches and highback organizers.

## **Chassis Construction**

Construction technique is dowel construction and reinforced with screws and wood and metal fasteners.

## **Filing**

File drawers use an easily adjustable filing system which can be positioned to accommodate letter or legal filing.

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is American Black Walnut, Cherry, or Maple. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain cherry, maple, or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. Double Cut veneer is also available with a 10% upcharge.

## Wood Veneer Tops

1 3/16" thick tops utilizing 3-ply construction with solid cherry, maple or walnut wood band edging, shaped with five edge details. Both user side and approach side tops are shaped with the selected edge detail on 30", 36" and 42" depth tops. 24" depth tops are shaped on user side only unless otherwise noted. Top cores are high density particle board or fiber board dependent upon the application. Cherry, maple, oak or walnut veneer tops are standard. High pressure laminate tops are optional, with many standard finishes having matching laminate tops available (call customer service for options).

## Modesty Panels and End Panels

End panels are 29/32" thick with a 3-ply construction with a black PVC band along top edge and a solid lumber band on the bottom edge of the panel to prevent tear out. Modesty panels are 3/4" thick, 3-ply construction. All veneers are vertical grain cherry, maple, oak or walnut veneers matched to ensure proper veneer balance, provide proper grain consistency and uniform grain appearance. Full modesty panels are standard for desk, bridge, and kneespace credenzas with optional half modesty options available.

## Drawers

Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawer side material is 3 ply 12mm vinyl wrapped particleboard with miterfold construction. Drawers are constructed with an attached drawer front.

## Doors

Doors are 3/4" thick 3-ply construction with vertical grain cherry, maple or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on all doors. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Shelves

Shelves are 3-ply construction with a 1/4" cherry, maple, oak or walnut rim on the front edge. All shelves are full depth of the interior compartment unless specified otherwise. Faces are book matched walnut, cherry or oak veneer. Hutch shelves are cherry, maple, oak or walnut faced on both sides. A minimum of one adjustable or fixed shelf is provided with each cabinet storage unit (see individual unit for details). Adjustable shelves are provided with metal adjustable shelf hardware supports.

## Bases

Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel "A" grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – All desks and credenzas utilize pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service)

Drawer Pulls – Three drawer pull options are available in aluminum finish.

Hinges – European style hidden hinges on all hinged doors.

Wire Management – Black wire management grommets are standard on all returns and bridge work surfaces located in back center of the tops. Black wire management access grommets are standard on all credenzas, hutches, overhead storage units and computer tables located in back panel. Optional additional black wire management grommets, wall access cut-outs, wiring harness and wiring channels along with integrated cable management to conceal power and data cords are also available. Optional data ports accessible at work surface height (see accessories).

## Chassis Construction

Construction technique is dowel construction and heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is American Black Walnut, Cherry, Oak or Maple. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain cherry, maple, oak or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance.

## Wood Veneer Tops

1 3/16" thick tops utilizing 3-ply construction with solid cherry, maple, oak or walnut wood band edging, shaped with five edge details. Both user side and approach side tops are shaped with the selected edge detail on 30", 36" and 42" depth tops. 24" depth tops are shaped on user side only unless otherwise noted. Top cores are high density particle board or fiberboard dependent upon the application. Cherry, maple, oak or walnut veneer tops are standard. High pressure laminate tops are optional, with many standard finishes having matching laminate tops available (call customer service for options).

## Modesty Panels and End Panels

End panels are 29/32" thick with a 3-ply construction with a black PVC band along top edge and a solid lumber band on the bottom edge of the panel to prevent tear out. Modesty panels are 3/4" thick, 3-ply construction. All veneers are vertical grain cherry, maple, oak or walnut veneers matched to ensure proper veneer balance, provide proper grain consistency and uniform grain appearance. Full modesty panels are standard for desk, bridge, and kneespace credenzas with optional half modesty options available.

