MISSION STATEMENT

Protect & Enhance Lives

We design, produce and deliver the highest quality protective solutions in the world.

We accomplish this by driving innovation, continuously improving our quality management system and exceeding customer expectations.

PARACLETE®

PROVEN UNDER FIRE®

ABOUT US

PARACLETE® is committed to developing, manufacturing and delivering the most advanced tactical body armor and other protective solutions. Our products are world-renowned for their specialized designs and extreme adaptability in form, fit and function. PARACLETE® continues to break new ground in developing technologically advanced, mission-specific equipment by not only working closely with members of the law enforcement, special operations and military communities, but also by adapting their needs to meet tomorrow's emerging threats.

As hostile conditions continue to intensify globally, PARACLETE® will continuously drive the development of next-generation, tactical body-armor systems while rapidly responding to the needs of our customers. Our products are thoroughly field tested to exacting requirements and consistently surpass industry standards. Never standing still, PARACLETE® is leading the charge against emerging threats and ensuring unparalleled ballistic performance for those who serve to protect society.

Since the value of body armor has become so clear in light of today's hostile conditions, our engineering team and ballistic specialists take extraordinary measures in ensuring that our armor is consistent with the needs of our customers.

We continuously monitor the law enforcement and corrections communities to assess the potential of new street and institutional threats. Once a new product is available, our highly trained technical support specialists routinely perform live-fire shoot demonstrations nationwide. These events allow law enforcement officials and our distributors an opportunity to experience the exceptional performance of our ballistic systems first-hand.

PROVEN UNDER FIRE®

- **EXCEEDS NIJ.06 TESTING REQUIREMENTS**
- **SURPASSES INDUSTRY STANDARDS**
- **PROTECTS BEYOND YOUR EXPECTATIONS**

Protecting your community starts with equipping yourself with body armor that not only meets the highest level of protection but also exceeds your expectations for lightweight comfort and performance. At PARACLETE®, we're constantly pushing the limits in ballistic technology.

As part of Point Blank Enterprises' family of brands, we currently have more NIJ .06 certified products than any other ballistics company in the industry with a key emphasis of providing our customers with lighter, more flexible body armor systems with greater ballistic capabilities. More officers trust the PARACLETE® brand because when it comes to meeting your needs for life protecting technology, expectations can never be too high.

*Exceeds NIJ, DEA and FBI Testing Requirements
** Exceeds New FBI 4.1 Requirements

Inside our world-class Point Blank Technology and Testing Center, a state-of-the-art ballistic laboratory allows us to continuously develop maximum-performance products which consistently exceed National Institute of Justice (NIJ), U.S. Military, Government (DEA and FBI) and International testing requirements. The Center also includes a dedicated R&D Garment Design Department that designs cutting-edge tactical carriers and a host of tactical accessories with the highest level of ergonomic fit and finish. This combination of ballistic expertise and garment design provides a seamless culmination of the most advanced body armor systems that are unparalleled in ballistic protection and comfort.

At PARACLETE®, we know the complex and ever changing threats law enforcement, federal and corrections officers face each day and intrinsically understand your needs for optimum ballistic protection. We strive to produce systems that combines maximum comfort and mobility with split-second adaptability. We are excited to offer you the latest advancements in ballistic technology and more options according to your required threat level and specifications for weight and performance.

born from science.

proven by the elite.

ALPHA ELITE®**First Among The Finest**

Battle-tested by the military elite and now available for law-enforcement professionals, the Alpha Elite® Series doesn't just surpass previous levels of performance and comfort.

The model of choice by law enforcement in America today.**A Revelation: Dyneema®****Force Multiplier Technology by DSM**

The Alpha Elite® Series is the first body armor to be based on Dyneema® Force Multiplier Technology by DSM. It breaks new ground in polymer science and ballistic technology. DSM Dyneema started with Dyneema®, the world's strongest fiber, and made it even stronger. In its unique unidirectional construction, it results in body armor weighing just .63 pounds per square foot (NIJ Level II) achieving a new low in weight and a new high in flexible, all-day comfort. But there's much more to the Alpha Elite® story:

- Created for – and combat-proven by – elite U.S. special-operations forces
- Multi-hit and special-threat performance that exceeds FBI protocol
- Available in concealable and tactical configurations
- NIJ Standard 0101.06 certified

FEEL THE LIGHT.**ALPHA ELITE
BLACK®****One of the World's Lightest Level IIIA Body Armor, Even Lighter**

When Point Blank introduced the revolutionary Alpha Elite® Series, we set a new low, creating the lightest body armor in history. Now we've done it again. The new Alpha Elite® Black is even lighter than our original Alpha Elite®, weighing a mere .79 psf. And with the latest generation of Dyneema® Force Multiplier Technology by DSM, a Point Blank exclusive, it offers a combination of light weight and protection previously unknown to ballistic science—with 9mm V50s greater than 2,000fps!

Contact us today to learn more. And get ready to Feel The Light.

TACTICAL BODY ARMOR

KEY FEATURES

Ultra Strong Nylon Outershell Construction

The outershell construction of each PARACLETE® tactical carrier is comprised of an exceptionally strong and lightweight fabric. Constructed of 500 denier Cordura® Durable Water Repellant (DWR) outershell, this material resists tears and punctures and is highly abrasion resistant.

Armor Protection Enhancement System

Designed for the active assaulter, PARACLETE® tactical vests provide optimal scalability. Each vest can accommodate Level II or IIIA ballistic collar, throat, biceps and groin protection which are essential in high risk situations. Ergonomically shaped to contour to the body, these additional protective enhancement components provide maximum protection while offering greater maneuverability.

MOLLE Compatible Webbing System

PARACLETE® tactical carriers feature heavy-duty, nylon stitched, load bearing webbing which provides quick and secure attachment of various MOLLE-compatible pouches and accessories — in just about any location on the vest. This interchangeable system offers convenient customization according to your individual requirements, while giving you the opportunity to utilize other magazine pouches and issue gear.

ARMORVENT™

Featuring EVAP™ Technology

ARMORVENT® mitigates the negative effects of wearing body armor for sustained periods of time while improving the operational effectiveness and comfort for operators. EVAP™ Technology, ergonomic design and patent-pending air channel ventilation pattern delivers continuous comfort, regardless of temperature operational environment or duration of operation.

FEATURES

Evaporation of sweat

Convective airflow rapidly evaporates and removes sweat to keep you drier.

Pulls heat away from skin

Conducts heat away from the skin and stores it on the armor carrier surface.

Moisture vapor transport

Ventilated, pressurized serpentine surface structure creates natural vertical pathways.

Ultra comfort

Compression of air chambers provides improved ergonomics between torso and armor.

Odor-control

Keeping the armor carrier drier prevents the growth of microbes and bacteria.

Passive technology

No chemicals, no batteries, no vehicle air conditioning —Your body fuels performance.

Seamless integration

Compatible with all body armor carriers.

All seasons

Not a hot weather only product — Works year round to keep you drier and more comfortable.

Police Officer Feedback

The ARMORVENT® panels have been a big hit here at MPD. They fit well, are comfortable and very functional. All the patrol personnel, bike officers and SWAT operators who are using them enjoy them and especially enjoy how they assist in keeping them cooler in the summer, reduce heat rash and regulate their body temperature regardless of the weather. The product is an excellent one.

Sgt. Shawn Harper
SRO/SWAT/Bike Patrol Unit
Meridian Police Department

INTEGRATED

System is integrated into the carrier.

RETROFIT KIT

System can be added to carriers with hook tape.

