## General Notes:

Modifications to the standard core material, laminate thickness, and/or wood species requires a modification to standard list prices. Installation on set contract pricing is non-union rates. Union rates will require an up charge.

## Freight

Due to the volatility of the oil market, freight surcharges will be necessary on all set price contracts. Price will be negotiated with the end-user and will be supported by current market conditions data.

## Minimum Orders

All set price contract orders must exceed \$25,000.00 or a freight surcharge will be applied to each contract quotation.

## LEED Pricing

Upcharge for LEED certified materials will vary from item to item. The increases can be between 5% to 20% depending on the standard of requirements needing to be met. These increases will be added and justified on each order for these requirements.

## Custom Modification

Custom modification to standard products is available on all set price contracts. The standard product number must be displayed and all custom options are to be listed along with price justification as is relates to the displayed list price for each item. The applies to state contracts and the E&I contract.
