Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

The Jasper Group family of brands, including JSI, is an international manufacturer that has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to “recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer” In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a “Sustainable Partnership” supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION

Our manufacturing facilities are located in Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 125 tons of corrugated material annually.

REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable and contain various percentages of recycled content. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary “sustainable” renewable resource.

WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, soy-based resin bio-composites, etc.

INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering, awarding us the UL2818 - GreenGuard Indoor Air Quality standard.

Terms and Conditions

Casegoods Warranty

JSI warrants to the original purchaser that each piece of furniture will be free from defects in workmanship given normal use for a period of fifteen (15) years of single shift service. Drawer suspensions carry a lifetime warranty. Fabric manufacturer's warranty will apply. Electrical items not manufactured by JSI are covered for a period of one (1) year. JSI will, at its option, repair or replace any defective merchandise within the terms of the warranty.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability fitness for any particular purpose.

This warranty does not cover:

- Natural variations in color, texture of wood, and covering materials over which JSI has no control.
- Damage created by bottom loading file drawers. File drawers are manufactured for hanging folders only.
- Normal wear, color fastness, shrinkage, wrinkling, stretching of leather, and textiles.
- Damage caused by transportation or installation companies.
- Damage created by any accident, user modification, misuse of product or neglect of product care.
- Damage resulting from extreme climate conditions.

Swish Order Analyst

Jasper Group has a Swish order analyst on staff that will review customer purchase orders against their submitted drawings to help us ensure more accurate orders. If a drawing is not submitted, the end user application will be less apparent and omissions of required products for the planned furniture configuration may not be caught prior to delivery of the order. Jasper Group will not be liable for costs associated with delays of components that were not called out on the order acknowledgement.

Samples

Samples of Swish standard laminates and acrylics are available upon request. To place an order, select the literature section on the resources tab at www.jsifurniture.com or contact your JSI sales rep or contact Customer Service at 800-457-4511.

Orders

Please reference the "To order, specify" sections when submitting an order. Indicate ship to address if different from bill to address. All orders should be mailed, faxed or emailed to:

JSI
225 Clay Street
Jasper, IN 47546
Fax: 812-482-1548
Email: orders@jaspergroup.us.com

Detailed specification sheets are available for each series, consult the Customer Service Department at 800-457-4511 or our JSI website. JSI reserves the right to make changes in dimensions, style, or specifications if we believe these changes will improve an item's quality or appearance.

Product Modifications

We willingly accept customers' modifications to standard products. If there is a modification you desire please contact the Customer Service Department for special quotes, minimum quantities and reasonable lead times.

Order Changes

All changes to an order must be made in writing and are subject to our ability to conform. Administrative and/or labor charges may be incurred by the dealer depending upon the production stage of the order. Once final production has begun, no changes can be accepted.

Acknowledgements

All orders will be acknowledged promptly showing how the order was entered, shipping time, and other pertinent information. Please examine this acknowledgment carefully and notify us immediately of any discrepancies. If a firm ship date is necessary, please let us know and we will do all we can

to meet your request. Acknowledged ship dates are contingent upon adverse conditions, however, every effort is made to ship as acknowledged.

Cancellations

All cancellations must be made in writing. Administrative and/or labor charges may be incurred by the dealer depending upon the production stage of the order. Orders cannot be canceled after the finishing process has begun without incurring substantial restocking charges. Cancellations cannot be accepted once final production has begun.

Pricing

All prices shown are list and include delivery to one destination. Prices are subject to change without notice. Possession of this price list does not constitute an offer to sell. Orders can be received only from authorized JSI dealers.

Delivery

Prepaid freight to the 48 contiguous states. All other shipments prepaid to port of exit **ONLY**. JSI reserves the right to select the appropriate carrier. Special requests including, but not limited to, inside delivery and installation are not included in prices shown. Any charges arising from failure to meet shipment, rerouting while in transit, or carrier storage charges are the responsibility of the customer. Orders of less than \$1,000 net will be assessed a handling charge of \$75 net per order (waived for items shipped via UPS).

Freight Damage

All shipments are delivered to the carrier in good condition and our liability ceases thereafter. **If shipment arrives short or damaged, you should file claim immediately with the carrier.** In the event of concealed damage, notify carrier and request an immediate inspection. Keep all cartons and packing material. Failure to file claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse.

Returns and Repairs

No merchandise may be returned to JSI without a signed Return Goods Authorization form (RGA) issued by our Customer Service Department. Liability for defective merchandise shall be limited to replacement or repair. We will not issue credit allowances for any repairs without our prior consent. Under no circumstances can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

Replacement Parts

Prices for replacement parts can be obtained by calling our Customer Service Department. Please have the model number available when ordering replacement parts.

Order Check List

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order check list at the beginning of each section as well as the specification and planning guide on pages 6-39.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to insure all selections have been completed.

To ensure complete JSI details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and **20-20 CAP Studio** software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog.

ProjectMatrix, Inc offers a full software solution for the contract furniture industry. Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines.

Our JSI web site www.jsifurniture.com provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

Care and Maintenance:

Laminate Surfaces and PVC Edges

Clean with a mild soap solution and rinse with clean water. Wipe the entire surface and follow with a clean, dry soft cloth.

Aluminum and Powder Coat Metals

Clean with a mild soap solution and rinse with clean, clear water. Wipe the entire surface and follow with a clean, dry cloth to buff dry.

Textiles

Textile Programs

JSI is proud to partner with Maharam, Momentum, Ultrafabrics and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs

For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas Textiles
DesignTex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact Customer Service, with concerns on the fabric thickness for these items.

Fire Retardancy

All JSI products are manufactured to comply with California Bureau of Home Furnishings Technical Bulletin 117 as a minimum standard. Compliance with more stringent codes requires special manufacturing considerations and upcharges.

California Technical Bulletin 133

JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with California TB 133. The standard upcharge on products specified to comply with TB 133 is \$58 list per yard of fabric.

Some product designs and fabrics cannot be combined to comply with California TB 133 (CAL 133). Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133. JSI has tested representative styles for compliance of CAL 133.

Contact Customer Service for a quotation if you require laboratory certification that a specific product and upholstery combination will pass CAL 133. Quotation will include testing, video and transportation charges plus the list cost of sample. (Allow an additional six weeks over the standard lead time for testing. For products not requiring certification, our standard lead time will apply.)

COL

COL pricing is listed under column D in the price list. Customer's own leather requirements are based on an average hide of 50 square feet. Please consult Customer Service for requirements on any other sizes.

All square footage requirements are based on useable footage. The shape of the hide and the useable footage may make it necessary for us to request additional leather.

COM

COM pricing is listed under column B in the price list. All yardage requirements listed in the price list are based upon 54" plain non-directional material. Additional yardage will be required for repeats or fabric less than 54" wide, contact Customer Service for yardage requirements.

All stripes will be applied vertically unless specified otherwise. Patterned fabrics will be applied at our discretion unless special instructions are included with the order.

We cannot assume responsibility for the receipt of defective COM or for the tailoring quality of said fabric. Some fabrics, due to their bulkiness or thinness may not tailor well.

All COM orders must include the following:

- Vendor's name, pattern name and color.
- Sample of the fabric attached to order.
- Model numbers of items for fabric application.
- Special application instructions. (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number.

Ship prepaid COM material to:

JSI
Attn: COM Dept.
932 Mill Street
Jasper, IN 47546

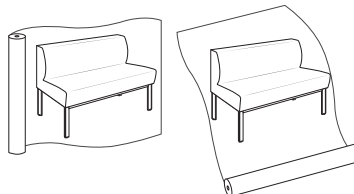

All COM orders will ship at standard lead time from receipt of COM except for orders requiring special custom matched finishes.

Application of COM Fabric

COM fabric is cut "up the roll" for lounge units, mobile pedestals and seat cushions and "railroaded" for tackboards unless otherwise specified by customer.

Use these step by step instructions to build Swish for your specific work style, space and budget.

step

1

Specifying Swish Step One

worksurface (tops)

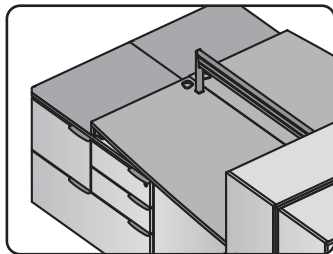

To begin your Swish specification, you will need to select a worksurface...

1-A Choose a top shape.

1-B Specify a top size.

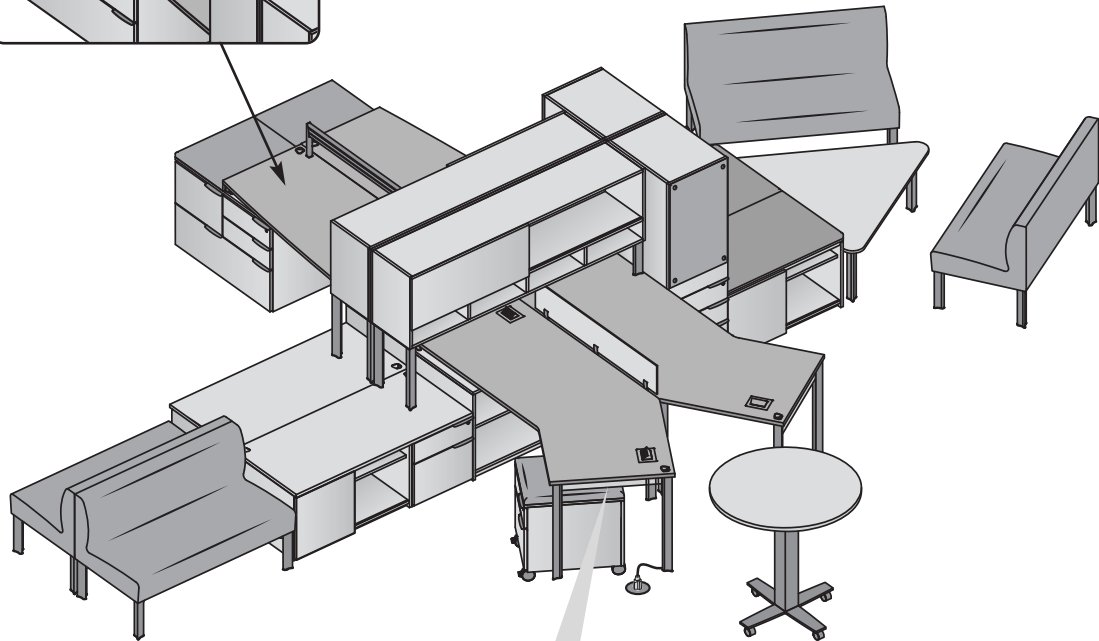

1-C Choose your laminate.

- Worksurfaces can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.
- Swish worksurfaces feature a coordinating eased PVC edge on all four sides.
- To order conference tables without any grommets review the Collaborate section, see page 24.

supports

Top depth must match the depth of the pedestal.
When worksurface grommets are inset, subtract 6" from pedestal depth.

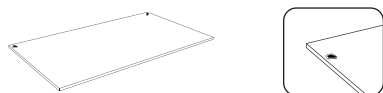

TIP! The removable acrylic plenum hides undersurface cords and creates a decorative accent.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

TIP! Rectangle tops can be specified with grommets inset 6" from the approach side.

rectangle

Basic top shape with endless possibilities. Perfect for benching, long linked runs and workspaces.

workspace

36"d x 96"w	30"d x 96"w	24"d x 96"w	18"d x 96"w
36"d x 90"w	30"d x 90"w	24"d x 90"w	18"d x 90"w
36"d x 84"w	30"d x 84"w	24"d x 84"w	18"d x 84"w
36"d x 78"w	30"d x 78"w	24"d x 78"w	18"d x 78"w
36"d x 72"w	30"d x 72"w	24"d x 72"w	18"d x 72"w
36"d x 66"w	30"d x 66"w	24"d x 66"w	18"d x 66"w
36"d x 60"w	30"d x 60"w	24"d x 60"w	18"d x 60"w
		24"d x 54"w	18"d x 54"w
		24"d x 48"w	18"d x 48"w
		24"d x 42"w	18"d x 42"w
		24"d x 36"w	18"d x 36"w
		24"d x 30"w	18"d x 30"w
		24"d x 18"w	18"d x 18"w

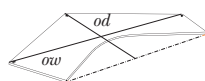

boomerang

Integrate adjustable height tables and seating into a run of stations to create handy meeting spaces.

workspace

30"d x 84"w
24"d x 84"w

120°

Team up with your neighbor and interact with ease.

workspace

18"d x 39 1/8"ow x 83 1/8"od
18"d x 36 1/8"ow x 72 3/4"od
18"d x 33 1/8"ow x 62 3/8"od
24"d x 44 5/16"ow x 83 1/8"od
24"d x 41 5/16"ow x 72 3/4"od
24"d x 38 5/16"ow x 62 3/8"od

Grain direction runs parallel to the ow. Pedestal restrictions apply, see page 14.

ow = overall width
od = overall depth

TIP! Fin tops can be specified with arc on user side or approach side. Can be specified with grommets inset 6" on the straight approach side.

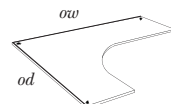

fin

Unique shape that adds additional workspace space to each station while adding design flair.

workspace

36"d x 84"w	30"d x 84"w
36"d x 78"w	30"d x 78"w
36"d x 72"w	30"d x 72"w
36"d x 66"w	30"d x 66"w
24"d x 84"w	
24"d x 78"w	
24"d x 72"w	
24"d x 66"w	

corner

Create cockpit style areas with extra workspace space and multiple working positions for ergonomic flexibility.

Depth at ends = 18", 24", 30", 36"

workspace

60"od x 78"ow	54"od x 78"ow
60"od x 72"ow	54"od x 72"ow
60"od x 66"ow	54"od x 66"ow
60"od x 60"ow	54"od x 60"ow
48"od x 72"ow	
48"od x 66"ow	
48"od x 60"ow	

Grain direction runs parallel to the ow. Pedestal restrictions apply, see page 14.

TIP! Can be specified with nook cutout to be on left portion or right portion of user side. Can also be specified with grommets inset 6" from the approach side.

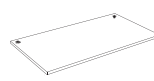

nook

Allows user to nestle closer to storage and creates smaller footprint options without sacrificing workspace. Pedestal restrictions apply, see page 14.

workspace

36"d x 84"w	30"d x 84"w
36"d x 78"w	30"d x 78"w
36"d x 72"w	30"d x 72"w

TIP! When used as a bridge, the 36"w and 30"w units can only be used with corner workspaces.

return / bridge

Create L and U units by adding bridges and return to main workspaces.

workspace

24"d x 60"ow	18"d x 60"ow
24"d x 54"ow	18"d x 54"ow
24"d x 48"ow	18"d x 48"ow
24"d x 42"ow	18"d x 42"ow
24"d x 36"ow	18"d x 36"ow
24"d x 30"ow	18"d x 30"ow

Bridges ship with 2 flat brackets. Returns ship with 1 flat bracket. Grain direction runs front to back, which will match primary workspace.

Workspaces include: wire management channel, stress bar, plenum for approach side and end, and plenum retainers.

Pre-configured units are available...

We've selected basic shapes, sizes and settings to help you order Swish even easier; see page 28.

worksurface (electrical)

Now, select your worksurface electrical options...

