

AMENDMENT NUMBER 5
TO
MASTER PURCHASE AGREEMENT NO. 2003MPA6052 ("MPA")
BETWEEN
ENVIRONMENTAL SYSTEMS RESEARCH INSTITUTE, INC. ("ESRI")
AND
MISSISSIPPI DEPARTMENT OF INFORMATION TECHNOLOGY SERVICES ("ITS")
AS CONTRACTING AGENT FOR THE
AGENCIES AND INSTITUTIONS OF THE STATE OF MISSISSIPPI ("Licensee")

This Amendment Number 5 shall serve to amend the Master Purchase Agreement No. 2003MPA6052 entered into December 16, 2004 and amended on February 21, 2007, April 3, 2007, May 21, 2008, and December 8, 2009 (hereinafter referred to as "MPA") between Environmental Systems Research Institute, Inc., a California corporation having its principal place of business at 380 New York Street, Redlands, California 92373-8100 (hereinafter referred to as "ESRI") and the Mississippi Department of Information Technology Services having its principal place of business at 301 North Lamar Street, Suite 508, Jackson, Mississippi 39201 (hereinafter referred to as "ITS") as contracting agent for the agencies and institutions of the State of Mississippi (hereinafter referred to as "Licensee").

NOW THEREFORE, ITS and ESRI, by entering into this Amendment Number 4, mutually agree that the following provisions shall modify the aforementioned MPA:

(1) Article 2, "Term of Agreement" of the MPA Terms and Conditions (E500M) section, shall be and hereby is amended so as to renew the MPA for an additional term beginning on February 26, 2010 and continuing through the close of business on December 15, 2015.

(2) A new Article 13.13 titled "Mississippi Employment Protection Act" shall be and hereby is added to the MPA Terms and Conditions (E500M) section and shall read as follows: "ESRI represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1, et seq. of the Mississippi Code Annotated (Supp2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. ESRI agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. ESRI further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. ESRI understands and agrees that any breach of these warranties may subject ESRI to the following: (a) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification or other document granted to ESRI by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both. In the event of such termination/cancellation, ESRI would also be liable for any additional costs incurred by the State due to contract cancellation or loss of license or permit."

(3) The last sentence of Article 9, "Pricing" of the MPA Terms and Conditions (E500M) shall be and hereby is deleted in its entirety and replaced with the following: "ESRI's standard commercial prices for Software, Data, Web Services, Documentation, maintenance, and support will be updated annually during the initial term or any extension to the term of this Agreement. During the term of this Agreement and except where such discounting reduces a software product to a level less than GSA commercial prices, a discount of fifteen percent (15%) will be applied to ESRI's then current standard commercial price list for software products. No discounts shall be applied to any ESRI Maintenance, Services, Installation Labor Rates and/or Training (including Virtual Campus) prices."

(4) Exhibit 1, "Scope of Use" (E300 5/08B) attached to Amendment Number 3 shall be and hereby is deleted and replaced with the revised Exhibit 1, "Scope of Use" (E300 12/09) which is attached to this Amendment Number 5.

(5) The Price Catalog attached to Amendment Number 3 shall be and hereby is deleted and replaced with the new Price Catalog attached to this Amendment Number 5.

Except as modified by this Amendment Number 5, the Agreement and Amendments No. 1, No. 2, No. 3, and No. 4 remain unchanged and in full force and effect. The parties hereto have executed this Amendment Number 5 to be effective, valid, and binding as of the date below as executed by their duly authorized representatives.

