HIGHSTREET SPECIFICATIONS **signature series**

BACK

The back frame is constructed with 7/8" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The springs are covered with a woven versare fabric and the back of the frame is covered with a woven tyvar. On top of the springs are placed two high-density, polymeric foam pieces. The back of the frame is covered by an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

BASE

The base frame is constructed completely of 7/8" engineered paneling. Patented metal brackets are attached to the base frame with 5/16" -18 x 1" button-head cap screws into steel receivers (t-nuts) creating a metal-to-metal connection. Legs are attached with steel bolts and feet have plastic or metal glides.

SEAT

Seat cushions are of 5", high-density, polymeric foam. On the top and bottom of the core is placed a 1 1/2" polymeric high-density foam which is covered by a laminated, polyurethane, moisture-barrier membrane. (An optional, embedded, steel cable is also available.) Uniform seating comfort is provided by a dual-leverage amplification Spring System.

ARM

Arm frames are constructed completely of 7/8" engineered paneling and 80-point chipboard. The arm frames are covered with polymeric high-density urethane foam. The arm frame is attached to the base frame by sliding machined slots onto patented metal brackets on the base frame.

ered with polymeric high-density urethane foam. The arm frame is attached to the base frame by sliding machined slots onto patented metal brackets on the base frame.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

ASSEMBLY AND DISASSEMBLY

No tools are needed. All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the tamper-proof interlocking state. Assembly can be completed within minutes without the usage of tools, and all upholstery fastens with hook and loop tape, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

ADDITIONAL OPTIONS

Optionally, moisture barrier and security straps can be added for an additional fee. CAL 133 fabric treatment may also be applied for an additional fee per yard.