1-D Determine if above surface electrical is needed.

1-E Choose cutout locations.

1-F Determine if undersurface electrical is needed.

1-G Specify undersurface power, either single or dual circuit.

➤ Standard locations of cutouts, to accommodate EC10 and EC11 power/data units, are available at no charge.

Above surface electrical cutout locations.

To add quick plug and play power/data units, be sure to specify your worksurface with an electrical cutout.

TIP! The EC10/EC11 grommet cutouts for 18" deep worksurfaces will run perpendicular to user.

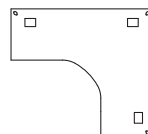

rectangle

EC10/EC11 grommet cutout locations are available left and right.

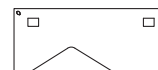

fin

EC10/EC11 grommet cutout locations are available left and right.

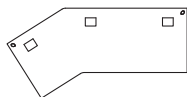

corner

EC10/EC11 grommet cutout locations are available left, center and right.

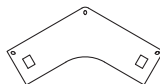

nook

EC10/EC11 grommet cutout locations are available left and right.

boomerang

EC10/EC11 grommet cutout locations are available left, center and right.

120°

EC10/EC11 grommet cutout locations are available left and right.

TIP! For additional field installed grommets see the Electrical section, see page 27.

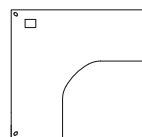

TIP! Grommet cutouts to accommodate EC10 and EC11 power/data units can be placed in left or right locations, as well as center on some units. To specify the cutout location, use the number one (1) digit to indicate the cutout

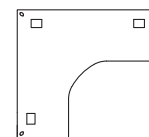

location **001**

locations **101**

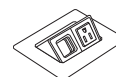

location **010**

locations **111**

NOTE! EC10/EC11 POWER/DATA UNITS MUST BE ORDERED SEPARATELY.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

Undersurface electrical.

If you would like to power your workstation, you will need to specify the worksurface with the electrical option.

-When using a dual circuit system, the power infeed must be hardwired.

Choose from two power options: Single Circuit or Dual Circuit.

single circuit:

One circuit throughout the entire station.

(specify P1 only)

dual circuit:

Alternate circuit 1 and circuit 2 worksurfaces.

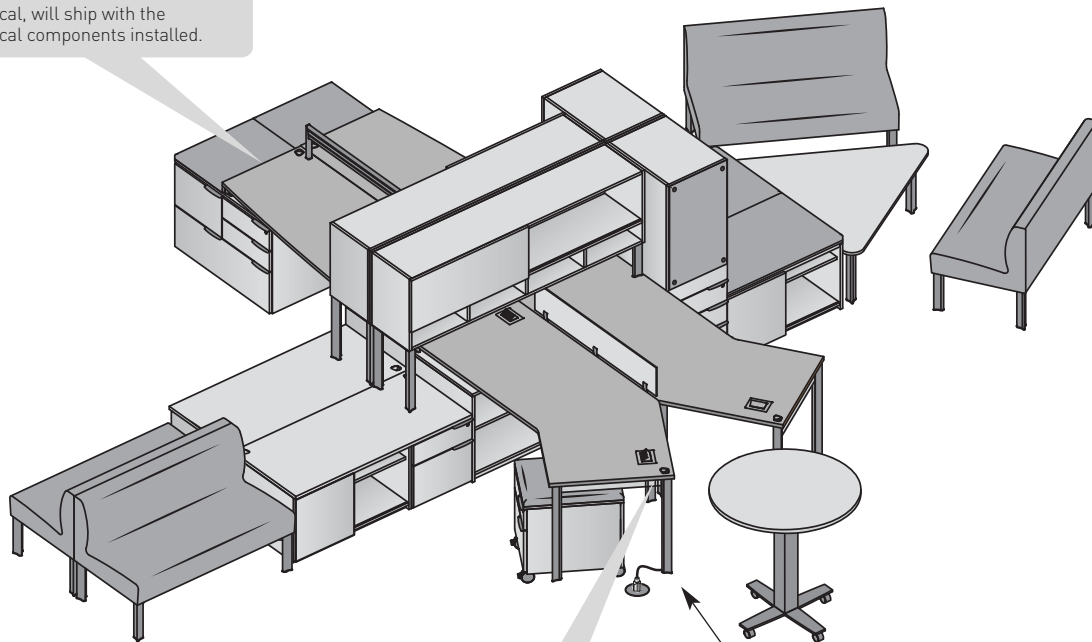

(specify P1 or P2)

or...

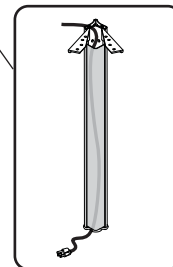

Mix circuit 1 and circuit 2 receptacles within one surface.

(specify PM)

TIP! Worksurfaces that are specified with undersurface electrical, will ship with the electrical components installed.

TIP! Thoughtfully placed grommets and the open leg design with cord cover will conceal the electrical conduit and cords as they travel throughout the workspace.

Additional electrical units...

To continue power from the worksurface through undersurface storage and to the power source, additional electrical components must be specified in the Electrical section, see page 26. Power infeed jumpers will carry power from the power source to the workstation.

step

2

Specifying Swish Step Two

undersurface storage & supports

Select the undersurface storage components that best suit your work mode...

2-A Determine undersurface storage height.

2-B Choose a style.

2-C Determine width and depth.

2-D Specify a laminate.

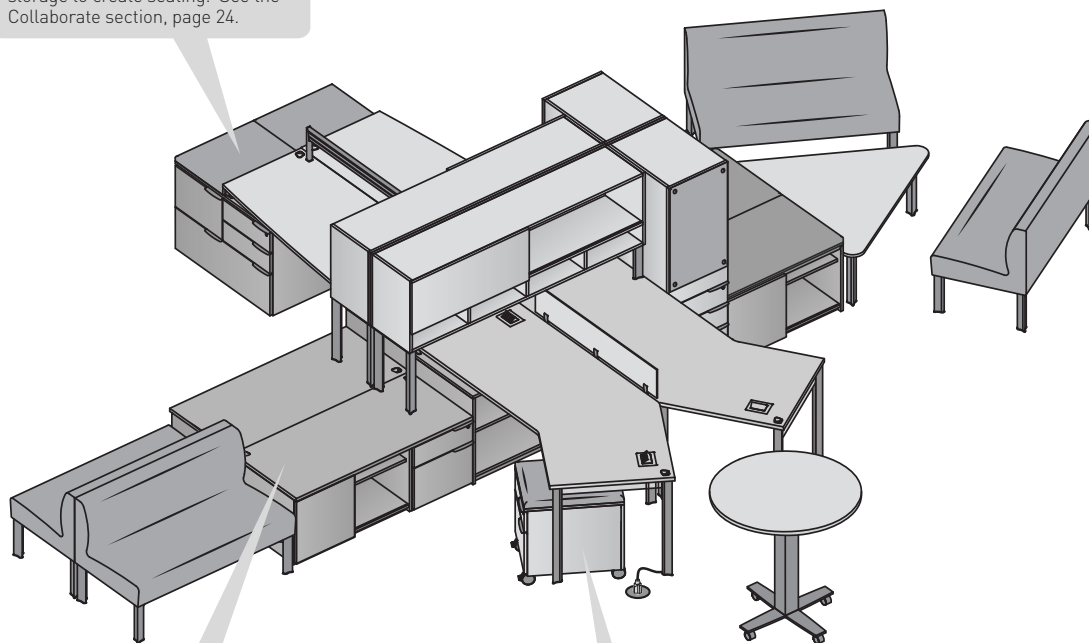

➤ Storage can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.

Select undersurface storage.

Choose executive height units to create airy floating tops. Height from floor to worksurface is 29³/₈".

Choose bench height units to achieve layers and additional seating. Height from floor to modular top is 20".

TIP! Cushion tops can be added to executive height or bench height storage to create seating. See the Collaborate section, page 24.

TIP! Modular tops must be ordered separately for bench height units. Storage units can be mounted under a common top to create a custom look.

TIP! Add additional storage and seating with a cushion top mobile pedestal from the Collaborate section, see page 24.

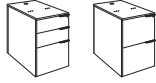

TIP! If an electrical worksurface was selected, be sure to complete the electrical options shown in the Electrical section, see page 26.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

executive height units (26"h without spacer and worksurface)

For a floating top, choose the executive height units and have your worksurface just inches away from your undersurface storage. Use corner units to create the look of a full pedestal from the approach side.

**b/b/f & f/f pedestals**

24"d x 18"w

18"d x 24"w
18"d x 18"w

Use this with bridges or returns to eliminate knee-knocking.

bench height units (19 1/4"h without modular top)

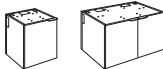

Bench height storage units achieve the layered look by allowing perching areas and multiple low storage configurations.

Bench height storage units must have a top specified separately. To create a custom look, put multiple units under one common top.

**b/f pedestal**

24"d x 36"w
24"d x 30"w
24"d x 24"w

Tops are standard with grommets on the left and right sides that align with the grommets in the unit below.

TIP! Tops are not designed to span two bench height storage units with an unsupported area.

undersurface storage & supports

Select your worksurface support...

2-E Determine how many points of support are needed.

2-F Choose type of undersurface support.

➤ Undersurface supports are made of anodized aluminum and feature a removable cover to hide cords.

Determine the support needed.

Now you will need to support your worksurface to the height of storage you selected or run a full leg to the floor. Each worksurface shape has requirements for support.

corner

Support required...

L C R

TIP! Center support must be a single leg to the floor.

TIP! Center support options include a single leg to the floor, single leg to bench height or single spacer to executive height.

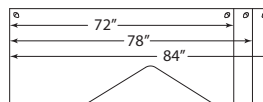

TIP! 72" side must use a 9", 18" or 30" pedestal, legs to the floor, or bracket to tall storage.

66" and 60" side must use a 9" or 18" pedestal, legs to the floor, or bracket to tall storage.

54" side must use a 9" pedestal, legs to the floor, or bracket to tall storage.

48" side must use legs to the floor.

TIP! 84" tops must use an 18" or 9" pedestal or legs to the floor on the 18" w side.

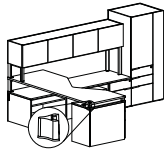

78" tops must use a 9" pedestal or legs to the floor on the 12" w side.

72" tops must use legs to the floor on the 6" w side.

Worksurface support choices.

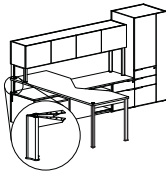

spacer to executive height

Use this spacer-support to connect worksurfaces to executive height storage units.

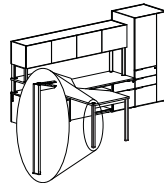

leg to bench height

Use this support to connect worksurfaces to low bench height storage units.

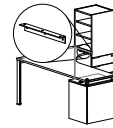

leg to floor

Use this full leg to support a work surface that sits directly on the floor.

bracket to tall storage

Use this bracket to attach a work surface to a tall storage unit. Includes one SSK-TOPSPACER1 for use with plenum.

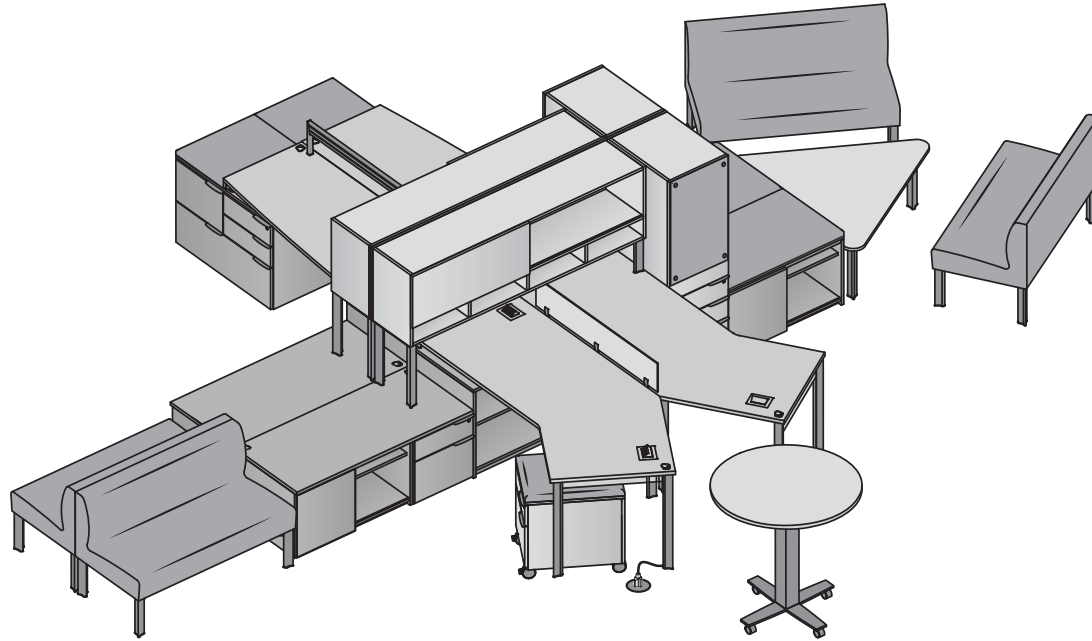

Worksurfaces include: wire management channel, stress bar, plenum for approach side and end, and plenum retainers.

Worksurfaces that are 84" w must use at least one 18" w pedestal for support.

Worksurfaces that are 90" w must use two 18" w pedestals OR one 18" w and one 9" w pedestal for support.

Worksurfaces that are 96" w must use two 18" w pedestals for support.

worksurface supports

Supports are used to connect the work surface with various pedestals, storage units or to run to the floor.

step

3

Specifying Swish Step Three

tall storage

Select tall storage components to add storage and privacy...

3-A Choose a style.

3-B Determine depth.

3-C Determine width and height.

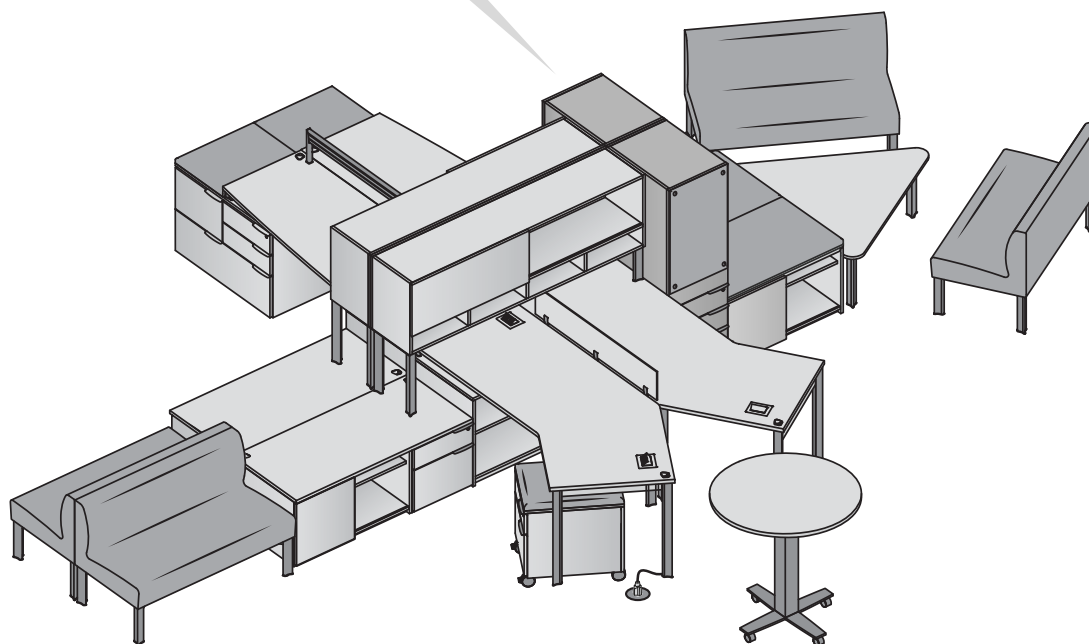

3-D Specify a laminate.

