

Delta Designs' goal is to meet each customer's storage needs and functional requirements.

### Why Delta

Delta Designs Ltd. specializes in the design and professional manufacture of high-quality museum storage equipment. Our products meet the highest standards of conservation practice and storage for historical artifacts, art objects, textiles, archival materials, scientific specimens and natural history collections.

Our philosophy is to continuously upgrade our designs and products. That's why we chose the Delta name – because it represents continuous, incremental change. What we learn from the last job goes into the next one.

### Affordable Custom Design

Delta Designs' goal is to meet each customer's storage needs and functional requirements. "Stock" products are available. However, modern, computerized technology gives us the flexibility to custom design and fabricate most projects at a unit price equal to or better than that of traditional mass-produced stock equipment. This means we develop your equipment to meet the various demands of your collection, staff, facility, schedule and budget.

### Museum-Quality Construction

The materials we use are approved – and proven – for museum use. Each product is built with extra-rigid construction to ensure durability and longevity. A non-reactive, solvent-free powder-coating is applied to provide a high-quality, durable finish.

### Five-Year Guarantee

Delta Designs Ltd. guarantees the design, materials, and workmanship of all our products for five years. We care about your collection and consider every collection storage problem to be unique. We accept the challenge of creating an ideal solution for your storage needs.

Our philosophy  
is to constantly  
upgrade our  
designs and  
products.

## Product List

Non-reactive,  
solvent-free,  
baked  
powder-coating.

## Model DDLX Museum Storage Equipment

These cabinets are specified for the storage of historical artifacts, art objects, textiles, archival materials and scientific specimens. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

### Highlights:

- Cabinets are all steel and include heavy-duty construction
- Non-reactive, solvent-free, baked powder-coat finish
- Mechanically attached silicone gaskets
- Flush-locking hardware
- Three-point latch system
- Full-length piano hinge door
- Base: 2-1/2" high includes levelers activated from the front of the cabinet for all four corners
- Passive filter vents
- Cabinets allow drawer and shelf adjustment on 1" centers vertically
- Case to have fittings to allow installation of center partitions for half width accessories

### DDLX Options:

- Doors with 1/4" laminated safety glass
- Full extension drawer with suspensions
- Removable tray with metal glides
- Fixed shelves and pull out shelves
- Hanger rod shelves for hanging textiles
- Roll storage racks for rolled textiles
- Weapons insert (See page 19 for picture)
- Base can be adapted for movable compact storage systems
- Additional base options: 1) 4" or 6" high pallet style base 2) 4" or 6" high caster base

### All Cabinets Feature 2-1/2" High Recessed Base

#### Series 700 Sizes

Width: 48" to 72"

Height: 48" to 96"

Depth: 24" to 36"

\* Custom sizes available upon request

## Series 700 Museum Storage Equipment

These cabinets are specified for the storage of historical artifacts, art objects, textiles, archival materials and scientific specimens. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

#### Highlights:

- Easily fixed to mobile compact storage
- Cabinets are all steel and include heavy-duty construction
- Non-reactive, solvent-free, baked powder-coat finish
- Mechanically attached silicone gaskets
- Flush-locking hardware
- Three-point latch system
- Full-length piano hinge door
- Base levelers activated from the front of the cabinet for all four corners
- Passive filter vents
- Cabinets allow drawer and shelf adjustment on 1" centers vertically
- Case to have fittings to allow installation of center partitions for half-width accessories
- Umbrella top
- Easy to stack

#### Series 700 Options:

- Doors with 1/4" laminated safety glass
- Full extension drawer with suspensions
- Removable tray with metal glides
- Fixed or pull-out shelf
- Hanger rod shelf
- Roll storage racks
- Base options:
  - 2-1/2" high recessed base
  - 4" or 6" high pallet style base
  - 4" or 6" high caster base

SERIES 700

## NPS/Geology Cabinets

Specified for geology and object collections, these cabinets correspond with the National Park Service Standard-wide cabinet. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

### Highlights:

- Heavy-duty welded construction
- Silicone gasket is held in place mechanically
- Recessed handle with two-point-locking mechanism
- Hinged swinging doors are removable by simply lifting the door when it is in an open position
- Featuring a non-reactive, solvent-free, baked powder-coat finish in a color selected by customer
- Trays and tray glides to be finished with slip-type powder-coat for tray slide ease
- Cabinet has glides fixed vertically in 1" increments

DDL

Hinged swinging doors are removable by simply lifting the door when it is in an open position.

