EKO

WARRANTY

EKO seating products are guaranteed to be free from defects in design, material, and workmanship, given normal use and proper care, for 10 years of single-shift service with the exceptions below. This warranty does not apply to components not manufactured by EKO including textiles, which are subject to the specific warranties of those manufacturers, if any. Textile (fabric, leather, vinyl, or any other covering material) suppliers do not guarantee their products for durability and color fastness, and nor does EKO. Casters, foam padding, mechanical and electrical components have a warranty of two years from the date of purchase. The EKO warranty does not apply to COM specified materials, damage caused by a carrier, or variation in wood finishes due to natural wood color variation. EKO cannot be held responsible for variations in fabric in dye lots from order to order. All fabric is carefully inspected when it is received, but a degree of variation in color should be expected. Repair or replacement of any defect covered by the EKO warranty will be made at no charge to the original purchaser during the warranty period. This warranty policy does not apply to defects resulting from negligence, misuse, alteration, improper cleaning, stains, or accidents. EKO's judgment will be final in all matters concerning the condition of the furniture, the cause or nature of the defect, and the necessity or manner of repair. This warranty applies to products sold to the original purchasers acquiring our products through authorized dealers, directly from EKO or from others specifically authorized to sell our products. Seating products intended for 24 hour usage or high traffic areas receive a warranty of 3 years from date of purchase.

CUSTOMER SATISFACTION

It is the primary goal of EKO and our team to ensure the complete satisfaction of our customers with our products and performance. If a problem arises with an EKO product after the expiration of the limited warranty period, EKO will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

TERMS AND CONDITIONS

Net 30 days. All applicable sales taxes are extra. Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized EKO dealers. Acceptance of any order and terms of sale may be established at the discretion of EKO. Deposits are required from new accounts as well as on large or special orders. EKO reserves the right to discontinue designs, or to change designs, construction, prices, or materials without notice.

ORDERING AND ORDER ACKNOWLEDGEMENTS

Please email all orders to sales@ekocontract.com. You will receive an order acknowledgement, with ship date or terms of purchase, within 24 hours of order notification. This email is for incoming orders only.

To make your purchase experience with EKO the best possible, make sure your purchase order is complete. Many times our products are not ordered complete. Orders with missing finish colors, laminate colors, incorrect pricing, and options not matching descriptions will be returned to clients and must be revised with corrections and resent to EKO before an order is placed. See product price list for ordering instructions and please double check your order prior to sending.

Each order will be acknowledged via email or fax. This acknowledgement is the final agreement between EKO and the customer, superseding all previous communications regarding the purchase order. Where there is a discrepancy on a purchase order between the product code and a description, EKO will make every effort to resolve the discrepancy, but will be ruled by the product code ordered. Please check all acknowledgements for accuracy, and advise EKO of any discrepancies with a purchase order.

If you have not received an order acknowledgement after 24 hours, please contact brandi@ekocontract.com for further assistance.

ADVANCE SHIP NOTICE

After shipment is made, each order will receive an Advance Ship Notice (ASN) via email or fax. You will receive a PDF of the signed bill of lading containing ship date, pro number, and carrier. Invoices are also sent along with the ASN. Hard copy invoices can be mailed upon request.

IN-GRADED FABRIC PROGRAM

EKO in conjunction with ArcCom, Architex, CF Stinson, DesignTex, Helvetia, Knoll, Maharam, Mayer, Momentum, Spinneybeck, and UltraFabrics offers their textiles in our online database for accurate in-graded pricing. To see textiles, refer to the supplier's website or binder. Lead-time for chairs upholstered with in-graded fabrics are subject to availability of the actual fabric selected. While these suppliers generally have a consistent record of filling orders promptly, there may be temporary conditions affecting availability. Furthermore, patterns from this group may be discontinued at any time. Fabric will be orientated on the product according to our best judgment, unless we are given specific instructions on the direction of the textile.

CARE AND MAINTENANCE

Wood Finishes

There are several steps that can be taken to protect and prolong the life and beauty of the finish. Dust only with a clean, dry cloth, going with the grain. Clean any marks with a damp cloth, using a small quantity of mild soap or detergent. Do not use any wax-based polish, spray or silicone. Eventually, a film will build up and discolor the top. Do not place your furniture in a position of permanent exposure to direct sunlight.

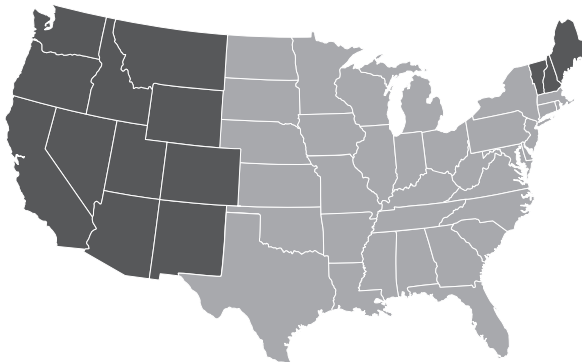

Fabric Upholstery

Professional upholstery cleaning is recommended.

