Public Office Landscape

Based on the belief that the more people connect, the better they work, Public transforms every part of the office—including individual desks—into places for collaboration. It's the first office system to support casual work and to provide comfort at the desk, in circulation spaces, and in group areas—all within a consistent design vocabulary. Visually uniform and modular surfaces, storage, and seating can be configured into a broad range of settings that encourage fluid transitions between collaborative and focused work.

HermanMiller
Public Office Landscape®

Living Office®

Living Office helps people customize their methods, tools, and places of work to express and enable shared character and purpose. It is based on what is fundamental to all and evolves continuously in response to change. It is a more natural and desirable workplace that fosters greater connection, creativity, productivity, and, ultimately, greater prosperity for all.

Public Office Landscape

Designed by Yves Béhar and fuseproject, 2013

In the new landscape of work, technology enables us to work anywhere and to collaborate virtually. Despite this, people continue to be drawn to the office for work and interaction. At Herman Miller, we believe office landscapes that encourage people to work together foster greater productivity and enhance everyone's ability to generate ideas.

Through global research, we've learned that 70 percent of workplace collaboration happens at the desk. Most of these interactions are brief, typically lasting three to five minutes. At the same time, people—supported by mobile technology—are spending more time away from their individual workspaces.

Based on the belief that the more people connect, the better they work, Public transforms every part of the office—including individual desks—into places for collaboration. It's the first office system to support casual work and to provide comfort at the desk, in circulation spaces, and in group areas—all within a consistent design vocabulary. Visually uniform and modular surfaces, storage, and seating can be configured into a broad range of settings that encourage fluid transitions between collaborative and focused work.

Designer Story

Understanding the importance of collaboration in the workplace and knowing that it happens most often at the desk, Yves Béhar and his team began investigating solutions that would merge casual parts of the office environment with spaces where people work, evenly spreading collaborative zones throughout the floorplan. As a starting point, they explored solutions that would bring a new level of ergonomics to casual and group seating.

Béhar's concept proposed collaborative areas in close proximity to and as a part of individual workspaces. The design would encourage the type of productive interaction that drives organizations forward.

During the development process, Béhar tested prototypes at the fuseproject office in San Francisco. He and his team worked among the evolving design for 18 months and used their experiences to inform and refine the concept.

Collaborative Flow

We believe collaboration isn't exclusive to conference rooms or desks; it happens everywhere. Public was designed to support fluid interactions and spontaneous conversations across the entire landscape, keeping the office in a state of flow, where people are engaged, focused, and able to move freely between collaborative and individual modes of work.

Casual Performance

The Social Chair is the core component of the Public system. It brings a new level of ergonomics and functionality to soft seating by accommodating a range of people and postures as they work. The chair encourages the purposeful interactions that drive work—at the desk, in group areas, and throughout the entire office.

Both literally and figuratively, the Social Chair is designed for connection. Its open, inviting shape encourages people to sit and interact, while its top surface seamlessly links to desks, storage units, and other Social Chairs.

With the Social Chair, people don't have to choose between ergonomic seating for work and casual seating for lounging. The chair's innovative design pares materials to a minimum, giving the seat and back the flexibility to accommodate comfortable movement through a variety of postures and activities.

Vibrant and Varied

With a modular kit of parts, Public enables people to work how and where they want. Casual group areas become destinations for brainstorming, teamwork, presentations, and meetings. Individual workspaces facilitate sharing and interaction, or productivity and privacy.

Public elements can be arranged into configurations that express culture and foster belonging—and that can evolve as needs change. Layers of color and material create visual consistency and enhance the flow of movement from individual to group activities, and from private to shared spaces.

The Social Chair offers a solution for the entire office landscape by serving as a foundational element for community areas, team spaces, and individual desks. The versatile design is streamlined, visually light, and remarkably comfortable—achieved with a fraction of the material used for traditional upholstered soft seating. The chair's internal supports are made of a patented polymer that maintains elasticity without losing its shape, providing people with ergonomic responsiveness.

Public is a flexible system that can be configured and reconfigured to suit an organization's needs. Assemblages of Public's components form group spaces that enable collaboration in close proximity to individual desks. With tools and technology to support the unique needs of groups, these highly functional spaces allow people to work together more effectively and productively.

Environmental Product Summary

Public Office Landscape®

Design Story: Designed to Evolve

Yves Béhar, designer of Public Office Landscape, has long been a practitioner of environmentally sensitive design. In a recent interview, he opined: “We need to design for the future. And that means we need to design with notions of intelligence and the digitalization of the world, of the reduction of materials, of the reduction of energy.”

Nowhere is this this belief more apparent than in Public's design—a system of highly versatile elements that can be reconfigured as an organization grows and evolves. This adaptability eliminates the need to acquire a new system and dispose of the old—good for both the environment and the bottom line.

Public uses a minimal amount of materials to achieve a system that transforms every part of the office—including individual desks—into places for collaboration. It's the first office system to support casual work and provide comfort at the desk, in circulation spaces, and in group areas—all within a consistent design vocabulary.

Herman Miller's Design Protocol

Our commitment to corporate sustainability naturally includes minimizing the environmental impact of each of our products. Our Design for Environment team (DfE) applies environmentally sensitive design standards to both new and existing Herman Miller products.

The DfE Design Protocol goes beyond regulatory compliance to thoroughly evaluate new product designs in four key areas:

- *Material Chemistry and Safety of Inputs*—What chemicals are in the materials we specify, and are they the safest available?

