## 2016 List Pricer

EFFECTIVE DATE January 1, 2016

Supersedes HON List Pricer  
Dated January 1, 2015

## HON FULL LIFETIME WARRANTY

### YOUR HON FULL LIFETIME WARRANTY

Every time you purchase a HON product, you're making an investment in your future. We're proud to play a part in that future, and you can trust us to do our best for as long as you need us.

The HON Full Lifetime Warranty is our assurance to you that the HON desks, workstations, seating, tables, or storage you purchase will be free from defective material or workmanship for the life of the product.

In the unlikely event that any HON product or component covered by the HON Full Lifetime Warranty should fail under normal workplace use as a result of defective material or workmanship, HON promises to repair it. If we are unable to repair it, we will replace it with comparable product, or if preferred, we will refund the purchase price.

### WHAT'S COVERED BY THE HON FULL LIFETIME WARRANTY?

Your HON Full Lifetime Warranty applies to product manufactured after January 1, 2011. All HON product lines, materials, and components are covered by the HON Full Lifetime Warranty except for the items described below.

The specific product lines, materials, and components listed below are covered under HON's Full 12-Year, Full 10-Year, and Full 5-Year Warranties (from date of purchase).

#### HON'S FULL 12-YEAR WARRANTY

- Electrical components (LED task lights, lamps and ballasts are not covered)
- Seating *ilira*®-stretch
- Seating controls
- Pneumatic Cylinders
- Wood Seating
- Accessories
- Laminate Surfaces
- Veneer Surfaces

#### HON'S FULL 10-YEAR WARRANTY

- Soothe™ Patient Recliner Mechanism
- Signal seating upholstery fabric

#### HON'S FULL 5-YEAR WARRANTY

- All LED task lights
- Panel and seating textiles
- Electric Height Adjustable Bases (Including Memory Control)
- Soothe™ Patient Recliner Central Lock Mechanism
- Soothe™ Patient Recliner Pivoting Arm

These warranties apply to HON products sold within the United States of America, U.S. Territories, and Canada, as well as U.S. Military and Federal Agency purchases (regardless of location).

### IS ANYTHING NOT COVERED?

There are a few exclusions to the HON Full Lifetime Warranty and to the 12-, 10-, and 5-year warranties. These exclusions are:

- All *basyx* by HON® products (these products are covered under a separate *basyx* by HON® warranty).
- Color-fastness or matching of colors, woodgrains, or textures occurring in wood, leather, or other materials that naturally exhibit inherent color variations.
- Customer's own materials (COM) selected by and used at the request of the user.
- Modifications or attachments to the product that are not approved by The HON Company and product failures resulting from such modifications or attachments.
- Product normal wear and tear, which are to be expected over the course of ownership.
- Products that were not installed, used, or maintained in accordance with product instructions and warnings.
- Products used for rental purposes.
- Damage caused by cleaning chemicals.
- Dye transfer caused by external contaminants (including clothing and accessory dyes such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible.

### WARRANTY REQUESTS OR QUESTIONS?

Your HON dealer is our mutual partner in supporting your warranty requests. To obtain service under this warranty, please contact your HON dealer. If you are not sure who your dealer is, please call HON Customer Support at 800.833.3964.

**THAT'S YOUR HON FULL LIFETIME WARRANTY AS AN OWNER OF HON PRODUCT, THE WARRANTY EXPLAINED HERE IS YOUR SOLE AND EXCLUSIVE REMEDY. THERE ARE SOME EXCEPTIONS IF YOU PURCHASED THE PRODUCT FOR HOME OR PERSONAL USE WHICH ARE EXPLAINED BELOW. TO THE EXTENT ALLOWED BY LAW, THE HON COMPANY MAKES NO OTHER WARRANTY, EITHER EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE HON COMPANY WILL NOT BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES.**

### A WORD ABOUT PURCHASES FOR HOME OR PERSONAL USE

Please note, this section only applies if you purchased your HON product for your home or for your own personal or family use. HON's warranties give you specific legal rights and you may have other rights, which vary from state to state. As a consumer purchaser, the complete exclusion of implied warranties noted in the above paragraph does not apply to you, however, to the extent allowed by applicable state law, the implied warranties are limited to the applicable term of the warranty. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to you.

## LIMITED 5-YEAR WARRANTY

The HON Company promises to repair or replace any *basyx* by HON® product or component that is found to be defective in material or workmanship within five (5) years from the date of original purchase so long as you, the original purchaser, still own it. This is your sole and exclusive remedy. This warranty is subject to the provisions below. It applies to product manufactured after January 1, 2013.

### Limitations:

- Upholstery on chairs is warranted for two years from date of purchase.
- Damage caused by the carrier in-transit is handled under separate terms.

### Exclusions:

This warranty does not apply and no other warranty applies to:

- Normal wear and tear, which are to be expected over the course of ownership.
- Modifications or attachments to the product that are not approved by The HON Company.
- Products that were not installed, used or maintained in accordance with product instructions and warnings.
- Products used for rental purposes.

### Seating Usage

Normal commercial use for seating is identified as the equivalent of a single shift, forty-(40) hour workweek. To the extent that a seating product is used in a manner exceeding this, the applicable warranty period will be reduced in a pro-rata manner.

### A word about color variations, fabrics and finishes:

The HON Company does not warrant the color-fastness or matching of colors, grains or textures of covering materials.

### Customer's Own Material (COM)

Not available on *basyx* by HON® product.

TO THE EXTENT ALLOWED BY LAW, THE HON COMPANY MAKES NO OTHER WARRANTY, EITHER EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE HON COMPANY WILL NOT BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES.

### Notice to purchasers for home or personal use:

Federal law does not permit the exclusion of certain implied warranties for consumer products. Therefore, if you are purchasing this product for home or personal use, the exclusion of implied warranties noted in the above paragraph does not apply to you. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

This warranty applies only to products sold within the United States of America and the Commonwealth of Canada.

### To obtain service under this warranty:

Your *basyx* by HON® Dealer is our mutual partner in supporting your warranty requests. By following the procedures outlined below, you can be assured of the best level of service. Please note: Consent of The HON Company must be obtained before any warranty work is performed. To obtain consent, please take the following steps:

1. Contact the Dealer from whom the product was purchased within 30 days of discovery of the defect. Be prepared to affirm that you are the original purchaser of the product and to provide the serial number(s) from the product in question.
2. Your Dealer will gather all pertinent information regarding the claim, inspect the product and contact a HON Company customer service representative. (Please allow a reasonable amount of time for inspection and review.)
3. If The HON Company affirms that the product in question is eligible under the conditions of the warranty as stated above, the customer service representative or another representative of the Company will determine whether to provide replacement parts, authorize repairs or replace the product.

## LIST PRICER — Effective Date: January 1, 2016

- Software support packages furnished to the customer, either by The HON Company or by another source, which support the sale of HON products are superseded by printed pricelists.
- All dimensions shown in this publication are nominal.
- All illustrations and specifications in this publication are based on the latest product information available at the time of print. For the most recent version, please visit the HON Ready Portal.
- Pricing is subject to change without notice.
- All orders are subject to prices in effect at the time of order.
- Ordering information appears at the beginning of a section complete with examples on how to specify. These specifying information pages are referenced at the bottom center of product pages.
- HON Full Lifetime Warranty applies unless otherwise noted.
- HON nationwide customer service: Phone: (800) 833-3964

**ORDERING**

Electronic ordering is the standard order process for HON. HON supports the following primary methods for the electronic transmission of orders and order related documents:

- E-Ordering, available in the HONReady portal at [honready.hon.com](http://honready.hon.com). There are multiple options available for utilizing the E-Ordering application:
  - Integration with the standard Office Furniture business systems or other pre-approved proprietary software packages.
  - SIF file upload using fully optioned SIF files into the E-Ordering application.
  - Manual entry of line items into the E-Ordering application.
- EDI-system to system integration with standard Office Product systems or other pre-approved proprietary software systems.

Training, technical set-up and support is available through our Customer Technology Services Team at [honcts@honcompany.com](mailto:honcts@honcompany.com).

**ORDER REQUIREMENTS**

- Customer must provide complete and correct information, including complete model number, finishes, colors, options, and quantity.
- If a bid quotation or other special pricing applies, such information must be clearly stated on the order with applicable bid number or contract number.
- Order Management contact name and phone number.
- Delivery Appointment contact name and phone number at the dealership or installation company. HON does not accept orders with end user appointment contacts.
- Dealer Sales Representative, primary or multiple DSRs.
- "Best Date Available" for the entire order is standard service for HON. If eligible, other Date Requests may be requested and must be submitted with the order. Other Date Requests are subject to review by HON prior to acceptance:
  - "Ship After" requests are eligible on all order sizes
  - "Deliver On" requests are eligible for orders over \$140,000 list
- Additional services outside of HON's standard services may be available through HON's 'Enhanced Services' for a corresponding fee. Requested services from 'Enhanced Services' must be provided at time of order placement.
- The Company reserves the right to require electronic orders or charge \$50 fee per Purchase Order (PO) for manual order processing.

Failure to provide complete and accurate information results in delayed order entry and acknowledgment. Incomplete orders will not be produced and will be returned to Dealer for correction.

**ACKNOWLEDGMENT SERVICE**

- E-mailed acknowledgments are available by customer request.
- An acknowledgment will be emailed the morning of the next business day, unless order is placed on credit or other order hold.
- The order will not receive an acknowledged shipment date until all order holds are released.
- Dealer is required to review these acknowledgments immediately and request changes prior to the Last Order Change Date. If the ship acknowledgment date is greater than six (6) weeks after the acknowledgment communication, additional consideration may be given to order changes.

**ORDER CHANGES OR CANCELLATIONS**

The Last Order Change Date (LOCD) is 3 pm Central Time of the second business day after acknowledgment communication. Product model and options, quantity, non-standard packaging requests, "ship to" address, appointment contact, requested shipment date if order is eligible and service requests are considered confirmed and final at LOCD. After LOCD, HON must approve all order change requests and fees apply.

The Last Shipment Revision Date (LSRD) is eight (8) business days prior to acknowledged ship date. Changes to delivery appointment contact information, certain non-standard service requests and ship to address changes within the same lane day may be approved or disapproved by HON in its sole discretion. Fees apply.

**TERMS AND CONDITIONS**

For more information on HON's terms and conditions refer to ***The HON Company's Sales and Discount Policies***.

See ***HON's O2D Guide*** on [honready.hon.com](http://honready.hon.com) for more information about HON Standard Order-to-Delivery (O2D) Services, Dealer Requirements, Enhanced Services and Order Changes.

# MyProjects

A place for all HON Project Services

MyProjects provides one platform to access the full portfolio of HON services including:

- Plan & Specify
- Audit
- Product Modification
- Special Laminates
- Value Engineering
- Rendering
- Customer's Own Material
- Dual Fabric Applications
- Space Planning
- Special Paints
- Project Bid Pricing

**Submit your request on the HON Ready Portal at [honready.hon.com](http://honready.hon.com), MyProjects.**

MyProjects Lead Time: 1-3 business days depending on complexity and size of your project.

### HON Integrated Design Solutions

#### Need design assistance? We can help!

Our expert design staff will create a professional design package that is sure to put you one step ahead of the competition. And the best part is — it's free\*!

#### Audit

We will check your drawing and parts list for accuracy. We verify quantity, specification accuracy, product compatibility and structural support.

#### Plan & Specify

We will provide a professional design package including a CAD furniture plan, 3-D line drawing and complete parts list based on the rough sketch and work order forms you supply.

#### Value Engineering

We will optimize workstation layouts and propose potential cost saving measures to help your customer save money and make you more competitive and profitable.

#### Rendering

We will create a photo realistic rendering of your furniture plan to help your customer visualize what their desired office space will look like.

#### \*Space Planning — Billable Service

Let our team do the creative work for you. Our low rates and expert staff will create a furniture layout and design that best suits your customer.

#### Planning Typical

Quick planning ideas to share with your clients. Various settings showcasing desks, tables and workstations available in multiple formats. View them today under Design Resources on the HON Ready Portal.

## Product Modifications

Modifications include structural and dimensional modifications to existing product and Dual Fabric Applications.

The HON Company, at its own discretion, may modify standard products to meet specific needs. Product specials can be requested on HON brand product only; Product specials are not offered on *basyx* by HON® products.

List prices contained in published list pricers are for standard catalog items only. Changes or alterations to catalog items other than those listed as catalog options are subject to additional charges. Pricing will only be furnished upon approval of the special request.

Requests to have the product produced in more than one fabric (e.g., fabric on the seat is different than the fabric on the back), are considered a Dual Fabric Applications request and follow the Product Modification request process within MyProjects.

## Special Laminates

Special laminates include requests for laminates not available as part of The HON Company's standard offering. Requests for special laminates are subject to manufacturing approval and minimum order quantities. The HON Company approved special laminates will be subject to a designated up-charge per unit.

Requests for special laminates should be submitted through the My Projects Application on the HON Ready portal. Pricing will only be furnished upon approval of the special request.

## Special Paints

The HON Company's paint matching equipment can match almost any color, excluding some metallic and whites.

- Special paint requests must be submitted on the HON Ready Portal MyProjects application.
- In order to request a paint sample, the customer must have a minimum order of 10 like product units. Any requests with less than that amount will not be processed.
  - For each new paint request, there will be a \$500 net charge. A sample of the exact color desired is required for matching and approval. The exception to the sample requirement is if the customer provides a Sherwin Williams® or PANTONE® color code. The HON Company will match the color and provide a production sample for the customer to review and approve.
  - If the customer is requesting a paint that has been previously matched, a painted match sample is provided with a \$100 net charge.
  - Stain requests carry the same charges.
- Once the signed paint sample is received at The HON Company, the request will be approved.
- Each unique color or finish combination incurs a designated up-charge per color per order. For pricing, see individual pricer pages for eligible series and up-charges for Custom paints (all standard discounts/competitive project pricing applies).

Special note: Some custom colors could fall outside of this program due to production costs or not meeting The HON Company's quality standards. This could include Sherwin Williams developed colorants. The HON Company may apply additional charges to some colors which are costly to apply, and refuse some orders on colors that cannot meet The HON Company's high quality standards. The HON Company will notify the customer upon completion of The HON Company's evaluation if a change in price is required or rejection of the order.

## Discontinued Product

Requests for discontinued product require engineering evaluation, safety review, and testing to current standards prior to approval. Many discontinued products are not available for order. Requests for discontinued products should be submitted through the MyProjects Application on the HON Ready portal.

## Lead Times for Specials Product

Lead times on orders containing specials are subject to production capacity and material availability. When possible, the customer should order special products separately to avoid extended lead times for standard products. Extended lead times will be noted on the specials request.

## Changes to Specials Product

A special model will be provided for each approved special item to process orders. Once an order is placed, no changes or cancellations can be made to the order without approval from Tailored Solutions.

## Customer's Own Material (COM) Program

Customer's Own Material (COM) is a request to use fabrics not available as part of HON's standard fabric offering. HON to Supply (HTS) and Dealer to Supply (DTS) are the two ordering methods. The HON Company has partnered with fabric manufacturers to provide competitive pricing and selection through the HTS program. HTS will be the standard offering unless The HON Company is unable to procure the fabric. If there is a DTS request submitted, The HON Company will advise at the time of the request if DTS is available.

## Customer Warranty Exclusion

The HON Company shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspects of the COM.

The HON Company shall have no liability for any damages, injuries, or losses to the customer or to any third party that shall be caused by any COM or product modification, and the customer shall hold The HON Company harmless for all liability.

The HON Company assumes no responsibility for the overall appearance, flammability, normal durability, colorfastness, or any other quality of the COM or product modification after its application on a HON product beyond normal quality standards. The HON Company reserves the right to reject a COM fabric if the quality of the COM is not satisfactory for the product. Should this occur, the customer will be notified with an explanation of the issue.

The HON Company is not responsible for fabric that has become obsolete at the COM supplier, that is of poor quality, or that is delivered late to The HON Company from the COM supplier. The HON Company is not responsible for excess yardage created by DTS orders and reserves the right to dispose of the excess fabric.

## COM Testing

- As a result of recent legal requirements, The HON Company will need to obtain specific information from the fabric supplier about treatments and chemicals used in the fabric. To the extent the supplier is unwilling or unable to provide the necessary information, could extend the testing lead time of the request.
- To check if a COM has been tested previously, utilize the COM Search Tool on the HON Ready Portal > Textiles and Finishes section using the following information:
  - COM Supplier's Name
  - Fabric Pattern Name
  - Color Name

- If the COM fabric has been tested and previously approved, the COM will not need to be re-tested unless testing standards have changed, fabric is to be used on a different series, or direction of the fabric has changed from what was previously approved. Please note that Panel product must be approved for each model and color.
- If the pattern has previously been tested and approved, but not in the specific requested color, the customer will need to request an order code for that color only. No further testing will be necessary since the pattern has already been approved.
- If the fabric has not previously been tested, the customer must enter the COM request on the HON Ready Portal MyProjects application.
- The testing timeline will take 3-5 business days once the fabric is received.
- COM yardage in the pricer is shown as pattern cut only.

### COM Testing — CAL 133 Testing Information

- The customer is responsible for ensuring that the COM fabric is certified to meet all flame-retardant requirements. All COM seating fabric must, at minimum, meet CAL 117 requirements. If the customer requires the chair be tested to meet the fire safety standards of CAL 133, additional testing and information is required.
- All CAL 133 requests must be submitted through the MyProjects application on the HON Ready Portal. Each request must be entered separately since each request will need to be tested individually.
- Once the supplier provides the required to The HON Company, testing will begin. The customer will receive approval or denial information upon completion of testing.
- If the test is approved, a specific model number including "FC" at the end will be provided with an appropriate price.

### HTS COM

- As previously mentioned, HTS is the primary COM method.
- If the COM fabric has not been tested, a COM request must be submitted on the HON Ready Portal MyProjects application.
- For HTS orders, The HON Company will procure fabric needed for both testing and production phases. Should The HON Company not be able to obtain fabric yardage, the customer will be contacted.
- When testing has been completed, the customer will be notified by the COM team of the test results. If the COM is approved, The HON Company will provide a COM tracking order code for HTS. That tracking code is required on the order in place of the standard fabric code.
- If approved, HTS product will be assigned an appropriate fabric grade for pricing. The pricing can be found on the HON Ready Portal > Design Resources > Textiles & Finishes. (All standard discounts/competitive project pricing applies).
- Written COM price quotes are valid for 90 days after the issue date.
- Canceling HTS order:
  - The Dealer is responsible for the cost of the fabric plus a handling charge that is equal to 10% of the fabric cost.

### DTS COM

- DTS COM is only available if the COM fabric cannot be procured by The HON Company. If the fabric can be procured by The HON Company, the customer will be contacted to switch to HTS or cancel the request.
- All fabric for testing sent direct from supplier must be tagged with the dealership or specifier's name with the Tailored Solutions request number and sent to the location on the email. Untagged fabrics will be rejected and samples will not be returned.
- Testing yardage requirements
  - Chair testing yardage
    - The customer will need to submit (2) 8 x 8 memo samples for testing. Should more yardage be needed, the customer will be contacted.
    - Please note, if the mill is not able to supply (2) 8 x 8 memo samples, then the customer may send 1/2 yard of fabric for testing.

- Panel testing yardage
  - The customer will need to submit 3 yards of fabric and (2) 8 x 8 memo samples.
- If the COM has not been tested, a COM request must be submitted on the HON Ready Portal MyProjects application.
- When testing has been completed, the customer will be notified by the COM team of the test results. If the COM is approved, The HON Company will provide a COM tracking order code. That tracking code is required on the order in the place of the standard fabric code.
- DTS product is priced at the following grades (all standard discounts/competitive project pricing applies):
  - Chairs are a Grade 4
  - Panel product is a Grade D
- Written COM price quotes are valid for 90 days after the issue date.
- Canceling DTS order:
  - The Dealer is responsible for the cost of the fabric plus a handling charge that is equal to 10% of the fabric cost.

### COM Lead Time

- Ship dates will be based on fabric receipt and The HON Company's standard lead time. All fabric must be properly tagged and shipped to the appropriate producing location (provided in the approval email).
  - Specific to DTS orders, COM orders will not receive a ship (acknowledged) date until:
    - The HON Company has the fabric in its possession for production; or
    - The HON Company receives a copy of the mill's acknowledgment with a valid date The HON Company will receive the fabric, which can be emailed to the COM team.
  - Until either one of these is satisfied, the order will be placed on hold and will not receive a ship (acknowledged) date.
- Specific to DTS orders, the customer may send the required yardage for the order to the address listed on the approval email to arrive no sooner than 4 weeks in advance of the acknowledgment date.
- HON will make every effort to locate mis-directed COM shipments on behalf of the customer. However, The HON Company will not be responsible for any COM received without a tracking number or incorrectly shipped by the fabric vendor to an incorrect producing facility.

### COM Ordering Information

The following information must appear on or accompany the product purchase order:

- Approval tracking number and the customer's purchase order number
- COM supplier, pattern, and color name/number
- Mark "HON to Supply" or "Dealer to Supply"

The packing list for the COM must include the following information when The HON Company receives the shipment for production:

- Dealer or Wholesaler Name
- Purchase order number submitted to The HON Company
- Fabric name
- Yardage shipped
- Approval ordering code
- If The HON Company receives fabric with incorrect labeling that cannot be linked to an order, The HON Company will hold the fabric for up to 7 days while the COM team attempts to identify the order. After 7 days, The HON Company will return the fabric to the sender.
- Specific to DTS orders; the customer should send only the amount needed for the order. Excess yardage will be disposed of at The HON Company's discretion.

## Carded Partnership Textiles

Carded Partnership Textiles is the result of The HON Company's partnership with textile industry leaders CF Stinson, Maharam, Momentum and Ultrafabrics, LLC. The extensive collection of design-driven upholstery fabrics create a superior offering at a great value. Carded Partnership Textiles significantly updates HON's offering, expanding it with fresh and exciting fabrics.

- **Fabric Warranty:** Carded Partnership Textiles are covered by HON's Full Lifetime Warranty.
- **Lead-times:** Orders specified with Carded Partnership Textiles will be acknowledged based on standard HON product lead times.
- **Availability:** HON will regularly introduce new Carded Partnership Textiles and reserves the right to change the offering at any time.
- **Fabric Samples:** Carded Partnership Textiles are carded jointly by HON and the supplier.
- **Fabric Memo Samples:** Please contact the supplier directly for memo samples:  
CF Stinson: (800) 841-6279  
Maharam: (800) 645-3943  
Momentum: (800) 366-6839  
Ultrafabrics: (877) 309-6648
- Find fabric designators and series availability on pages 447-455, 462-463 and 480-481.

## Non-carded Partnership Textiles

HON also offers its products in pre-approved fabrics from CF Stinson, Maharam, Momentum and Ultrafabrics, LLC. Simple to specify, these fabrics have been tested to HON's (COM) criteria for manufacturing feasibility. Each Non-carded Partnership Textile has been given a HON fabric designator and grade to make the ordering process convenient. You select the fabric and HON delivers a hassle-free experience. For a complete listing, please visit [hon.com/Fabrics-Finishes](http://hon.com/Fabrics-Finishes).

- **Fabric Warranty:** Non-carded Partnership Textiles are covered by HON's Full Lifetime Warranty.
- **Lead-times:** Orders specified with Non-carded Partnership Textiles will be acknowledged based on the fabric supplier's delivery schedule.
- **Availability:** CF Stinson, Maharam, Momentum and Ultrafabrics, LLC reserve the right to discontinue patterns and colors from this program.
- **Fabric Memo Samples:** Please contact the supplier directly:  
CF Stinson: (800) 841-6279  
Maharam: (800) 645-3943  
Momentum: (800) 366-6839  
Ultrafabrics: (877) 309-6648

## HON COM Pattern Match

- **Seat to Back COM Pattern Match** provides alignment of patterns or stripes on chair front surfaces. Additional yardage may be required depending on pattern repeat. If Seat to Back COM Pattern Match is needed, please contact HON Customer Support/Tailored Solutions. Upcharges are limited to the following product series: Endorse™ Lounge Seating, Flock® Collaborative Seating, Invitation® Lounge Seating, Park Avenue Collection® Lounge Seating, Perpetual® Modular Seating, Soothe™ Seating.  
Single Chair                \$45.00 ea. list upcharge  
Two-seat Chair            \$60.00 ea. list upcharge  
Three-seat Chair         \$75.00 ea. list upcharge
- **Chair to Chair COM Pattern Match** provides identical pattern alignment from unit to unit and is available with an upcharge. Chair to Chair COM Pattern Match is reviewed on a case by case basis as several factors are reviewed to determine additional yardage required, including repeat and pattern direction. If Chair to Chair COM Pattern Match is needed, please contact HON Customer Support/Tailored Solutions.

The HON Company has established paint grades to allow customers flexibility and ease in doing business with HON. HON has three paint grades Core, Choice and Custom.

### Core Paint Colors

HON has established core paints which are available on all core products. Core products are identified throughout the pricer by the symbol ©. The core colors are Black, Charcoal, Greige, Light Gray, Muslin, Putty, Loft and Shadow.

### ColorCorrect®

In addition to the 8 core colors and 3 standard Choice colors, HON offers the ColorCorrect program. Under The ColorCorrect program customers can order 22 of the industry's most popular colors. Still can't find the color that is just right for you? Refer to the details below regarding the Custom Paint Color program.

### Choice Paint Colors (Industry Standard)

The HON Company has matched 22 of the industry's most popular paint colors. HON also offers two Metallic colors, Champagne (T4) and Platinum (T1) and one standard choice paint, Brilliant White (WHIT). These colors have HON codes assigned to them and are available on specified HON brand metal casegoods. Please see individual pricer pages for eligible series and up charges for Choice paints. Choice paints are listed in the pricer pages under the column Choice/Metallic. Up charges vary by product (all standard discounts/competitive project pricing applies). No minimum quantity required. If you are matching existing office furniture and are unsure of the name or if the color is a match, a painted metal sample is available upon request from HON Literature Fulfillment.

### Custom Paint Colors

With The HON Company's state of the art color matching equipment just about any color can be matched. A sample of the exact color desired is required for matching and approval. An exception to this match/approval process is if an existing Sherwin Williams® or PANTONE® color code is provided.

For each newly requested paint, a net fee of \$500 will be charged to cover costs associated with the matching process.

For existing, previously matched paints, there is no matching fee, however there is a \$100 net fee for sample panels required for the approval process. Refer to MyProjects on the HON Portal for a list of approved Custom paints.

For all Custom paint requests, HON will send a production sample for the customer to review and approve. Once the signed paint sample is received at HON the order can be entered. Please see individual pricer pages for eligible series and up charges per unit for Custom paints. Custom paint prices are listed in the pricer pages under the column Custom. Up charges vary by product (all standard discounts/competitive project pricing applies). A quantity of 10 like-model minimum order is required for Custom paints. For complete program details, access Tailored Solutions on the HON Ready Portal at honready.hon.com.

Some custom colors could fall outside of this program due to production costs or not meeting HON quality standards. This could include Sherwin Williams developed colorants. The HON Company may apply additional charges to some colors which are costly to apply, and deny some orders on colors that cannot meet our high quality standards. We will notify the customer upon completion of our evaluation if a change in price is required or if the request is denied.

### HON Product eligible for ColorCorrect:

#### Lateral Files

- Flagship®
- Brigade® 800 Series
- Brigade® 800 Series w/Storage
- Brigade® 700 Series
- Brigade® 700 Series w/Storage
- Brigade® 600 Series

#### Pedestals

- Flagship
- Brigade
- Contain

#### Vertical Files

- 210 Series
- 250B Series
- 510 Series
- 310 Series
- H320 Series

#### Desks

- 38000 Series

#### Other

- Flagship Storage Cabinets
- Flagship Bookcases
- Flagship Storage Towers
- Flagship File Centers
- Brigade Storage Cabinets
- Brigade Shelf Files
- Brigade Overfiles
- Brigade Steel Bookcases
- Contain Credenzas
- Contain Towers

**NOTE:** Under The ColorCorrect Program metal casegoods products with plastic parts will not match paint colors. Plastic parts will default to Black. If a customer wishes to specify a HON Core Color plastic part, a Tailored Solutions request can be created to accomplish the specification. HON product in Core colors with plastic parts will match Core colors.

### HON Branded Products in Core Allsteel® Paint Colors

The HON Company will match Allsteel core paint colors on HON brand metal casegoods. When ordering Allsteel colors the HON code should be used. Plastic part will match paint except where noted.

#### Allsteel Core Paint Color Ordering Information

## Legend

The following icons are used throughout this publication.

	Meets or exceeds ANSI/BIFMA and ISTA performance standards.		Product shipped four to a carton.
	HON "One Key" Interchangeable core removable locks. Refer to page 684.		Fire Code
	Caution		Core Product Line
	Easy to assemble.		Product scheduled for discontinuation.
	Shippable by small-package carrier.		Fabric/upholstery/surface material de-emphasized, effective date as noted. Not carded. View online at <a href="http://honready.hon.com">honready.hon.com</a> .
	Omit core removable lock option available. Allows keyed-alike workstations. Refer to page 684.		Indicates product that is not included on GSA contracts.
	Wheel-chair compatible.		Indicates New product.
	Soft-tread caster option available.		
	Product shipped two to a carton.		

