Control

How we work has changed dramatically in the last decade. We're more mobile, more collaborative, more social and more connected to technology than ever before. Yet we still also need to focus and concentrate.

Answer® solutions can help organizations:

- Balance Collaboration and Privacy
- Support Mobility
- Optimize Real Estate

Answer solutions offer a range of applications, aesthetics, technology support and ownership adaptability to meet these challenges, today and tomorrow.

Observation: Multi-person work often happens at spaces designed for one — resulting in some discomfort for all involved.

Insight: Having available space for visitors can enhance spontaneous collaboration.

Observation: Mobile workers are often forced to work in less-than-ideal spaces as they seek out a place to sit down and plug in.

Insight: Mobile workers need easy access to others, to power and data, and the ability secure their belongings.

Observation: Work environments aren't equipped to easily support the amount of technology workers use today.

Insight: All aspects of today's workplace should support technology tools, offering easy access to power and security.

MOBILE FLEXIBILITY.

Today’s workforce is more mobile than ever. Off-site. Temporary. Freelance. Fortunately, Answer has the flexibility to accommodate any type of worker.

With a range of applications that support both individuals and groups, Answer can help you create a workplace that is flexible and higher performing.

Door and tray provides easy access to power and data in the worksurface for mobile devices, as well as a place to store excess cords.

Personal Caddy supports mobile workers natural desire to work out of their bags, while reducing the strain of bending to access materials.

EFFECTIVE AND EFFICIENT.

Answer is uniquely designed to help you get as much out of your real estate as possible. Supporting a wide range of planning types, Answer applications are perfect for creating spaces that are multi-purpose, enabling you to efficiently support the ways people work while optimizing your real estate.

FLEXIBILITY BEGINS WITH COMPATIBILITY.

The new Answer has been designed to be compatible with previous versions of the classic, as well as with other Steelcase products. Answer's refined aesthetic allows it to be used with a range of Steelcase products allowing you to create a range of individual and group spaces that blend beautifully together.

Lasting Design

89% say it's important for the workplace to attract and engage. 42% say it's not happening.*

Answer's consistent design language and wide range of aesthetic options and material choice not only ensure fluid and flawless integration into any work environment, but do so in a way that supports user wellbeing and comfort.

*Steelcase Workplace Satisfaction Surveys

**MANY DESIGN OPTIONS.
ONE DESIGN LANGUAGE.**

Not only does Answer offer you a range of aesthetic options and materials including wood, paint, laminate, glass or slatwall to help you create the exact look your environment demands, it does so with a consistent design language. Trims, open bases, worksurface supports have all been newly designed to work individually or as part of an overall solution. So you can change, modify and update over time and know everything will work in harmony.

A range of new leg solutions provide a variety of aesthetic choices to create the look you want.

Available in painted or wood veneer, newly designed thin trim gives a clean and refined look to any application.

Answer can create applications ideal for mobile workers, highly focused individual work and video collaboration with remote colleagues.

6" high technology skins provide quick, convenient access to power and data, while also making efficient use of vertical space.

THE ANSWER LIES IN THE DETAILS.

Flexible, refined and efficient, Answer is the perfect solution for today's dynamic workplace. These are examples of the attention to detail you'll find in every Answer solution.

Personal Caddy
Offers access to the contents of a user's work bag, mobile files and data for mobile devices.

Soft Edge Worksurface
Soft front edge eliminates pressure points on wrists and forearms.

FrameOne™ Leg
Allows consistency with a clean, refined design throughout the workplace.

Power and Data Access Door & Tray
Integrated into the worksurface, users can easily access power and data for mobile devices.

Frameless Glass
Provides access to natural light while still defining personal space. Clear sightlines promote collaboration.

Sliding Door Bin
Provides visual access and security for materials while maximizing work space.

Frameone Foot on Universal Storage
Allows for a consistent aesthetic between storage and open base panel

Open Base
Provides a lighter scale aesthetic.

Intermediate Support
Supports planning flexibility with a lightscale aesthetic.

Technology Skins & Covers
Provides easy access to power and data in an efficient amount of space.

Skins to the Floor
Provides a clean aesthetic with a built in, refined look.

Worksurface Off-Module Bracket
Supports planning flexibility and efficient use of space.

GET CONNECTED. GET TO WORK.

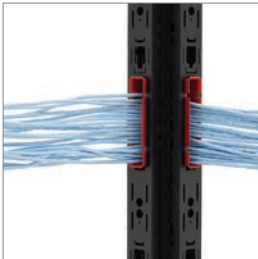

Answer solutions seamlessly weave together building infrastructure and technology with your furniture to create a wired workplace designed for change. With parts that are both re-configurable and re-usable, Answer makes it easy to adapt to changes as they are needed.

Answer supports power and data access and routing in the base and vertically every 12" throughout the panel height.

Ample space in the base area supports lay-in of cabling.

Tall cable openings every 12" vertically support a large amount of cables. Optional cable sleeves provide a smooth surface for cable routing.

Top cap lay-in cabling simplifies changing panel heights and reduces network disruptions. Open junction blocks support vertical cable routing through the panel.

Patented design eliminates disruptions to your network when stacking.

Multiple connection points let you direct power where you need it.

15 and 20 amp receptacles are interchangeable for all powerways.

Technology skins provide convenient access to power and data.

Receptacles and communication outlets can be located on skins every 12" vertically.

PEOPLE. PLANET. PROFIT.

Steelcase aspires to create enduring value for people, planet and global economies by fully leveraging all our assets, relationships and resources.

PEOPLE

We think about the communities where we work, live and do business—which is nearly everywhere in the world. By aligning our goals for people with our planet and profit aspirations, we're building the foundation for gains that we hope will be far-reaching and enduring.

PLANET

By rethinking our business systems and designing our products to avoid negative impacts on humans and the environment, we contribute to a sustainable future for the planet and its people. We commit to advance our practices through continuous learning and building partnerships with our customers, business partners and environmental thought leaders to optimize our performance and contribute to the science and practice of sustainability.

PROFIT

First and foremost, we aim to bring value by working together with our customers to create workplaces where their people love to work. It is also our responsibility to provide value to our shareholders so we can continue to reinvest in the business and generate new solutions to address customer business challenges.