- *Disassembly*—Can we take products apart at the end of their useful life, to recycle their materials?
- *Recyclability*—Do the materials contain recycled content, and more importantly, can the materials be recycled at the end of the product's useful life?
- *LCA*—Have we optimized the product based on the entire life cycle?

level® Certification

Public Office Landscape is level 3 certified. The level conformance mark ensures a comprehensive, independent, and impartial assessment of the environmental and social impacts of a product. For more information, go to www.levelcertified.org.

FSC® Certification

Herman Miller has Forest Stewardship Council® (FSC) chain of custody certification and offers certain standard laminate and veneer worksurfaces and storage products with wood fronts and tops, with exceptions, as FSC-certified products. For a detailed list of these products and exceptions, please visit HermanMiller.com/certified-wood.

GREENGUARD Certified

Public Office Landscape has achieved GREENGUARD and GREENGUARD Gold Certifications. GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg.

Material Content*

Public Office Landscape components are constructed from steel, wood, plastic, fiberglass, foam, fabric, and other materials.

Environmental Product Summary

Public Office Landscape

Materials

Social Chair

Hive

Cove

Public Office Landscape components are up to 95 percent recyclable based on availability of recycling facilities.

- Public Office Landscape Social Chair—95% recyclable
- Public Office Landscape Hive—65% recyclable
- Public Office Landscape Cove—64% recyclable

Public Office Landscape components are comprised of approximately 25-percent to 49-percent recycled materials. This figure breaks down as:

- Public Office Landscape Social Chair—21% post-consumer and 4% pre-consumer

Recycled Content

Social Chair

Hive

Cove

- Public Office Landscape Hive—18% post-consumer and 31% pre-consumer
- Public Office Landscape Cove—16% post-consumer and 19% pre-consumer

- Steel components contain approximately 37 percent recycled content and are 100 percent recyclable.
- Wood, while not technically recyclable, can be cycled back to the natural environment through processes such as composting. The wood content in our work surfaces, tables, and storage unit substrates is made primarily of sawdust generated

Environmental Product Summary

Public Office Landscape

by other upstream wood process operations. Additionally, wood waste from our operations is burned in our Energy Center, which generates steam that we use in our manufacturing facilities.

- All veneers used are purchased from suppliers practicing responsible forestry techniques.
 - Approximately 60 to 80 percent of veneers are derived from domestically grown woods, notably cherry.
 - Responsibly harvested, rapidly renewable bamboo work surface veneer is also available.
 - All veneers are adhered to the substrate with water-based glues to minimize air emissions.
- Plastic components are identified with an ASTM recycling code whenever possible, to aid in returning these materials to the recycling stream.
- *Returnable Packaging*—Public Office Landscape’s packaging materials include corrugated cardboard and expanded polystyrene foam. These materials are part of a closed-loop recycling system, meaning they can be recycled repeatedly.
 - Whenever possible, shipments between Herman Miller and its suppliers include the use of pallets and other returnable packaging to minimize waste.
 - On large North American orders, disposable packaging can be replaced with reusable shipping blankets.
- *Renewable Energy*—Public Office Landscape is manufactured in West Michigan using 100 percent renewable energy via renewable energy credits and a power purchase agreement.
- *ISO*—Public Office Landscape is manufactured in West Michigan at an ISO 14001-certified site.
- *Worker Health and Safety*—Herman Miller strives to meet or exceed OSHA standards. Public Office Landscape is manufactured at an OHSAS 18001-certified site.

Product Performance

- Designed for minimal material use, reduced energy requirements, easy reconfiguration, and durability.
- Backed by Herman Miller’s 12-year, 24/7 warranty.

Corporate Sustainability Policy

For more information on Herman Miller’s Corporate Sustainability Policy and other environmental efforts, please visit HermanMiller.com/environment.

Supplier Support

At Herman Miller, we are committed to working closely with our suppliers to reduce our collective impact on the environment. We not only encourage our suppliers to minimize their operations’ environmental impacts but require they assist us in decreasing our facilities’ negative environmental effects, as well.

LEED

Public Office Landscape may contribute to LEED credits due to its returnable/reusable packaging, durability, pre-consumer recycled content, and post-consumer content. Depending on location, Public Office Landscape also may contribute to a LEED Regional Materials credit. The Herman Miller LEED calculator may be found on the websites product pages or contact your Herman Miller representative for detailed LEED information.

rePurposeSM Program

Good design includes thinking about how to recycle used products. Our program, rePurpose, gives new life to furniture that’s no longer needed. By employing a thoughtful combination of resale, recycling, and donation on each project, rePurpose ensures each asset, including furniture, equipment, and supplies, reaches its best destination. The rePurpose program is a cost-effective, reliable, and efficient service that protects the environment and benefits the community. rePurpose is a single-source approach, which saves time and money, eliminates liability, and keeps 99 percent of product out of landfills. Its robust web-based reporting helps organization of all types and sizes align economic, environmental, and social goals. Want to learn more about rePurpose? Contact us at rePurpose@hermanmiller.com.

It’s important to note that no interior furnishings, individually or collectively, can guarantee a specific number of points for LEED certification.

Herman Miller complies with the Federal Trade Commission’s Part 260 *Guides for the Use of Environmental Marketing Claims*.

Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective February 6, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Social Chair

BVS1N.

Product Information

Description

This chair has an upholstered foam seat on an expanded polypropylene base, with a Network-wrapped suspension back. The chair can be freestanding next to a desk or connected to other social chairs or café tables. It accepts the attachment of screens. It comes with legs for freestanding applications or without legs when attached to other chairs. Legs have glides that provide up to 2" of adjustment.