1. "Single Use License." Licensee may permit a single authorized end user to install and use the Software, Data, and Documentation on a single computer for use by that end user on the computer on which the Software is installed. Remote access is not permitted. Licensee may permit the single authorized end user to make a second copy for end user's exclusive use on a portable computer as long as only one (1) copy of the Software, Data, and Documentation is in use at any one (1) time.
 2. "Concurrent Use License." Licensee may install and use the Software, Data, and Documentation on computer(s) on a network, but the number of simultaneous users may not exceed the number of licenses acquired.
 3. "Development Server License." Licensee may install and use the Software on a single computer to design and build applications that interface with or utilize server Software as described in the Documentation.
 4. "Staging Server License." In addition to the Development Server License rights, Licensee may use and install the Software for the following purposes: user acceptance testing, performance testing, load testing of other third-party software, staging new commercial data updates, and training activities.
 5. "Deployment Server License." In addition to the Staging Server License rights, Licensee may install and use the Software or Data to provide services to multiple users on the same or other computer(s).
 6. Provided only as a Term License.
 7. Extensions to Software programs follow the same scope of use as that granted for the corresponding Software programs.
 8. The administration tools for the Software may be copied and redistributed throughout Licensee's organization.
 9. User-developed ArcGIS Server administration tools may be copied throughout Licensee's organization, but the ArcCatalog application (found in ArcGIS Desktop) may not be copied.
 10. The ArcIMS license includes the right to deploy MapObjects—Windows Edition applications on the Internet or intranet. Licensee shall not develop client/server solutions with the ArcIMS Java Archive (JAR) files without a license for the MapObjects—Java Edition Developer Kit.
 11. Licensee may install and use the Software to provide services to multiple users on the same or other computer(s). The Software is licensed per server. The licensed server is the server on which Licensee installs the Spatial Data Service.
 12. ArcPad SOFTWARE IS NOT LICENSED FOR NAVIGATIONAL USE.
 13. "Dual Use License" means the Software may be installed on a desktop computer and used simultaneously with either a personal digital assistant (PDA) or handheld mobile computer as long as the Software is only used by a single individual at any one (1) time.
 14. Developers must include the following attribution with any deployed MapObjects application: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–2002 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."
 15. Deployment licenses for desktop or Internet application(s) may be subject to payment of additional license fees.
 16. Licensee may deliver applications to its sublicensee(s) provided Licensee uses a written sublicense agreement that protects ESRI's rights in its Software, Data, Web Services, and Documentation to the same extent as the ESRI License Agreement including, but not limited to, the following terms:
 - a. Sublicensee may not reverse engineer, decompile, or disassemble the ESRI Software, Data, Web Services, or Documentation, except to the extent permitted by applicable law; copy for commercial use; transfer; or assign its rights under the license grant;
 - b. Sublicensee may not use any ESRI Software, Data, Web Services, or Documentation, in whole or in part, separate from Licensee's executable application; and
 - c. Third-party dependent or required components are redistributable subject to permission from the owner or author.
 17. Licensee may use Business Objects Crystal Reports software only with the ArcView 3.x Software with which it was acquired and subject to the Crystal Reports License Agreement available on the media. Licensee may not use a software program or system to cache or queue report requests.
 18. The deployment license is per application per computer.
 19. The MapObjects—Java Edition contains Java Archive files, which indicate they are authentic ESRI-certificated files when used over the Internet. Licensee shall not use ESRI certification or reference ESRI as a source of trusted content in any modified MapObjects Java Archive files. Licensee may deploy the unmodified Java class ESRI certified libraries as an integral part of the Licensee's application(s).
 20. Licensee may reproduce and deploy the Software provided all the following occur: (a) The Software is reproduced and deployed in its entirety; (b) a license agreement accompanies each copy of the Software that protects the Software to the same extent as the ESRI License Agreement, and the recipient agrees to be bound by the terms and conditions of the license agreement; (c) all copyright and trademark attributions/notices are reproduced; and (d) there is no charge or fee attributable to the use of the Software.
-