➤ When attaching a worksurface to a tall storage unit, make sure that the bracket to tall storage support option was specified in Step 2.

Select tall storage.

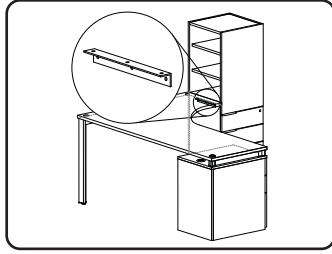

Tall storage units can stand alone or be mounted to a worksurface and used for support.

TIP! Tall storage units and bench height storage units have side access grommets to allow cords to pass through entire unit.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

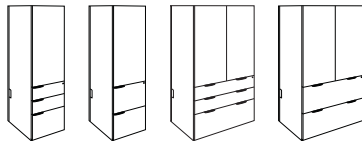

the “L” connection

Specify an L-bracket to connect a tall storage unit to a worksurface.

tall storage units

Attach the worksurface directly to a tall storage unit to create space dividers or varied height storage.

b/b/f & f/f storage cabinets

24" d x 36" w x 60" h
24" d x 30" w x 60" h
24" d x 18" w x 60" h
18" d x 36" w x 60" h

15" d x 18" w x 45" h

60" h and 54" h units have three
adjustable shelves, 45" h has
two shelves.

step

4

Specifying Swish Step Four

above surface storage & supports

Add overhead storage units and cubbies to expand your workspace...

4-A Choose type of above surface storage.

4-B Choose style.

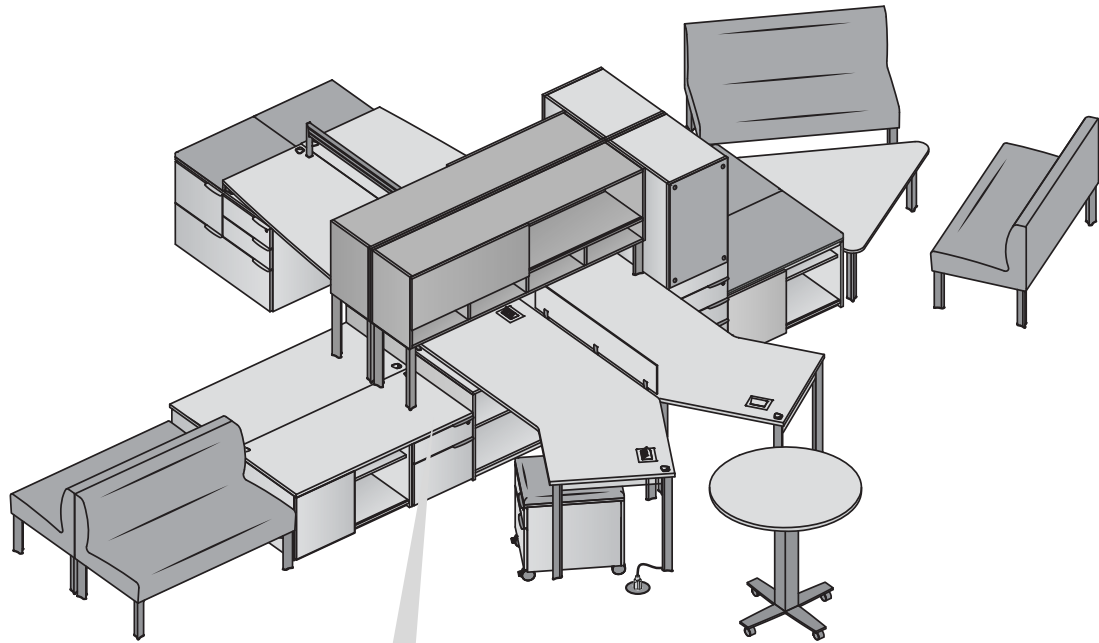

4-C Determine width.

➤ Storage can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.

➤ Wall mount units available for 15" overheads and 21" overheads with cubby below.

Select above surface storage.

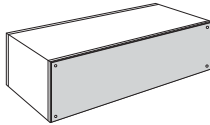

Use above surface units for additional storage and as a space divider.

TIP! Above surface storage units can sit on varied height worksurfaces. One end can sit on executive height, while the other is on bench height.

www.swish.jsifurniture.com

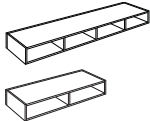

Call 800 457 4511 to discuss your project with a JSI Swish expert!

dual purpose

Tackboards and markerboards can be added to the backside of an overhead to increase productivity when sharing spaces. Review the Accessories section, see page 22.

overheads

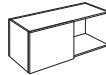

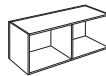

6" horizontal cubby organizer

15"d x 84"w x 6"h
15"d x 78"w x 6"h
15"d x 72"w x 6"h
15"d x 66"w x 6"h
15"d x 60"w x 6"h
15"d x 54"w x 6"h
15"d x 48"w x 6"h
15"d x 42"w x 6"h
15"d x 36"w x 6"h
15"d x 30"w x 6"h

Using storage supports, total height can be either 45" or 54" from the floor.

Cubbies 54"w and larger have four cubby openings, and units 48"w and smaller have two cubby openings.

15" overhead

15"d x 84"w x 15"h
15"d x 78"w x 15"h
15"d x 72"w x 15"h
15"d x 66"w x 15"h
15"d x 60"w x 15"h
15"d x 54"w x 15"h
15"d x 48"w x 15"h
15"d x 42"w x 15"h
15"d x 36"w x 15"h
15"d x 30"w x 15"h

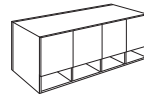

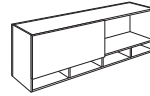

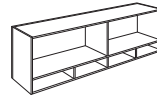

Using storage supports, total height can be either 54" or 60" from the floor.

15"h overheads are also available as wall mount.

Units 54"w and larger have four doors, 48"w and 42"w units have three doors, and 36"w and 30"w units have two doors.

Three door units can have one door hinge right and two left, or two hinge right and one left.

Hinge door units are also available with glass doors, and sliding door units are also available with markerboards.

21" overhead with cubby below

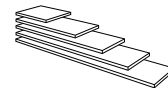

15"d x 84"w x 21"h
15"d x 78"w x 21"h
15"d x 72"w x 21"h
15"d x 66"w x 21"h
15"d x 60"w x 21"h
15"d x 54"w x 21"h
15"d x 48"w x 21"h
15"d x 42"w x 21"h
15"d x 36"w x 21"h
15"d x 30"w x 21"h

Using storage supports, total height will be 60" from the floor.

21"h overhead/cubby combinations are also available as wall mount.

Open storage units 54"w and larger have two overhead openings and four cubbies, units 48"w and smaller have two overhead openings and two cubbies.

Hinge door units are also available with glass doors, and sliding door units are also available with markerboards.

transaction top

15"d x 84"w x 1³/₁₆"h
15"d x 78"w x 1³/₁₆"h
15"d x 72"w x 1³/₁₆"h
15"d x 66"w x 1³/₁₆"h
15"d x 60"w x 1³/₁₆"h
15"d x 54"w x 1³/₁₆"h
15"d x 48"w x 1³/₁₆"h
15"d x 42"w x 1³/₁₆"h
15"d x 36"w x 1³/₁₆"h
15"d x 30"w x 1³/₁₆"h

Using storage supports, total height can be either 40" or 46" from the floor.

NOTE! Support legs must be specified to support overhead and cubby units that are not wall mounted, see page 20.

step

4

Specifying Swish Step Four (continued)

above surface storage & supports

Add overhead storage units and cubbies to expand your workspace...

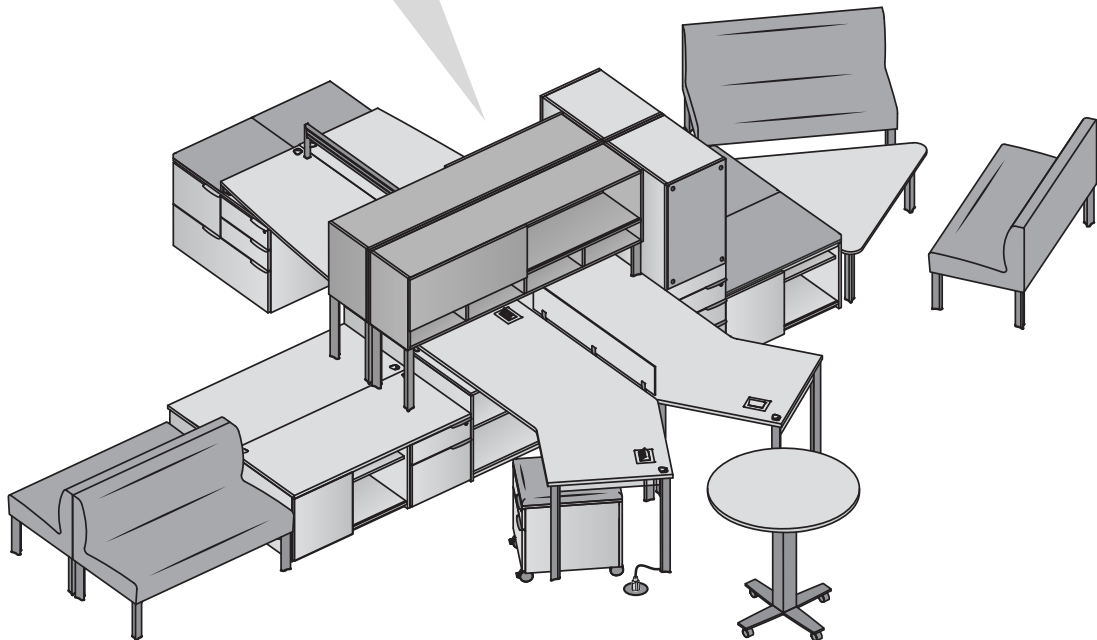

- 4-D** Determine the height desired for the overhead unit, from the floor.
- 4-E** Identify if the above surface storage unit will sit on an executive height unit or a bench height unit.
- 4-F** Select the appropriate storage support to achieve the overall height.

- 6" cubby units can be either 45" or 54" from the floor.
- 15" overhead units can be either 54" or 60" from the floor, or wall mounted.
- 21" overhead units with cubbies below will be 60" from the floor, or can be wall mounted.
- Transaction tops can be either 40" or 46" from the floor.

Select above surface storage supports.

*Overhead storage units and cubbies can be added at various heights to accommodate your work style and storage needs.
Wall mount overhead units do not require storage supports.*

TIP! The backsides of above surface storage units are always finished, so they make great space dividers.

Above executive height storage supports...

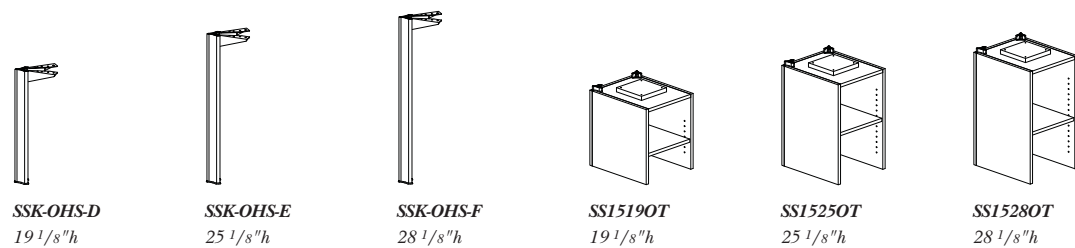

Use this matrix to choose the correct support for above surface storage when placing over executive height surfaces.

executive height to above surface storage		to achieve an overall height of...	40"	45"	46"	54"	60"

collaborate

Add integrated collaboration elements to invite impromptu meetings and gain efficiency...

6-A Determine your collaborative needs.

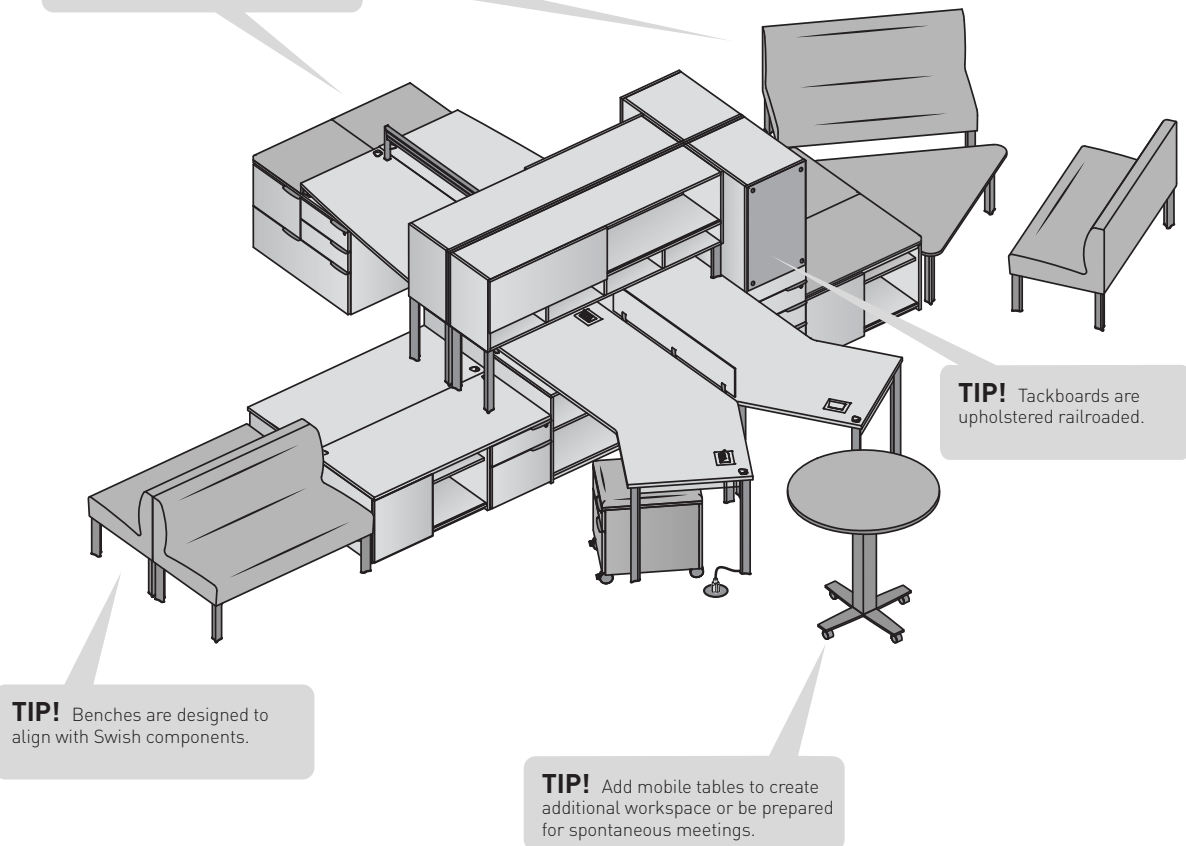

6-B Choose your laminate and/or upholstery.

