

CLX-9252NA AND CLX-9352NA MULTIXPRESS COLOR MULTIFUNCTION PRINTERS HIGH-OUTPUT SOLUTIONS FOR YOUR HIGH-OUTPUT WORKGROUP.

The exciting thing about business is you never know what the day will hold. It might be a last-minute presentation. It might be an internal international report that determines your entire year's budget. No matter what document output requirements you and your team face each business day, the versatile Samsung CLX-9252NA and CLX-9352NA color MFPs are there for you.

Configured to Grow with a Business

The MultiXpress CLX-9252NA and CLX-9352NA are designed to expand with a growing business. The MFPs can be configured based on the needs of the business with a wide range of functions, including:

- Working Table
- 1,250-Sheet Standard Finisher
- 3,250-Sheet Booklet Finisher
- Stand
- Dual Cassette Feeder
- High Capacity Feeder

Extensive Paper Handling and Finishing Capabilities

Workgroup members can finish various types of documents with the optional 1,250/3,250 finisher (hole punch and booklet), stapling and folding features. Users can select from the optional dual cassette feeder (DCF) and high capacity feeder (HCF).

Wide Media Acceptance, Including Banners

The MultiXpress CLX-9252NA and CLX-9352NA MFPs can accept a wide array of media types. The A3-capable MFPs accept the widest copy paper weight in the class. A multipurpose tray supports envelopes of various widths, heavy stock paper and other special media. Additionally, the MFPs can support banners up to 47.2" x 12.5".

SAMSUNG CLX-9252NA/CLX-9352NA MULTIXPRESS COLOR MULTIFUNCTION PRINTERS

Your business is no one else's business. Samsung helps you keep it that way with a number of built-in security features. Data encryption, secure log in, protected networks and more are all standard.

Control Data Security

Data security is a major concern of businesses today. The Samsung Security Framework is standard on the MultiXpress CLX-9252NA and CLX-9352NA. It increases network protection and helps prevent unauthorized access to confidential information.

XOA (Open Architecture Platform) API

Connect the MultiXpress CLX-9252NA and CLX-9352NA MFPs to a company's applications through XOA. Based on open standards, XOA enables print solution vendors to create embedded applications that enhance the use of the device's capabilities to help improve business processes. XOA provides:

- Intelligent integration across a wide range of services
- Easier integration and less downtime during installation
- A flexible solution for continuous productivity
- Optimized extensibility and customization

Authenticated User

- Authentication
- Authorization
- Accounting

Protected Network

- Secure Socket Layer (SSL)/ Transport Layer Security (TLS)
- Simple Network Management Protocol (SNMP) v3
- Internet Protocol Security IPSec (Internet Protocol [IP] v4, IPv6)
- 802.1x with Extensible Authentication Protocol [EAP]
- Protocol/port management
- MAC/IP filtering

Secure Document

- Secure print, scan, fax
- Document tagging (watermark, stamps)

Secure Data

- Encryption
- Hard disk drive image overwrite
- Digital signature

Secure Management

- System logs
- System back up
- Email notification

Samsung Business Core[™] Printing Solutions Increase Efficiency and Productivity

Samsung offers an extensive suite of solutions tailored to help increase SMB efficiency.

Document Management

Smar**Thru**™ Workflow Lite Automatically distributes scanned documents to reduce manual and repetitive document work.

Cloud Connector

Prints from and scans to various cloud services by using a variety of file formats.

Secure **Login** Manager

Protects access to MFP devices from unauthorized users.

Output Management

Secu**Thru**[™] Lite 2

Safeguards documents and data with secure authentication and protected release.

Usage Tracker

Controls and reduces printing expenses by tracking device usage and sending custom email notifications.

SyncThru[™] Device Management Solution

SyncThru™ Admin remotely discovers, manages, diagnoses, and reports all devices within the network to achieve increased efficiency and productivity throughout the organization.

Easy Mobile Print App

Free Samsung Mobile Print App lets you print, scan, and fax to/ from mobile devices. Just connect to your MFP wirelessly and print, scan, or fax, without the need to install any drivers.

SmarThru[™] Workflow 3 Document Distribution Solution

SmarThru™ Workflow 3 streamlines document workflows, from capturing paper documents, as well as electronic documents, to distributing them to predefined destinations

Barcode[™] Document Management Solution

Barcode™ is used to manage assets and stock items, track items through distribution channels, or simply improve the management of documents within the organization.

Samsung's advanced technology is intuitive. Every advancement we make is for a single purpose: to make your workday easier.

Samsung MPS, Mobile, Security and Productivity Solutions

Samsung's strategic partnerships allow us to offer simplified, seamless solutions that increase both security and office productivity.