21. Licensee shall not withhold any substantial right (e.g., extension of credit) from any individual based solely on the individual's place of residence, as profiled in the Tapestry Segmentation system.
22. (a) ArcGIS Engine Runtime licenses shall not be used for Internet and server development and deployment. (b) An end user must license either ArcGIS Engine Runtime Software or other ArcGIS Desktop Software (ArcView, ArcEditor, or ArcInfo) to obtain the right to run an ArcGIS Engine application on one (1) computer. (c) The ArcGIS Engine Runtime extensions shall not be used in combination with ArcGIS Desktop Software to run ArcGIS Engine applications. A single user can have multiple applications installed on one (1) computer for use only by that end user.
23. Licensee may redistribute the Data as described in the Redistribution Rights Matrix available at <http://www.esri.com/legal/>, in the Help system, or in supporting metadata files, subject to the specific attribution descriptions and requirements for the dataset accessed.
24. EDN Software, Web Services, and Data may only be used by one (1) named developer per subscription solely for the purposes of research, development, testing, and demonstration of a prototype application. EDN Software and Data may be installed on multiple computers for use by any named EDN developer.
25. Use of included third-party owned data shall be subject to the Use of Data Restrictions found at <http://www.esri.com/legal/> for the specific Data accessed. The Use of Data Restrictions may be modified by ESRI from time to time. If a modification is unacceptable to Licensee, Licensee may cancel a subscription upon written notice to ESRI, or discontinue use of the Data or Web Services, as applicable. If Licensee continues to use the Data or Web Services, Licensee will be deemed to have accepted the modification.
26. An ArcSDE Personal Edition geodatabase is restricted to four (4) gigabytes of Licensee data.
27. ArcGIS Server Web ADF Runtime Software may not be deployed independently of Licensee's ArcGIS Server Enterprise configuration.
28. Limited to ten (10) concurrent end users of applications other than ArcGIS Server applications. This restriction includes use of ArcGIS Desktop Software, ArcGIS Engine Software, and third-party applications that connect directly to any ArcGIS Server geodatabase. There are no limitations on the number of connections from Web applications.
29. Can only be used with SQL Server 2005/2008 Express.
30. Restricted to a maximum total of four (4) gigabytes of Licensee data.
31. Redundant Software installation(s) for failover operations may be implemented during the period the primary site is nonoperational. The redundant Software installation(s) shall remain dormant, except for system maintenance and updating of databases, while the primary site or any other redundant site is operational.
32. No redundant Software installation is permitted.
33. a. ArcGIS Online Standard Services may only be utilized in conjunction with the following Software:
 - i. ArcGIS Desktop
 - ii. ArcGIS Server (including the Web ADF)
 - iii. ArcGIS Mobile
 - iv. ArcGIS Explorer
 - v. ESRI Business Analyst Server Developer
 - vi. MapIt
 - vii. The ArcGIS APIs (including JavaScript, Adobe Flex, and Microsoft Silverlight/WPF)
 - viii. ArcLogistics Connect
- b. Licensee's access and use of ArcGIS Online Standard Services shall be subject to Licensee's consent to the terms and conditions of ESRI Web Site and Service Terms of Use Agreement (G-577) found at <http://www.esri.com/legal/>.
- c. ArcGIS Desktop Licensees that are current on maintenance may access and use Microsoft Bing Maps™ subject to Licensee's consent to the terms and conditions of Bing Maps for ArcGIS Desktop Users Services Agreement (G-600) found at <http://www.esri.com/legal/>.
34. Licensee's organization is limited to the number of specified credits, transactions, geography, or number of users as described in the online product description.
35. Licensed end users shall not share the client-side data cache derived from ArcGIS Online Standard Services with other licensed end users or third parties.
36. Licensee may not download or store resulting data or information except for results derived from using ArcWeb Services Address Manager.
37. Data provided with StreetMap USA may be used for mapping, geocoding, and routing purposes but is not licensed for dynamic routing purposes. For instance, StreetMap USA may not be used to alert a user about upcoming maneuvers (such as warning of an upcoming turn) or calculating an alternate route if a turn is missed.