- Create lounge spaces with integrated benches and tables.
- Add cushion tops to bench height storage for additional seating spaces or add a conference table for larger meetings.

Collaborate.

Swish was designed for people who work with people. Gather around a workstation, add collaborative spaces to a private office or create a meeting room with Swish's collaborate components.

TIP! Benches and seat cushions are upholstered up the roll.

TIP! Tackboards are upholstered railroaded.

TIP! Benches are designed to align with Swish components.

TIP! Add mobile tables to create additional workspace or be prepared for spontaneous meetings.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

collaboration conference tables

Collaboration conference table tops must have two base units specified for support. Collaboration conference table tops do not have grommets. Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.

collaboration conference table tops

42"d x 84"w
42"d x 78"w
42"d x 72"w
42"d x 66"w
42"d x 60"w

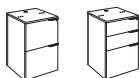

Table tops include plenum, spacers and panel stretchers to conceal technology cords.

stand up height bases

18"d x 18"w x 37 13/16"h

Use these bases when creating a standing height work table or to use with stools for seating.

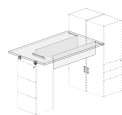

executive height bases

18"d x 18"w x 26"h

Use these bases when creating a standard height work table.

integrated collaboration conference tables

integrated collaboration table tops using L-bracket support and pedestal base supports

30"d x 72"w	36"d x 72"w	48"d x 72"w
30"d x 66"w	36"d x 66"w	48"d x 66"w
30"d x 60"w	36"d x 60"w	48"d x 60"w
30"d x 54"w	36"d x 54"w	48"d x 54"w

Tops include plenum, spacers and panel stretchers to conceal technology cords. Tops include one L-bracket to attach to a tall storage unit or wall mounted. Support for the other end must be ordered separately. Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.

stand up height bases

18"d x 18"w x 37 13/16"h

Use these bases when creating a standing height work table or to use with stools for seating.

executive height bases

18"d x 18"w x 26"h

Use these bases when creating a standard height work table.

30"d x 42"w	36"d x 42"w	48"d x 42"w

Tops include panel stretchers to conceal technology cords. Tops include one L-bracket to attach to a tall storage unit or wall mounted, and includes one set of legs. Leg supports available in stand up height and executive height. Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.

height adjustable tables

Available with pneumatic or ratchet style height adjustability.

Available with locking casters or as a stationary table.

Pneumatic tables with casters adjust from 30 1/2" - 47 1/2" and stationary tables adjust from 27 1/2" - 44 1/2". Ratchet tables adjust from 27 3/8" - 36 3/4".

step

7

Specifying Swish Step Seven

electrical

Continue specifying your power options to complete your workstation...

7-A Determine power infeed length.

7-B Connect power infeed to worksurface.

7-C Connect executive height worksurfaces to each other.

7-D Continue power through storage units to another station.

➤ This panel-less 4 wire, 2 circuit system easily runs throughout an entire workstation.

➤ Swish was designed with integrated wire management to create omni-directional movement.

➤ Each circuit can have up to 13 duplexes, which is 26 plug-ins.

Undersurface electrical.

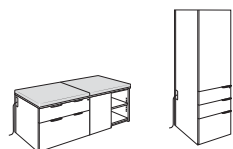

Complete your workstation's electrical options by specifying the power infeed and jumpers. These components allow the power to travel from the worksurface through the undersurface units or travel from worksurface to worksurface to power multiple stations.

power entry infeed

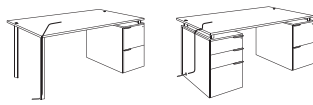

7-A1 Measure distance between power source and location that power will enter the Swish station.

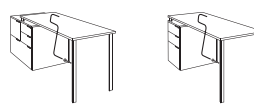

7-A2 Select location of power entry from the floor, and add length.

To bench height unit or side access grommet, add 20".

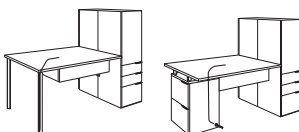

To executive height, add 45".

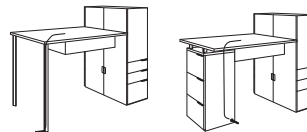

To the kneespace of executive height pedestal, add 45".

To the outside of extended executive height pedestal, add 63".

*To executive height table with legs, add 96".
To executive height table with pedestal, add 84".*

*To stand up height table with legs, add 108".
To stand up height table with pedestal, add 96".*

7-A3 If applicable, add the width of any additional units leading to the powered worksurface.

7-A1

+

7-A2

+

7-A3

=

length of power infeed

connect power infeed to worksurface

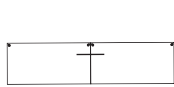

7-B If a vertical height change is needed to reach the worksurface, specify the 24" vertical jumper.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

connect executive height worksurfaces

7-C1 Connect executive height worksurfaces to each other with a simple jumper.

End to end, use 24" jumper.

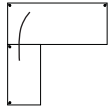

Back to back, use 28" jumper.

End to end, opposite facing:
36"d & 30"d, use 28" jumper.
24"d & 18"d, use 24" jumper.

TIP! If worksurfaces have an overhang, add 6" for each worksurface.

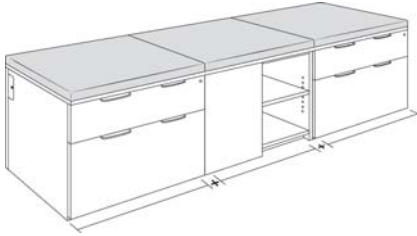

7-C2 Connect executive height worksurfaces to bridges or returns with simple jumpers.

36"d worksurfaces, use 50" jumper.
30"d worksurfaces, use 45" jumper.
24"d worksurfaces, use 42" jumper.
18"d worksurfaces, use 31" jumper.

continue power to the next workstation, through storage units

7-D1 If a vertical height change is needed to reach the storage unit, specify the 24" vertical jumper.

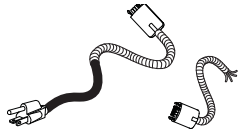

7-D2 Measure the widths of the units the jumper will travel through.

7-D3 If a vertical height change is needed to reach the worksurface, specify the 24" vertical jumper.

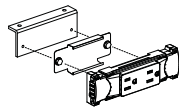

electrical

Electrical components to power your workstation.

72" power infeed

Three prong available in 12" increments from 48" to 120".
Hardwire available in 12" increments from 72" to 300".

duplex receptacle kit

Includes mounting brackets.

receptacle to receptacle connector

H block connector kit

Includes mounting brackets.

jumpers

Available in 6" increments from 18" to 300". Also available in 28", 31", 45", and 50" lengths.

conduit clamp

24" vertical jumper
(includes H block connector)

Quick disconnect

Field install grommet

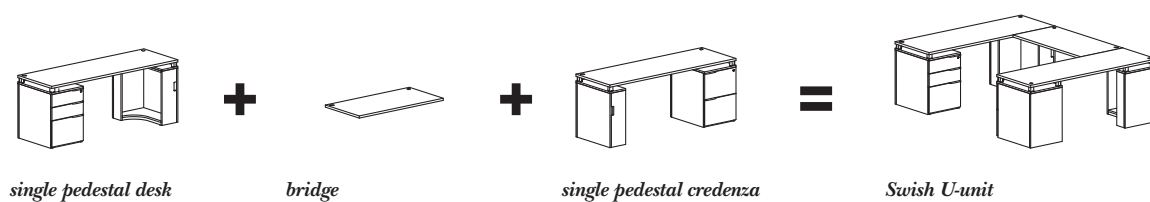

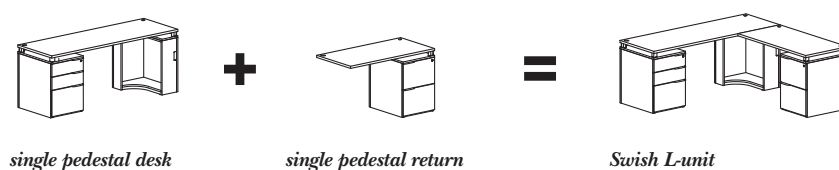

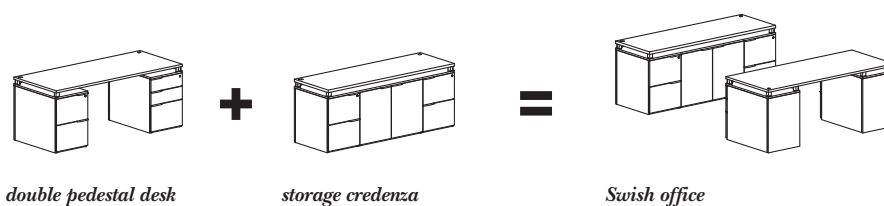

Wire management trough
Available in 12", 24", and 36" lengths.

Specifying Swish Pre-configured Models

pre-configured models

Use pre-configured models to create common workspaces, U-units and L-units...

Product Specifications

Swish Series: Swish has a modular design to allow flexibility in configuration. It features high pressure laminate (HPL) worksurfaces and thermally fused laminate (TFL) chassis components with durable, impact resistant PVC edges. Swish is offered in eleven wood grain colors and seven solid colors. The wood grain TFL features embossed grain to hide fingerprints and light scratches. The Swish offering includes upholstered benches and cushions which integrate with the casegoods.

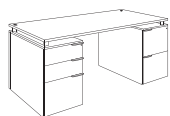

- Worksurfaces:** Laminate worksurfaces have a 3-ply balanced construction, $1 \frac{3}{16}$ " thick with coordinating PVC edges. All worksurfaces feature 3mm PVC edge. All edges and corners are eased to eliminate sharp edges. Worksurfaces greater than 48" include a metal support rail to prevent sagging. Worksurfaces also include a $2 \frac{1}{4}$ " tall frosted acrylic plenum which clips into place below worksurface.
- Power/Data/Wire Management:** Optional 4-wire, one or two circuit undersurface electrical features easy-to-connect fittings which makes routing power a snap. Power & Data tilt-up units are available for worksurfaces in standardized locations. Power & Data units can be plugged into a standard 110v wall outlet or into the undersurface electrical. Teardrop corner grommets and wire management troughs are included standard on all executive height worksurfaces. Bench height, tall storage, executive height corners, and executive height connection pedestals include standard pass through side grommets ($1 \frac{7}{8}$ "W x $3 \frac{1}{4}$ "H). Worksurfaces are raised $2 \frac{1}{4}$ " above the top of the executive height pedestals to create space for easy routing of cords and cables. The acrylic plenum then clips in place to hide the cords and adds a decorative element. Also available is a round field installable cable access grommet. Grommet requires a $2 \frac{3}{8}$ " hole. Overall diameter of the grommet is $2 \frac{3}{4}$ ". Desk legs have a removable acrylic wire management cover which allows passage of cords or flexible electrical through the leg.
- Cabinets:** Laminate chassis is constructed using $\frac{3}{4}$ " thick thermally fused laminated panels. Exterior panels, doors, drawer fronts have 1mm thick PVC edgebands. Product is designed to minimize the number of exposed fasteners. Cabinets are constructed using metal cam & post connectors along with wood dowels. Wood cleats, pocket screws and metal brackets are also used in desk pedestals where additional joint strength is required. Desk pedestals are standard at 18" wide. Lateral files are available in 30" and 36" width. Leveling glides are installed in a manner to prevent tear-out.
- Drawers:** Drawers are assembled using five sided V-fold box and $\frac{1}{4}$ " thick drawer bottom panel construction with exterior front attached separately. Maple vinyl sides and drawer bottoms provide a clean, smooth feel and appearance.
- Drawer Suspension:** High quality black drawer suspensions carry a lifetime warranty. File and box drawers have 100% full extension with over-travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.
- File systems:** All file drawers are constructed with integrated side and back rails and adjustable metal cross rail filing system in place. Cross bars are adjustable and removable without tools.
- Locking:** All drawer pedestals feature pedestal front locking as standard. All hinged door pedestals and non-glass hinged door overhead cabinets are available with optional locking. Units are shipped randomly keyed as standard. Keyed alike units are available at no upcharge with removable cores for in-field re-keying.
- Legs:** Legs and overhead supports are made from extruded aluminum with steel mounting bracket and integrated wire management with cord cover. All legs have adjustable levelers.
- Modesty Panels and Privacy Screens:** Modesty panels and Privacy screens are made of $\frac{1}{4}$ " thick acrylic. Panels are standard in frosted acrylic. Five premium acrylic patterns are also available. Modesty panels attach to the underside of worksurface with metal brackets. Privacy screens mount with an aluminum bracket which attaches to the bottom edge of the worksurface, therefore installation does not mar the worksurface. The privacy panels are friction fit into the bracket for easy removal of the panel.
- Seating:** Swish seating is designed to integrate with the casegoods to create simple and flexible seating options for the open plan office. Cushions are $1 \frac{1}{4}$ " thick with slip resistant rubber bumpers on the bottom side and are designed to sit on top of bench height cabinets. Cushions can be easily removed or placed for maximum flexibility. Swish benches are light weight and scaled for use with the series. Cushions and benches use long lasting high density foam and plywood frames. Both are available in multiple fabric grades.

Pre-Configured Order Check List:

Specify:

- ☐ 1. Model number
- ☐ 2. Laminate color
 - A. Worksurface color
 - B. Chassis color
- ☐ 3. Product options
 - A. EC10/EC11 cutout
 - B. Undersurface electrical

Example:

SS3672ED (model #)	BZW (worksurface color)	TP (chassis color)	EG001 (ECA cutout location)
------------------------------	----------------------------	-----------------------	--------------------------------

1. Model number

2. Laminate Color Options:

ALB	Alabaster	GRH	Graphite
AUT	Autumn	HGL	High Line
BLO	Blonde Echo	SHD	Shadow
BBN	Bourbon	SHE	Shea
BZW	Brazilwood	SLG	Slate Grey
BBL	Bridal Blanco	STU	Studio Teak
BRG	Brighton	TAU	Taupe
DWH	Designer White	VIN	Vintage
DOV	Dove Grey	WLH	Walnut Heights

3. Product Options:

- EC10 or EC11 Cutout:
 - Specify
 - EG100 (user left)
 - EG001 (user right)
 - EG101 (user left and right)
 - Two EC units in a worksurface less than 48" in width is not recommended. No upcharge for cutout.
 - NOTE: Cutouts for 18" deep worksurfaces will run perpendicular to user.**
 - NOTE: EC10 and EC11 units must be ordered separately. Refer to page 214 for more information.**
- Undersurface Electrical:
 - Specify the appropriate number below for the circuit number(s) desired.
 - P1 (circuit 1)
 - P2 (circuit 2)
 - PM (mix circuit 1 and circuit 2)
 - NOTE: Two circuit system requires a hardwire infeed.**
 - When Undersurface Electrical is specified one duplex unit, two jumpers and two H block connectors will be mounted to the underside of units less than 60" in width. Units 60" in width and wider will have two duplex units, two jumpers and two H block connectors.
 - NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.**

Edge Profile:

Eased (R6)

Pull Style and Color:

Flat (Alloy finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors below the worksurface are predrilled as well.

