## Specification Guide

### Availability

**Electronic price list updated** with release 182.H (U.S.) and 147.H (Canada), dated June 20, 2016.

Spec News is available on [village.steelcase.com](http://village.steelcase.com). Search AdStock and download the current release's Spec News.

View or download Steelcase Specification Guides at <http://www.steelcase.com/en/resources/design/spec-guides/pages/specguides.aspx>.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

### Surface Materials

**The surface materials team** has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

**This specification guide contains multiple Steelcase product lines** which are designed into one specification guide for your convenience. Note that each product may be subject to different pricing terms and conditions.

► For a list of all trademarks, refer to the last page of this specification guide.  
© 2016 Steelcase Inc.

### For Canadian Pricing

Canadian factor can be found at [steelcase.com/CADpricing](http://steelcase.com/CADpricing).

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

# Cable-Management Panel Options for Tackable Acoustical Panels

## With Powerway in Base

### Cable-Management Panel Option Choices

#### Choice 1: Vertical cable routing only

#### Product Details

#### Use

- Use this choice in applications where you want to route cables vertically inside the panel and where you want to extend a power distribution network through a run of panels, but do not need receptacle openings at worksurface height.

#### How to Specify

- 1 Specify a tackable acoustical panel with factory-installed powerway (suffix P3 or P4).
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.

- 4 Next, select **plain cable-management surfaces**.

*Tip: Plain surfaces on cable-management panels have no receptacle openings, but the surface is notched at the bottom to avoid blocking the cable routing channels.*

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

**Not for use in NYC**  
▶ See page 198

#### Choice 2: Worksurface-height power on one side and vertical cable routing

#### Product Details

#### Use

- Use this choice in applications where you want desk-height power on one side of the panel.

#### How to Specify

- 1 Specify a tackable acoustical panel with factory-installed powerway (suffix P3 or P4).
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **surface 1**.

- 5 Next, select **power cable-management surface-1**.
- 6 Next, select **line options**.
- 7 Next, select **line 1, 2, 3, or 4**.
- 8 Next, select **plain cable-management surface-2**.

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

**Not for use in NYC**  
▶ See page 198

## Without Powerway in Base

### Choice 3: Worksurface-height power on two sides and vertical cable routing

#### Product Details

- Vertical cable routing inside panel
- Distribution channel with factory-installed power receptacles
- Voice/data receptacle openings available to cut open in the field
- Receptacle openings in both surfaces of panel
- 4 receptacle adapter plates
- 2 face plates
- Power harness
- Powerway in base of panel—3-circuit or 4-circuit

#### Use

- Use this choice in applications where you want desk-height power on both sides of the panel.

#### How to Specify

- 1 Specify a tackable acoustical panel with factory-installed powerway (suffix P3 or P4).
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **surface 1**.
- 5 Next, select **power cable-management surface-1**.
- 6 Next, select **line options**.
- 7 Next, select **line 1, 2, 3, or 4**.
- 8 Next, select **surface 2**.

- 9 Next, select **power cable-management surface-2**.
- 10 Next, select **line options**.
- 11 Next, select **line 1, 2, 3, or 4**.

*Tip: When choosing Line options 1, 2, 3, or 4 for cable management surface, line option must be the same for both sides of the panel.*

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

**Not for use in NYC**  
▶ See page 198

### Choice 4: Vertical cable routing only

#### Product Details

- Vertical cable routing inside panel
- No receptacle openings
- No powerway in panel base

#### Use

- Use this choice in applications where you need to route cables vertically inside a panel, but power distribution and receptacles are not needed.

#### How to Specify

- 1 Specify a tackable acoustical panel without factory-installed powerway.
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **plain cable-management surfaces** on both sides of the panel.