38. The ArcGIS Server 3D extension included with ArcGIS Server Standard (Workgroup or Enterprise) may only be used for generating globe data cache(s) or publishing a globe document as an ArcGIS Globe Service. No other use of the ArcGIS Server 3D extension Software is permitted with ArcGIS Server Standard.
39. Any editing functionality included with ArcGIS Server is not permitted for use with ArcGIS Server Basic (Workgroup or Enterprise).
40. Geospatial Enterprise JavaBeans (EJB) provided with ArcGIS Server (Workgroup or Enterprise) are permitted for use only with ArcGIS Server Advanced.
41. Licensee may only use Data from a single state with the Single State version of ArcGIS Data Appliance. This restriction applies to a large-scale (i.e., scale levels below 1:100,000) street map, transportation layer, boundaries and places layer, and one (1)-meter or better resolution imagery included in the USA Collection. This restriction does not apply to the small-scale (i.e., scale levels above 1:100,000) maps provided in the World Collection, which are intended for display at global and regional scales.
42. Licensee has the right to one (1) desktop deployment of the ArcGIS Server Image extension Service Editor for every four (4) cores of ArcGIS Server Image extension that is licensed. Additional Service Editor desktop deployments can be licensed for an additional fee.
43. Licensee may develop an unlimited number of applications on a single computer and deliver the applications to end users with or without the Engine Runtime Software.
44. For any operating system environment in which Licensee runs instances of the Concurrent Use License management software, Licensee may run up to the same number of passive failover instances of the Concurrent Use license management software in a separate operating system environment for temporary failover support.
45. Data licensed with ESRI Business Analyst and ESRI Business Analyst Server are restricted to use with the respective Business Analyst extension and are not for general use with ArcGIS Desktop or ArcGIS Server Software.
46. Licensee should not follow any route suggestions that appear to be hazardous, unsafe, or illegal. Licensee assumes all risk of using this navigation Software.
47. Licensee may only use the Software in conjunction with a minimum of ArcGIS Server Standard.
48. Licensee may include reports and maps created from the Software or Data in hard-copy or read-only format for presentation packages or marketing studies for subsidiaries and customers. The total content of the ESRI reports and maps must be less than twenty percent (20%) of Licensee's total content of the presentation package or marketing study. Full, complete, stand-alone reports or maps created from the Software or Data and not part of a presentation package or marketing study cannot be resold, sublicensed, or otherwise transferred without prior, written permission of ESRI. Licensee's third-party customer may only receive reports and maps generated by Licensee and may only use the maps and reports received from Licensee for internal purposes. In no case shall Licensee redistribute the Data in digital formats.
49. ESRI MapIt Silverlight Web or WPF applications may not be deployed independent of Licensee's MapIt deployment configuration.
50. Licensee has the right to one (1) desktop deployment of the Spatial Data Assistant for each ESRI MapIt Server License.
51. ESRI Business Analyst Server Developer and Data may only be installed on one (1) server per license solely for the purposes of research, development, testing, and demonstration of a prototype application.
52. Source code is the intellectual property of ESRI. Licensee shall treat any source code file identified as "Software" in a README file or at <http://www.esri.com/legal/> as a trade secret for Licensee's own internal use only and not for further redistribution or access by unlicensed third parties. Licensee shall not modify the Software, Documentation, Data, or source code to incorporate, embed, link, or otherwise include any code, libraries, or data licensed or distributed under an open source licensing or distribution models similar to Free Software Foundation's GNU's General Public License (GPL) or GPL-compliant licenses, including, without limitation, the Artistic License (e.g., Perl), the Mozilla Public License, the Netscape Public License, and the Sun Community or Industry Standards License, that could require a user to make its proprietary source code available to a requesting third party.
53. Deployment license options are as follows:
 - a. A license for Web applications is per the principal registered unique domain identifier. Domain is the Internet domain name registered with a domain name registrar. For example, in example.com or example.com.xx (where xx is a registered country code), example is the principal registered unique domain identifier.
 - b. A license for desktop applications is per organization. For the purposes of this license, organization is equivalent to an SLD name. For example, desktop applications can be used by any employee of an organization with a registered SLD name. There is no limit to the number of applications that can be built and deployed within an organization.
54. Licensee may not, under any circumstances, seek a patent or other similar right granted in a foreign jurisdiction on the Software, whether alone or in any product, process, or method incorporating the Software. Sublicensees of any derivative works are likewise prohibited from seeking such patent or similar right on the Software. Additionally, the Software shall

not be used in any preferred embodiments of patented products, processes, or methods. Any attempts to seek a patent or similar right that includes or covers the Software shall render this License void, and all rights granted under this License shall be immediately revoked.

ESRI MPA PRICE LIST (E418M 1/10)

General Information and Disclaimers

1. The following Software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.
2. The listed prices are exclusive of shipping, handling, and any applicable taxes. Delivery terms are FOB Redlands, California. Shipping and handling will be prepaid and charged back, i.e., included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Your ESRI Sales Representative can provide a specific quote including applicable shipping and handling charges.
3. Eligible customers may at any time request a specific quote based on this contract from an ESRI sales representative. When selecting items from this contract without assistance from an ESRI sales representative, be aware of the following general rules:
 - (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.
 - (b) Some products have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, Software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the Software, and extension Software is only functional in combination with the corresponding core Software. If you have questions regarding your configuration, please contact your ESRI representative for additional information.
 - (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your ESRI sales representative for additional information.
 - (d) Some items are not offered to all potential customers. For example, certain Software upgrades are only offered to customers who have acquired the most recent versions of the Software, and local government licenses are only offered to local government customers.
 - (e) Customer must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-Site training information at ESRI's Web site (www.esri.com/training/site_training.html) for details.
 - (f) ESRI Site Training (i.e., Training at one of ESRI's Training Centers) requires a completed registration application form from each student. Registrations are processed on a first-come, first-served basis. We recommend that you submit this registration information at least one month prior to the start date of your class. See the Learning Center registration information at ESRI's Web site (www.esri.com/training/register.html) for details.
 - (g) Training will be provided in accordance with the policies defined under Education and Training at www.esri.com. Training prices are subject to annual escalation, not to exceed a seven and one-half percent (7.5%) increase in January of each year.
4. Support services are defined at ESRI's Web site (www.esri.com) within the user support section. Particular attention should be paid to the fact that some ESRI Software comes with complimentary maintenance for the first year and other Software features different support plans.
5. New Software releases for most Software products are provided exclusively through maintenance programs. In these cases, Software upgrades are not sold separately.