Notes

- Chair supports attachment of 2 screens.
- When specified without legs, order seating legs (BVS3.) separately.
- Network color and back loop frame color will match.
- Seat fabric is railroaded.
- Customers Own Material can only be specified for seat fabric. See Customers Own Material Order Information in appendices.
- Seat accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics. Order 2.16 yards of fabric per cushion.
- For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Desk

BVD1.

Public Office Landscape® Desking and Storage

Product Information

Description

Desks have 4 legs and are intended to connect with other desks and connecting bins. Desks have a laminate, veneer, or Formcoat® squared-edge work surface with a painted steel understructure bin on 1 side and a steel shelf with a bag hook on the other side. Desks will support a screen on the shelf side, and on the bin side when the bin does not have doors, and will accommodate desktop dividers. Understructure bins come in left or right orientation, with or without doors. Bin divider included. Legs have glides that provide up to 2" of adjustment.

Power bridge desk allows power to be run from desk-bin side to L-shelf side of the desk to accommodate powering other desks or café surfaces from a single power entry point. The desk bin and L-shelf have the same appearance as on the power access desk, but have different internal structures and components to support power across the desk.

Notes

To connect desk to a connecting bin (BVD2.) or another desk (BVD1.), order desk and bin ganging plate (BVD5.C) separately.

All connecting bins (BVD2.) require the use of both bin-to-bin and desktop-to-desktop ganging plates. Order desk and bin ganging plate (BVD5.C) separately.

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Desk accepts modular power (BVEo1., BVEo2.) through the bottom of the understructure bin.

To bring power to the surface of a desk, order Logic Mini, Grommet Mount (Y1414.) separately.

Bin divider is field installed and can be specified in a complementary color.

Grommet color is either black or white, matched to the work surface color.

Bag hook color is matched to shelf color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified desk finish:

- Graphite (G1) desk will have black (BK) glides
- Metallic silver (MS) desk will have fog (63) glides
- White (g1) desk will have folkstone grey (8Q) glides

Power bridge desk includes cable management channel and L-shelf cover for beam connection.

Power access desk can be ordered with or without doors. The power bridge desk can only be ordered without doors, to accommodate the power bridge components.

See Planning Guide for more information about settings.

BVD2.

Product Information

Description

Connecting bins have 2 legs and are intended to connect with desks and other connecting bins. Connecting bins have a laminate, veneer, or Formcoat® top surface with a painted steel understructure bin. They come with or without doors, and allow power pass-through. Connecting bin will support a screen when the bin does not have doors. Bin divider included. Legs have glides that provide up to 2" of adjustment.

Notes

Connecting bins are not freestanding and will not support screens.

All connecting bins require the use of both bin-to-bin and desktop-to-desktop ganging plates. Order desk and bin ganging plate (BVD5.C) separately.

For stability when connecting to a desk (BVD1.) or another connecting bin (BVD2.), use both desktop-to-desktop and bin-to-bin ganging plates (BVD5.C), ordered separately.

The exposed end of the connecting bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Bin divider is field installed and can be specified in a complementary color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:

- Graphite (G1) bin will have black (BK) glides
- Metallic silver (MS) bin will have fog (63) glides
- White (G1) bin will have folkstone grey (8Q) glides

See planning guide for more information about settings.

Upper Bin

BVD3.

Product Information

Description

The upper bin sits on top of a desk, connecting bin, or freestanding bin. Upper bins have a laminate, veneer, or Formcoat® top surface with a painted steel frame.

Notes

Upper bin does not require a desk and bin finishing kit.
Bin divider is field installed and can be specified in a complementary color.

Freestanding Bin

BVB1.

Product Information

Description

This freestanding bin has 4 legs and provides shared storage. It has a laminate, veneer, or Formcoat® work surface with a painted steel understructure bin. It is available with or without power access, with or without doors, and accepts screen attachment. Legs have glides that provide up to 2" of adjustment. Bin divider included.

Notes

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

To connect to other freestanding bins, order desk and bin ganging plate (BVD5.) separately.

Freestanding bins do not allow power pass-through, but can be ordered with grommets to accommodate power at the top surface.

To bring power to the surface of a freestanding bin with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Bin divider can be specified in a complementary color.

Grommet color is either black or white, matched to the work surface color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:

- Graphite (G1) bin will have black (BK) glides
- Metallic silver (MS) bin will have fog (63) glides
- White (g1) bin will have folkstone grey (8Q) glides

Half Bin

BVB2.

Product Information

Description

This bin creates a bridge in group settings that include sectional seating and screens. It has a laminate, veneer, or Formcoat® top surface with a painted steel bin. It comes with doors, and accepts screen attachment. Legs have glides that provide up to 2" of adjustment. Ganging hardware included.

Notes

Half bin must be attached to 2 chairs.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:

Modular Power Entry

BVE01.

Public Office Landscape® Power

Product Information

Description
 This power entry connects a buildings electrical supply from a wall, floor, or column to a desk or connecting bin. It enters through the bottom of the desk or bin. The power entry plugs into any of the ports on the power block and includes a cable that can be field cut to the appropriate length. Cord comes in 6', 10', and 20' lengths. UL listed and Canadian UL listed.

Notes
 A licensed electrician must wire power entry.

Power Block-to-Power Block Jumper

BVE05.

Product Information

Description

This power jumper connects power block to power block in desks and connecting bins. UL listed and Canadian UL listed.