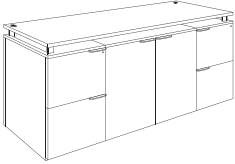

Counterweights:

In order to pass stability tests some Pre-Configured units will require a counterweight to be mounted on the inside of the back panel of the unit. The 1/2" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 75. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

Power and Data Options

page 214

Undersurface Electrical Options

pages 215-217

Worksurface Order Check List:

Specify:

☐ 1. Model number

☐ 2. Worksurface laminate color

☐ 3. Product options

A. EC10/EC11 cutout

B. Undersurface electrical

Example:

SST2472UFING-BA

BBL

EG100

(model #)

(worksurface color)

(EC cutout location)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	GRH	Graphite
AUT	Autumn	HGL	High Line
BLO	Blonde Echo	SHD	Shadow
BBN	Bourbon	SHE	Shea
BZW	Brazilwood	SLG	Slate Grey
BBL	Bridal Blanco	STU	Studio Teak
BRG	Brighton	TAU	Taupe
DWH	Designer White	VIN	Vintage
DOV	Dove Grey	WLH	Walnut Heights

3. Product Options:

- EC10 or EC11 Cutout:

Specify

EG100 (user left)

EG010 (center)

EG001 (user right)

EG101 (user left and right)

EG111 (user left, right and center)

More than one EC unit in a worksurface less than 48" in width is not recommended. No upcharge for cutout.

NOTE: Cutouts for 18" deep worksurfaces will run perpendicular to user

NOTE: EC10 and EC11 units must be ordered separately.

Refer to page 214 for additional information.
- Undersurface Electrical:

Specify the appropriate number below for the circuit number(s) desired for each duplex unit on your worksurface.

P1 (circuit 1)

P2 (circuit 2)

PM (mix circuit 1 and circuit 2)

NOTE: Two circuit system requires a hardwire infeed.

When Undersurface Electrical is specified one duplex unit, two jumpers and two H block connectors will be mounted to the underside of units less than 60" in width. Units 60" in width and wider will have two duplex units, two jumpers and two H-block connectors.

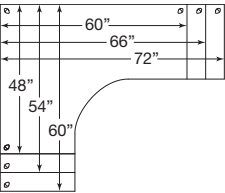

NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.

Edge Profile:

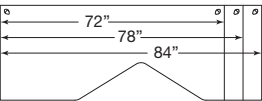

Eased (R6)

Corner and Nook pedestal restrictions:

- 48" Side - Leg to Floor or Bracket to Tall Storage
- 54" Side - Leg to Floor, Bracket to Tall Storage or 9" wide pedestal
- 60" Side - Leg to Floor, Bracket to Tall Storage or 9" or 18" wide pedestal
- 66" Side - Leg to Floor, Bracket to Tall Storage or 9" or 18" wide pedestal
- 72" Side - Leg to Floor, Bracket to Tall Storage or 9", 18", 24" or 30" wide pedestal
- 78" Side - No restrictions

- 72" Wide, 6" Side - Leg to Floor
- 78" Wide, 12" Side - Leg to Floor or 9" wide pedestal
- 84" Wide, 18" Side - Leg to Floor, 9" or 18" wide pedestal

The letters in the chart below indicate the depth of each side on certain worksurfaces.

Ex: SST2484UFING-BA
B = 24 left A = 18 right

Top Depth
A = 18" Deep
B = 24" Deep
C = 30" Deep
D = 36" Deep

DOV	Dove Grey	WLH	Walnut Heights

Pull Style and Color:

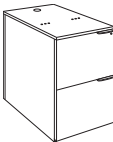

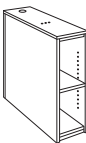

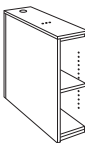

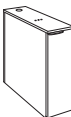

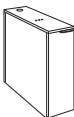

Flat (Alloy finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors are predrilled as well.

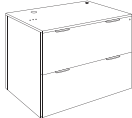

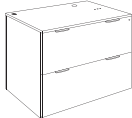

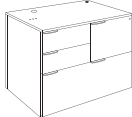

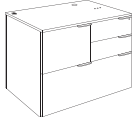

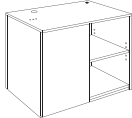

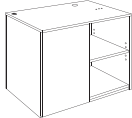

Counterweights:

In order to pass stability tests some Executive Height Storage units will require a counterweight to be mounted on the inside of the back panel of the unit. The 1/2" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 131. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

Modular Bench Height Storage Order Check List:

Specify:

- ☐ 1. Model number
☐ 2. Laminate color

Example:

SSB2436MSD | **WH**
(model #) | (laminate color)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	GRH	Graphite
AUT	Autumn	HGL	High Line
BLO	Blonde Echo	SHD	Shadow
BBN	Bourbon	SHE	Shea
BZW	Brazilwood	SLG	Slate Grey
BBL	Bridal Blanco	STU	Studio Teak
BRG	Brighton	TAU	Taupe
DWH	Designer White	VIN	Vintage
DOV	Dove Grey	WLH	Walnut Heights

Pull Style and Color:

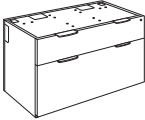

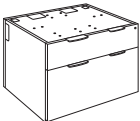

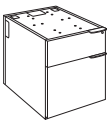

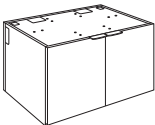

Flat (Alloy finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors are predrilled as well.

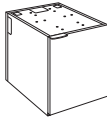

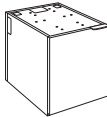

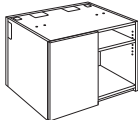

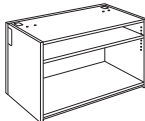

Counterweights:

In order to pass stability tests some Bench Height Storage units will require a counterweight to be mounted on the inside of the back panel of the unit. The 1/2" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 137. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

	Bracket to Tall Storage	SSK-LBRKT-18 · typically used with 18" deep tops · mounts to tall storage unit · includes one each of SSK-TOPSPACER1 for use with plenum · silver finish				2	1	\$67

Tall Storage Order Check List:

Specify:

- ☐ 1. Model number
☐ 2. Laminate color

Example:

SS2418-54BBFSSTR | **BZW**
(model #) | (laminate color)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	GRH	Graphite
AUT	Autumn	HGL	High Line
BLO	Blonde Echo	SHD	Shadow
BBN	Bourbon	SHE	Shea
BZW	Brazilwood	SLG	Slate Grey
BBL	Bridal Blanco	STU	Studio Teak
BRG	Brighton	TAU	Taupe
DWH	Designer White	VIN	Vintage
DOV	Dove Grey	WLH	Walnut Heights

Pull Style and Finish:

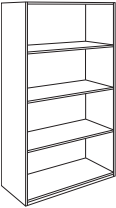

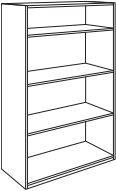

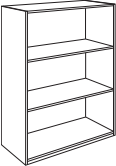

Flat (Alloy finish)

NOTE: All drawers are predrilled for easy field installation.
Pulls for drawers can be installed in the left, center or right locations. All doors have a touch latch mechanism.

Counterweights:

In order to pass stability tests some Tall Storage units will require a field installed 20 lb. 1/2" thick counterweight to be mounted on the inside of the back panel of the unit. The counterweight will need to be ordered separately, see page 148. As an alternative to the counterweight the unit can be secured to the wall or floor.

Order Check List
page 149

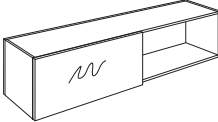

Product Specifications
page 40

Accessories Order Check List:

Specify:

☐ 1. Model number

☐ 2. Fabric selection - vendor, pattern and color

☐ 3. Product options

Example:
SS1560ASF-TK2 | Culp | Montgomery | Sterling
(model #) | (fabric vendor) | (pattern name) | (pattern color)

1. Model number

2. Fabric selection - Please supply the following:

Fabric vendor
Pattern name
Pattern color

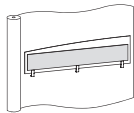

NOTE: Vinyl cannot be used on tackboards

All COM orders must include the following:

- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions
- Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Dept
932 Mill St.
Jasper, Indiana 47546

Application of fabric:
Railroaded

All COM orders will ship at standard lead time from receipt of COM.

3. Product Options:

Frosted is the standard for all acrylic modesty panels and privacy screens. Optional acrylic patterns are available, specify pattern name. Upcharge applies, refer to product pages. All privacy screens with a tackboard are only available with the frosted acrylic.

Optional patterns:

Drift Green Paper Cut
Ivory Taipei Silver Spun
Oyster Linen

NOTE:

Accessory rails can be mounted to most worksurfaces. Contact Customer Service for availability if mounting to a modular bench height top. Rail must be installed at least 4" inset from the left and right sides of the worksurface.

When ordering a privacy screen be sure to take into account any above storage units so there is no interference.

Markerboards are available for the back and side of Tall Storage units, the side of Side Access Storage units and the back of Above Surface Storage units. Markerboards are not available on the Tall Storage doors. See pages 152, 155, 162 and 164 for Above Surface Storage units with sliding markerboard doors.

Tackboards are available for the back and side of Tall Storage units, the side of Side Access Storage units and the side of Above Surface Storage units. Tackboards are not available on the doors of these units.

To Order, Specify:

- ① Model number
- ② Fabric selection: vendor, pattern, color

Order Check List
page 166

Product Specifications
page 40

Collaborate Order Check List:

Specify:

- ☐ 1. Model number
- ☐ 2. Laminate color
 - A. Worksurface color
 - B. Panel stretcher color
- ☐ 3. Fabric selection - vendor, pattern and color
- ☐ 4. Product options
 - A. EC13 cutout
 - B. Undersurface electrical

Example:

SST4860CCBP (model #)	HGL (worksurface color)	SD (panel stretcher color)	EG030 (EC13 cutout)
---------------------------------	----------------------------	-------------------------------	------------------------

1. Model number

2. Laminate Color Options:

ALB	Alabaster	GRH	Graphite
AUT	Autumn	HGL	High Line
BLO	Blonde Echo	SHD	Shadow
BBN	Bourbon	SHE	Shea
BZW	Brazilwood	SLG	Slate Grey
BBL	Bridal Blanco	STU	Studio Teak
BRG	Brighton	TAU	Taupe
DWH	Designer White	VIN	Vintage
DOV	Dove Grey	WLH	Walnut Heights

3. Fabric selection - Please supply the following:

- Fabric vendor
 - Pattern name
 - Pattern color
 - Indicate direction of fabric - Railroaded or Up the Roll
 - please provide illustration if available
- NOTE: Standard application will be Up the Roll**

All COM orders must include the following:

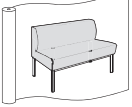

- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number

Ship prepaid COM material to:

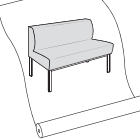

JSI
Attn: COM Dept
932 Mill St.
Jasper, Indiana 47546

Application of fabric:

Railroaded

Up the Roll

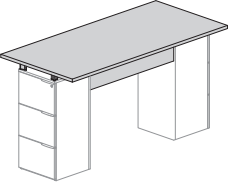

All COM orders will ship at standard lead time from receipt of COM.

3. Product Options:

- EC13 Cutout:
 - Specify EG030
 - NOTE: EC13 will be located in the center of the top. Panel stretcher will ship with wire management channels for cord management.**
 - NOTE: EC13 units must be ordered separately. Refer to page 214 for more information.**
- Undersurface Electrical:
 - Specify the appropriate number below for the circuit number(s) desired.
 - P1 (circuit 1)
 - P2 (circuit 2)
 - PM (mix circuit 1 and circuit 2)
 - NOTE: Two circuit system requires a hardwire infeed. When Undersurface Electrical is specified the following will be mounted to the underside of the worksurface: two duplex units, two jumper cables and two H block connectors.**
 - NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.**

Bourne Seating Order Check List:

Specify:

☐ 1. Model Number

☐ 2. Wood Species - Maple (M) or Walnut (W) upcharge applies when Walnut is specified

☐ 3. Wood Finish

☐ 4. Fabric Selection - vendor, pattern and color

☐ 5. Metal Foot Rail Color - Arctic Silver (ASL), Matte Black (MBK), Pewter (PEW) or Soft Nickel (SNK)

☐ 6. Optional Rubber Cushion Nylon Glides - no upcharge

Example:

BU7511D	M	AUB	MOMENTUM	VOX	MYSTIC
(model #)	(wood species)	(finish)	(fabric vendor)	(pattern name)	(pattern color)

1. Model Number

2. Wood Species - Maple (M) or Walnut (W); upcharge applies

3. Wood Finish Options:

Maple Frame			
ALE	Ale	CGR	Graphite Coordinate
AUB	Auburn	CHL	High Line Coordinate
AUT	Autumn	CKC	Khaki Coordinate
BRL	Barley	LGC	Legacy
CBE	Blonde Echo Coordinate	MCH	Mocha
BBN	Bourbon	NTO	Night Owl
CBZ	Brazilwood Coordinate	PRL	Praline
BRG	Brighton	SAF	Saffron
BUT	Butterscotch	SIE	Sienna

EAR	Earthy	CVI	Vintage Coordinate
ESP	Espresso	CWH	Walnut Heights Coordinate
FLX	Flax		
Walnut Frame (optional, upcharge applies)			
AUB	Auburn	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl		

4. Fabric Selection - Please supply the following:

Fabric vendor Pattern name Pattern color

When specifying dual upholstery, indicate clearly which upholstery is to be applied to the seat/lower back and the upper back.

• Indicate direction of fabric - Railroaded or Up the Roll

• Please provide illustration, if available

All COM orders must include the following:

• Vendor's name, pattern name and color

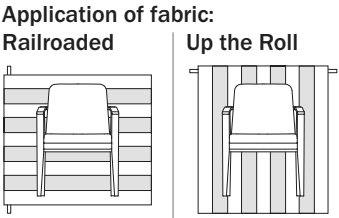

• Sample of the fabric attached to the order

• Model numbers of items for fabric application

• Special application instructions (e.g., all stripes will be applied front to back unless specified otherwise)

• Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Dept
932 Mill Street
Jasper, IN 47546

All COM orders will ship at standard lead time from receipt of COM except for orders requiring special custom matched finishes.

