## COVERAGE

The Atlas Tactical Series offers a holistic approach to tactical design. Three platforms offer varying areas of coverage without sacrificing consistency of appearance or interoperability of accessories. Whether the mission is dynamic entry or team support from afar, the Atlas allows teams to select a single design solution while offering each member a choice of platform that is consistent with their individual role and functional requirements. The Atlas Tactical Series... for the one team with many missions.

# QUAD

# QUAD MODULAR VEST SYSTEM

The QUAD Modular Vest System meets the requirements of operators that demand both greater coverage area and the ability to configure accessories, such as biceps, collar, throat, groin and lower back protection. A balance of coverage and ergonomic design results in a system that values comfort, maneuverability and weight distribution. Each of seven chest sizes are available in twenty length and waist dimensions resulting in 140 possible sizes, providing a level of customization not common to tactical armor. QUAD means comfort.

## FEATURES

- Constructed from a combination of 1000 and 500 denier Cordura Nylon fabric with durable urethane and water-repellent coating
- 4x10" Velcro front and rear ID patches (X-Small and Small offer 3x9" patch)
- Top-loading pocket for 10x12" hard armor plates with internal plate-leveling system
- Pocket for special threat plates front and back
- Spacer mesh and additional padding on body side of vest for ventilation and cooling
- Fully adjustable shoulders
- Expansive MOLLE attachment coverage for pouches and accessories
- Rear extraction strap
- Front kangaroo pocket
- Integrated communications/hydration channel
- Body side elastic cummerbund to securely hold vest in proper alignment

## ACCESSORIES

- Groin protector with three rows of MOLLE
- Lower back protector with two rows of MOLLE
- MOLLE cummerbund
- Side plate pockets
- Ergonomic collar protector
- Throat protector
- Bicep protector with 4x4" and 2x8" patches