## Environmental Statement

### CLEARING THE AIR.

In 2006, The HON Company became the world's first office furniture manufacturer to have products certified by the Indoor Advantage™ Program. Virtually all manufactured products emit chemical compounds into the air. Indoor Advantage evaluates these compounds to help improve the air quality within enclosed indoor environments.

Developed by Scientific Certification Systems (SCS), Indoor Advantage subjects products to specific indoor air quality standards. Further, Indoor Advantage tests individual components as well as overall assemblies, and provides detailed analysis of a comprehensive range of all chemicals rather than simple pass/fail for only the most common. This enables us to help our suppliers reduce the environmental impact of their products and processes, too.

SCS offers two levels of certification:

**Indoor Advantage™** certifies conformance with LEED-CI criteria for EQ4-5, as well as BIFMA X7.1 Low-Emitting Furniture and Seating.

### INDOOR AIR QUALITY

#### On the level™

level, the BIFMA e3 sustainability standard, was developed in response to the increasing demand for proof that manufacturers are living up to their environmental claims. level Certification is based on four sustainability attributes: Materials, Energy and Atmosphere, Human and Ecosystem Health, and Social Responsibility.

The HON Company has received level™ 2 certification for 60 product lines. That means more than 80 percent of our product volume has earned this important certification.

The level certification is a multi-attribute certification label for products that have met environmental, social and quality standards.

the sustainability certification program for furniture

Laminate Casegoods and Systems are certified as a typical workstation. Individual models contribute to the overall workstation certification.

Products that meet these specifications are identified throughout this publication with the following icons:

	Certified <b>SCS Indoor Advantage™</b> See page 10.		Complies to the <b>BIFMA e3 Sustainability Standard.</b> See page 10.

## HON. DAILY

### HON Daily makes it easy

Small business owners get pulled in many directions on a daily basis. When they find a trusted resource that can take one of their tasks off their plate, they welcome the help. You can be that resource for small business clients.

Meet HON Daily, a comprehensive office furniture program that caters to small and medium-sized businesses. In the past, these clients have been a challenge. They typically buy less furniture, yet require a higher level of service. Not anymore. HON Daily streamlines the buying process, making it easy for customers to specify and buy HON furniture. You'll complete small orders more efficiently — and make more money doing it.

For a complete list of products, finishes and terms visit the HON Ready Dealer Portal at [honready.hon.com](http://honready.hon.com) or refer to your HON Daily selling tools.

### GSA Contract Information

Model numbers identified with the verbiage **“Open Market”** are not offered on HON's GSA contract GS-27F-0015S. Model numbers identified with the following verbiage “Must be purchased with a configurable end product. If ordered separately, not on GSA contract” is to mean that these configurable components or options:

- Have no functionality or capability without being integrated into an end product, and
- Are not separately orderable; an eligible Schedule ordering activity may only purchase them with a configured system that is on contract.

► The listings below are intended to show product, fabric, and finish additions from your 1/1/2015 HON List Pricer.

## NEW ADDITIONS: PRODUCTS, FABRICS AND FINISHES

## EDGE PROFILES

Tops have both shaped and flat edges (specified on model-by-model basis).

- The flat edges allow side-by-side placement of worksurfaces without gapping. The tops of corner units are shaped on one side (the user's side). All other sides are flat-edge for snug fit with other model(s).
- The tops of credenzas, returns, bridges, freestanding corner units, lateral files, stack-on storage, stack-on organizers, bookcases, tower organizers, the tower bookcase, the storage cabinet, wardrobe/storage cabinets and slide-out collaborative surface are shaped on the user's side.
- The tops of conference and occasional tables are shaped on all sides.
- The tops of peninsulas are shaped on all sides except above the end panel or at point of attachment in the case of models HVN371R and HVN371L.
- Double pedestal desks have shaped edges on all four sides. Single pedestal desks have shaped edges on three sides.

## Edge profile options/alpha designator:

**Profile Shape**

Knife Edge "K"

## DRAWER/DOOR HANDLES

Announce handles were designed to be easy to grasp. Handles are metal.

- Drawer/door handles are available in one style and one finish/color.
- Handles are located on all pedestal drawer fronts (pencil, media, box and file drawers), on lateral file drawer fronts, on storage tower, mobile pedestal, mobile seat pedestal, storage cabinet and the wardrobe/storage cabinets. All handles have horizontal orientation except those on the following models: HVN753R, HVN753L, HVN614X, HVN615X, HVN614G.

NOTE: Handles are not used on stack-on or wall-mounted storage doors or tower organizer doors.

## Handle options:

**Handle Style**  
Square

**Handle Finish**  
Matte Chrome

Announce Handle

## VENEER MATERIALS AND FINISHES

- All exterior surfaces utilize slip-matched cherry or maple veneer except the backs of 2- and 5-shelf bookcases, wall mount storage cabinets, storage tower, towers organizer and tower bookcases.
- All veneer is carefully selected and matched to assure consistency.
- All veneer surfaces are finished in a multi-step process to a rich satin sheen. Finish is stain- and mar-resistant for lasting beauty and for easy care and maintenance.
- Due to the natural, unique characteristics of wood, minor variations in finish color, grain, and texture may be visible.

## Tops

All tops feature 3-ply balanced panel and solid core construction; balanced panel construction resists warping.

- Tops are 1 1/8" thick, including occasional tables and conference table tops.
- Tops are available in one edge profile shape (Knife Edge).
- All double pedestal desk tops have shaped edges on all four sides. All single pedestal desks will be shaped on three sides — user, approach and pedestal sides.
- All credenzas, returns, bookcases, and laterals have shaped edges on user side only.
- Optional grommets available in Matte Chrome (1) — see grommet location by model for locations, when specified.

### Cord Management

- Optional cord management grommet located in tops of returns, credenzas (except credenza with storage), freestanding corner unit and the following bridge models: HVN349X, HVN343X, HVN336X, HVN349M, HVN343M and HVN336M.
- After installation, stack-on storage models feature a 1 1/4" gap at bottom of back panel for cord management.
- Models HVN303X, HVN171R, HVN171L, HVN182R, HVN182L, HVN122R, HVN122L, HVN271D, HVN271R, HVN271L, HVN272R, HVN272L, HVN273R and HVN273L all have wall/outlet access panels built-in to the back of the unit. **Not recommended for open office plan due to access panels.**
- Optional cord management grommets are available in Matte Chrome for standard positioning on bridges, credenzas and return models. The holes are bored and the hardware is ordered and shipped separately.

### Locking

Locks standard on all desk, credenza, and return pedestals, lateral file drawers, mobile pedestals, the storage cabinet with doors and the wardrobe/storage cabinets. Key numbers are randomly assigned; units with multiple pedestals are keyed alike. Core removable locks allow for units to be quickly and easily re-keyed. Removable lock core replacement kit HF27 is available for Announce products manufactured after November, 2009; for Announce products made prior to that date use model HF23B.

### Leveling Glides

Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have a 3/4" adjustable range.

### Drawers

All drawers are five-sided construction. Five-sided construction allows easy drawer alignment or removal of drawer fronts.

- Drawer fronts are 3/4" construction.
- Drawer fronts are vertically matched in sets to assure continuous grain pattern.
- Top pencil drawer comes standard with pencil tray.
- Media drawer comes with (2) easily applied media rails which help to organize and hold CD's and DVD's (black only, does not have to be specified).
- Hangrails are standard in all file drawers.

### Drawer Suspension

Drawers operate on high quality steel ball-bearing suspensions to ensure quiet, smooth, long lasting operation.

- Full extension pencil, media and file drawers allow complete and easy access to all contents.

### Filing

File drawers standard with hangrails for the following filing scenarios:

- Filing capabilities on 72"W desks: side-to-side letter (2 deep) or legal (1 deep) filing.
- Filing capabilities on 72"W credenzas, 48"W returns, and 42"W returns: front-to-back letter filing; or side-to-side letter and legal filing (1 deep).
- Filing capabilities for the file drawer on credenzas and returns with multi-file: front-to-back letter filing; or side-to-side letter and legal filing (1 deep).
- Filing capabilities on Lateral Files are 30 1/2" of filing with two rows of front-to-back letter or legal, or one row side-to-side letter or legal.

## Announce® Bow Front Desks

GSA SIN 711-8

HON

- All bases have 1½"H Matte Chrome risers.
- Handle and grommet color will be determined by specifying the mixed materials option. Available in Matte Chrome only.
- Desk pedestals have two risers, per pedestal, at the bottom, and two at the top between the pedestal and desk top for a floating appearance.
- Tops are 1¼" thick, 3-ply balanced panel and solid core construction; resists warping.
- Drawers operate on high quality steel ball-bearing suspensions to ensure quiet, smooth operation.
- Adjustable hex-leveling glides allow 3/4 adjustment without lifting unit.
- Tops available in knife-edge only.
- Double pedestal desks are edged on all four sides.
- Single pedestal desks edged on three sides.
- Drawer fronts are vertically matched in sets to assure continuous grain pattern.
- All drawers are 5-sided construction.
- For Announce removable lock core kits, see model HF27 on page 67.
- Core removable locks.

⚠ **Not all options apply to all models.**

## Park Avenue Collection® Overview

# HON

The concepts of luxury and utility are not mutually exclusive with the Park Avenue Collection. Form and function culminate in an elegant, gratifying experience that sets the standard for unsurpassed personal satisfaction. Each piece reflects a work of art by experienced craftsmen.

The Park Avenue Collection provides avenues of expression for the most demanding tastes. Edge treatments, drawer handle choices, as well as storage modularity, are key components of the series that bring personalized productivity and efficiency to higher levels.

Park Avenue offers a variety of superb workspace arrangements for virtually any office environment. From executive offices to reception stations, choices in privacy, storage and seating are abundant. The virtuoso Park Avenue Collection composes an elegant environment for guests and staff. Created with painstaking care to strict performance standards, Park Avenue reflects a commitment to enduring quality, durability and sophisticated beauty.

- Multiple edge profiles, drawer handle options and finishes.
- Rich, hand finished slip-matched veneers.
- Includes conference, reception and modular storage options for the entire office.
- Cord management grommets allow routing and hiding of wires and cables.
- All file drawers include hangrails for letter- or legal-filing.
- Full extension drawers operate on smooth gliding, long-lasting precision ball-bearing suspensions.
- Core removable locks allow for units to be quickly and easily re-keyed. (For Park Avenue Veneer, use replacement kit HF27 for units manufactured after November 2009; or HF23B for products made prior to that date.)
- All models meet or exceed ANSI/BIFMA and ISTA performance standards.
- Covered by The HON Full Lifetime Warranty.

**Caring for veneer...**

- Wipe the surfaces once per week using a clean, water-dampened soft cloth. **Always wipe in the direction of the grain.**
- Make sure the wood is not exposed to harsh solvents. **We do not recommend commercial products containing high amounts of wax or silicon** as they can leave a residue and may alter the appearance of the wood over time.
- Clean up spills right away.
- **Use a desk pad** to prevent damage from writing instruments.
- **Use felt or cork pads** on the bottom of contact points of accessory items to avoid scratching the finish.
- **Avoid placing water glasses or hot coffee cups** directly on the surface.

**Color Changes...**

Color change is a natural phenomenon of wood. Woods change color with prolonged exposure to ultraviolet light coming from windows and fluorescent lighting. Cherry wood veneer color changes are most rapid, taking on a darker “golden” tone with age. Walnut will lighten with “golden” hues. As a rule, lighter colored finishes (i.e. Bourbon Cherry) are more apt to show these color changes compared to darker finishes (i.e. Mahogany and Walnut). Darker colors act as a “sun block” and reduce the aging effect. **We recommend that for the first year, you occasionally move the items kept on your desk, such as desk pads, telephones and in/out baskets, to a different location on the surface to allow uniform amounts of light to reach all surface areas.** This will help prevent light or dark spots from occurring. All wood manufacturers have the same issues, so the same care can be applied to any veneer product.

**Leveling the unit...**

- With the unit in final position, make sure all adjustable glides are fully inserted.
- Make sure the unit is level from end-to-end and front-to-back to insure proper drawer alignment.
- Once leveled, stand on the user's side and visually check for proper spacing between drawer fronts and for even matching of drawers, vertically and horizontally.
- If there is a noticeable difference in drawer spacing, raise one corner of the unit approximately  $\frac{3}{8}$ ", turning the adjustment glide. Visually check for spacing.
- If spacing becomes worse with adjustment, adjust glide back to the original position. Then adjust the opposite corner by  $\frac{3}{8}$ ".
- File and box drawer fronts (without hardware) can be adjusted for alignment by slightly loosening the two screws on the inside of the drawer front, tapping the front into position with a soft mallet, then re-tightening the screws.

**Drawer alignment and operation...**

- Check to see if the unit is level.
- If not, adjust the leveling glides before loading drawers with material.
- Check leveling again after loading the drawers.
- If furniture is moved, re-level.
- Maintain smooth drawer operation by lubricating the area housing ball-bearings every 3 to 6 months with a jelly-type, petroleum-based lubricant.
- To re-seat drawer slides, occasionally pull the file drawer slides to their fullest extension and tug firmly several times to insure they are completely extended (the ball-bearings tend to “creep” to the position most commonly used and may not allow free operation to the fullest extension without occasional re-seating).

**Door hinge adjustments...**

- The concealed “European designed” hinges on HON doors allow easy three-way adjustment of door alignment.
- To raise or lower the door, locate the recessed Phillips screw farthest to the rear of the hinge. Rotate this screw to adjust the height of the door. You do not need to loosen the center locking screw to make this adjustment.
- To adjust the side-to-side gap between the doors, adjust the Phillips screw closest to the door on the surface of the hinge body. You do not need to loosen the center locking screw to make this adjustment.
- To adjust the in-out pitch of the door faces, adjust the center screw to the correct position.

**Edge Profiles**

Tops have both shaped and flat edges (except for conference and occasional tables). Shaped edges are softened to improve user comfort. Flat edges allow side-by-side placement of work surfaces without gapping. Desktops, with the exception of reception desks and peninsulas, are shaped on the user's side and the approach side. The tops of corner units are shaped on three sides (the user's side and the two 24"D sides).

The tops of reception desks are shaped on the user's side. The tops of credenzas, returns, bridges, lateral files, stack-on storage, stack-on organizers, bookcases, tower organizers, the tower bookcase, the storage cabinet, wardrobe/storage cabinets, and 24"D and 14<sup>3</sup>/<sub>4</sub>"D modular tops are shaped on the user's side. The tops of transaction counters are shaped on the approach side. The tops of conference and occasional tables are shaped on all sides.

**Edge Options:**

- Tops feature 1 1/8" thick 3-ply balanced panel and solid core construction; resists warping.
- Tops are available in different edge profile shapes.
- Drawer fronts are vertically matched in sets to assure continuous grain pattern.

- All models feature full height pedestals and modesty panels.
- Drawers operate on high quality steel ball-bearing suspensions to ensure quiet, smooth, long lasting operation.
- Full extension box and file drawers allow complete and easy access to all contents.

- All drawers are 5-sided construction.
- Filing capabilities for 72"W desks are side-to-side letter or legal filing and front-to-back legal filing.
- File drawers standard with hangrails.
- See page 32 for conference overhang dimensions.
- See page 685 for veneer center drawer.

- For Park Avenue Veneer removable lock core kits, see model HF27 on page 50.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.

- One cord management grommet, for routing and hiding wires and cables, is located in each end panel of all desks.

## Park Avenue Collection® Veneer Desks — Built-up

GSA SIN 711-8 Except as Noted

# HON

- Tops feature 1 1/8" thick 3-ply balanced panel and solid core construction; resists warping.
- Tops are available in different edge profile shapes.
- Drawer fronts are vertically matched in sets to assure continuous grain pattern.
- All models feature full height pedestals and modesty panels.
- Drawers operate on high quality steel ball-bearing suspensions to ensure quiet, smooth, long lasting operation.
- Full extension box and file drawers allow complete and easy access to all contents.
- Filing capabilities for 72"W desks are side-to-side letter or legal filing and front-to-back legal filing.
- File drawers standard with hangrails.
- All drawers are 5-sided construction.
- Core removable locks on desks.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.
- One cord management grommet, for routing and hiding wires and cables, is located in each end panel of all desks.
- See page 32 for conference overhang dimensions.
- See page 685 for veneer center drawer.

⚠ **Table Desk model to be used freestanding only; not designed to be used with a bridge or return.**

Park Avenue Collection® Veneer Desks — Modular Components

GSA SIN 711-8

- Pedestals are non-handed and easy to arrange or re-configure.

➤ Under worksurface pedestals can support the end of component surface tops.
- The depth of pedestals is 3/4" less than the depth of the component tops to accommodate for the back or modesty panel.
- All modular pedestals (except the storage cabinet pedestal) are equipped with core removable locks.

➤ End panels support the end of a component top when there is no modular pedestal.
- The depth of end panels are 3/4" less than the depth of the component tops to accommodate the modesty panel.
- Filing capabilities on modular pedestals: side-to-side letter and legal filing; or front-to-back for letter filing.
-

➤ Stack-on storage sizes are available for modular credenza and additional built-up product applications.

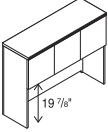

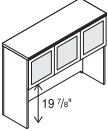

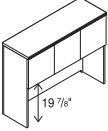

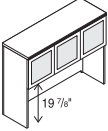

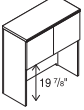

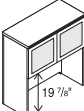

➤ Full width 1 1/4" H slot at the bottom of back panels facilitates routing cords and reaching wall receptacles.  
➤ Stack-on storage doors feature self closing hinges.

➤ Stack-on storage doors and valance conceal task lights.  
➤ Fabric covered tackboards available for back panels of all stack-on storage models.

➤ Frosted doors with silver frame provide a contemporary upgrade to enhance aesthetic appeal.  
➤ Frosted doors are opaque to hide contents of unit.

➤ Models specified with a standard back (not fully finished) are recommended for use against a wall.

Arrive Veneer desks line blends style and value with superb wood craftsmanship. Its design offers a fresh, clean style with subtle details.

### Styling

The versatile desks line is well suited for private offices, conference rooms or commons areas. An array of products ranging from single and double pedestal desks, credenzas, returns, storage, filing bookcases, tables and conference solutions, make your office design options seem almost endless.

The sleek cove edge provides a clean aesthetic while the two handle and mixed material options allow you to customize your look.

### Materials/Construction

All exterior surfaces feature slip matched veneer and vertical grain. Veneer surfaces are finished in a multi-step process to a rich satin sheen. Finish is stain and mar-resistant for lasting beauty and easy care and maintenance.

All drawers operate on steel ball-bearing suspensions. Five-sided drawer construction, high drawer sides and hangrails meet all your filing needs.

Core removable locks allow for units to be quickly and easily re-keyed; use replacement kit HF27.

### Desks/Credenzas/Storage

Double and single pedestal desks are offered in both bow and rectangle top options with file/file or box/box/file drawers. The table desk includes a center drawer.

Grommets and wire access on desks, credenzas, returns and bridges allow easy routing of wires and cords.

Choose from credenza models — Credenzas with kneespace, with storage, with lateral or multfiles or a single pedestal credenza.

Customize your storage preferences with the multitude of options such as stack-on storage, storage tower organizers, personal storage cabinets, lateral files, bookcases, bookcase hutches and wall-mount storage. Models specified with standard back, which are not fully finished, are recommended for use against a wall.

Edge Detail

- Vertical components, including drawer fronts, have vertical grain.
- Full pedestals maximize storage space.
- Full height modesty panels.
- All box and file drawers lock.
- Double pedestal desks have recessed modesty panel.
- All drawers are 5-sided construction.
- Full extension file drawers allow full access to contents.
- All desk tops are 1 3/16" thick.
- Drawers operate on steel ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- File drawers standard with hangrails.
- For Arrive removable lock core kits, see model HF27 on page 63.
- Core locks match handles, and are located on the kneespace side of the pedestal of all desks.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 1" adjustable range.
- 3" Round grommets match handles (specify). See model detail for placement of grommets.

Approach Side

Edge Detail

- Desks feature slip matched veneer surfaces.
- Hand-selected hardwood veneer is finished to a rich patina in a multi-step finishing process.
- Desks feature standard central locking and arm slides with knobs over each pedestal.
- Return models now with 3" round grommets.
- For Pennsylvania Avenue removable lock core kits, see model HF27 on page 67.
- All pedestals feature box/file drawer configurations.
- Box, file and center drawers operate on ball-bearing suspension with full extension.
- Hangrails are provided in all file drawers for side-to-side letter and legal filing; and front-to-back for letter filing.
- Drawer fronts and doors are grain matched sets.
- Drawer handles are rosette and bail design in burnished brass finish.

Two-tone laminates: Top and edge banding are the same, base is different laminate color.

The following 10500 Series™ products are not available as two-tone. They are one color and require only one color code — C, COGN, D, F, H, MOCH, N, P, PINC, Q, S, or WHIT: Modular pedestals — box/file, box/box/file, file/file, pencil/media/file, lateral file, multi file, cabinet and CPU storage (also applies to Valido/11500 Series).

- Access strip and end panel kits
- Back enclosures
- Stack-on storage for corner units
- Wall mounted open shelf
- Reception stations for return
- T-shaped end panels
- L-shaped end panels

### Two-Tone Laminate Top / Edge Banding

Mocha	MOCH	•	•	•				
Natural Maple	DD	•	•	•				
Pinnacle	PINC	•	•	•				
Shaker Cherry	FF	•	•	•				

## VENEER MATERIALS AND FINISHES

- Due to the natural, unique characteristics of wood, minor variations in finish color, grain, and texture may be visible.
- Wood ages naturally over time and environmental factors affect the color — it is best to purchase all veneer pieces at the same time so they age at the same rate.
- All exterior surfaces utilize slip-matched cherry or maple veneer except wall mount storage cabinets and storage tower.
- All veneer is carefully selected and matched to assure consistency.
- All veneer surfaces are finished in a multi-step process to a rich satin sheen. Finish is stain- and mar-resistant for lasting beauty and easy care and maintenance.

## TOPS

- All tops are 3-ply balanced panel and solid core construction; balanced panel construction resists warping.
- Tops are 1 1/8" thick.

## DRAWER/DOOR PULLS

- Drawer fronts are 3/4" construction.
- Voi® utilizes vertical grain except on top surfaces.
- Drawer fronts are matched in sets to assure continuous grain pattern.
- Drawers operate on high quality steel ball-bearing suspensions to ensure quiet, smooth, long lasting operation.

For Veneer Care and Maintenance see page 31.

This Specifying Guide is designed to walk you through the steps when choosing the Voi desks elements that will meet your particular workplace needs. From private office to open plan, there are endless combinations that will fit your style and need.

Regardless of the application, Voi presents an integrated, unified aesthetic for the entire workplace.

The step-by-step instructions make it easy to specify elements that personalize workspaces and achieve the right mix of functionality and style.

#### Worksurface

- A variety of shapes and sizes meet a range of footprint requirements, from private offices to open plan areas.

#### Accessories

- From layering shelves to storage cubes, markerboards and the box drawer organizer, Voi accessories allow personalization to meet individual needs.

#### Above the Worksurface Storage

- Voi has many above the worksurface storage options that can be used in many applications: wall mounted, panel mounted, and conventional stack-on storage options are available to make an efficient use of vertical space.
- Choose from sliding door units or overhead cabinets with four doors.
- The O-leg can be used in stack-on storage applications to create a more contemporary look.
- Mixed material options are available for the overhead cabinet with doors including: frosted glass, frosted translucent and Plains tiles.
- The storage cube accessory can be used in the storage applications listed above.

#### Below the Worksurface Storage

- A wide variety of conventional storage options are available: lateral files, bookcases, support bookcases, mobile pedestals, personal wardrobes, and storage towers.
- Many contemporary storage options are available: low credenzas and floor credenza work in conjunction with the worksurfaces to create layered surfaces that optimize space, different storage, staging, and display needs.

#### Support

- A combination of many supports can be used with the worksurfaces: O-leg, end panel, pedestal, slim pedestal, support bookcase, lateral/multi file.
- O-legs work in many of the Voi desks applications and provide a light-scale, contemporary look.
- O-legs can be used in a variety of heights so surfaces can be layered.
- End panels are also available and provide a more conventional look.
- A variety of modular storage options can be specified based on your storage needs: box/box/file pedestal, file/file pedestal, slim profile pedestal, lateral files and multifiles.

#### Modesty Panel/Privacy Screens

- Full height, ½ height and floating modesty panel options are available to enhance privacy.
- Mixed material options are available in laminate and frosted translucent.
- Select the size that works with the supports.
- Above and above/below privacy screens are available to create an element of privacy in an open plan area.

### Steps for specification:

#### 1. Select the right worksurface.

Choose the worksurface shape and size that best fits your office layout.

#### Rectangle Worksurface

Depths: 20", 24", 30", 36"  
Widths: 36", 42", 48", 54",  
60", 66", 72", 84"

#### Rudder Worksurface

Depths: 24", 30"  
Widths: 72"

#### Wedge Worksurface

Depths: 24", 30"  
Widths: 60", 66", 72"

#### Tips

- Rectangle worksurfaces available in both laminate and veneer.
- Rudder worksurfaces are used like peninsulas.
- The Rudder worksurface cannot be a free-standing unit. It must be used as a return or peninsula with a single post leg.
- T-mold is not an option on Voi worksurfaces; edgeband only.
- 3" Grommets are available in Black (P), Brilliant White (WHIT), Greige (T5) and Platinum (T1).
- Select grommet or no grommets. If grommets are specified they ship in a predetermined location. No grommets in 24"W and 30"W worksurfaces. One grommet in 36"W and 42"W worksurfaces. Two grommets in 48"-84"W worksurfaces.
- Abound or Accelerate worksurfaces can be used.
- O-leg panel applications cannot be used with T-mold worksurfaces.
- Edgeband color is limited and is based on the worksurface color selection. See chart on page 86.
- HWSA2 bracket kit and HCTL182/HCT242 cantilever models must be specified in addition to the worksurfaces to work with panels.

#### 2. Select the supports.

Countless combinations of support options meet a variety of support and storage needs.

#### O-Leg and Shared Support for Low Credenza

20"D x 7"H, 24"D x 7"H, 30"D x 7"H  
7"H only O-legs attach to worksurface and sit on top of credenzas.

#### O-Leg and Shared Support for Worksurfaces

20"D x 28½"H, 24"D x 28½"H, 30"D x 28½"H  
28½"H, 24"D x 41"H, 30"D x 41"H, 48"D x 28½"H,  
60"D x 28½"H O-legs provide support for the worksurface.

#### O-Leg-to-Panel Attachment Bracket

Left handed bracket (quantity 1)  
Right handed bracket (quantity 1)

#### Post Leg

28½"H, 2" square

#### End Panel Support

16"W x 20"D x 28½"H,  
16"W x 24"D x 28½"H,  
16"W x 30"D x 28½"H

#### Laminate End Panel Support With Panel Attachment Bracket

24"D x 28½"H, 30"D x 28"H

#### B/B/F Standard and Power-Ready Pedestals

16"W x 20"D x 28½"H,  
16"W x 24"D x 28½"H,  
16"W x 30"D x 28½"H

#### F/F Standard and Power-Ready Pedestals

16"W x 20"D x 28½"H,  
16"W x 24"D x 28½"H,  
16"W x 30"D x 28½"H

#### B/B/F Standard and Power-Ready Slim Profile Pedestals

9½"W x 24"D x 28½"H,  
9½"W x 30"D x 28½"H

#### Standing Height Pedestals

9½"W x 24"D x 41"H,  
9½"W x 30"D x 41"H

#### 2 Drawer Standard and Power-Ready Lateral with Pulls

30"W x 24"D x 28½"H

#### Multi-Drawer Standard and Power-Ready File Center

30"W x 24"D x 28½"H

#### Bookcase Support

30"W x 12"D x 28½"H,  
24"W x 12"D x 28½"H

#### Standing Height Support Storage

12"W x 30"D x 41"H,  
12"W x 24"D x 41"H

#### Standing Height Towers

12"W x 30"D x 50"H,  
12"W x 24"D x 50"H

#### Tips

- Supports available in laminate and limited models in veneer.
- When using an O-leg in open plan, panel supported, applications, you must specify an O-leg to panel attachment bracket separately (available in 28"H and 41"H).
- Bookcase Support can only be used exterior facing.
- Telescoping ball-bearing slides used on box and file drawers. Lateral drawers use a progressive ball-bearing slide.
- O-leg and panel applications cannot be used with T-mold.
- When specifying a 30"D support on a 36"D worksurface, there will be a 6" overhang.
- All modular pedestals have an easy attach method to the worksurface for quick assembly.
- Pass-thru openings in the sides of the Power-Ready Pedestals and Lateral Files allow hardware conduit to run under the worksurfaces, through the case in a continuous run.
- One double-depth O-leg can replace two regular O-legs in teaming applications.
- Shared O-legs create cleaner aesthetic where two legs are used side-by-side.
- 2" adjustable glides on O-leg supports.
- Standing-Height Support Pedestals bottom two file drawers are locking.
- Standing-Height Bookcase Support contains easy-access, fixed storage shelves.

