Terms and Conditions of Sale

Credit and Payment Terms

Nevers Industries Inc policy does not allow for automatic open account terms for new customers, customers whose account is not current, individuals or residential accounts. *New customers are required to make a deposit for the full value of the merchandise ordered.* A credit application will be sent to each new customer. Credit will be established upon review of the responses given by the customer's references and will appear on future order acknowledgements. New customers are encouraged to begin establishing a credit rating with Nevers Industries Inc prior to placing an order. Our customers are responsible to provide the necessary current and accurate information. *Upon establishment of an open account, terms are Net 30. 1 1/2% per month service charge will be added to all past due accounts.* Accounts that are 90 days past due will be subject to collection proceedings without any additional notice. *Orders will not be processed for past due accounts until the amount due, including any service charges, is paid in full.* Standard product orders exceeding \$50,000 net will require a down payment of 33%. Custom orders will require a down payment of 50% and will not be scheduled for production until the down payment is received. Balance is then due before shipment. *A bank letter of credit may be required for any order over \$50,000 net.*

Prices

Our prices are list, freight prepaid, F.O.B. Maple Grove, Minnesota, and are subject to change without notice. Quoted prices must be accepted within 30 days or re-quoted for date and approval. Freight is prepaid and allowed for normal ground transportation within the 48 contiguous states, must ship to dock location. Air freight, will calls, and special delivery will be quoted and invoiced separately. Prices do not include installation, storage, or sales tax.

Packaging

Nevers Industries Inc pricing includes packing for North American shipment. Whenever possible, Nevers will blanket-wrap your order; otherwise, all products will be packaged. Only environmentally safe packing materials are used. Large furniture pieces will be packed with wood reinforcements for added protection. For special packaging, crating or overseas shipment, please contact our Customer Service Department.

Delivery

Nevers Industries Inc will select the method of shipment, carrier and routing. Carrier selection is solicited to provide the best service to each customer in their particular location. All shipments are sent prepaid, FOB Maple Grove, Minnesota. *Nevers Industries Inc liability ends when the carrier issues a receipt to Nevers Industries Inc. This is an acknowledgement by the transportation company that the shipment has been received by the freight company in good condition and title of the goods and risk of loss transfers to the buyer. The order shall be considered complete. Prepaid freight does not change the F.O.B. status of the product and risks involved in the shipment. We reserve the right to make partial*

shipments. Invoices relevant to the partial shipments are payable as they fall due.

Freight Terms

All orders under \$2,000 net are subject to a minimum order/ additional freight charge of \$200 net; Nevers Industries Inc also reserves the right to establish a freight and fuel surcharge fee to cover variable freight costs. This charge will be established at the time of order and acknowledgement date.

Lead Times

The lead time on an order begins when Nevers' Order Entry Department has verified the validity of the items ordered and has received at our manufacturing facility all COM materials supplied by others. All acknowledgments will contain current lead time information. If for some reason the buyer does not want it early, please list a Do Not Ship before date. We are not responsible for delays in scheduling or failure to make scheduled shipping date due to strikes, lockouts or other labor complications, war, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply or excessive cost of fuel or raw material, delays from suppliers, compliance with Government regulations, or other unforeseen contingencies. When delays in product delivery are caused by the purchaser, we reserve the right to draw up to 100% of the contract price and to charge to the purchaser any costs incurred by us due to such.

Order Acknowledgement

All orders are subject to final acceptance by Nevers Industries, Inc. Receipt of our acknowledgement indicates acceptance of your order subject to the terms and conditions set forth in Our Acknowledgement. If pricing on the purchase order is different than the acknowledged pricing, the acknowledgement will take precedent over the purchase order. Nevers Industries, Inc. attempts to clarify all orders. But in the event of any discrepancy, please notify Nevers Industries Inc immediately. Failure to notify Nevers of a discrepancy within five (5) days will constitute acceptance of the order as acknowledged. All orders are subject to credit approval at any time.