## Drawers

Drawer sides and backs are wood, 7/16" thick. Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. Drawer bottoms are 7/32" 3-ply hardwood dado construction.

## Doors

Doors are 3/4" thick 3-ply construction with vertical grain cherry, maple or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on all doors. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Shelves

Shelves are 3-ply construction with a 1/4" cherry, maple, oak or walnut rim on the front edge. All shelves are full depth of the interior compartment unless specified otherwise. Faces are book matched walnut, cherry or oak veneer. Hutch shelves are cherry, maple, oak or walnut faced on both sides. A minimum of one adjustable or fixed shelf is provided with each cabinet storage unit (see individual unit for details). Adjustable shelves are provided with metal adjustable shelf hardware supports.

## Bases

Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel "A" grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – All desks and credenzas utilize pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service)

Drawer Pulls – Four drawer pull options are available in black or nickel finish and one drawer pull option is available in brass (see attached for details).

Hinges – European style hidden hinges on all hinged doors.

Wire Management – Black wire management grommets are standard on all returns and bridge work surfaces located in back center of the tops. Black wire management access grommets are standard on all credenzas, hutches, overhead storage units and computer tables located in back panel. Optional additional black wire management grommets, wall access cut-outs, wiring harness and wiring channels along with integrated cable management to conceal power and data cords are also available. Optional data ports accessible at work surface height (see accessories).

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is American Black Walnut, Cherry or Maple. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain cherry, maple or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance.

## Wood Veneer Tops

1 3/16" thick tops utilizing 3-ply construction, shaped with six edge details. Top cores are high density fiberboard. Cherry, maple or walnut veneer tops are standard. High pressure laminate tops are optional, with many standard finishes having matching laminate tops available (call customer service for options).

## Modesty Panels and End Panels

End panels are 29/32" thick with a 3-ply construction and a solid lumber band on the bottom edge of the panel to prevent tear out. Modesty panels are 3/4" thick, 3-ply construction. All veneers are vertical grain cherry, maple or walnut veneers matched to ensure proper veneer balance, provide proper grain consistency and uniform grain appearance. Full modesty panels are standard for desk, bridge, and kneespace credenzas with optional half modesty options available.

## Drawers

Drawer sides and backs are vinyl wrapped, 7/16" thick. Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. Drawer bottoms are 7/32" 3-ply hardwood dado construction.

## Doors

Doors are 3/4" thick 3-ply construction with vertical grain cherry, maple or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on all doors. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Shelves

Shelves are 3-ply construction with a 1/4" cherry, maple or walnut rim on the front edge. All shelves are full depth of the interior compartment unless specified otherwise. Faces are book matched cherry, maple or walnut veneer. Hutch shelves are cherry, maple or walnut faced on both sides. A minimum of one adjustable or fixed shelf is provided with each cabinet storage unit (see individual unit for details). Adjustable shelves are provided with metal adjustable shelf hardware supports.

## Bases

Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel "A" grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – All desks and credenzas utilize pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service).

Drawer Pulls – Finger pulls are standard with the optional replacement for four drawer pull options in either black or nickel finish and one drawer pull option (in brass) for an additional up-charge (see attached for details).

Hinges – European style hidden hinges on all hinged doors.

Wire Management – Black wire management grommets are standard on all returns and bridge work surfaces located in back center of the tops. Black wire management access grommets are standard on all credenzas, hutches, overhead storage units and computer tables located in back panel. Optional additional black wire management grommets, wall access cut-outs, wiring harness and wiring channels along with integrated cable management to conceal power and data cords are also available. Optional data ports accessible at work surface height (see accessories).

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces are “A” grade plain sliced Walnut, Cherry or Maple. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain walnut, cherry or maple veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance.

## Wood Veneer Tops

1” thick tops utilizing 3-ply construction with solid walnut, cherry or maple lumber rims, shaped with traditional style edge detail. Top cores are high density particle board. Rims on all four sides are precisely mitered on all four corners. Walnut, cherry or maple veneer tops are standard. Burl, leather inlay and high pressure laminate tops are optional.