## Voi® Specifying/Design Guide

3. Select the modesty panel/privacy screen that works in conjunction with the supports you have specified.

**14"H Full Width/Half-height Laminate Modesty Panel**  
28"W, 34", 40"W  
(Modesty Size)  
**28"H Full-to-Floor/Full Length Laminate Modesty Panel**  
28", 34", 40"W  
(Modesty Size)

**Laminate Floating Modesty Panel**  
30"W x 14"H, 36"W x 14"H, 42"W x 14"H, 48"W x 14"H, 54"W x 14"H, 60"W x 14"H

**Mixed Material Floating Modesty Panel**  
30"W x 14"H, 36"W x 14"H, 42"W x 14"H, 48"W x 14"H, 54"W x 14"H, 60"W x 14"H  
Available in Frosted Translucent only

**Above/Below Privacy Screen**  
30"W x 28"H, 36"W x 28"H, 42"W x 28"H, 48"W x 28"H, 54"W x 28"H, 60"W x 28"H  
Available in Frosted Translucent only

**Above Privacy Screen**  
30"W x 13"H, 36"W x 13"H, 42"W x 13"H, 48"W x 13"H, 54"W x 13"H, 60"W x 13"H  
Available in Frosted Glass only

**Above/Below Fabric Screen**  
36"W x 35"H, 42"W x 35"H, 48"W x 35"H, 54"W x 35"H, 60"W x 35"H, 66"W x 35"H, 72"W x 35"H

**Above Fabric Screen**  
20"W x 20"H, 20"W x 13"H, 24"W x 20"H, 24"W x 13"H, 30"W x 20"H, 30"W x 13"H, 36"W x 20"H, 36"W x 13"H

**Above Polymer or Glass (Side) Screen**  
20"W x 13"H, 24"W x 13"H, 30"W x 13"H, 36"W x 13"H

#### Tips

- Mixed material and laminate floating modesty panels create a lighter scale look by attaching to the top of the worksurface.
- Choose from a variety of materials to create your desired look.
- Laminate modesty panels to create a more conventional look.
- 54"W and 60"W Floating Modesty panels eliminate the need for an external channel.
- Above Privacy Screens provide a division between two worksurfaces and create a division of space in an open plan area.
- Modesty panels cannot be used as a support.
- See modesty panel chart to choose proper modesty size depending on support options.

4. Select Above the Worksurface Storage (Stack-on Storage) or Overhead Cabinets

Select the above the worksurface storage that meets your storage criteria, choose from overhead cabinets, panel mounted storage, conventional or contemporary stack-on storage.

**14 1/4"D x 14"H Shared Overhead Cabinet with One Sliding Door**  
60", 72"

**14 1/4" Overhead Cabinet with 4 Laminate Doors with or without Cubbie or 4 Frosted Metal Doors with or without Cubbie**  
36", 42", 48" and 60" with 4 Laminate or Frosted Doors  
60", 66", 72" and 78" with Laminate or Frosted Doors and Cubbie

**14 1/4"D x 35"H Stack-on Storage, Built-up, with Sliding Doors**  
72"W only

**14 1/4"D x 35"H Stack-on Storage, Built-up, 4 Frosted Metal Doors with Cubbie**  
72"W only with Laminate or Frosted Doors and Cubbie

**O-Leg Support for Overhead Cabinet**  
50"-14 1/8"D x 5 1/2"H  
65"-14 1/8"D x 20 1/2"H

**Post Legs for Shared Storage**  
14"H and 22"H

**Steel Shelf for Stack-on Storage**  
72"W, 66"W, 60"W

**Tackboard for Overhead Cabinet Applications**  
**Tackboard for Built-up Stack-on Storage**  
72"W only

**Panel Mount Bracket for Shared Overhead**  
Abound and Accelerate

#### Tips

- Overhead available in both laminate and veneer.
- Select sliding or hinged doors.
- When selecting the door material for the 4 hinged door models, choose from Champagne or Platinum Metallic of polymer frame with Frosted glass or Frosted Acrylic.
- Specify O-leg separately for a contemporary look.
- Optional storage shelf works in conjunction with the O-leg design to provide additional storage space. Only works with 65"H O-legs.
- O-legs come in two sizes to make a 50"H or 65"H stack-on storage unit.
- Wall-mount brackets carry a \$150 upcharge and are specified the model ordering logic.
- Use shared overhead and attachments in small footprint applications.
- Shared overhead must be ordered as left or right to determine open storage location.
- Shared overhead panel mount brackets and overhead post legs allow overhead to span over all panels systems or run down the spine wall, centered on top of the panel.
- Use the 65"H for a more conventional design. 65"H and 50"H aligns with Abound and Accelerate.
- Stack-on Storage must be placed over two full-height supports. Cannot be placed over non-supported sections such as returns using a flat bracket or tower-to-worksurface bracket.
- If the end panel conventional look is preferred, order the built-up stack-on storage models.
- There are two types of tackboards for use on Overhead Cabinet and Stack-on Storage.

### 5. Select the right storage.

Choose from a variety of below the worksurface, as well as traditional, storage options.

#### Laterals and Storage Cabinet

2-Drawer Lateral, 4-Drawer Lateral, Storage Cabinet

36"W x 24"D x 29½"H, 36"W x 20"D x 29½"H,  
36"W x 24"D x 57"H, 36"W x 20"D x 57"H,  
36"W x 24"D x 29½"H, 36"W x 20"D x 29½"H

#### Storage Towers

18"W x 20"D, 18"W x 24"D, 24"W x 20"D, 24"W x 24"D, 50"H and 65"H

#### Bookshelves

36"W x 13"D x 29½"H (2 Shelf)  
36"W x 13"D x 50"H (3 Shelf)  
36"W x 13"D x 65"H (4 Shelf)

#### Bookcase Hutch without Doors

36"W x 14"D x 35"H

#### Credenzas

Credenza: 24"D x 72"W x 29½"H

Low Credenzas: 20"D x 21½"H x 30", 36", 60", 72"W

Low Credenzas with a variety of door/drawer options

#### Mobile Credenza

30"W x 20"D x 21½"H

#### Mobile Pedestal

15¾"W x 20½"D x 21½"H

#### Tips

- Small credenza models can be used in small footprint applications.
- Can use pedestal or credenza seat cushions on smaller credenza models.
- Various storage models available in both laminate and veneer options.
- Low credenzas work in conjunction with worksurface 7" O-leg designed to create a unique layering design.
- Bookcase/laterals and other conventional storage components provide additional storage space.
- Must specify chassis and drawer front color separately.
- Low Credenzas, Laterals and Mobile Pedestals have seat cushions to create additional seating in the workspace.
- Storage and Personal Tower models offer conventional storage as well as wardrobes with a coat rod.
- Using a seat cushion with a power-ready credenza will cover one grommet.
- Specify appropriate power pack for credenza length.
- A worksurface-to-tower bracket kit allows the attachment of worksurfaces to Storage and Personal Tower models.
- Telescoping ball-bearing slides used on box and file drawers. Lateral drawers use a progressive ball-bearing slide.
- Cannot route softwire power through lockable storage units.

### 6. Select Accessories to add color, additional storage and organization to your workspace.

#### Layering Shelf

60"W x 14¼"D x 5½"H  
72"W x 14¼"D x 5½"H

#### Seat Cushion for Credenzas and Mobile Credenza/Pedestal

**Pedestal Cushion**

15⅞"W x 20"D x 2"H

**Credenza Cushion**

20"W x 30"D x 2"H, 20"W x 36"D x 2"H

#### Storage Cube

12" x 12"

#### Drawer Organizer

12"W x 14½"D x 1½"H

#### Markerboard for Shared Overhead

30"W x 15"D for use with 60"W Shared Overhead

36"W x 15"D for use with 72"W Shared Overhead

#### Markerboard

48"W x 31"H

#### LED Task Light

#### Wire Management Tray

HLSLWMTRAY  
24"W x 2¾"D x 2¾"H

#### Tips

- Choose from five bright Storage Cube colors for a colorful design element while providing additional storage.
- Use the Drawer Organizer to keep small items in order. Also offered in the same bright Storage Cube colors.
- Layering shelves are great for filing and piling or in conjunction with the lower credenza.
- Optimize shared overhead capabilities by adding the Markerboard for Shared Overhead.

## Voi® and Systems Integration

### Worksurface Applications

Either Voi or Systems worksurfaces can be used with Voi in an open plan application. There are several support options:

- A. Completely panel supported.
- B. Combination of panel supported and another worksurface support such as:
  - Bookcase support
  - Pedestal (Brigade®, Flagship® or Voi®)
  - Systems open leg
  - Voi O-leg
  - End panel (Systems or Voi)
  - Tower to worksurface bracket
  - Support column
  - Systems round post leg
  - Voi post leg
- C. Freestanding:
  - Bookcase support
  - Two pedestals (Brigade®, Flagship® or Voi®)
  - Two Voi O-legs
  - One Voi O-leg and one Voi O-leg support for lower credenzas
  - Two end panels (metal or Voi)—requires metal or Voi modesty panel

### Additional application guidelines for worksurfaces:

- Systems worksurfaces are available with t-mold or edgeband edges.
- Systems worksurfaces are available with grommets, wire management scallops, or no grommets.
- When Voi lower credenzas are used along the spine wall and are placed adjacent to the wing wall, one electrical/data cutout on the wing wall will be blocked.
- When Voi credenzas are used along the wing wall and are placed adjacent to the spine wall, one electrical/data cutout on the spine wall will be blocked.
- When the Voi O-leg support for credenzas is used, it is recommended to also panel attach the worksurface with the worksurface anti-dislodgement bracket kit HMWA2.
- When the Voi O-leg support is used with panels, it is recommended to also panel attach the O-leg to the panel with the O-leg to panel bracket kit HLPBPL (left) and/or HLPBPR (right). This bracket will provide additional workstation rigidity. The bracket is designed to work with edgeband worksurfaces only.
- When the Voi end panel support is used with panels, it is recommended to use the end panel support with panel bracket model. This model will provide additional workstation rigidity.
- The worksurface to tower bracket kit, HSTB2W1, will work with Voi towers, Voi worksurfaces, and systems worksurfaces.

### Application Guidelines—Combination of Panel Supported and Another Worksurface Support

- For applications where 1) the worksurface is perpendicular to the spine wall; 2) the worksurface is panel supported off the spine wall; and 3) there are Voi credenzas placed under the worksurface along the spine: there is not enough clearance to use standard worksurface cantilevers to attach the worksurface to the spine. Use the worksurface anti-dislodgement bracket kit HMWA2 to panel attach the worksurface in lieu of cantilevers. Select the 'omit cantilever' option if systems worksurfaces are being used and the cantilevers are not needed elsewhere on the worksurface.
- The Voi O-leg-to-panel bracket is designed to work with edgeband worksurfaces. Use of the Voi O-leg with t-mold worksurfaces will prevent the attachment of the leg to the panel.

### Panel Mounted Stack-on Storage Applications

- The Voi stack-on storage cabinets can be used on Aboard and Accelerate as panel mounted overheads.
- The sliding door stack-on storage units are available in 36", 42", 48" widths in addition to 60", 66", 72", and 78" widths.
- The 4 door stack-on storage units are only available in 36", 42", 48", 60", 66", 72", and 78" widths.
- The storage units require a storage to panel bracket kit, model HSLPMB. This model includes one left hand and one right hand bracket. The brackets are available in all Core and Choice/Metallic paint colors.
- The storage cabinets do not have off modular capabilities.
- The storage cabinets cannot be upmounted.
- For proper installation and support, the storage units must follow the following specification rules:
  - There should be a storage unit of the same construction on each side of a given panel.
  - The storage units on opposite sides of a given panel should be in the same location vertically and horizontally.
  - Only one storage unit per panel, per side.
  - The wing panel adjacent to the spine wall needs to be the same height as the spine wall.

Contact HON's Integrated Design Services team with specification questions.

Flagship Storage is a perfect fit with Voi Workstations. Please see below for a few key Flagship models that will meet your storage needs. For a full-line of Flagship Storage products, please see pages 412-421.

Personal Storage Tower

End Tower with Bookcase

Storage Cabinet

Standard Height Pedestal

Mobile Pedestal

4-Drawer Lateral File

Lateral File with Storage

- Systems worksurfaces can be used with all Voi components.
- Worksurfaces are abrasion- and stain-resistant laminate over durable 1 1/4" solid core high performance particleboard; resists wrapping.
- There is one 3" grommet in 36"W and 42"W worksurfaces and two in 48"W-84"W worksurfaces.
- One flat bracket ships with each worksurface.

- When attaching tops to panels, refer to Systems section of this pricer.
- Square edge detail.
- When using a floating modesty panel or an external channel under the worksurface, the depth clearance for keyboard trays and center drawers decreases by 8". See accessory matrix in accessory section of the pricer.
- 3" Power Hub model HGRMTAC can be interchanged with 3" standard grommet.

- Voi® worksurfaces cannot be used with Abode™ Desks components.
- Grommets in worksurfaces must be specified. If grommets are specified, grommets come in predetermined location.
- Edgeband option only on all Voi worksurfaces. For edgeband options, see matrix on page 86.
- When specifying an 84" Worksurface, cannot use two 0-legs, must use at least one additional support such as a pedestal or lateral file.

- When using a worksurface as a bridge, no additional supports are needed. One support is required for returns, two supports are required for desks and credenzas.
- Lateral file or multi-files must be used with surfaces 24"D and 60"W or greater.
- Scallops are not available on Voi worksurfaces.
- Depending on your support combination, an external channel may be required for extra support on unsupported spans greater than 54"W. Please see the matrix below for more details.

- If using a 54"W or 60"W floating modesty, it is not necessary to spec an external channel.
- When attaching worksurfaces to panels, one or more of the following are required: anti-dislodgement brackets, end panel, support leg and/or cantilevers. Cantilevers and anti-dislodgement brackets must be ordered separately when attaching worksurfaces to panels.

Description	Model	Ship Weight	Cube	List
<b>Rectangle Worksurfaces</b>

- **NEW!** Voi® Double-Depth O-Leg Supports. Available January 2016.
- A variety of pedestals, end panels, and O-legs can be combined to create a conventional or contemporary desk.

- O-leg ships fully assembled with mounting hardware.
- Shared O-Legs create a cleaner aesthetic in all applications where two legs are used side-by-side.
- The bracket on the O-leg will span both worksurfaces to provide the same support with the look of a single O-leg.

- Voi square support column is interchangeable with the Systems worksurface round support column: HCNLEG29.
- Will have a 6" overhang when using 30" worksurface supports with a 36"D worksurface.

- Glides on O-Leg Support for Worksurfaces and Post Leg Base have 2" of adjustability. No glides on 7"H O-leg. Glides on end panels have 1/4" adjustability.
- O-leg supports can be used with laminate and veneer models.

- ⚠ **O-legs may only be attached to worksurfaces, not storage units.**
- ⚠ **Post leg can only be used to support peninsula, not as primary supports for a top.**

- A variety of pedestals, end panels, and O-legs can be combined to create a conventional or contemporary desk.
- Chassis and drawer front woodgrain and solid laminates are specified separately (see SIF options below).

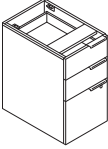

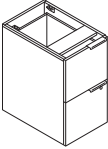

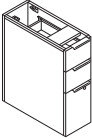

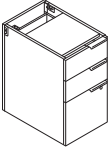

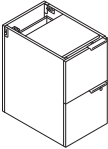

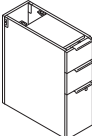

- Will have a 6" overhang when using 30" worksurface supports with a 36" D worksurface.
- Pass-thru openings in the sides of support pedestals allow hardwire conduit to run under worksurfaces, through the case in a continuous run. Black grommets included on both sides for a finished look.

- File drawers accept hanging folders in letter or legal size.
- Multiple handle locations possible per customer preference.
- Ships with one handle per drawer.
- Drawer Organizer model HSLDRWORG works with box drawers.

- Box and file drawers operate on ball-bearing suspension with full extension.
- When using two lateral files/multi file, a 60" worksurface cannot be used, a 66" worksurface must be specified, which will show a gap.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 1/4" adjustable range.

- ⚠ **Pedestals ship fully assembled but must attach to a worksurface with a quick release bracket, provided. Pedestals are non-handed and are interchangeable.**
- ⚠ **Locking units equipped with HON "One Key" interchangeable core must be ordered separately.**

## Voi® Laminate Support/Power-Ready Support Storage

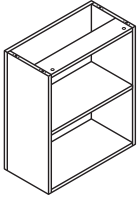

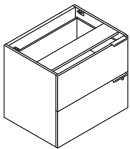

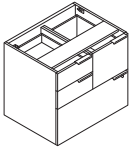

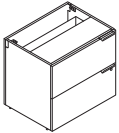

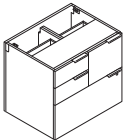

GSA SIN 711-3 Except as Noted

# HON

- Ships with one handle per drawer on all units.
- A variety of pedestals, end panels, and O-legs can be combined to create a conventional or contemporary desk.
- Will have a 6" overhang when using 30" worksurface supports with a 36"D worksurface.
- Bookcase can only mount exterior facing under a worksurface.
- Chassis and drawer front woodgrain and solid laminates are specified separately (see SIF options below).
- File drawers accept hanging folders in letter or legal size.
- Multiple handle locations possible per customer preference.
- Storage accessory model HLSDRWORG works with box doors.
- Standard box drawers operate on ball-bearing suspension with full extension. File, lateral, and wide box drawers operate on ball-bearing suspension with full extension.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 2" adjustable range.
- When using two lateral files, a 60" worksurface cannot be used, a 66" worksurface must be specified, which will show a gap.
- Pass-thru openings in the sides of support pedestals and lateral files allow hardware conduit to run under worksurfaces, through the case in a continuous run. Black grommets included on both sides for a finished look.

- ⚠ A single multi-file or lateral file must be specified under a worksurface 60"W or wider.
- ⚠ Locking units equipped with HON "One Key" interchangeable core must be ordered separately.

## Voi® Privacy Screens

GSA SIN 711-2

HON

➤ Above privacy screens are intended to be attached between users sitting side-by-side but will create 1/8" spacing between the workspaces.

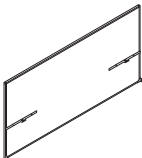

➤ Ships complete with attachment brackets.  
➤ All brackets are Platinum.  
➤ Above Privacy Screen attaches to top and side of worksurface with adhesive banding.

➤ Lower attachment brackets may be shifted to attach to support components.  
➤ Above/Below privacy screen extends 20" above and 13" below worksurface.

⚠ **Above/Below Fabric Privacy Screens can attach to workspaces that are either 0-leg supported on both sides, or workspaces that are supported by a support pedestal on one side and an 0-leg on the other. They cannot be attached to workspaces supported by support pedestals on both sides, unless additional hardware is specified.**

⚠ **Above screens must attach to edgeband and top of surface.**  
⚠ **Above/Below privacy screens must be ordered the same width as the worksurface it is being used with to properly attach.**

- All Overhead Cabinets shown below can be used as a wall mount, panel mount or stack-on storage with O-leg.
- Tackboards are available for wall mount storage applications and conventional stack-on. Use wall mount tackboards when using O-leg supports.
- 5½"H and 20½"H O-legs can be purchased to create stack-on storage. Heights line up with Abound® and Accelerate® panels.
- Overhead cabinets with four doors are available in laminate or mixed materials.
- Wall mount brackets specified with unit. Brackets attach to case horizontally.
- For all color specifying combinations, see matrix on pages 72-73.
- Storage cases accept binder height items.
- Storage cube fits inside stack-on storage or overhead cabinet units to provide paper management.
- For panel mounted applications, brackets and hardware are ordered separately, see page 338. Brackets attach to panel and case is screwed into brackets. Two brackets needed for 60" unit; three brackets needed for 66" and larger.
- ⚠ **Stack-on Storage must be placed over two full-height supports. Cannot be placed over non-supported sections such as returns using a flat bracket or tower-to-worksurface bracket.**
- ⚠ **Overhead units do not lock.**

- Overall case depth is 19"D including the sliding door.
- Use Shared Overhead and attachments in small footprint applications.

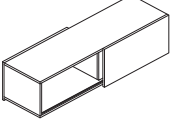

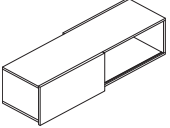

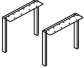

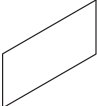

- Sliding door is 15"H, providing a 1" valance below the case which can be used as a finger pull if desired.

- Shared Overhead panel mount brackets and overhead post legs allow overhead to span over all panels systems or run down the spine wall, centered on top of the panel.

- Post legs can attach to all low credenza models and all worksurface models.
- Markerboard insert is markerboard laminate with black edges, no frame.

- ⚠ **Shared Overhead must be ordered as left or right to determine open storage location.**
- ⚠ **Overhead units do not lock.**

## Voi® Laminate Low Credenzas

GSA SIN 711-3

HON

- Worksurfaces with 7" O-legs, may be placed upon low credenzas to create layering.
- Chassis and drawer fronts woodgrains and solid laminates are specified separately (see options below).

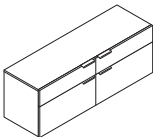

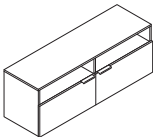

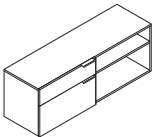

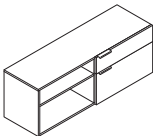

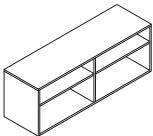

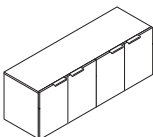

- File drawers accept hanging folders in letter or legal size.
- Multiple handle locations possible per customer preference.
- Seat cushions are available for low credenzas and mobile pedestals (specify separately).

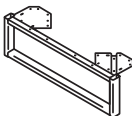

- Storage accessory model HSLDRWORG works with box doors.
- Layering shelf works with low credenzas to provide additional storage areas.
- File, lateral, and wide box drawers operate on ball-bearing suspension with full extension.

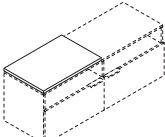

- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 1/4" adjustable range.
- Ships with one handle per drawer on all units.

△ Locking units equipped with HON "One Key" interchangeable core removable locks. Keyed alike core must be ordered separately.

## Voi® Hardwire Electrical Components

GSA SIN 711-2

HON

- Duplex receptacles accept a standard 15 amp plug and a maximum of 13 duplexes per circuit.
- 8-Wire to 4-Wire Connector allows hardwire power components to directly connect to system power components (panel system). This component takes the place of a duplex on the panel.
- Model HMASPLIT is a hardwire connector that allows branching off while keeping the ability to continue straight for longer or larger office layouts. Can also be used as a coupler between jumpers.

## Features Offered on HON Laminate Casegoods

HON

	Park Avenue	Valido	10700	10500	94000
<b>Worksurfaces</b>					
• Scratch, stain and spill-resistant surface over durable 1/8" solid core high performance particleboard	•		•	•	
• Scratch, stain and spill-resistant surface over extra-thick 1/2" solid core high performance particleboard		•			
• Scratch, stain and spill-resistant high gloss surface over durable 1/8" solid core high performance particleboard					•
• Contoured hardwood accent trim			•		•
• User-friendly waterfall-shaped edges and rounded corners improves worker comfort			•		
• Edge profile options	•				
<b>Chassis Construction</b>					
• European-designed fastening system – Precision, metal-to-metal, fasteners eliminate need for external cleats or exposed screws; enables tops or end panels to be interchanged or replaced	•	•	•	•	•
• Inner frame constructed using mortise and tenon joinery for superior structural strength and precisely positioning/securing the pedestal to the modesty panel; endures frequent moving/handling; ensures a longer product life cycle.		•	•	•	•
• All fasteners and dowels are positioned by computer to maintain rigorous dimensional standards	•	•	•	•	•
• End panels on base units and stack-ons feature PVC bottom edge banding for added strength and to seal out moisture	•	•	•	•	•
<b>Drawer Construction</b>					
• Steel ball-bearing drawer suspensions for smooth, quiet, long-lasting operation	•	•	•	•	•
• 5-sided drawer construction for added strength and easy alignment or replacement of drawer fronts	•	•	•	•	•
• Full extension box and file drawers	•	•	•	•	•
• Hangrails provided in all file drawers for side-to-side letter, legal, A4 or EDP filing; and front-to-back for letter filing	•	•	•	•	•
<b>Amenities</b>					
• Conference overhang (select models) provides visitor's kneespace on approach side of desk for meetings	•	•	•	•	•
• Formal, full height modesty panels	•	•	•	•	•
• Open modesty panel option on credenza and return shells provides easy access to wall electrical outlets		•	•	•	
• Patented, side-mounted drawer handles provide good ergonomics and uncluttered appearance			•	•	
• Antique brass drawer handles					•
• Drawer/door handle design and finish options	•	•			
• Vertical grain direction on drawer fronts and modesty panels	•				•
• Upscale mixed material door options (select models)	•	•	•	•	•
• Adjustable hex leveling glides to level furniture without lifting	•		•	•	•
• Pullout reference/writing shelf provides additional worksurface space					•
• Interchangeable lock cores (allow multiple units to be keyed alike)	•	•	•	•	•
• Central locking on desks (one lock secures all drawers)					•
• Cord management to route and hide wires and cables	•	•	•	•	•
• Desktop grommets accommodate HON power/data accessories	•	•	•	•	
<b>Configuration Options</b>					
• Components for efficient "U" and "L" shaped workstation layouts	•	•	•	•	•
• Corner desks	•	•	•	•	
• Standing, 42"H desking solutions				•	
• Overhead storage frees up worksurface space	•	•	•	•	•
• Overheads sized to span multiple base units	•	•	•	•	•
• Reception station/transaction counter	•	•	•	•	•
• Light scale styling, including worksurface components with O-leg supports				•	
• Two-tone color options		•		•	
<b>Storage Options</b>					
• 3/4 pedestals provide increased budget flexibility		•	•	•	
• Full desktop-to-floor pedestals maximize storage space	•	•	•	•	•
• Modular components/storage with precise, custom cabinet-like fits	•				
• Modular shells w/ a variety of storage-pedestal solutions		•	•	•	
• Mobile storage pedestals	•	•	•	•	
• Storage/wardrobe cabinets	•	•	•	•	•
<b>Companion Products</b>					
• Matching conference tables	•	•		•	•
• Coordinating conference tables			•		
<b>Endorsements</b>					
• Meets or exceeds current ANSI/BIFMA and ISTA standards	•	•	•	•	•
• Meets SCS Indoor Advantage Certification (see page 10).	•	•	•	•	•
• level® certified in conformance with the BIFMA e3 furniture sustainability standard	•	•	•	•	•

### Edge Profiles

Tops have both shaped and flat edges (except for conference tables). Flat edges allow side-by-side placement of worksurfaces without gaps. The tops of desks, peninsulas and the reception station/transaction counter are shaped on the user's side and the approach side.

Return, credenza, bridge, corner unit, stack-on storage, wall mounted storage cabinet, mobile pedestal, lateral file, storage cabinet, bookcase hutch, bookcase, end cap bookshelf, storage/file cabinet, storage cabinet/lateral file, wardrobe/storage cabinet, modular return, modular credenza and tower bookcase tops are shaped on the user's side.

The tops of conference tables are shaped on all sides.

### Edge Options:

Beaded Edge

### Edge Options:

Beaded Edge "B"

Double-Crest Edge "E"

Tri-Oval Edge "V"

### Drawer/Door Handles

Park Avenue Collection® handles are designed to be easy to grasp. Handles are metal and are located on all pedestal drawer fronts and lateral files. Handles are also on the doors of the storage cabinet, storage/file cabinet with laminate door, storage cabinet/lateral file with laminate doors and wardrobe/storage cabinet. Handles are not used on stack-on or wall mounted storage, or frosted/nickel door units.

Handles are available in three finishes: Black, Brushed Brass, and Satin Nickel. Alpha designators are shown above.

### Drawer/Door Handle Options:

### EXAMPLES OF HOW TO SPECIFY

**Desks, credenzas, returns, mobile pedestals, lateral files, storage cabinet with doors, storage / file cabinet with laminate door, storage cabinet / lateral file with laminate doors, and wardrobe / storage cabinets —**

SPECIFY: Model #.Edge.Handle.Laminate

EXAMPLE: HPC203D.B.A.HH

**Bullet peninsulas, stack-on storage, wall mounted storage cabinets, reception station / transaction counter, bookcase hutches, bookcases, end cap bookshelves, storage cabinet / lateral file with frosted doors, and tower bookcases —**

SPECIFY: Model #.Edge.Laminate

EXAMPLE: HPC100X.B.HH

**\*Jetty and boomerang peninsulas, bridges, corner units, modular credenza top/back components, modular return top/back components, and modular extended corner unit top/back/end panel components —**

SPECIFY: Model #.Edge.Grommet.Laminate

EXAMPLE: HPC130R.B.A.HH

**\*NOTE:** The above products do not have a handle option. They do, however, have a top grommet that requires color specification. Consequently, for these products, the handle designator field becomes a grommet finish designator.  
For grommet finish, A = Black; B = Brushed Brass; C = Satin Nickel.

\*NOTE: The jetty and boomerang peninsulas, bridges, corner units, modular credenza top/back components, modular return top/back components, and modular extended corner top/back/end panel components do not have a handle option. They do, however, have a top grommet that requires color specification. Consequently, for these products, the handle designator field becomes a grommet finish designator. For grommet finish, A = Black; B = Brushed Brass; C = Satin Nickel.