Notes

The 29" jumper distributes power through adjacent desk bin and connecting bin raceways. It connects power blocks in desk back-to-back and offset back-to-back configurations with side-to-side desk bins.

The 52" jumper distributes power through back-to-back desk bin or connecting bin raceways. This jumper includes cover to house jumper outside of the bin.

The 116" jumper distributes power between the power bridge desk (BVD1.xxxxB) in applications where the social chair and/or café table configuration is used in conjunction with the desk.

The 134" jumper distributes power underneath the desk surface of the power bridge desk (BVD1.xxxxB).

See Planning Guide for more information about settings.

Product Information

Description
 This electrical distributor plugs directly into floor, wall, or ceiling drop outlets. Each module configuration presents the same visual appearance. Cable clips and attachment hardware included. Product is UL listed.

Notes

Cable clips for cord management are intended for a 1-time installation. Clamp versions can be reoriented in the field by a technician. A small LED light illuminates through the USB ports when the USB version is plugged in and powered. USB ports provide 10-watt power to charge most devices and tablets at full speed. Cord color is predetermined. For white (g1) finish cords will be white. For graphite (G1) finish cords will be black.

Product Information

Description

This kit includes beam to route power jumper and data between power bridge access desks positioned L-shelf-to-L-shelf with or without social chairs and café table between desk configurations. Attachment hardware included. Power components must be ordered separately.

Notes

Receptacle over only option (NB) supports desk back-to-back configurations with a single or double café and power bridge desk located on left or right side.

Jumper tray only option (oo) covers the power block and desk jumper in back-to-back L-shelf configurations with the power bridge desk.

Short bridge option (29) connects L-shelf-to-desk bin configurations with a single social chair between desks. At least 1 desk must be the power bridge desk.

Long bridge option (87) connects L-shelf-to-L-shelf in desk side-to-side configurations with a café table between the power bridge desks.

See Planning Guide for more information about settings.

Single Café Table

BVT1.

Public Office Landscape® Tables

Product Information

Description
 This single café table comes with a laminate, veneer, or Formcoat® squared-edge work surface. It has a painted steel shelf, accepts a single 29"-wide screen, and is available with or without power access. Café table includes bag hook. Attachment hardware included.

Notes
 Single café table cannot stand alone and must attach between 2 social chairs (BVS1N.).
 Power access comes with single grommet to accommodate power at the surface. Grommet color is either black or white, matched to the work surface color.
 To bring power to the surface of a single café table with power access, order Logic Mini, Grommet Mount (Y1414.) separately.
 Bag hook color is matched to shelf color.

Peninsula Table

BVT4.

Public Office Landscape® Tables

Product Information

Description

This peninsula table comes with a laminate, veneer, or Formcoat® squared-edge work surface. It has a painted steel understructure bin, a column leg, and 2 grommets in the back of the surface. It is available with or without an additional cutout for power access and accepts a single 42"-wide screen. Legs have glides that provide up to 2" of adjustment. Bin divider included.

Notes

To connect peninsula table to other freestanding bins, order desk and bin ganging plate (BVD5.) separately.

Bin divider color is specified separately.

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Grommet color is either black or white, matched to the work surface color.

To bring power to the surface of a peninsula table with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Doors are not available for the peninsula table understructure bin.

Product Information

Description

Screens attach to social chairs, sectional seats, desks, single café tables, peninsula tables, and freestanding bins. They are tackable, have a single fabric covering the entire screen, and come in 2 widths and 3 heights. Attachment is by a push-button mechanism.

Notes

For attachment to a social chair (BVS1N.), sectional seat (BVS2N.), single café table (BVT1.) and 29" freestanding bin (BVB1.29), specify 29"-wide screen. For attachment to peninsula table (BVT4.) and 42" freestanding bin (BVB1.42), specify 42"-wide screen.

Applications with adjacent screens in a line or at a corner require alignment clip (BVP3.), ordered separately.

Screens accept whiteboard overhang (BVP4.), ordered separately.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

Height—Yardage

- 42—2.33
- 54—3.09
- 68—3.97

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon **A** will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an **A** are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:
(616) 654 3085.

For more information, contact your Customer Care representative at:
(866) 854 3048 EXT 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Customer's Own Material Order Information — Workspaces

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 3400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, and the product you will apply it to.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM

1. Refer to the specific products to determine the yardage required for COM textiles.
2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 3400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order.

Note: Yardage requirements are based on nondirectional, 54"-wide textiles. 66"-wide textiles are needed for application on 60"-wide products. Additional yardage may be needed due to the unique characteristics of a textile.

3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 3400.

Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Customer's Own Material Order Information — Workspaces

continued

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 3400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplier's prices published at the time of the order.

Textile Approval

1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

Customer's Own Material/Customer's Own Leather Order Information — Seating

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Customer's Own Material/Customer's Own Leather

Program Overview

The Customer's Own Material (COM) and Customer's Own Leather (COL) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM/COL textiles only. COM/COL are assigned lead-time textiles.

Omni lists an overview of fabrics and leathers that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM/COL is listed below. Questions about the COM/COL program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 3400

Customer's Own Material/Customer's Own Leather Warranty

Herman Miller does not warrant COM/COL textiles. COM/COL textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM/COL textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material/Customer's Own Leather Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Textile Approval

1. Select a COM/COL textile and a Herman Miller product.
2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, roll width, and the product you will apply it to.

Additional yardage may be needed due to the unique characteristics of a textile. All package labels must include the words "COM test" or "COL test" and the assigned COM/COL test number.