Ventilation & Evaporation Performance

- Inflated, symmetrical serpentine pattern creates a heat sink device that enables more efficient conduction/convection.
- Wide, vertical air channels promote air volume and air movement between you and your armor — Acts as a diaphragm pushing/pulling air during normal locomotion / body movements.
- Over 100 ventilation holes creates increased moisture vapor transport — in turn, creating better evaporative performance.

TACTICAL BODY ARMOR

ARMORVENT

Laser Cut

PARACLETE® now offers a patented, ultra-lightweight, laser-cut fabric for select tactical carriers which has the highest rip-stop and strength performance of any competing fabric on a weight-by-weight and thickness basis. This high performance material breaks new ground in composite fabrics. Engineered to withstand extreme environmental conditions while providing lightweight comfort for extended wear, our laser-cut fabric is ideally suited for tactical operations. Combining the latest carrier designs with advanced fabric technology results in the development of tactical armor systems, unparalleled in adaptability, functionality, and performance.

FEATURES

One of the lightest weight laser-cut materials available

- Best strength to weight ratio
- On average, PARACLETE® Laser Cut carriers are 15%-20% lighter and Laser Cut pouches are 25%-30% lighter weight compared to other traditional materials
- Ultra-thin fabric flexes without losing strength and replaces MOLLE webbing without sacrificing durability

Highly durable and exceptionally strong

- 3 times more puncture resistant and 5 times greater abrasion resistant than traditional CORDURA® carriers
- Maintains the same strength as traditional MOLLE webbing without added weight
- Holds maximum load bearing equipment pouches without sagging

Performs in demanding environments

- Unparalleled water resistance
- Compare to 50% water absorption for traditional MOLLE Webbing making PARACLETE® Laser cut carriers and pouches extraordinarily resistant to wet environments
- Withstands extreme fluctuations in temperatures

ARMIS

GEN II

FEATURES

- Ergonomic carrier shape offers optimum protective coverage while maintaining maximum maneuverability (Front, Back, and Sides)
- Can be easily changed to non-release or adapted for right or left handed release
- Available with WARSOC™ H3 Buckle system for easy donning and doffing (Optional)
- Exceptionally strong and durable outershell construction
- Integrated torso mesh padding system placed within Tweave lining improves airflow and breathability
- Raised air channel padding with Durable Water Repellent (DWR) inner material
- Padded shoulder strapping system provides adjustability and load bearing support
- Ambidextrous cable channel openings on the chest
- Hidden wire routing channels
- Release system only requires pull cable and cummerbund adaptor
- Internal cummerbund helps stabilize the vest and provides a secure fit (kit)
- Sleeves inside each External Cummerbund accommodates ballistic inserts
- Removable Front Flaps to secure the External Cummerbund
- Kangaroo pocket on Front Flap includes 3 rifle magazine inserts
- Heavy duty, reinforced "man down" strap
- External, bottom loading, hard armor plate pocket in the front and rear
- Plate pocket per carrier size:
Small: 8" x 10", Medium – 3XL: 10" x 12"
- MOLLE Compatible Webbing Attachment System
- High Visibility, Removable 3" x 9" ID Panels in the front and back
- Bottom grommets for drainage

TACTICAL BODY ARMOR

ARMIS

ALPHA-1

The revolutionary Alpha-1 tactical armor system offers high-performance ballistic protection integrated in a fully functional and scalable design to meet the strategic needs of your specific mission. With split-second precision, the Alpha-1 vest can immediately be released in two quick movements without the use of hardware or cables. It also provides multiple points of adjustability for greater comfort and maximum freedom of movement. This gives it the versatility to adapt to any condition.

FEATURES

- Selective Point Release System (SPRS) allows you to select the exact location the vest releases
- Multiple points of release reduce the risk of accidental full release under dangerous conditions
- Single, center-point ballistic suspension
- Hidden cable-routing openings
- Internal cummerbund for enhanced stabilization
- Bungee external cummerbund stabilizer
- Ballistic Insertable cummerbunds
- Adjustable-plate height strap
- Protective channels for internal cummerbund
- VELCRO® attachment area for Collar Protector and Throat Protector
- Built-in, over-shoulder ballistic protection
- Release/Non-release throat and collar
- All accessories have the ability to insert ballistics
- Shoulder strapping system offers adjustability
- Removable front flap features Kangaroo pouch that accommodates three AR15/M16 mag inserts
- Front and back, bottom-loading plate pocket accepts 8" x 10" or 10" x 12" hard-armor plates and ESAPI

Standard Base Vest

ALPHA-1

RMV-II

GEN II

The Releasable Modular Vest (RMV) provides optimum protective coverage and extreme versatility in fit while allowing maximum freedom of movement. Ruggedly durable and designed to be highly adaptive, the RMV is incredibly modular in construction and offers the ideal combination of form, fit and function.

FEATURES

- Accommodates SPEAR / BALCS ballistics
- Durable 500 denier Cordura® outershell construction
- Internal side pockets accommodate 6" x 6" plates
- Patented single point release system that includes a low profile cutaway handle and integrated wire management system
- Internal, bottom-loading hard armor plate pockets in the front and back for additional protection
- 2-piece, releasable and adjustable cummerbund system
- Front flap includes kangaroo pouch that holds three 30 round AR15/M16 mags
- High visibility, removable identification in the front, back and biceps
- Maximum MOLLE Compatible Webbing System
- Removable collar and throat protection (Optional)
- Ergonomically shaped bicep protector (Optional)
- Groin protector with webbing to accommodate additional accessories (Optional)
- Lower back protection (Optional)
- Accommodates ESAPI hard armor plates 8" x 10" and 10" x 12" hard armor plates

SUPER HORNET

Specifically developed to enhance mobility and provide maximum load bearing capabilities, the Super Hornet can adapt to any tactical mission with split-second precision. Easy to don and doff and incredibly durable in its construction, the Super Hornet offers the ultimate combination of protection, functionality and performance.

FEATURES

- 2-point emergency release system
- Full ballistic coverage
- Scalable carrier design accommodates additional collar, throat, biceps, and groin protection
- MOLLE compatible webbing system
- Universal front and back plate pockets accommodate 8" x 10", 10" x 12" and ESAPI hard armor plates
- Front abdominal flap secures external cummerbund; features kangaroo pouch
- Adjustable shoulder strapping system
- Tweave comfort inner surface
- Emergency extraction drag strap
- Multi-Cummerbund system

APC

GEN II

Designed to allow the operator to gain immediate protection against high powered assault weapons, the Advanced Plate Carrier (APC) takes performance to new levels. Blending the functionality of a tactical vest with the simplicity of a plate carrier, the APC accommodates soft ballistic panels, Level III or IV hard armor plates and equipment pouches.

FEATURES

- Patented single point release system that includes a low profile cutaway handle and integrated wire management system
- External, bottom loading hard armor plate pockets in the front and back for additional protection
- Accepts soft armor inserts
- Adjustable 2-piece cummerbund system
- Internal "belly band" provides additional adjustability
- Removable front flap secures cummerbund and accommodates kangaroo pouch with removable mag inserts
- Reinforced rescue strap
- Ballistic Collar, Throat, Biceps, Abdomen, Lower Back and Groin Protection (Optional)
- High abrasion inner material
- Admin pouch
- High visibility ID panels in the front and back
- Name Plaque on Front and Back bodies
- Configurable as release and non-release
- Adjustable Shoulder Straps
- Cable routing
- Push-to-talk / Chest rig attach webbing
- 3 Pull cable positions (Center standard, Left or right optional)
- Able to fit MBAV cut ballistics (Optional)
- Side plate pockets can be ordered separately
- Accommodates standard 10" x 12" hard armor plates and ESAPI

SOHPC

The SOHPC is PARACLETE's latest hard plate carrier. It has been innovatively designed to provide unmatched comfort, protection and flexibility to meet the needs of every mission. Through the addition of an adjustable cummerbund and optional side plate pouches for hard armor plates, the SOHPC is the operator's choice for today's missions.