*Tip: Plain surfaces on cable-management panels have no receptacle openings, but the surface is notched at the bottom to avoid blocking the cable routing channels.*

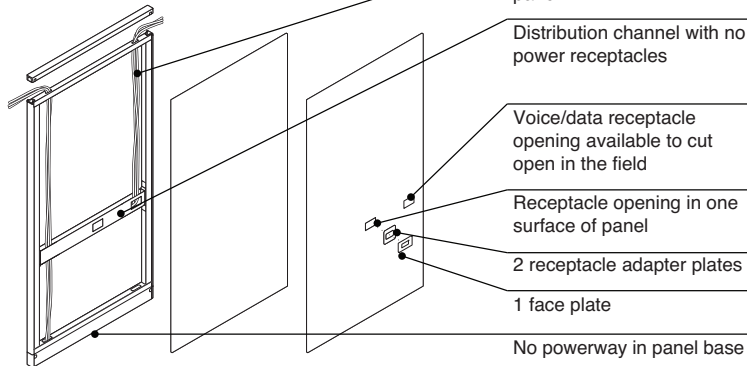

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

## Without Powerway in Base, continued

### Cable-Management Panel Option Choices

#### Choice 5:

**Worksurface-height power on one side and vertical cable routing**

#### Product Details

- Vertical cable routing inside panel
- Distribution channel with no power receptacles
- Voice/data receptacle opening available to cut open in the field
- Receptacle opening in one surface of panel
- 2 receptacle adapter plates
- 1 face plate
- No powerway in panel base

#### Use

- Use this choice in locations such as **Chicago**, where the electrical code requires that power in the base of the panel and the harness bringing energy to worksurface-height must be hardwired in the field.

#### How to Specify

- 1 Specify a tackable acoustical panel *without* factory-installed powerway (suffix P3 or P4).
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **surface 1**.
- 5 Next, select **power cable-management surface-1**.
- 6 Next, select **surface 2**.

- 7 Next, select **plain cable-management surface-2**.

*Tip: Plain surfaces on cable-management panels have no receptacle openings, but the surface is notched at the bottom to avoid blocking the cable routing channels.*

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

**Not for use in NYC**  
▶ See page 198

#### Choice 6:

**Worksurface-height power on two sides and vertical cable routing**

#### Product Details

- Vertical cable routing inside panel
- Distribution channel with no power receptacles
- Voice/data receptacle opening available to cut open in the field
- Receptacle openings in both surfaces
- 4 receptacle adapter plates
- 2 face plates
- No powerway in panel base

#### Use

- Use this choice in locations such as **Chicago**, where the electrical code requires that power in the base of the panel and the harness bringing energy to worksurface-height must be hardwired in the field.

#### How to Specify

- 1 Specify a tackable acoustical panel *without* factory-installed powerway (suffix P3 or P4).
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **surface 1**.

- 5 Next, select **power cable-management surface-1**.
- 6 Next, select **surface 2**.
- 7 Next, select **power cable-management surface-2**.

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

**Not for use in NYC**  
▶ See page 198

## Options for New York City with No Powerway in Base

### Cable-Management Panel Option Choices

#### Choice 7:

**Worksurface-height power on one side and vertical cable routing**

#### Product Details

Vertical cable routing inside panel  
Distribution channel with no power receptacles  
Voice/data receptacle opening available to cut open in the field  
Receptacle opening in one surface of panel  
2 receptacle adapter plates  
1 face plate  
Power harness  
No powerway in panel base

#### Use

- Use this choice in **New York City**, where the electrical code requires that power in the base of the panel must be installed in the field.

#### How to Specify

- 1 Specify a tackable acoustical panel *without* factory-installed powerway.
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **surface 1**.
- 5 Next select **New York power cable-management surface-1**.
- 6 Next, select **wiring and line options**.
- 7 Next, select a **wiring schematic**.

- 8 Next, select **line 1, 2, 3, or 4**.
- 9 Next, select **surface 2**.
- 10 Next, select **plain cable-management surface-2**.

