

HermanMiller
Keyn Chair Group™

Responsive movement and immediate
comfort for collaborative spaces

Keyn Chair Group by Herman Miller™
Designed by forpeople

The Keyn Chair Group offers a range of side and meeting chairs that can easily reflect the personality of any organization through a meaningful range of options and upholstery selections. By allowing the one-piece seat-and-back shell to slide smoothly and provide a controlled, fluid recline, Keyn helps people stay comfortable and remain focused by naturally and frequently changing postures.

Keyn is also versatile in appearance and function. A range of looks can be achieved by combining bases, shell and frame finishes, arm selections, and a broad choice of upholstery materials. Four-leg chairs can easily be stacked and stowed when not in use. With Keyn's four-star base option, the chair's return-to-center swivel ensures that meeting spaces always look great, even when they're not in use.

Performance

For sitting to be as healthful as possible, people should change positions frequently. Keyn makes this possible by responding to the body's movements. Its patented mechanism allows the one-piece seat-and-back shell to slide smoothly and provide a controlled, fluid, 10-degree recline so that people can move naturally and feel comfortable. This sense of ease allows the mind to focus, which can help increase productivity while people are collaborating or during meetings.

As you shift and adjust your posture, Keyn responds to you. The chair smoothly reclines up to 10 degrees.

Keyn's perforated pattern adds textural depth, further distinguishing the design and contributing to its lightweight aesthetic. It also adds aeration in the backrest.

Keyn can be bold and playful or sophisticated and subdued, allowing it to find a home anywhere from the meeting room to the cafeteria to a private office.

Design

A key consideration of forpeople's design approach was to ensure that each variation of the chair had the same universal appeal. A refined design was achieved based on four key parts: the base, cradle, seat shell, and a selection of upholstery options. Keyn's global availability makes it an appealing choice for customers with locations around the world seeking consistency from site to site.

About forpeople

Most people have probably flown, driven, watched, eaten, spoken on, stayed in, or sat on a design from forpeople, but you may never have heard of them. That's because with forpeople, the work always comes before publicity. The firm has been collaborating with Herman Miller since 2009. It's been a natural partnership, since both companies see things much the same way: the continuous search for new perspectives and insights, brought to life through problem-solving design, cutting-edge engineering, and responsible manufacturing. All with the aim of improving how people work and live every day.

Joohee Lee and Richard Stevens

Materials

With Keyn, a meaningful range of looks can be achieved by combining bases, shell and frame finishes, arm selections, and a broad choice of upholstery materials. Visit hermanmiller.com/materials to see our complete textile and materials offering.

Environmental Product Summary

The Keyn Chair Group by Herman Miller™

Design Story:

The Keyn Chair Group, designed by the London firm for people, is a collection of meeting and side chairs for collaborative spaces with a sliding one-piece seat and back that offers immediate comfort. Observations of meetings showed that people continuously shift in their seats, leaning forward or stretching back, typically up to 53 times an hour, so early on in the process, the designers knew they wanted the chair to move. People expect movement in their task chair, so it made perfect sense that a chair for collaborative spaces should support and respond to those movements too.

Herman Miller's Design Protocol

Our commitment to corporate sustainability naturally includes minimizing the environmental impact of each of our products. Our Design for Environment team (DfE) applies environmentally sensitive design standards to both new and existing Herman Miller products.

The DfE Design Protocol goes beyond regulatory compliance to thoroughly evaluate new product designs in four key areas:

- *Material Chemistry and Safety of Inputs*—What chemicals are in the materials we specify, and are they the safest available?
- *Disassembly*—Can we take products apart at the end of their useful life, to recycle their materials?
- *Recyclability*—Do the materials contain recycled content, and more importantly, can the materials be recycled at the end of the product's useful life?
- *LCA*—Have we optimized the product based on the entire life cycle?

level® Certification

The Keyn Chair Group is level 2 certified. The level conformance mark ensures a comprehensive, independent, and impartial assessment of the environmental and social impacts of a product. For more information, go to www.levelcertified.org.

GREENGUARD Certified

The Keyn Chair Group has achieved GREENGUARD and GREENGUARD Gold Certifications. GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg.

Material Content*

The Keyn Chair Group components are constructed from aluminum, foam, plastic, and steel.

The Keyn 4-Star Base Chair is up to 70 percent recyclable based on availability of recycling facilities. The Keyn 4-Leg Base Chair without Arms is up to 95 percent recyclable based on availability of recycling facilities. The Keyn 4-Leg Base Chair with Arms is up to 96% recyclable based on availability of recycling facilities.

The Keyn 4-Star Base Chair is comprised of 57-percent recycled materials. This figure breaks down to 56-percent post-consumer and 1-percent pre-consumer recycled content. The Keyn 4-Leg Base Chair without Arms is comprised of 19-percent recycled materials. This figure breaks down to 16-percent post-consumer and 3-percent pre-consumer recycled content. The Keyn 4-Leg Base Chair with Arms is comprised of 18% recycled materials. This figure breaks down to 15-percent post-consumer and 3% -percent pre-consumer recycled content.

