Project Details

- 1. Describe the commodity/service that the agency/institution is seeking to procure:**
The University of Mississippi Medical Center (UMMC) seeks to purchase maintenance that will allow for constructing, solving and plotting finite element models.
- 2. Explain why the commodity/service is the only one (1) that can meet the needs of the agency/institution:**
Import finite element meshes created in Mimics and in Scan FE. Export solid models as STL files. Mesh solid models. Refine finite element meshes. Apply boundary conditions. Construct matrix equation. Solve matrix equation. Plot results on contour maps, vector plots, user defined apps plus all of the following.
- 3. Explain why the source is the only person or entity that can provide the required commodity/service:**
Read all of our old files that we constructed with this software. Compatible with our post – processor “fe.safe”. Unlimited number of nodes in model.
They are not available from any other distributor. See supporting information from Dassault Systems Americas Corp.
- 4. Explain why the amount to be expended for the commodity/service is reasonable:**
The estimated amount to be expended is for the purchase of **Simulia Academic Research Software Maintenance for Research Suite, Research Execute Tokens (6-100), Research Interactive Seats (2-5), Research Execute Tokens (6-100)**, is \$6,652.91. This amount is within the expected price range for these products.
- 5. Describe the efforts that the agency/institution went through to obtain the best possible price for the commodity/service:**
Through market intelligence, UMMC was able to negotiate best pricing for these products. All applicable discounts were explored and applied.