**HOW TO SPECIFY**

Note: Color specification requires two characters, except for the following which require one color code character only:

- modesty panels (for peninsulas)
- modular pedestals
- modular end panels
- shared 10500 Series™ solutions (transaction counter organizer, vertical paper manager)
- laminate center drawers

**Conference Overhang Dimensions**

**Bow Front,  
Recessed Modesty Panel**  
72"W x 36"D Models:  
HPC023D, HPC023R, HPC023L

**Rectangle,  
Recessed Modesty Panel**  
72"W x 36"D Models:  
HPC027D, HPC027R, HPC027L

**Styling**

Park Avenue Laminate combines the sophisticated style of Park Avenue Veneer with the hard-working attributes of laminate. The upscale design features clean form with uninterrupted, rigid lines, sweeping curves and precise fits. Tops are available in three different edge profiles / shapes. The edge detailing conveys the beauty of real wood but offers superior durability. Drawer / door handles can be specified from three designs and three finishes. The insert for worksurface cord grommet covers is color matched to drawer / door handle finishes. All desk, credenza, and return models feature full-to-the-floor pedestals to maximize storage space and formal, full-length modesty panels. All vertical components, including drawer and door fronts, modesty panels, and stack-on storage enclosures have vertical grain. The option of frosted / nickel doors and modesty panel provides an attractive blend of materials and an enhanced look.

**Materials / Construction**

Tops and end panels are scratch- and stain-resistant laminate over durable 1 1/8" solid core high-performance particleboard. Profiled and flat edges are scuff and impact resistant. Laminate surfaces are designed to withstand the daily wear-and-tear in today's offices, including hot and cold spills. The chassis is constructed with European-designed fasteners, enabling the tops or end panels to be replaced, if necessary. These strong metal-to-metal connections ensure a long life cycle. All fasteners are positioned by computer to maintain rigorous dimensional standards and precise positioning. Drawers operate on steel ball-bearing suspensions for smooth, quiet, long-lasting operation.

**Storage in Desks**

Pencil/media/file pedestals store and organize CD's, in addition to conventional supplies and paper media. The top drawer holds supplies. The middle drawer features a media organizer to hold blank CD's (flat storage), standard and slim profile CD jewel cases, VHS tapes, 3 1/2" or Zip® disks, and other miscellaneous items. The organizer stores CD jewel cases in the "label up" position for easier identification and cataloging. The media organizer can be easily removed so drawer can be re-purposed for other storage needs. The organizer features legs for angled positioning on desktops or in HON stack-on storage units. The bottom drawer is for files and includes hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.

File/file pedestals accept hanging folders; hangrails are included in all drawers, for side-to-side letter or legal filing; and front-to-back for letter filing.

**Cord Management**

Park Avenue Laminate is designed with a host of cord management features. Worksurface grommets route and hide wires and cables. The sides / end panels of desk, credenza and return storage pedestals are designed with a cord pass-through grommet to allow connections between workstations. And, all return, bridge and credenza modesty panels contain a cord pass-through to facilitate reaching wall electrical outlets.

**Security**

Interchangeable core removable locks are located on the front of all desk, credenza and return pedestals, mobile pedestals, lateral files, storage/file cabinet and storage cabinet/lateral file with laminate doors, and the wardrobe/storage cabinet. All drawers / doors on these units are equipped with a removable cylinder that can be interchanged as needed, allowing users to access all furniture pieces in an office with a single key for convenience and security. Makes re-keying quick and easy.

**Product Performance**

All models meet or exceed ANSI/BIFMA and ISTA performance standards.

Components used are listed on pages 131-149. Order components individually.  
Other configurations are possible, including various sizes of some components.

- Upscale design with clean, uninterrupted lines, precise fits, and vertically matched woodgrain.
- Tops are available in three decorative, durable edge designs (see page 127).
- Drawer / door handles are available in three styles and three finishes (see page 127).
- Media drawer can be used to store CD's or conventional supplies.
- For components that can be shared with Park Avenue Laminate Series, see pages 133-140.
- Tops are abrasion- and stain-resistant laminate over durable 1 1/8" solid core high-performance particleboard; resists warping.
- Full-to-the-floor pedestals maximize storage space.
- Formal, full-height modesty panels feature vertical woodgrain direction.
- Drawers operate on steel ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- File drawers extend fully and include hangrails for side-to-side letter and legal filing; and front-to-back for letter filing.
- Drawer fronts have vertical woodgrain and are matched in sets to assure continuous grain pattern.
- Cord management grommets facilitate routing and hiding wires/cables and reaching wall electrical outlets.
- Desk, return and credenza models ship assembled.

Park Avenue Collection® Laminate Wood Desks

GSA SIN 711-2

Edge Detail

- For components that can be shared with Park Avenue Collection Laminate Series, see pages 133-140.
- Tops are abrasion- and stain-resistant laminate over durable 1½" solid core high-performance particleboard; resists warping.
- Full-to-the-floor pedestals maximize storage space.
- Formal, full-height modesty panels feature vertical grain direction.
- Drawers operate on steel ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- File drawers extend fully and include hangrails for side-to-side letter and legal filing; and front-to-back for letter filing.
- Drawer fronts have vertical woodgrain and are matched in sets to assure continuous grain pattern.
- Cord management grommets facilitate routing and hiding wires/cables and reaching wall electrical outlets.
- For Park Avenue Collection Laminate matching Conference Tables, see page 149.
- ⚠ **Removable lock core kit for desks, credenzas, returns, lateral files, storage cabinets, wardrobes, mobile and modular pedestals is model HF23B, see page 684.**

Description	Model	Ship Weight	Cube	List
<b>Credenza with Storage</b> 72"W x 24"D x 29"H  NOTES: Four file drawers, 2-left, 2-right. All drawers lock. Doors are non-locking. Cabinet includes one adjustable shelf. Cord management grommets in back and in sides of pedestals. See page 135 for optional stack-on storage.	<b>HPC200D</b>	349	35.6	\$2249

<b>Credenza with Kneespace</b> 72"W x 24"D x 29"H 66"W x 24"D x 29"H 60"W x 24"D x 29"H  NOTES: Four file drawers, 2-left, 2-right. All drawers lock. Icon Legend on page 10

► Shared components shown on this page can be used with full pedestal models shown on pages 131-132 and modular components shown on pages 141-148.

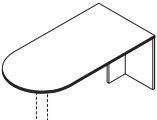

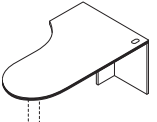

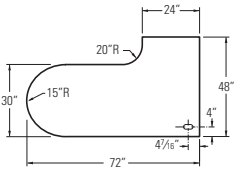

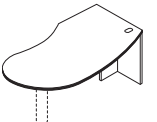

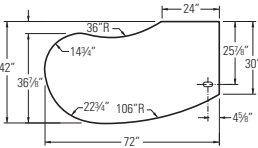

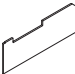

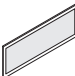

► Jetty and Boomerang peninsulas are designed and sized to efficiently serve as both a computing and conferencing space.

► Adjustable hex leveling glides allow floor-standing furniture to be easily leveled; glides have 3/4" adjustable range.  
► Field installable modesty panel for peninsulas is available in laminate or frosted/silver.

► Mobile pedestals shown on page 137 work well in a variety of configurations.  
► For stack-on and wall mounted storage options, see pages 135-136.

⚠ **Support column must be specified for peninsulas; column is sold separately.**

# Park Avenue Collection® Shared Components and Accessories

GSA SIN 711-2

# HON

- Shared components shown on this page can be used with modular components shown on pages 141-148.
- Formal, full-height modesty panels feature vertical woodgrain direction.
- Cord management grommets for routing and hiding wires and cables.
- See stack-on and wall mounted storage options on pages 135-136.
- Mobile pedestals shown on page 137 work well in a variety of configurations.

	Description	Model	Ship Weight	Cube	List
	Bridge (Single Ped. Desk, or Peninsula (Bullet, Boomerang, Jetty) to Corner Unit, Single Ped. Credenza or Modular Credenza)				
	48"W x 24"D x 29"H, (Clear inside depth = 22 <sup>7</sup> / <sub>8</sub> "D)	HPC402X E♦A	78	4.1	\$ 449
	42"W x 24"D x 29"H, (Clear inside depth = 22 <sup>1</sup> / <sub>8</sub> "D)	HPC403X E♦A	70	3.6	\$ 427
	Bridge (for use with Corner or Extended Corner Units and Boomerang and Jetty Peninsulas)				
	36"W x 24"D x 29"H, (Clear inside depth = 22 <sup>7</sup> / <sub>8</sub> "D)	HPC404X E♦A	66 	3.2	\$ 419
	Bridge (for use with Corner or Extended Corner Units and Jetty Peninsulas)				
	30"W x 24"D x 29"H, (Clear inside depth = 22 <sup>7</sup> / <sub>8</sub> "D)	HPC405X E♦A	58	2.8	\$ 419
	NOTES: Bridges are for "U" station layouts. Cord management grommet in top and back. Kneespace of desk is limited to 26 <sup>3</sup> / <sub>4</sub> " if bridge is used with 66"W single pedestal desk. For full access to wall electrical outlets, the bridge top can be used without the modesty panel component. Grain direction on top runs front-to-back.				

Corner Unit	24" x 36" x 36" x 24" x 29"H	HPC153X	138	26.7	\$ 852
NOTES: Can be used freestanding. One cord management grommet in top; cord routing notches in the leg panels. Can be used to achieve a 6' x 6' footprint when connected to two 36"W modular returns. Accepts stack-on storage model HPC507W/HPC507K/HPC507G.					
 Intended for use with 24"D x 29"H returns or bridges.					

**NOTE: See pages 133 through 140 for shared components.**

How to specify	1st Option	2nd Option	3rd Option
<b>Select Model Number from above</b>	<b>Select Edge Profile</b> See page 127	<b>Select Grommet Finish</b> See page 127	<b>Select Laminate</b> See pages 70-71
<b>H   P   C   4   0   2   X   .</b>	<b>B   .</b>	<b>A   .</b>	<b>H   H  </b>

➤ Shared components shown on this page can be used with full pedestal models shown on pages 131-132 and modular components shown on pages 141-148.  
➤ For Task Light models see page 148.

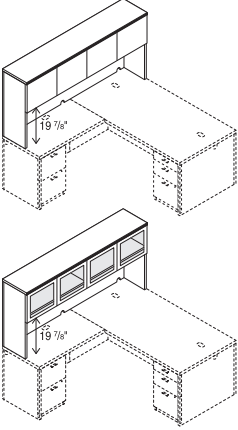

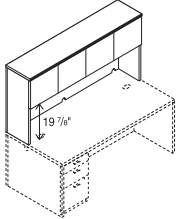

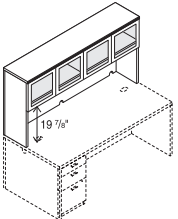

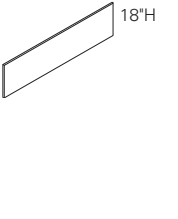

➤ Stack-ons provide convenient off-the-worksurface storage without consuming valuable floor space.  
➤ Stack-on storage units have an enclosed back. Back features cutouts to facilitate routing cords and reaching wall electrical outlets.

➤ Stack-on storage models are equipped with self-closing, adjustable hinged doors and valance to hide task light.  
➤ Available with laminate doors or frosted doors with silver frame.  
➤ Stack-on storage units ship fully assembled.

➤ Vertical paper manager (HLVPM1) is available as an option. See page 139.  
➤ Tackboard is sized 3/4" narrower than back panel of stack-on storage unit, allowing 3/8" on each side to route task light cord.

⚠ **Frosted door units do not have a lock option.**  
⚠ **Removable lock core kit for stack-on and wall mount storage is model HF27, see page 684.**

	Description	Model	COM	Ship Weight	Cube	List
	<b>Stack-on Storage for an "L" Shaped Workstation</b> 78"W x 14 3/4"D x 37 1/8"H, Laminate Doors, Enclosed Back	<b>HPC500W</b>		218	33.0	\$1529

# Park Avenue Collection® Shared Components and Accessories

GSA SIN 711-2

# HON

- Wall mounted storage cabinet attachment requires individual cabinets be secured by a minimum of two wall mounting locations/studs.
- Wall attachment methodology: horizontally mounted, interlocking brackets.

- Wall mounted storage cabinet door design overlaps end panels so that when multiple units are placed side-by-side they appear as one continuous unit.
- Wall mounted storage cabinets are designed for interior and perimeter walls that are constructed with wood or metal studs.

- Available with laminate doors or frosted doors with silver frame.
- End cap bookshelf is ideal for books, photos and mementos.
- Vertical paper manager (HLVPM1) is available as an option. See page 139.

- ⚠ **Frosted door units do not have a lock option.**
- ⚠ **The HON Company is not responsible for any liabilities resulting from wall mounted storage cabinets that are not properly installed.**

- ⚠ **Removable lock core kit for stack-on and wall mount storage is model HF27, see page 684.**

## Description

### Wall Mounted Storage Cabinet, Laminate Doors

- 48"W x 14<sup>3</sup>/<sub>4</sub>"D x 17<sup>3</sup>/<sub>8</sub>"H, 3 doors (Use task light model HH870942, see page 148)
- 42"W x 14<sup>3</sup>/<sub>4</sub>"D x 17<sup>3</sup>/<sub>8</sub>"H, 2 doors (Use task light model HH870942, see page 148)
- 36"W x 14<sup>3</sup>/<sub>4</sub>"D x 17<sup>3</sup>/<sub>8</sub>"H, 2 doors (Use task light model HH870930, see page 148)
- 30"W x 14<sup>3</sup>/<sub>4</sub>"D x 17<sup>3</sup>/<sub>8</sub>"H, 2 doors (Use task light model HH870930, see page 148)

<b>HPC524K</b>	87	9.9	\$ 838
<b>HPC525K</b>	73	8.5	\$ 801

NOTES: Tackboard widths differ slightly from wall mounted storage cabinet widths. For applications where multiple wall mounted storage cabinets are placed side-by-side, the preferred tackboard solution may be to utilize a larger tackboard size. For example, H90057 = 75"W; H90056 = 68<sup>3</sup>/<sub>4</sub>"W; H90055 = 62<sup>3</sup>/<sub>4</sub>"W; H90054 = 56<sup>3</sup>/<sub>4</sub>"W. See pages 135 and 148 for available tackboard sizes.

- ▶ Versatile mobile pedestals work well in a variety of configurations. Profiled front edge only with a square, non-profiled edge on sides and back.
- ▶ Drawers operate on steel ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- ▶ Drawer fronts have vertical woodgrain and are matched in sets to assure continuous grain pattern.
- ▶ Hangrails are provided in all file drawers for side-to-side letter and legal filing; and front-to-back for letter filing.
- ▶ Media drawer can be used to store CD's or conventional supplies.
- ▶ Storage cabinet with doors supports flat screen television displays; cord pass-through grommet in back panel allows placement of DVD/VCR inside cabinet.
- ▶ Adjustable hex leveling glides allow floor-standing furniture to be easily leveled; glides have 1/4" adjustable range.
- ▶ Locking units equipped with interchangeable core removable locks unless otherwise noted. Allows multiple units to be keyed alike and makes re-keying quick and easy.
- ▶ Bookcase hutches have one fixed and two adjustable shelves which adjust in 1 1/4" increments.
- ▶ Conference tables shown on page 149.

△ **Keyed alike cores must be ordered separately — see model HF23B on page 684 — makes re-keying quick and easy.**

	Description	Model	Ship Weight	Cube	List
	Mobile Pedestal (with core removable lock) — file/file 15 3/4"W x 22 3/4"D x 27 1/2"H NOTES: File drawers include hangrails. △ <b>Profiled front edge only, non-profiled edges on back and sides.</b>	HPC614X	81	8.4	\$ 934
	Mobile Pedestal (with core removable lock) — pencil/media/file 15 3/4"W x 22 3/4"D x 27 1/2"H NOTES: Top drawer includes a pencil tray and middle drawer features a removable media organizer with legs that can also be used on desktops or stack-on storage. Bottom file drawer includes hangrails to accept hanging folders in letter or legal size. △ <b>Profiled front edge only, non-profiled edges on back and sides.</b>	HPC613X	116	8.4	\$ 979

- Modular components enable office layout flexibility and provide a broad menu of storage solutions to choose from.
- Applications include the ability to build contiguous, personalized behind-the-desk storage and to choose the type of storage for credenzas and returns.
- Pedestals are non-handed and easy to arrange or re-configure.
- Under worksurface pedestals can support the end of component surface tops.
- The depth of pedestals is 3/4" less than the depth of the component tops to accommodate the back/modesty panel.
- All modular pedestals (except the storage cabinet pedestal) are equipped with interchangeable core removable locks. See page 684.
- End panels support the end of a component top when there is no modular pedestal.
- Filing capabilities on modular pedestals: side-to-side letter and legal filing; or front-to-back for letter filing.
- The depth of end panels are 3/4" less than the depth of the component tops to accommodate the back/modesty panel.

# Park Avenue Collection® Laminate Desks Modular Components

GSA SIN 711-2

HON

- Modular return top components have a shaped edge profile on the user's side (see page 127 for edge options).
- Component tops are 1<sup>1</sup>/<sub>8</sub>" thick.

- Drawer and door fronts, backs/modesty panels and stack-on storage, feature vertical woodgrain.
- Component backs/modesty panels provide finished back for modular pedestals or an enclosed kneewell.

- The depth of end panels are 3<sup>3</sup>/<sub>4</sub>" less than the depth of the component tops to accommodate the modesty panel.
- Top/back components feature cord management grommets to facilitate routing and hiding wires/cables and reaching wall electrical outlets.
- For wall mounted storage cabinet options see page 136.

⚠ For customers who wish to specify their storage solutions, see storage pedestal options on page 141. End panel is required if there is not a modular storage pedestal to support the top (see page 146).

⚠ Modular return top/back components must be used in conjunction with either modular storage pedestal(s) or an end panel component.

	Description	Model	Ship Weight	Cube	List
	<b>Return Top and Back Panel Components</b> Rectangle Top: 36"W x 24"D; one cord pass-through grommet Back/Modesty Panel: 36"W x 27 <sup>3</sup> / <sub>8</sub> "H; one cord pass-through grommet  NOTES: Can be used to achieve an efficient 6' x 6' "L" shaped layout when connected to: – 36"D single pedestal desk with rectangle top. – 36"D bullet peninsula with support column. – 36"D extended corner modular components with either a 15 <sup>11</sup> / <sub>16</sub> "W storage pedestal or a 23"D end panel. – 36" corner unit (requires two 36" return top/back components). - Stack-on storage sizes are available for modular credenza and modular return components.
- Stack-ons provide convenient off-the-worksurface storage without consuming valuable floor space.

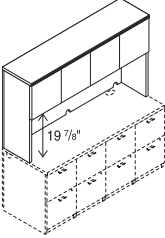

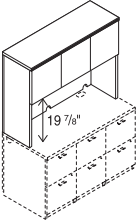

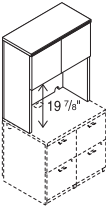

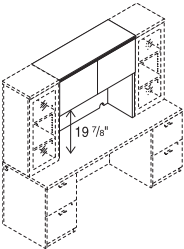

- Stack-on storage units ship fully assembled.
- Stack-on storage units have an enclosed back. Back features cutouts to facilitate routing cords and reaching wall electrical outlets.
- Available with laminate doors or frosted doors with silver frame.

- Stack-on storage models are equipped with self-closing, adjustable hinged doors and a valance to hide task light.
- Tackboard is sized  $\frac{3}{4}$ " narrower than back panel of stack-on storage unit, allowing  $\frac{3}{8}$ " on each side to route task light cord.

- For fabric covered tackboards, task lights and tower bookcases, see page 148.
- Vertical paper manager (HLVPM1) is available as an option. See page 148.

- ⚠ **Frosted doors do not have a lock option.**
- ⚠ **Removable lock core kit for stack-on and wall mount storage only is model HF27, see page 684.**

----------------	---	---	--

- Choose from standard or tops with cord/power cutouts.
  - If the cut-out option is selected, 144"L and 120"L tops have two cutouts each and 96"L, 72"L, 48" round and 42" round have one cut-out, centered in the top. Each cutout carries a \$70 upcharge.
  - Tops and bases ordered separately and shipped in separate cartons, **E** **⬢**.
  - 120"L and 144"L tops ship in two pieces to facilitate handling and installation; these top sizes in woodgrain colors will not have exact grain alignment in the center where the two halves meet.
  - 96" and 72"L tops are one piece.
  - Tops with bases are 29 1/2"H.
  - Tops are abrasion- and stain-resistant laminate over 1 1/8" thick solid core high-performance particleboard.
  - Tops are shaped on all sides.
  - Durable, profiled edges.
  - Underside of tops are sealed to resist warping.
  - Two piece tops are secured and supported by steel or wood stretchers, worksurface connectors and flat brackets to facilitate alignment and minimize deflection.
  - Underside of tops feature alignment guide for base placement.
  - Pop-up Port, model HTPWRGROM1 and Flip-top Port, model HTPWRGROM2 must be purchased separately.
  - Flip-top Port option is not available with round tops; Pop-up Port only.
  - Optional cutouts are available to accommodate power ports. One centered cutout per top section.
- ⚠ **For table base options, use listings on pages 598-601.**

# Valido® Laminate Modular Desks

GSA SIN 711-2

# HON

- Non-handed desk, credenza, and return shells, combined with a variety of under-the-worksurface storage solutions, maximize office layout flexibility. Shells and pedestals can be reconfigured quickly and easily when user preferences or space needs change.

- For storage components see pages 155-156.
- Tops are abrasion- and stain-resistant laminate over extra-thick 1½" solid core high-performance particleboard; resists warping.
- "Ribbon" edge profile; shape is on all four sides.
- Full height modesty panels.

- Cord management grommets, for routing and hiding wires and cables, are located in the tops of desk and return shells.
- 3" round worksurface grommet can be replaced with optional Power Hub (model HGRMTAC) to bring the ease of plug-and-play to the desktop. See page 228.
- Credenza shells have a cord pass-through grommet in the top center of the modesty panel.

- The narrow design of the kneespace clearance end panel kits replace full end panels to provide added kneespace.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled; glides have ¾" adjustable range.
- For conference table options, see the Preside® table tops and bases on pages 596-601. Order edge option "K".

- Non-handed desk, credenza, and return shells, combined with a variety of under-the-worksurface storage solutions, maximize office layout flexibility. Shells and pedestals can be reconfigured quickly and easily when user preferences or space needs change.
- For storage components see pages 155-156.
- Tops are abrasion- and stain-resistant laminate over extra-thick 1½" solid core high-performance particleboard; resists warping.
- "Ribbon" edge profile; shape is on all four sides.
- Cord management grommets, for routing and hiding wires and cables, are located in the tops of desk and return shells.
- Credenza shells have a cord pass-through grommet in the top center of the modesty panel.
- The narrow design of the kneespace clearance end panel kits replace full end panels to provide added kneespace.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled; glides have ¾" adjustable range.
- Credenza Shells available with Full or 10" Modesty Panel options.
- For conference table options, see the Preside® table tops and bases on pages 596-601. Order edge option "K".

<b>Kneespace Clearance End Panel Kits (field installable)</b>						
1⅞"W x 11¼"D x 28⅞"H			H105098 E♦A	13	0.9	\$ 189
For use at either end of Valido, 10500 or 10700 Series™ 24"D Credenza Shells (with full or 10" modesty panel) or non-pedestal end of single pedestal credenzas or credenzas with lateral files.						
1⅞"W x 17¼"D x 28⅞"H			H105099 E♦A	11	0.8	\$ 198
For use at either end of Valido, 10500 or 10700 Series™ 30"D Desk Shells or non-pedestal end of 30"D single pedestal desks.						
Kits include: (1) support panel; European fastening hardware; flat connector bracket; joint connector bolts with sleeve nuts (for ganging credenza to adjacent worksurface); and adjustable leveling glides. Allows conversion of units currently in the field.						
NOTES: Can be used to connect up to three 24"D credenzas or 30"D desks in line (requires 4 kits).						
⚠ <b>Not designed to be used freestanding. Not designed to be used with returns, 36"D desks or desk shells.</b>						
<b>SPECIFYING EXAMPLE: H105098.N</b>

- ▶ Pedestals can be reconfigured quickly and easily when user preferences or space needs change.
- ▶ File drawers accept hanging folders in letter or legal size.
- ▶ Narrow pedestal features a compact design that is ideal for use in U- and L-shaped layouts for smaller spaces, such as a 5' x 8' U-shaped workstation or a 5' x 5' L-shaped workstation.
- ▶ Pedestal drawers operate on full-extension, ball-bearing suspensions to ensure smooth quiet, long-lasting operation.
- ▶ Handle options shown on page 152.
- ▶ Pedestal sides are notched to enable the routing of cords and cables.
- ▶ Mobile pedestals shown on page 166, work well in a variety of configurations.
- ▶ Pedestal models ship assembled unless designated **E** or **A**.
- ▶ Modular pedestals to be used with 24"D, 30"D and 36"D Modular Shells.
- ▶ Pedestal models not designed to be used freestanding.

- For components that can be shared with Valido/11500 Series, see pages 161-172.
- Tops are abrasion- and stain-resistant laminate over extra-thick 1½" solid core high-performance particleboard; resists warping.
- 3/4 pedestal design increases budget flexibility.
- Formal, full height modesty panels.
- All drawers are 5-sided construction, which allows easy drawer alignment or replacement of drawer fronts.
- The small footprint of the Small Office Desk is ideal for limited space.
- Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- See page 152 for handle design/finish options.
- Center drawers conveniently store writing instruments, paper and other miscellaneous items. Includes pencil tray. See page 171.
- File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.
- Desk, credenza and return models ship assembled.
- See page 163 for optional stack-on storage.
- For conference table options, see the Preside® table tops and bases on pages 596-601. Order edge option "K".

## Valido® Laminate Wood Desks — 3/4 Pedestals

GSA SIN 711-2

HON

► For components that can be shared with Valido/11500 Series, see pages 161-172.

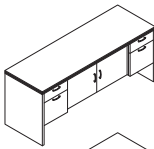

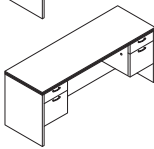

► Tops are abrasion- and stain-resistant laminate over extra-thick 1½" solid core high-performance particleboard; resists warping.

► Formal, full height modesty panels.  
► Cord management grommets, for routing and hiding wires and cables, are located in the tops of desks, returns, bridges and corner units.

► All drawers are 5-sided construction, which allows easy drawer alignment or replacement of drawer fronts.  
► Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.  
► See page 152 for handle design/finish options.

► File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.  
► For conference table options, see the Preside® table tops and bases on pages 596-601. Order edge option "K".

ABJ Level ONE KEY ⚠ Icon Legend on page 10

- Shared components shown on this page can be used with modular components shown on pages 152-156, full pedestal models shown on pages 157-158, and 3/4 pedestal models shown on pages 159-160.
- Mobile pedestals shown on page 166 work well in a variety of configurations.
- Peninsulas ship complete with end panel and black 4 1/2" diameter support column. For a silver support column option, please see model HPC191X on page 133 (ordered separately).
- Jetty, Boomerang and Rudder peninsulas are designed and sized to efficiently serve as both a computing and conferencing space.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled; glides have 3/4" adjustable range.
- For conference table options, see the Preside® table tops and bases on pages 596-601. Order edge option "K".

	Description	Model	Ship Weight	Cube	List

	72"W x 36/30"D x 29 1/2"H, Left	H11526L E♦A	163	13.4	\$1034
	NOTES: Use for "U" or "L" configuration. 60"W ideal for smaller spaces. Cord routing notch in brace panel. Accept field installable modesty panel model H10528 (see below). See page 171 for optional center drawers. Peninsulas ship complete with end panel and support column. Support column is black. ⚠ Not designed to be used freestanding.				
	Jetty Peninsula w/End Panel 72"W x 30/42"D x 29 1/2"H, Right (shown)	H115201R E♦A	179	16.9	\$1199
	72"W x 42/30"D x 29 1/2"H, Left	H115202L E♦A	179	16.9	\$1199
	NOTES: For use in "U" or "L" configuration. Designed and sized to efficiently serve as both a computing and conferencing space. One cord management grommet in the top; cord routing notch in brace panel. Jetty units manufactured on or after 10/24/2005 accept field installable modesty panel H10528 (see below). Peninsulas ship complete with end panel and support column. Support column is black. ⚠ Not designed to be used freestanding.				
	Boomerang Peninsula w/End Panel 72"W x 30/42"D x 29 1/2"H, Right (shown)	H115203R E♦A	176	16.9	\$1199
	72"W x 42/30"D x 29 1/2"H, Left	H115204L E♦A	176	16.9	\$1199
	NOTES: For use in "U" or "L" configuration. Designed and sized to efficiently serve as both a computing and conferencing space. One cord management grommet in the top; cord routing notch in brace panel. Accepts field installable modesty panel H10528 (see below). Peninsulas ship complete with end panel and support column. Support column is black. ⚠ Not designed to be used freestanding.				
	Rudder Peninsula w/End Panel 72"W x 30/38"D x 29 1/2"H, Right	H115205R E♦A	168	16.8	\$1131
	72"W x 38/30"D x 29 1/2"H, Left	H115206L E♦A	168	16.8	\$1131
	NOTES: Use for "U" or "L" configuration. One cord management grommet in the top; cord routing notch in the brace panel. Support column is black. ⚠ Not designed to be used freestanding.				
	Field Installable Modesty Panel for Peninsulas 50 1/4"W x 3/4"Thick x 18"H	H10528	25	1.3	\$ 166
	NOTES: Center drawer model H1522 can be used in conjunction with modesty panel. Laminate Modesty Panel has a cord pass-through notch in top corner. ⚠ Not designed to be used on jetty peninsulas manufactured prior to 10/24/2005. SPECIFYING EXAMPLE: H10528.N				
	Field Installable Modesty Panel for Bullet, Jetty and Boomerang Peninsulas, Frosted with Silver Frame 50 1/4"W x 3/4"Thick x 18"H	HPC180G	33	1.5	\$ 618
	NOTES: For use on 72"W peninsulas. Frosted/silver modesty panel HPC180G can be used with Valido, 10700, 10600 and 10500 Series™ peninsula models. Cord pass-through notch is not available on the Frosted/Silver model HPC180G. Notch is on laminate model H10528 only. ⚠ Center drawers not designed to be used with the frosted/silver modesty panel model HPC180G.				

