Primaries

WS205-A

Primaries

Designed by Dorsey Cox, circa 1990

Primaries is the proven standard in children's contact furnishings. Playful styles have true child appeal. Simple molded plywood construction with minimal parts withstanding the rigorous wear of children's daily use. Chairs are also lightweight allowing children to move about in their environment. For safety all edges are shaped to a soft radius. Primaries offers great variety between the four different chair styles and multiple table configurations.