Change Orders

Nevers Industries, Inc. will make every attempt to honor any reasonable change request to standard product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. Nevers Industries, Inc. reserves the right to increase our acknowledged price and ship date if necessary to make the requested changes. Nevers Industries Inc will make every reasonable effort to stop production, scheduling shipments, etc., upon receipt of written notification of changes, cancellations, or deferments of delivery. Nevers will assess charges to the customer for change orders, cancellations, and delivery deferments as stipulated in the following:

Change Orders:

- Received prior to start of production will be charged \$200 net.
- Received after production has started involving design changes or reductions in quantity will not be accepted. The customer will receive the goods as ordered and be liable for the amount due.

Cancellations:

- Received prior to start of production will be assessed a \$500 net cancellation charge.
- Received after production has started will be assessed the total accumulated cost of the project plus a \$500 net cancellation charge.

Deferred Shipments

All merchandise will ship upon completion of production. If customer is unable to take delivery of merchandise when ready for shipment, Nevers Industries, Inc. may transfer the merchandise to storage. All cost for storage and freight will be at customer's expense. Transfer to storage will be considered delivery for all purposes including invoicing and payment. Customer will bear the risk of loss or damage during storage. Deferred shipment charges will be assessed from the completion date in accordance with Nevers policy for Storage by the Manufacturer.

Storage By The Manufacturer

No shipment can be postponed by the customer. Nevers Industries Inc reserves the right to transfer products to storage and issue its invoice for the products at that time. Such transfer to storage shall be deemed delivery to the customer for all purposes. Long term storage over 30 days may be subject to surcharges.

Shipment Claims

Legal title of merchandise passes to the buyer upon acceptance by the carrier. The buyer must inspect all cartons on arrival for visible or concealed damage. In the event of visible freight damage, the buyer must make a notation on the freight bill; immediately notify the carrier for an inspection; and file a freight claim. *Do not sign the receipt until the visual inspection is complete at the time of delivery. If concealed damage is discovered, the carrier must be notified within 15 days. Keep all packaging materials for inspection (do not destroy).* The buyer has the sole obligation of seeking recourse against the carrier. Caution: When a clear receipt is obtained by a carrier, the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damages and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

Returns

All Nevers Industries, Inc. products are made to order. Therefore, merchandise may not be returned without specific consent from Nevers Customer Service Department. Unauthorized returns will be refused by the shipping department.

Miscellaneous

All merchandise shown in our catalog is the property of Nevers Industries Inc. We reserve the sole right to manufacture and distribute it. All patterns, tools, and designs developed for the production of any product will remain the property of Nevers Industries Inc. All published dimensions are approximate and if the exact sizes are critical, we suggest that you request actual measurements. Price list data supersedes all other specifications, whether verbal or written, and may not be altered without the written consent of an officer of Nevers Industries Inc. Typing and clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time without notice. Due to variations beyond our control, all wood and upholstery products are subject to slight variations in color, texture, and grain.

Specifications

Nevers Industries, Inc. reserves the right to change prices, specifications, fabrics, dimensions and finishes at any time without prior notice. This right to change also applies to discontinuing models at any time, catalog contents and price list contents.

Warranty

Nevers Industries, Inc. warrants its products to be free from defects in material and workmanship under normal and reasonable use and service for a period of ten years from the date of shipment to customer. Proprietary supporting products, which are manufactured by others and sold by Nevers Industries, Inc. carry the original manufacturer's warranty. The decision of defects in workmanship or materials or the decision of misuse or abuse remains with Nevers Industries, Inc. No warranties other than those contained herein will be implied and Nevers Industries, Inc. does not authorize any person to create any warranties other than those contained herein.

General Specifications

Wood Veneers

Nevers® products are manufactured primarily of Plain Sliced Mahogany, Black Walnut, White Oak, Cherry and Maple. Other woods may be specified. Please contact Customer Service for price and availability. Mahogany, Walnut, Oak, Cherry and Maple veneer panels are laid up with plain sliced faces and are balanced on back to minimize warping and balance stresses.

Ribbon striped mahogany is available at an upcharge.

