## GRAYDON SPECIFICATIONS **signature series**

### BACK

The back frame is constructed with 1/2" and 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven versare fabric with one piece of high-density polymeric foam. The outside back of the frame is covered with woven tygar and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

### BASE

The base frame is constructed completely of 3/4" engineered paneling. Patented metal brackets are attached to the base frame with 5/16" -18 x 1" button-head cap screws into steel receivers (t-nuts) creating a metal-to-metal connection. Legs are attached with steel bolts and feet have plastic or metal glides.

### SEAT

Seat cushions are of 5", high-density, polymeric foam. On the top and bottom of the core is placed a 1 1/2" polymeric 2.2 minimum-density foam which is covered by a laminated, polyurethane, moisture-barrier membrane. Uniform seating comfort is provided by a dual-leverage amplification Spring System.

### ARM

Arm frames are constructed completely of 7/8" engineered paneling and 80-point chipboard. The arm frames are covered with polymeric high-density urethane foam. The arm frame is attached to the base frame by sliding machined slots onto patented metal brackets on the base frame.

### UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

### ASSEMBLY AND DISASSEMBLY

No tools are needed. All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the tamper-proof interlocking state. Assembly can be completed within minutes without the usage of tools, and all upholstery fastens with hook and loop tape, facilitating removal and replacement of covers.

### WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.