EKO reserves the right to select the most appropriate F.O.B. point carrier, and routings on all shipments. Normal deliveries are "dock to dock" basis. No customer pick ups allowed without written authorization. All pricing shown includes freight prepaid for orders over \$8,000 list. You must add a \$225 net freight charge per order if list price is less than \$8,000.

Example: Orders purchased in North Carolina and shipping to Nevada that are over \$12,000 list price qualify for free freight. Orders below the \$12,000 threshold must add a net freight charge of \$350 per order.

Additional charges: Residential delivery charge, inside delivery and installation services are not included in the pricing shown. These charges will be prepaid and added to the net invoice. *EKO reserves the right to apply freight surcharges at any time due to market conditions or other factors beyond EKO's control.*

COM MATERIAL

(See back section of price list for Required COM Form)

All upholstered items may be ordered using customer's own fabric or vinyl materials (COM). Prices listed under COL refer to customer's own leather.

Yardage requirements shown in the price list are based on non-directional 54" material. Please note, 54" wide rolls need to be 54" of usable material. The following conversion chart should be used to determine requirements when COM is 54" wide and has a repeat.

Repeat	Across Roll	Up the Roll	2 Way Repeat
1 - 5"	Add 10%	Add 15%	Add 15%
6 - 9"	Add 15%	Add 20%	Add 25%
10 - 13"	Add 20%	Add 25%	Add 30%
14 - 20"	Add 25%	Add 30%	Add 35%
21 - 27"	Add 30%	Add 35%	Add 40%
28 - 34"	Add 35%	Add 40%	Add 45%

These percentages are for estimating purposes only. Eko will not be held responsible for shortages on COM products. If you would like assistance, please see our website for fabric diagrams and email completed diagrams to Eko Customer Care (brandi@ekocontract.com). Eko will, at no charge, calculate the required yardage for your project and return within 24 hours.

There may be an upcharge above COM price for combination upholstery (two or more COM's) applied to the same chair. Please call factory and attach diagram of how to apply multiple fabrics and welt if applicable.

COM orders cannot be scheduled into production until the fabric has arrived and inspection is complete.

Send all COM materials freight paid to:

EKO
Attn: COM Department
145 Rymer Road, NE
Cleveland, TN 37323

To help us expedite your order, please email all COM tracking information to: lori@ekocontract.com

Clearly mark all materials with the following: dealer's name, EKO acknowledgement number, purchase order number, model number and quantity of item to be covered. Failure to provide your customer purchase order number along with COM will cause a delay in processing your order.

In today's market, some fabric's are "reversible", it is extremely important to send us a swatch of COM with the exposed side marked as such. On orders specifying COM/COL, please supply following: application instructions for striped/patterned or reversible fabrics. In the absence of special instruction, EKO reserves the right to use their own judgment and will apply the fabric in what is determined to be the best manner.

We reserve the right to reject any covering that, in our professional opinion, is unsuitable for upholstery purposes. EKO's approval signifies only that the material in question can be applied to the products for which intended. This approval does not constitute any responsibility nor any warranty on the part of EKO as to appearance, behavior or durability of COM.

EKO will not be responsible for, how an upholstery material wears in an installation setting. We will not be held responsible for wear, fading, stretching or performance of any covering materials whether supplied by the buyer or by our sources. Vinyl upholstery materials must be the expanded type reinforced with elastic backing. We shall not be held responsible for blemishes or platemarks, or differences in color or tone between covering material supplied and samples from which the choice was made. EKO cannot be held responsible for defects, color inaccuracies, dye lot variations and other such flaws. We inspect fabrics for mill imperfections, some are difficult to recognize.

COL LEATHER

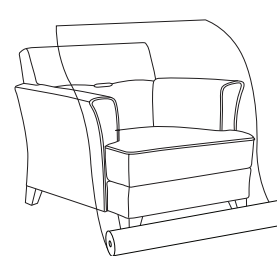

Published square footage for COL is based on hides measuring A minimum of 50 to 55 square feet. Half hides are not acceptable. On smaller hides, add 15 percent to the COL requirement. All square footage requirements are based on usable footage. The shape of the hide, excessive holes, cuts or other unusable imperfections may make it necessary for us to request more leather after COL is received. Due to variation in thickness of leather, it is important to send a 4" x 4" swatch for approval. EKO approval signifies only that such leather can be applied to the products intended. Such approval does not constitute any responsibility nor any warranty on the part of EKO as to appearance, behavior or durability of COL.

Note: Excess COM/COL will not be stored or returned unless very clearly indicated on purchase order.

FIRE RETARDANCY REQUIREMENTS CALIFORNIA TECHNICAL BULLETIN 117 AND CALIFORNIA TECHNICAL BULLETIN 133

All standard upholstered seating and the resilient filling materials used in the manufacturing of all upholstered seating by EKO meet or exceed the flame requirements of State of California, Department of Consumer Affairs, Bureau of Home Furnishings and Thermal Insulation, Technical Bulletin 117 and National Fire Prevention Association Standard Method 261. Compliance with these requirements is indicated by the label attached to the seat bottom.

