Terms & Conditions

TERMS

NOVA Solutions' (NOVA) standard terms are net 30 days with approved credit. All prices are in U.S. Dollars. Prices herein are list prices effective with the date printed on the cover and supersede all other published price lists. NOVA reserves the right to change prices without prior notice.

SELLING INFORMATION

Distribution of this price list does not in itself constitute an offer to sell. Offers can be received only from authorized NOVA dealers.

PRICES

All prices listed are suggested retail prices, F.O.B. point of shipment, freight allowed (included in list prices) when shipping within the continental United States. Orders are accepted subject to prices and taxes prevailing at the time of shipment. Prices and taxes are subject to change without notice. If shipping date requested is more than 90 days from date of order, NOVA shall have the right to use the published list prices effective at time of shipment.

ORDER PLACEMENT

NOVA requires that all orders be in writing and accompanied by a layout/drawing. This is to insure that orders are complete, avoid errors, and avoid duplication. Please order products by model numbers specified to avoid any possible error. Telephone orders will not be processed for production without proper written confirmation. NOVA cannot be held responsible for errors, omissions, and order duplication due to non-compliance with this procedure.

ORDERING INFORMATION

Mail, fax or e-mail all orders to:

NOVA Solutions, Inc.

Phone: 217-342-7070
Phone: 800-730-6682
Fax: 217-342-7006
Fax: 800-940-6682
E-mail: orders@novasolutionsinc.com

For prompt delivery, all orders must include:

- 1) Purchase order number
- 2) Attached layout/drawing
- 3) Billing address
- 4) Ship-to information and e-mail address
- 5) Special handling instructions
- 6) Complete model and finish number
- 7) Correct pricing

ORDER ACKNOWLEDGMENT

Please notify NOVA immediately of any discrepancies in your order acknowledgement. The customer assumes all responsibility for order accuracy. NOVA does not assume responsibility for errors caused by miscommunications from the customer. Orders are accepted only by issuance of NOVA's formal acknowledgement. Orders are subject to the terms and conditions set forth herein, notwithstanding any variance in terms and conditions set forth on buyer's order forms. The order acknowledgement is the final confirmation of the agreement between the customer and NOVA and supersedes all prior oral and written statements regarding the order. Once the order confirmation has been sent, only NOVA approved and signed modifications will supersede the original confirmation.

QUOTATIONS

Quotations are valid for a period of ninety (90) days.

CHANGES

NOVA reserves the right to make changes in design, specifications, construction, pricing or to discontinue products without prior notice. Prices shown in price book have priority over electronic catalog contents. Dimensions are approximate and are within normal industry standards.

ORDER CHANGES

Upon acknowledgement of an order, NOVA may not be able to accept a change order. NOVA will not accept changes on specials or customer items once production begins. Every attempt to make the requested change will be made and the following conditions apply:

- 1) Requested changes must be submitted in writing
- 2) Additional charges for materials, labor, and administrative costs may be charged
- 3) Completion dates may be rescheduled as required based on changes

ORDER CANCELLATIONS

Order cancellations must be requested in writing no later than 48 hours after receipt of original order and are subject to approval of NOVA Solutions, Inc. Cancellations cannot be accepted otherwise.

STORAGE

Orders in which shipment is delayed by the customer beyond 30 days after acknowledged shipping date are subject to a 3% weekly storage fee. Such transfer to storage will be deemed delivery to purchaser for all purposes including invoicing and payment. Customer must provide notification of "shipment delay" at least two weeks prior to the originally scheduled ship date.

SHIPPING INFORMATION

Freight

All shipments are Free On Board (F.O.B.) point of shipment, freight prepaid and allowed (included in list prices) when shipping within the continental United States. Please contact Customer Support for shipments to Alaska, Hawaii, and international. NOVA reserves the right to select the most appropriate carrier and routing on all shipments.

NOVA's product pricing is dock delivered, based on standard delivery between normal business hours Monday through Friday, excluding weekends and holidays. Any charge arising from failure to accept a shipment, rerouting while in transit, or carrier storage charges are not included in prices shown and will be billed to "Sold To" account number on the order. Detention charges will be incurred for untimely off-loading of product or other time delays incurred.

Any orders under list pricing shown below or requiring Special Delivery Services will incur additional charges. All such requirements must be noted on the purchase order. Examples of such services include:

Handling Fee (all orders not able to be shipped via UPS): All orders under \$15,000 list will incur \$100 handling fee

Multiple site deliveries: \$75 per order and location drop charge

Non-Standard Detention Time: \$75 per hour after two hours for each delivery location

Delivery Time (outside normal delivery hours): Contact Customer Support for charges and availability

Fuel Surcharge: A fuel surcharge will be added to all items shipped via UPS, Federal Express, or other small parcel carriers.

