FEATURES

Arms

Constructed of rigid urethane with steel support molded into urethane for extra support
Available on End Legs and as Interior Arms within upholstered seats at specific locations
Arm may be field installed by switching leg around to reveal pre-drilled holes

Freestanding Units

Standard upholstered units are numbered and priced as a complete unit with legs –
1, 2, and 3 Seat Straight Units – with and without arms
Children's Unit
1, 2, and 3 Seat Single Bench Units
Occasional Tables

Interior Frame

Heavy-duty, hardwood plywood frames are used for seats and backs with multiple density foam allowing for the aesthetic contours and seating comfort
Interior construction of frame withstands high-traffic use and offers over 94" of seating capacity with only legs at the end
All frames are pre drilled to accept every type of leg, arm, and tablet configuration for convenient field installation
Metal finish in Chrome (-CH) and Powder coat Finishes in Black (-BL), Silver (-SI), Matte Black (-MB), Matte Silver (-MS), and Matte White (-MW)

Legs

END LEGS

There are two different types of End Legs – End Legs for Modular Seats, and End Legs for Single Benches.
End legs are specified as right or left sitting in unit
Modular Unit End Legs are used on ends of upholstered seats and may be ordered with Arms, Arms with Pivoting Tablets, and Tablets.
End Tables, Between Tables, or Corner Tables attach only to End Legs
All End Legs are offered standard in Chrome (-CH) and Powdercoat Finishes in Black (-BL), Silver (-SI), Matte Black (-MB), Matte Silver (-MS), and Matte White (-MW)
Adjustable glides are standard on all legs

GANGING LEGS

There are two different types of Ganging Legs – Ganging Legs for Modular Units, and Ganging Legs for Single Benches.
Ganging legs connect two upholstered units ONLY
Adjustable glides are standard on all legs
All Ganging Legs are offered standard in Chrome (-CH) and Powdercoat Finishes in Black (-BL), Silver (-SI), Matte Black (-MB), Matte Silver (-MS), and Matte White (-MW).

HEALTHCARE LEGS

Legs may be special ordered for Healthcare for an overall seat height at 18" - see options

Sweep Through

All upholstered units have sweep-through area between seat and backs

Tables

Tables are offered in a variety of shapes and sizes
All tops are available in Acrylic or wood veneers (Beech, Maple, Oak, and Walnut) with matching wood edge banding

Tablets

Tablets are offered as fixed or rotating on arms
Tablets may be located at ends on legs, on ganging legs, or in interior locations of seats
All are available in Acrylic or wood veneers with matching wood edge banding

Upholstered Units

Available as: 1, 2, and 3 Seat Straight Units
90°, 45°, and 30° Inside and Outside Curves
1, 2, and 3 Seat Single Bench Units and Curved Single Bench

OPTIONS

Acrylic

Tablets and Tables with Acrylic surfaces are made from Acrylite® GP, which is a cell-cast acrylic sheet. This acrylic is lightweight, rigid thermoplastic material that has many times the breakage resistance of standard window pane glass. Previous applications of this material has been in internal and external architectural elements. Radius will be one of the first furniture applications using this material.

Properties –

Meets ANSI Z 91.7 – Safety Glazing Materials in Buildings

More impact-resistant than glass. If subjected to impact beyond the limit of its resistance, it does not shatter into small slivers but breaks into large pieces. It is less than half the weight of glass.

It is a combustible thermoplastic, so precautions should be taken to protect the material from flames and high heat sources. It has excellent resistance to many chemicals, but will be affected, in varying degrees by the following:

- aromatic solvents such as benzene and toluene
- chlorinated hydrocarbons such as methylene chloride and carbon tetrachloride
- ethyl and methyl alcohols
- some organic acids such as acetic acid
- lacquer thinners, esters, ketones, and ethers

Cleaning –

Wash acrylic with a mild soap or detergent and plenty of lukewarm water. Use a clean soft cloth, applying only light pressure. Rinse with clear water and dry by blotting with a damp cloth or chamois.

Grease, oil, or tar may be removed with a good grade of hexane, aliphatic naphtha, or kerosene.

These solvents may be obtained at a paint or hardware store and should be used in accordance with manufacturers' recommendations. Any oily film left behind by solvents should be removed immediately by washing.

DO NOT USE: Window cleaning sprays, kitchen cleansers, gasoline, benzene, carbon tetrachloride, or lacquer thinner.

Health Care Legs

Legs may be special ordered for Health Care for an overall seat height at 18".

Specify option **RA-TALL LEG** on each type of leg specified and add **\$73** List to each leg cost.

Adjustable glides are standard on all legs.

Metal Finishes

Chrome (-CH)

Powder coat Finishes – Black (-BL), Silver (-SI), Matte Black (-MB), Matte Silver (-MS), Matte White (-MW)

Table & Tablet Finishes

Opaque White Acrylic (-AY)

Wood Veneer Beech (-BB)

Maple (-MM)

Oak (-OA)

Walnut (-WW)

Upholstery

Due to the special tailoring of upholstered units, the following specifications for fabrics should be considered before specifying:

• **ALL FABRICS WILL BE CUT BY DAVIS' DISCRETION - unless stated otherwise on the purchase order.**

• **Solid, non-repeat fabrics** are best suited for the Radius seating units.

• **Fabrics with patterns** on curved units will be pieced according to matching of pattern requirements.

Lineal, stripes, and geometric patterns will be pieced and matched for the best possible solution, however, distinctive "v" patterns might occur and will not be considered a flaw.

If a patterned fabric that cannot be railroaded is specified, then 1-seat units and curved units ONLY should be specified for all configurations.

• **Stretch should be across the roll from selvage to selvage or 2-way**, in order for 2- and 3-seat straight units to be cut in one-piece to eliminate seams and puddling.

Fabrics that stretch up the roll, i.e. Milestone, are not recommended because seams will have to be used and puddling might occur. The fabric stretch is used to minimize seams and puddling on curved pieces; the less stretch the more seams that will be necessary.

• Yardage requirements will vary according to combination of units and fabrics specified. PATTERNS AND NON-STRETCH FABRICS should be reviewed by Davis.

Please contact Davis Customer Service with selected fabric and/or submit sample of COM so Davis can determine exact yardage required according to unit

combination specified. Specify repeat.

• COL submitted must be of 50 sq. ft. hides and above for yield requirements of large patterns.

Two seat units are standard with no center seams, however, if COL hides are not large enough, then seat and back units will have seams in the middle. Pattern sizes for Two Seaters are as follows: Seat - 31" x 63", Inside Back - 31" x 64", Outside Back - 21" x 62 1/2"

Three seat units specified in leather will always have two seams on inside back and seat.

Wood Finishes

Beech

-BB

101 Natural Beech
102 Light Beech
103 Medium Beech
104 Dark Beech

Oak

-OA

301 Natural Oak