*Tip: Plain surfaces on cable-management panels have no receptacle openings, but the surface is notched at the bottom to avoid blocking the cable routing channels.*

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

#### Choice 8:

**Worksurface-height power on two sides and vertical cable routing**

#### Product Details

Vertical cable routing inside panel  
Distribution channel with no power receptacles  
Voice/data receptacle opening available to cut open in the field  
Receptacle openings in both surfaces  
4 receptacle adapter plates  
2 face plates  
Power harness  
No powerway in panel base

#### Use

- Use this choice in **New York City**, where the electrical code requires that power in the base of the panel must be installed in the field.

#### How to Specify

- 1 Specify a tackable acoustical panel *without* factory-installed powerway.
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **surface 1**.
- 5 Next, select **New York power cable-management surface-1**.
- 6 Next, select **wiring and line options**.
- 7 Next, select a **wiring schematic**.

- 8 Next, select **line 1, 2, 3, or 4**.
- 9 Next, select **surface 2**.
- 10 Next, select **New York power cable-management surface-2**.
- 11 Next, select **wiring and line options**.
- 12 Next, select a **wiring schematic**.
- 13 Next, select **line 1, 2, 3, or 4**.

*Tip: When choosing Line options 1, 2, 3, or 4 for cable management surface, line option must be the same for both sides of the panel.*

*Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.*

# Tackable Acoustical Panels

*Tip: To price a panel with two surface materials in different price groups, add the two fabric price group option prices together and divide by 2; then add the result to the panel base price.*

*Tip: If you want the panel fabric to match the fabric on panel end trim, change-of-height panel connectors, power poles, cable poles, or fillers, check to see that the fabric you want is available on that product before you specify the panel fabric. Some fabrics are not available because they are not suitable for wrapping thin pieces.*

*\*Tip: For most fabrics, fabric application is standard in the warp horizontal direction.*  
 ▶ See *Specification Guidelines for Vertical Fabric Applications*, page 370, for details on these exceptions. Warp vertical is available as an option.

*Tip: Replacement panel surfaces are available as standard product. The top cap, end trim, and base cover can remain in place during the replacement process. Special tools are not required. Adjacent panels are not disrupted.*

*Tip: 80½"H fabric-covered end trims are available in the warp vertical application only.*

Standard Includes	Required to Specify
▶ Need help? Product details, page 12	1 Style number 2 Fabric color number for surface 1 3 Fabric color number for surface 2 4 Paint color number for top cap, end trim, and base covers 5 Options, if selected (see below) ▶ See <i>Surface Materials</i> , page 354.

	Options	U.S. Price	Required to Specify
Surface Materials	<b>Panel surface</b>		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+\$ 36	Specify fabric color number.
	• Fabric price group 3	+\$ 94	Specify fabric color number.
	• Fabric price group 4	+\$150	Specify fabric color number.
	• Fabric price group 5	+\$234	Specify fabric color number.
	• Fabric price group COM	+\$ 32	▶ See <i>Surface Materials Reference Manual</i> to specify.
	<b>Fabric direction on panel</b>		
	• Vertical application	No cost	Specify <i>with vertical application</i> .
	<b>Top cap, end trim, and base covers</b>		
	• Wood on low or medium top cap only	+\$139	Specify <i>with wood top cap</i> and select wood color number.
	• Customiz stain on wood top cap	No cost	▶ See <i>Surface Materials Reference Manual</i> .
	• Fabric-covered end trim	+\$ 64 per side	Specify <i>with fabric-covered end trim left-hand, right-hand, or both</i> and select fabric color number.
	<b>Fabric direction on end trim</b>		
	• Horizontal application (standard)	No cost	Specify <i>with horizontal application</i> .
	• Vertical application	No cost	Specify <i>with vertical application</i> .
<b>Top Cap</b>	<b>Height</b>		
▶ Page 24	• Low (reduces panel height by ¾")	No cost	Replace second <b>M</b> in style number with <b>L</b> .
	<b>Knockouts</b>		
	• Cable knockout on medium top cap	No cost	Specify <i>top cap with knockout</i> .
<b>Electrical</b>	<b>Factory-installed powerway</b>		
▶ Pages 40–48	• 3-circuit powerway with shared neutral	+\$207	Add suffix <b>P3</b> to panel style number.
	• 3-circuit powerway with separate neutral	+\$248	Add suffix <b>P3</b> to panel style number and specify <i>with separate neutral</i> .
	• 4-circuit (3+D) powerway	+\$243	Add suffix <b>P4</b> to panel style number.
	• 4-circuit (3I+1) powerway	+\$291	Add suffix <b>P4</b> to panel style number and specify <i>with 3I+1 wiring</i> .
	• 4-circuit (2+2) powerway	+\$291	Add suffix <b>P4</b> to panel style number and specify <i>with 2+2 wiring</i> .
	<b>Field-installed powerway</b>		
	• For use in New York City	No cost	▶ Must specify powerway for field installation only, page 245, and specify <i>non-powered panel with power base covers</i> .
	<b>Factory-installed wire separator</b>		
		+\$ 26	Specify <i>with wire separator</i> .

