AGORA TABLE SYSTEM

Designed with the collaborative space in mind AGORA tables consist of an extruded aluminium chassis along the perimeter of the surface and several leg configurations.

Standard table heights are 29", 36" and 42".

The key to the unique framework design is to enable thin surfaces providing a slim and elegant look also reducing wood consumption by 50%.

All components are mechanically assembled as a kit of parts and can be cut to a new size in the field which offers a unique advantage for future adaptability.

AGORA provides options for multimedia and conferencing applications in many choices of leg configurations to meet various size requirements in an integrated design approach.

TOP AND LEGS

Tops

Please refer to the price list to know which type of surface are available on which tables.

- LPL 5/8"

FINISH CHOICES

LAMINATE OPTIONS

Please refer to the Agora finish chart for standard laminates

Any special laminate can be specified but pricing must be confirmed by the factory.

The edge band will need to be selected from our standard offering.

Brillante is a high gloss lacquer material that stimulates back painted glass but at a much lower cost. This can be specified as an accent panel for the "O" legs but cannot be used as a worksurface. It is available in White, Pistachio, Red, Anthracite and Black.

CLOSED END PANEL

FOR COLLABORATIVE AND "O" LEG TABLE ONLY

PANEL FOR COLLABORATIVE TABLES

36" and 42" high

DESCRIPTION

- Decorative panel
- 4 materials available
- Does not manage the wiring
- Panel are sold individually
- The code reflects the depth and the height of the table