## Modesty Panels and End Panels

Panels are 3/4” thick, 3-ply construction with book matched veneers to provide proper grain consistency and uniform grain appearance. All veneers are vertical grain walnut, cherry or maple veneers matched to ensure proper veneer balance. Decorative panel moulding is crafted from solid walnut, cherry or maple with mitered corners and hand fitted to each panel. Units may be specified with or without decorative panel moulding. Full modesty panels are standard for desk, bridge, and kneespace credenzas with optional half modesty options available.

## Drawers

Drawer sides and backs are wood, 7/16” thick. Drawer fronts are 3-ply hardwood construction, 3/4” thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. Drawer bottoms are 7/32” 3-ply hardwood dado construction.

## Doors

Doors are 3/4” thick 3-ply construction with vertical grain walnut, cherry or maple veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on doors where applicable. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Shelves

Shelves are 3-ply construction with a 1/4” walnut, cherry or maple rim on the front edge. All shelves are full depth of the interior compartment unless specified otherwise. Faces are book matched walnut, cherry or maple veneer. Hutch shelves are walnut, cherry or maple faced on both sides. A minimum of one adjustable or fixed shelf is provided with each cabinet storage unit (see individual unit for details). Adjustable shelves are provided with metal adjustable shelf hardware supports.

## Bases

Bases are solid hardwood mitered at all four corners. Units may be specified with conventional or Georgian scroll bases. Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2” to ensure proper leveling of the unit to varying floor conditions.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel “A” grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – Desk center drawer locks all drawers. Credenzas use pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service).

Drawer Pulls – Traditional style, bail type drawer pulls in antique brass finish are standard. Leather-wrapped pulls are available.

Hinges – European style hidden hinges on hinged doors where applicable.

Wire Management – Black wire management grommets are standard on all returns and bridge work surfaces located in back center of the tops. Black wire management access grommets are standard on all credenzas, hutches, overhead storage units and computer tables located in back panel. Optional additional black wire management grommets, wall access cut-outs, wiring harness and wiring channels along with integrated cable management to conceal power and data cords are also available. Optional data ports accessible at work surface height (see accessories).

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

# GEORGIAN SERIES

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is #1 plain sliced American Black Walnut, Cherry or Oak. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain walnut, cherry or oak veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance.

## Wood Veneer Tops

1" thick tops utilizing 3-ply construction with solid walnut, cherry or oak lumber rims, shaped with two traditional style edge details. Top cores are high density particle board. Rims on all four sides are precisely mitered on all four corners. Walnut, cherry or oak veneer tops are standard. Burl, leather inlay and high pressure laminate tops are optional.

## Modesty Panels and End Panels

Panels are 3/4" thick, 3-ply construction with book matched veneers to provide proper grain consistency and uniform grain appearance. All veneers are vertical grain walnut, cherry or oak veneers matched to ensure proper veneer balance. Decorative panel moulding is crafted from solid walnut, cherry or oak with mitered corners and hand fitted to each panel. Units may be specified with or without decorative panel moulding. Full modesty panels are standard for desk, bridge, and kneespace credenzas with optional half modesty options available.

## Drawers

Drawer sides and backs are wood, 7/16" thick. Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. Drawer bottoms are 7/32" 3-ply hardwood dado construction.

## Doors

Doors are 3/4" thick 3-ply construction with vertical grain walnut, cherry or oak veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on doors where applicable. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Shelves

Shelves are 3-ply construction with a 1/4" walnut, cherry or oak rim on the front edge. All shelves are full depth of the interior compartment unless specified otherwise. Faces are book matched walnut, cherry or oak veneer. Hutch shelves are walnut, cherry or oak faced on both sides. A minimum of one adjustable or fixed shelf is provided with each cabinet storage unit (see individual unit for details). Adjustable shelves are provided with metal adjustable shelf hardware supports.