Wood Surface Cleaning

Wood furniture should be cleaned with a damp, soft cloth, wiping in the direction of the wood grain. Wood surface should then be dried with a dry, soft cloth. Monthly, wood surfaces should be cleaned with a soft cloth using a quality wood cleaner. Following cleaners directions, slightly dampen soft cloth and wipe in direction of wood grain. Dry the wood surface with a dry, soft cloth. Ammonia or any type of oil should be avoided.

Standard Wood Finishes

Nevers' standard finish is a multi-step process involving dyes, stain, sealer, toner and lacquer. For added protection and durability, the final top coat on all table tops is catalyzed lacquer. All of the finishes have been formulated for maximum clarity to enhance the natural characteristics of each particular wood species. Standard finish is open pore. Semi-filled and filled finishes require an upcharge and may extend the lead time. Please contact Customer Service for price and delivery date.

For other wood species, contact Customer Service for special pricing and availability.

Oak – Natural, Medium, Dark, Ebony on Oak

Walnut – American, Dark, Mahogany on Walnut,
Presidential, Espresso

Mahogany – Light, Brown, Dark

Cherry – Natural, Amber, Brown, Medium, Dark,
Espresso, Cinnamon

Maple – Natural, Golden, Copper, Autumn, Ebony, Honey

Ash – Natural, Cocoa

Ribbon Stripe Mahogany available at upcharge,
contact Customer Service.

Custom Wood Stains and Finishes

Nevers offers the capability of matching your custom stains or finishes. Virtually any wood finish or color sample can be matched to your specifications. A finish sample or stain sample is required from the customer before the process of matching approval can begin. The upcharge for custom finishes varies with the type of finish and also with the quantity ordered. Please contact Customer Service for pricing. For custom stain match – any order under \$5000 list there is a \$270 net upcharge.

Note: COLOR VARIATION WILL OCCUR IN THE GRAIN OF ALL WOOD SPECIES.

This is an inherent characteristic caused by the annual growth rings found in all hardwoods and the manner in which the boards and veneers are cut across these growth rings. In some species, this color variation is very subtle. In other species this color variation is obvious and at times radical.

The process of finishing hardwood veneers determines whether these variations are enhanced or subdued. Natural finishes will show color variations in the grain and enhance the beauty of the wood to its fullest extent. Other stains and finishes tend to blend in these variations to some extent dependent upon the depth of color and the particular method of application.

Standard Laminates

Laminate panels are laid up with Wilsonart® standard grade high pressure laminate with an equalized back to minimize warping and to balance stresses. Any laminate from the Wilsonart® General Purpose Series is standard. All Wilsonart® laminates with matte/textured finish (–60) are standard.

Custom Laminates

Any commercially available laminate may be specified. Most custom laminate orders may extend the standard delivery date. Most non standard Wilsonart® laminate is \$270 net per order per color. Call Customer Service to confirm pricing.

Standard Board Fabrics

WallWorks™ Presentation Boards and Metal Frame Tackboards come standard in Shadow. Visual Boards and Fabric Tackboards are available as standard with C.F. Stinson – Pattern “Mira” series fabric. Quick Ship fabric colors are Shadow or Dune. If no color selected, Shadow is shipped.

Standard Color Coats

Color Coat is available to match all standard Wilsonart® solid colored laminates.

Custom Sizes

Nevers has the capability to manufacture any piece in the product line to your size specifications. Please contact Customer Service for pricing and availability.

Power/Voice/Data (PVD) Channel Features and Benefits

INTRODUCTION

Nevers Power/Voice/Data (PVD) system is a unique power and communications channel design that eliminates all the time consuming ordering and specifying information that is required by other manufacturers. The Nevers PVD Channel provides the ultimate in simplicity and flexibility for the specifier, the electrician and the AV installer.

What makes the Nevers' PVD system unique in its simplicity and flexibility for the specifier is **there is no need to provide details for each connection when placing your table order**. This avoids the delays in product shipments that some manufacturers experience and also avoids the need for you to call the voice/data suppliers for size specifications that other manufacturers require of you. The PVD Channel system is the finest in the industry today and is available only from Nevers.

