Eames® Tables

Design Story: Practical Sophistication, Durable Dependability

In 1964, Charles and Ray Eames designed a table with a single segmented base, constructed of modular units that could support tops of different lengths and widths. Today, more than 40 years later, Eames Tables remain a popular choice for those who appreciate durability and performance, as well as sleek and simple beauty.

Available in a range of shapes, finishes, and sizes, Eames Tables add a note of practical sophistication to wherever people gather, from large executive conference rooms to systems workstations, work rooms, and cafés. The tables' primary materials—wood, steel, and aluminum—are all designed for recyclability at the end of many years of dependable use.

Herman Miller's Design Protocol

Our commitment to corporate sustainability naturally includes minimizing the environmental impact of each of our products. Our Design for Environment team (DfE) applies environmentally sensitive design standards to both new and existing Herman Miller products.

The DfE Design Protocol goes beyond regulatory compliance to thoroughly evaluate new product designs in four key areas:

- *Material Chemistry and Safety of Inputs*—What chemicals are in the materials we specify, and are they the safest available?
- *Disassembly*—Can we take products apart at the end of their useful life, to recycle their materials?
- *Recyclability*—Do the materials contain recycled content, and more importantly, can the materials be recycled at the end of the product's useful life?
- *LCA*—Have we optimized the product based on the entire life cycle?

level® Certification

Eames Tables are certified level 2. The level conformance mark ensures a comprehensive, independent, and impartial assessment of the environmental and social impacts of a product. For more information, go to www.levelcertified.org.

Global GreenTag^{CertTM} GreenRate Certified

Eames Tables are Global GreenTag^{CertTM} GreenRate Level A certified. Global GreenTag^{CertTM} is an Australian Competition and Consumer Commission (ACCC) approved National Certification Mark, an ISO compliant ecolabel and Green Building Councils of Australia and New Zealand recognized third party certifier. GreenTag GreenRate certification enables products to be allocated Level A, B or C in the Green Building Council of Australia (GBCA) and New Zealand GBC's Green Star™ tools and certify both VOC and formaldehyde (composite wood) credits.

FSC® Certification

Herman Miller has Forest Stewardship Council® (FSC) chain of custody certification and offers certain standard laminate and veneer worksurfaces and storage products with wood fronts and tops, with exceptions, as FSC-certified products. For a detailed list of these products and exceptions, please visit HermanMiller.com/certified-wood.

GREENGUARD® Certified

Eames Tables have achieved GREENGUARD and GREENGUARD Gold Certifications. GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg.

Environmental Product Summary

Eames Tables

Material Content*

Eames Table components are constructed from wood, aluminum, steel, plastic, and other materials.

An Eames Table is up to 52 percent recyclable based on availability of recycling facilities.

Eames Tables are comprised of 79-percent recycled materials. This figure breaks down to 21-percent post-consumer and 58-percent pre-consumer recycled content.

- Wood, while not technically recyclable, can be cycled back to the natural environment through processes such as composting. The wood content in our work surfaces, tables, and storage unit substrates is made primarily of sawdust generated by other upstream wood process operations. Additionally, wood waste from our operations is burned in our Energy Center, which generates steam that we use in our manufacturing facilities.
- Steel components contain approximately 37 percent recycled content and are 100 percent recyclable.
- Aluminum components are 100 percent recyclable.
- Most metal components are finished using materials that emit negligible volatile organic compounds (VOCs).
- *Returnable Packaging*—Packaging materials for Eames Tables include corrugated cardboard and polyethylene stretch wrap. These materials are part of

a closed-loop recycling system, meaning they can be recycled repeatedly.

—Whenever possible, shipments between Herman Miller and its suppliers include the use of pallets and other returnable packaging to minimize waste.

Manufacturing Process

- *Renewable Energy*—Eames Tables are manufactured in West Michigan using 100 percent renewable energy via renewable energy credits and a power purchase agreement.
- *ISO*—Eames Tables are manufactured in West Michigan at an ISO 14001-certified site.
- *Worker Health and Safety*—Herman Miller strives to meet or exceed OSHA standards. Eames tables are manufactured at an OHSAS 18001-certified site.

Product Performance

- Easy assembly for cost-efficiency and quick parts replacement.
- Easy disassembly for recyclability.
- Modular bases can be configured to support tops up to 22 feet long.
- Designed for durability, an important environmental criterion.
- Backed by Herman Miller's 12-year, 24/7 warranty.

Supplier Support

At Herman Miller, we are committed to working closely with our suppliers to reduce our collective impact on the environment. We not only encourage our suppliers to minimize their operations' environmental impacts, but require they assist us in decreasing our facilities' negative environmental effects, as well.