## Bases

Bases are solid hardwood mitered at all four corners. Units may be specified with conventional or Georgian scroll bases. Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel "A" grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – Desk center drawer locks all drawers. Credenzas use pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service).

Drawer Pulls – Traditional style, bail type drawer pulls in antique brass finish are standard.

Hinges – European style hidden hinges on hinged doors where applicable.

Wire Management – Black wire management grommets are standard on all returns and bridge work surfaces located in back center of the tops. Black wire management access grommets are standard on all credenzas, hutches, overhead storage units and computer tables located in back panel. Optional additional black wire management grommets, wall access cut-outs, wiring harness and wiring channels along with integrated cable management to conceal power and data cords are also available. Optional data ports accessible at work surface height (see accessories).

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is #1 plain sliced American Black Walnut or Cherry. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain walnut, cherry or oak veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance.

## Wood Veneer Tops

1 3/16" thick tops utilizing 3-ply construction, shaped with a traditional style edge detail. Top cores are high density MDF fiberboard. Walnut, cherry or oak veneer tops are standard. High pressure laminate tops are optional, with many standard finishes having matching laminate tops available (call customer service for options).

## Modesty Panels and End Panels

Panels are 3/4" thick, 3-ply construction with book matched veneers to provide proper grain consistency and uniform grain appearance. All veneers are vertical grain walnut, cherry or oak veneers matched to ensure proper veneer balance. Decorative panel moulding is crafted from solid walnut, cherry or oak with mitered corners and hand fitted to each panel. Units may be specified with or without decorative panel moulding. Full modesty panels are standard for desk, bridge, and kneespace credenzas with optional half modesty options available.

## Drawers

Drawer sides and backs are solid plywood 7/16" thick. Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. Drawer bottoms are 7/32" 3-ply hardwood dado construction.

## Doors

Doors are 3/4" thick 3-ply construction with vertical grain walnut, cherry or oak veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on doors where applicable. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Shelves

Shelves are 3-ply construction with a 1/4" walnut, cherry or oak rim on the front edge. All shelves are full depth of the interior compartment unless specified otherwise. Faces are book matched walnut, cherry or oak veneer. Hutch shelves are walnut, cherry or oak faced on both sides. A minimum of one adjustable or fixed shelf is provided with each cabinet storage unit (see individual unit for details). Adjustable shelves are provided with metal adjustable shelf hardware supports.

## Bases

Bases are solid hardwood mitered at all four corners. Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel "A" grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – All desks and credenzas utilize pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service).

Drawer Pulls – Traditional style, bail type drawer pulls in antique brass finish are standard.

Hinges – European style hidden hinges are used on doors where applicable.

Wire Management – Black wire management grommets are standard on all returns and bridge work surfaces located in back center of the tops. Black wire management access grommets are standard on all credenzas, hutches, overhead storage units and computer tables located in back panel. Optional additional black wire management grommets, wall access cut-outs, wiring harness and wiring channels along with integrated cable management to conceal power and data cords are also available. Optional data ports accessible at work surface height (see accessories).

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.

Metal Available in Anodized Aluminum or Black Aluminum

**Bases can be specified with an optional access door  
add \$193 per base - Must be specified when placing  
order**

**Veneers**

Veneer on all exposed surfaces are select plain sliced American Black Walnut, Cherry or Maple. Outside surface veneers are bookmatched to provide proper grain consistency. Drawer fronts are vertical grain and matched in selected sets to insure proper veneer balance. Inside faces of end panels and back panels are random matched.

**Conference Table Tops**

Tops are 1 3/16" thick, 3-ply construction with solid walnut, cherry or maple rims on all four sides with a reverse bevel profile.

**End Panels**

End panels are 1" thick, 3-ply construction with veneer band on vertical edges and along the top edge. Wing end panels feature a solid lumber band on the bottom edge of the panel to prevent glide tear out.