▶ Options, continued on next page

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ▶ See page 1 for details.

## ► Options, continued from previous page

	Options	U.S. Price	Required to Specify
<b>Cable-Management Panel with Powerway</b> ► Page 210	<b>Choice 1: Vertical cable routing only</b>	+\$ 10	① Specify a panel with factory-installed powerway in the base (see previous page). ② Specify <i>plain cable-management surfaces on both sides of the panel</i> .
	<b>Choice 2: Worksurface-height power on one side and vertical cable routing</b>	+\$130	① Specify a panel with factory-installed powerway in the base (see previous page). ② Specify <i>power cable-management surfaces on one side of the panel</i> . ③ Specify <i>line 1, 2, 3, or 4</i> .
	<b>Choice 3: Worksurface-height power on two sides and vertical cable routing</b>	+\$250	① Specify a panel with factory-installed powerway in the base (see previous page). ② Specify <i>cable-management surfaces on both sides of the panel</i> . ③ Specify <i>line 1, 2, 3, or 4</i> (must be the same for both sides).
<b>Cable-Management Panel without Powerway</b> ► Page 211	<b>Choice 4: Vertical cable routing only</b>	+\$ 10	① Specify a panel <b>without</b> factory-installed powerway. ② Specify <i>plain cable-management surfaces on both sides of the panel</i> .
	<b>Choice 5: Worksurface-height power access on one side and vertical cable routing</b>	+\$ 95	① Specify a panel <b>without</b> factory-installed powerway. ② Specify <i>power cable-management surface on one side and plain cable-management surface on the other side of the panel</i> .
	<b>Choice 6: Worksurface-height power access on two sides and vertical cable routing</b>	+\$180	① Specify a panel <b>without</b> factory-installed powerway. ② Specify <i>power cable-management surface on both sides of the panel</i> .
<b>New York City Cable-Management Panel</b> ► Page 213	<b>Choice 7: Worksurface-height power access on one side and vertical cable routing</b>	+\$124	① Specify a panel <b>without</b> factory-installed powerway. ② Specify <i>New York power cable-management surface on one side and plain cable-management surface on the other side of the panel</i> . ③ Designate wiring option. ④ Specify <i>line 1, 2, 3, or 4</i> .
	<b>Choice 8: Worksurface-height power access on two sides and vertical cable routing</b>	+\$238	① Specify a panel <b>without</b> factory-installed powerway. ② Specify <i>New York power cable-management surface on both sides of the panel</i> . ③ Designate wiring option. ④ Specify <i>line 1, 2, 3, or 4</i> (must be the same for both sides).

Tip: Cable-management option is not available on 18<sup>5</sup>/<sub>16</sub>"W panels.

