Project Details

1. Describe the commodity that the agency/institution is seeking to procure:

The University Of Mississippi Medical Center (UMMC) seeks to purchase product/service: Turnitin is the global leader in evaluating and improving student learning. The Company's cloud-based service for originality checking, online grading and peer review saves instructors time and provides rich feedback to students.

2. Explain why the commodity is the only one (1) that can meet the needs of the agency/institution:

Turnitin can be integrated with most standard course management or learning management system such as Blackboard, Moodle, Canvas, Brightspace and Sakai. Turnitin also offers an LTI tool (Learning Tools Interoperability) that further enhances integrations. These integrations make Turnitin seem like a natural extension of the web application and institutions can use to easily determine if students are writing and submitting original works.

3. Explain why the source is the only person or entity that can provide the required commodity/service:

The Turnitin service provides a plagiarism-prevention tool that allows academic institutions to easily determine if students are writing and submitting original work. To find potential plagiarism, patented and proprietary technology compares submitted papers to: A database of previously submitted student papers; A database of subscription-based electronically published content that covers mainstream to specialized sources on virtually every popular, business and professional topic; A data base of continuously-updated content from publicly accessible internet. See supporting letter from Turnitin, Attachment A.

4. Explain why the amount to be expended for the commodity/service is reasonable:

The estimated amount to be expended is for the purchase of Turnitin FBS Integration; Turnitin FBS: Originality Checking, Feedback, and Integration; Turnitin FBS Campus Fee; Dedicated Web-Based Training, is \$17,000.00. This amount is within The expected price range for these products.

5. Describe the efforts that the agency went through to obtain the best possible price for the commodity/service:

Through market intelligence, UMMC was able to negotiate best pricing for these products. All applicable discounts were explored and applied.

Submission Instructions and Format of Response from Objecting Parties

Interested parties who have reason to believe that the Turnitin FBS Integration; Turnitin FBS: Originality Checking, Feedback, and Integration; Turnitin FBS Campus Fee; Dedicated Web-Based Training, (hereafter, "Products") should not be certified as a sole source should provide information in the Vendor Form for the State to use in determining whether or not to proceed with awarding the sole source to Turnitin. The Vendor Form may be found at <http://www.dfa.state.ms.us/Purchasing/documents/ObjectiontoSoleSourceDetermination.pdf>.

Objections must include the certification in Attachment B.