**Drawers**

Drawer sides and backs are solid lumber beech 7/16" thick. Drawer fronts are 3-ply construction, 3/4" thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners of the drawer box. Fronts are securely mounted onto the drawer box. Drawer pulls are standard on pedestals. There are two finish options available: Black and Anodized Aluminum.

**Hardware**

Drawer Suspensions - all drawers utilize steel "A" grade heavy duty metal slides and feature cushioned in and out stops for smooth operation. All file drawers have 100% full extension slides.

**Locking**

Pedestals are pedestal locking keyed randomly. Locking on some units may be optional.

**Electrical Accessories**

Power Accessories - Jasper Desk offers power, communication, and wire management products to address today's office needs. Pleaser refer to pages 340-341 for information on these products.

**Chassis Construction**

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked for maximum strength.

**Filing**

File drawers use an easily adjustable filing system which can be positioned to accommodate letter or legal filing.

**Finish**

All surfaces are catalyzed varnish full fill finish to ensure maximum durability, chemical resistance, color retention, and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, washcoat, washcoat sand, filler spray and wipe, sealer spray, sealer sand, varnish spray, varnish sand and varnish spray.

Drawer interiors and exteriors are finished with sealer, sealer sand, and varnished.

**Communique**  
**J A S P E R D E S K**

**Communique conference room furniture features either a black or anodized aluminum metal inlay. This product enhancement is standard on all media walls, upper side cabinets, buffet credenzas, media cabinets and tables.**

**However, for table tops only, without metal inlay, there is an option for a price deduction (NI after model number) if this feature is not required. The metal inlay is 1/8" wide and has a minimal (3/32") rise above the top surface. Panel base (PB) and square base (SB) have a metal edging on all corners, and as with the top, must be specified in either black (LX) or Aluminum (AL).**

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is #1 plain sliced American Black Walnut, Cherry or Oak. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance.

## Wood Veneer Tops

1 1/2" thick tops utilizing 3-ply construction utilizing #1 select plain sliced American Black Walnut, #1 plain sliced Cherry or book matched figured flat cut White Oak. Solid walnut, cherry or oak lumber rims, shaped with a complimentary traditional style edge detail. Top cores are high density particle board. Rims on all four sides are precisely mitered on all four corners. High pressure laminate tops are optional.

## Panel Base and Square Base Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength. Bases are solid hardwood mitered at all four corners. Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Queen Ann Base and Reeded Leg Base Construction

Solid hard wood finished to match top as required. Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Electrical Options

Various electrical wiring options are available (please see following standard accessories pages for full details). Please note locations when ordering. Panel base and square base conference table may also be specified with or without optional wire management access doors. Wiring access channels will be provided on panel bases and square bases when requested (please note when ordering).

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request

## Ordering Information

Use the following steps to correctly place your order:

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is American Black Walnut, Cherry, Maple or White Oak. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance.

## Wood Veneer Tops

1 1/2" thick tops utilizing 3-ply construction utilizing American Black Walnut, Cherry, Maple or White Oak. Solid cherry, maple, oak or walnut lumber rims, shaped with a six (6) Contemporary or Transitional style edge details available. Top cores are high density particle board. Rims on all four sides are precisely mitered on all four corners. High pressure laminate tops are optional.

## Panel Base and Square Base Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength. Bases are solid hardwood mitered at all four corners.

Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Electrical Options

Various electrical wiring options are available (please see following standard accessories pages for full details). Please note locations when ordering. Panel base and square base conference table may also be specified with or without optional wire management access doors. Wiring access channels will be provided on panel bases and square bases when requested (please note when ordering).

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is American Black Walnut, Cherry, Maple or White Oak. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance.

## Wood Veneer Tops

1" thick tops utilizing 3-ply construction utilizing American Black Walnut, Cherry or White Oak. Solid cherry, oak or walnut lumber rims, shaped with a Traditional style edge detail. Top cores are high density particle board. Rims on all four sides are precisely mitered on all four corners. High pressure laminate tops are optional.