Environmental Product Summary

The Keyn Chair Group by Herman Miller

Material Content

Keyn – 4-Star Base Chair

Keyn – 4-Leg Base Chair without Arms

Keyn – 4-Leg Base Chair with Arms

Recycled Content

Keyn – 4-Star Base Chair

Keyn – 4-Leg Base Chair without Arms

Keyn – 4-Leg Base Chair with Arms

- Steel components contain approximately 37 percent recycled content and are 100 percent recyclable.
- Die-cast aluminum components are typically made from more than 85-percent recycled material and are 100 percent recyclable.
- Most metal components are finished using materials that emit negligible volatile organic compounds (VOCs).
- Plastic components are identified with an ASTM recycling code whenever possible, to aid in returning these materials to the recycling stream.

- *Returnable/Recyclable Packaging*—Packaging materials include corrugated cardboard and a polyethylene plastic bag. These materials are part of a closed-loop recycling system, meaning they can be recycled repeatedly.
 - Whenever possible, shipments between Herman Miller and its suppliers include the use of pallets and other returnable packaging to minimize waste.
 - On large North American orders, disposable packaging can be replaced with reusable shipping blankets.

Environmental Product Summary

The Keyn Chair Group by Herman Miller

Manufacturing Process

- *Renewable energy and Emissions*—The Keyn Chair Group is manufactured at Herman Miller's GreenHouse seating operations in West Michigan using 100 percent renewable energy via renewable energy credits and a power purchase agreement. No air or water emissions are released in The Keyn Chair Group's production.
- The GreenHouse is also a LEED Pioneer building.
- *ISO*—The GreenHouse is within the scope of Herman Miller's ISO 14001 certified environmental management system.
- *Worker Health and Safety*—Herman Miller strives to meet or exceed OSHA standards. The GreenHouse is within the scope of Herman Miller's OHSAS 18001 certified safety management system.

Product Performance

- Easy assembly for cost-efficiency and quick parts replacement.
- Easy disassembly for recyclability.
- Designed for durability, an important environmental criterion.
- Backed by Herman Miller's 12-year, 24/7 warranty.

Corporate Sustainability Policy

For more information on Herman Miller's Corporate Sustainability Policy and other environmental efforts, please visit HermanMiller.com/environment.

Supplier Support

At Herman Miller, we are committed to working closely with our suppliers to reduce our collective impact on the environment. We not only encourage our suppliers to minimize their operations' environmental impacts, but require they assist us in decreasing our facilities' negative environmental effects, as well.

LEED

The Keyn Chair Group may contribute to LEED credits due to its returnable/reusable packaging, durability, pre-consumer recycled content, and post-consumer content. Depending on location, The Keyn Chair Group also may contribute to a LEED Regional Materials credit. The Herman Miller LEED calculator may be found on the website's product pages or contact your Herman Miller representative for detailed LEED information.

rePurposeSM Program

Good design includes thinking about how to recycle used products. Our program, rePurpose, gives new life to furniture that's no longer needed. By employing a thoughtful combination of resale, recycling, and donation on each project, rePurpose ensures each asset, including furniture, equipment, and supplies, reaches its best destination. The rePurpose program is a cost-effective, reliable, and efficient service that protects the environment and benefits the community. rePurpose is a single-source approach, which saves time and money, eliminates liability, and keeps 99 percent of product out of landfills. Its robust web-based reporting helps organization of all types and sizes align economic, environmental, and social goals. Want to learn more about rePurpose? Contact us at rePurpose@hermanmiller.com.

It's important to note that no interior furnishings, individually or collectively, can guarantee a specific number of points for LEED certification.

Herman Miller complies with the Federal Trade Commission's Part 260 Guides for the Use of Environmental Marketing Claims.

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective February 6, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Keyn Chair 4-Leg Base

Keyn Chair 4-Star Base

4-Leg Base

KNN4S

Product Information

Description

This stacking chair has a tubular steel base, a molded 1-piece seat and back shell that is flexible, perforated, contoured and reclines up to 10°. The 4-leg base is available with casters or glides. This lightweight and mobile chair is available with and without arms.

Notes

Chair with no arms weighs 16 pounds. Chair with arms weighs 18 pounds.

Stacking chair is tested and warranted for use by persons 300 pounds and under.

Cradle connects base and shell while supporting the arms.

Acetal glide (AGL) recommended for carpet only.

Floor saver glide (FSG) recommended for hard floors.

Keyn chairs specified with leather, vinyl, or polyurethane seats may have temporary indentations after stacking in climates with excessive heat.

These indentations will disappear with regular use after a few days.

Customer's Own Material/Customer's Own Leather Order Information — Seating

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Customer's Own Material/Customer's Own Leather

Program Overview

The Customer's Own Material (COM) and Customer's Own Leather (COL) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM/COL textiles only. COM/COL are assigned lead-time textiles.

Omni lists an overview of fabrics and leathers that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM/COL is listed below. Questions about the COM/COL program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 3400

Customer's Own Material/Customer's Own Leather Warranty

Herman Miller does not warrant COM/COL textiles. COM/COL textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM/COL textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material/Customer's Own Leather Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Textile Approval

1. Select a COM/COL textile and a Herman Miller product.
2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, roll width, and the product you will apply it to.

Additional yardage may be needed due to the unique characteristics of a textile. All package labels must include the words "COM test" or "COL test" and the assigned COM/COL test number.

3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM/COL

1. Refer to the specific products to determine the yardage required for COM/COL textiles.
2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 3400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order. Additional yardage may be needed due to the unique characteristics of a textile.
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 3400.

Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400
(866) 854 3048 EXT 3400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplier's prices published at the time of the order.

Textile Approval

1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.
