Product Line Scope

This catalog details the product offering from Toledo Furniture, Inc. with products organized by styles and applications. The catalog contains project and product images to help you with application, style and overall product selection.

At Toledo Furniture we pride ourselves on providing you furniture solutions that you configure.

- Product Styles and Applications
- Product Sizing, Shapes, and Layouts
- Materials, Colors and Finishes
- Electric and Data integration
- Accessories
- Specifications

Styles and Applications:

Whether you like traditional or contemporary styling you will find a product style that can be adapted to your project. If you do not see exactly what you want, contact us. Many of our projects are accomplished by making modifications to our standard products.

Sizing and Layouts:

Pre-school to Adult, Individual or Multiple seats, Groups or Pods we have a product to fit your needs and application. All of our tables are made in a variety of sizes and shapes to fit your seating requirements, and room layout. Let Toledo Furniture assist you with your room layout so you can see the product before it is purchased.

Materials, Colors and Finishes:

All Toledo Furniture products are available using multiple colors and patterns to provide the customer a palette to suit the décor of the room and application. As a rule you may select from any of our Powder Paint Colors and any, “Standard Price Group” Laminate pattern from Wilsonart® or Formica®. Reference page 27 of this catalog to view our paint palette. We do use other laminates. Just ask us. You will find links to the laminate selections at www.toledofurniture.com/products/materials

Electric and Data Integration:

All of our products have the capability to integrate electric and data utilities. We have a complete electric specification guide on our website and will provide the integration as part of the project design and approval process so you can be confident the project will incorporate the style, functionality and technology you require. www.toledofurniture.com/electric-and-data-specifying

Accessories:

Furniture products often need additional items to support their intended use. We offer a full range of technology and mobility accessories to provide you the best performance and value in the market.

Pricing and Availability:

Consult your Toledo Furniture dealer to assist you in configuring your project including room layouts, proposals, sales support and installation services. For a dealer in your area contact our offices at 800-367-6169.

Specifications:

Each product series has a unique specification. All specifications are available on our website at www.toledofurniture.com/specifications and may be downloaded in pdf format.

Activity Tables

Computer Table

Toledo's Computer Tables are available in three series: Multi-Function Furniture, Scholastic, and Grafc. All Computer Tables are available as freestanding or starter adder configurations. Options are available for fixed or mobile solutions.

Toledo's Computer Tables offer a variety of accessories including complete electric and data management systems, CPU, Monitor, Keyboard, Mouse and small form factor PED systems management.

Toledo Furniture provides room layout services to optimize space and develop appropriate seating requirements. We also work with our customers to support teaching activities that enhance student performance. We will help you establish an efficient room design that will accommodate your seating, layout, utilities and aesthetic needs.

Our Computer Tables support all styles of technology from small form factor portable devices to traditional CPU and Monitor varieties. Whatever your need, Toledo has a solution!

The following pages, 9-13 introduce our latest development that improves room utilization and reduces furniture cost in all facilities. These new designs function equally well as classroom desks or technology desks and they lock to secure all technology components including PED Personal Electronic Devices. One set of furniture performing 2 functions. A better investment than furnishing separate rooms.

Slide-Top Tables

Monitor Lift Technology

This product line is a versatile **multi-purpose desk** that optimizes the use of classrooms and media centers. The technology components are located inside a secure compartment designed into the table enabling the room and desk to be utilized for a variety of purposes such as a classroom desk, technology / computer table, group work desks, meetings, etc.

You do not have to permanently locate the computer monitors on top of the desk. Use your classroom, or media center to its full potential and realize benefits previously unattainable.

Toledo 30"D x 36"W x 29"H **"Slide-Top Monitor Lift"** shown.

1. Slide the top open. 2. Lift the monitor. 3. Slide the top closed. You're ready to go!

Benefits of the **"Slide-Top Monitor Lift"**.

Watch our Video at the URL below.

Improved classroom utilization:

www.toledofurniture.com/products/computer-lab-tables

Why have under utilized technology classrooms because the monitor sits on top of the desk?