Tip: Remember to order cable knockouts for medium top caps (see previous page) to accommodate cable routing.

Tip: 33"H panels are not available with cable management options.

## X Filler Packages

\*Tip: For most fabrics, fabric application is standard in the warp horizontal direction.  
 ▶ See *Specification Guidelines for Vertical Fabric Applications*, page 370, for details on these exceptions. Warp vertical is available as an option.

Tip: Wood top caps on fillers are solid and have no cable routing capability.

Tip: Back filler must attach to panel opposite the shortest panel in the X-configuration.

Tip: If highest panel is 80"H, then filler will be in the warp vertical application.

Standard Includes		Required to Specify	
▶ Need help? Product details, page 33	<ul style="list-style-type: none"> <li>• Filler upright, fabric direction with horizontal application*: all fabric price groups</li> <li>• Top cap: all paint price groups</li> <li>• Carrier: black paint only</li> </ul>	1 Style number 2 Fabric color number for filler upright 3 Paint color number for top cap 4 Options, if selected (see below) ▶ See <i>Surface Materials</i> , page 354.

# Jetty Worksurfaces

## Laminate

*Tip: Supports for freestanding and panel-mounted applications must be specified separately.*

*Tip: Worksurface spans greater than 54" require additional support of a cantilever, pedestal, intermediate support, or leg. Exception; work-surfaces can span up to 60" in heavy load applications and up to 72" in light load applications if a TS7WKSPT reinforcing channel is used. Reinforcing channel must be specified separately.*

► Page 271

*Tip: Not all Avenir Universal Systems Worksurface installations can be panel wrapped.*

► See page 75 for application details.

*Tip: Jetty worksurfaces are recommended for use with other curved-front shapes such as corner, curved-front worksurfaces.*

► Page 258

*Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, MUS1830 becomes MUS1830P for P-edge profile.)*

## Corner Curved-Edge Worksurfaces

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

▶ See page 1 for details.

# Corner Split-Top Curvilinear Worksurfaces

1½"-Thick

► Need help?  
Product details,  
page 98

## Standard Includes

- Worksurface: laminate
- Monitor surface: plastic square edge default, all sides
- Keyboard surface front edge: radius edge T-mold, plastic square edge default sides and rear
- Rear corner bracket: black paint only
- Cable scallops centered on the width edges
- Two cantilevers: all paint price groups

## Required to Specify

- 1 Style number
  - 2 Laminate color number for worksurface
  - 3 Plastic color number for T-mold edge
  - 4 Paint color number for cantilevers
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 354.

## Spanner Worksurfaces

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

## Side Supports

*Tip: Side support bracket package includes a pair of handed brackets. Only one bracket is required for rear corner support of Avenir Universal Systems corner worksurface. Specify one package for every two corner worksurfaces.*

Standard Includes	Required to Specify
<ul style="list-style-type: none"> <li>Need help? Product details, page 106</li> <li>Pair of side supports: black paint only</li> </ul>	Style number

### Specification Information

Style Number	U.S. Price
MSS	\$48
.	.

## Locking Side Supports

Standard Includes	Required to Specify
<ul style="list-style-type: none"> <li>Need help? Product details, page 106</li> <li>Pair of locking side supports: black paint only</li> </ul>	Style number

### Specification Information

Style Number	U.S. Price
PWSMB2	\$56
.	.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

## L-Shaped Cantilevers

*Tip: Use a cantilever to support only one end of a 30"D worksurface. Use a side support, end panel, clear-access end panel, or a pedestal to support the opposite end.*

Standard Includes		Required to Specify
► Need help? Product details, page 107	• Cantilever: all paint price groups	1 Style number 2 Paint color number for cantilever ► See <i>Surface Materials</i> , page 354.
Specification Information		
Fits Worksurface Depth	Style Number	U.S. Price
<b>Left-Hand Cantilevers</b>		
18"	PCWS18CL	\$289

# Specifying Storage

**Steelcase 800 Series lateral files** are available with an Avenir-style pull to make these products compatible with Avenir. The Avenir-style pull complements the Avenir pull, but it is not identical. The Avenir-style pull is flush so it will allow the lateral file receding door to go back into the file.