NOTE: See pages 161 through 172 for shared components.

	Two field installable end panels (1-right; 1-left) for use in ganging two 10500 or Valido® Series stack-on storage units. See page 215. NOTES: Can be used to connect up to two stack-on storage units in a line (requires 1 kit). Not available in two-tone laminate. <b>SPECIFYING EXAMPLE: H105349.N</b>					

**NOTE: See pages 161 through 172 for shared components.**

How to specify	1st Option	2nd Option
<b>Select Model Number from above</b> <b>H   1   1   5   3   4   .</b>	<b>Select Edge Profile</b> See page 152 <b>A   .</b>	<b>Select Laminate</b> See pages 70-71 <b>N   N  </b>

► Shared components shown on this page can be used with modular components shown on pages 152-156, full pedestal models shown on pages 157-158, and 3/4 pedestal models shown on pages 159-160.

► Back enclosure features full-width 1 1/8" slot at the bottom to facilitate routing cords and reaching wall electrical outlets.  
► Tackboard is sized 3/4" narrower than stack-on storage back enclosure, allowing 3/8" on each side to route task light cord.

► Wall mounted storage cabinet attachment requires individual cabinets be secured by a minimum of two wall mounting locations/studs.  
► Wall mounted storage cabinets are designed for interior and perimeter walls that are constructed with wood or metal studs.

► Wall attachment methodology: horizontally mounted, interlocking brackets.  
► Wall mounted storage cabinet door design overlaps end panels so that when multiple units are placed side-by-side they appear as one continuous unit.

△ **Removable lock core kit for stack-on and wall mount storage is model HF27, see page 684.**

△ **The HON Company is not responsible for any liabilities resulting from wall mounted storage cabinets that are not properly installed.**

## Valido® Shared Components and Accessories

GSA SIN 711-2

HON

- For additional components that can be shared with Valido/11500 Series, see pages 161-172.
- Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- Versatile mobile pedestals work well in a variety of configurations. Can be used freestanding or under modular shells. 1 1/8" thick top with a square, non-profiled edge.
- 24"D two drawer lateral file and 24"D storage cabinet with door models align with 24"D credenzas and returns, credenza and return shells as well as wardrobe/storage cabinets to provide linear layout continuity.
- Mobile printer/fax cart shown on page 156 is ideal for limited space.
- File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled; glides have 3/4" adjustable range.
- For conference table options, see the Preside® table tops and bases on pages 596-601. Order edge option "K".

	Description	Model	Ship Weight	Cube	List
 <i>Right-hand model H115297R shown</i>	<b>Storage/File Cabinet (with core removable locks)</b> 18"W x 24"D x 67"H, Hinged Right (shown)	<b>H115297R</b>	262	22.7	\$1769
	18"W x 24"D x 67"H, Hinged Left	<b>H115298L</b>	262	22.7	\$1769
	NOTES: Versatile unit features a storage cabinet and two file drawers. Storage cabinet includes three shelves, two are adjustable in 2 1/2" increments. Door hinged left or right models available. File drawers operate on ball-bearing suspensions with full extension. File drawers have high sides to accept hanging folders in letter or legal size. Drawers standard with hangrails. Both the storage cabinet and the file drawers are equipped with an interchangeable core removable lock. Unit height is designed to match credenza or return plus stack-on storage height.				
 <i>Doors open 110 degrees from closed position.</i>	<b>Storage Cabinet/Lateral File (with core removable lock)</b> 36"W x 24"D x 67"H	<b>H115293</b>	373	41.0	\$2294
	NOTES: Storage cabinet is standard with one fixed and two full-width adjustable shelves in top compartment; adjustable shelves can be removed. Overall storage compartment measures 31 1/4"W x 22"D x 36 1/8"H and will accommodate supplies, books and binders, as well as business machines and electronic equipment. Cord pass-through gap behind shelves and grommet in back of cabinet to facilitate routing cords and reaching wall electrical outlets. Two drawer lateral file on bottom. Lateral file comes with mechanical interlock and hangrails. Cabinet and lateral file lock independently. Unit height is designed to match credenza or return plus stack-on storage height.				
 <i>Doors open 110 degrees from closed position.</i>	<b>Storage Cabinet w/Doors (with core removable lock)</b> 36"W x 24"D x 67"H	<b>H115299</b>	349	41.0	\$2049
	NOTES: Large capacity storage area includes five, full-width (side-to-side) shelves; three are adjustable in 2 1/2" increments. Unit height matches credenza or return plus stack-on storage height.				
 <i>Right-hand model H115295R shown</i>	<b>Personal Wardrobe/Storage Cabinet (with core removable lock)</b> 18"W x 24"D x 67"H, Hinged Right (shown)	<b>H115295R</b>	227	22.9	\$1529
	18"W x 24"D x 67"H, Hinged Left	<b>H115296L</b>	227	22.9	\$1529
	NOTES: Unit is standard with four adjustable shelves, coat rod, and core removable lock. Shelves adjust in 2 1/2" increments. Unit height is designed to match credenza or return plus stack-on storage height. Cabinet can be used as a wardrobe by removing four adjustable shelves. Coat rod can be removed from cabinet for storage only applications.				
 <i>Doors open 110 degrees from closed position.</i>	<b>Personal Wardrobe/Storage Cabinet (with core removable lock)</b> 36"W x 24"D x 67"H	<b>H11530</b>	349	41.0	\$2241
	NOTES: Spacious design is standard with four adjustable shelves (one shelf is fixed), coat rod and core removable lock which locks both doors. Shelves adjust in 2 1/2" increments. Unit height is designed to match credenza or return plus stack-on storage height.				
 <i>Right-hand model H115301R shown</i>	<b>Personal Storage Tower (with core removable locks)</b> 24"W x 24"D x 67"H, Wardrobe Hinged Right, Storage Cabinet Hinged Left (shown)	<b>H115301R</b>	304	27.9	\$2241
	24"W x 24"D x 67"H, Wardrobe Hinged Left, Storage Cabinet Hinged Right	<b>H115302L</b>	304	27.9	\$2241
	NOTES: Spacious design includes a wardrobe closet, storage cabinet, and two file drawers in one compact unit. Wardrobe closet contains a coat rod. Storage cabinet includes three shelves, two are adjustable in 2 1/2" increments. Door hinged left or right models available. File drawers operate on ball-bearing suspensions with full extension. File drawers have high sides to accept hanging folders in letter or legal size. Drawers standard with hangrails. Equipped with interchangeable core removable locks. Upper lock secures storage cabinet and wardrobe closet doors; lower lock secures file drawers. Unit height is designed to match credenza or return plus stack-on storage height.

Double Radius  
Edge Detail

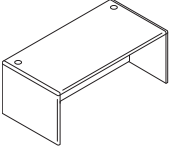

► Desk, credenza, and return shells, combined with a variety of under-the-worksurface storage solutions, maximize office layout flexibility. Products can be reconfigured quickly and easily when user preferences or space needs change.

► Worksurfaces and end panels feature contract-grade scratch, stain and spill resistant laminate over durable 1 1/8" solid core high-performance particleboard; resists warping.  
► Contoured hardwood trim; stained to match laminate.  
► User friendly waterfall-shaped edges and round corners.

► 3" round cord management grommets, for routing and hiding wires and cables, are located in the tops of desk, credenza, and return shells. Grommets also serve as anchor points for stack-on storage and organizers.

► Grommet can be replaced with optional Power Hub for easy plug-and-play. See page 194.  
► Shells utilize 10500 Series™ mobile pedestals or modular pedestals. See pages 208-209.

NOTES: One cord pass-through grommet in top center of modesty panel to reach wall electrical outlets. Wood-grain direction on modesty/back panel runs vertical on 30"W-60"W sizes and horizontal on 72"W unit. Stack-on models H10734 and H10795 are sized to be used on the 72"W return shell. Stack-on model H10732 will work on the 60"W return shell. Stack-on storage model H107313 fits on the 48"W return shell. Stack-on storage model H10734 will work on a 36"W return shell attached to the 36" corner unit; attaches to the return shell through the grommet hole and to the corner unit via double-sided tape. 36"W return shell can be used to achieve a 6' x 6' footprint when connected to either a 72"W x 36"D single pedestal desk, desk shell or peninsula, or when two are connected to a 36" corner unit model H107811.

⚠ All 10700 Series™ grommets on desk, credenza, credenza shell, return, return shell, bridge and corner unit worksurfaces changed from rectangle-shaped to round, effective November, 2011.

# 10700 Series™ Laminate Modular Components

GSA SIN 711-8

# HON

- ▶ Pedestals can be reconfigured quickly and easily when user preferences or space needs change.
- ▶ Locking units equipped with interchangeable core removable locks.

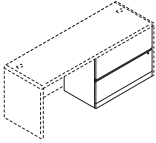

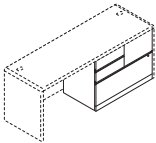

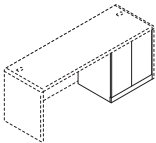

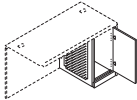

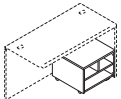

⚠ **Keyed alike cores must be ordered separately — see HF23B on page 684.**

⚠ **Pedestals are not designed to be used freestanding. Unfinished top and back.**

⚠ **Access strip (filler) required when full height pedestals are configured side-by-side to allow access for opening the drawers.**

⚠ **Access strip is required when CPU storage pedestal is used next to B/F, B/B/F, or F/F pedestals (finger pull is on side of door front). See page 179.**

	Description	Model	Ship Weight	Cube	List
	<b>Lateral File Pedestal (with core removable lock) – floorstanding</b> 36"W x 20"D x 28"H — for use under 24"D, 30"D and 36"D desk, credenza and return shells NOTES: Designed for use with credenza or return shells. Hangrails included. Mechanical interlock inhibits extension of more than one drawer at a time. Not for use under 20"D shells. ⚠ <b>Not designed to be used freestanding. Unfinished top and back.</b>	<b>H10503</b>	127	15.6	\$ 945
	<b>Multi File Pedestal (with core removable lock) – floorstanding</b> 36"W x 20"D x 28"H — for use under 24"D, 30"D and 36"D desk, credenza and return shells NOTES: Designed for use with credenza or return shells. Versatile four drawer unit features one lateral file drawer, one vertical file drawer, and two box drawers. Box drawers do not lock. Hangrails included. Mechanical interlock in lateral drawer inhibits extension of more than one drawer at a time. Not for use under 20"D shells. ⚠ <b>Not designed to be used freestanding. Unfinished top and back.</b>	<b>H10505</b>	155	15.6	\$1133
	<b>Cabinet Pedestal – floorstanding</b> 26"W x 21¼"D x 28"H — for use under 24"D, 30"D and 36"D desk, credenza and return shells NOTES: One adjustable shelf at 2½" increments. For use with credenza or return shells. Doors are non-locking. Not for use under 20"D shells. ⚠ <b>Not designed to be used freestanding. Unfinished top and back.</b>	<b>H10508</b>	78	12.2	\$ 703
	<b>CPU Storage Pedestal</b> 13½"W x 22¾"D x 28¾"H — for use under 24"D, 30"D and 36"D desk, credenza and return shells NOTES: Pedestal saves valuable desktop space. Semi-open back facilitates cord management. Casters make accessing computer cables quick and easy. Door and side panels are reversible. Door can be attached for left or right opening and features self-closing adjustable hinges. Non-locking. Inside dimensions of CPU storage compartment: 12"W x 21¼"D x 25"H. Not for use under 20"D shells. ⚠ <b>Not designed to be used freestanding. Unfinished top and back.</b>	<b>H105090 E⚡A</b>	56	3.2	\$ 571
	<b>Mobile Printer/Fax Cart</b> 20"W x 19⅞"D x 14⅞"H NOTES: Holds laser printers, inkjet printers or fax machines. Ideal for limited space. Low profile cart stores conveniently and easily under desks and workstations. Interior compartment shelving is Black. Four casters. Not for use under 20"D shells. <b>Flat edge profile on top.</b> <b>SPECIFYING EXAMPLE: H105679.NN</b>	<b>H105679 E⚡A</b>	52	2.9	\$ 389

Double Radius Edge Detail

- Worksurfaces and end panels feature contract-grade scratch, stain and spill resistant high-pressure laminate over durable 1 1/8" solid core high-performance particleboard.
- Contoured hardwood trim; stained to match laminate.
- User friendly waterfall-shaped edges.
- Full-to-floor pedestals maximize storage space.
- Breakfront modesty panel design on full height pedestal desks. See approach side illustration at left.
- 3" cord grommet can be replaced with optional Power Hub for easy plug-and-play. See page 194.
- All drawers are 5-sided construction, which allows easy drawer alignment or replacement of drawer fronts.
- File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.
- Desk, credenza, and return models ship assembled; ready to set in place.

- Shared components on this page can be used with modular, full pedestal, and 3/4 pedestal models shown on pages 175-184.
  - Credenza with multi file is a versatile four drawer unit featuring two box drawers, one file drawer, and one lateral file drawer with mechanical interlock.
  - Cord management grommets, for routing and hiding wires and cables, are located in the tops of desks, credenzas, and returns. Grommets also serve as anchor points for stack-on storage and organizers.
  - Cord pass-through grommet located in the back/modesty panel of returns, bridges and credenzas, facilitates reaching wall electrical outlets.
  - All drawers are 5-sided construction, which allows easy drawer alignment or replacement of drawer fronts.
  - Locking units equipped with interchangeable core removable locks.
  - Peninsula models H10721 and H10722 ship complete with end panel and black 4 1/2" diameter support column. For a silver support column option, please see model HPC191X on page 133 (ordered separately).
  - Stack-on organizer attaches with two removable mounting brackets.
  - Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.
- ⚠ **Keyed alike cores must be ordered separately — see page 684.**

Icon Legend on page 10

- Shared components on this page can be used with modular, full pedestal, and 3/4 pedestal models shown on pages 175-184.
- Stack-on storage models are equipped with self closing, adjustable hinged doors, and valance to hide task light.

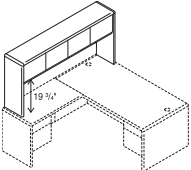

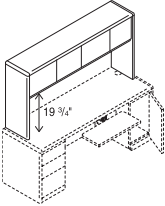

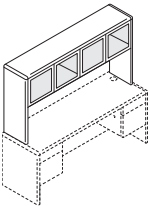

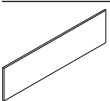

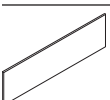

- When spanning the total depth of an L-workstation, stack-on storage attaches to the desk, peninsula or corner unit via double-sided tape, and to the return through the grommet hole.
- Stack-on storage end panels are EDA.

- Stack-on storage and organizers attach with two removable mounting brackets, except for "L" workstation unit.
- Stacked paper management segments and organizes stack-on storage compartments and bookcase shelves. Unit can be used in stack-on storage models H107318 and H10734. See H10734 on page 193.

- Vertical paper manager keeps papers, files, and books neatly organized and within easy reach from a seated position. Fits under stack-on storage models. See page 193.
- Removable lock core kit for locking stack-on storage is model HF27. See page 684.

⚠ Upcharges may apply to premium tackboard fabric grades.

	Description	Model	COM	Ship Weight	Cube	List
	<b>Stack-on Storage for "L" Workstation</b> 74 $\frac{5}{8}$ "W x 14 $\frac{5}{8}$ "D x 37 $\frac{1}{8}$ "H (Use Task Light model H870960, see page 194)	<b>H107318 EDA</b>		198	15.8	\$1143
	<b>Stack-on Storage for "L" Workstation, Locking</b> 74 $\frac{5}{8}$ "W x 14 $\frac{5}{8}$ "D x 37 $\frac{1}{8}$ "H (Use Task Light model H870960, see page 194)	<b>H107318K EDA</b>		198	15.8	\$1223
NOTES: Spans the total depth dimension of configurations comprised of: 48"W return or return shell attached to a 30"D single pedestal desk, desk shell or peninsula (78"D); 42"W return or return shell attached to a 36"D single pedestal desk, desk shell or peninsula (78"D) or 42"W return or return shell attached to a 36" corner unit (78"D). Attaches to desk, peninsula, or corner unit via double sided tape, and to return through grommet hole. Inside storage consists of two compartments each 34 $\frac{3}{4}$ "W x 12 $\frac{1}{8}$ "D x 12"H. Use back enclosure model H107358 and tackboard model H90035. For vertical paper manager, see page 193.

10700 Series™ Shared Components and Accessories

GSA SIN 711-8

- Shared components on this page can be used with modular, full pedestal, and 3/4 pedestal models shown on pages 175-184.
- Broad family of storage components takes organization way beyond the confines of a desk drawer.
  - Pencil/media/file mobile pedestal easily stores CD's and conventional supplies. Media organizer allows CD's to be stored in label-up position.
- Mobile pedestal tops have smooth, flat edges. Units are standard with counterweight and four 2" diameter, non-locking casters.
- Locking units equipped with interchangeable core removable locks.
  - Mobile pedestals, lateral files, storage cabinets, and bookcases ship assembled.

△ **Keyed alike cores must be ordered separately — see model HF23B on page 684 — makes re-keying quick and easy.**

	Description	Model	Ship Weight	Cube	List
	<b>Box/File Mobile Pedestal (with core removable lock)</b> 15¼"W x 22¾"D x 28¾"H — use freestanding or under 24"D, 30"D and 36"D modular shells  NOTES: Top box drawer does not lock. File drawer includes hangrails.	<b>H105102</b>	121	8.5	\$ 773
	<b>File/File Mobile Pedestal (with core removable lock)</b> 15¼"W x 22¾"D x 28¾"H — use freestanding or under 24"D, 30"D and 36"D modular shells  NOTES: File drawers include hangrails.	<b>H105104</b>	121	8.4	\$ 773
	<b>Box/File Mobile Pedestal (with core removable lock)</b> 15¼"W x 18½"D x 21⅞"H — use freestanding or under 20"D, 24"D, 30"D and 36"D modular shells	<b>H105106</b>	65	5.8	\$ 647
	<b>Shelf/Box/File Mobile Pedestal (with core removable lock)</b> 15¼"W x 18½"D x 28¾"H — use freestanding or under 20"D, 24"D, 30"D and 36"D modular shells  NOTES: Interior dimensions of the open storage area of the Shelf/Box/File model are 14⅞"W x 16¾"D x 6⅝"H.	<b>H105109</b>	73	7.3	\$ 712
Mobile pedestals have smooth, flat edges.					
	<b>Lateral File (with core removable lock)</b> 36"W x 24"D x 29½"H — two drawer — matches depth of credenzas and returns 36"W x 20"D x 29½"H — two drawer 36"W x 20"D x 45½"H — three drawer 36"W x 20"D x 59½"H — four drawer  NOTES: Includes hangrails, mechanical interlock and, in H10762 and H107690, a counterweight. Interlock inhibits the extension of more than one drawer from opening at a time. 24"D size aligns evenly with 24"D credenzas, credenza shells, returns, return shells, and wardrobe/storage cabinets to provide linear layout continuity.	<b>H107690</b> <b>H10762</b> <b>H107698</b> <b>H107699</b>	191 168 240 296	18.6 15.6 23.2 31.0	\$1037 \$ 999 \$1538 \$2122
	<b>Lateral File w/Open Shelf (with core removable lock)</b> 36"W x 20"D x 29½"H  NOTES: Open storage area measures 33⅝"W x 18"D x 12"H; accommodates books or binders, as well as business machines and electronic equipment. Also sized to accept optional stacked paper management model HLVPM2. Drawer design includes integrated hangrails for folders. Accepts bookcase hutch H107292.	<b>H107697</b>	220	15.7	\$ 870
	<b>Storage Cabinet with doors (with core removable lock)</b> 36"W x 20"D x 29½"H  NOTES: One adjustable interior shelf.	<b>H107291</b>	144	15.0	\$ 808
	<b>Storage Cabinet with Doors (with core removable lock)</b> 36"W x 24"D x 29½"H — matches depth of credenzas and returns  NOTES: One adjustable interior shelf. 24"D size aligns evenly with 24"D credenzas, credenza shells, returns, return shells, and wardrobe/storage cabinets to provide linear layout continuity.	<b>H107290</b>	162	18.6	\$ 888
	<b>Bookcase Hutch</b> 32⅝"W x 14⅝"D x 37⅞"H  NOTES: For use with Lateral Files (H10762, H107690, H107697) and Storage Cabinets (H107291, H107290). Cord pass-through gap behind shelves and a 1⅞" full-width cord management slot at the bottom of the back panel to facilitate routing cords and reaching wall electrical outlets. When placed on a 29½"H base unit, the total 66⅝"H matches the height of credenzas with stack-on storage and the height of the wardrobe/storage cabinet. Two shelves are adjustable in 1¼" increments.	<b>H107292</b> E⬢A	93	5.1	\$ 599

10700 Series™ Shared Components and Accessories

GSA SIN 711-8

- Broad family of storage components takes storage way beyond the confines of a desk drawer.

➤ The 18"W wardrobe/storage cabinet can be used as wardrobe by removing some or all of the adjustable shelves, coat rod can be removed for storage only.

➤ Locking units equipped with interchangeable core removable locks.
- ⚠ **Keyed alike cores must be ordered separately — see model HF23B on page 684 — makes re-keying quick and easy.**

	Description	Model	Ship Weight	Cube	List
<p>Doors open 110 degrees from closed position.</p>	<b>Storage Cabinet (with core removable lock)</b> 36"W x 24"D x 66 <sup>5</sup> / <sub>8</sub> "H  NOTES: Large storage area includes five, full-width (side-to-side) shelves; three are adjustable in 2 <sup>1</sup> / <sub>2</sub> " increments. Unit height is designed to match credenza or return plus stack-on height (66 <sup>5</sup> / <sub>8</sub> ").	<b>H107299</b>	341	41.0	\$1959
<p>Doors open 110 degrees from closed position.</p>	<b>Storage Cabinet/Lateral File (with core removable lock)</b> 36"W x 24"D x 66 <sup>5</sup> / <sub>8</sub> "H  NOTES: Storage cabinet is standard with one fixed and two full-width adjustable shelves in top compartment; adjustable shelves can be removed. Overall storage compartment measures 31 <sup>1</sup> / <sub>4</sub> "W x 22"D x 36 <sup>1</sup> / <sub>8</sub> "H and will accommodate supplies, books and binders, as well as business machines and electronic equipment. Cord pass-through gap behind shelves and grommet in back of the cabinet to facilitate routing cords and reaching wall electrical outlets. Two drawer lateral file on bottom. - Non-handed desk, credenza, and return shells, combined with a variety of under-the-worksurface storage solutions, maximize office layout flexibility. Products can be reconfigured quickly and easily when user preferences or space needs change.
- For under-surface storage options, see pages 208-209.
- For additional components see pages 213-229.
- Tops and end panels are abrasion- and stain-resistant laminate over durable 1 1/8" solid core high-performance particleboard; resists warping.
- Cord management grommets, for routing and hiding wires and cables, are located in the tops of desks and return shells.
- 3" round worksurface grommet can be replaced with optional Power Hub (model HGRMTAC) to bring the ease of plug-and-play to the desktop. See page 228.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.
- For standing, 42"H shells, see page 200.

HON

- Non-handed desk, credenza, and return shells, combined with a variety of under-the-worksurface storage solutions, maximize office layout flexibility. Products can be reconfigured quickly and easily when user preferences or space needs change.
- For 78", 84", 90", and 96" W credenza shells, see page 199.
- For under-surface storage options, see pages 208-209.
- Tops and end panels are abrasion- and stain-resistant laminate over durable 1 1/8" solid core high-performance particleboard; resists warping.
- For additional components see pages 213-229.
- For work-in-process paper management tools, see page 224.
- Cord management grommets, for routing and hiding wires and cables, are located in the tops of desks and return shells.
- Credenza shells have a cord pass-through grommet in the top center of the modesty panel.
- Kneespace Clearance End Panel Kit model H105098, can be used to create "L" configurations with leg clearance, by connecting credenzas to single pedestal desks or credenzas, desk or credenza shells, corners, extended corners or peninsulas.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.

Not available in two-tone laminate

Kneespace Clearance End Panel Kits (field installable)					
1 1/8"W x 11 1/4"D x 28 1/8"H	H105098 E	13	0.9	\$ 189	
For use at either end of 10500, 10700 or Valido Series™ 24"D Credenza Shells (with full or 10" modesty panel) or non-pedestal end of single pedestal credenzas or credenzas with lateral files.					

1 1/8"W x 17 1/4"D x 28 1/8"H	H105099 E	11	0.8	\$ 198	
For use at either end of 10500, 10700 or Valido Series™ 30"D Desk Shells or non-pedestal end of 30"D single pedestal desks.					

Kits include: (1) support panel; European fastening hardware; flat connector bracket; joint connector bolts with sleeve nuts (for ganging credenza to adjacent worksurface); and adjustable leveling glides. Allows conversion of units currently in the field.

NOTES: Can be used to connect up to three 24"D credenzas or 30"D desks in line (requires 4 kits).

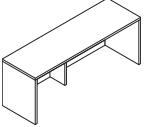

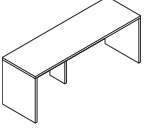

⚠ **Not designed to be used freestanding. Not designed to be used with returns, 36"D desks or desk shells.**

10500 Series™ Laminate Modular Components

GSA SIN 711-8

- ▶ 42"H shells help support a healthy work style by allowing users to switch between sitting and standing.
- ▶ Non-handed desk and return shells maximize office layout flexibility. Products can be reconfigured quickly and easily when user preferences or space needs change.
- ▶ Tops and end panels are abrasion- and stain-resistant laminate over durable 1½" solid core high-performance particleboard; resists warping.
- ▶ For additional components see pages 213-229.
- ▶ Mobile pedestals, shown on page 220, work well in a variety of applications and configurations.
- ▶ Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have ¾" adjustable range.

	Description	Inside Dimensions	Model	Ship Weight	Cube	List
	Standing-Height Desk Shell					
	60"W x 30"D x 42"H	57½"W x 24½"D x 41⅝"H	<b>H105397</b> E♦A	185	6.2	\$ 759
	60"W x 24"D x 42"H	57½"W x 22¾"D x 41⅝"H	<b>H105393</b> E♦A	154	5.1	\$ 699
	48"W x 24"D x 42"H	45⅞"W x 22¾"D x 41⅝"H	<b>H105392</b> E♦A	143	4.2	\$ 654
	NOTES: Fixed height surface is 42"H. When combined with a stool-height task chair, provides users the benefit of alternating their work between a seated or standing position without the additional cost of an adjustable-height mechanism. Short, 22⅝" modesty panel provides over 18" of wall access; makes reaching wall electrical outlets quick and easy. Box/File Pedestal (H10501) attaches to the underside of the worksurface top to position supplies and files within easy reach.					
	Standing-Height Return Shell					
	48"W x 24"D x 42"H	47"W x 22¾"D x 41⅝"H	<b>H105663</b> E♦A	96	3.1	\$ 549
	NOTES: Non-handed design. Attaches to sit/stand desk shells to form an L-shaped workstation. Short, 22⅝" modesty panel makes reaching wall electrical outlets quick and easy. One cord management grommet in top for routing and hiding wires and cables. Grommet can be replaced with optional Power Hub (model HGRMTAC). Box/File Pedestal (H10501) attaches to the underside of the worksurface top to position supplies and files within easy reach.

- Tops and end panels are abrasion- and stain-resistant laminate over durable 1½" solid core high-performance particleboard; resists warping.
- Cord management grommets, for routing and hiding wires and cables, are located in the tops of desks and return shells.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have ¾" adjustable range.
- 36"W and 30"W return shells enable L-shaped layouts for smaller spaces.
- One cord management grommet in tops of Return Shell models, H10568 and H10568X, is used for routing and hiding wires and cables. This 3" round grommet can be replaced with optional Power Hub (model HGRMTAC — page 686).

