SAFARILAND
ARMOR

2017 CATALOG

TOGETHER, WE SAVE LIVES.™

CONCEALABLE ARMOR

Safariland® Body Armor is purpose-built for protection, comfort and fit for the demanding way an officer moves and works. Designed for maximum coverage and maneuverability, each ballistic panel and carrier features

technologically advanced materials and design elements. Best-in-class ballistic performance optimizes coverage, weight, thinness and flexibility throughout the entire line.

EVERY LAYER IS BUILT TO PERFORM

DEFIES THE ELEMENTS

Heat-sealed TPU cover helps prevent bullet penetration and keeps the panel dry even in extreme conditions. Soft nylon shell increases comfort and durability.

DISPERSED ENERGY

Ballistic subsets made of high-performance ballistic materials disperses a bullet's impact yet is thin, light and flexible

THE RIGHT FIT

Specific male and female panels feature a contoured biomorphic design with perimeter stitching to enhance comfort and stopping power.

Each ballistic panel is engineered to provide unparalleled protective performance, while ergonomically designed to follow the body's natural shape and movement for flexibility and enhanced range of motion. With maximum coverage, stopping power, and all-day comfort,

CONCEALABLE ARMOR

NIJ standards are just the starting point. Each panel is engineered to provide maximum flexibility and lightness for comfort and fit, and to deliver the ultimate performance in wearability and stopping power.

HARDWIRE
ARMOR SYSTEMS

HARDWIRE®

This new soft armor is a combination of perfectly interlaced multi-functional fibers and game changing polymer technology. Hardwire's proprietary manufacturing technology equates to the lightest armor in the world, with unprecedented stopping power.

NEW

Model	NIJ Model	Threat Type	Areal Density	Thickness	V50 (9mm)	V50 (.357 Mag)	V50 (.357 Sig)	V50 (.44 Mag)

Hardwire 74	HW-2015-09-SB	IIIA	0.74	0.19	-	-	1791	1634

CONCEALABLE ARMOR

SUMMIT™

Providing unparalleled comfort and a soft, flexible feel, this panel provides exceptional ballistic performance and reduces heat buildup with the use of advanced, exclusive materials. It is unsurpassed in providing heightened protection against an array of special threats.

NEXT GENERATION SCALABLE ARMOR SYSTEM ENHANCED COVERAGE WITHOUT COMPROMISING COMFORT

The culmination of ergonomics and ballistic protection, the HyperX™ system steps out of the future and into the present as the new way armor will be worn. This scalable system is customizable with plate pockets both in the base layer for enhanced coverage, and in the carrier for hard or soft armor trauma plate protection. Lightweight for exceptional comfort, the technical fabrics provide sleek, body contouring, and athletic styling in an integrated system. Consisting of a T-shirt base layer made with lightweight compression four-way stretch fabric that moves and flexes, and a ballistic carrier with an interchangeable system to keep the body warm or cool in extreme conditions, the HyperX system exemplifies the future of armor.

HYPERX™ BASE LAYER PERFORMANCE T-SHIRT

1. Lightweight compression four-way stretch fabric moves, flexes and stays flat
2. Hexagon knit pattern to ensure close body contouring
3. Knit mesh side construction for enhanced breathability
4. Side plate pockets for removable ballistic panels
5. Ventilated side mesh panels for added breathability

HYPERX™ INTEGRATED CARRIER

6. Front and back plate pocket for additional threat plates
7. High-profile VELCRO® Brand hook and loop for extra strength
8. Interchangeable detachable liner system for easy care and seasonal comfort
9. Removable contoured ergonomic straps

COVERT CARRIERS

Ergonomic designs, lightweight fabrics and contoured stitch lines are the platform on which comfort and mobility are built into every covert carrier. From the ultra-concealable F1 to the premier features of the P1, these covert carriers are a sampling of how Safariland® Armor covers all the bases for fit, comfort, and performance.

P1

- Lightweight four-way stretch ripstop shell fabric
- High-performance Luxicool® cooling spacer mesh liner
- Complementary lightweight spacer mesh liner for improved airflow
- Removable contoured ergonomic straps, with controlled stretch
- Front and back plate pockets
- Zip out front and back panels for easy accessibility with zipper garage
- Strategically located ergonomic VELCRO® Brand channels for easy fastening and removal
- High-profile VELCRO® Brand fasteners for extra strength and durability

BACK

M1

- Front and rear plate pockets
- Removable contoured ergonomic straps, with controlled stretch
- Durable hexagon ripstop shell fabric
- X-Static® silver antimicrobial wicking mesh liner
- Full row high-profile VELCRO® Brand closures
- Strategically located ergonomic VELCRO® Brand channels for easy fastening and removal

BACK

COVERT CARRIERS

F1

- Second skin construction for ultra-concealability
- Ergonomic design for multi-directional mobility
- Pullover one-piece with no zippers
- Maximum comfort for all day use
- Internal side entry for easy panel insertion
- Lightweight compression
- Breathable high performance laminated four-way stretch fabric
- High-performance Luxicool® cooling spacer mesh liner
- Antibacterial odor-control finish

BACK

E1

- High-profile VELCRO® Brand loop throughout
- Easy access front plate pocket
- Ultra lightweight poly microfiber outer shell fabric
- X-Static® silver antimicrobial wicking mesh liner

CLEAN

- Custom clean laser-cut MOLLE loops allow for VIEVU® camera chest and shoulder placement
- Laser-cut webbing for mic attachment on shoulders
- Removable ID pull down tabs
- Custom configured embellishment options
- Front hidden pockets with internal mesh pockets
- Clamshell VELCRO® Brand-adjustable shoulder closures
- Adjustable sides
- Quick access angled hidden gun pocket
- Front opening loading plate pocket
- Back top loading plate pocket
- Discreet zippers for panel insertion
- Ribbed channel spacer cooling mesh throughout
- Back neck hidden drag strap
- Invista 100% Cordura® nylon - 500-denier
- Ergonomic textured zipper pulls
- Medical quality soft flexible breathable cummerbund elastic