5. Metal Foot Rail Color - specify color:

ASL	Arctic Silver	PEW	Pewter
MBK	Matte Black	SNK	Soft Nickel

6. Optional Rubber Cushion Nylon Glides - no upcharge

Seating Order Check List

Single Textile Seating

a. frame species

(choose one)

_____ maple

_____ walnut (*upcharge applies*)

finish color:

(see previous page for finish choices) _____

b. fabric selection

_____ vendor

_____ pattern

_____ color

(see pages 12-20 in JSI Seating price list for fabric choices) _____

c. metal color (if applicable)

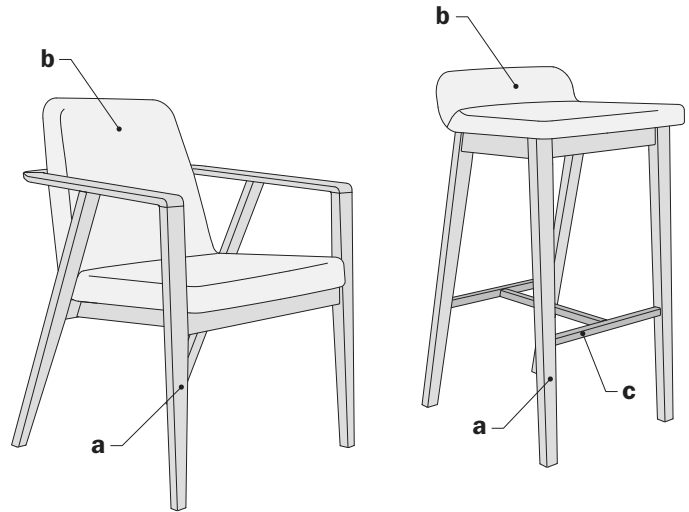

(choose one)

_____ arctic silver

_____ matte black

_____ pewter

_____ soft nickel

Dual Textile Seating

a. frame species

(choose one)

_____ maple

_____ walnut (*upcharge applies*)

finish color:

(see previous page for finish choices) _____

b. fabric selection;

b1.) seat and lower back

_____ vendor

_____ pattern

_____ color

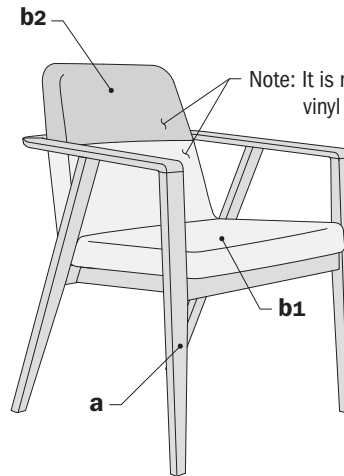

b2.) upper back

_____ vendor

_____ pattern

_____ color

(see pages 12-20 in JSI Seating price list for fabric choices) _____

Note: It is not recommended to combine vinyl or leather material to fabric.

Bourne Seating Product Information

Exterior Wood Materials

All materials used in our guest seating are kiln dried lumber from suppliers practicing forest sustainability. Any defects in the wood that are removed during our process are utilized in other areas of production.

Interior Frame Materials

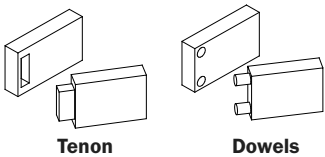

A combination of materials are used to create interior frame components, including solid lumber, plywood, metal plates, and high grade upholstery board.

Metal Materials

Stool and foot rail are fabricated from 14 gauge steel tubing and welded to pre-set standards.

Construction

Tenon style joinery is used in most frame construction for our seating products; however, dowel pin joinery may also be used. Engineering will determine, based on design which joinery is best for the frame design of each particular design. Critical joints are reinforced with mechanical fastening.

Finish

Each of the wood components that goes into a chair will have unique characteristic; the process of shaping and machining these parts may expose additional natural characteristics. To accentuate the beauty of the wood, special care is taken in selecting the frame component for each finish color.

Finish colors may vary slightly when comparing solid wood product finish to our casegoods veneer product finish. Exceptional care is taken to assure a uniform color on solid wood products.

Seating Finishes

ALE	Ale	FLX	Flax
AUB	Auburn	LGC	Legacy
AUT	Autumn	MCH	Mocha
BRL	Barley	NTO	Night Owl
BBN	Bourbon	PRL	Praline
BRG	Brighton	SAF	Saffron
BUT	Butterscotch	SIE	Sienna
CIN	Cinnamon	TOF	Toffee
CLA	Classic	TRF	Truffle
EAR	Earthy	VEN	Venetian
ESP	Espresso		

Color Coordinates

Color Coordinate Finishes are intended to coordinate with select laminate and double cut veneer casegood finishes. They represent an average color and do not match the grain pattern of the coordinating laminate or double cut veneer.

CBE	Blonde Echo Coordinate	CHL	High Line Coordinate
CBZ	Brazilwood Coordinate	CKC	Khaki Coordinate
CCF	Coffee Coordinate	CST	Studio Teak Coordinate
CCR	Cremello Coordinate	CVI	Vintage Coordinate
CGR	Graphite Coordinate	CWH	Walnut Heights Coordinate

Not all finishes are available in every seating series. Reference the Order Check List at the beginning of each series.

Protective Top Coat

We are proud that our finish is GreenGuard certified. To reduce hazardous formaldehyde emission we use our proprietary specially designed top coat, DuraTex™. Our DuraTex™ top coat offers exceptional hardness along with abrasion and impact resistance, but has been formulated to eliminate the hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish provides a safe solution and still preserves the natural beauty of wood.

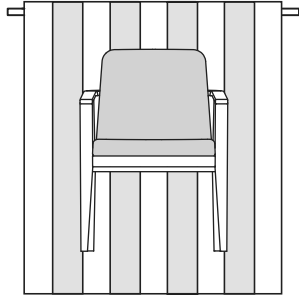

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Bourne Seating Product Information

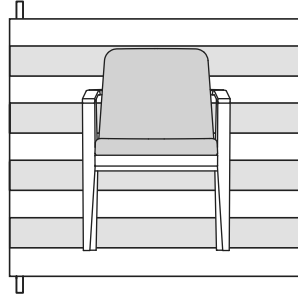

Upholstery Cover Application

Unless a customer specifies the fabric to be run "railroad", the fabric will be "cut up the roll". Additional seaming may be needed, pending fabric width and textile repeat match, contact Customer Service with questions.

"Nap" or "Up the Roll" (standard)

Railroaded (upon request)

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces, with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. Avoid exposure of furniture to extremes of heat, cold, and wide variance of humidity. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration.

Metal Components

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft, dry brush to remove dirt.

Bourne Tables Order Check List:

Specify:

☐ 1. Model Number

☐ 2. Top Material

a.) Veneer

1.) Wood Species - Cherry (CH1), Maple (MA1), Walnut (WA1) or Double Cut (DC1)

2.) Wood Finish

b.) Laminate

1.) Laminate Color

c.) Solid Surface

Bourne Tables and Storage Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Bourne product line. To attain a pleasing, symmetrical pattern, all veneers in Bourne are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

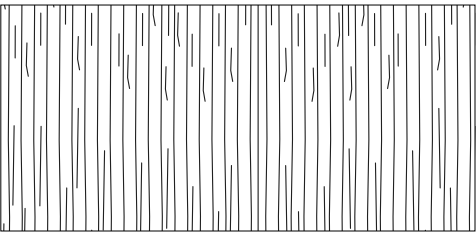

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Bourne is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Bourne Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

The diagram below shows the tight pattern used on Bourne Double Cut Veneer.

Worksurface Construction

Veneer and Laminate Worksurface

Worksurfaces are 1 3/8" thick and are manufactured with 3-ply balanced construction. Surfaces are available in wood veneer or high pressure laminate. MDF edges on table tops have an undercut bevel profile and are painted to match top.

Solid Surface Worksurface

Solid surface worksurfaces are constructed with a 1/2" thick solid surface top and a 1/8" thick wood sub-top. Total thickness of this mixed material worksurface is 1 3/8". MDF edges on sub-top have an undercut bevel profile and are painted to match top.

Casework Construction

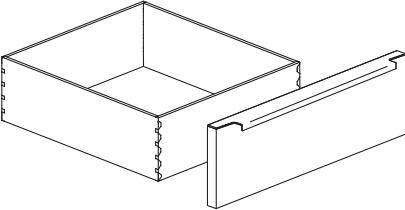

Casework tops are made up of layers of hardwood veneers molded to shape and RF cured. Outer veneers are matched for uniform grain patterns. All casework tops are 3/4" thick plywood.

Casework chassis, doors and drawer fronts consist of veneer over composite wood core; all wood core components are 3/4" thick.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Bourne. Please see the chart below. Samples are available upon request.

Bourne Tables and Storage Product Information

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

To reduce hazardous formaldehyde emission we use our proprietary specially design top coat, DuraTex™. We are proud that our finish is GreenGuard certified.

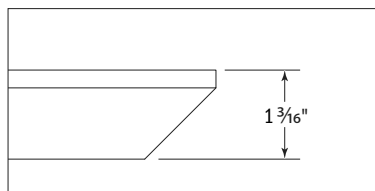

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces, with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. Avoid exposure of furniture to extremes of heat, cold, and wide variance of humidity. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration.

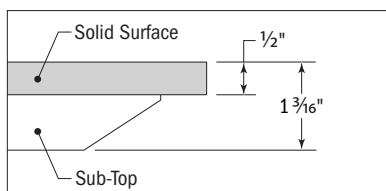

Metal Components

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft, dry brush to remove dirt.

Top Edge Details

Knife Edge - Veneer & Laminate

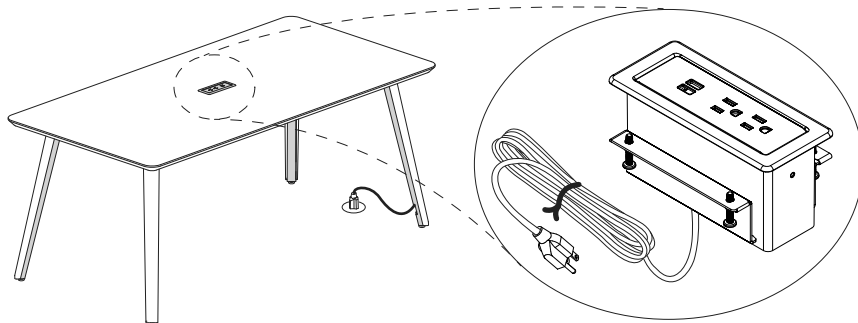

Painted Knife Edge with Solid Surface Top

Optional Power Units

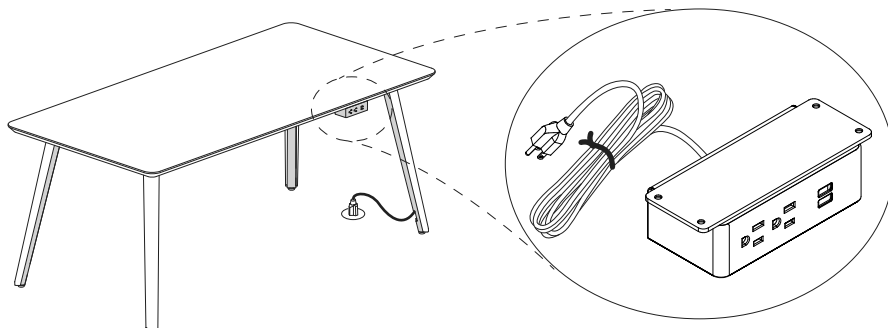

Worksurface Surface Power

Optional Worksurface Power (EC26) is available on standard, counter and bar height tables. Indicate "to accommodate Worksurface Power" on your purchase order. When this option is specified the worksurface will have one cut out in the center. One EC26 Worksurface Power unit must be ordered separately, see page 33. Length of cord is 10 feet.

Under Surface Power

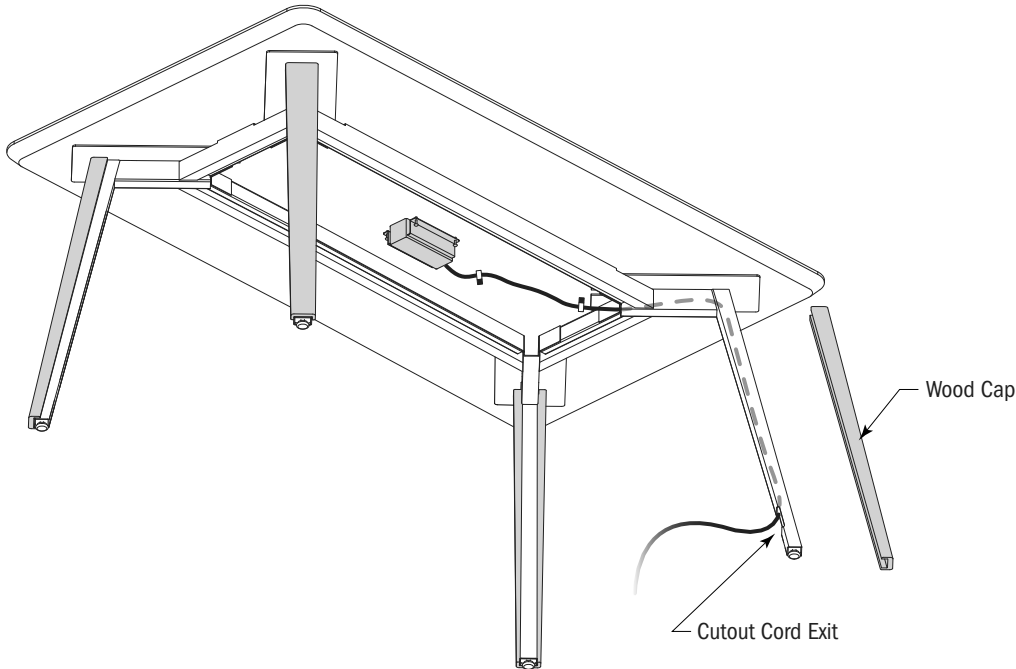

Under Surface Power (EC27) may be ordered for standard, counter and bar height tables. The EC27 Under Surface Power Unit(s) must be ordered separately, see page 33. This unit is field installed. Length of cord is 10 feet.

Bourne Tables and Casework Product Information

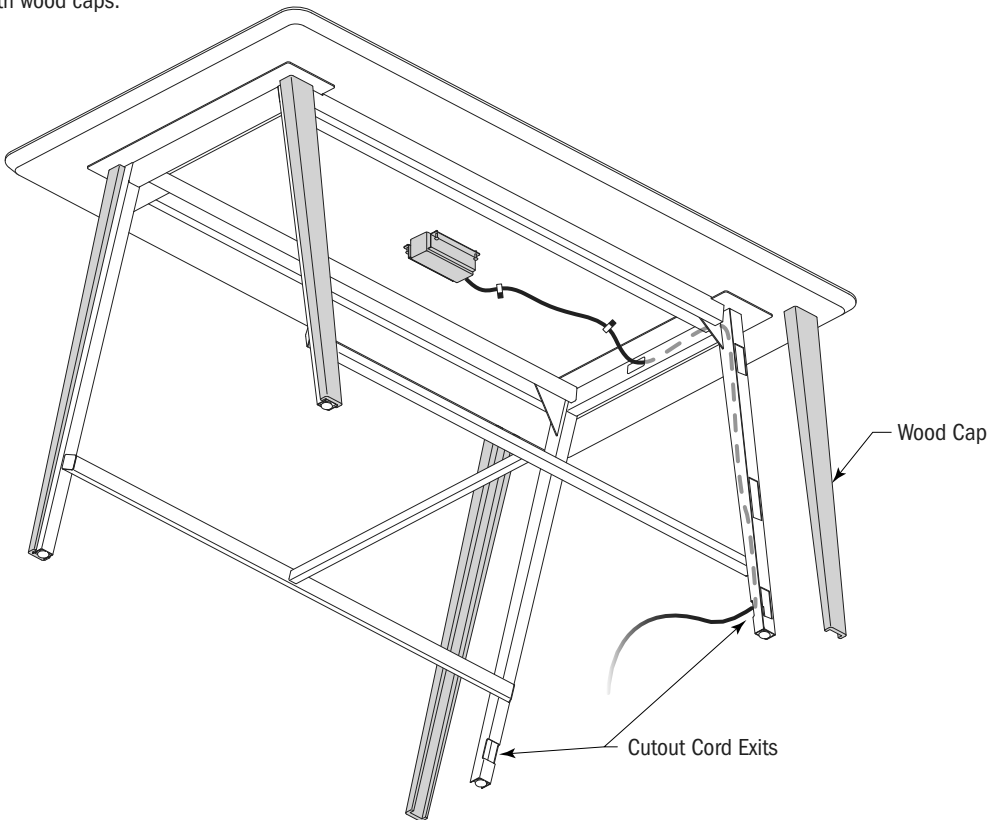

Wire Management - Standard and Counter Height Tables

Standard and counter height tables with metal legs contain one leg with a wire management channel/exit cutout which is accessed and concealed with a wood cap. This wire management leg can be attached to any corner of the table during assembly. Predetermining which corner of table cord exit is desired and assembly accordingly.