LEED

Eames Tables may contribute to LEED credits due to its returnable/ reusable packaging, durability, pre-consumer recycled content, and post-consumer content. Depending on location, Eames Tables also may contribute to a LEED Regional Materials credit. The Herman Miller LEED calculator may be found on the websites product pages or contact your Herman Miller representative for detailed LEED information.

Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective March 6, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

--	----------------------------------

Product Information

Description

This table has a stone top and comes with adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a full bullnose edge profile.
Marble tops have a honed finish; quartz tops have a polished finish.
Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

Product Information

Description

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

30"-60" tables have a 1-piece top and single column base. 66"-96" tables have 2-piece tops and a 4-column segmented base.

Laminate and veneer tops 30"-48" diameter are $\frac{7}{8}$ " thick; tops 54"-96" diameter are $1\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops 30"-48" diameter are $\frac{1}{2}$ " thick; tops 54"-60" diameter are $\frac{1}{2}$ " thick with a Formcoat® substructure.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42"-60" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Multiple column tables (66"-96" diameter) may accommodate up to 4 power modules. Four cutouts (C4) option must be specified; cutouts are aligned above the columns. Grommets provide simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

60"-wide to 96"-wide tables have a 1-piece top and 2-column segmented base. 108"-wide tables have 1-piece (laminate) or 2-piece (veneer) tops and a 2-column segmented base.

For 108" wide veneer tables, tops are shipped in 2 equal pieces.

Laminate and veneer tops are $\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are $\frac{1}{2}$ " thick; tops 42" x 84" to 54" x 108" are $\frac{3}{8}$ " thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This table has a stone top and comes with adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a full bullnose edge profile.
Marble tops have a honed finish; quartz tops have a polished finish.
Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

30"-60" tables have a 1-piece top and single column base. 66"-96" tables have 2-piece tops and a 4-column segmented base.

Laminate tops 30"-48" diameter are $\frac{7}{8}$ " thick; tops 54"-96" diameter are $1\frac{1}{8}$ " thick.

Veneer tops 30"-48" diameter are $\frac{3}{4}$ " thick; tops 54"-96" diameter are $1\frac{1}{8}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops 30"-48" diameter are $\frac{1}{2}$ " thick; tops 54"-60" diameter are $\frac{3}{8}$ " thick.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42"-60" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Multiple column tables (66"-96" diameter) may accommodate up to 4 power modules. Four cutouts (C4) option must be specified; cutouts are aligned above the columns. Grommets provide simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This segmented base table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

60"-wide to 96"-wide tables have a 1-piece top and 2-column segmented base.

For veneer tables, 108"-wide to 192"-wide tops are shipped in 2 equal pieces; 216"-wide and 264"-wide tops are shipped in 3 equal pieces.

For laminate tables, 108"-wide tables have a 1-piece top; 120"-wide to 216"-wide tops are shipped in 2 equal pieces; 240"-wide and 264"-wide tops are shipped in 3 equal pieces.

Laminate and veneer tops are 1 $\frac{1}{4}$ " thick.

Thin profile HPL tops are 1/2" thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are 1/2" thick; tops 42" x 84" to 60" x 120" are 3/8" thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)
- Pair of oval power modules (ET993.)
- Oval power module & undermount power (ET994.)
- Pair of oval power modules & undermount power (ET995.)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This segmented base table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

60"-wide to 96"-wide tables have a 1-piece top and 2-column segmented base.

For veneer tables, 108"-wide to 192"-wide tops are shipped in 2 equal pieces; 216"-wide and 264"-wide tops are shipped in 3 equal pieces.

For laminate tables, 108"-wide tables have a 1-piece top; 120"-wide to 216"-wide tops are shipped in 2 equal pieces; 240"-wide and 264"-wide tops are shipped in 3 equal pieces.

Laminate and veneer tops are $1\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are $\frac{1}{2}$ " thick; tops 42" x 84" to 60" x 120" are $\frac{3}{8}$ " thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)
- Pair of oval power modules (ET993.)
- Oval power module & undermount power (ET994.)
- Pair of oval power modules & undermount power (ET995.)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

--	----------------------------------

Product Information

Description

This table has a stone top and comes with adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a full bullnose edge profile.
Marble tops have a honed finish; quartz tops have a polished finish.
Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

Product Information

Description

This table has a stone top and comes with adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a full bullnose edge profile.

Marble tops have a honed finish; quartz tops have a polished finish.

Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

Product Information

Description

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

30"-60" tables have a 1-piece top and single column base. 66"-96" tables have 2-piece tops and a 4-column segmented base.

