

SHIFT 360™ IN ADVANCED WEBLESS SYSTEM WITH VELCRO® BRAND CLOSURE SYSTEM

PROTECH® Tactical's Shift 360™ platform is the highest speed and most dynamic situational plate rack on the market. Outfitted in Advanced Webless System load-bearing material, the Shift 360 in AWS features an approximate 30% weight reduction compared to traditional modular webbing, while increasing material strength and durability. Durable hook and loop VELCRO® Brand secures the carrier onto the body, while allowing for individual adjustability and fit.

Shown In Tan with optional ballistic yoke, shoulders, structured upper arms and lower abdomen.

Back