FEATURES & BENEFITS

PVD Channel

The Nevers PVD Channel is a flat bottom V design that accommodates electrical power connections on one side and voice/data connections on the other side. The metal channel has punched cut outs into which Nevers pre-installs the required components. Because this is a channel system, there is ample room for storage of power cords within the channel. This eliminates the interference of cords laying across the table top that is associated with flush mount or pop up connectors.

Electrical Power

On the electrical power side of the PVD Channel, Nevers pre-installs power blocks into each cut out. All that is required on installation is for the electrician to snap the supplied duplexes into the power blocks and to plug the supplied jumper cables together. Connect the power in-feed and the electrical installation is done.

Voice/Data

On the Voice/Data side of the PVD Channel, Nevers pre-installs Decora-type face plates. Each face plate contains 2 openings for acceptance of voice/data jack adapters. For each opening we send an adapter kit that contains adapters in three different sizes. All that is required on installation is for the AV installer to select the proper size adapter and snap it into the face plate opening. It is now ready to accept the voice/data jacks of the selected supplier.

If an opening is not used, the kit also contains snap-in blank covers for a clean, finished look. For high density sub D connections (an example of this is LCD projectors) the kit also contains 1 adapter per table. This installs by simply removing the installed face plate and snapping in the high density sub D adapter face plate.

PVD Channel Installation

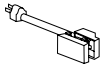

The Nevers PVD Channel attaches to the metal frame that connects the table bases together. This allows all electrical, voice/data and audio visual connections to be completed before the table top is installed. The installers are able to complete their work with free and clear access to the PVD Channel and all components without having to work under the table.

Custom PVD Channels & Installations

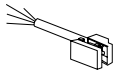

Due to the growing number of installations for sophisticated video presentation rooms and video conferencing rooms, Nevers has become very adept at working with AV consultants and with Pro-AV Dealers in developing custom solutions for power/voice/data and for audio visual connections. You can be assured that when specifying & ordering Nevers' products, we will work closely with all project team members to make sure our mutual customers receive the best in customer service and that all of their requirements will be met. If you do not have a Pro-AV Dealer with whom you are currently working, Nevers can supply you with the names of our Pro-AV Dealer partners.

Power In-Feed

Power in-feed brings electricity from the building's power source through the table base and plugs into either end of the PVD channel. Nevers offers two types of power in-feed.

Single Circuit Plug In - Activates only Circuit I and plugs into a standard 120-v/20-Amp outlet. The maximum quantity of duplexes that Nevers ships per circuit is 8.

Multi Circuit Hardwire - Activates all four circuits and has a 6' Liquid Tight conduit. This must be installed by a certified electrician.

The Multi Circuit Hardwire electrical system is an 8 wire 4 circuit modular system. It is listed as a manufacturers wiring

system under UL standard 183. The system can be hard-wired in both single and three phase configurations 120/240V and 120/208V respectively. Circuit I, II, and III share a neutral and a ground. Circuit IV is isolated and dedicated. Always check local codes for restrictions.

Delivery of the electrical power from the floor to the table is provided directly through any base leg or through the panel base.

While it is not required of you to specify the number of duplexes for each circuit, you may certainly do so if the installation requires this. Simply list on the order the quantity of duplexes required for Circuits I, II and III and the quantity of duplexes required for dedicated isolated Circuit IV. If you have any questions regarding Power/Voice/Data, please call our customer service department at 1.800.242.2443.

See the following pages for the base location guide and for the quantity of electrical outlets and voice/data outlets that are supplied per table.

Base Location Guide

Base Location Guide Eventi Articulating Tables

All wire management for the Articulating Tables is handled through the fixed end base. The base footplate is 24" diameter and the centerpoint of the base is located 24" from the end of the table. On Articulating Tables with fixed Boat end the base centerpoint is located 24" from the end of the table.

Base Location Guide Eventi Modular Tables

Wire management for the Modular Tables is handled through any of the round top bases. The base footplate is 24" diameter and is centered on the 36" diameter round top.