Carriage

NOVA reserves the right to choose the best method of delivery. All furniture is carefully inspected and securely packed before shipment. The carrier will only accept packages in good condition and agrees to deliver it in the same condition. NOVA relinquishes all responsibility for goods shipped upon a signed receiving document from the carrier.

Terms & Conditions

SHIPPING INFORMATION (continued)

It is the customer's responsibility to inspect merchandise immediately upon receipt.

Loss, Damage or Delay

NOVA shall not be liable for loss, damage, or delay resulting from causes beyond its reasonable control, including but not limited to fire, strike, inclement weather, accidents, or delay in transportation. In the event of a delay, due to any such cause, the delivery date will be postponed.

Shortages

If the shipment is not delivered in accordance with the quantity of cartons and packages shown on the Bill of Lading and/or Freight Bill, do not accept it until such shortages are noted on both documents.

FREIGHT CLAIMS

The merchandise is carefully packed and thoroughly inspected before shipment. The carrier upon acceptance of the shipment assumes responsibility for its safe delivery. Claims for loss or damage sustained in transit must therefore, be made upon the carrier as follows:

Signing the Bill of Lading as "Subject to Inspection" does not make the carrier liable for damage.

Concealed Loss or Damage

Concealed loss or damage means loss or damage that does not become apparent until the merchandise has been unpacked. The contents may be damaged in transit due to rough handling even though the carton may not show external damage. When damage is discovered upon unpacking, make a written request for inspection by the carrier's agent within 7 days of the delivery date. Then file a claim with the carrier since such damage is the carrier's responsibility.

Visible Damage or Shortage

Any external evidence of damage or shortage must be noted on the freight bill or express receipts and signed by the carrier's agent. Failure to adequately describe such external evidence of damage or shortage may result in the carrier refusing to honor a damage claim. The carrier will supply the form required to file such a claim. **All cartons and packaging must be kept with the merchandise at the delivered location. Failure to do so constitutes acceptance and a waiver of any such claim.**

RETURNS

NOVA will not accept the return of any merchandise without a Returned Material Authorization (RMA). Special order items may not be returned for credit. No returns will be allowed after sixty (60) days from the ship date. If merchandise is approved for return, a restocking fee will be applied. Upon receipt, all returned merchandise will be thoroughly inspected, and any discrepancies will result in an adjustment to the amount of credit issued.

LIMITED LIFETIME WARRANTY

NOVA Solutions warrants that its products are free from defects in materials and workmanship given normal use and care for the lifetime of service; proof of delivery being the only official document accepted by NOVA for any claim. In the event that a product is used more than normal use, the applicable warranty period may be reduced.

This warranty is made by NOVA Solutions to the original customer for as long as the original customer owns and uses the product. NOVA Solutions' warranty is only valid if the products are given normal and proper use, and installed in accordance with NOVA Solutions' installation and/or application guidelines, and installed by an authorized NOVA Solutions' dealer or agent. NOVA Solutions assumes no responsibility for repairs to products sustaining damages resulting from end-user modifications, attachments to a product, misuse, abuse, alteration, or negligence.

This warranty is subject to the limitations, exclusions, and other provisions provided below:

- Twenty-five years: Thermofused laminate
- Twenty years: Drawer slides
- Ten years: Locks
- Five years: Downview technology with flat panel monitor Flat Panel Display Security Arm, laminate, casters, fabrics, metal frame doors, electrical components, PVC extrusions, adjustable surface mechanisms, and accessories.
- Three years: The Trolley™ E and The Trolley™ EXL with Intelligent Motion Technology and NovaLinked™ Components:
One year for parts and repair labor; second and third year for parts only. Additional installation labor charges may not be covered by this warranty. Variation in finishes is characteristic, in terms of color & texture, and does not constitute a defect.

Two years for parts and repair labor; third, fourth, and fifth year for parts only. Additional installation labor charges may not be covered by this warranty. Variation in finishes is characteristic, in terms of color & texture, and does not constitute a defect.

As your manufacturer, we stand behind our quality products and will do everything possible to resolve any problems that might arise within the terms of this warranty.

For more information, or to file a warranty claim, please contact NOVA Solutions' Customer Support at 800-730-6682.

GOVERNING LAWS

This contract shall be construed and governed in accordance with the laws and regulations of the state of Illinois.

Product Benefits

Integrated Furniture Features

Extensive Product Portfolio

NOVA Solutions is proud to offer a diverse product portfolio in high-quality laminate, targeting markets that include office, education, training, hospitality, and health care. GSA and State Contracts allow government agencies to participate in NOVA's extensive offering. Architects and designers are critical contacts and liaisons for specifying "The Right Solutions™" from NOVA's unique product portfolio.

