Latin America Trade Forecast

• Exports raised $1.5 billion to $1.9 billion
• Imports raised $5.0 billion to $5.3 billion
• Surplus lowered $3.5 to $3.3 billion

FlexFrame™
workwall

Steelcase

TIMELESS DESIGN.
LIMITLESS FLEXIBILITY.

FlexFrame workwall is designed to create high-performance workspaces that support the many ways people work—from individual private offices to open group work settings. Configured with functional surfaces and modular components, FlexFrame brings together storage, organization and built-in technology, all with the beauty of Steelcase wood.

COLLABORATION MEETS INSPIRATION.

Today's workers are constantly shifting between private and collaborative environments. From open spaces to the boardroom, FlexFrame can help you create spaces that support these dynamic workstyles, encourage sharing of information and offer convenient access to technology and data.

Providing zones for archived, active and anticipated work can increase effectiveness and efficiency.

SUPPORT THE WAYS PEOPLE WORK BEST.

FlexFrame is based on extensive research that revealed personal needs for storage, visual reminders of work in-process, and easy access to power and data. Rather than asking users to adapt, FlexFrame offers a flexible, custom solution that supports varying workstyles and habits.

FlexFrame was designed by Steelcase Design Studio in collaboration with Jorge Pensi Design Studio.

AS NEEDS CHANGE, A PLATFORM THAT EVOLVES.

As your workspace needs shift and evolve, FlexFrame is designed to shift with them. It can be easily reconfigured to meet the needs of users and, on a larger scale, your entire organization. And installation is equally flexible. There's no need to locate a stud or disrupt the drywall when reconfiguring.

To view an animation showing how FlexFrame can be easily reconfigured, visit steelcase.com/flexframe.

APPLICATION RANGE

Workwalls come in a range of sizes for total application flexibility.

SMALL SPACES

FlexFrame workwalls create high performance small footprint applications.
RECONFIGURABLE

Components are easy to reconfigure and attachment to the frame is concealed.

ORGANIZE.
STORE.
EFFICIENTLY.

With storage platforms and the ability to easily re-configure, FlexFrame puts paper-based information where it's visible and easily accessible. Closed cabinets provide secure storage and create work environments that are clutter-free.

IM#: 11-0003288

IM#: 11-0003300 | FlexFrame in Natural Walnut veneer, Midnight Metallic painted metal, Alloy Polar fabric skins.

DRAWERS

FlexFrame offers drawer options to keep supplies and personal items concealed and organized.

PILING SUPPORT

FlexFrame is designed to create spaces that make work more visible and accessible to improve workflow.

SHELVING

Shelves support up to 200lbs each without needing to reinforce drywall.

IM#: 12-0001671

TECH CENTER

Lid opens in either direction, offering easy connections to power, data and available media:scape.

IM#: 12-0001655

GROMMET

Closed grommet keeps power and data cabling out of view.

HIDDEN TECHNOLOGY.
VISIBLE INFORMATION.

Accommodate various technology with a single system that keeps power and data cabling out of view. FlexFrame offers convenient connections for flat panel displays, power and data, and can seamlessly integrate with media:scape.

IM#: 12-0001637

TECHNOLOGY SKINS

Provide convenient connections for power, data, and switching for LED light system virtually anywhere on a workwall.

FlexFrame workwall is designed to support large flat panel monitors.

Vertical workwall frame pieces allow wire management horizontally.

LED lights mount flush in bottom of shelves.

- Data
- Power
- Lights

Cable management skins allow cable management and access to power.

Base power connects to lights, tech skins, accessories, and furniture components.

Technology skin gives convenient access to power and data connections and can be used to switch all lights on an entire workwall.

Shelves allow wire management vertically.

FLEXIBLE LOGIC

Smart components, built-in technology support and inherent flexibility: FlexFrame creates a range of workspaces that can change easily at any time. So, whiteboards today can become flat screen monitors tomorrow.

MODULAR POWER

1 or 2 circuit power systems distribute power along the base of the workwall.

TV ATTACHMENT SKIN

Support monitors up to 65". Available with optional media:scape shroud.

CABLE MANAGEMENT SKIN

Flexible strip along bottom edge allows cords and cables to pass through. Easily remove skin to access power connections behind skin.

LED LIGHTING

Energy efficient lighting is mounted flush in the bottom of shelves, bins and drawers.