Base Location Guide Eventi Conference Tables

Table Size	Number of Bases	1st Base	2nd Base	3rd Base	4th Base	5th Base	6th Base	7th Base	8th Base
8	2	24	72						
10	3	24	60	96					
12	3	24	72	120					
14	4	24	60	108	144				
16	4	24	72	120	168				
18	5	24	60	108	156	192			
20	5	24	72	120	168	216

Eventi Collection Features and Benefits

INTRODUCTION

The Power to Change. That is the reason Nevers created the Eventi Collection. Our mutual customers' new requirements today are for Meeting, Conference and Training rooms that are designed for productivity. That means—multipurpose, cross functional, movable and equipped to handle today's technology for power/voice/data and audio visual. The Eventi Collection is designed to accommodate all the functions that are required of today's productive meeting rooms.

Eventi by Nevers also has The Power to Change the way a room is perceived. Every business has its own culture and requirements for the perception it wishes to project, both internally and externally. With the Eventi Collection, design and budget needn't be conflicting interests in Meeting Room planning. The multi-tiered Eventi line makes beautiful, functional and cohesive design possible throughout the workplace, with varying degrees of design emphasis made where necessary. One line of furniture, with levels that fit every need and use—from Corporate functions, to Executive presentation, to General conference to Small Meeting room—Eventi covers it all.

Eventi by Nevers was created to be customized. This allows you The Power to Change sizes, color, shapes and materials—and so does Eventi. With Eventi you can choose from a wide range of materials and surfaces. Eventi's unique design was created for unlimited customization options. Choose from wood, glass, metal, stone, leather and more—offering an incredible array of design versatility.

FEATURES & BENEFITS

Eventi Articulating Tables

Eventi Articulating Tables are designed to transform any room for any function. One end of the table is fixed. The side extensions are attached to this end with a pivot and the bases are on casters. The hidden metal subframe and pivot allow the side extensions to easily roll and arc outward into the extended position. The Articulating Table transforms from solid table, to open presentation space, to multimedia viewing. A room with an Eventi Articulating table is not simply a boardroom, a conference room, a meeting room or a training room. It can be, and is—any or all—of those rooms.

Eventi Modular Tables

Eventi Modular Tables are a semi-fixed grouping of tables designed to accommodate larger meetings where the primary focus is board members, teams or round-table type discussions. Though the Modular Tables are designed primarily for semi-fixed applications, they can be easily reconfigured occasionally for any function such as executive training, video conferencing, multimedia viewing. Eventi Modular Tables are also easily specified for other primary configurations. The configurations of Triangle, U-Shape and Diamond as shown on the pricing pages are not meant to limit your design imagination, but rather to be used as a starting point.

Eventi Conference Tables

Eventi Conference Tables exclusive modular design was created not only to make a progressive statement but to also compliment today's architectural designs and the materials being used. The segmented design of the Eventi Conference Table tops allows unlimited combinations of wood, metal, glass, stone and more. The plateau is part of the edge detail, and because it is finished in colorcoat, adds an additional design element on its own. The hidden metal chassis is steel tubing that connects the segmented tops and the bases together into a complete, solid table. Combine this with the multiple base choices and the various shapes and sizes, and you have the flexibility to complement and enhance any of today's building designs.

Eventi Due' Tables

With the addition of Eventi Due' Tables, design and budget are no longer conflicting interests in Meeting Room planning. All the basic design elements that define Eventi have been carried into the Due' Tables—multiple bases, edge details, wood and color choices. The functional elements have also been maintained—executive conference, video conference, multi media presentation, training. Eventi Due' Tables are designed with standard (non-segmented) table tops. Optional design details of plateau and inlay allow you to maintain cohesive design throughout the workplace. The Small Meeting Room Tables use the same base components scaled to a T-leg configuration. Eventi and Eventi Due'—one line of furniture with levels that fit every need and use.