	Description	Inside Dimensions	Model	Ship Weight	Cube	List
 <p>Model H105686 shown</p>	<b>Return Shell (with full modesty panel)</b>					
	72"W x 24"D x 29½"H, (w/support; 2 grommets)	67"W x 22¾"D	<b>H105686 E♣A</b>	145	5.4	\$ 630
	60"W x 24"D x 29½"H, (w/support; 2 grommets)	55"W x 22¾"D	<b>H105684 E♣A</b>	129	4.4	\$ 576
	48"W x 24"D x 29½"H, (1 grommet)	47"W x 22¾"D	<b>H10561 E♣A</b>	86	3.7	\$ 474
	42"W x 24"D x 29½"H, (1 grommet)	41"W x 22¾"D	<b>H105681 E♣A</b>	89	2.5	\$ 445
	36"W x 24"D x 29½"H, (1 grommet)	34⅞"W x 22¾"D	<b>H105680 E♣A</b>	83	3.2	\$ 445
	30"W x 24"D x 29½"H, (1 grommet)	28⅞"W x 22¾"D	<b>H10568 E♣A</b>	69	2.6	\$ 425
NOTES: Shells are non-handed. No pre-drilled grommet in modesty panel (field installable grommet included). Wood-grain direction on modesty/back panel runs vertical on 30"W-60"W sizes and horizontal on 72"W unit. 36"W return shell can be used to achieve a 6' x 6' L-shaped footprint when connected to either a 72"W x 36"D single pedestal desk, desk shell, or peninsula, or when two are connected to 36"W corner unit model H105811. 30"W return shell can be used to accomplish a 5' x 5' L-shaped footprint when connected to a 60"W x 30"D desk shell or peninsula. See page 215 for optional stack-on storage.						
⚠ <b>Not designed to attach to corner units manufactured prior to 5/24/99.</b>						
 <p>Approach Side</p>	<b>Return Shell (with 10"H modesty panel)</b>

## 10500 Series™ Worksurfaces

GSA SIN as Noted

HON

- ▶ Easy-care, scratch-, spill- and stain-resistant laminate over 1½" solid core high-performance particleboard.
- ▶ Grain direction on all worksurfaces runs horizontal.

- ▶ Versatile component tops combine with under-surface support options to form freestanding desks or credenzas, U- or L-shaped configurations, or work wall layouts with an island extension.
- ▶ One flat bracket ships with each worksurface for applications requiring connection to an adjoining worksurface.

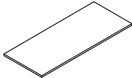

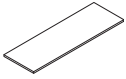

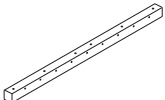

- ▶ For end panels, legs, columns and bases, see the Worksurface Supports listing on pages 203-204.
- ▶ When using a floating modesty panel or an external channel under the worksurface, the depth clearance for keyboard trays and center drawers decreases by 8". See accessory matrix in accessory section of the pricer.

⚠ **Worksurfaces are subject to slight bowing. The magnitude of the deflection is dependent upon the weight, placement, and duration of the load.**

⚠ **When using a worksurface as a bridge, no additional supports are needed. One support is required for returns, two supports are required for desks and credenzas.**

⚠ **External channel support is recommended for extended unsupported spans or heavily loaded worksurfaces. See below for details.**

	Description	Model	Ship Weight	Cube	List
 <b>SIN 711-8</b>	Rectangle Worksurface				
	72"W x 30"D	<b>H105R3072</b>	83	6.1	\$ 363
	66"W x 30"D	<b>H105R3066</b>	76	6.1	\$ 337
	60"W x 30"D	<b>H105R3060</b>	69	5.2	\$ 315
	48"W x 30"D	<b>H105R3048</b>	55	4.1	\$ 257
 <b>SIN 711-8</b>	72"W x 24"D	<b>H105R2472</b>	66	4.9	\$ 308
	66"W x 24"D	<b>H105R2466</b>	61	4.9	\$ 299
	60"W x 24"D	<b>H105R2460</b>	55	4.2	\$ 280
	48"W x 24"D	<b>H105R2448</b>	44	3.4	\$ 238
	42"W x 24"D	<b>H105R2442</b>	39	3.0	\$ 215
NOTES: Underside of rectangle worksurfaces includes pilot mounting holes for end panels, support columns, post and O-legs, and height adjustable base. Applications for 24"D worksurfaces include desks, credenzas, returns, and bridges. For above privacy screen sizes, see page 99.					
 <b>SIN 711-8</b>	Bullet Worksurface				
	72"W x 30"D	<b>H105B3072</b>	79	6.1	\$ 376
	66"W x 30"D	<b>H105B3066</b>	73	6.1	\$ 357
	60"W x 30"D	<b>H105B3060</b>	66	5.2	\$ 339
NOTES: Underside includes pilot mounting holes for T-shaped end panels and support columns. ⚠ <b>When specifying 60"W Floating Modesty Panel, it is not necessary to specify an external channel.</b>					
 <b>SIN 711-2</b>	External Support Channel				
	60"W	<b>HLSLZ5SC72</b>	7	0.5	\$ 92
	54"W	<b>HLSLZ5SC66</b>	7	0.5	\$ 85
	48"W	<b>HLSLZ5SC60</b>	6	0.5	\$ 82
	42"W	<b>HLSLZ5SC54</b>	5	0.5	\$ 78

NOTES: Steel channel can be attached to the underside of worksurfaces that are subjected to heavier loads. Channel is recommended for unsupported spans of 54"W or greater or per user preference. When using an external support channel under the worksurface, the depth clearance for center drawers and keyboard platforms decreases by 8". See chart below for support channel compatibility information.

⚠ **Specify: Model.P (black only)**

⚠ **When specifying a 54"W or 60"W Floating Modesty Panel, it is not necessary to specify an external channel.**

► **NEW!** Standing-Height and Double-Depth O-Leg Supports. Available January 2016.

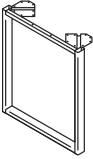

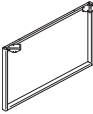

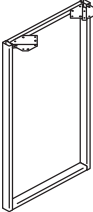

► O-leg glides have 2" adjustability.  
► For shared components such as modesty panels and privacy screens see pages 98-99.

► O-leg ships fully assembled with mounting hardware.  
► O-leg installation requires 6" of clearance from the worksurface end.

► For standing-height O-leg sizes, see page 205.  
► Shared O-legs create a cleaner aesthetic in all applications where two legs are used side-by-side.

► Will have 6" overhang when using 30"D O-legs with a 36"D worksurface.  
⚠ **O-legs may only be attached to worksurfaces, not storage units.**

	Description	Model	Ship Weight	Cube	List Price by Paint Grade

Coordinate™ Height Adjustable Base

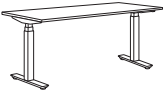

GSA SIN 711-2 Except as Noted

- Height Adjustable Base is a 3-stage column design.
- Frame rises from 23<sup>5</sup>/<sub>8</sub>" to 49<sup>1</sup>/<sub>4</sub>" for a sit-to-stand desk option.
- Height Adjustable Bases shipped complete with a preassembled motor.
- Base telescopes to accommodate any worksurface between 48"W and 72"W.
- Height Adjustable Base accommodates rectangular worksurfaces between 24"D x 48"W and 36"D x 72"W. Systems, Voi®, 10500, and Preside® all have worksurfaces within this range.
- Standard height-adjustable control ships with base.
- Dynamic load capacity when worksurface is moving is 300 lbs.
- Optional Memory Control allows preset worksurface heights for consistency. Ships separately.
- Silver finish matches any neutral HON paint or finish color.

⚠ **HON's Optional Memory Control (HHABMEM) does not work with the *basyx* by HON® Height Adjustable Base.**

## 10500 Series™ Laminate Modular Components

GSA SIN 711-8

HON

- ▶ Pedestals can be reconfigured quickly and easily when user preferences or space needs change.
- ▶ Locking units equipped with interchangeable core removable locks.
- ▶ Pedestal models ship assembled unless designated. **E&A**
- ▶ Mobile pedestals shown on page 220, work well in a variety of configurations.

- ▶ Narrow Pedestal features a compact design that is ideal for use in U and L-shaped layouts for smaller spaces such as a 5' x 8' U-shaped workstation or a 5' x 5' L-shaped workstation.

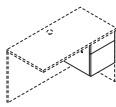

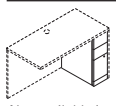

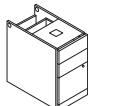

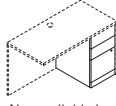

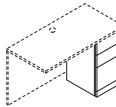

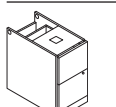

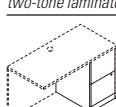

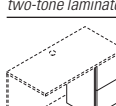

▲ **Keyed alike cores must be ordered separately — see model HF23B on page 684 — makes re-keying quick and easy.**

- ▲ **Access strip (filler) required when box/box file, file/file, and or pencil/media/file pedestals are configured side-by-side to allow access for opening the drawers.**

▲ **Access strip is required when CPU storage pedestal is used next to B/F, B/B/F, or F/F or P/M/F pedestals (finger pull is on side of door front). See below.**

- ▲ **Modular pedestals can be specified as one color only; not available in two-tone laminate combination or in a pattern laminate.**

	Description	Model	Ship Weight	Cube	List
 Not available in two-tone laminate	<b>Box/File Pedestal (with core removable lock)</b> 15 $\frac{5}{8}$ "W x 22 $\frac{3}{4}$ "D x 17 $\frac{3}{4}$ "H — for use under 24"D, 30"D and 36"D desk, credenza and return shells  NOTES: Attaches to underside of worksurface top. Lock can be positioned on either the right or left side. File drawer includes integrated hangrails for letter- or legal-sized folders. Not for use under 20"D shells. ▲ <b>Not designed to be used freestanding. Unfinished top and back.</b>	<b>H10501</b>	57	5.5	\$ 473
 Not available in two-tone laminate	<b>Narrow Box/Box/File Pedestal (with core removable lock) — floorstanding</b> 9 $\frac{1}{2}$ "W x 22 $\frac{3}{4}$ "D x 28"H — for use under 24"D, 30"D and 36"D desk, credenza and return shells  NOTES: Space-saving design supports smaller footprints. Middle box drawer and file drawer lock; top box drawer does not lock. File drawer includes integrated hangrails for side-to-side letter or legal filing. Not for use under 20"D shells. ▲ <b>Not designed to be used freestanding. Unfinished top and back.</b>	<b>H105093</b>	61	5.6	\$ 611
 Not available in two-tone laminate	<b>Box/Box/File Pedestal — floorstanding</b> 15 $\frac{5}{8}$ "W x 28 $\frac{3}{4}$ "D x 28"H — for use under 10500 Series 30"D worksurfaces supported by 29 $\frac{7}{8}$ "D L-shaped end panel model H10530LEP.  NOTES: Top box drawer does not lock. File drawer includes integrated hangrails for letter- or legal-sized folders. <b>Not for use under shells, per "Inside Dimensions" listings.</b> ▲ <b>Not designed to be used freestanding. ## 10500 Series™ Laminate Wood Desks — Full Pedestals

GSA SIN 711-8

HON

Square  
Edge Detail

- Factory-configured desks, credenzas and returns ship fully assembled for ease and speed of installation.
- Full-to-floor pedestals maximize storage space.
- Smooth, flat edges provide a clean look.
- Tops are easy-care, scratch-, spill- and stain-resistant laminate over 1 1/8" solid core high-performance particleboard.
- 3" round cord management grommets, for routing and hiding wires and cables, are located in the tops of desks, returns, bridges, and corner units. Accepts optional Power Hub Grommet model HGRMTAC — page 686.
- For work-in-process paper management tools, see page 224.
- Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.
- For field installable decorative handle options, see page 227.
- All drawers are five-sided construction for added strength and easy alignment or replacement of drawer fronts.
- Center drawers conveniently store writing instruments, paper and other miscellaneous items. Includes pencil tray. See page 229.

## 10500 Series™ Laminate Wood Desks — 3/4 Pedestals

GSA SIN 711-8

HON

Square  
Edge Detail

- For components that can be shared with 10500 Series™, see pages 213-229.
- Tops and end panels are abrasion- and stain-resistant laminate over durable 1½" solid core high-performance particleboard; resists warping.
- Formal, full height modesty panels.
- 3/4 pedestal design increases budget flexibility.
- 3" round cord management grommets, for routing and hiding wires and cables, are located in the tops of desks, returns, bridges, and corner units. Accepts optional Power Hub Grommet model HGRMTAC — page 686.
- All drawers are 5-sided construction, which allows easy drawer alignment or replacement of drawer fronts.
- Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.
- For field installable decorative handle options, see page 227.
- Desk, credenza, and return models ship assembled.
- See stack-on storage and stack-on PC organizer options on pages 214-215.
- Use with Above Worksurface Privacy Screens. See page 207.
- Mobile table quickly provides additional workspace space, see page 226.

	66"W x 30"D x 29½"H, Rectangle Top, Right	4½"	<b>H10583R</b>	229	41.0	\$ 942
	72"W x 36"D x 29½"H, Bow Top, Left	10½"	<b>H10588L</b>	238	52.9	\$1222
	72"W x 36"D x 29½"H, Rectangle Top, Left	10½"	<b>H10586L</b>	279	52.9	\$1072
	66"W x 30"D x 29½"H, Rectangle Top, Left	4½"	<b>H10584L</b>	229	41.0	\$ 942
	NOTES: Box/file drawers. Drawers lock. Two cord grommets in top for routing and hiding wires and cables. Bow top models measure 36"D at crest and 30"D along the end panels. See page 229 for optional center drawers.					
	<b>Small Office Desk</b>					
	48"W x 30"D x 29½"H, 3/4 Pedestal, Right box/file	4½"	<b>H105885R</b>	168	30.5	\$ 836
	NOTES: Small footprint makes this desk ideal for limited space. Drawers lock. One cord grommet in top for routing and hiding wires and cables. 3/4 height modesty panel facilitates reaching wall electrical outlets. Optional stack-on storage model H105323 maximizes storage space; see page 215.					
	<b>Return, box/file</b>					
	48"W x 24"D x 29½"H, Right		<b>H10515R</b>	147	25.6	\$ 758
	42"W x 24"D x 29½"H, Right		<b>H10511R</b>	138	20.5	\$ 742
	48"W x 24"D x 29½"H, Left		<b>H10516L</b>	147	25.6	\$ 758
	42"W x 24"D x 29½"H, Left		<b>H10512L</b>	138	20.5	\$ 742
	NOTES: Return is for use with single pedestal desks, desk shells, peninsulas or corner units. One worksurface grommet and one cord pass-through grommet in top center of modesty panel to reach wall electrical outlets. Drawers lock. See page 215 for optional stack-on storage.					
	⚠ <b>Not designed to be used freestanding. Will not attach to Corner Units manufactured prior to 5/24/99.</b>					
	<b>Credenza with Doors</b>					
	72"W x 24"D x 29½"H	3½"	<b>H10544</b>	278	36.0	\$1372
	NOTES: All drawers lock. Doors are non-locking. Includes a fixed shelf located at the bottom of the center storage area. No intermittent shelf. See page 215 for optional stack-on storage.					
	<b>Credenza with Kneespace — box/file</b>					
	72"W x 24"D x 29½"H	3½"	<b>H10543</b>	243	36.3	\$1125
	66"W x 24"D x 29½"H	3½"	<b>H10566</b>	234	33.4	\$1114
	60"W x 24"D x 29½"H	3½"	<b>H10565</b>	229	28.8	\$1063
	NOTES: All drawers lock. One cord pass-through grommet in top center of modesty panel to reach wall electrical outlets.					
	⚠ <b>Not designed to be used with 24"D modular or mobile pedestals.</b>					
	<b>Single Pedestal Credenza — box/file</b>					
	72"W x 24"D x 29½"H, Right (shown)	3½"	<b>H10545R</b>	212	36.0	\$ 926
	72"W x 24"D x 29½"H, Left	3½"	<b>H10546L</b>	212	36.0	\$ 926
	NOTES: Drawers lock. One cord pass-through grommet in top center of modesty panel to reach wall electrical outlets. See page 215 for optional stack-on storage.					
	⚠ <b>Not designed to be used with 24"D modular or mobile pedestals.</b>					
	<b>NOTE: See pages 213 through 229 for shared components.</b>

- Shared components shown on this page can be used with modular components shown on pages 197-209, full pedestal models shown on pages 210-211 and 3/4 pedestal models shown on page 212.
- Jetty, boomerang and rudder peninsulas are designed and sized to efficiently serve as both a computing and conferencing space.
- Peninsulas ship complete with end panel and black 4 1/2" diameter support column. For a silver support column option, please see model HPC191X on page 133 (ordered separately).
- Mobile pedestals shown on page 220 work well in a variety of configurations.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.

	36”W x 14½”D x 37½”H, 2 doors (Use Task Light HH870930, see page 218)	<b>H105321K</b> 		102	3.5	\$ 636
	NOTES: For use on respective desk, credenza or return widths. Model H10534 can be used for “L” configuration comprised of 30”D desk, desk shell or peninsula and 42”W return or return shell; or a 36”D desk, desk shell, peninsula, or corner unit and 36”W return shell. Model H115323K has one lock which secures two of the three doors. See vertical paper manager model HLVPM1 on page 224.					
	<b>Stack-on Storage for an “L” Workstation, Frosted Doors with Silver Frame</b> 78”W x 14½”D x 37½”H	<b>H105327G</b> 		198	17.3	\$1578
	NOTES: Spans the total depth dimension of configurations comprised of: 48”W return or return shell attached to a 30”D single pedestal desk, desk shell or peninsula (78”D); 42”W return or return shell attached to a 36”D single pedestal desk or desk shell with a rectangle top, or to a peninsula (78”D). 42”W return or return shell attached to a 36” corner unit (78”D); 42”W curved return attached to 36” curved corner unit (78”D); or 36”W return shell attached to a jetty peninsula (78”D). Use back enclosure model 105857 and tackboard model 90057. Use task light models H870960 or H870960CH. For vertical paper manager model HLVPM1, see page 224.					
	<b>Stack-on Storage, Frosted Doors with Silver Frame</b> 72”W x 14½”D x 37½”H, 4 doors (Use Task Light HH870960, see page 218)	<b>H10534G</b> 		185	15.9	\$1457
	66”W x 14½”D x 37½”H, 4 doors (Use Task Light HH870960, see page 218)	<b>H10533G</b> 		175	14.6	\$1431
	60”W x 14½”D x 37½”H, 4 doors (Use Task Light HH870960, see page 218)	<b>H105324G</b> 		164	13.3	\$1395
	48”W x 14½”D x 37½”H, 3 doors (Use Task Light HH870942, see page 218)	<b>H105323G</b> 		141	10.8	\$1174
	42”W x 14½”D x 37½”H, 2 doors (Use Task Light HH870942, see page 218)	<b>H105322G</b> 		135	3.6	\$ 900
	36”W x 14½”D x 37½”H, 2 doors (Use Task Light HH870930, see page 218)	<b>H105321G</b> 		102	3.1	\$ 866
	NOTES: For respective desk, credenza or return widths. Model 10534 can be used for “L” configuration comprised of a 42”W return or return shell attached to a 30”D single pedestal desk, desk shell or peninsula (72”); 36”W return shell attached to a 36”D single pedestal desk, desk shell or peninsula (72”); or 30”W return shell attached to a jetty peninsula (72”). Back enclosures, tackboards for use with back enclosures and task lights are available as options. See vertical paper manager model HLVPM1 on page 224.					
	<b>Stack-on Storage Clearance End Panel Kit</b> 1½”W x 4½”-14½”D x 36”H	<b>H105349</b>		29	3.4	\$ 324
	Two field installable end panels (1-right; 1-left) for use in ganging two 10500 or Valido® Series stack-on storage units. Narrow design replaces the full 14½”D end panels to expand workspace space. The narrow right end panel replaces the standard 14½”D right end panel on one stack-on storage unit, the narrow left end panel replaces the standard 14½”D left end panel on a separate, adjacent stack-on storage unit that is in linear alignment with the first unit. Kit includes: (2) narrow end panel supports; European-style fasteners; dowels; joint connector bolts with sleeve nuts (for ganging stack-on storage units). NOTES: Can be used to connect up to two stack-on storage units in a line (requires 1 kit). Not available in two-tone laminate.

10500 Series™ Shared Components & Accessories

GSA SIN 711-8

- Stack-on models below are sized to fit on 72" desk, credenza, return, or desk with return worksurfaces.
- Easy-care, scratch-, spill- and stain-resistant laminate over 1 1/8" solid core high-performance particleboard.
- Cabinets have three shelves, two are adjustable.
- Each cabinet includes a core removable lock.
- Back of cabinet door has a convenient double coat hook; the lower peg is for jackets and lighter items, the upper peg for heavier coats and bags.
- Open shelves display books, photos, and mementos, shelves are fixed height; top shelf is 3/4" thick, lower shelf is 1 1/8".
- Task light can be attached to underside of the bottom shelf.

- Back enclosure features full-width 1 1/8" slot at the bottom to facilitate routing cords and reaching wall electrical outlets.
- Tackboard is sized 3/4" narrower than stack-on storage back enclosure, allowing 3/8" on each side to route task light cord.

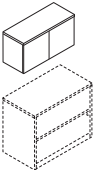

- Wall attachment methodology: horizontally mounted, interlocking brackets.
- Wall mounted storage cabinet door design overlaps end panels so that when multiple units are placed side-by-side they appear as one continuous unit.

- Wall mounted storage cabinets available with laminate doors, locking laminate doors or frosted doors.
- Removable lock core kit for locking stack-on storage is model HF27. See page 684.

- ⚠ Wall mounted storage cabinet attachment requires individual cabinets be secured by a minimum of two wall mounting locations/studs.
- ⚠ Wall mounted storage cabinets are designed for interior and perimeter walls that are constructed with wood or metal studs.

⚠ The HON Company is not responsible for any liabilities resulting from wall mounted storage cabinets that are not properly installed.

## 10500 Series™ Storage

GSA SIN 711-8 Except as Noted

HON

► Easy-care, scratch-, spill- and stain-resistant laminate over 1/8" solid core high-performance particleboard.

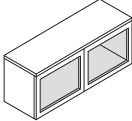

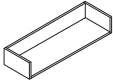

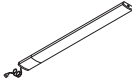

► Stacked paper management (model HLVPM2), which is 32 1/2"W, is compatible with the 30"W and 36"W wall mounted storage cabinets.

⚠ Wall mounted storage cabinet attachment requires individual cabinets be secured by a minimum of two wall mounting locations/studs.

⚠ Wall mounted storage cabinets are designed for interior and perimeter walls that are constructed with wood or metal studs.

⚠ The HON Company is not responsible for any liabilities resulting from wall mounted storage cabinets that are not properly installed.

	Description	Model	Ship Weight	Cube	List
	Wall Mounted Storage Cabinet, Frosted Doors with Silver Frame				
	48"W x 14 5/8"D x 17 1/2"H	H105383G	114.0	13.9	\$1201

- Shared components shown on this page can be used with modular components shown on pages 197-209 and 3/4 pedestal models shown on page 212.
- Mobile pedestals, shown on page 220, work well in a variety of configurations.
- Extended corner units (H105815R and H105816L) can be used with 36"W return shell (H105680) to achieve a 6' x 6' layout.
- 36" corner unit (H105811) can be used with two 36"W return shells (H105680) to achieve a 6' x 6' layout.
- End cap bookshelf units are ideal for books and personal items — see page 222.
- For work-in-process paper management tools, see page 224.
- For 10500 Series™ matching occasional tables, use the H80191, H80192, and H80193 on page 225.
- For conference table options, see the Preside® table tops and bases on pages 596-601.
- Mobile table quickly provides additional worksurface space, see page 226.

## 10500 Series™ Shared Components &amp; Accessories

GSA SIN 711-8

HON

► For additional components that can be shared with 10500 Series™, see pages 213-229.

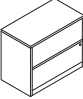

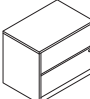

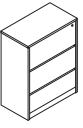

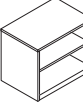

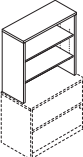

► Versatile mobile pedestals work well in a variety of configurations. Can be used freestanding, under modular shells, or with 10500 Series™ component worksurfaces and supports.

► 24"D lateral file, storage cabinet, and bookcase models align evenly with credenzas and returns to provide linear layout continuity.

► At 45½"H, the three-drawer lateral file can be used as a standing-height worksurface or to support office equipment.  
► Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.

► File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.  
► Mobile printer/fax cart shown on page 209 is ideal for limited space.

	Description	Model	Ship Weight	Cube	List
	<b>Box/Box/File Mobile Pedestal (with core removable lock)</b> 15¼"W x 22¾"D x 28⅝"H — use freestanding or under 24"D, 30"D and 36"D modular shells NOTES: Top box drawer does not lock. File drawer includes hangrails.	<b>H105102</b>	121	8.5	\$ 773

	18"W x 24"D x 66 5/8"H, Hinged Right (shown) 18"W x 24"D x 66 5/8"H, Hinged Left	H105297R H105298L	258 258	22.7 22.7	\$1534 \$1534
	NOTES: Versatile unit features a storage cabinet and two file drawers. Storage cabinet includes three shelves, two are adjustable in 2 1/2" increments. Door hinged left or right models available. File drawers operate on ball-bearing suspensions with full extension. File drawers have high sides to accept hanging folders in letter or legal size. Drawers standard with hangrails. Both the storage cabinet and the file drawers are equipped with a HON "One Key" interchangeable core removable lock. Unit height is designed to match credenza or return plus stack-on storage height.				
 Doors open 110 degrees from closed position.	<b>Storage Cabinet/Lateral File (with core removable lock)</b>				
	36"W x 24"D x 66 5/8"H	H105293	365	41.0	\$2068
	NOTES: Storage cabinet is standard with one fixed and two full-width adjustable shelves in top compartment; adjustable shelves can be removed. Overall storage compartment measures 31 1/4"W x 22"D x 36 1/8"H and will accommodate supplies, books and binders, as well as business machines and electronic equipment. Cord pass-through gap behind shelves and grommet in back of the cabinet to facilitate routing cords and reaching wall electrical outlets. Two drawer lateral file on bottom. Lateral file comes with mechanical interlock and hangrails. Cabinet and lateral file lock independently. Unit height is designed to match credenza or return plus stack-on storage height.				
 Doors open 110 degrees from closed position.	<b>Storage Cabinet with Full-width Shelves (with core removable lock)</b>				
	36"W x 24"D x 66 5/8"H	H105299	341	39.6	\$1929
	NOTES: Large storage area includes five, full-width (side-to-side) shelves; three are adjustable in 2 1/2" increments. Unit height matches credenza or return plus stack-on storage height.				
 Right-hand model H105295R shown	<b>Personal Wardrobe/Storage Cabinet (with core removable lock)</b>				
	18"W x 24"D x 66 5/8"H, Hinged Right (shown) 18"W x 24"D x 66 5/8"H, Hinged Left	H105295R H105296L	223 223	22.9 22.9	\$1390 \$1390
	NOTES: Unit is standard with four adjustable shelves, coat rod, and core removable lock. Shelves adjust in 2 1/2" increments. Cabinet can be used as a wardrobe by removing four adjustable shelves. Coat rod can be removed from cabinet for storage only applications. Unit height is designed to match credenza or return plus stack-on storage height.				
 Doors open 110 degrees from closed position.	<b>Personal Wardrobe/Storage Cabinet (with core removable lock)</b>				
	36"W x 24"D x 66 5/8"H	H10530	341	41.0	\$2068
	NOTES: Spacious design is standard with four adjustable shelves (one shelf is fixed), coat rod and core removable lock which locks both doors. Shelves adjust in 2 1/2" increments. Unit height is designed to match credenza or return plus stack-on storage height.				
 Right-hand model H105301R shown	<b>Personal Storage Tower (with core removable locks)</b>				
	24"W x 24"D x 66 5/8"H, wardrobe Hinged Right, storage cabinet Hinged Left (shown) 24"W x 24"D x 66 5/8"H, wardrobe Hinged Left, storage cabinet Hinged Right	H105301R H105302L	299 299	27.9 27.9	\$1942 \$1942
	NOTES: Spacious design includes a wardrobe closet, storage cabinet, and two file drawers in one compact unit. Wardrobe closet contains a coat rod. Storage cabinet includes three shelves, two are adjustable in 2 1/2" increments. Door hinged left or right models available. File drawers operate on ball-bearing suspensions with full extension. File drawers have high sides to accept hanging folders in letter or legal size. Drawers standard with hangrails. Equipped with HON "One Key" interchangeable core removable locks. Upper lock secures storage cabinet and wardrobe closet doors; lower lock secures file drawers. Unit height is designed to match credenza or return plus stack-on storage height.

Edge Detail

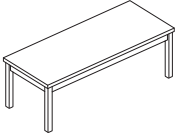

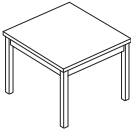

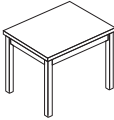

► Durable material and construction make laminate occasional tables ideal for high traffic areas such as lobbies, reception rooms and lounges. Versatile design is also well suited to private offices.

► Tables accommodate lamps, magazines, telephones, plants, laptops and more.

► Coffee, Corner and End Tables feature top-over-apron styling with square corner detail, which complements many interiors and furniture designs.