Laminate and veneer tops 30"-48" diameter are $\frac{7}{8}$ " thick; tops 54"-96" diameter are $1\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops 30"-48" diameter are $\frac{1}{2}$ " thick; tops 54"-60" diameter are $\frac{1}{2}$ " thick with a Formcoat® substructure.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42"-60" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Multiple column tables (66"-96" diameter) may accommodate up to 4 power modules. Four cutouts (C4) option must be specified; cutouts are aligned above the columns. Grommets provide simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

For veneer tables, 108"-wide to 192"-wide tops are shipped in 2 equal pieces; 216"-wide and 264"-wide tops are shipped in 3 equal pieces.

For laminate tables, 108"-wide tables have a 1-piece top; 120"-wide to 216"-wide tops are shipped in 2 equal pieces; 240"-wide and 264"-wide tops are shipped in 3 equal pieces.

Laminate and veneer tops are $\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are $\frac{1}{2}$ " thick; tops 42" x 84" to 60" x 120" are $\frac{3}{8}$ " thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)
- Pair of oval power modules (ET993.)
- Oval power module & undermount power (ET994.)
- Pair of oval power modules & undermount power (ET995.)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This table has a stone top and comes with adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a full bullnose edge profile.
Marble tops have a honed finish; quartz tops have a polished finish.
Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

Eames® Outdoor Occasional Table, Round

ET530
ET531

Product Information

Description

This outdoor table has a stone top or a thin-profile HPL top and comes with adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a honed finish and full bullnose edge profile.

Thin profile HPL top is $\frac{1}{2}$ " thick and always has a black edge.

Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

Product Information

Description

This outdoor table has a stone top or a thin-profile HPL top and comes with adjustable glides. Ships knocked down with assembly required.

Top and base components ship in separate packages.

Notes

Stone top is $\frac{3}{4}$ " thick and has a honed finish and full bullnose edge profile.

Thin profile HPL top is $\frac{1}{2}$ " thick and always has a black edge.

Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks, if not already visible at time of purchase, may appear. Small cracks do not affect the structure of the tabletop.

Stain-to-Match Program

Program Overview

The Stain-to-Match program gives you the option of using veneer finishes that are not listed in the standard offering. The program allows Herman Miller to match a customer's existing recut or natural veneer, or create a new finish that is unique to an installation.

Specific information on approval, ordering, pricing, and warranty for the Stain-to-Match program is listed below. Questions and requests for assistance may be directed to Herman Miller Options at:

(800) 654 3910

Ordering Products with Stain-to-Match Veneers

1. Fill out the Options Stain-to-Match Request Form and send along with a color sample (2" x 3" minimum) to the Herman Miller Options Applications Team at the address provided on the form. The form can be found on Omni.
2. Within 7-10 working days, Herman Miller Options will send a sample of the color-matched stain on Herman Miller veneer to the requester for the customer's signed approval.
3. If the sample meets the customer's approval, sign the reverse side of the sample, scan and email the approval to:
options@hermanmiller.com.
4. After the stain has been approved, a formal quotation with special number and pricing can be provided, or the product can be specified through the Vary Easy program, if available. Work with the Options team on final product needs and how to specify.
5. A purchase order can then be placed.

Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective April 3, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42"-60" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Multiple column tables (66"-96" diameter) may accommodate up to 4 power modules. Four cutouts (C4) option must be specified; cutouts are aligned above the columns. Grommets provide simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

For veneer tables, 108"-wide to 192"-wide tops are shipped in 2 equal pieces; 216"-wide and 264"-wide tops are shipped in 3 equal pieces.

For laminate tables, 108"-wide tables have a 1-piece top; 120"-wide to 216"-wide tops are shipped in 2 equal pieces; 240"-wide and 264"-wide tops are shipped in 3 equal pieces.

Laminate and veneer tops are $1\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are $\frac{1}{2}$ " thick; tops 42" x 84" to 60" x 120" are $\frac{3}{8}$ " thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)
- Pair of oval power modules (ET993.)
- Oval power module & undermount power (ET994.)
- Pair of oval power modules & undermount power (ET995.)

Product Information

Description

This segmented base table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

60"-wide to 96"-wide tables have a 1-piece top and 2-column segmented base.

For veneer tables, 108"-wide to 192"-wide tops are shipped in 2 equal pieces; 216"-wide and 264"-wide tops are shipped in 3 equal pieces.

For laminate tables, 108"-wide tables have a 1-piece top; 120"-wide to 216"-wide tops are shipped in 2 equal pieces; 240"-wide and 264"-wide tops are shipped in 3 equal pieces.

Laminate and veneer tops are 1 $\frac{1}{4}$ " thick.