## Drawers

Drawer sides and backs are wood, 7/16" thick. Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. Drawer bottoms are 7/32" 3-ply hardwood dado construction.

## Doors

Doors are 3/4" thick 3-ply construction with vertical grain walnut, cherry or oak veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on doors where applicable. Tempered glass conforming to ASTM C 1048 is used in all glass doors.

## Bases

Bases are solid hardwood mitered at all four corners. Units may be specified with conventional or Georgian scroll bases. Height adjustable leveling glides are mounted in each corner with a threaded metal insert capped with a nylon glide that is height adjustable to approx. 1 1/2" to ensure proper leveling of the unit to varying floor conditions.

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.

\*\*The finishes shown on this page have been reproduced as accurately as possible, however, due to the printing process some finishes may vary slightly from the actual finish samples originally photographed. In addition, due to the nature of wood, it is possible that some slight variations in color and grain character may occur naturally (which is the beauty of a natural product). Wood finish chips are available for each of the above finishes if requested (please call customer service).

## Warranty and Certification

All products listed are warranted against defects of material and workmanship under normal use and service for a minimum of 10 years from the date of installation (see full warranty information). All products listed are Level 2 BIFMA certified.

## Veneer

Veneer on all exposed surfaces is American Black Walnut, Cherry, Oak or Maple. Outside surface veneers are book matched to provide proper grain consistency and uniform grain appearance. Drawer fronts are vertical grain cherry, maple, oak or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance.

## Wood Veneer Tops

1 3/16" thick tops utilizing 3-ply construction with solid cherry, maple, oak or walnut wood band edging, shaped with six edge details. Top cores are high density particle board. Cherry, maple, oak or walnut veneer tops are standard. High pressure laminate tops are optional, with many standard finishes having matching laminate tops available (call customer service for options).

## Drawers

Drawer sides and backs are solid plywood, 7/16" thick. Drawer fronts are 3-ply hardwood construction, 3/4" thick with book matched veneers to provide proper grain consistency and uniform grain appearance. All drawers utilize five sided drawer construction. Drawers are assembled with dovetail construction in all four corners. All desk drawers are grooved for drawer partitions. Drawer bottoms are 7/32" 3-ply hardwood dado construction.

## Doors

Doors are 3/4" thick, 3-ply construction with vertical grain cherry, maple, oak or walnut veneers and matched in selected sets to ensure proper veneer balance and uniform grain appearance. European style hidden hinges are used on all doors.

## Hardware

Drawer Suspensions – File, box, pencil and center drawers utilize steel "A" grade heavy duty metal slides for smooth operation. All pedestal drawers have 100 % full extension slides. All suspension systems feature positive and cushioned in/out stops. All box, center, and tray drawers are removable without tools and the suspensions are designed to prevent accidental removal.

Locks – All desks and credenzas utilize pedestal locking. Lateral files are keyed as standard and feature central locking with anti-tip drawer interlock systems. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. A minimum of fifty key changes (numbers) are available. Core lock changes are available (contact customer service).

Drawer Pulls – Four drawer pull options are available in either black or nickel finish and one drawer pull option is available in brass (see attached for details).

Hinges – European style hidden hinges on all hinged doors.

## Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked with hardwood cleats for maximum strength.

## Filing

File drawers use an easily adjustable filing rail system which can be positioned to accommodate front to back or side to side letter or legal filing.

## Finish

All exposed surfaces are finished with a UV inhibitor catalyzed varnish finish to ensure maximum durability, chemical resistance, color retention and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, wash coat, wash coat sand, filler spray, filler wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray. Moisture content for all wooden parts is between 5 - 9% prior to sealing. Drawer interiors and exteriors are UV prefinished with sealer, sealer sand, and varnished. Custom finish matches are available, contact customer service for request.