### Model DDL

29" wide x 36-7/8" high x 32" deep  
16-tray capacity (1-3/4" high)  
\* Additional tray heights available

### Model DDLC

58" wide x 36-7/8" high x 32" deep  
16-tray capacity (1-3/4" high)  
\* Additional tray heights available

Heavy-duty  
welded  
construction.

**Model DDHY**

29-1/8" wide x 84" high x  
19-1/8" deep  
Has 26 compartments

**Model DDHYH**

29-1/8" wide x 40" high x  
19-1/8" deep  
Has 12 compartments

**Model DDHYDD**

55" wide x 84" high x  
19-1/8" deep  
Has 52 compartments

## Herbarium Cabinets

Herbarium cabinets are specified for botany folios and specimens. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

**Highlights:**

- Each clear compartment has inside dimensions of 12-5/8" wide x 5-7/8" high x 17-1/2" deep
- Heavy-duty welded construction
- Silicone gasket is held in place mechanically
- Recessed handle with three-point-locking mechanism
- Featuring a non-reactive, solvent-free, baked powder-coat finish in a color selected by customer
- Pull-out reference shelf available upon request
- Umbrella top
- Piano hinge doors
- Lift off hinge doors are available upon request
- Easily accessible to mobile compact storage

DDHYDD

# Entomology Cabinets

These cabinets are specified for the storage of entomology collections. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

## Highlights:

- Cabinets are all steel and include heavy-duty construction
- Featuring a non-reactive, solvent-free, baked powder-coat finish
- Mechanically attached silicone gaskets
- Recessed handle with three-point-locking mechanism
- Full-length piano hinge door
- Pull-out reference shelf available
- Base levelers activated from the front of the cabinet for all four corners.
- Custom heights available upon request
- Note: To determine interior glide spacing, the type of Entomology drawer must be specified

## Typical Sizes for Entomology drawers are as follows:

- California: 19" wide x 2-1/2" high x 17" deep
- Cornell: 19" wide x 3" high x 16-1/2" deep
- KU: 19" wide x 3" high x 19" deep
- USNM: 18" wide x 3" high x 18" deep

DXEN 48

Mechanically  
attached  
silicone gaskets.

## Model DXEN 48

43" wide x 84" high x 20" deep  
Includes 2-1/2" high base  
Drawer capacity: 48 Cornell  
Drawers

## Model DXEN 72

66" wide x 84" high x 20" deep  
Includes 2-1/2" high base  
Drawer capacity: 72 Cornell  
Drawers

## Model DXEN 24

23" wide x 84" high x 20" deep  
Includes 2-1/2" high base  
Drawer capacity: 24 Cornell  
Drawers

## Paleontology Cabinets

These cabinets are specified for the storage of paleontology collections. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

### Highlights:

- Silicone gasket is held in place mechanically
- Recessed handle with three-point-locking mechanism
- 1-3/4" high trays and 3-3/4" high trays are available
- Cabinet has glides fixed vertically in 1" increments
- Trays and tray glides to be finished with slip-type powder-coat for tray-slide ease
- Number plates available upon request for re-inserting tray ease
- Easily fixed to mobile compact storage
- Glides are heavy .060" (16 ga.)

Cabinets are  
all steel and  
include heavy-  
duty features.

### Series 800

48" wide x 84" high x  
28-1/2" deep  
Includes 2-1/2" high  
recessed base.

Series 800 is divided into two  
compartments.

Series 800 holds (76) 1-3/4"  
high trays or (38) 3-3/4" high  
trays for maximum capacity.

### Series 850

48" wide x 48" high x  
28" deep

Series 850 is divided into two  
compartments.

Series 850 holds (44) 1-3/4"  
high trays or (22) 3-3/4" high  
trays for maximum capacity.

