To Whom It May Concern,

Ref: Sole Source Authorized Service Provider

Epiphany Healthcare, LLC is the only authorized service provider for the Cardio Server application, and any direct applications that use the product platform in the United States and Internationally. Epiphany Healthcare does not provide training to independent service providers for our products. This can include Cardio Server, Rhythm Strip Management, and Pulmonary Server.

Due to the proprietary nature of the service Epiphany Healthcare recommends that University of Mississippi Health Care accepts this document declaring Epiphany as the sole source provider.

Regards,

Kelli Sudduth  
Epiphany Healthcare, LLC  
VP, Professional Services
