Xerox® Integrated Fiery® Color Server, for the Xerox® Color C75 Press

Need world-class color with workflow tools that put you in command? Need easy access to essential applications such as security, accounting, mobile print and many others? The Integrated Fiery Color Server for the Xerox® Color C75 Press is the right choice.

Productivity starts with a fast RIP.
The Integrated Fiery Color Server enables you to print large and/or complex Microsoft® Office documents, PowerPoint® files and color-critical PDFs accurately and quickly. It improves throughput and productivity by printing one page while processing subsequent pages, and by storing processed pages in memory before printing.

Simplify and streamline your workflow.
Automate job submission and eliminate repetitive workflows for faster, error-free printing with Fiery Hot Folders and Virtual Printers. Take advantage of commonly used Fiery presets to save time when submitting jobs. With Fiery technology, even novice users can perform complex jobs using the pre-set drivers configured for the task.

Get the color right.
Produce precise, accurate color from all applications, platforms and formats with Fiery color management tools.

Turn up the impact with variable information.
Customize your output to a specific audience with varying text, photos and graphics with the Integrated Fiery Color Server's basic variable data printing capabilities.

Create professional printed materials quickly and easily.
Make booklets and other documents directly on your desktop with Fiery VUE, a 3-D "visual print application" that guides you through an interactive and intuitive workflow.

A Secure Production Environment
Your administrators will appreciate the Integrated Fiery Color Server's complete toolset covering all aspects of document and device security.

Print directly with Wi-Fi printing capability.
The Integrated Fiery Color Server's Direct Mobile Print for Apple® iOS devices enables wireless printing simply and easily, at no extra cost. Users do not need any additional print drivers or software for printing.