\* Custom sizes available  
upon request

Series 800

# Vertebrate Specimen Cabinets

Cabinets are specified for vertebrate, ornithological and mammal collections. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

## Highlights:

- Cabinets are all steel and include heavy-duty rigid construction
- Silicone gasket is held in place mechanically
- Trays are available in steel or aluminum
- Recessed handles
- Featuring a non-reactive, solvent-free, baked powder-coat finish in a color selected by customer
- Cabinets have glides fixed vertically in 1" increments
- Glides are heavy .048" (18 ga.)
- Full-width pull out shelves available
- Trays and tray glides to be finished with slip-type powder-coat for tray-slide ease

DDVB

Trays available  
in steel or  
aluminum

### Model DDVA

55-1/2" wide x 85" high x 38-1/2" deep  
Complete with center divider and 2-1/2" high base  
72-tray capacity (1-3/4" high)  
\* Additional tray heights available

### Model DDVB

55-1/2" wide x 85" high x 38-1/2" deep  
Complete with 2-1/2" high base  
36-tray capacity (1-3/4" high)  
\* Additional tray heights available

### Model DDV

28" wide x 39-1/2" high x 38" deep  
18-tray capacity (1-3/4" height)  
\* Additional tray heights available

### Model DDB

56" wide x 39-1/2" high x 38" deep  
18-tray capacity (1-3/4" high)  
\* Additional tray heights available

Interior accessories sold separately

## Zoology Cabinets

Cabinets are specified for zoological specimen collections. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

### Highlights:

- Heavy-duty welded steel construction
- Non-reactive, solvent-free, baked powder-coat finish
- Mechanically attached silicone gaskets
- Flush-locking hardware
- Lift-off hinge doors
- Tray to have obround handle cutout or tray pull and label holder
- Trays and tray glides are finished with a slip-type powder-coat for tray slide ease
- Tray glides fixed on 1" centers vertically
- Model DD202 features a full-height center divider

Trays and tray  
glides are finished  
with slip-type  
powder-coat for  
tray slide ease.

### Model DD201

46-1/2" wide x 42" high x 28" deep  
Tray capacity: 18 DD201 Full Width  
Trays — 1-3/4" high  
Tray capacity: 9 DD201 Full Width  
Trays — 3-3/4" high

### Model DD202

46-1/2" wide x 42" high x 28" deep  
Tray capacity: 36 DD202 Half Width  
Trays — 1-3/4" high  
Tray capacity: 18 DD202 Half Width  
Trays — 3-3/4" high

DD201

# Cantilever Textile Racks

Cantilever textile racks are used for the storage of rolled textiles in varying lengths and diameters. Racks are designed to allow attachment to floor or mobile system; wall brackets are also available.

## Highlights:

- Cantilever textile rack size to be quoted per customer specification
- Double-face or single-face units
- Heavy-duty welded steel construction
- Cantilever arms (6" high) can be adjusted on 3" centers vertically
- Cantilever arm is designed to be moved horizontally along entire horizontal plane
- Cantilever arm to accept rolled textile brackets on 1" centers front to back
- Canopy tops are available
- Non-reactive, solvent-free, baked powder-coat finish
- Roll storage tube inserts available in 1-1/2", 2" and 3" diameters

Cantilever Textile Rack

Racks are designed to allow attachment to floor or mobile system.

For accuracy in quoting, please specify quantity, lengths and diameters of rolled textiles. Sizes up to 138" high x 48" deep are available. Length of cantilever rack is determined by room layout and rolled textile lengths. Cantilever arms are fabricated of .060" (16 ga.).

Drawers glide  
via ball-bearing  
extension  
suspensions.

#### Model 4129

41" wide x 17" high x 29" deep  
Drawer interior dimension:  
37" wide x 2" high x 27" deep  
Drawer extension: 24"

#### Model 4736

47" wide x 17" high x 36" deep  
Drawer interior dimension:  
43" wide x 2" high x 34" deep  
Drawer extension: 28"

#### Model 5442

54" wide x 17" high x 42" deep  
Drawer interior dimension:  
50" wide x 2" high x 40" deep  
Drawer extension: 28"

## Flat Files

Flat Files are primarily used for architectural drawings, maps, prints and archival materials. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

#### Highlights:

- Heavy-duty welded steel construction
- Flat Files to have five drawers
- Drawers glide via ball-bearing extension suspension
- Drawer to have two chrome handles, label holder, inhead and rear hood
- Non-reactive, solvent-free, baked powder-coat finish
- Bases are available in 4" and 6" heights
- Caster bases available upon request
- **Oversize and custom Flat Files available upon request**

(2) 5442 stacked

# Stainless Steel Specimen Tanks

Stainless steel specimen tanks are specified for wet-biological collections. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish.

## Tank Capacity

- Series 18: 17.5 gallons
- Series 35: 35 gallons
- Series 70: 69.25 gallons

**Specimen tank racks with pull-out shelves available upon request.**

## Metal Dollies

- Dollies are formed of .060 (16 ga.) cold rolled steel and finished with chemical-resistant epoxy powder-coating.
- Each dolly rolls on 3" diameter casters. Four total casters all swivel.