Exceptional Quality

Quality furniture shipped complete and on time is the standard of excellence required with customers to even be considered a viable offering. NOVA partners with quality suppliers that demand this same philosophy. NOVA's extensive investment in the latest state-of-the-art machining technology provides unlimited flexibility while insuring we exceed our promised fit and finish. Attention to detail at every level in the manufacturing process is a requirement. "Would I spend my money to buy that finished product?" is the final quality check.

Durable Construction

Durability and strength are necessities for utmost value in quality furniture. Our durable thermofused laminate components provide that strength, coupled with our metal-to-metal hardware assembly. Added rigidity is integrated through framed and recessed back panels. Our first-class engineering ensures every product's design includes maximum durability and strength.

Integrated Technology

Visual Display Options are now unique solutions that differentiate NOVA from every furniture manufacturer. The Trolley™ Personal Monitor Arm System with Intelligent Motion Technology™ is the latest addition to the family. The Trolley is a mainstream solution allowing you to view your flat panel display in its normal position. With the push of a button, your monitor emerges from below the work surface. The Downview technology positions your flat panel display below the work surface at the natural 34° reading angle. In our many of our series, we offer the Surface Mount Arm that allows you to secure your display in an upright position.

Quality Look

Attention to detail integrated throughout our product portfolio creates a quality look. Overlapped drawer and door designs in our office solutions products ensure the proper fit for every function. Matching edge banding on all surfaces allows a seamless view that accentuates the product's clean lines. Our Classroom Training Series gets high marks for providing a clear, crisp design that allows our Visual Display Options to blend in perfectly.

Multiple Selections

NOVA Solutions' comprehensive product portfolio confirms your only limitation is your imagination. Impress others with a vast variety of components with multiple options that fit your every need — from the back room to the boardroom. Now you can maintain a consistent company image that matches your facility and its function. Make your furniture an essential element of your productive environment!

Unlimited Flexibility

Throughout each product offering, unlimited flexibility gives you colors and shapes that can be mixed or matched to fit your style in any working or learning environment. Enjoy the freedom to create your own environment!

Customer Friendly

The majority of NOVA Solutions' furniture is shipped assembled, ready-to-install in your working or learning environment. Those components that require some assembly are designed to fit together with simplicity and minimal effort.

NOVA Solutions takes our environmental accountability seriously with regards to our daily processes and products we produce. It is our corporate responsibility to our employees, customers, and community. We maintain the highest sensitivity and follow-through in preserving our natural resources today, and more importantly, for our future generations.

We have chosen suppliers that share this same commitment. Particleboard, the foundation of our furniture design, is manufactured from 100% recycled post-industrial materials. We ensure it is low formaldehyde emission particleboard, use water-based adhesives that are non-toxic in lamination, and band any exposed edges to seal the substrate.

To reduce materials in landfill sites, we integrate remaining cuttings into smaller products or packaging material. Our sawdust is recycled for use on local farms. We use recycled cardboard in all our packaging. NOVA also recycles cardboard, paper, plastics, steel, and aluminum. Even our Visual Display Options (Downview technology and The Trolley™) are completely recyclable.

NOVA continually evaluates all initiatives for improving our environmental accountability while providing the highest quality products to our customers.

NOVALinked™ Components

NOVALinked™ is a networking system that provides complete control of NOVA's Trolley E monitor lifts in a classroom or training room setting. Utilizing a Crestron, Extron, AMX or other major brand controller, or an ISI component, instructors can raise or lower all of the Trolley monitor lifts in the classroom simultaneously.

LCI - Linking Control Interface

The LCI is required for all NOVALinked™ installations. One LCI is required to control each Trolley E monitor lift. It can be located in an inconspicuous location on each desk/table or within the total access iMod™ compartment (if available). 1-9/16" D x 4" W x 1-3/4" H

AC-LCI.....\$245

JCN - Junction

The JCN is a parallel 3 way splitter for the NovaLinked System. One Junction required per row. Designed for use only with the NovaLinked System.

1-9/16" D x 4" W x 1-3/4" H

AC-JCN3 (Three RJ45 ports).....\$184

CAT6 Patch Cable

Cat6 molded boot patch cable.

AC-CAT6-1 (1 Ft.).....	\$25
AC-CAT6-2 (2 Ft.).....	\$29
AC-CAT6-5 (5 Ft.).....	\$31
AC-CAT6-7 (7 Ft.).....	\$34
AC-CAT6-10 (10 Ft.).....	\$42
AC-CAT6-14 (14 Ft.).....	\$52

ISI - Independent Switching Interface

The ISI allows full control of the On/Off and Up/Down functions of the NOVALinked System without interfacing with a control system. The ISI Module is designed to be housed in the lectern-based Trolley E control panel.