FEATURES

- Extra durable, 500 denier Cordura construction
- MOLLE compatible webbing throughout the vest
- Adjustable two point shoulder strapping system with rear quick release buckles
- Bottom loading front and back hard armor plate pockets accommodates 10" x 12" or ESAPI plates
- External cummerbund system accommodates soft ballistic inserts
- Foam padded trap protector available with soft ballistic inserts (Optional)
- Ballistic backer inserts for hard armor plate pockets (Optional)
- 3 Mag pouch included in the front flap
- High visibility ID panels in the front and back
- Rear drag handle
- Removable front flap secures cummerbund and accommodates kangaroo pouch with removable mag inserts
- Internal Buckle waist strap

WARSOC™ H3 BUCKLES

TACTICAL BODY ARMOR

SOHPC

TACTICAL ACCESSORIES

Enhance operational readiness and mission capabilities with our cutting edge tactical equipment. We deliver superior products that enhance the safety and performance of law enforcement, military and corrections professionals.

TACTICAL HELMETS

Constructed of high performing and lightweight aramid fibers in a composite matrix, our helmets provide solid protection against handgun bullets (9mm and .44 Magnum) and fragments. Our highly innovative helmet designs incorporate the latest bullet-resistant safety standards, customized sizing, ergonomic comfort, and technical functionality, developed specifically for law enforcement and military operations.

INTRODUCING ARCH

ADVANCED RIOT CONTROL HELMET

WARSOC™ H3 BUCKLE Available as an optional upgrade.

Our exclusive WARSOC™ H3 (Warrior Special Operation Carrier) Buckle System is specially engineered for tactical body armor and plate carriers. It utilizes a patented, slim "H" shape with a unique locking mechanism which allows an operator to secure his vest while providing a faster deployment option. Easy to operate, the WARSOC™ H3 buckles are available via cummerbund or integrated into specific tactical carriers. This system alleviates the conventional front cummerbund flap typically available on standard tactical vests. The operator can permanently leave the front panel pouches loaded with gear and doff the vest in seconds without moving any equipment. It's fast, easy and highly effective.

HARD ARMOR

Engineered to meet the unique needs of the first responder, we offer a variety of hard armor plates ranging in construction from ceramic/aramid to ultra-lightweight polyethylene. Offered in NIJ Level III, III+, IV or Level III/IV In-Conjunction with Level IIIA, these plates provide superior protection from high velocity rounds. Available in different sizes, shapes and curvature options, our hard armor plates can meet the needs of any mission in the most extreme operating environments.

ENHANCE OPERATIONAL READINESS AND MISSION CAPABILITIES WITH OUR TACTICAL ACCESSORIES

BALLISTIC SHIELDS

Ground breaking in design and unparalleled in functionality, maneuverability and overall performance, PARACLETE® offers a full line of ballistic shields available in different sizes, shapes and threat levels. Specially designed to provide greater agility for handgun deployment the Hoplite, Aspis, Aspix X, Bellator, Phalanx and Trifecta X Shields provide multiple design features and offer exceptional protection against a variety of special threats.

PACKS AND POUCHES

Our extensive line of load bearing packs and pouches are unparalleled in craftsmanship and superior in construction. Made of 100 % Nylon Cordura® DWR, this high-tenacity material defies the rigors of daily use while providing maximum tear and abrasion resistance. Increase functionality, reduce fatigue and improve efficiency by placing load bearing equipment (radios, handcuffs, magazines, etc.) in Paraclete's MOLLE- compatible or laser cut pouches. PARACLETE® pouches are designed to optimize longevity, durability, weight and comfort, while ensuring equipment stability under the most severe conditions.

BATONS

Our complete line of batons are exceptionally durable and comfortable to carry and operate. The ergonomic design makes each model easy to access, open, control and retain due to the special grip options offered. Several different design configurations are available including a three-stage telescopic collapsible baton, alpha-lock baton, side handle baton, and straight batons in a variety of sizes that are engineered to meet your performance requirements.

TACTICAL ACCESSORIES

CHEST RIG

For instant access to essential gear, the PARACLETE® Chest Rig allows an operator to quickly don over existing body armor and deploy equipment with split second precision. The chest rig can accommodate a variety of pouches to hold pistol/rifle mags, med kit and a variety of emergency items. The PARACLETE® Chest rig is simple to use, convenient for any assignment and highly adaptive according to your specific needs.

FEATURES

- One size fit most Chest rig
- 4 points of adjustment in shoulder straps
- Adjustable back strap
- Shoulder straps can be positioned narrow, regular, or wide fit
- Shoulders have split buckle connection holes
- Adjustable and removable shoulder pads
- Can be worn stand alone with yoke
- Can be worn via MOLLE attachment to the vest
- Can be worn with quick detach buckles

PYLON BELT

Improve weight distribution while minimizing fatigue by adding the PARACLETE® Pylon Belt to tactical vests. The Pylon Belt is a dynamic load dispersal structure that works by redistributing the weight from the shoulders to the pelvic area. It works with the vertebrae to facilitate torsional flex and compression. Ergonomically designed to contour to the body, the Pylon Belt not only improves the comfort of the vest, it also allows the operator to load additional equipment, as needed.

BALLISTIC BLANKET

Our Ballistic Blankets are manufactured from high-strength, lightweight ballistic fabrics which are designed to provide a protective barrier against (Level IIIA) ammunition.

FEATURES

- Constructed of 1000 denier Cordura® outershell
- Abrasion and water resistant
- 6 heavy-duty, nylon carry handles

SIZES

- 32" x 72"
- 36" x 72"
- 48" x 72"

Special sizes available upon request.

GOSHIELD®

FEATURES

- Total 40 inches in length
- Soft ballistic panels allow shield to unroll and provide instant protection. (Separate storage bag included)
- Upper flap unrolls and suspends from vehicle door, boat rail, or support for breaching
- Front plate pocket for use with 10" x 12" stand alone certified hard armor plates in Level III or IV (Hard armor plate not included)
- Easy access long pockets for housing of rods
- Rigid rods provide framing reinforcement of shield
- Return-to-Center mechanism for maintaining upper rod placement when shooting hands-free
- Elastic tension for long rod pockets for securing rods in an active environment
- Rigid rubber upper handle for maintaining grip integrity
- Lower strap handle allows for two handle application
- Multiple D-rings and fasteners to attach the sling
- Sling permits hands-free shooting with pistol
- Several points of attachment for slings enables cross-point or backpack style carry
- MOLLE Compatible webbing allows for adjustments of slings and shield height
- Folding positions to 30" or 25" allows for use in confined spaces
- Bottom loading flap for ballistic panel insertion
- Optional extra shoulder strap

BALLISTIC BLANKET

TACTICAL ACCESSORIES

GOSHIELD®

BELLATOR

The Bellator Shield is specially designed to meet the demanding needs of high-risk tactical teams. Providing greater vertical protective coverage and a dynamic shape for long gun deployment, the Bellator offers the perfect combination of protection and performance.