## Tank and Lid

- Material is 316 ELC stainless steel, .036 (20 ga.) with a 2B finish.
- External perimeter of tank is reinforced with .047 (18 ga.) stainless steel channel. Seams are fusion-welded manually by heli-arc.
- Lid is held in place by #3 link lock mechanical fasteners against a chemical-resistant, closed-cell Buna-N gasket.

Seams are  
welded  
manually  
by heli-arc.

## Tank Size Interior Dimension

- Series 70:  
24" high x 29" long x 23" wide
- Series 35:  
15" high x 36" long x 15" wide
- Series 18:  
15" high x 18" long x 15" wide

Series 35 on Custom Specimen Tank Rack

**Custom rack sold separately**

Series 18

Modern  
computerized  
technology  
gives us the  
flexibility to  
custom design  
to your needs.

## Custom Museum Storage Cabinets

Flexible manufacturing technology makes it possible for Delta Designs Ltd. to custom design and fabricate museum storage equipment to the size, style and functional requirements to conserve your specific collection. All materials are approved – and proven – for museum use, with particular attention given to a high-quality finish. Please refer to the RFP/Quote section on page 4 or request a proposal for your storage requirements.

We pay particular attention to the best finish and use a non-reactive, solvent-free, baked powder-coating. Gaskets are silicone.

### Options:

- Sizes up to 96" high, 108" wide, 96" deep
- Doors with glass
- Doors in front and back
- Bi-folding doors
- Glass in back
- Easily changed interior arrangement of drawers, shelves, etc.
- Full-extension drawer suspensions
- Specialized inserts and fixtures for botany folios, existing drawers, roll storage, guns, swords, pelts, etc.
- Filter vents with passive air purification (activated charcoal)
- Color specified by customer
- Installation to meet seismic loading
- Base options:
  - 2-1/2" high recessed base
  - 4" or 6" high pallet style base
  - 4" or 6" high caster base
- Installation by factory personnel

Oversized Custom Flat File

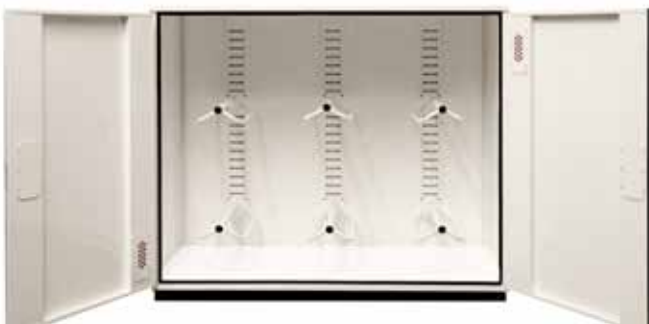

Allows stored artifacts to be displayed for public view. Each drawer has a lockable, safety glass lid

---

On casters with textile trays to house oversized flat textiles

---

Designed for saddle storage

---

DDLX with weapons insert for firearm storage

Delta Designs' goal is to meet each customer's storage needs and functional requirements.

### Why Delta

Delta Designs Ltd. specializes in the design and professional manufacture of high-quality museum storage equipment. Our products meet the highest standards of conservation practice and storage for historical artifacts, art objects, textiles, archival materials, scientific specimens and natural history collections.

Our philosophy is to constantly upgrade our designs and products. That's why we chose the Delta name – because it represents continuous, incremental change. What we learn from the last job goes into the next one.

### Affordable Custom Design

Delta Designs' goal is to meet each customer's storage needs and functional requirements. "Stock" products are available. However, modern, computerized technology gives us the flexibility to custom design and fabricate most projects at a unit price equal to or better than that of traditional mass-produced stock equipment. This means we develop your equipment to meet the various demands of your collection, staff, facility, schedule and budget.

### Museum-Quality Construction

The materials we use are approved – and proven – for museum use. Each product is built with extra-rigid construction to ensure durability and longevity. A non-reactive, solvent-free powder-coating is applied to provide a high-quality, durable finish.

### Five-Year Guarantee

Delta Designs Ltd. guarantees the design, materials, and workmanship of all our products for five years. We care about your collection and consider every collection storage problem to be unique. We accept the challenge of creating an ideal solution for your storage needs.
