Xerox® WorkCentre® 6400 Multifunction Printer

Unleash the productivity of your office. We've taken the office-critical features of our large departmental MFPs and packed them into this ultraproductive letter-sized printer. It seamlessly integrates print, scan, fax and copy functionality, and adds smart management tools to simplify work for busy offices with high-volume color requirements.

A Powerhouse Made for Sharing

From its advanced networking to fast operating speeds (up to 32 ppm color / 37 ppm black-and-white), the WorkCentre 6400 is tailor-made for large workgroups.

- **Multitasking.** Access walk-up copying, scanning or faxing functions when you need them, even while other jobs are printing. Spend your valuable time working, not waiting for your turn.
- **Never wait for a job on hold.** Exclusive Print Around feature detects print jobs waiting for additional resources (such as a special paper size) and prints the next print job in the queue.

All-in-one Simplicity

The WorkCentre 6400 gives your business crucial tools in an easy-to-use package.

- **Walk-up use is intuitive** thanks to the icon-based, 8-inch color touch screen with help screens. It shares the same simplicity our larger Xerox® devices are known for.
- **Easy supplies replacement.** Toners come pre-loaded and replacement is simple thanks to the easy-access front door, and email alerts notify you when levels are low.
- **Automatic two-sided** copying, printing and fax receipt reduces office paper use.
- **Regulate use and control costs.** Set limits to users' access to copy and fax functionality and control access to color. Generate usage reports for analysis and billing purposes.
- **Scan routing made easy.** LDAP capability integrates scanning with your network address book.
- **Efficient finisher** (standard on 6400XF) staples your documents or offset stacks jobs for grab-and-go convenience.
- **Annotate, edit and organize** scanned image files with Xerox® Scan to PC Desktop® SE Personal Edition (standard). Convert scanned documents to editable text formats such as Microsoft® Word® and Excel®.

Your Processes Simplified

- **Turn a shared multifunction printer into your own personal multifunction printer.** The WorkCentre 6400 is built on the powerful Xerox® Extensible Interface Platform® (EIP), a web- and standards-based technology that lets you add applications for easy access right from the touch screen. For example, Scan to PC Desktop software (optional Professional version) seamlessly integrates with EIP for customized scanning menus that match your specific workflows.
- **Full-functioned scanning** includes a wide range of document routing capabilities. Store scans in a public or private folder on the hard drive with Scan to Mailbox. Send files to a pre-assigned "home" destination with Scan to Home. Scan files directly to email addresses or store on a central server with network scanning.
- **Automate repetitive job processes** by automatically routing scanned documents to predefined folders on your computer or as attachments to emails with convenient scan templates.
- **Store frequently printed documents** directly on the device for reprinting later.
- **Convert paper documents to text-searchable PDFs** in one step for easy archiving, organizing and searching.

Print / Copy / Scan / Fax

8.5 x 14 in.

32 ppm color

Convenient walk-up operation. Easy to read and navigate, the large color touch screen guides you through even the most complex operations.

Choose desktop or floor standing models to locate conveniently close to users.

- 1** Xerox® Extensible Interface Platform® (EIP) is a software platform inside the WorkCentre 6400 that enables personalized solutions you can access right from the touch screen. These applications can leverage your existing databases and meet your specific business challenges.
- 2** 50-sheet Duplex Automatic Document Feeder scans two-sided documents in sizes up to 8.5 x 14 in.
- 3** Full 8.5 x 14 in. platen glass allows you to scan legal-size documents with ease.
- 4** 80 GB internal hard drive lets you handle more tasks at the device. Use the Save Job feature to keep frequently used documents available for quick printing on the go.
- 5** 100-sheet multipurpose tray.
- 6** Standard 500-sheet tray.
- 7** Two additional 500-sheet trays (standard on XF configuration).
- 8** Stand includes cabinet for toner and media storage (standard on the XF configuration).
- 9** Finisher collates and staples sets of up to 30 pages. Available for both desktop and floor standing models. Includes 600-sheet output tray.

Security Built-in

Confidential documents stay confidential with advanced security features:

- A print job can be held in the queue until a PIN is entered, releasing it to print.
- Image data in the device's memory can be automatically "shredded" after every job or on request.
- A password can be required before incoming faxes can be printed or removed, and a junk fax barrier protects your privacy.
- Authentication helps prevent unauthorized access to the device and support for 802.1X secures it on the network.
- Supports IPSec for both IPv4 and IPv6 for improved security.
- Xerox Secure Access Unified ID System® (optional) enables users to log-in at the WorkCentre 6400 with their employee/student ID badge for secure access to functions that need to be tracked for accounting or regulatory requirements.