LEVEL IIIA+

PHALANX

The Phalanx is considered the most agile Level IIIA+ shield for hand gun and long gun deployment. A wide, trapezoid shaped viewport provides excellent viewing capabilities while the mounted platform on each side allows the operator to position their weapon for optimum firing position.

LEVEL IIIA+

FEATURES

- Level IIIA+ protection
- Federal Standard NIJ-STD
- Accurate long-gun deployment
- Ballistic Material - Hybrid composite
- Polyurea coating for enhanced durability and longevity
- 24" x 36" with viewport weighs only 14.40 lbs.
- Lightweight 24" x 40" with viewport weighs only 16.10 lbs.
- Mitigates ricochets when deployed on the ground
- Unique VELCRO® forearm strap attachment system
- Thick high density foam pad 11" x 7" x 1.5"
- Silhouette shape provides firearms deployment on both shoulders
- Better peripheral view
- Stationary handle

Special Threats Rounds Tested:

- 9mm Fiocchi, 115-grain FMJ projectiles.
- 9mm, 124-grain full metal jacketed (FMJ) projectiles.
- .357 SIG 115-grain jacketed hollow point (JHP) projectiles.
- .357 SIG 125-grain gold dot hollow point (GDHP) projectiles.
- 44-mag., 240-grain semi-wadcutter gas checked (SWCGC) projectiles
- 9mm +P+, 127-grain supreme expansion technology (SXT) projectiles.
- 5.7 x 28mm 27-grain SS195 lead free hollow point (LFHP) projectiles.
- 5.7 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles.
- 7.62 x 25mm, 95-grain TOKAREV FMJ projectiles.
- .40 cal., 95-grain Aguila projectiles

- Best agile performing shield for handgun and rifle deployment
- Wider ballistic protection at top
- V-shape added strength to the entire center length of the shield
- Weapon mount platform on both sides
- Better view at 12 o'clock and conversely when held inverted 6 o'clock position
- Mitigates ricochets and diverts away from center
- Unique VELCRO® forearm strap attachment system
- Thick high density foam pad
- Accurate handgun and long-gun deployment
- Stationary handle

Special Threats Rounds Tested:

- Level IIIA+ 44mag, 240-grain Semi-wadcutter Gas Checked (SWCGC) projectiles.
- 9mm, 124 grain Full Metal Jacketed (FMJ) projectiles.
- .357 SIG 115 grain Jacketed Hollow Point (JHP) projectiles.
- .357 SIG 125 grain Gold Dot Hollow Point (GDHP) projectiles.
- 9mm +P+, 127 grain Supreme Expansion Technology (SXT) projectiles.
- 5.72 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles.
- 5.7 x 28mm 27grain SS195 Lead free Hollow Point (LFHP) projectiles.
- 7.62 x 25-mm, 95grain TOKAREV FMJ projectiles.
- 9mm Fiocchi, 115 grain FMJ projectiles.
- .40 cal., 95 grain Aguila projectiles

Outside

Inside

OPTIONS

- With or Without View Port
- LED light with strobe (450 lumens)
- Transport Bag

Technical Specifications:

- Federal Standard NIJ-STD
- View port (Trapezoid Shape)
- Ballistic material - hybrid composite
- Must come w/ 3 components: Handle, foam pad, and forearm strap system

Standard Phalanx Model

PHALANX

TACTICAL ACCESSORIES

HOPLITE

Designed for immediate active shooter response, this exceptionally lightweight shield provides the ultimate combination of high performance protection, optimal functionality and usability.

LEVEL IIIA

ASPIS

The ASPIS Shield is ideal for quick deployment in tight quarters. Exceptionally lightweight, this high performing Level IIIA+ shield delivers optimal protective coverage with enhanced maneuverability for left or right handed operators.

LEVEL IIIA+

FEATURES

- Tested to Federal Standard NIJ-STD-0108.01 Level IIIA
- Shield construction available in flat or curved shape
- Designed for maximum defensive capability
- Durable Polyurea coating
- Unique Forearm Strap attachment system
- Weight of the shield system w/ optional features does not exceed 19 lbs.
- Shield body thickness is .3"
- Reinforced Bolt system for added protection

OPTIONS

- 900 lumens Light kit
- Viewport – Constructed of 1" thick polycarbonate that provides a viewable area while maintaining Level IIIA protection
- Flat viewport has a viewable area of 8" x 2.75"
- Curved viewport has a viewable area of 12" x 3"

Flat

Curved

| Description | Weight (lbs.) |
|-------------------------|---------------|
| 20X30 FLAT | 9.8 lbs. |
| 20X30 FLAT W/VP | 13.1 lbs. |
| 20X30 FLAT W/VP, W/LT | 15.1 lbs. |
| 20X30 CURVED | 9.9 lbs. |
| 20X30 CURVED W/VP | 13.3 lbs. |
| 20X30 CURVED W/VP, W/LT | 15 lbs. |
| 24X36 FLAT | 13.5 lbs. |
| 24X36 FLAT W/VP | 15.6 lbs. |
| 24X36 FLAT W/VP, W/LT | 17.6 lbs. |
| 24X36 CURVED | 14.6 lbs. |
| 24X36 CURVED W/VP | 16.5 lbs. |
| 24X36 CURVED W/VP, W/LT | 18.22 lbs. |

FEATURES

- Level IIIA+ protection
- Federal Standard NIJ-STD
- Accurate long-gun deployment
- Ballistic Material – Hybrid composite
- Polyurea coating for enhanced durability and longevity
- 20" x 30" with lights weighs only 15.75 lbs.
- 20" x 30" without lights weighs only 14.00 lbs.
- 20" x 30" without viewport weighs only 11.50 lbs.
- Mitigates ricochets when deployed on the ground
- Unique VELCRO® forearm strap attachment system
- Thick high density foam pad 7"x7"x 1.5"
- Silhouette shape provides firearms deployment on both shoulders
- Better peripheral view
- Stationary handle

Technical Specifications:

- Federal Standard NIJ-STD
- Ballistic Material – Hybrid composite
- Must come with 3 components:
 - Handle, Foam Pad and Forearm strap system
- View Port – (Trapezoid Shape)

Special Threats Rounds Tested:

- 9mm Fiocchi, 115-grain (FMJ) projectiles
- 9mm, 124-grain full metal jacketed (FMJ) projectiles
- .357 SIG 115-grain jacketed hollow point (JHP) projectiles
- .357 SIG 125-grain gold dot hollow point (GDHP) projectiles
- 44-mag., 240-grain semi-wadcutter gas checked (SWCGC) projectiles
- 9mm +P+, 127-grain supreme expansion technology (SXT) projectiles
- 5.7 x 28mm 27-grain SS195 lead free hollow point (LFHP) projectiles
- 5.7 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles
- 7.62 x 25mm, 95-grain TOKAREV (FMJ) projectiles
- .40 cal., 95-grain Aguila projectiles

OPTIONS

- With or Without View Port
- LED light with strobe (450 lumens)
- Transport Bag

All models, data and specifications are subject to modification by manufacturer without notice.

ASPIS X

Exceptionally lightweight at only 17lbs, the ASPIS X Shield provides superior maneuverability for handgun and long gun deployment. Available in Level III protection, the ASPIS X delivers high performance protection and optimal functionality.

LEVEL III

TRIFECTA X

This high-performance shield has been both internally and externally validated to ballistic performance levels that meet the requirements—NIJ Level III plus.