3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM/COL

1. Refer to the specific products to determine the yardage required for COM/COL textiles.
2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 3400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order. Additional yardage may be needed due to the unique characteristics of a textile.
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 3400.

Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 3400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplier's prices published at the time of the order.

Textile Approval

1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

2016

Herman Miller was recognized by the Michigan Minority Supplier Development Council (MMSDC), as a "Corporation of the Year" and was the only company in West Michigan to receive an "Ambassadors Championing Excellence" Award from the MMSDC this year.

Contract Information

continued

Herman Miller received a “2016 Excellence in Supplier Diversity Award” from the Great Lakes Women’s Business Council.

Herman Miller was named a 2020 Women on Boards Winning Company. Companies selected for this recognition are considered champions of board diversity as 20 percent or more of their board seats are occupied by women.

Herman Miller was selected for inclusion in the 2016 RobecoSAM Sustainability Yearbook for twelfth consecutive year.

2004-2015

Herman Miller was recognized for its commitment to best-in-class economic, environmental, and societal sustainability, earning a spot on the prestigious Dow Jones Sustainability Index (DJSI) for 12 consecutive years. We are one of 317 companies worldwide to be included in the DJSI World Index, and the only contract furniture company recognized globally for its corporate sustainability leadership.

2015

This is the fourth consecutive year that Herman Miller was named one of Michigan’s Best and Brightest Sustainable Companies.

Herman Miller has received the Forest Stewardship Council (FSC) Leadership Award for longstanding commitment to manufacturing with wood sourced from responsibly managed forests. Herman Miller was recognized for being dedicated to reducing environmental impacts by protecting against deforestation and forest degradation.

Herman Miller accepted its second Excellence in Reusable Packaging Award from the Reusable Packaging Association. We were acknowledged for eliminating more than 28,000 tons of corrugated waste from piling up in landfills.

Herman Miller received a Michigan Business Pollution Prevention (MBP₃) Certificate – a recognition given by the Michigan Department of Environmental Quality (MDEQ) to organizations committed to environmental stewardship, conservation, and sustainable operations.

Fast Company named Herman Miller as one of the World’s Top 10 Most Innovative Companies of 2015 in Design.

Renew Sit-to-Stand tables recognized on Record Products 2014 list by Architectural Record.

Herman Miller was again awarded a perfect score in the 2015 Corporate Equality Index.

2014

Herman Miller’s Locale wins International Design Excellence Awards (IDEA) Gold in the Office & Productivity category.

2013

Herman Miller Earns Perfect Score on the Corporate Equality Index. We are one of only 303 major U.S. businesses to receive a perfect score in 2013, an achievement we have now obtained seven years in a row.

Herman Miller is listed in Forbes Magazine inaugural “Platinum List” of America’s 400 best managed, large companies.

For the second consecutive year, Herman Miller is honored as one of West Michigan’s “101 Best and Brightest Sustainable Companies”.

2012

Architectural and design professionals participating in *Contract* magazine’s 2011 Brand Report Awareness Survey have once again named Herman Miller and its subsidiaries as their preferred source for key furnishings in the workplace and healthcare environments.

Herman Miller is named “Corporation of the Year” in the commercial products sector by the Michigan Minority Supplier Development Council.

Herman Miller was inducted into the Made in the USA Hall of Fame. Herman Miller was one of only 20 companies across the nation to receive this distinction. The Hall of Fame showcases exceptional U.S. manufacturers and demonstrates that many high-quality products are made in the United States.

Herman Miller is honored as one of West Michigan’s 101 Best and Brightest Sustainable Companies. The award celebrates organizations that are making their business more sustainable; the lives of their employees better; and the community, both locally and globally, more responsible as a whole.

The Sustainable Asset Management (SAM) group selected Herman Miller for inclusion in “The Sustainability Yearbook 2012” and has awarded Herman Miller both the “SAM Sector Leader” and “SAM Sector Mover” distinctions.

Herman Miller was named one of 16 Section Leaders on Climate Counts 2011-2012 Scorecard Report, making us the industry leader for Home and office Furnishings. The scorecard measures how well the largest companies across 16 industry sectors are preparing for a low-carbon future. Companies are scored based on 22 criteria including a company’s efforts to assess their climate footprint, reduce greenhouse gas emissions, and the ability to communicate their efforts to consumers.

2011

Herman Miller again tops the contract furniture industry in FORTUNE’s ‘Most Admired’ Companies survey. For the 23rd time in 25 years, Herman Miller was the highest ranking furniture manufacturer in a survey among the executives and board members of peer companies and independent industry analysts, as published in FORTUNE Magazine’s Annual ‘Most Admired’ Companies feature. Taking second overall in the expanded, 14 company category of ‘Home Equipment, Furnishings,’ Herman Miller received the number one ranking in five of the nine attributes surveyed.

Contract Information

continued

Trust Across America, a company dedicated to unraveling the complexities of trustworthy business behavior, listed Herman Miller as one of their "Top Ten Most Trustworthy Companies in America 2011."

The Michigan Minority Supplier Development Council (MMSDC) named Herman Miller as its "Corporation of the Year." The company was selected for the honor from among several finalists, including its largest direct competitors. This was the fifth time Herman Miller has received the prestigious award since 2005. When accepting the award, the Inclusiveness & Diversity Program Manager stated, "We are honored to be recognized for our commitment to creating an inclusive supply chain. Herman Miller strives to create a better world through all aspects of our business. Working with diverse suppliers, and the support of the MMSDC, brings us closer to that goal."