Eventi Visual Products & Casegoods

Visual Products and Casegoods complete the productivity requirements of today's Meeting, Conference, and Training rooms. From the seemingly insignificant stocking of proper meeting room supplies, to interactive writing boards, to full-wall multimedia presentation cabinets, Eventi handles all the details that create a dynamic, productive meeting room environment.

MEETING CUSTOMER REQUIREMENTS (MCR)

As the complexities of Meeting Rooms grow and the lines between private workspace and meeting space continue to blur, the importance of determining customer requirements prior to specifying meeting room furnishings cannot be overstated. For over 25 years Nevers business has been only in conference and meeting rooms—and furnishing those rooms to meet the customers requirements for productivity. No one can do this better than Nevers. Other manufacturers give you hundreds of pages of product details to sort through, that's fine, we have them too. But because of our years of experience, we are also able to help you at a much higher level, that is, supplying you with the proper tools for clearly defining today's more complex requirements for meeting rooms. Having clearly defined, written customer requirements allows you to write knowledgeable, safe specifications using product solutions that are best for the customer.

You can be assured that when specifying & ordering Nevers' products, we will work closely with all project team members to make sure our mutual customers receive the best in customer service and that all of their requirements will be met.

Build Your Own Eventi Conference Tables

Build Your Own EVENTI™ Quote Request

"Build Your Own Eventi™" was created for your unique design specifications. Please specify the following information regarding table top, power/data, and bases. **Material and color choices can be found on page 3.** To assist in choosing your options, copy both pages, fill out the form and fax it to our Customer Service Department at 800.258.5591 for a 24 hour quote response.

Rectangle/Arc Rectangle/Racetrack Fixed Conference Tables

Please Specify:

Indicate specifications below:

1. Table Top

- A. Shape..... ☐ Rectangle ☐ Arc Rectangle ☐ Racetrack
B. Width..... ☐ 48" wide ☐ 60" wide
C. Length..... Length - available in 6" increments: _____
D. Material and Color for Ends ☐ Wood ☐ Stone ☐ Glass Color: _____
E. Material and Color for Middle Sections..... ☐ Wood ☐ Stone ☐ Glass Color: _____
F. Plateau Color ☐ Silver Fog ☐ Shadow Grey

2. Power and Voice/Data..... ☐ None ☐ Single Circuit ☐ Multi Circuit (Number of power outlets and voice data modules automatically determined by table length)

3. Table Bases

Bases for Ends

- A. Base Type ☐ Leg ☐ Panel
B. Base Color ☐ Platinum ☐ Shadow Grey
C. Material & Color for Optional Panel Insert ☐ Wood Color: _____

Bases for Middle Sections

- D. Base Type ☐ Leg ☐ Panel
E. Base Color ☐ Platinum ☐ Shadow Grey
F. Material & Color for Optional Panel Insert ☐ Wood Color: _____

*Functional Seating Capacity based on a usable work surface width of 30".

** Each Technology Center has capacity for up to 6 voice, data or av connectors.

***Two Circuits required.

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities

12"l x 6"w

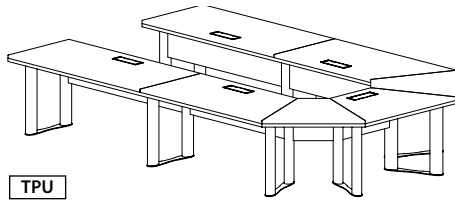

Please note – location drawing required*

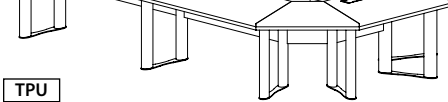

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price	How To Order
R/PV5/AA	7	2	\$974	See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required, maximum 12 per circuit. For additional assistance in specifying/ordering Technology Centers, please contact customer service at 800.242.2443.

*Functional Seating Capacity based on a usable work surface width of 30".

**Two Circuits required.

Pre-Configured Meeting Link™ is an easy to specify system of Technology Centers preconfigured to a specific table size. Each Technology Center houses two Electrical Outlets and three Universal Data Plates. The data plates are easily removed to allow for insertion of up to 6 voice, data or AV connectors per Technology Center. The channel also has a Kensington lock attachment capability.