LEVEL III+

FEATURES

- Lightweight (20" x 30" standard class) weighs only 17 lbs
- Best agile performing shield for handgun deployment
- 3" x 9" Reinforced Viewport
- Weapon Mount System (WMS)
- Two shooting platforms for accurate handgun and long-gun deployment
- 3 important components offered on the interior of the shield
- Stationary handle
 - Thick high density foam pad
 - Unique VELCRO® forearm strap attachment system

Special Threats Rounds Tested:

- 7.62 x 39-mm, 123-grain PS Ball
- 7.62 x 51mm 149gr M80
- 5.56 x 45-mm, 55-grain M193 Ball

Weights:

- With Light with Viewport: 17.9 lbs.
- With Light without Viewport: 13 lbs.
- Without Light with Viewport: 17 lbs.
- Without Light without Viewport: 12 lbs.

Technical Specifications:

- Federal Standard NIJ-0108.01
- Ballistic Material - Hybrid composite
- Weight of the shield not to exceed 18 lbs
- View Port Reinforced on all edges for added protection
- Must come w/ 3 components: Handle, Foam Pad, and Forearm strap system
- Reinforced Bolt System for added protection
- Recessed Viewport to provide additional protection against Abrasive contact

OPTIONS

- With or Without View Port
- LED light with strobe (900 lumens)
- Transport Bag

Outside

Inside

ASPIS X

FEATURES

- Level III+ Protection
- Components offered on the interior of the shield:
 - Stationary handle
 - Thick high density foam pad
 - Unique hook/loop fastener forearm strap attachment system

Special Threats Rounds Tested:

- 7.62 x 51-mm, 149-grain M80 FMJ
- 7.62 x 39-mm, 123-grain PS Ball
- 5.56 x 45-mm, 62-grain M855
- 5.56 x 45-mm, 62 grain Tactical Bonded

Technical Specifications:

- Federal Standard NIJ-STD-0108.01
- Level III Compliant
- Ballistic Material - Hybrid Composite
- Size is 21" x 36"
- Weight with Viewport and light is less than 35 lbs.
- Viewport - 3" x 9"

OPTIONS

- With or Without View Port
- LED light with strobe
- Transport Bag

HARD ARMOR PLATES

SPEED PLATE

SPEED plates are the ultimate in lightweight armor protection against special threat rounds. Designed to be worn in the chest pocket of our vests, SPEED plates are ultra thin and weigh only two pounds or less. These SPEED plates feature 100% polyethylene construction.

Special Threats Rounds Tested:

- Winchester 9mm 127gr SXT
- SPEER .357 Sig 125gr
- FN 5.7 x 28 (SS195)
- Aguila .40 S&W 95gr
- Tokarev 7.62 25 85gr
- Corbon .357 Sig 115gr
- Remington .30 caliber carbine

Threats Defeated When Tested ICW NIJ Certified IIIA Armor

- Winchester 12ga 1oz slug

| Size | Weight lbs. | Thickness inches |

| 11x14 | 2.00 | 0.35 |

HARD ARMOR PLATES

SPEED PLATE PLUS

Engineered to protect against high energy bullets, our SPEED Plate Plus is ultra-light, multi-hit protective inserts that consistently delivers exceptional ballistic performance against a wide-range of "special threats" bullets. As a Stand-Alone plate, it provides additional stopping power along with a high degree of trauma reduction, equaling unparalleled ballistic protection.

- Designed specifically with the patrol officer and first responder in mind to provide advanced rifle threat protection with their existing vest system.
- Stand -Alone Multi-Hit rifle threat protection in an ultra thin, light-weight package.
- Designed specifically to defeat the most common rifle threats found on the street today (AR15/AK47)
- Multiple shapes and sizes to easily upgrade your current trauma plate protection.
- The Speed Plate PLUS takes armor protection to the next level.

Testing Standard:

Multi-Hit / Special Threat Testing:

- 5.56mm x 45mm 55gr Ball (M193)
- 5.56mm x 45mm 62gr Ball (M855)
- 7.62mm x 39mm 123gr PS Ball (Mild Steel Core)

Protection Type / Level: Special (Rifle)
Configuration: Stand-Alone
Curvature: Multi-Curve
Construction: Uni-Directional Polyethylene and Ceramic

TACTICAL ACCESSORIES

HARD ARMOR PLATES

HARD ARMOR PLATES

We offer several types of Hard Armor Plates capable of defeating high-powered Level III & IV rifle rounds either in combination with soft body armor systems or as a stand-alone. These plates are available in a choice of two shapes (full-size or shooter's cut), designed to meet your individual needs for comfort and function. Additional options include the choice of ultra-light polyethylene or ceramic plates which will affect weight and thinness.

*All weights are approximate

Model 10260 – NIJ 0101.06 Level III Stand Alone Plate

Average V50: 3130 fps
Sizes Available: 10"x12" Shooter's Cut or 10"x12" Full Size Cut
Curvature: Multi Curve
Construction: Ultra high molecular weight polyethylene
Thickness: 1"
Weight for 10" x 12": Shooter's Cut is 3.0 lbs.
Full-Size Cut is 3.2 lbs.
Weight for 8" x 10": Shooter's Cut is 2.1 lbs.
Full-Size Cut is 2.3 lbs.

Also available in 5"x7", 6"x6" and 6"x8"

BALLISTIC PERFORMANCE

Average V50: 3130 fps
Rounds defeated:
• 7.62mm x 51mm (M80)
• 5.56mm x 45mm (M193)

Model 20260 – NIJ 0101.06 Level III+ Stand Alone Plate

Sizes Available: 8" x 10", 10"x12"
Curvature: Multi-Curve (8"x10" and 10"x12")
Construction: Polyethylene and Ceramic Thickness: 1.25"

| | | |
|-----------------|---------------|----------|
| 8" x 10" | Shooter's Cut | 3.5 lbs. |
| 8" x 10" | Full Size | 3.8 lbs. |
| 10" x 12" | Shooter's Cut | 5.0 lbs. |
| 10" x 12" | Full Size | 6.0 lbs. |
| 7.25" x 11.5" | SAPI/ESAPI | 3.6 lbs. |
| 8.75" x 11.75" | SAPI/ESAPI | 4.5 lbs. |
| 9.5" x 12.5" | SAPI/ESAPI | 5.2 lbs. |
| 10.25" x 13.25" | SAPI/ESAPI | 6.1 lbs. |
| 11" x 14" | SAPI/ESAPI | 6.9 lbs. |

Also available in 5"x7", 6"x6" and 6"x8"

BALLISTIC PERFORMANCE

Average V50: 3456 fps
Rounds defeated:
• 5.56mm x 45mm (M855 / SS109)
• 7.62mm x 39mm (PS Ball / MSC)
• 7.62mm x 51mm (M80)
• 5.56mm X 45mm (M193)
• 7.62mm x 54Rmm (LPS)

Model 30260 – NIJ 0101.06 Level III Stand Alone Plate

Sizes Available: 6" x 6", 6" x 8", 8" x 10", 10"x12"
Curvature: Multi-Curve
Construction: Polyethylene
Thickness: 1.05"

| Sizes | | *Weight |
|-----------|---------------|----------|
| 6" x 6" | Full Size | 0.8 lbs. |
| 6" x 8" | Full Size | 1.0 lbs. |
| 8" x 10" | Shooter's Cut | 1.6 lbs. |
| 8" x 10" | Full Size | 1.7 lbs. |
| 10" x 12" | Shooter's Cut | 2.3 lbs. |
| 10" x 12" | Full Size | 2.7 lbs. |

BALLISTIC PERFORMANCE

Average V50: 3513 fps
Round defeated:
• 7.62mm x 51mm (M80)
• 7.62mm x 39mm (PS Ball/MSC)
• 5.56mm X 45mm (M193)