Thin profile HPL tops are 1/2" thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are 1/2" thick; tops 42" x 84" to 60" x 120" are 3/8" thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)
- Pair of oval power modules (ET993.)
- Oval power module & undermount power (ET994.)
- Pair of oval power modules & undermount power (ET995.)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

30"-60" tables have a 1-piece top and single column base. 66"-96" tables have 2-piece tops and a 4-column segmented base.

Laminate and veneer tops 30"-48" diameter are $\frac{7}{8}$ " thick; tops 54"-96" diameter are $1\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops 30"-48" diameter are $\frac{1}{2}$ " thick; tops 54"-60" diameter are $\frac{1}{2}$ " thick with a Formcoat® substructure.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42"-60" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Multiple column tables (66"-96" diameter) may accommodate up to 4 power modules. Four cutouts (C4) option must be specified; cutouts are aligned above the columns. Grommets provide simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

60"-wide to 96"-wide tables have a 1-piece top and 2-column segmented base. 108"-wide tables have 1-piece (laminate) or 2-piece (veneer) tops and a 2-column segmented base.

For 108" wide veneer tables, tops are shipped in 2 equal pieces.

Laminate and veneer tops are 1 $\frac{1}{4}$ " thick.

Thin profile HPL tops are 1 $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are 1 $\frac{1}{2}$ " thick; tops 42" x 84" to 54" x 108" are $\frac{3}{8}$ " thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991)
- Oval power module (ET992)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

Product Information

Description

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

30"-60" tables have a 1-piece top and single column base. 66"-96" tables have 2-piece tops and a 4-column segmented base.

Laminate and veneer tops 30"-48" diameter are $\frac{7}{8}$ " thick; tops 54"-96" diameter are $1\frac{1}{4}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops 30"-48" diameter are $\frac{1}{2}$ " thick; tops 54"-60" diameter are $\frac{1}{2}$ " thick with a Formcoat® substructure.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42"-60" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Multiple column tables (66"-96" diameter) may accommodate up to 4 power modules. Four cutouts (C4) option must be specified; cutouts are aligned above the columns. Grommets provide simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

For veneer tables, 108"-wide to 192"-wide tops are shipped in 2 equal pieces; 216"-wide and 264"-wide tops are shipped in 3 equal pieces.

For laminate tables, 108"-wide tables have a 1-piece top; 120"-wide to 216"-wide tops are shipped in 2 equal pieces; 240"-wide and 264"-wide tops are shipped in 3 equal pieces.

Laminate and veneer tops are 1 $\frac{1}{4}$ " thick.

Thin profile HPL tops are 1 $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops up to 42" x 78" are 1 $\frac{1}{2}$ " thick; tops 42" x 84" to 60" x 120" are $\frac{3}{8}$ " thick with a Formcoat® substructure.

Tables may be specified with cutouts for power in various configurations. Round cutouts align with columns, and oval cutouts are centered between columns.

Order the following compatible power components separately:

- Round power module (ET991.)
- Oval power module (ET992.)
- Pair of oval power modules (ET993.)
- Oval power module & undermount power (ET994.)
- Pair of oval power modules & undermount power (ET995.)

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

**Product Information****Description**

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

Tables have a 1-piece top and single column base.

Laminate and veneer tops are $\frac{7}{8}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops are $\frac{1}{2}$ " thick.

30" and 36" diameter tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42" and 48" diameter tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.

**Product Information****Description**

This table has a laminate or veneer top with vinyl edge, a veneer top and edge, a thin-profile HPL top with black edge, or a back-painted glass top with modified bullnose edge. Table may be specified with cutouts to accommodate simple power options (specified separately). Each table has adjustable glides or casters. Shipped knocked down.

Notes

Tables have a 1-piece top and single column base.

Laminate and veneer tops are $\frac{7}{8}$ " thick.

Thin profile HPL tops are $\frac{1}{2}$ " thick.

Glass tops are back-painted, with a satin etch finish to reduce the appearance of fingerprints. Tops are $\frac{1}{2}$ " thick.

30" and 36" tables may only accommodate USB access. Single center cutout (CC) grommet option must be specified. Grommet option is a non-functional hole plug. For USB access, order round dual USB charging unit (ET990.) separately.

42" and 48" tables may accommodate power. Single center cutout (CC) grommet option must be specified. Grommet provides simple pass-through with wire management features and a hinged lid. For power access, order round power module (ET991.) separately.

Santos palisander veneer is celebrated for its unique grain and color variations. Similar products ordered in multiples or dissimilar products ordered separately should be expected to have variation in both grain and color characteristics; no two products will look exactly alike.