► Tops are abrasion- and stain-resistant laminate over 1 1/8" thick solid core high-performance particleboard.

- 18th century elegance, 21st century engineering.
- Tops are premium abrasion- and stain-resistant high pressure, high-gloss laminate over durable 1 1/8" solid core high-performance particleboard.
- Solid wood edge profile.
- Antique brass drawer pulls; hand-applied raised decorative molding, and plinth style base.
- Pullout reference/writing shelf is standard on all desk pedestals.
- Desk, credenza, and return drawers are 5-sided construction, which allows easy drawer alignment or replacement of drawer fronts.
- Center drawer on desks equipped with built-in pencil tray and central locking (locks all drawers).
- Drawers operate on full extension, ball-bearing suspensions to ensure smooth, quiet, long-lasting operation.
- File drawer design includes integrated hangrails for side-to-side letter or legal filing; and front-to-back for letter filing.
- Locking units equipped with interchangeable core removable locks.
- 94000 Series™ products produced after 10/26/98 have been improved with a thicker top. Joining with older products before that date may cause misalignment.
- Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 3/4" adjustable range.

⚠ **Keyed alike cores must be ordered separately — see model HF23B on page 684 — makes re-keying quick and easy.**

# 94000 Series™ Laminate Wood Desks

GSA SIN 711-8 Except as Noted

- Stack-on storage equipped with self-closing, adjustable hinged doors.
  - Stack-on storage design includes valance to hide task light.
  - Vertical paper manager keeps papers, files and books organized and within easy reach from a seated position. Fits under stack-on storage models. See page 234.
  - Stacked paper management segments and organizes stack-on storage compartments and bookcase shelves. Unit can be used in models H94237, H94234 and H94236. In some cases, installation may require removing the stack-on storage doors. See page 193.
  - For a variety of work-in-process paper management tools, see page 224.
  - Overhead Hutch features one cord pass-through grommet located in bottom center of back panel.
- △ Overhead Hutch is not designed to accept task light.  
 △ Removable lock core kit for locking stack-on storage is model HF27. See page 684.

# basyx by HON® Manage® Laminate Desks Worksurfaces

Not on GSA Contract

# HON

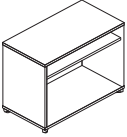

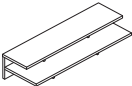

- Non-handed desk design simplifies ordering and supports both left-handed and right-handed users.
- Worksurfaces offer 72"W or 60"W options.
- Two factory-installed steel beams reinforce the worksurface for strength and rigidity.
- 1" thick desk top provides a sturdy, durable worksurface.
- Worksurfaces may be supported by two desk legs or one desk leg and the work wall.
- Durable, thermal-fused laminate is scratch- and spill-resistant.
- Desk legs have leveling glides to compensate for uneven floors.
- Divider offers visual privacy and layered storage for the user.
- Two laminate color options — Wheat (WH) or Chestnut (C1).
- **basyx by HON® 5-year Limited Warranty.**

## 38000 Series™ Steel Desks — 3/4 Pedestals

GSA SIN 711-2

HON

- 3/4 height modesty panels unless noted.
- Color of pulls and grommets match paint selection for core colors.
- One pencil tray standard per unit except returns.

- Laminate particleboard tops feature attractive, radius edges on front and rear edges of desks. Returns and bridges have radius front and flat rear edge to match the side edge it attaches to.
- Wire grommets standard in all tops.
- Wire grommets in end panels allow cable connections between desks.

- "Tru-fit" mitered drawer fronts for better visual alignment.
- Optional center drawer features steel ball-bearing suspension.
- High-sided file drawers accept hanging files without hangrails.
- Spring-loaded follower blocks standard.

- Three-part full extension steel ball-bearing suspension on all file drawers for full access to interior contents.
- Box drawers feature two-part, 3/4" extension steel ball-bearing suspension.
- Baked enamel finish over rust-inhibiting phosphate pre-treatment.

## Recommended Pedestal Options:

38000 Series™	36" Deep Desk			30" Deep Desk			24" Deep Desk		
Contain®, Flagship® or Brigade™ Pedestals	Ability to Attach	Ability to Use Wire Port	Ability to Attach Hutch	Ability to Attach	Ability to Use Wire Port	Ability to Attach Hutch	Ability to Attach	Ability to Use Wire Port	Ability to Attach Hutch
16 1/2"D Hanging Pedestal	•	•	•	•	•	•	•		•
22 1/4"D Hanging Pedestal	•	•	•	•	•	•	•		•
16 1/2"D Freestanding or Mobile	•	•	•	•	•	•	•		•
22 1/4"D Freestanding or Mobile	•	•	•	•	•	•	•		•
28 1/4"D Freestanding or Mobile	•		•	•		•			

Use of a pedestal spacer or 28"H standard height pedestals will block wire access from the grommet to the kneespace area.

NOTES: Stack-on units can be attached regardless of pedestal configuration.

## Personalize Your Storage Needs With These Possible Solutions:

Use coordinating HON components such as Pedestals shown on page 418 and Lateral Files shown on pages 420-421 and 426-431.

**NOTE: Ability to use all HON laterals and pedestals.**

**NOTE: See page 248 for shared components.**

### Suffix "A"

Satin Chrome  
Arch Pull

### Edge Treatments

"T" Thin T-Mold

"P" Edgeband

(Color must be selected.)

- HOW TO ORDER
- 1) Select desired model numbers.
  - 2) Order worksurfaces to correspond to width of panel behind them.
  - 3) Select desired top edge treatment.
  - 4) Replace the (?) after each model number with the suffix representing the chosen top edge treatment.

Touch-up paint model HPMARKER1 available in L, P, Q, S, T3 and T5 paint. Model HPKT001 available in L, P, Q, S, T3 and T5 paint. Use Paint codes for grommet colors.

- For Champagne Metallic Paint, Greige is suggested for the duplex and grommet color.
- For Putty paint color, Greige is the suggested duplex and grommet color.
- For Black paint color, Charcoal is the suggested duplex color.
- For Light Gray paint, Platinum Metallic is the suggested duplex color.

### Recommended Edgeband Color Selection:

### Panel Frame

### Open Base Panel Frame

### Stacking Frames

Reminder: Panel frame top caps must be ordered separately. Please refer to page 271. Do not specify top caps when putting frameless glass on top of the panel frame or when using a countertop worksurface.

## About® Frames Overview

# HON

**Stacking connection** provides a solid metal-to-metal connection, allowing the stacking frame to accept hang-on components, per configuration guidelines.

### Construction and Features

Specifications—formed, steel vertical members, with tubular steel horizontal members are welded into a sturdy, structural panel frame. Panel frames are shipped with top cap and base pathway covers installed.

Tiles, Panel Top Caps, and Segment Bars are ordered separately.

Additional design and specification information available at [hon.com](http://hon.com).

### Frame Dimensions (Actual)

**Depth:** 2<sup>5</sup>/<sub>8</sub>" (use 2<sup>3</sup>/<sub>4</sub>" to calculate intersections in length of panel run)

**Widths:** 24", 30", 36", 42", 48", 60"

**Heights\*:** Painted trim: 34<sup>1</sup>/<sub>2</sub>", 42", 49<sup>1</sup>/<sub>2</sub>", 64<sup>1</sup>/<sub>2</sub>"

**Stacking Frames:** 15"H, 30"H

\*with levelers fully retracted

**Stacking frames** can be added to the top of any 35"H, 50"H or 65"H frame. Adding stacking frames to 42"H frames is not recommended due to inconsistencies in segmentation. 15"H and 30"H stacking frames can be used to add up to 45" of additional height to a standard frame. Do not combine differing frame widths in a single stack.

**NOTE: Do not stack on 42"H frames because of stack up/ segmentation mismatch. Glass will not work with 42"H frames.**

### Building horizontally with Abound frames

**Important planning guidelines:** For adequate stability, one of two methods of stabilization must be adhered to:

#### Method 1—Opposing returns:

A parent run must be a minimum of 48" and a maximum of 144" between return panels. The parent run must have a minimum of two return panels running in opposing directions on each end of run.

#### Method 2—Single-sided

**returns:** A parent run must be a minimum of 48" and a maximum of 144" between return panels. The parent run must have a minimum of two return panels totaling at least 60% of its length, extending in one direction. Return panels must not be any more than 30" shorter in height than parent run. When using 120° connections, 12" must be added to length of return panels as determined by methods 1 and 2. Any run under 100" must have a minimum combined length of 60" of return panels.

# About® Frames Overview

# HON

## Intersecting connections

**"L", "T", "X", "Y2" and "Y3" connector kits** are used when connecting frames at intersecting runs. For "L", "T" and "X" connector kits, add  $2\frac{3}{4}$ " to the total length of the panel run for each intersection, whether located in the middle or at the end of the run.

**Wall starter kits** provide a means to affix a panel run to a permanent building wall. Kit adds  $1\frac{1}{32}$ " to length of panel run.

### Segment Bars

— horizontal cross members required between tile segments. Must be specified on each side of frame. One Segment Bar is needed for each reveal between tiles.

**Extended straight connector kit "S"** can be used to keep continuous runs dimensionally consistent with opposing panel runs which incorporate "T" or "X" intersections. (Add  $2\frac{3}{4}$ " to the length of the run for every extended straight connector used.)

## In-line connections

**Direct connections** between same height frames in a continuous run are accomplished with provided hardware. There is no incremental increase in dimension along the run.

### End of Run

Finished end trim must be specified for the unconnected sides of panel frames. The Abound end trim adds  $\frac{3}{8}$ " to the length of the panel run. When adding a stacking frame, order finished end trim in the height that matches the stacking frame height. Move the end cap from the standard frame end trim to the stacking frame end trim.

**In-line Variable Height Trim** In-line connections between different height panels require trim to cover the exposed frame of the taller panel. The bottom of the trim is contoured to match the profile of the frame top cap.

**Multiple-height connections** are accomplished by combining standard height panel connectors (35"H, 42"H, 50"H and 65"H) with shorter connectors (7"H, 15"H, 22"H and 30"H). Start from the bottom-up — select the standard connector that corresponds to the height and connection type of the shortest panel, then use the shorter connectors to build up to each subsequent panel height. (See examples.)

In variable height "T" connections — as shown above — you would use the connectors as indicated.

### Example 3

Connectors required:  
1-50"H "L"  
1-15"H Variable Height Trim over Top Cap

Example above represents Abound variable height "L" for 65" to 50" connection over universal top cap.

## Variable Height Connection Trim

L, X and T connections between different height panels require trim to cover the exposed frame of the taller panel. The bottom of the trim is flat to match the profile of the Universal Connector top cap. Models are designated as "Variable Height Finished End over Connector Trim". For variable height connections in a Y configuration, contact the HON Product Solutions group.

## Optional Stiffener Support

Stiffener supports can be used to provide additional rigidity to a panel when fabric tiles are on both sides of the frame. May also be used for routing power/data at non-standard heights.

### Connector Kits — Abound

<b>"L"</b>	90° Connector Kit
<b>"T"</b>	3-way Connector Kit
<b>"X"</b>	4-way Connector Kit
<b>"S"</b>	"S" Extended Straight Connector Kit
<b>"Y2"</b>	2-way 120° Connector Kit
<b>"Y3"</b>	3-way 120° Connector Kit
<b>"W"</b>	Wall Starter Kit
<b>"F"</b>	End Trim Kit
<b>"V"</b>	Variable Height Finished End
<b>"FT"</b>	Variable Height Finished End over Connector

- Abound Connector Kits include universal connector block(s), bracket clips and painted metal trim.
- The universal connector block can be used for an L, T, X, or Extended Straight connections, simplifying staging and installation at the project site as well as future reconfigurations.
- Bracket clips are attached to the connector blocks as needed based upon connection type.
- While the connectors themselves are universal, Abound connector kits must be specified by connection type (X, L, T, S, 120 degree) in order to receive the correct type of trim.

## About® Tile Overview

About tiles come in a variety of styles.

\*Aesthetics of opposing tile surface and/or frame interior should be considered when selecting SecureFit or light colored sheer materials.

### Tile Heights

Monolithic tiles are 5" shorter than frame heights to account for top trim and base raceway.

### Typical Tile Height Configurations

Segment bars are required between any two tiles — order separately based on tile configuration on each side of frame. Note: Most CAD specification programs will calculate quantity of segment bars required.

NOTE: Because of stack-up/segmentation mismatch, cannot stack on 42"H frames. Glass will not work with 42"H frames.

\*Additional tile combinations to those shown above are possible; heights above 65" require stacking frames - maximum height is 110".

To calculate the total height of tiles(s) required, deduct 5" (height of base/top trim) from the total nominal panel height.  
**EXAMPLE:** 65"H Frame takes 2 30"H tiles.  $65 - 5 = 2 \times 30$  or  $45 + 15$

Tiles can be ordered in the size that matches the frame height plus the stacker height.

**EXAMPLE:** If you are using a 35"H frame plus a 30"H stacker, you can order 2 – 30"H tiles or 1 – 60"H tile.

Door panels include frame, 42"W door, hinges and attaching hardware. Two 7 1/2"H fabric tiles for the top of the door frame are required and ordered separately (HRVD0742T).

Sliding doors are available in 50", 65", and 80"H models and can mount to 30", 36", 42", and 48"W panels. The doors provide a 36"W opening and are 42"W, nominally. The doors ship non-handed. A Mounting Bracket Kit must be ordered for each door corresponding to the mounting panel's width (30", 36", 42", or 48"W).

Plains Tiles and Hard-surface Tiles include tile and Custom Bracket Kit.

Worksurfaces are 1¼" thick with particle-board core and with top surfaces finished in high-pressure laminate. Bottom surfaces are covered with a backer sheet.

**Primary worksurfaces** are available in 18", 24" and 30" depths. Nominal worksurface width is equal to nominal panel width. Other support hardware is ordered separately.

**Corner Dual-Surface Worksurfaces** provide maximum worksurface adjustability for seated individuals of all heights. Corner dual-surface worksurfaces can be mounted to panel at any basic product height. Corner worksurface must match exactly, the panel behind them. Requires adjustable height mechanism, ordered separately.

**Corner worksurfaces** with woodgrain laminate have grain direction diagonal to adjacent worksurfaces. One rear center support bracket is included. All other support hardware is ordered separately.

**Wire management grommets** are standard in most worksurfaces. Grommets are available in the same colors as t-mold and edgeband. Worksurfaces less than 48"W have one grommet/scalloped centered on edge of worksurface. Rectangular worksurfaces over 42"W have two grommets/scallops. Peninsulas have one grommet or scallop. Corner Worksurfaces have one grommet or two scallops (one on each back edge). D-Shaped worksurfaces and countertops do not have grommets or scallops.

**Edgeband and T-Mold Edge trim** is available on laminate tops in standard colors (customer specified) to match or complement solid, patterned, or woodgrain laminates.

## Working with Worksurfaces and Supports

**Optional width worksurfaces** are available for use with panel runs having a TEE or Extended Straight connection.

**Worksurfaces** can be configured at 29 1/2" with end-panel supports and support legs, or at various heights on 1" increments using specific product configurations.

### Worksurface support options include:

- Open leg models
- Support column
- Flat brackets
- Worksurface bracket kit
- Cantilever bracket
- Universal support leg
- End-panel support
- Freestanding pedestal

**Worksurface bracket kit** allows one end of a worksurface to be supported by a return panel. Return panel width must be the same as the depth of the worksurface.

**Flat brackets** can be used to connect one worksurface perpendicular to another work-surface.

**Cantilever brackets** are left or right handed. They can be inserted into panel reveals in 1" vertical increments. One size is used for both 24" and 30"D worksurfaces. 18" Cantilever brackets are used for 18"D worksurfaces. Both left and right brackets are required in shared applications.

**Important:** Do not use cantilever brackets at the end of a worksurface where no 90° return panel is positioned.

Use with runs 72" or less – avoid installation on only one side of a straight connection except to support corner worksurfaces. Floor support is required for runs longer than 72".

DO NOT position at the end of a panel run where no 90 degree return panel is positioned.

DO NOT use to support worksurfaces from which a hanging pedestal is suspended, or to which a peninsula worksurface is attached.

DO NOT use cantilever brackets to support worksurfaces supported with permanent wall hanger kit.

**Universal support legs** are used to support worksurfaces only in a shared position.

**End-panel supports** are used in place of return panels at the end of worksurface runs. Straight worksurfaces adjacent to 120° connections must be supported by full end panels. End-panel supports are ordered for right- or left-handed application. Leveling glides provide 1 1/2" of adjustment.

**Open Leg** models are used to support various worksurface configurations and include attaching hardware and leveling glides.

**Freestanding pedestals** can also be used to support one end of a panel-attached worksurface in conjunction with worksurface bracket.

**D-Shaped, Peninsula and Jetty worksurfaces** require support columns (ordered separately).

**Countertops** are available in straight or corner configurations.

**Corner shelves** are available in T-Mold or Edgeband options. Attachment brackets are included.

- Includes frame, baserail covers, attaching hardware and bottom segment bar.
- Frames, top caps and tiles are ordered and shipped separately.

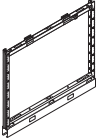

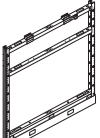

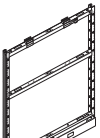

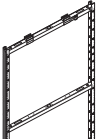

- Frames are 2 $\frac{5}{8}$ " thick with a 5"H baserail.
- Frames are standard with two adjustable leveling glides which can be adjusted from the bottom of the glide or from the interior of frame.

- Two wire and data management openings standard per raceway, 24" panel has one opening.
- Lay-in wire management available in base. Horizontal cable routing available at beltline.

- Lay-in top pathway provides additional data cabling capacity.
- For worksurfaces that can be used with both Abound® and Accelerate® systems, see pages 314-327.

⚠ **Stacking not recommended with 42" frames.**

# About® Open Base Panel Frames

Not on GSA Contract

# HON

- Includes frame, attaching hardware and bottom segment bar.
- Tiles and top caps are ordered and shipped separately.

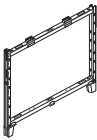

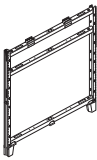

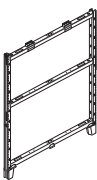

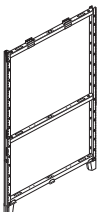

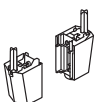

- Frames are 2<sup>5</sup>/<sub>8</sub>" thick with a 5"H open base.
- Frames are standard with two adjustable leveling glides which can be adjusted from the bottom of the glide.

- Horizontal cable routing available at beltline.
- Lay-in top pathway provides additional data cabling capacity.
- See page 271 for top cap options.

- For worksurfaces that can be used with About® and Accelerate® systems, see pages 314-327.

⚠ **Stacking not recommended with 42" frames.**

Icon Legend on page 10

- Frames, top caps and tiles are ordered and shipped separately.
- Includes attachment hardware.
- Stacking frames can be added to the top of any 35"H, 50" or 65"H frame.
- No paint selection necessary on stacking frames.
- Overhead storage units can be suspended from stacking frames. See pages 296-297.

- Segment Bars do not need to be specified for monolithic tiles, when only a single tile is attached to the frame.
- For worksurfaces that can be used with both Abound® and Accelerate® systems, see pages 314-327.

- ⚠ **Because of stack-up/segmentation mismatch, stacking on 42"H frames is not recommended unless all base frames in configuration are 42"H.**
- ⚠ **Not designed to combine differing frame widths in a single stack.**
- ⚠ **Stacking frames not designed to be used as a base frame.**

- ⚠ **Segment bars available in Black only.**
- ⚠ **Segment Bars are formed, steel cross members and are required between tiles and on each side of the frame.**

About® Stiffener Supports

GSA SIN 711-1

- Tile stiffener supports can be used to increase the stiffness of a panel and can also be used to mount power/data anywhere vertically on an Abound frame. Can only be used when there are fabric tiles on both sides of the frame.
  - Self-drilling screws included.
  - For worksurfaces that can be used with both Abound® and Accelerate® systems, see pages 314-327.
- ⚠ **Black only. No need to specify.**

## About® Sliding Door

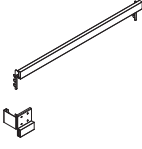

GSA SIN 711-1

# HON

- ▶ The Sliding Doors are available in 50", 65", and 80"H models and can mount to 30", 36", 42", and 48"W panels.
- ▶ All doors are 42" wide, provide a 36"W opening, and are non-handed.

⚠ **A Mounting Bracket Kit must be ordered for each door corresponding to the mounting panels width (30", 36", 42", or 48"W).**

T | 1 |

- All connectors include a light-gap strip.
- Abound connectors utilize a universal connector block designed to make one connection to the panel.

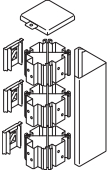

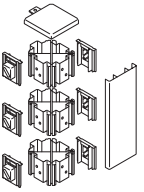

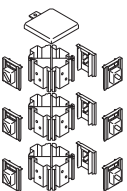

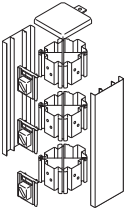

- Bracket clips come standard.
- 7"H connectors include one connector block; 15"H, 22"H, 30"H include two connector blocks; 50"H includes three connector blocks and 65"H includes four connector blocks.

- Connectors ship complete with trim.
- No universal top cap with 7"H-30"H connectors. These are to be used where base height connectors are also used, therefore additional top caps are not necessary.

- Outer trim snaps easily into place.
- Extended Straight Connectors are used to keep a frame run dimensionally consistent with opposing frame runs. Add 2 3/4" to the length of the run with each Extended Straight Connector used.

⚠ **Trim with Abound connectors can only be attached to connectors, not on panels.**

- Snaps easily onto end of frame.
- 35"H end trim includes top cap and vertical trim.
- 15"H and 30"H Finished End Trims do not include a top cap. These are only used for stacking frames which utilize the top trim and cap from the base frame to which they are attached.
- 42", 50" and 65"H **finished end trim** includes painted top **transition piece**, vertical trim and carpet grippers for extra stability.
- End trim is full length to floor; no baserail cap is necessary.
- Finished Ends include top cap trim. Adds 1½" to panel run.
- Wall Starter Kit allows panel to start from a wall. Specify trim color.
- Wall Starter adds 1½" to length of panel run.
- Anchor devices are not supplied with the wall starter kits.
- ⚠ **Variable height trim and finished ends can only be attached to panels, not attached to connectors.**

## Wall Hanger Bars and Off-Module Bracket

GSA SIN 711-1

HON

	Description	Model	Ship Weight	Cube	List by Paint Grade	
					Core	Metallics
	Wall Hanger Segment Bars					
	24"W	HRVFSBW24	2 	0.4	\$ 27	
	30"W	HRVFSBW30	2 	0.4	\$ 27	
	36"W	HRVFSBW36	3 	0.5	\$ 29	
	42"W	HRVFSBW42	3 	0.5	\$ 32	
	48"W	HRVFSBW48	3 	0.6	\$ 34	
	60"W	HRVFSBW60	4 	0.7	\$ 38	
 Includes two tile bars. Top bar may only be used in the top uppermost position on Wall Track. Bottom bar can be used in the bottom position at any point on the wall hangers. When segmenting tiles on Wall Hangers, standard Segment Bars (page 273) must be ordered for placement between each tile reveal or at the top position of a single tile that is not in the uppermost position.						
	Off-Module Bracket Kit	HRVOMOD	2 	0.1	\$ 73	\$ 83
	<ul style="list-style-type: none"><li>Includes top and bottom attachment brackets and top trim finished end.</li><li>Installation requires defacing of the top tile.</li></ul>					
	 Cannot be mounted in locations where the bottom bracket covers electrical cutouts in the base pathway on parent run panels.					

## Healthcare Crash Rail Bracket

Not on GSA Contract

- Brackets are used to attach the Koroguard® 5" Elliptical Surface Mounted Crash Rail model HNC5 and End Cap model HNC1 to Abound® and Accelerate® panels in Healthcare applications.
- Crash Rail ordered separately direct from Koroseal® Interior Products Group by calling 800.628.0449.
- Crash Rails may be ordered cut-to-length or as lineals up to 20' long.
- For specification of cut-to-length orders, provide Koroseal® with a layout showing panels, connectors and desired crash rail placement.

	Description	Model	Ship Weight	Cube	List
 Open Market	Crash Rail Bracket Kit				
	One pair	HSBB1	1	0.1	\$ 64
NOTES: Crash Rail Bracket kit includes one right and one left bracket and hardware to attach the bracket to the Crash Rail Bumper.					

Color match recommendations:		
HON Paint Color		Koroseal® Bumper Color
P	Black	Black
S	Charcoal	Charcoal
T5	Greige	Oyster
LOFT	Loft	Fog
Q	Light Gray	Overcast
T3	Muslin	White Corn
L	Putty	Buckeye Almond
SHDW	Shadow	New Slate
WHIT	Brilliant White	Simply White
T4	Champagne Metallic	Oyster
T1	Platinum Metallic	Overcast
The above list is not a perfect match, but is simply a recommendation. Other bumper colors available.		

Panel Span	Bracket Kits	Aluminum Retainer Length	Plastic Cover Length
12	1	8.625	For Cover Length: Add 0.75" to Aluminum Retainer Length
24		20.625	
30		26.625	
36		32.625	
42		38.625	
48		44.625	
60		56.625	
Crash Rail ordered separately direct from Koroseal® Interior Products Group by calling 800.628.0449. Other Crash Rail Bumper lengths available by calling Koroseal®.

Icon Legend on page 10

- Tiles attach directly onto the panels. No additional hardware is needed.
- Tiles are non-dedicated.

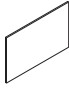

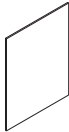

- For monolithic applications, subtract 5" from the frame height to determine monolithic tile height.

- For worksurfaces that can be used with both About® and Accelerate® systems, see pages 314-327.
- ☐ Fabric tiles have a Class A fire rating.

- ⚠ Tiles do not include segment bars, must be ordered separately. See page 273. Not needed on monolithic tiles.

- ⚠ Glass will not work with 42"H frames.
- ⚠ One segment bar required per panel reveal, per panel side.

- Tiles are made from high-pressure laminate.
- Available in all standard HON laminates.

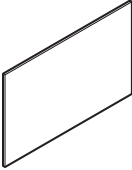

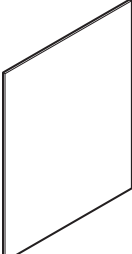

- On woodgrain laminates, grain direction is vertical.
- Tiles attach with Custom Tile Bracket Kit — included.

- Specify paint color.
- 15"H and 30"H tiles are non-dedicated and can be used in any tile position (except on 42"H frames.)
- For worksurfaces that can be used with both Abound® and Accelerate® systems, see pages 314-327.

- ⚠ All tiles ship with Custom Bracket Kit.
- ⚠ One segment bar is required per panel reveal, per panel side.

- ⚠ Tiles do not ship with segment bars — must be ordered separately. See page 273. Segment bars are not needed for 42"H monolithic tiles.

## About® Clear Glass Tiles

GSA SIN 711-1

HON

- Glass is off-set and may be placed on either side of the frame.
- Tile is a single-pane, tempered glass.

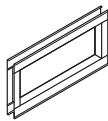

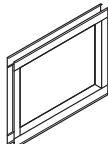

- For worksurfaces that can be used with both About® and Accelerate® systems, see pages 314-327.
- Ⓛ Glass tiles have a Class A fire rating.

⚠ Tiles do not include segment bars, must be ordered separately. See page 273. Can be used in any combination.

⚠ Glass tiles cannot be placed in the second tier (20"-35" range) due to interference with the horizontal support.

⚠ Glass will not work with 42"H frames.

# About® Frameless Glass

GSA SIN 711-1

# HON

- ▶ Tile is a single-pane, 3/8" laminated safety glass.
- ▶ Available in clear or frosted glass.

- ▶ New top cap ships with Frameless Glass which fits around the glass insert.
- ▶ Frameless Glass can span multiple panels with one piece of glass.
- ☐ Glass tiles have a Class A fire rating.

- ⚠ **Frameless Glass can only be used on the top of panels. Glass integrates into top cap trim.**
- ⚠ **Frameless Glass cannot be used on top of glass tiles.**

- ⚠ **Frameless Glass can only be used on same height panels or panels one step apart in height.**
- ⚠ **Power and data cords cannot lay in the top of panel frames when using frameless glass.**

- ⚠ **Variable height trim for Frameless Glass must be ordered when using panel heights one step up; see page 279.**
- ⚠ **Cannot hang or stack on top of Frameless Glass.**

## Product dimensions

## Overhead Storage Cabinet

**Width** 24", 30", 36", 42", 48", 60"**Inside width** Flipper and Receding door —  $\frac{3}{8}$ " less than width  
Hinged door —  $\frac{1}{4}$ " less than width**Depth**  $14\frac{7}{8}$ "**Inside depth**  $12\frac{7}{8}$ "**Height** 15"**Inside height**  $12\frac{3}{4}$ "

## Open Shelf

**Width** 24", 30", 36", 42", 48", 60"**Depth**  $14\frac{3}{8}$ "**Height**  $5\frac{5}{8}$ "**Task lights** can be mounted beneath storage shelves and overhead storage cabinets.**Cord retainer clips** fasten into panel slots to anchor power cords. Available in black only. Clips are provided with undershelf mounted task lights.

