

Where the work gets done. Beautifully.

Avenir® systems furniture has earned a reputation for proven performance and unmistakable value in organizations around the world. In fact, over 80% of Fortune 500 companies have chosen Avenir for their businesses. With the flexibility to work however your business works, and the backing of a warranty second-to-none, Avenir delivers results today and tomorrow. That's a beautiful thing. That's Avenir.

Consider the possibilities

Avenir makes it easy to leverage your space in new ways. Open up the lines of communication by decreasing panel-heights or adding Pathways® Post and Beam at fence height. Increase privacy with up-mounted overhead storage bins and privacy screens. Panel-supported worksurfaces allow users to stack materials nearby and free up desktop real estate. A bank of lateral files provides convenient central storage, and even more worksurface. When your business changes, Avenir helps your work environment keep up.

For short-term guest seating, mobile storage pedestals with cushion tops nest under worksurfaces, ready to roll out at a moment's notice.

Curved front bins provide additional storage, a refined aesthetic and easy-open functionality.

Plan on looking great

Your workplace is a reflection of your company's culture and identity. Avenir's wide range of aesthetic options enables your business to create just the right look. Make a dramatic statement by combining natural wood veneers with polished chrome. Take a quieter stance with a more subdued aesthetic. Whether your company is business casual or strictly business, your image is secure with Avenir.

Innovative worksurface shapes add aesthetic interest, while moving the user out of the corner and into the action.

Avenir offers a huge selection of surface material options, including 16 standard wood veneers in an open-pore finish that leave the wood texture apparent to the eye and the hand.

Take control

Stuff happens, and it also accumulates. Avenir offers storage solutions that not only manage information, but help to create a more effective workspace. Here, storage towers on the aisle help define the workspace. Curved front bins increase privacy without increasing panel-height. Lateral files provide generous personal storage and establish workstation boundaries. Avenir puts you in control.

Pathways Post and Beam provides space definition for workstations, team spaces, project areas – any areas.

A bookcase nested under the worksurface increases storage, creates a secondary piling surface and establishes workstation boundaries.

Worksurfaces can be panel-mounted, freestanding, mobile or tethered to Pathways Post and Beam.

Sharing made simple

Research shows that people spend nearly 80% of their day working alone or with another person, so why not support that interaction? Avenir with Pathways Post and Beam creates an open environment where collaboration and interaction can flourish. The Post and Beam Technology Hub delivers convenient access to power and data. Curvilinear worksurfaces and mobile pedestals with cushion tops support shoulder-to-shoulder collaboration. Whatever way you work, Avenir works right along side.

Keep your options open

Avenir's flexibility lets you create and define space in so many ways. Storage towers with open-side shelving help to keep important materials within reach and support the open feeling of the space. Adjustable-height legs put worksurfaces at just the right level. And power and data arrive easily via panels or Post and Beam so technology support is always at hand. Everywhere you turn, Avenir helps you keep your options open.

Combine freestanding worksurfaces with panel-mounted worksurfaces for added versatility and flexibility during moves, adds and changes.

Pathways Post and Beam connects directly to Avenir panels, helping to define space, deliver power and data, and extend Avenir's crisp aesthetic.

Technology support

Five circuit specifications are available: 3 circuit shared neutral, 3 circuit separate neutral, 4 circuit 3+D, 4 circuit 3+1, 4 circuit 2+2.

Desk-high access to power and communication cabling available either factory installed or retrofit in the field. Color-coded and keyed powerways and receptacles ease installation and eliminate the risk of misconnections.

Cables can be routed vertically inside panels and horizontally in top caps and base. Removable panel skins and top caps allow easy access without disturbing adjacent panels.

Three top cap heights are available to accommodate varying levels of cabling requirements. Cable drop boxes allow cabling to travel through adjacent top caps, even across panels of different heights.

Wire managers make it simple to drop cables from the top channel to the worksurface.

All Avenir wiring and cabling components are UL listed and CSA certified.

Works With

Avenir works with a broad range of Steelcase products including: Pathways Post and Beam, Pathways Technology Wall, Universal Worksurfaces, Universal Storage, Pathways Architectural Power and Pathways Zone Cabling.

Surface Materials

Steelcase Classics, Options and Accents Collections of Textiles and Finishes, including clear and frosted glass and all 16 standard natural veneer finishes.

Custom Programs: Customer's Own Material, PerfectMatch™ Paint, Customiz™ Stain and Open Line Laminate.

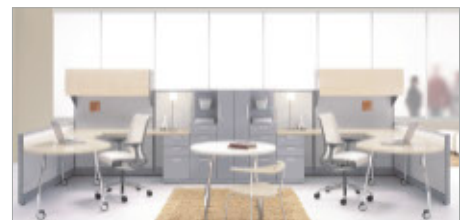

See the Avenir Specification Guide for additional information.

Global Dealer Network

We speak your language. Over 400 Steelcase dealers in North America, plus more than 500 Steelcase dealers internationally, help you create inspiring workspaces just about anywhere. Whether your project is across town, across the country, or across the ocean, our dealer network will coordinate the logistics so you don't have to. It's local expertise with a global reach.

Steelcase and Dealer Services

It's more than a product, it's a partnership. Our service offering includes workspace evaluations, space planning, project coordination, installation, maintenance, asset management and much more. Tailored web-based solutions make it easy to purchase what you need and manage what you have. And financing alternatives provide flexible leasing options.

Environmental Commitment

Being an environmentally responsible company starts by asking questions. That's why we carefully analyze all our actions and strive to grow more environmentally effective each day. This means considering the entire life cycle of our products – from raw materials to the day that product is no longer needed. And when that day does come (many years from now) the Steelcase Environmental Partnership program will connect you with resources to donate, refurbish or recycle your unused Steelcase products.

Avenir carries the Scientific Certification Systems Indoor Advantage™ certification for indoor air quality in North America.