# Hutch Kits

## Hutch Kits

For Use with Universal Sliding Door, Universal Over the Case, and Universal In the Case Bins

Tip: A hutch kit cannot support more than one bin.

Tip: Be sure to order the storage bin in the same paint finish as the hutch kit. Storage bin is ordered separately.

Tip: To price a tackboard with fabrics in two different price groups on opposite sides, add the two prices together and divide by two.

Tip: 66"W and 72"W tackboards accommodate fabric in the horizontal direction only.

Standard Includes		Required to Specify	
► Need help? Product details, page 146	• Steel back to enclose storage bin, end supports, accessory rail, and one non-handed cable manager: paint price group 1	1 Style number	
	• Double-sided tackboard, fabric direction with horizontal application: fabric price group 1	2 Paint color number for end supports, back, accessory rail, and cord manager	
	• Attachment hardware	3 Fabric color number for tackboard surface 1 (front)	
		4 Fabric color number for tackboard surface 2 (back)	
		5 Options, if selected (see below)	
		► See <i>Surface Materials</i> , page 354.	

Options	U.S. Price	Required to Specify	
<b>Surface Materials</b>	• Paint price group 1	No cost	Specify paint color number.

► Options, continued on next page

Tip: Security top reduces overall height by approximately 1".

Tip: Laminate and wood veneer tops are 3/16" taller than other tops and will add 3/16" to overall case height.

Tip: One hanging folder bar and three dividers are included with each lift-up door with roll-out shelf.

Tip: Counterweight packages are recommended based on case size and interior options.

► See *Specification Information* at right.

Tip: Counterweight option should be specified if the cabinet is not ganged to adjacent cabinets or bolted to the floor or wall.

Tip: Counterweight packages ship separately from case and must be installed on site.

6 <sup>7</sup> / <sub>8</sub> "	49"	1 <sup>5</sup> / <sub>8</sub> "	32 watts	<b>LSB48MS2</b>	\$311

Tip: When ordering with standard power cord or Chicago cord, daisy chaining is not possible.

Tip: When ordering daisy chain with jumper cord there is no power supply.

Tip: Minimum of two fixtures for daisy chaining and maximum of 10.

► For more information on daisy chaining, see page 176.

Tip: When ordering starter light do not order a daisy chain starter cord.

## Specification Guidelines

Application	Requirement
2 lights	1 starter light fixture and 1 daisy chain light with jumper cord fixtures
3 lights	1 starter light fixture and 2 daisy chain light with jumper cord fixtures
4 lights	1 starter light fixture and 3 daisy chain light with jumper cord fixtures
5 lights	1 starter light fixture and 4 daisy chain light with jumper cord fixtures
6 lights	1 starter light fixture and 5 daisy chain light with jumper cord fixtures
7 lights	1 starter light fixture and 6 daisy chain light with jumper cord fixtures
8 lights	1 starter light fixture and 7 daisy chain light with jumper cord fixtures
9 lights	1 starter light fixture and 8 daisy chain light with jumper cord fixtures
10 lights	1 starter light fixture and 9 daisy chain light with jumper cord fixtures

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# LED Shelf Lights

*Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.*

*Tip: Maximum number of lights that can be daisy chained is three lights.*

*Tip: LED standard light comes with a 9' 15 watt power supply.*

*Tip: Daisy chain starter light comes with a 60 watt power supply that will support up to three lights in series (11' cord, 6' from power supply to power outlet, 5' from power supply to fixture). Does not include daisy chain jumper cords.*

*Tip: Daisy chain secondary light does not come with a power supply. Daisy chain cord package (8" and 30") comes standard with each secondary light.*
