We have established an agreement with Minnesota Multistate Contracting Alliance to allow purchases from their cooperative contract with McKesson. MMCAP pricing is only available by being an MMCAP member and informing McKesson of the entity's willingness to participate. It is the buyer's responsibility to ensure this contract is not used for required competitive process items or as a substitute for other required purchasing approvals as required by Mississippi law. These items include, but are not limited to, Adult and Children's Disposable Briefs or Laboratory Supplies. **Only those items with a net cost of \$25,000 or less are included in this agreement.** This contract allows agencies to save money on medical supplies and provides that the provisions thereof may be available to any county, municipality, school board or other local public agency or authority of the State of Mississippi which may elect to purchase at the prices, terms and conditions of sale specified therein.
