3 YEAR 100% TOP TO BOTTOM WARRANTY

professional use only

Hercules V2

COMFORT & DURABILITY

9" MOUNTAINEERING BOOT FOR WILDLAND FIREFIGHTING

Additional Features

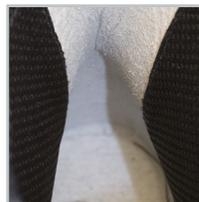

Full-grain, water, flame, chemical, and cut resistant leather upper protects your foot.

Anti-microbial removable footbed with molded EVA heelcup and arch conforms to your foot providing comfort and support.

Fire-resistant Kevlar® thread throughout the upper ensures durability under fire.

Molded heel counter cups heel and provides support.

Dual-Zone Contact™ Lacing System: Anatomically asymmetrical, with free floating lace points that allow the upper to conform precisely to the shape of each individual's foot.

Tapered microfiber heel slide for ease of donning and doffing. Stitching is offset to prevent premature wear and blisters.

Bi-zonal Lacing: The first speed hook is a lace lock, allowing you to tighten the boot in the forefoot area, lock the lace, then tighten the upper part of the boot for a custom fit.

Welted construction allows for resoling, extending the life of your boots.

Cosmas®

is an Italian brand with a 40-year history of development and manufacturing of high quality, high performance personal protective footwear, with a reputation for superior fit and innovative design. It was awarded the contract to supply structural firefighting boots to the Italian National Fire Brigade for the 2006 Winter Olympics in Torino, and launched a line of structural firefighting boots in the US market in September 2006 based on the Olympic design. Cosmas® also supplies personal protective footwear to fire departments, police departments, civil defence agencies, emergency medical services, alpine search and rescue, and various military special forces. www.cosmas.it Drawing on the technical resources of its parent company, its hand-crafted footwear heritage, and the input and experience of professional firefighters in Europe and the US, Cosmas® offers the latest technological advances in protective footwear for fire services professionals. Cosmas®, the next generation of fire boots, direct from Italy. NFPA-certified structural and wildland firefighting boots, with a reputation as the best fitting, highest quality, high-performance brand of personal protective footwear available
