

CERTALEX™

Sewer Line Treatment

**Removes
mud and silt
without costly
equipment
and labor**

- **REDUCES LABOR AND MAINTENANCE COSTS**—Breaks up deposits into particles that are easily removed by flushing with water; reduces debris left in manholes.
- **POWERFUL**—Effective when deposits are built up to 50 percent of sewer volume—breaks up hard deposits of sand and shale.
- **THOROUGH CLEANING ACTION**—Floc-
culates heavy, dense deposits of mud,
silt and solidified detergents.
- **EASY TO USE**—Pour directly into open
manhole; compatible with other sewer
treatment agents.
- **EFFECTIVE ON TRAPPED DEPOSITS**—
Loosens and flushes mud trapped by
tree roots.

Consult complete label directions before using.
