

SURE FLOW II™

Thickened, Liquid Drain and Pipe Opener
Drains Right, Drains Fast!

SURE FLOW II's dense, thick formula sinks through water and right to the drain. It begins working on contact to dissolve grease, oil, hair and fat with tough, double caustic power. Once the clog is removed, use SURE FLOW II regularly, to prevent future stoppages. SURE FLOW II is non-acid and non-fuming, making it a better option to acid drain openers.

SURE FLOW II is ideal for use in drains, sinks, toilets and grease traps. Won't damage rubber, pipes, porcelain or septic tanks.

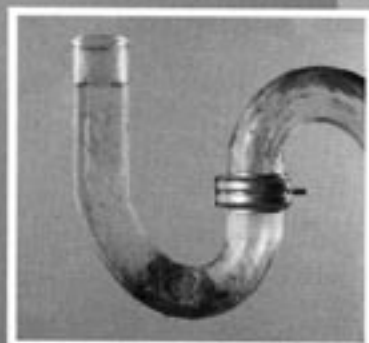

- **HIGHLY CONCENTRATED-**
Use only ounces per drain.

- **REMAINS LIQUID-***Does not form a hard soap build-up when in contact with grease.*

- **DENSE, THICKENED FORMULA-**
Sinks through water, right to the clog.

- **REDUCES ODORS-***Removes the elements that produce foul odors from drains and pipes.*

- **DOUBLE CAUSTIC COMPOSITION-***A better option to acid drain openers, with strong, effective drain opening power.*

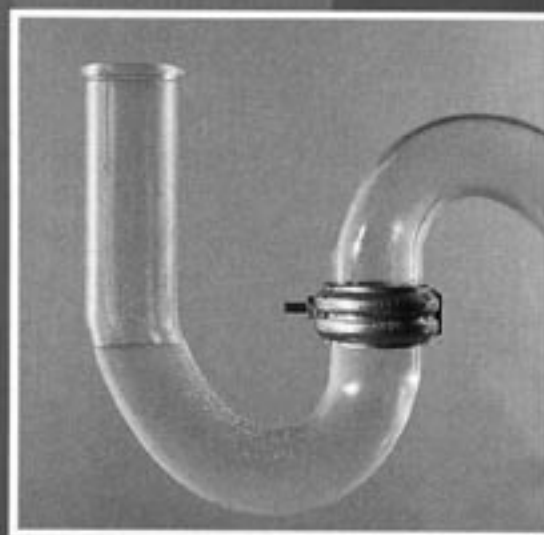

1. Pipe blocked with grease, hair and dirt.

2. After SURE FLOW II is added.

3. SURE FLOW II starts removing the blockage.

4. SURE FLOW II frees the pipe of the obstruction.

Use SURE FLOW II in a regular preventive maintenance program to keep drains and pipes clean and free of obstructions.