HARD ARMOR PLATES

555 Steel Plates – NIJ 0101.06 Level III Stand Alone Plate

Curvature: Single Curve
Construction: Steel
Thickness: 0.38"

| Sizes | | *Weight |
|-----------|---------------|------------|
| 5" x 8" | Full-Size Cut | 2.80 lbs. |
| 6" x 6" | Full-Size Cut | 2.65 lbs. |
| 7" x 9" | Full-Size Cut | 4.50 lbs. |
| 8" x 10" | Shooter's Cut | 5.60 lbs. |
| 8" x 10" | Full-Size Cut | 5.70 lbs. |
| 10" x 12" | Shooter's Cut | 7.85 lbs. |
| 10" x 12" | Swimmer's Cut | 7.65 lbs. |
| 10" x 12" | Full-Size Cut | 8.69 lbs. |
| 11" x 14" | Shooter's Cut | 10.66 lbs. |
| 11" x 14" | Swimmer's Cut | 10.43 lbs. |

BALLISTIC PERFORMANCE

Rounds defeated:
• 5.56mm x 45mm (M193)
• 5.56mm x 45mm (M855 / SS109)
• 7.62mm x 51mm (M80)
• 7.62mm x 39mm (123 gr. Steel Core)

Model 10051 – NIJ 0101.06 Level III/IV Stand Alone Plate

Sizes Available: 6" x 6", 8" x 10" and 10" x 12" Shooter's Cut and Full Size Cut
Curvature: Triple Curve
Construction: Ultra high molecular weight polyethylene and ceramic
Thickness: 1.3"

| Sizes | | *Weight |
|-----------|---------------|----------|
| 6" x 6" | Full-Size Cut | 2.4 lbs. |
| 6" x 8" | Full-Size Cut | 3.2 lbs. |
| 8" x 10" | Full-Size Cut | 5.3 lbs. |
| 8" x 10" | Shooter's Cut | 5.0 lbs. |
| 10" x 12" | Full-Size Cut | 8.4 lbs. |
| 10" x 12" | Shooter's Cut | 7.1 lbs. |

BALLISTIC PERFORMANCE

Average V50: 3446 fps
Rounds defeated:
• 5.56mm x 45mm (M855 / SS109)
• 5.56mm x 45mm (M855A1)
• 7.62mm X 39mm (API B2)
• 7.62mm x 51mm (M61)
• 7.62mm x 54Rmm (API B32)
• .30-06-cal., 166 grain M2AP

HARD ARMOR PLATES

Model 10046 – Level III/IV Plate in-Conjunction with Level IIIA Soft Armor

NIJ 0101.06 III/IV in conjunction with IIIA Soft Armor

Size: 10" x 12"

Curvature: Triple Curve

Construction: Alumina Ceramic / Aramid

*Weight: 10046-01 Shooter's Cut: 7.1 lbs.

10046-04 Rectangular Cut: 7.5 lbs.

Thickness 1.2"

BALLISTIC PERFORMANCE

Average V50 (Level III ICW IIIA): 3586 fps

Average V50 (Level IV ICW IIIA): 3080 fps

Rounds defeated:

- 7.62mm x 51mm (M80)
- 7.62mm x 39mm PS Ball/MSB
- 7.62mm x 39mm (API/BZ)
- 5.56mm x 45mm (M855)
- .30-06-cal, 166-grain M2AP

PARACLETE TACTICAL HELMET

Manufactured to meet stringent quality standards, the PARACLETE® Tactical helmet delivers the level of ballistic and impact head protection demanded for tough tactical operations. The helmet is made of aramid materials and built in the ACH shape. Helmets are available in a full range of cuts (full, mid and high), sizes (small to x-large) and colors (black, foliage green, olive green and tan). They come standard with 0.75" liner pads and 4-point harness with nape pad.

VIPER P2 Specifications:

*BALLISTIC PERFORMANCE:

- STANAG 2920
- Exceeds 2460 ft/s (750 m/s), 1.1 g (17 gr) FSP
- STANAG 2920 64 gr RCC Exceeds 1804 ft/s (550 m/s)
- 9mm FMJ RTP Multi-hit (5 impact exceeds 1400 ft/s (427 m/s))
- Stops NIJ IIIA level threats Weight**
- Full System – 1215 grams – Size Medium
- Hybridized layer construction with an Ultra-high-molecular-weight polyethylene (UHMWPE) ballistic core
- Low-profile design
- Designed for comfort
- Compatibility with NVGs, Chem/Bio Masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F

*Additional ballistic data and 3rd party test reports are available upon request. Tested in accordance with ACH, CO/PD 05-04. **Includes full cut helmet, modular suspension system and hardware.

- 3 cut styles provide variable coverage options
- 4-point integrated harness with unique buckle system
- Low profile ballistic bolts
- Dial Ratchet Mechanism adjusts the fit band – a simple one handed operation
- Infinitely adjustable while on the move
- Height adjustable nape pad to ensure superior NVG stability
- Adjustable crown net for sweat wicking, comfort and low pressure for extended use Impact Liner
- Low profile impact material does not contact the head in normal operation
- Provides a free flow of air to aid in cooling
- Exceeds U.S. Army ACH impact standards
- Tested with multiple hits and across all temperature ranges

Mid Cut

Full Cut

PCH-MIL Specifications:

- Significantly exceeds 2200 ft/s (670 m/s), 1.1 g (17 gr) FSP
- Exceeds all U.S. Army Standards for Fragmentation, Resistance to Penetration and Backface Transient Deformation
- Stops NIJ IIIA level threats

**Weight:

- Full Cut System – 1369 grams (Size Medium)

Shell Geometry and Construction:

- Low-profile design
- Designed for comfort
- Compatible with NVGs, Chem/Bio Masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F (-40°C to 70°C)
- 3 cut styles provide variable coverage options

Suspension / Liner System:

- Includes a 3/4" ACH Pad, designed to meet the blunt force trauma reduction requirements of the U.S. Army
- Movable comfort pads provide impact protection
- Provides superior comfort by distributing the helmet's weight evenly
- Meets all the chemical-resistant tests required by the U.S. Army
- Lightweight, sweat-wicking material resists moisture buildup

Retention System:

- 4-point attachment system with supportive neck pad
- Easily adjusted for a comfortable fit

ARCH ADVANCED RIOT CONTROL HELMET

FEATURES

- Material: Acrylonitrile butadiene styrene (ABS) plastic
- Colors: Black
- Polycarbonate with rubber seal (spill proof)
- Interior Liner: removable foam liner
- NIJ complaint quick release buckles
- Detachable .150" (3.8mm) thick face shield with liquid seal prevents liquid from seeping into officer's eyes
- Molded lip on top edge of face shield to prevent shield from closing over integral visor and striking the wearer's face
- Powder coated aluminum Face Guard for maximum strength and safety
- Snap-on nape pad with Kydex® penetration shield, shock absorbent foam pads and chemical-resistant black
- Cordura® cover

ACCESSORIES

Face Shields – Standard, Grid and Gas Mask

RETENTION SYSTEM

- 4-point attachment system with supportive neck pad allows for additional comfort and helps stabilize the helmet with the face shield in all positions
- Easily adjusted for a comfortable fit
- Picatinny attachment on both sides allows for placement of light and body camera leaving hands free for weapons (Light and Camera not included)
- Nape curtain attachment

PERFORMANCE

- Meet or exceeds NIJ Standard for Blunt Trauma for Riot Helmets – NIJ-STD-0104.02

*The U.S. Department of Transportation Standard, D.O.T. FMVSS218, establishes performance requirements for helmets designed for use by motorcyclists. This helmet is not intended for vehicular use.