Herman Miller receives the Reader's Choice award from TreeHugger's Best of Green: Design and Architecture category for the SAYL chair.

Herman Miller wins prestigious Just Means Social Innovation Award for "Best Sustainability Performance." Herman Miller was nominated for making substantial gains in reducing its CO₂ footprint and significantly outperformed other nominees in the category of Operations.

Herman Miller Healthcare's Compass system was awarded a 2011 Medical Design Excellence Award (MDEA) for its research-based design and ability to be used in a variety of healing spaces, while simultaneously improving the overall delivery of healthcare.

The Sustainable Asset Management (SAM) Group selected Herman Miller for inclusion in the "Sustainability Yearbook 2011" and awarded us both the "SAM Sector Leader" and "SAM Sector Mover" distinctions.

2010

Herman Miller's SAYL chair named "Product Design of the Year" by the International Design Awards (IDA) jury. The award recognizes smart and sustainable multidisciplinary design.

The Flo monitor arm from Herman Miller, was chosen to receive a 2010 "Red Dot" award for product design. The Red Dot Program is considered by many to be the largest and most distinguished international design competition. There were almost 14,000 entries from 68 countries, with more than 4,400 products from 60 countries entered into the product design category.

The NASDAQ OMX CRD Global Sustainability Index (QCRD) has included Herman Miller among their top 100 companies in the world.

Herman Miller achieves LEED-CI Platinum certification from the U.S. Green Building Council for its recently completed Los Angeles Showroom.

2009

Herman Miller named Green Champion by *Business Review West Michigan*.

Herman Miller awarded the 2009 Recycling by Design award by the Institute of Scrap Recycling Industries, Inc.

Aeron receives MBDC Silver Cradle to Cradle certification.

Herman Miller's local fleet is recognized as a U.S. EPA SmartWay Transport Partnership Certified Carrier.

Herman Miller achieves LEED-CI Gold certification for its Main Site B West renovation.

2008

Herman Miller recognized by *Occupational Hazards* magazine as one of America's Safest Companies (ASC). It was one of 18 companies to achieve this distinction.

Herman Miller's Zeeland Main Site awarded status as a STAR participant in the Michigan Voluntary Protection Program (MVPP). The MVPP Star Award is the most prestigious safety and health award given in Michigan. Zeeland Main Site is the fourth Herman Miller facility to receive MVPP status, along with the Greenhouse (in 2005), Midwest Distribution Center (in 2007), and 171st Avenue facility (in 2006).

Teneo, Tu, and Meridian filing and storage product lines receive McDonough Braungart Design Chemistry (MBDC) Silver Cradle to Cradle certification.

2004-2009

Herman Miller achieves sixth consecutive placement on the Dow Jones Sustainability World Index, an international stock portfolio that evaluates the annual performance of the world's largest 2500 companies using economic, environmental, and social criteria, known as the "triple bottom line" of sustainability.

2007

Herman Miller earns the 2007 Waste Wise Gold Achievement Award for Smart Packaging. The U.S. Environmental Protection Agency (EPA) recognizes Herman Miller for its ongoing commitment to reduce transport packaging.

Herman Miller's IT North building in its Main Site facility earns LEED-CI Silver certification from the U.S. Green Building Council (USGBC).

My Studio Environments receive McDonough Braungart Design Chemistry (MBDC) Silver Cradle to Cradle certification.

Herman Miller, Inc., chosen for Sustainable Business 20 List. The company is featured for the fifth time as one of the "World's Top Sustainability Stocks," which includes companies with strong environmental initiatives and solid financial performance.

Herman Miller earns LEED-CI Gold Certification from the U.S. Green Building Council (USGBC) for its National Design Center in Atlanta, Georgia.

Contract Information

continued

2006

Business Ethics ranks Herman Miller, Inc. among the “100 Best Corporate Citizens” in America.

Herman Miller earns LEED-CI Gold Certification from the U.S. Green Building Council (USGBC) for its National Design Center in New York City, New York. This is the first LEED-CI Gold rating to be awarded in New York City.

Herman Miller honored by the U.S. Environmental Protection Agency (EPA) with its WasteWise Award for its commitment to build or renovate its facilities--leased or owned--to meet at least a LEED (Leadership in Energy and Environmental Design) Silver certification.

2005

The U.S. Environmental Protection Agency's Pacific Southwest office honors Herman Miller with its seventh annual Environmental Awards, recognizing the company's efforts to protect and preserve the environment during 2004.

The U.S. Environmental Protection Agency presents Herman Miller with its WasteWise 2005 Product Stewardship Gold Achievement Award in the Design category; Honorable Mention also received in the Large Business category for its recycling efforts.

Herman Miller earns LEED Gold Certification from the U.S. Green Building Council (USGBC) for the Design Yard Front Door in Holland, Michigan.

Michigan “Clean Corporate Citizen” Award given to Herman Miller's Greenhouse manufacturing facility for its environmental management system and record for active pollution prevention.

2004

American Institute of Architects (AIA) Committee on the Environment selects Herman Miller's Building C-1 renovation as one of the AIA/COTE Top 10 Green Projects in America.

The U.S. Green Building Council (USGBC) names Herman Miller among the recipients of its Green Building Leaders Recognition Award for 2004, in the Green Building Business category.

For the third year in a row, Herman Miller is included on SustainableBusiness.com's list of the top 20 sustainable stocks among public companies worldwide.