The Technology Centers are mounted under the table top and are ganged to allow for a single source in-feed of the electrical, voice, data and av connections. The electrical in-feed may be specified as either hard wired or soft cord plug in.

Technology Centers for Customizing Meeting Link™ Capacities

12"l x 6"w

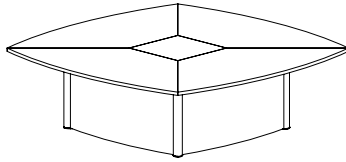

Please note – location drawing required*

Model Number	Voice Data and AV Port Capacity	Electrical Outlets	Price	How To Order
R/PV5/AA	7	2	\$974	See above

*When ordering Customized Meeting Link™, a drawing of the table top with the location of each Technology Center is required. If ordering multiple Technology Centers for 1 table, specify on drawing if ganging is required, maximum 12 per circuit. For additional assistance in specifying/ordering Technology Centers, please contact customer service at 800.242.2443.

Eventi Dué Tables

With the addition of Eventi Dué Tables, design and budget are no longer conflicting interests in Meeting Room planning. All the basic design elements that define Eventi have been carried into the Dué Tables—multiple bases, edge details, wood and color choices. The functional elements have also been maintained—executive conference, video conference, multi media presentation, training. Eventi Dué Tables are designed with standard (non-segmented) table tops. Optional design details of plateau and inlay allow you to maintain cohesive design throughout the workplace. The Small Meeting Room Tables use the same base components scaled to a T-leg configuration. Eventi and Eventi Dué—one line of furniture with levels that fit every need and use.

4. Unit is UL and CSA listed
5. 2" grommet - round E/GRM \$119

Visual Board and Conference Room Casegoods General Features

Visual Boards

Eventi Visual Board veneer doors are 3-ply construction and are balanced on back to minimize warping and to balance natural stresses. Face veneers are Nevers Custom "A" grade and are laid up to Nevers custom specifications for book match and center match. This is done to assure design balance.

Doors are framed with 3/16" x 1-1/4" solid hardwood in a Nevers custom hardwood specification. This creates a finished design look inside the doors with a wood frame that trims the fabric tackboard panels. A fully enclosed, pull down projection screen is included as standard with all Eventi Visual Boards.

PORCELAIN ON STEEL WRITING SURFACES

The writing surface on Eventi Visual Boards is the highest performing surface that is available. It is porcelain on steel and is the only surface that is guaranteed to not chip, ghost or scratch for the life of the product. This writing surface can also be used occasionally as a projection surface with a minimum of glare or 'hot spots.' This allows for notes or markups to be done on projected images.

CLEANING

The only requirement for maintaining the porcelain writing surface is to periodically clean with Expo White Board cleaner. If at any time, you notice any ghosting, it is time to clean the surface. Replace the felt erasers when they no longer erase cleanly or you notice excess residue from the dry-erase pens.

Conference Room Casegoods

Eventi credenzas and other casegoods veneer panels are 3-ply construction and are balanced on back to minimize warping and to balance natural stresses. Face veneers are Nevers Custom "A" grade and are laid up to Nevers custom specifications for book match and center match. This is done to assure design balance.

OPTIONAL GLASS TOPS

Glass tops are 1 cm (3/8") tempered glass and are etched on the bottom side.

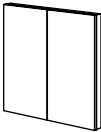

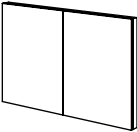

OPTIONAL STONE TOPS

Stone tops are 2 cm (3/4") Dupont Zodiaq with a 93% quartz content.

GLASS DOORS

Glass doors are 5mm tempered glass and are etched on the back. Door frame is aluminum.

Visual Boards

	Size	Model Number	Delivered Price
	w x h 48" x 48"	E/VIS/EL/04848	\$3,175
	72" x 48"	E/VIS/EL/07248	4,102

Price includes projection screen. Fabric Tackboard is Shadow. Any C.F. Stinson - Pattern "Mira" series may be ordered.