Wire Management - Bar Height Tables

Bar height tables with metal legs has a set of legs on one side of table with wire management channel and exit cutout. The management channels are accessed and concealed with wood caps.

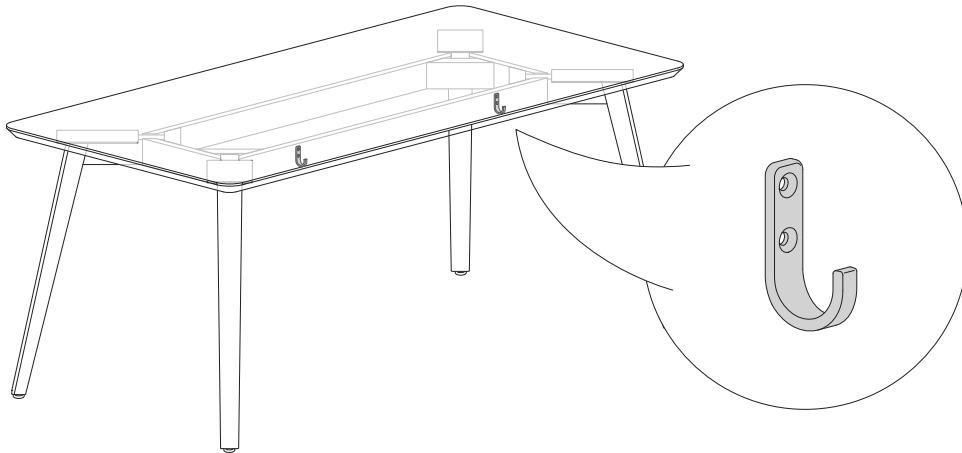

Bourne Tables and Casework Product Information

Optional Accessory Hooks

Optional satin stainless steel accessory hooks are available on the 30"h, 36"h and 40"h tables.

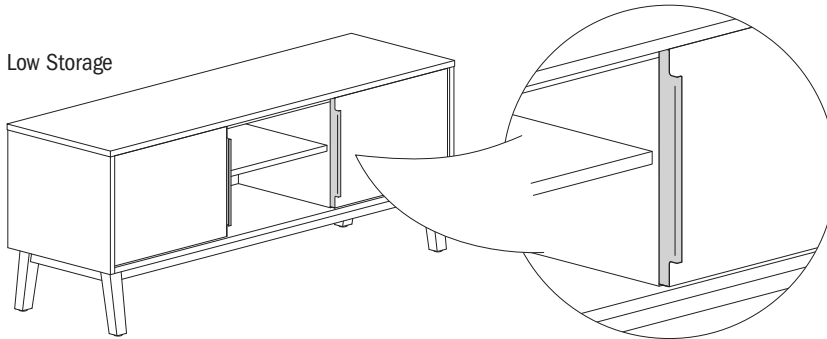

Four Hooks - add \$140 list

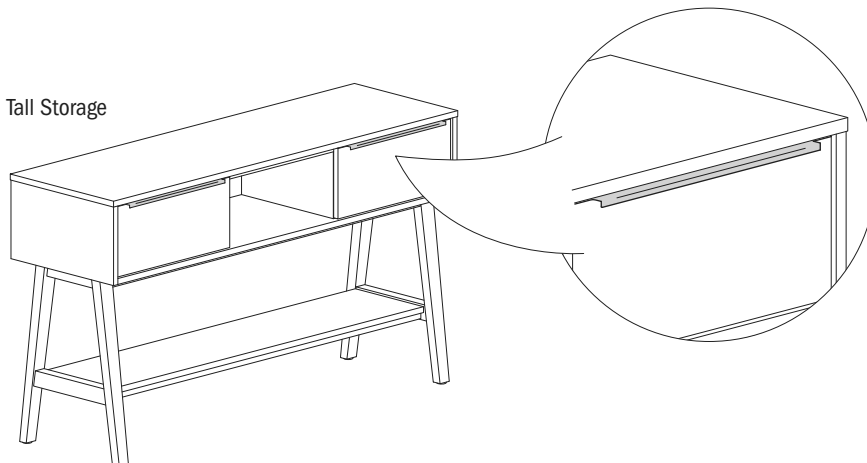

Integrated Metal Pull

Storage Units offer integrated clear anodized aluminum pulls standard.

Reef Product Information

Reef Veneer

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Reef Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple and walnut veneers are book-matched.

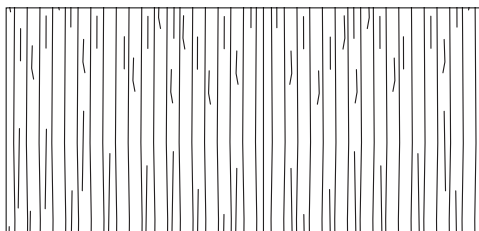

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Reef Veneer is available in flat cut cherry, maple and walnut. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Reef Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

The diagram below shows the tight pattern used on Reef Double Cut Veneer.

Worksurface Construction

Worksurfaces are 1 3/16" thick and are manufactured with 3-ply balanced construction. Surfaces are available in wood veneer or high pressure laminate. No additional charge for HPL worksurface when using the JSI standard coordinating HPL match to a standard wood finish. Veneer tops feature 3mm thick matching veneer edgebands. HPL tops are constructed with internal solid hardwood lumber edgebands.

Case Construction

Reef Veneer end panels are produced using a 1 3/16" thick substrate with veneer surfaces and matching veneer bands on exposed edges. Stretcher panels are 1 3/16" thick for layered tables and 3/4" thick on panel tables. Stretcher panels feature heavy duty metal brackets that bolt to metal insert nuts in end panels. Reef 36", 42" and 48" deep tables feature dual stretcher panels that are sized to provide proper support for worksurfaces. Reef 20" deep wall dependent tables incorporate rear stretcher and metal support rails for worksurface support. Worksurfaces are joined to end assemblies and stretcher panels by metal brackets and wood screws. Upper shelves on layered tables are 1 3/16" thick and attach with Modeez connectors and metal brackets with wood screws. Bookcase sections are constructed from 3/4" thick veneer panels with matching veneer edgebanding. Narrow bookcase and full bookcase joinery includes wood cleats, wood screws and metal fasteners. All tables have adjustable leveling glides. Reef tables require field assembly.

Foot Rails

Optional metal foot rails are constructed with 14-gauge 1 3/4" square tubing with powder coated finish. Rails attach to end panels using 1/4-20 machine screws into metal inserts in end panels.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Reef. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. **Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. **Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of \$289 list per order for any non-standard wood finish.

Reef Product Information

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Oak Veneer

Upon request veneer can be changed from the standard offering to oak plain sliced veneer with a 40% upcharge on to the list of each item.

Laminate Tops

Work surface only, no additional upcharge if Reef's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	Ale	Auburn
Barley	Cinnamon	Mocha
Bourbon	Venetian	Night Owl
Brighton		Sienna
Classic		Toffee
Legacy		Truffle
Praline		
Saffron		

Reef Laminate

Reef Laminate features TFL (thermally fused laminate) chassis components. Worksurfaces are available in TFL or HPL (high pressure laminate).

Edges of the worksurface are banded with impact resistant (PVC) on both TFL and HPL tops. The laminate is offered in 10 wood grain patterns and 7 solid colors. Wood grain laminates feature an embossed grain that adds texture and helps to hide finger prints and light scratches. The solid color laminates are smooth to the touch with a semi-matte finish. All Reef Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Reef product. Former laminate names are listed in parentheses for reference.

TFL - HPL Wood Grain Pattern Laminates

AUT Autumn (<i>Autumn Cherry</i>)	HGL High Line
BLO Blonde Echo	SHE Shea (<i>Nat Maple/Ale finish match</i>)
BBN Bourbon (<i>Natural Cherry</i>)	STU Studio Teak
BZW Brazilwood	WLH Walnut Heights
BRG Brighton (<i>Brighton Cherry</i>)	VIN Vintage (<i>Vintage Cherry</i>)
GRH Graphite	

TFL - HPL Solid Laminates

ALB Alabaster	SHD Shadow
BBL Bridal Blanco	SLG Slate Grey
DWH Designer White	TAU Taupe
DOV Dove Grey	

Worksurfaces

Worksurfaces are manufactured with 3-ply balanced construction. Tops are 1 3/16" thick with coordinating PVC edges. Worksurfaces feature 3mm PVC edges on user sides. Edge detail is flat with eased edge on top and bottom. Worksurface ends are banded with 1mm PVC. Worksurfaces are offered in TFL or HPL.

TFL Features on Worksurfaces

Fused to 45 lb density substrate of the top for a durable surface. Tops are laminated on both sides. Available in all the wood grain and solid patterns.

HPL Features on Worksurfaces

Fusion of multiple layers creates a higher impact resistant surface. Tops are 3-ply balanced construction. Available in all wood grain and solid patterns.

Case Construction

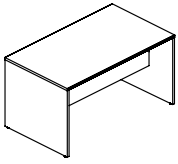

Reef Laminate end panels are produced using 1 3/16" thick substrate with TFL surfaces and matching PVC bands on exposed edges. Stretcher panels are 1 3/16" thick for layered tables and 3/4" thick on panel tables. Stretcher Panels feature heavy duty metal brackets that bolt to metal insert nuts in end panels. Reef 36", 42" and 48" deep tables feature dual stretcher panels that are sized to provide proper support for worksurfaces. Reef 20" deep wall dependent tables incorporate rear stretcher and metal support rails for work surface support. Worksurfaces are joined to end assemblies and stretcher panels by metal brackets and wood screws. Upper shelves on layered tables are 1 1/8" thick and attach with Modeez connectors and metal brackets. Bookcase sections are constructed from 3/4" thick TFL panels with 1mm edgebanding. Narrow bookcase and full bookcase assembly joinery include wood cleats, wood screws and metal fasteners. All tables have adjustable leveling glides. Reef tables require field assembly.

Foot Rails

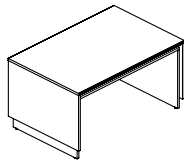

Optional metal foot rails are constructed with 14-gauge 1 3/4" square tubing with powder coated finish. Rails attach to end panels using 1/4-20 machine screws into metal inserts in end panels.

Reef Product Information

Optional Foot Rail

Optional foot rail in the Arctic Silver, Black Sandtex or Soft Nickel powder coat finish is available on the 42"h tables.

96" wide

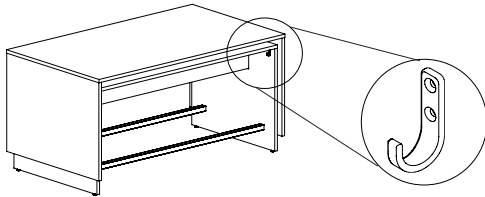

54", 60", 72", & 84" wide

Double Sided Table - Two Rails - add \$772 list

Single Sided Table - One Rail - add \$416 list

Optional Coat Hook

Optional satin stainless steel coat hook is available on the 42"h and 37"h tables.

Double Sided Table - Four Hooks - add \$140 list

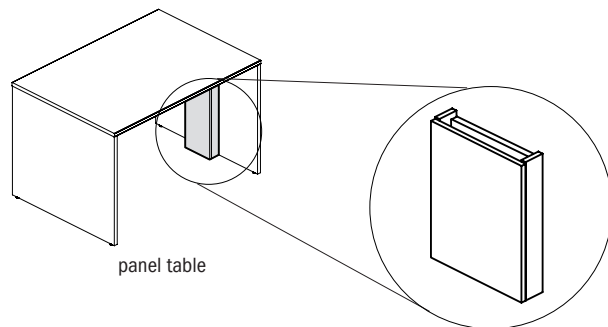

Single Sided Table - Two Hooks- add \$84 list

Vertical Wire Manager

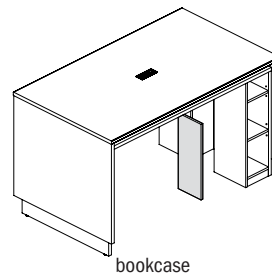

Vertical Wire Manager is optional on the 48", 42" and 36" deep units, select veneer or laminate.

Bookcases feature integrated vertical wire management with a removable access panel. Vertical wire managers are not available on bookcase sides.

Note: Not available on 20"d units.

Reef Product Information

Optional Worksurface Power

Optional Worksurface Power (EC26) is available on 48", 42" and 36" deep units. Indicate "to accommodate Worksurface Power" on your purchase order. When this option is specified the worksurface will have one cut out in the center. One EC26 Worksurface Power unit must be ordered separately, see page 26. Length of cord is 10 feet.

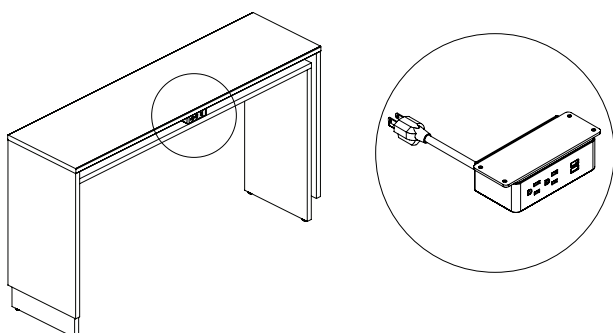

Note: Not available on wall dependent tables or tables with full width bookcases.

Under Surface Power

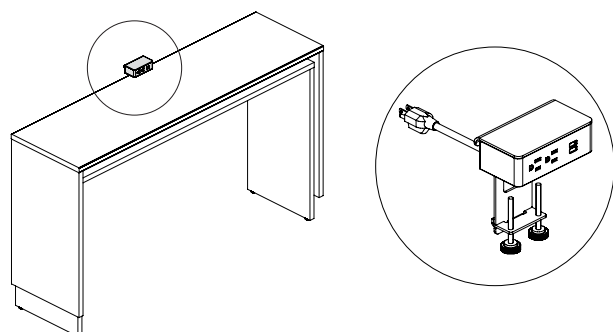

Under Surface Power (EC27) may be ordered for 48", 42", 36" and 20" deep units. The 48", 42" and 36" deep units can accommodate power unit on each side of the table. The 20" deep units can accommodate power units on the non-wall side. The EC27 Under Surface Power Unit(s) must be ordered separately, see page 26. This unit is field installed. Length of cord is 10 feet.

Note: Not available on tables with full width bookcases.