2003

The University of Colorado, Leeds School of Business, names Herman Miller among three finalists for the first annual “Summit Awards for Social Impact,” citing the company's environmental leadership.

Environmental Building News magazine's GreenSpec Product Directory names Herman Miller's Mirra chair among its Top 10 picks for best new “green” products.

2002

Program Champion recognition from the U.S. Environmental Protection Agency's WasteWise Program, for overall waste reduction achievements.

2000-2003

Business Ethics ranks Herman Miller, Inc. in the top 10 among the “100 Best Corporate Citizens” in America, and first among all ranked companies for “Service to the Environment.”

1999-2001

Environmental Protection Agency's (EPA) Large Industry Partners of the Year Award for overall waste reduction achievements.

2000

Waste Reduction Award Program (WRAP) from the State of California Environmental Protection Agency Integrated Waste Management Board for improving the environment by reducing waste.

Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective April 3, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Social Chair

BVS1N.

Product Information

Description

This chair has an upholstered foam seat on an expanded polypropylene base, with a Network-wrapped suspension back. The chair can be freestanding next to a desk or connected to other social chairs or café tables. It accepts the attachment of screens. It comes with legs for freestanding applications or without legs when attached to other chairs. Legs have glides that provide up to 2" of adjustment.

Notes

- Chair supports attachment of 2 screens.
- When specified without legs, order seating legs (BVS3.) separately.
- Network color and back loop frame color will match.
- Seat fabric is railroaded.
- Customers Own Material can only be specified for seat fabric. See Customers Own Material Order Information in appendices.
- Seat accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics. Order 2.16 yards of fabric per cushion.
- For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Desk

BVD1.

Public Office Landscape® Desking and Storage

Product Information

Description

Desks have 4 legs and are intended to connect with other desks and connecting bins. Desks have a laminate, veneer, or Formcoat® squared-edge work surface with a painted steel understructure bin on 1 side and a steel shelf with a bag hook on the other side. Desks will support a screen on the shelf side, and on the bin side when the bin does not have doors, and will accommodate desktop dividers. Understructure bins come in left or right orientation, with or without doors. Bin divider included. Legs have glides that provide up to 2" of adjustment.

Power bridge desk allows power to be run from desk-bin side to L-shelf side of the desk to accommodate powering other desks or café surfaces from a single power entry point. The desk bin and L-shelf have the same appearance as on the power access desk, but have different internal structures and components to support power across the desk.

Notes

To connect desk to a connecting bin (BVD2.) or another desk (BVD1.), order desk and bin ganging plate (BVD5.C) separately.

All connecting bins (BVD2.) require the use of both bin-to-bin and desktop-to-desktop ganging plates. Order desk and bin ganging plate (BVD5.C) separately.

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Desk accepts modular power (BVEo1., BVEo2.) through the bottom of the understructure bin.

To bring power to the surface of a desk, order Logic Mini, Grommet Mount (Y1414.) separately.

Bin divider is field installed and can be specified in a complementary color.

Grommet color is either black or white, matched to the work surface color.

Bag hook color is matched to shelf color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified desk finish:

- Graphite (G1) desk will have black (BK) glides
- Metallic silver (MS) desk will have fog (63) glides
- White (g1) desk will have folkstone grey (8Q) glides

Power bridge desk includes cable management channel and L-shelf cover for beam connection.

Power access desk can be ordered with or without doors. The power bridge desk can only be ordered without doors, to accommodate the power bridge components.

See Planning Guide for more information about settings.

Connecting Bin

BVD2.

Product Information

Description

Connecting bins have 2 legs and are intended to connect with desks and other connecting bins. Connecting bins have a laminate, veneer, or Formcoat® top surface with a painted steel understructure bin. They come with or without doors, and allow power pass-through. Connecting bin will support a screen when the bin does not have doors. Bin divider included. Legs have glides that provide up to 2" of adjustment.

Notes

Connecting bins are not freestanding and will not support screens.

All connecting bins require the use of both bin-to-bin and desktop-to-desktop ganging plates. Order desk and bin ganging plate (BVD5.C) separately.

For stability when connecting to a desk (BVD1.) or another connecting bin (BVD2.), use both desktop-to-desktop and bin-to-bin ganging plates (BVD5.C), ordered separately.

The exposed end of the connecting bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Bin divider is field installed and can be specified in a complementary color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:

- Graphite (G1) bin will have black (BK) glides
- Metallic silver (MS) bin will have fog (63) glides
- White (G1) bin will have folkstone grey (8Q) glides

See planning guide for more information about settings.

Freestanding Bin

BVB1.

Product Information

Description

This freestanding bin has 4 legs and provides shared storage. It has a laminate, veneer, or Formcoat® work surface with a painted steel understructure bin. It is available with or without power access, with or without doors, and accepts screen attachment. Legs have glides that provide up to 2" of adjustment. Bin divider included.

Notes

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

To connect to other freestanding bins, order desk and bin ganging plate (BVD5.) separately.

Freestanding bins do not allow power pass-through, but can be ordered with grommets to accommodate power at the top surface.

To bring power to the surface of a freestanding bin with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Bin divider can be specified in a complementary color.

Grommet color is either black or white, matched to the work surface color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:

Modular Power Entry

BVE01.

Public Office Landscape® Power

Product Information

Description
 This power entry connects a buildings electrical supply from a wall, floor, or column to a desk or connecting bin. It enters through the bottom of the desk or bin. The power entry plugs into any of the ports on the power block and includes a cable that can be field cut to the appropriate length. Cord comes in 6', 10', and 20' lengths. UL listed and Canadian UL listed.