AC-ISI (for Wired Systems).....\$413

AC-ISIRF (for Wireless RF Systems)\$413

CSIM - Control System Interface Module

The CSIM is required for "wired" NOVALinked™ installations. One CSIM is needed for every thirty LCI units/Trolley E monitor lifts. Includes a 24V = 1.67A, 40W MAX Power Supply with Cord.

1-9/16" D x 4-1/8" W x 2-15/16" H

AC-CSIM.....\$486

Components for Wireless NOVALinked™

The Wireless NOVALinked application eliminates the issue of running power from the lectern to the first row of desks, and from row to row.

TXM - Transmitter

The Transmitter allows wireless control of the Trolleys, and is housed in the lectern or any other location in the room. The Transmitter connects to the Controller or ISI, and each one has a unique frequency address. It sends separate commands for On, Off, Up and Down.

AC-TXM.....\$465

RCVR - Receiver

One Receiver required per row of desks, including the last row.

AC-RCVR.....\$465

NOTE: If not using a major brand controller, order ISI component for wireless systems (AC-ISIRF)

NOTE: Typically one CSIM is required for every 30 LCI units in the classroom. Each Trolley unit requires one LCI (even with the wireless configuration).

All NOVALinked™ components shown on this page.

Company Overview

It all began when John Lechman, cofounder of a kitchen cabinet company in Denver, Colorado, discovered a unique computer desk concept at an office furniture trade show in Chicago, IL. All of the computer hardware was contained beneath the work surface with the monitor positioned at an angle beneath the desktop.

Mr. Lechman secured the rights to produce the product in wood and laminate— purchasing the parts and materials from an Effingham, Illinois-based company. Production began on the new line of wood computer furniture in Denver, Colorado in 1988. He then began selling the product to corporate offices across the United States and Canada. Soon after, users began to report experiencing less neck and eye discomfort after using the new desk technology. The “Downward Gaze”™ angle was, in fact, a viable, ergonomic solution that helped to alleviate many of the physical problems experienced by computer users.

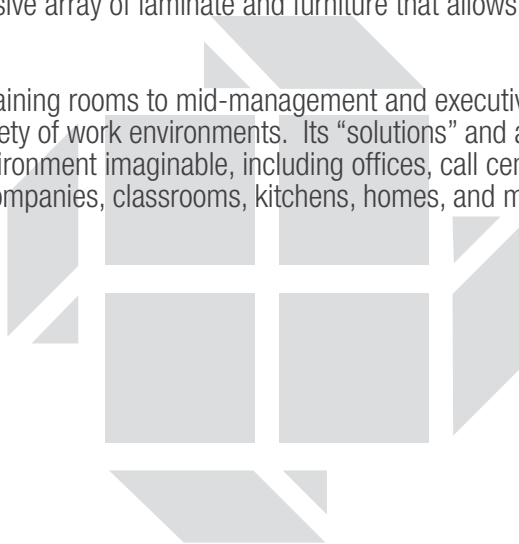

In 1990, John Lechman moved the operation to Effingham, Illinois. In 1995 the company changed its name from Nova Office Furniture to Nova Solutions, Inc. The new name better reflected the company's quest to provide furniture solutions for computer users in a variety of market segments.

In 2003, Mr. Lechman began the daunting task of developing a solution for flat panel displays. The goal was to find an innovative solution for computer users who preferred to view their monitor in the traditional, straightforward position, while maximizing desktop work space and providing a level of security and privacy. After years of testing, field research, and several prototypes, The Trolley™ was born. The Trolley™ is a Personal Monitor Arm System that raises and lowers a flat panel display from beneath the desktop on demand. The Trolley™ gets its name from the inner workings of the mechanism. The display mounts to an arm that moves up and down on a track much like a trolley car.

Today, Nova Solutions, Inc., remains one of the industry's fastest growing and most innovative manufacturers of unique computer desks and high quality office furniture.

Although integrating technology via the *Downview* or *The Trolley™* remains an important part of Nova's success, the company has grown to be much more than just a computer workstation company. Nova provides a comprehensive array of laminate and furniture that allows users to make the most of available work space.

From reception areas and training rooms to mid-management and executive offices, Nova provides complete solutions for a variety of work environments. Its “solutions” and accessories are used in virtually every electronic environment imaginable, including offices, call centers, banks, hotels, medical facilities, airports, training companies, classrooms, kitchens, homes, and many other locations.