Simplified Savings with the Touch of a Button

Eco Mode is an energy-saving feature that helps companies reduce paper and power costs. By simply pressing the Eco button on the MFP, users can print more onto every page, with options for 2-up, 4-up and duplex printing. There's also an option to automatically skip blank pages, saving paper and toner.

Easy Eco Driver provides users a preview of a document before printing, which helps reduce wasted printouts. While previewing the document, users can modify its format by removing text and images. The user can also adjust the layout (for example, from 1-up to 2-up printing) without changing the original document layout.

LCD Control Panel: One of the Largest in its MFP Class

The color LCD control panel on the MultiXpress CLX-9252NA and CLX-9352NA MFPs is now produced with a 10.1" touchscreen and is considered one of the largest control panels in its printer class. The control panel tilts for optimal viewing of job status, prompts and menus. LED indicators such as low paper alerts or a ready-for-use indicator help users more quickly determine the device status.

Samsung Mobile Print solution earned the Summer 2012 "Pick" Award as "Outstanding Mobile Print App" from Buyers Lab, Inc.

Samsung Eco-Driver earned the 2012 "Outstanding Achievement" Award from Buyers Lab, Inc.

You can accomplish more with the Samsung CLX-9252NA and CLX-9352NA color MFPs and their expanded functionality options. The CLX-9252NA and CLX-9352NA MFPs can be tailored to your unique business requirements. You can add security, usage monitoring and more.

Manage Workflows with Smart Solutions

Use Samsung solutions with the MultiXpress CLX-9252NA and CLX-9352NA to create an MFP that helps efficiently manage business workflows.

Single Sign On (SSO)

A user logs in once and gains access to all Samsung solutions.

Secure Printing

Documents are not released without user authentication.

Secure Document Workflow

Only authenticated users can access the pre-defined scan workflow by SmarThru™ Workflow with the icon-based intuitive user interface.

Usage Monitoring by User and Device

Information technology (IT) administrators can manage and monitor users' print, copy, and scan jobs by using the SyncThru[™] Admin interface.

In today's fast-paced environment, you expect your MFP to achieve maximum uptime. The Samsung MultiXpress CLX-9252NA and CLX-9352NA provide high-output workgroups optimal speed for printing, copying, scanning and faxing without sacrificing quality. Samsung's Rendering Engine for Clean Page (ReCP) technology produces professional-grade printouts, and the polymerized toner uses smaller and more uniform particles to provide vivid and glossy images while requiring lower fusing temperatures.

Improve Performance with Twice the Power

The MultiXpress CLX-9252NA and CLX-9352NA enhance office productivity with faster printing and scanning capabilities, powered by a fully integrated Samsung 1GHz dual-core processor. Large print and copy jobs are easier to manage, and scanning throughput is increased. The dual-core processor performs printing tasks faster than a conventional processor, enabling employees to focus on core work activities.

Send Scanned Files Quicker with High Compression

The Samsung Mixed Raster Content (MRC) technology compresses scanned files with little reduction in quality. The compressed files save MFP storage space, helping users create and send scanned documents with greater ease and speed.

MRC: extracted text and image for PDF format scan. Evaluation from internal test lab.

Enjoy Quality Printouts

Samsung's unique ReCP (Rendering Engine for Clean Page) technology and up to $600 \times 600 \times 4$ bit dpi improve the overall quality and vibrancy of your color printing, ensuring every printout looks perfect. ReCP automatically sharpens the focus of both graphics and text, while solid objects are overlapped to eliminate white gaps.

Prevent Document Fading with Polymerized Toner

Samsung polymerized toner produces smaller and more uniform particles than conventional toners. Printouts have crisper lines and intense colors, and pages curl less often. Additionally, the high wax content improves the image gloss and durability, which helps prevent the document from fading.

Samsung CLX-9252NA/CLX-9352NA color MFPs give you the options you need for maximum productivity.

Product Configurations

Basic Configuration

Main Unit + Stand

Input Capacity: 1,140 Sheets Output Capacity: 650 Sheets

Advanced Configuration

Main Unit + 1,250 Sheet Standard Finisher + Dual Cassette Feeder

Input Capacity: 2,180 Sheets Output Capacity: 1,400 Sheets

Full-Featured Configuration

Main Unit + 3,250 Sheet Booklet Finisher + High Capacity Feeder

Input Capacity: 3,140 Sheets Output Capacity: 3,400 Sheets

Protect your investment with genuine Samsung consumables.

Only genuine Samsung polymerized toners are engineered along with the CLX-9252NA and CLX-9352NA to maximize performance, image quality and control. Their advanced electronics communicate with the MFPs to precisely calibrate color and text output through ReCP technology, as well as to provide low-toner and other important alerts.