Notes
 A licensed electrician must wire power entry.

Public Office Landscape® Power

Product Information

Description
 This power block has electrical ports for connecting modular power to receptacles and jumpers. It can be located in a desk, preinstalled into the connecting bin, and for power bridge access desk applications can be located in the L-shelf bin. UL listed and Canadian UL listed.

Notes

When using the power bridge desk (BVD1.xxxxB) to power a café table, order the 4 port with receptacle harness (4R) configuration to be installed underneath the L-shelf.
 When connecting modular power within connecting bins and desk bins, order the 4 port (04) configuration.
 When using the power bridge desk (BVD1.xxxxB) to bring power across desks without a café table configuration between the desks, order the 4 port (04) configuration.
 See Planning Guide for more information about power.

Power Block-to-Power Block Jumper

BVE05.

Product Information

Description

This power jumper connects power block to power block in desks and connecting bins. UL listed and Canadian UL listed.

Notes

The 29" jumper distributes power through adjacent desk bin and connecting bin raceways. It connects power blocks in desk back-to-back and offset back-to-back configurations with side-to-side desk bins.

The 52" jumper distributes power through back-to-back desk bin or connecting bin raceways. This jumper includes cover to house jumper outside of the bin.

The 116" jumper distributes power between the power bridge desk (BVD1.xxxxB) in applications where the social chair and/or café table configuration is used in conjunction with the desk.

The 134" jumper distributes power underneath the desk surface of the power bridge desk (BVD1.xxxxB).

See Planning Guide for more information about settings.

Product Information

Description

This electrical distributor plugs directly into floor, wall, or ceiling drop outlets. Each module configuration presents the same visual appearance. Cable clips and attachment hardware included. Product is UL listed.

Notes

Cable clips for cord management are intended for a 1-time installation.

Clamp versions can be reoriented in the field by a technician.

A small LED light illuminates through the USB ports when the USB version is plugged in and powered.

USB ports provide 10-watt power to charge most devices and tablets at full speed.

Cord color is predetermined. For white (g1) finish cords will be white. For graphite (G1) finish cords will be black.

Product Information

Description

This kit includes beam to route power jumper and data between power bridge access desks positioned L-shelf-to-L-shelf with or without social chairs and café table between desk configurations. Attachment hardware included. Power components must be ordered separately.

Notes

Receptacle over only option (NB) supports desk back-to-back configurations with a single or double café and power bridge desk located on left or right side.

Jumper tray only option (oo) covers the power block and desk jumper in back-to-back L-shelf configurations with the power bridge desk.

Short bridge option (29) connects L-shelf-to-desk bin configurations with a single social chair between desks. At least 1 desk must be the power bridge desk.

Long bridge option (87) connects L-shelf-to-L-shelf in desk side-to-side configurations with a café table between the power bridge desks.

See Planning Guide for more information about settings.

Peninsula Table

BVT4.

Public Office Landscape® Tables

Product Information

Description

This peninsula table comes with a laminate, veneer, or Formcoat® squared-edge work surface. It has a painted steel understructure bin, a column leg, and 2 grommets in the back of the surface. It is available with or without an additional cutout for power access and accepts a single 42"-wide screen. Legs have glides that provide up to 2" of adjustment. Bin divider included.

Notes

To connect peninsula table to other freestanding bins, order desk and bin ganging plate (BVD5.) separately.

Bin divider color is specified separately.

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Grommet color is either black or white, matched to the work surface color.

To bring power to the surface of a peninsula table with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Doors are not available for the peninsula table understructure bin.

Product Information

Description

Screens attach to social chairs, sectional seats, desks, single café tables, peninsula tables, and freestanding bins. They are tackable, have a single fabric covering the entire screen, and come in 2 widths and 3 heights. Attachment is by a push-button mechanism.

Notes

For attachment to a social chair (BVS1N.), sectional seat (BVS2N.), single café table (BVT1.) and 29" freestanding bin (BVB1.29), specify 29"-wide screen. For attachment to peninsula table (BVT4.) and 42" freestanding bin (BVB1.42), specify 42"-wide screen.

Applications with adjacent screens in a line or at a corner require alignment clip (BVP3.), ordered separately.

Screens accept whiteboard overhang (BVP4.), ordered separately.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

Height—Yardage

- 42—2.33
- 54—3.09
- 68—3.97

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Screen and Desktop Divider Alignment Kit

BVP3.

Product Information

Description

This clip comes in 2 types to align screens and desktop dividers either in a line or at a corner. Clip finish is metallic silver (MS).

Notes

For use with the desktop divider (BVP5₁), only the straight alignment clip is recommended.

Dimensions

Whiteboard Overhang

BVP4.

Product Information

Description

This whiteboard hangs over a screen. It is 25" high when used on 54"-high screens, and 39" high when used on 68"-high screens. Available in 29" and 42" widths to match screen width. Bracket finish is metallic silver (MS).

Notes

Available for 54"-high and 68"-high screens only.

A screen can support only a single whiteboard overhang.

Desktop Divider

BVP5.

Product Information

Description

This 13"-high fabric-covered divider is mounted to, or freestanding on, desks, tables, and connecting bins. Attachment hardware is included and comes standard in metallic silver (MS) finish.

Notes

Applications with adjacent dividers in a line require alignment clip (BVP3.S), ordered separately.

Divider accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon  will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an  are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:
(616) 654 3085.

For more information, contact your Customer Care representative at:
(866) 854 3048 EXT 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.