CAL 133 FOAM UPCHARGE

CAL 133 California Technical Bulletin 133 is a flammability test. EKO products, in combination with non-flammable fabrics can be manufactured to meet the requirements for certification to this test. A double upholstery method is used, incorporating a fire-retardant barrier that, in combination with fire retardant foam, fire retardants in wood finishes, and fabrics with some natural fiber content, may pass the CAL 133 fire test. An upcharge of \$60 list per yard of upholstery is applicable to incorporate the elements listed above. The application of this upcharge and the materials noted does not certify that the specific configuration of product and upholstery is tested and officially certified. If actual certification is required, a charge of \$500, plus the cost of the product to be tested, is applicable. The testing process requires at least several weeks of additional lead time. EKO assumes no responsibility for composite testing or the certification of specific configurations of product and upholstery to the CAL 133 flammability test. Some specific configurations of product and upholstery have been tested. Please contact Customer Service for more information.

MOISTURE BARRIER UPCHARGE

Moisture Barriers that are designed to prevent moisture from penetrating the foam and other filling materials are available on most items at an additional up-charge. Moisture barriers are applied between the upholstery cover and filling materials. The following up-charges apply to each surface on which the protective barrier may be applied.

Seat	\$45.00 List
Back	\$45.00 List
Arms	\$45.00 List (Per Arm)

MULTIPLE UPHOLSTERY COVER UPCHARGE

Most items can be manufactured with a combination of covers including: vinyl and fabric, leather and fabric, or contrasting fabrics. Multiple Cover Upholstery option should be clearly indicated on the customer's purchase order. Fabric diagrams are available online at www.ekocontract.com

There is an extra charge for Multiple Upholstery Cover Applications:

COM GRADE

Two Covers	\$100.00 List Per Line Item*
Three Covers	\$125.00 List Per Line Item*

1-8 GRADES

Use the higher of the 2 grades specified. If textiles are the same grade add the COM Grade upcharges above.

*Per Line Item

When ordering several units that are exactly the same model, color and application, add only \$100 list per line item. Example: 32041/53 2-Tone, Maharam Chime, Momentum Bravo, Diagram Attached – Qty. 6. (There would be a one-time charge of \$100 list for all 6 chairs.)

SAMPLE FABRIC DIAGRAM

Fabric diagrams are available online at www.ekocontract.com

Eko will not be held responsible for shortages on COM products. If you would like assistance, please see our website for fabric diagrams and email completed diagrams to Eko Customer Care (brandi@ekocontract.com). CUSTOM WOOD FINISHES

(See back of price list for Required Custom Wood Finish Form)

Add 6% list to your order for special finishes, minimum charge is \$300 list per finish per order. (For example, on all orders up to \$5000 list an upcharge of \$300 list will apply, on orders \$5000 list and up add 6% list to order.) No upcharge for special finishes on orders exceeding \$50,000 list. For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated. See back of price list for Required Custom Wood Finish Form.

OTHER LAMINATE SUPPLIERS

Most laminate suppliers stock a multitude of colors and patterns. The following laminates are acceptable for application on EKO products as they feature a matte finish. There is a 5 table minimum when using non-standard laminates not listed in our price list.

Nevamar: All laminates with "T" in the suffix (i.e., MR2002T)

Wilsonart: All laminates with "60" in the suffix (i.e., 4779-60)

Arborite: All laminates with "CA" in the suffix (i.e., 1531-CA)

Pionite: All laminates with "Suede" in the name (i.e., WW561 Suede)

Formica: All laminates with "58" in the suffix (i.e., 756-58)

Additional laminate codes may be acceptable for use on EKO furniture, however, they may be subject to an additional upcharge or extended lead time due to material complexity. High sheen laminates are not acceptable for application on EKO furniture due to their inherent nature of scratching and marring during the production process. Please contact EKO Customer Service for additional information.

2. WHEN SPECIFYING FABRIC IN DIFFERENT GRADES, THE HIGHEST PRICE GROUP PREVAILS.
3. FABRIC FOR SEAT AND BACK IS SPECIFIED SEPARATE FROM THE PRIVACY BACK PANEL.

5. OPTIONAL PRIVACY BACK PANELS ARE FULLY UPHOLSTERED, FIELD INSTALLED, AND MUST BE ORDERED AT THE SAME TIME AS SEATING COMPONENTS. PRIVACY BACK PANELS CANNOT BE RETROFITTED TO EXISTING BACKLESS SEATING COMPONENTS.
6. CONTRASTING SOLID TEXTILES ARE RECOMMENDED FOR UPHOLSTERED PRIVACY BACK PANELS, AS A PROPER MATCH CANNOT BE ACHIEVED WITH TWO-WAY PATTERNS. PRIVACY BACK PANELS ARE AVAILABLE IN ULTRALEATHER, SOLID TEXTILES, AND ONE WAY REPEAT TEXTILES. VINYL AND LEATHERS ARE NOT APPLICABLE.
7. STRIPED PATTERNS MAY BE APPLIED ONLY TO THE SEAT AND BACK OF ONE SEAT UNITS, NOT THE OUTSIDE BACK, PRIVACY BACK PANEL, OR ARMS. STRIPED PATTERNS ARE NOT RECOMMENDED FOR MULTIPLE SEAT UNITS.