Use them as regular classrooms improving utilization of costly classroom space.

Increase instruction and contact hours with your students:

Setting up classrooms with laptops stored in carts reduces the instructors' time for teaching.

When the technology is stored in the desk it is immediately available for use.

Storage, Security, Charging:

All tables have a secure, lockable storage compartment for the technology components, electric and data utility that provide communications and battery charging.

CPU's mount under the desk in secure yet size adjustable rack mounts.

Worksurface:

No seams to interrupt the users writing space.

We maximize the usable space of all work surfaces.

**Keyboard and Mouse in storage compartment shown.*

Value:

Create multi-functional classrooms for less cost than furnishing a technology lab and traditional classroom. Toledo Furniture gives you both functions in one desk. We reduce your capital requirements so there is funding for other needs.

The Toledo Monitor Lift is a fully assembled kit that is factory installed into the table style selected by the customer. All that is required is to raise the lift, attach the monitor and plug it in.

Monitor Lift Technology

Style and Sizes:

Slide-Top Table available in 3 configurations:

“Monitor Lift and Keyboard / Mouse Compartment”

“Monitor Lift with Keyboard / Mouse Sliding Tray”

“Laptop / Netbook / Tablet” storage compartment.

Conference Room Tables

Conference Table

Our conference tables are designed and built to fit the space, decor and function of the room where they reside. Whether you need to accommodate management, a group work session or an office conference table we will create a solution for you. Seating requirements, technology integration, table shape and size, materials, colors and finishes are all part of the total solution Toledo Furniture provides to their customers'.

We offer laminate and wood conference tables. Our customers in the education segment prefer laminate for its durability and usability. While the office segment prefers the rich finish and quality of wood. Toledo Furniture offers both and will build the support structure you prefer from stylish support elements to simple structural leg systems. We design and fabricate to your specification.

Materials of construction:

Leg, frame and support elements: Steel or Aluminum.

Finish: Powder paint, Dye Coating, Satin or Bright Chrome or Nickel, Anodize Clear or Black.

Table Tops: HPL High Pressure Laminate bonded to 45lb. NAUF industrial grade board core with Phenolic Resin backer.

Table Top and Work Surfaces

Table Tops

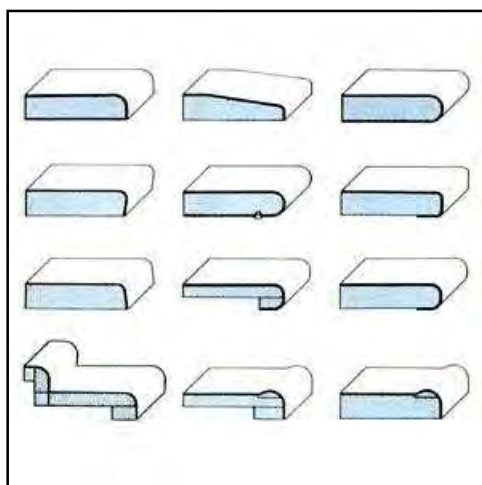

Toledo manufactures tops for tables and countertops. All tops whether an individual table or lengths of countertop are manufactured to specification. This process ensures the best quality and proves to be the most economical as well as visually appealing.

Our standards are .75" thick and 1-1/8" thick 45 lb. density NAUF industrial grade thermofused particle board with your choice of HPL High Pressure Laminate bonded to the top surface and a .02" thick Phenolic backer sheet bonded to the bottom to balance the board and minimize warping. All core material, laminate and glues used by Toledo Furniture are environmentally certified by the respective manufacturers. Certificates are available on their websites, Tafisa, Formica, and Wilsonart.

Laminate Standard Colors:

Select from any, "Standard Price Group" laminate pattern from Wilsonart or Formica. Pricing is equal for all "Standard Price Group" laminates. If you prefer a pattern from another manufacturer we will happily to accommodate your design. Please consult your dealer for pricing.

Edge Treatment: Postform Laminate, 3mm PVC, 0.02" PVC, Solid Wood Edge.
