

WORKING STORAGE.

TS Series storage creates efficient, organized space. And does so occupying a minimal footprint. Flexible by design, its clean surfaces blend effortlessly with your design aesthetic while coordinating with a wide range of other Steelcase applications.

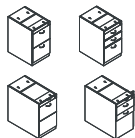

68%

of employees store printed documents for at least a year.

2010 Storage trend research with
RDA Group Global Market Research and Consulting

TS SERIES STORAGE towers, pedestals, lateral files, bins and laminate common shelves feature clean design and a visually integrated storage solution that optimizes the space you have. Storage is designed to hold archival documents that workers want to keep, while providing space to store other worktools. Today's workers need space for mobile devices and personal items, like bags and snacks.