TACTICAL ACCESSORIES

TACTICAL ACCESSORIES

HELMETS

HELMET ACCESSORIES

7 Pad Liner System Pad Liner System 0.5" Thickness

Movable sweat-wicking comfort pads provide impact protection and superior comfort by distributing the helmet's weight evenly. The 7-Pad Liner System includes 1 circular crown pad, 2 trapezoidal pads, and 4 oblong pads which are available in various thicknesses.

Retention System

Easily adjustable 4-point attachment system provides optimal retention and fit. Retention System includes nape pad, adjustable tensioners on straps, chin cut and buckle. The system accommodates small, medium, large and extra-large helmets. Available in Black, Olive Green, Foliage Green and Tan

Helmet Bag

Helmet storage bag composed of durable, water resistant fabric with drawstring opening and a personalized name tag.

Modular Suspension System

The Modular Suspension System (MSS) is comprised of an impact liner, dial fit band, comfort pad system and retention system. The impact liner is made of low profile impact material and exceeds U.S. Army ACH impact standard. An adjustable crown net allows for sweat wicking and comfort. It suspends the helmet shell on the wearer's head, meaning the impact liner does not come into contact with the head, providing a free flow of air for cooling benefits. The system accommodates small, medium, large and extra-large helmets. Available in Black and Tan.

HELMET ACCESSORIES

Precision Basic, Full, Mid, and High Cut Helmet Cover

Full cut helmet cover includes elastic drawstring and 4 hook and loop tabs that allow the cover to stay securely in place on helmet. The system accommodates small, medium, large and extra large helmets. Available in Black, Multi-cam and ACU.

Precision Fit Enhanced Helmet Cover

Precision Fit Enhanced Helmet Cover for Full and High Cut helmets includes elastic drawstring and 4 hook and loop tabs that allow the cover to stay securely in place on helmet, elastic accessory loops and hook and loop for attaching patches, counterweights, etc. The system accommodates small, medium, large and extra-large helmets. Available in Black, Multi-cam and ACU.

Precision Fit Premium Helmet Cover

Precision Fit Premium Helmet Cover for Full and High Cut helmets includes elastic drawstring and 4 hook and loop tabs that allow the cover to stay securely in place on helmet, elastic accessory loops and hook and loop for attaching patches, counterweights, mesh covering for increased camouflaging and cable runs to reduce snagging. The system accommodates small, medium, large and extra-large helmets. Available in Black, Multi-cam and ACU.

Interlocking and Stand-Alone Long Rails

Interlocking and Stand-alone Long Rails offer a system upgrade enabling quick and easy head borne accessory attachment. Offering the ability to tailor the helmet depending on the mission at hand, the rail system allows for cameras, lights, and other accessories to be outfitted. The rails have multiple entry points and accept widely used rail bases, such as the Desert Locust Goggle swivel clip, picatinny and winged rail bases. Interlocking Long Rails seamlessly integrate with the Front Mount and can be used simultaneously with the visor and mandible guards; Standalone Long Rails work with commonly used NVG mounts.

Three Position Visor

Engineered for superior performance, the visor provides optimum high-impact protection, flawless optics and maximum field-of-view. Designed for quick donning and doffing, it is scratch, fog and chemical resistant

Visor / Mandible Guard Storage Case

Visor-Mandible Guard Storage Case is made of durable Cordura fabric with a brushed nylon inner lining to protect visor lens and elastic strap wraps to retain mandible guard. Available in Black and Multi-cam

Mandible Guards

Offering lightweight blunt force protection for lower jaw in a durable, low-profile design. Mandible Guards attach to the Front Mount, minimizing training while enabling rapid attachment and removal of the system. Mandible and Visor are compatible with red dot sighting systems.

NVG Shock Cord

NVG Shock Cord is made of durable bungee material. It includes two clips and split rings which offers supplemental retention support of NVG device to the Front mount and stabilizes NVG and reduces rattling of device during use.

BATONS

ALPHA-LOCK

The Alpha Locking Baton offers an increased diameter construction for more effective street performance. It has a higher kinetic energy potential and greater feeling of balance in the hand.

Features:

- The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing
- Closes with a push of a button - no need to strike the baton on the ground
- Increased diameter compared to the standard Auto-Locking baton
- Rotating shafts help maintain control of the baton during a struggle
- Open passively or in a high-profile manner

21" Expandable Automatic Locking Baton

Product Details

- Open - 21"
- Closed - 8.750"
- Handle Diameter - 1.085"
- Middle Tube Diameter - 0.755"
- Small Tube Diameter - 0.550"
- Material - 4130 Seamless Steel
- Finish - Black Chrome
- Weight - 23.2 oz.

FRICTION LOCK

The Friction Lock Baton is a durable three-stage telescopic collapsible baton. It has an adjustable retention clip within a barrel bore guide, which eliminates clip breakage during closing. This baton is comfortable to carry and easy to open with a flick of the wrist.

Features:

- Basic Foam Grip - for a more traditional feel, a sure grip, and cushioning against shock
- Super-Grip - a fluted surface texture that enhances control and retention
- Safety Tip - crafted of urethane that allows passive drawing of the baton, useful for turning a suspect's pockets inside out without the risk of injury from needles, knives, or other sharp objects

21" Friction Lock

Foam Grip

- Finish - Black Chrome
- Open - 21"
- Closed - 8.750"
- Handle Diameter - 1.085"
- Middle Tube Diameter - 0.755"

- Handle Diameter - 1.085"
- Middle Tube Diameter - 0.755"
- Small Tube Diameter - 0.550"
- Material - Steel 4130

ELITE SIDE HANDLE

This control baton has been engineered with safety in mind. The design has been field tested and has been found to be highly effective for blocking, controlling, and striking.

Features:

- The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing
- Closes with a push of a button - no need to strike the baton on the ground
- Increased diameter compared to the standard Auto-Locking baton
- Open passively or in a high-profile manner
- Rotating shafts help maintain control of the baton during a struggle

21" Side Handle Expandable Baton

Product Details

- OD Frame - 1"
- Shaft - 0.6875"
- Open - 21"
- Closed - 13"
- Finish - Black Hardcoat Anodized Coating
- Material - 6061 Aluminum 7075 Aluminum Shaft

BATONS

NYLON STRAIGHT BATON

This durable baton is made of a weather resistant material that will not crack or peel. In addition, it is strong, lightweight, and affordable. It can be used with all standard baton techniques, tactics, and training programs.

| Model | Length Closed | Diameter | Grip |
|--------------------------|---------------|-------------|-----------------|
| 24" Riot Baton | 24" (60.96cm) | 1" (2.54cm) | Nylon Foam |
| 26" Riot Baton | 26" (66.04cm) | 1" (2.54cm) | Nylon Foam |

PROTECTIVE EYEWEAR

sawfly
MILITARY EYEWEAR SYSTEM®

exoshield
EXTREME LOW-PROFILE EYEWEAR

MISSION CRITICAL EYEWEAR®

The Sawfly Eyewear System is proven to be the top performing impact eyewear system available.

DESIGNED FOR FIT, function and comfort, this unmatched level of protection is specifically designed for the military. The curved lens provides an unrestricted field-of-view and maximum ventilation, while the adjustable arms and head strap ensure a perfect fit, every time. The Sawfly's lightweight frame and ultra-thin arms ensure a perfect fit with hearing protection and communications headsets while the lens provides optimum high impact protection with flawless optics. The result is a system that offers best-in-class performance: comfort, compatibility, optics and ballistic protection.

