We take our quality craftsmanship, superior customer service, and Limited Lifetime Warranty seriously. Rest assured – you can, too!

Every piece of Savoy Contract Furniture is carefully crafted of the finest materials available and engineered to withstand the test of time. We're proud of our quality, beauty and durability built into every piece of furniture, in every collection – on the outside and the inside, too.

We were Green before Green was cool!

It has always been a core value of ours to make every effort to be ecologically responsible in all we do.

That's why we continually innovate in our manufacturing processes to assure that what can be done, is being done. By utilizing engineered veneer-core plywood in place of solid wood where appropriate – we provide a more complete use of a harvested tree by as much as sixteen times.

We meticulously utilize water-based adhesives and technologically advanced UV finishing. We recycle all wood waste and collect all sawdust through our state-of-the-art extraction system for use in heating systems and as animal bedding for local farmers. We even individually blanket-wrap each product with blankets made from recycled materials prior to shipping, eliminating the need for cardboard containers. In addition, waste streams of used oils, cleaning fluids and finishing materials are recycled.
