

We've got your poly covered.

Dignity Briefs® with Curly Fiber feature a poly back sheet that's covered by a soft, cloth-like outer layer. The poly layer keeps fluids from soaking through, while the cloth-like back sheet provides optimal comfort and softness.

Easy tab repositioning and quieter to wear.

The cloth-like outer layer makes it possible to open and close our brief's reusable hook-to-backsheet tabs as often as needed to ensure a custom fit. And because the inner poly layer is covered, the crinkling noise often associated with poly is muffled.