KEY FEATURES

THREE SIZES — Correct size ensures fit, comfort and optical performance. U.S. Army Authorized Protective Eyewear

List: Small: NSN 4240-01-607-7512 Regular: NSN 4240-01-527-4051 Large: NSN 4240-01-527-4018

SUPERIOR BALLISTICS — High-impact polycarbonate lenses exceed military ballistic impact requirements for spectacles and goggles

FLAWLESS OPTICS — Precision manufactured lenses ensure distortion-free vision, full side impact protection and anti-fog performance

INTERCHANGEABLE — Lenses made of indestructible, optical grade polycarbonate that can be interchanged quickly for various light conditions and provide 100% protection from harmful UV-A, UV-B and UV-C rays

TOUGH — Scratch-resistant coating on both sides of lens; resists wide variety of chemicals, including DEET

COMMS-COMPATIBLE ARMS — Lean, extendable arms guarantee the utmost comfort, equipment compatibility and stay-put fit. Slimline ergonomically designed arms ensure hearing protection and head sets work as designed while the over molded underframe provides shock absorption and grip

RUGGED DURABILITY — Eye protection that lasts, performs and protects through all the rigors of combat — in a lightweight package that's just 1 ¼ ounces

PRESCRIPTION READY — Optional Rx insert is also compatible with Desert Locust®, Bullet Ant® Goggles and Wolfspider® Goggles.

REVISION PROTECTIVE EYEWEAR IS TOUGH ENOUGH TO WITHSTAND A SHOTGUN BLAST FROM 16 FEET (5 METRES)

FIREARM — Maverick Model 88, 26 inch barrel with improved cylinder choke

AMMUNITION — Remington 12 gauge, 1 ounce #6 shot

VELOCITY — 1300 fps ± 30 fps (396 m/s ± 9 m/s) at 16ft (5m)

RESULT — 25 strikes, no penetrations

OPTICAL PERFORMANCE

Sawfly eyewear has passed stringent military optical tests for visual clarity.

Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV.

HIGH-CONTRAST LENSES

CLEAR LENSES — Maximize light transmittance.

Use indoors or at night.

SOLAR LENSES — Reduce extreme glare and squinting.

Use outdoors in bright conditions.

U.S. Military Kit

Optional RX Carrier

Low-profile defense for fast-moving, dynamic missions.

Ballistic eye protection designed by and for operators to provide extreme low-profile defense for fast-moving, dynamic missions.

EXOSHIELD EXTREME LOW-PROFILE SYSTEMS

- **SUPERIOR BALLISTICS** High impact system exceeds ANSI Z87.1 and U.S. military (MIL-DTL-43511D, clause 3.5.10 and MIL-PRF-31013, clause 3.5.1.1) ballistic impact requirements
- **LOW-PROFILE** Close-fitting lens optimizes NVG and gear compatibility during air and ground assaults
- **ANTI-FOG / HARDCOAT** Flow-coat lens technology provides powerful OcuMax® fog and high-endurance anti-scratch protection
- **QUICK-RELEASE** Adjustable quick-release strap for ambidextrous, single-handed operation during fast-moving, dynamic missions
- **FLAWLESS OPTICS** Optical-grade polycarbonate lenses provide superior visual clarity and 100% UV-A-B-C protection

Exoshield shown withstood a shotgun blast from 16 feet using a Remington 870 12 gauge pump action shotgun, a 51cm bore with 1-¼ ounce #6 lead shot.

BE REVISION READY.®

PACKS AND POUCHES

Our extensive line of load bearing packs and pouches are unparalleled in craftsmanship and superior in construction. Made of 100 % Nylon Cordura® DWR, this high-tenacity material defies the rigors of daily use while providing maximum tear and abrasion resistance. Increase functionality, reduce fatigue and improve efficiency by placing load bearing equipment (radios, handcuffs, magazines, etc.) in Paraclete's MOLLE-compatible or laser cut pouches. PARACLETE® pouches are designed to optimize longevity, durability, weight and comfort, while ensuring equipment stability under the most severe conditions.

*Pouch inner material is 500D Cordura unless stated "Diamond Skid" next to item.

GEAR BAG

This no-nonsense gear hauler combines traditional styling with modern functionality, designed to carry and organize all your essential equipment, body armor and tactical essentials. Exceptionally sturdy and highly versatile, the PARACLETE Gear bag offers ample storage capabilities, easy carry options and optimal transportability.

FEATURES

- Highly durable, abrasion resistant 500 denier outershell construction
- Multi-carry system allows user to select 3 different carry options:
 - 1) Dual end handles for 2-man carry and easy loading
 - 2) Reinforced, top carry handle
 - 3) Removable, shoulder carry strap with support pads for improved comfort
 - 4) Three anchor points for backpack style carry
- Six side compression straps stabilizes load
- Six external zipper pockets for convenient access to small items
- Large, top zipper opening allows greater accessibility
- One large internal lid zipper pocket
- Three internal side zipper pockets
- Interior removable divider for load compression
- MOLLE webbing on divider to attach additional pouches and bungee panels to safely secure items
- Back open sleeve for optional luggage style rolling frame
- Length: 32" Width: 17" Height: 11.25"
- Colors: Black, Ranger Green, OD Green, Coyote and Multi-Cam

Divider with MOLLE on one side and bungee panels on the other.

PACKS • POUCHES

TRAVEL PACK

DAYPACK

Tactical operations can take its toll on gear, but the PARACLETE Daypack is specially designed to withstand tough conditions due to its extra durable construction. Throw everything you need and keep all your daily essentials organized in this highly functional Daypack. Easy access pockets, heavy duty zippers and ample storage compartments make it ideally suited for combat helmets and a variety of equipment.

FEATURES

- Abrasion and water resistant, 500 denier outershell construction
- Multi-carry, hybrid design allows operator to carry the bag via backpack straps or permanently attach to vest
- Quickly deployable with instant reconnection to vest in seconds
- Raised padding and spacer mesh on yolk provides increased airflow and comfort
- Large front bottom pocket capable of fitting combat helmet with attachments
- Front upper pocket for equipment storage
- Lower MOLLE compatible webbing for additional pouch attachment
- Side compression straps
- Heavy duty zippers
- Cord/Plastic zipper pulls
- Main compartment has Hydration pocket and suspensions
- Bottom pocket drainage
- Back Length: 16.5" | Back Wide: 9.75" | Back Depth: 3.25"
Front Top Pocket: 8.25" W x 8.75" L x 3.5" D
Front Bottom Pocket 9.75" W x 11" L x 4.25" D

PROTECT & ENHANCE LIVES

PARACLETE®

PROVEN UNDER FIRE

According to research conducted by The Federal Bureau of Investigation (FBI), the risk of fatal injuries for officers who do not routinely wear body armor is 14 times greater than for those who do. As a company dedicated to serving the law enforcement and corrections community, startling statistics such as these, are the driving force behind our primary commitment, to provide the safest, most comfortable body armor in the world.

Our performance standards continue to exceed industry requirements as well as our own internal benchmarks because when it comes to ballistic protection, we realize that the very fiber of our existence lies within the lives we will continue to save. This vested interest in providing the highest level of manufacturing excellence and professional integrity is deeply rooted within our corporate culture and collectively defines who we are as a company. Every endeavor is made to communicate how our products not only perform above and beyond national certification requirements but ultimately saves lives.