Edge Mount Power

Edge Mount Power (EC28) may be ordered for 20" deep units. This unit is field installed. Ordering information can be found on page 26. Length of power cord is 6 feet.

- ships KD
- intended for use against a wall, does not attach to the wall
- exposed hardware on back side
- EC27 undersurface power available, see page 26
- EC28 edge mount power available, see page 26
- optional foot rail available on 42"h table, specify and add \$416 list
- optional coat hooks (two hooks) available on 42"h and 37"h tables, specify and add \$84 list
- vertical kneespace clearance for 42"h panel table - 40 3/4"
- vertical kneespace clearance for 37"h panel table - 35 3/4"
- vertical kneespace clearance for 30"h panel table - 28 3/4"

To Order, Specify:

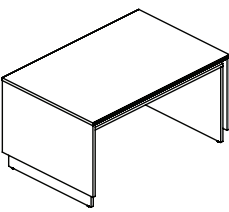

Veneer

- ① Model Number
- ② Worksurface Wood Species - Cherry (CH1), Maple (MA1), Walnut (WA1) or Double Cut (DC1) (see page 2)
- ③ Finish Color (see page 2)

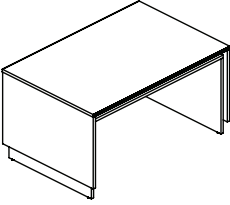

- ④ Panels Species & Finish
 - a.) Same as Worksurface
 - b.) Paint (see page 2)
- ⑤ Other Product Options

Laminate

- ① Model Number
- ② Worksurface Material (see page 3)
 - a.) TFL
 - b.) HPL
- ③ Worksurface Laminate Color (see page 3)
- ④ Panels Laminate Color
 - a.) Same as Worksurface
 - b.) Other Laminate (see page 3)
- ⑤ Other Product Options

Strata Product Information

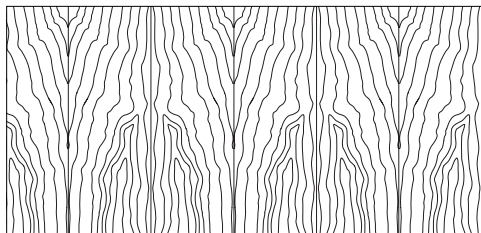

Strata Product Information

Strata Veneer

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Strata Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple and walnut veneers are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

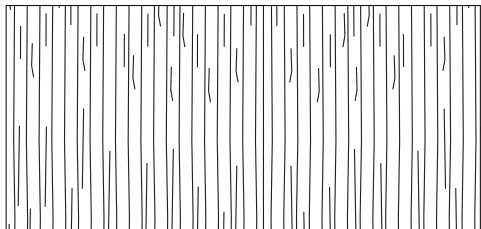

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Strata Veneer is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Strata Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below shows the tight pattern used on Strata Veneer.

Solid painted finishes on MDF are also offered to provide an accent to the Strata product.

Worksurface Construction

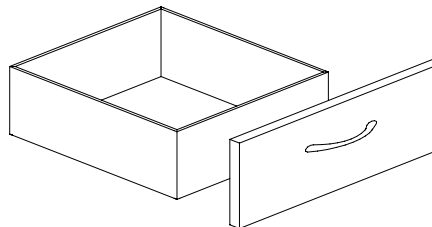

Tops are 5-ply balanced construction, 1 3/8" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

Case Construction

Outside panels are 3/4" and joined together with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Drawers

The unidirectional V-Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The 1/2" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

Desk and return pedestals feature pedestal front locking to provide maximum security and flexibility in configuration.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard. product.

Installation

Installation assistance is available, contact Customer Service for a quote.

Strata Product Information

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Strata. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry Flat Cut Veneer

CHT	Chatroom	TRC	Tricorn Black
FRR	French Roast		

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. **Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. **Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **\$289 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Product Modification

Laminate Tops

Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

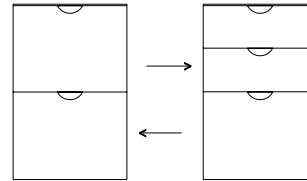

Cherry Finishes Maple Finishes Walnut Finishes

Autumn	Ale	Auburn
Barley	Cinnamon	Mocha
Bourbon	Venetian	Night Owl
Brighton		Sienna
Classic		Toffee
Legacy		Truffle
Praline		
Saffron		

Pedestal Configuration Change

File/File configuration is standard on the reception station.

Strata pedestal drawer configuration can be reconfigured to a Box/Box/File configuration, but must be specified at the time of order; no additional upcharge.

Wood Drawers

Four corner dovetailed wood drawers must be specified at the time of order placement. Specify and add \$200 list per unit.

Strata Product Information

Strata Laminate

Strata Laminate features HPL (high pressure laminate) worksurfaces and TFL (thermally fused laminate) chassis.

Edges of the worksurface are banded with impact resistant (PVC). The laminate is offered in 10 wood grain patterns and 8 solid colors. Wood grain laminates feature an embossed grain that adds texture and helps to hide finger prints and light scratches. The solid color laminates are smooth to the touch with a semi-matte finish. All Strata Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Strata product. Former laminate names are listed in parentheses for reference.

Wood Grain Pattern Laminates

AUT Autumn (<i>Autumn Cherry</i>)	HGL High Line
BLO Blonde Echo	SHE Shea (<i>Nat Maple/Ale finish match</i>)
BBN Bourbon (<i>Natural Cherry</i>)	STU Studio Teak
BZW Brazilwood	WLH Walnut Heights
BRG Brighton (<i>Brighton Cherry</i>)	VIN Vintage (<i>Vintage Cherry</i>)
GRH Graphite	

Solid Laminates

ALB Alabaster	SHD Shadow
BBL Bridal Blanco	SLG Slate Grey
DWH Designer White	TAU Taupe
DOV Dove Grey	

Worksurfaces

Worksurfaces are manufactured with 3-ply balanced construction. Tops are 1 3/16" thick with coordinating PVC edges. Worksurfaces feature 3mm PVC edges on user sides. Edge detail is flat with eased edge on top and bottom. Worksurface ends are banded with 1mm PVC.

HPL Features on Worksurfaces

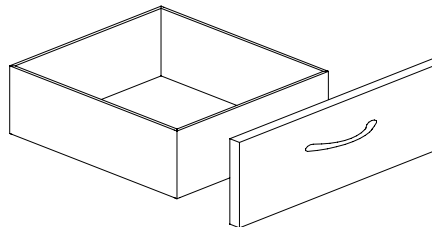

Fusion of multiple layers creates a higher impact resistant surface. Tops are 3-ply balanced construction. Available in all wood grain and solid patterns.

Case Construction

Panels for chassis consist of a 3/4" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out.

Drawers

The unidirectional V-Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The 1/2" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

Desk and return pedestals feature pedestal front locking to provide maximum security and flexibility in configuration.

upper transaction unit can be different than the lower transaction unit

Strata Product Information

Flat Cut Veneer Grain Direction

Grain Direction on the worksurface will be long grain. Grain direction on the return worksurface will be short grain.

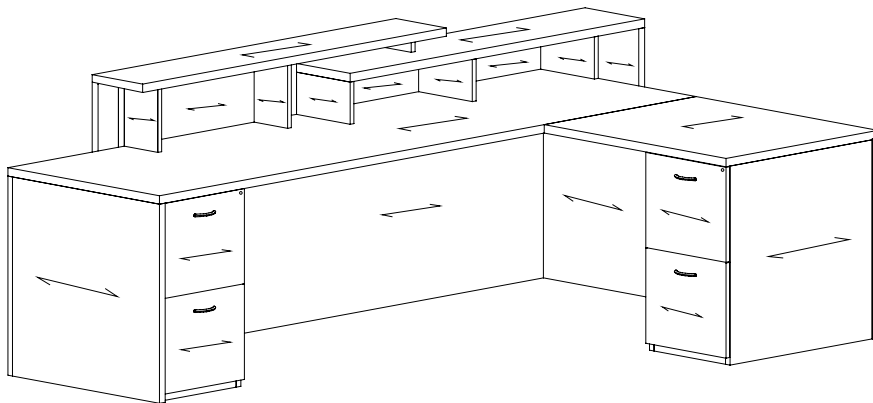

Grain will run vertical on the chassis of the flat grain veneer units. Grain direction for upper and lower transaction units will run same direction as the desk.

Double Cut Veneer Grain Direction

Grain Direction on the worksurface will be long grain. Grain direction on the return worksurface will be short grain.

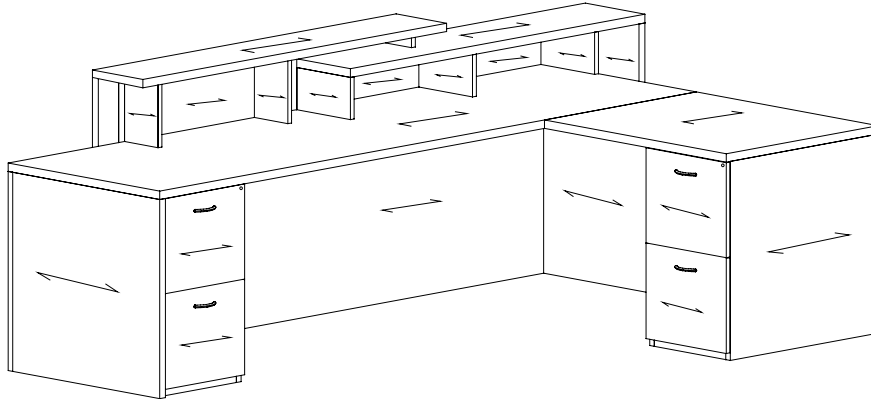

Grain will run horizontal on the chassis of the double cut veneer units. Grain direction for upper and lower transaction units will run same direction as the desk.

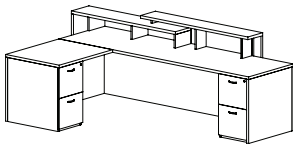

Strata Product Information

Laminate Direction

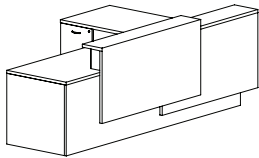

Grain Direction on the worksurface will be long grain. Grain direction on the return worksurface will be short grain on any unit 60" wide or less. Grain will run horizontal on the chassis of the laminate units. Grain direction for upper and lower transaction units will run same direction as the desk.

Description	D	W	H	CTN WT	CU FT	❶ Model	Veneer List Price	Laminate List Price

Specifications

- Molded plywood seat.
- Seat has 2" high density polyurethane foam.
- Knit back conforms to shape of back for optimal comfort.
- Swivel tilt models are standard with tilt, lock, pneumatic lift, tension adjustment.
- Synchro models are standard with synchronized independent seat and back recline, lock, pneumatic lift, tensions adjustment, 6 position.
- Polyurethane base, glass reinforced nylon/5-prong/grip ring caster insertion.
- All models standard with 60 mm dual wheel non-hooded black nylon plastic casters.

Bravado Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Bravado product line. To attain a pleasing, symmetrical pattern, all cherry, maple and walnut veneers are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

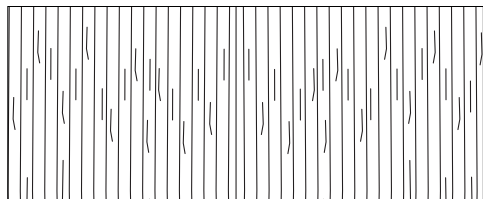

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Bravado is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Bravado product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below shows the tight pattern used on Bravado. Use appropriate pricing column when specifying Double Cut veneer.

Conference Top Construction

Cherry, Maple, Walnut Flat Cut Veneer

Table tops are 1 3/8" thick, 3-ply construction with matching external lumber edgeband on all sides and reverse bevel profile. Grain runs side to side (short grain).

Double Cut Veneer

Table tops are 1 3/8" thick, 3-ply construction with matching veneer edgeband on all sides and reverse bevel profile. Grain runs side to side (short grain).

Optional metal inlay is 1/8" wide and has a minimal (3/32") rise above the top surface.

Conference Base and Stretcher Construction

Table bases feature 3/4" thick 3-ply panels and an aluminum extrusion corner detail. Bases are constructed using mortise and tenon joinery, along with wood cleats and screws. Each base includes adjustable leveling glides. Stretcher panels between bases provide additional support. Stretcher are 13/16" thick hardwood.

Credenza and Media Unit Construction

Tops and chassis components are 3/4" thick 3-ply construction. Panels are joined together using mortise and tenon construction reinforced with wood cleats, metal brackets and screws. Cabinet legs are metal and have adjustable leveling glides. Credenza and media cabinet doors have 110 degree hinges to allow adequate access into the interior of the cabinet. Media wall mounted cabinets use piano-style hinges to allow door to swing open fully.

Drawers

Drawer sides and backs are solid lumber beech 7/16" thick. Drawer fronts are 3-ply construction, 3/4" thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners of the drawer box. Fronts are securely mounted onto the drawer box. Drawer pulls are standard on pedestals. There are two finish options available Matte Black and Anodized Aluminum.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Product Modifications

Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

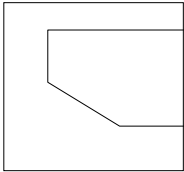

There is a one time charge of \$289 list per order for any non-standard wood finish.

Oak Veneer

Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Optional Metal Inlay

Bravado offers an optional 1/8" w metal inlay available in Arctic Silver (ASL) or Matte Black (MBK), see models for pricing.

Bravado Conference Product Information

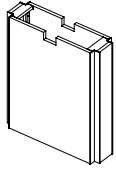

Bases

Panel bases are 7" wide in 18", 24" and 30" depths. Square bases are available in 18", 24" and 30" sizes. All are 28 1/4" high.

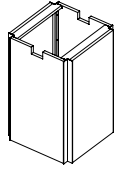

Metal trim on all base corners must be specified in either Arctic Silver (ASL) or Matte Black (MBK).

Leveling glides are set into hardwood blocks, which helps to prevent the leveling glide from tear outs.

Access cut-out is 1 7/8" x 3 1/4".

Panel Base

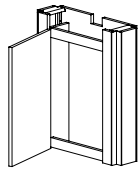

Square Base

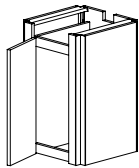

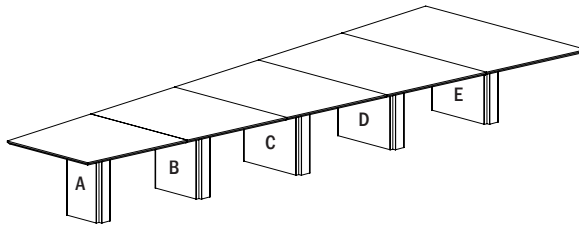

Access Door

Bases can be specified with an optional access door; add \$200 list per base. Option must be specified when placing order. For View tables indicate which base or bases (A-E) are to have the access door on your order. See below diagram(s).

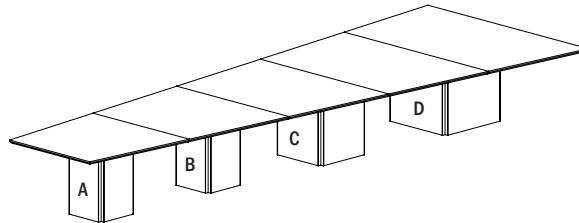

Note: Access door is non-handed.