### Specification Guidelines

In a panel run, only two overhead storage cabinets or open storage shelves are recommended per panel side. When suspending overhead storage off-module only one storage unit per panel side is allowed.

**When overhead storage units are suspended from stacking frames,** the following guidelines should be adhered to:

Stacking frames should be added to all the parent run panels, and to each return-panel run. Stacking panels added to return panel must match the parent run configuration.

A maximum of two overhead storage units should be suspended from each side of stacking frames on any given panel.

**Overhead Storage cabinets** and the **Open Shelf** can also be mounted to a maximum height of 65"H on Abound frames.

No limitation to the number of units on structural frames when units are spaced 12" apart and when the run is supported with return panels on each side of storage shelves or overhead storage cabinets.

**Storage shelf and overhead width** must correspond with width of panel(s). It is possible to span two panels when combined panel width equals cabinet or shelf width.

**Abound Overhead Cabinets** can be mounted on a panel equal to or up to 18" narrower than cabinet.

Only applies to Overhead models.

# About® Overhead Storage

GSA SIN 711-1 **Except as Noted**

# HON

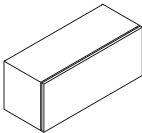

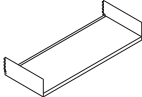

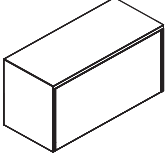

- Overhead Storage Cabinets with doors are standard with a factory installed core removable lock located on the underside of the cabinet.
- All units feature an anti-dislodgement device.
- 60" units are one piece cabinet with two doors.

- About overheads have the ability to hang on either side of the frame.
- Omit lock option.
- Upmount kits can be used with all About overheads.

⚠ **About Overheads attach with off-modular brackets allowing the overhead to be used with the Accelerate® panel system. See pages 296-297 for overhead specifying.**

⚠ **Keyed alike cores must be ordered separately — see page 684.**

Chicago Code Version —  
Specify: Model/"CH".  
EXAMPLE: HH870924CH

Abound® features capabilities for cable management, including electrical, voice, and data. The 8-wire electrical system can be integrated at base pathway and beltline. The open structure of the frame allows voice and data cables to be routed both vertically and horizontally.

## The Abound electrical systems

Abound offers a choice of three electrical systems:

- Four-circuit, 3 + 1
- Four-circuit, 2 + 2
- Three-circuit, separate neutrals

All three systems utilize an 8-wire electrical system, rated at 20 amps per circuit (15 amps Canadian). See pages 305-306 for a detailed explanation of each electrical system.

Abound frames and electrical components are UL Listed. Electrical components are also CSA certified.

Installation and use of the electrical system, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes.

**Caution: Electrical equipment cords or extension cords MUST NOT BE ROUTED through cable openings in frame sides.**

Abound's electrical harnesses are UL listed and are considered raceways themselves as defined by the National Electrical Code. This means there is no separation requirement between the electrical harnesses and communications cables per Sec. 800-52 of the National Electrical Code. Communication cables may be placed next to Abound's electrical components without a metal septum and will still meet the guidelines of the Telecommunications Industry Association for separation of power and data.

## In-feeds

**Power in-feed cables** deliver power from building to system. In-feed cables are housed in conduit to separate electrical system from communications and data lines.

**Integrated power and communications poles** provide capacity for routing power supply directly through the top of any structural or stacking frame using same width trim/connector kit in place of top cap. Avoid glass or translucent tiles in upper position of frames with integrated power poles. Power pole has a cavity on each side of a center septum. When using a ceiling power in-feed, consider that the in-feed must connect into an electrical harness located in an adjacent panel. (See pages 307-309 for cable capacity.)

**Ceiling power in-feed** connects to a prewired electrical harness in the beltline or base pathway, traverses through an adjacent panel and terminates in the junction box at the top of the integrated power pole. For use with integrated power pole models HEP65 and HEP35. No portion of the flex cable can be exposed after installation.

**Sealtight base pathway power in-feed** attaches to a receptacle opening at the base pathway. A heavy rubber sheathing shields conduit, allowing in-feed to be exposed.

**Hardwire (New York Code) Power In-Feed** (model H871400) is used when local electrical codes require hardwire entry. When used in 24"W, 30"W and 36"W panels, power can be routed only in one direction. When used in 42", 48"W and 60"W panels, an electrical pass-thru cable or harness for that panel width can be used to route power back in the opposite direction. Unit must connect to a power or pass-thru harness positioned in the base pathway area of an adjacent panel. Customer to furnish all cabling and wiring from power entry to power source. Junction box can be positioned at any duplex receptacle location.

## Hardwire (Chicago Code) Junction Box

Wiring harnesses and snap connectors are not allowed in Chicago — base pathways must be comprised of all metallic components. Concealed mounting is the only option at beltline. For the base pathway, junction box (model HH873500) clips directly into receptacle locations. Customer must furnish conduit, wiring, standard duplex receptacles with metal covers for the beltline and designer-type receptacles for the base pathway. Power entry can be routed from the ceiling, via an Abound power pole, or from the floor into a junction box (model HH873500).

### Power

**Power blocks** on electrical power harness and pass-thru harness accept duplex receptacles.

**Electrical power harnesses** are used to distribute power in panels. Abound electrical can be located at base pathway or beltline only. Connectors at both ends of power harnesses allow power distribution in either direction.

**Electrical pass-thru harnesses** have capacity to handle one duplex receptacle on each side of the panel when exposed.

A 60" pass-thru harness can be used to jump up to a single duplex receptacle per side at beltline and connecting to a power harness at base pathway.

Electrical power harnesses and pass-thru cables cannot be routed at 90° at beltline once frames are connected to connector blocks.

**Electrical pass-thru cables** distribute power through any panel where receptacles are not required. Cable length cannot be stretched.

**Electrical jumper cables** connect power from base pathway or beltline to a harness located on any horizontal member as needed. Jumper cable plugs into power block end of electrical power harness or electrical pass-thru harness.

Model HH871366 is 66" to jumper up to 30 inches vertically – base pathway to beltline or beltline to base pathway.

Jumper can also be used from beltline to adjacent beltline at 90° juncture.

### Power Blocks

**Base pathway mounting:** Power blocks snap directly onto brackets in base pathway area.

**Beltline electrical mounting:** For ported receptacles at beltline mount power blocks onto Electrical Mounting Brackets which screw into the panel frame. Electrical Mounting Brackets must be ordered separately. Data/Electrical Port Tiles must be used where exposed receptacles will be located.

### Receptacles

**Duplex receptacles** snap into power blocks of power harnesses or pass-through harnesses. Duplexes are available in multiple colors. Each receptacle is labeled to indicate which circuit it will be connected to.

### Optional Stiffener Support

Stiffener supports can be used to provide additional rigidity to a panel when fabric tiles are on both sides of the frame. May also be used for routing power/data at non-standard heights.

**All electrical power harnesses and pass-thru harnesses** will stretch 3 1/2", allowing them to span "T" and "X" intersections and "S" extended straight connections.

### Lighting

**Task lights** can be recessed under storage cabinets or storage shelves.

Task lights in four sizes are available to correspond to cabinet or shelf width. They have 9' power cords in black, connected in the right rear corner. All models feature electronic ballast for longer bulb life and cooler operating temperature. Task lights with a fused plug to meet Chicago electrical code are also available.

**Recommendation:** Provide a separate circuit for task lights for proper long-term operation without RF interference to computers that may be in use.

### LED Task Lights

No finish specification required. Attaches magnetically to underside of overhead storage, or attaches with provided screws.

Occupancy sensor attaches to a single or starter LED light and will automatically turn the light off after no motion is detected for 30 minutes.

Just like all the LED light models, the occupancy sensor features a soft-touch on/off switch. LED task lights have a lifetime of 50,000 hours and have a dimmer feature that allows the user to adjust the amount of light output.

Daisy chain options are available. To use the daisy chain application, must start with model HLED17A or HLED31A.

### Voice/Data Receptacles

Abound not only provides space for large volumes of voice and data cables, it also offers several means of mounting commercially available voice and data components.

Commercially available modular data faceplates can be mounted in vacant base receptacle openings or can be mounted in data/electrical port tiles above or below the worksurface.

**Cable management troughs** attach to worksurfaces with provided screws. The graphite metal troughs are designed with cord access cut outs. These cut outs give users access to inside the trough without having to detach it from the worksurface.

### To Order:

1. Determine which electrical system you will use after consulting your electrician and computer support personnel:

- **The Four-circuit system (4-Hot/2-Neutral/2-Ground)**
  - 3 + 1 option
  - 2 + 2 option
- **The Three-circuit system (3-Hot/3-Neutral/2-Ground)**

2. Determine location, quantity and circuit of duplexes.

3. Determine the appropriate choice and use of Isolated, Isolated/Dedicated and Separate Neutral circuits.

4. Specify appropriate Power Harnesses\* and Pass-Thru Cables.\*

5. Determine the location, quantity and type of Power In-feed needed.

\* Select Power Harness models (HH8712XX) and Pass-Thru Cables (HH8711XX) with the last two digits being 1" (or 2") smaller than the associate panel width.

## Electrical System Options

The four-circuit, eight-wire electrical system is widely specified and trusted by hundreds of thousands of end-users. This proven system delivers four circuits for every power infeed in either a 3 + 1 or 2 + 2 configuration. The isolated/dedicated circuits are ideal for sensitive computing equipment, while the common circuits are suitable for faxes, copiers, task lights and other peripherals.

Both the 3 + 1 and 2 + 2 systems use the same pre-wired components, making it easy to adjust as electrical needs change.

You can also choose a three-circuit, eight-wire system that has a dedicated neutral for every hot circuit. The three-circuit components have model numbers with an "A" suffix and appear in a gray box in this pricer.

### Four-circuit, 3 + 1 Receptacle Option

The 3 + 1 option is the electrical standard used by The HON Company for many years in most of their systems products. This wiring option provides three utility circuits plus an isolated/dedicated circuit for more sensitive equipment.

### Four-circuit, 2 + 2 Receptacle Option

The 2 + 2 option is a wiring option that provides two utility circuits and two isolated circuits for more extensive computer usage applications.

### Three-circuit, separate neutrals

The Three-circuit, separate neutrals configuration is a wiring option that provides separate neutrals for each of the three circuits. Two circuits share a common ground, and one circuit is isolated/dedicated. The three-circuit components have model numbers with an "A" suffix and appear in a gray box in this pricer.

#### Two 8-wire, 20 AMP (15 AMP Canadian) electrical systems are offered

Electrical System	Circuitry	Receptacle Capacity			
<b>Four-circuit</b> <b>4-Hot/2-Neutral/2-Ground</b>  (10 gauge neutral wires)	3 + 1	Common Circuit-1 <b>HH873501</b>	Common Circuit-2 (1) <b>HH873502</b>	Common Circuit-3 <b>HH873503</b>	Iso/Dedicated Circuit-4 <b>HH873504</b>
	2 + 2	Common Circuit-1 <b>HH873501</b>	Common Circuit-2 <b>HH873502</b>	Isolated Circuit-3 <b>HH873506</b>	Isolated Circuit-4 <b>HH873504</b>
<b>Three-circuit</b> <b>3-Hot/3-Neutral/2-Ground</b> (12 gauge neutral wires)	w/separate neutrals	Common Circuit-1 <b>HH873501A</b>	Common Circuit-2 <b>HH873502A</b>	Iso/Dedicated Circuit-3 <b>HH873503A</b>	N/A

#### Notes:

- Four-circuit components and three-circuit components (with suffix "A") cannot be used together.
- Components of the two systems are keyed differently to prevent components of one system from being connected to components of another system.
- HON Cat. Nos. are printed on the UL labels, and components are color-coded to provide visual identification of the different components.
- Four-circuit components have black plastic parts.
- Three-circuit components have rust-colored terminal ends and receptacle backs are rust colored.

(1) Circuit-2 (one of the 3 common circuits sharing a neutral wire) cannot be used with a single-phase building electrical supply.

#### Typical power usage by the most commonly specified office equipment.

#### Duplex Receptacles

15 AMP Receptacle

20 AMP Receptacle  
(Required by some large copiers.)

- Abound panels are UL listed.
- Electrical components are UL Listed and CSA Certified.
- It is the customer's responsibility to ensure that use of the pre-wired electrical system, the number of receptacles used on a given circuit, and connection to a building power source, be in compliance with all local and national electrical codes.

- Contact Customer Service for additional information.
- Pedestals and Lateral Files, positioned under work surfaces, may render some receptacles inaccessible, and may prohibit use of grommets.

- Four-circuit components and Three-circuit components (with suffix "A") cannot be used together. See pages 305-306.
- ⚠ **A licensed electrician must make connections to a building electrical supply.**

- ⚠ **Three-way panel connections require at least one power harness.**
- ⚠ **4-way panel connections require at least two power harnesses.**

### Definition of components:

#### Electrical Power Harness

- Used to distribute power in panels.
- Power distribution in either direction.
- Specify Power Harness to match panel width.
- Double-sided: receptacles can be inserted into both sides of Power Blocks.
- ⚠ **Three-way panel connections require at least one power harness.**
- ⚠ **4-way panel connections require at least two power harnesses.**

#### Electrical Pass-Thru Cables

##### Pass-Thru Cable With Duplex Capacity:

- Use in panels where multiple receptacles are not required.
- Added feature: has capacity for one receptacle on each side of a panel. Feature offers future expansion and is an alternative to Power Harnesses.

#### Various Electrical Layouts

Straight Line

90 Degree Corner

"T" Connection

When ending power in two return panels, wiring pigtails must be returned to original panel run.

"X" or Cross Connection

To power a 4-way panel connection from one direction, specify at least two double block harnesses.

#### Duplex Receptacles

- 15 amp outlet configuration.
- Models HH871601 and HH871601A have a 20 amp outlet configuration.
- Fit back-to-back into the Power Block(s) of Power and Pass-Thru Harnesses.
- Labeled with the provided circuit. Circuits connected to the Isolated Ground are identified with an orange triangle; circuits that do not share a neutral or ground have an orange circuit number.

#### Power In-Feed (Base) Models HH879072 (72") and HH879168 (168")

- Used to connect the panel electrical system to the building electrical supply at a power block.
- Plugs into any receptacle position; can be rotated Left or Right.
- Conduit is UL listed Black Liquid-tight conduit (outside diameter is 1/8").
- ⚠ **A licensed electrician must make connections to a building electrical supply.**
- ⚠ **Must be positioned through a receptacle opening in the baserail cover, prior to an electrician connecting to the power source.**

#### Power In-Feed Model (Ceiling) HH871912 and HH871972

- Used to connect the panel electrical system to the building electrical supply.
- ⚠ **A licensed electrician must make connections to a building electrical supply.**
- ⚠ **Model uses UL recognized flex-cable conduit — no portion can be left exposed (i.e., must be in a power pole).**
- ⚠ **Power Pole HEP35/HEP36 must be ordered separately.**

HH871972

Note: In-feed cables listed above may be field-cut to desired length.

#### Electrical Jumper Cables

- ⚠ **When used to connect power between the base pathway and the beltline area, the jumper must be connected to a power block at one end of a run, routed into an adjacent panel that does not contain a power harness, then routed back into the panel containing a power harness or pass-thru cable and connected to a power harness in the other pathway.**

HH871366

#### Electrical Mounting Brackets

- Use to mount ported receptacles at beltline.
- Screw into the panel frame.
- ⚠ **One mounting bracket required at beltline for each 24"W pass-thru or power harness. Two required for 30"-60"W power harness.**

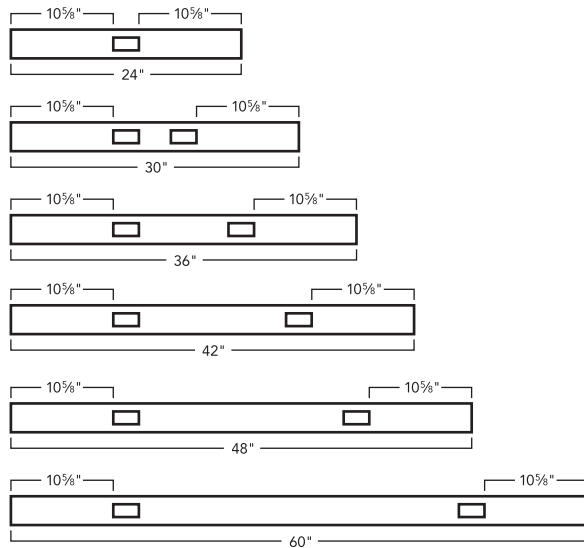

HH8988EBN

## Working with Cable Management

## Base Pathway Receptacle Locations

## Abound® Lay-in Cable Capacity

The top and base pathway allow continuous voice and data lines to run through and between panels without interruption. Lay-in is provided for environments where systems furniture or cabling are subject to frequent change. All capacities are for Cat 6 cable with a 0.25" diameter.

End View  
8 cables

Top pathway accepts up to 8 voice/data cables (.25" dia.).

## Abound® Lay-In Cable Capacity

Top View  
3 cables

Variable height junctions accept up to 3 voice/data cables (.25" dia.).

## Abound® Cable Capacity

56 cables

Abound® base pathway accepts up to 56 voice/data cables (.25" dia.) (6.03 sq. in.) at 60% fill.

16 cables

When electrical system shares base pathway, the cable capacity in Abound is reduced to 16 cables (2.25 sq. in.). Cable quantities listed are at 60% fill ratio.

66 cables with power

Cable capacity of the power pole, in addition to electrical in-feed is 2.79 sq. in. on one side and 2.91 sq. in. on the other for a total capacity of 66 cables with power of .25" diameter.

## Accelerate® Cable Capacity

64 cables

Accelerate® base pathway accepts up to 64 voice/data cables (.25" dia.) (6.27 sq. in.) at 60% fill.

20 cables

When the electrical system shares the base pathway, the cable capacity in Accelerate® is reduced to 20 cables (.25" dia.) (2.03 sq. in.) at 60% fill ratio.

25 cables with power

Integrated Power Pole: 2" x 2" overall, 3.3" interior accommodates a total of 25 cables with power of .25" diameter. Available in two heights: 6'6" or 13', the power pole connects via the universal connector and the overall height is the sum of the connector and the power pole. Constructed of aluminum with a powder coat paint finish in the specified color. Power pole requires a Ceiling In-Feed.

**Ceiling In-Feeds:** UL listed as raceways. This means the electrical components are completely shielded and meet any requirements for separation of electrical components and communications cables per Section 800-52 of the National Electrical Code.

## Circuit Usage

## Strategy 1

## Circuits to Equipment

Assign specific uses for each of the circuits:

- For example, in a four-circuit system:  
*Circuit 1* — Calculators, fans, etc.  
*Circuit 2* — Task lights (could be wired to wall switch)  
*Circuit 3* — Computer monitors  
*Circuit 4* — CPUs

## Strategy 2

## Circuits to Workstations

Assign specific workstations to each of the three available circuits. Use circuit 4 for power-sensitive electronic equipment.

**Placement of pedestals and lateral files** may render some duplex locations inaccessible. Pedestal placement may also affect compatibility with pull-up receptacles.

### About String-in Capacity

**Openings in frame sides** permit electrical data and communication cables to be run between frames in Abound. Using tackable acoustical tiles, the beltline pathway accommodates up to 62 cables (.25" dia) or 46 cables with electrical components installed.

DO NOT run electrical equipment or extension cords through cable openings in frame sides. Use beltline or base-mounted electrical system for all electrical supply.

**Cables can enter/exit panel** through underside of base pathway at juncture between frames. Openings are sized as follows (in sq. in.):

Straight connection	6.0
"S" Extended Straight Connection	10.0
"L" 90° Connection	8.9
"T" Connection	15.9
"X" Connection	17.9
"Y" Connection	—

When leveling glides are fully retracted, panel-to-floor clearance is  $7\frac{1}{16}$ ". This may affect the volume of cabling that can be fed into the frame from the bottom of the pathway.

- A 60% fill ratio is achievable; however, when electrical components are installed in the beltline area, cabling capacity through the beltline area will be limited to approximately 45% fill ratio.

### Vertical Capacity

#### Vertical Capacity Through panel Frames

	Panel Width	Qty. of .25" Cables at 45% Fill Ratio	Qty. of .25" Cables at 60% Fill Ratio	Total Space (sq. in.)
Abound	24" – 60"W	48	64	5.26

## Systems Worksurfaces — Primary

GSA SIN 711-1

HON

- Worksurfaces may be used with Accelerate®, Abound® and Voi® products.
- Worksurfaces are constructed of laminate on 1 1/8" solid core high-performance particleboard.
- Specify T or P after the model number for T-mold or Edgeband options.
- Models up to 42"W are standard with one centered grommet. Models 48"W and wider are standard with two grommets.
- Accelerate® adds a "C" prefix and "T" suffix and Abound® adds a "B" prefix and "T" suffix to the Model Number for primary worksurfaces to span a TEE or EXTENDED STRAIGHT connection. Add upcharge of \$30 List per model.
- Add suffix "N" to Model Number for worksurfaces with no grommets. No upcharge.
- Add suffix "S" to Model Number before edge detail selection for worksurfaces with scallops. No upcharge.
- EXTENDED STRAIGHT worksurfaces are available with grommets only.**
- 60"W, 66"W and 72"W worksurfaces require one or more of the following: worksurface support brackets, end panel, external channel universal support leg or pedestal support in conjunction with cantilever brackets.
- If the panel is a greater dimension than the worksurface and the run of worksurfaces is greater than 6 feet, a floor support or worksurface bracket is required.
- When a run of worksurfaces equals or exceeds 6 feet, a floor support is required for worksurface structural assurance.
- All worksurfaces load tested to BIFMA standards.

- Worksurfaces may be used with Accelerate®, Abound® and Voi® products.
- Worksurfaces are constructed of laminate on 1½" solid core particleboard.
- Refer to Worksurface Supports, pages 332-336.
- Universal support leg can be used to share support when worksurfaces are placed side-by-side.
- Add suffix "N" to Model Number for worksurfaces with no grommets. No upcharge.
- Add suffix "S" to Model Number before edge detail selection for worksurfaces with scallops. No upcharge.
- ⚠ 60"W, 66"W and 72"W worksurfaces require one or more of the following: worksurface support brackets, end panel, external channel universal support leg or pedestal support in conjunction with cantilever brackets. A full end panel can also be used for support in place of cantilever brackets.
- ⚠ When a run of worksurfaces equals or exceeds 6 feet, a floor support is required for worksurface structural assurance.

Systems Worksurfaces — Split Top

GSA SIN 711-1

- Worksurfaces may be used with Accelerate®, Abound® and Voi® products.
- Worksurfaces are constructed of laminate on 1 1/8" solid core high-performance particleboard.

Edgeband	Description	Model	Ship Weight	Cube	List
	Split Top Corner Worksurfaces with Curved User Edge 42"W x 24"D	HWSC4224P	65	4.9	\$ 691

- Two cantilever brackets standard per worksurface.
- One small worksurface bracket standard with each worksurface.

- ⚠ Available in edgeband with grommet only.
- ⚠ Corner worksurfaces must match exactly the panel behind them, i.e.: a 42" panel must be used on the back two sides of model HWSC4224(?).
- ⚠ Requires adjustable height mechanism. Must order separately, see below.

HWSC4224P

- Stable, durable design.
- Supports large widths and can be customized for workstations.
- Slim arms for better knee clearance.
- Height adjustable within 19" range (12.5" above and 6.5" below worksurface).
- 30" platform tilt feature (15° positive and 15° negative tilt).

Adjustable Height Mechanism	Description	Model	Ship Weight	Cube	List

# Systems Worksurfaces — Half Round / Quarter Round / 60° Wedge

GSA SIN 711-1

# HON

- Worksurfaces are constructed of laminate on 1 1/8" solid core high-performance particleboard.
- Choose from T-mold or Edgeband edge options.

## Half Round Worksurfaces

- Order Support Column and End Panels separately.
- Mate only with other T-Mold and Edgeband worksurfaces.

## Quarter Round Worksurfaces

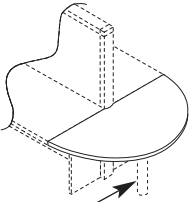

- Two Flat Brackets and one Tie Bracket included.
- Mate only with other T-Mold and Edgeband worksurfaces.

## 60° Wedge Worksurfaces

- Two flat brackets and one tie bracket included.
- Mate only with other T-Mold and Edgeband worksurfaces.

Refer to Worksurface Supports, pages 332-336.

## Coordinate™ Height Adjustable Base

GSA SIN 711-2 Except as Noted

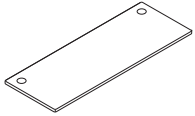

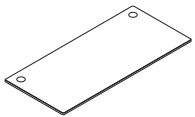

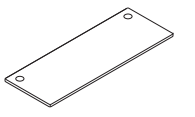

HON

- Height Adjustable Base is a 3-stage column design.
- Frame rises from 23<sup>5</sup>/<sub>8</sub>" to 49<sup>1</sup>/<sub>4</sub>" for a sit-to-stand desk option.
- Height Adjustable Bases shipped complete with a preassembled motor.
- Base telescopes to accommodate any worksurface between 48"W and 72"W.
- Systems Rectangle Worksurfaces for Height Adjustable Bases designed for use in panel systems. Worksurface is 1" shorter in width on each side to provide clearance between panels and other worksurfaces.
- Standard height-adjustable control ships with base.
- Dynamic load capacity when worksurface is moving is 300 lbs.
- Optional Memory Control allows preset worksurface heights for consistency. Ships separately.
- Silver finish matches any neutral HON paint or finish color.

⚠ HON's Optional Memory Control (HHABMEM) does not work with the *basyx* by HON® Height Adjustable Base.

⚠ When attaching a Keyboard Tray, remember to also specify a Keyboard Spacer Kit (HKBS).

## Systems Worksurface Supports

GSA SIN 711-1

# HON

### Full End Panel

- Levelers provide 1½" vertical adjustment.

### Support Leg

- Use at 90° panel junctions or in a shared position to support adjoining worksurfaces.
- A support leg can be used with a "Z" Bracket to support adjoining worksurfaces at different heights.
- Provided with flat bracket.
- Levelers provide 1½" vertical adjustment.

### Open Leg

- Open leg includes attaching hardware and leveling glides.
- Leveling glides provide 2¼" of adjustment.
- Open leg is universal shared with a left and right-hand attachment bracket.

- Use the anti-dislodgement bracket when using a worksurface in a peninsula application with a post or O-leg.
- The supports included on this page can be used with Systems and Worksurfaces.

⚠ End panel support with bracket will attach to both Accelerate® and Abound® panels.

► O-leg glides have 2" adjustability.

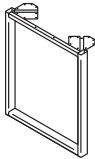

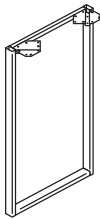

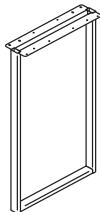

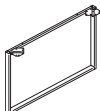

► Shared O-legs create a cleaner aesthetic in all applications where two legs are used side-by-side.

► O-Leg to Panel Attachment Brackets are used to connect Voi® O-Legs to a systems panel for additional worksurface rigidity.

► Will have 6" overhang when using 30"D O-legs with a 36"D worksurface.

⚠ O-legs may only be attached to worksurfaces, not storage units.

GSA SIN 711-1

HON

**Support Column**

- Used to support one end of a peninsula, round or half-round worksurface. (Includes panel support brackets.)
- Levelers provide 1½" vertical adjustment.

**Flat Brackets**

- Flat Brackets can be used to connect one worksurface perpendicular to another worksurface.

**Worksurface Bracket Kit**

- Used to connect the end of a worksurface to a panel of the same width.

- The supports included on this page can be used with Systems Worksurfaces.

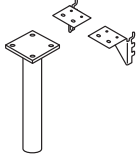

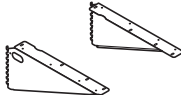

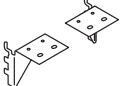

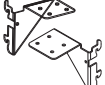

- ⚠ **Worksurfaces should not be supported with Cantilever brackets when using Permanent-Wall Hanger Kit.**

**Accessory Cantilever**

- ⚠ **Use with runs 72" or less – avoid installation on only one side of a straight connection except to support corner worksurfaces. Floor support is required for runs longer than 72".**
- ⚠ **DO NOT position at the end of a panel run where no 90 degree return panel is positioned.**

- ⚠ **DO NOT use to support worksurfaces from which a hanging pedestal is suspended, or to which a peninsula worksurface is attached.**
- ⚠ **DO NOT use cantilever brackets to support worksurfaces supported with permanent wall hanger kit.**

- The Pedestal to Panel Bracket Kits are used to attach a 22<sup>7</sup>/<sub>8</sub>"D pedestal to a 24"D worksurface, or 28<sup>7</sup>/<sub>8</sub>"D pedestal to a 30"D worksurface.
- The Worksurface to Tower Bracket Kit replaces the need for a panel attached end panel.
- Use the anti-dislodgement bracket when using a worksurface in a peninsula application with a post or O-leg.

# Systems Worksurface Supports

GSA SIN 711-1 Except as Noted

## Permanent-Wall Hanger Kit

➤ Used to hang storage cabinets and bookshelves from permanent wall, and/or to attach worksurfaces to permanent wall.

➤ Wall track has 1/8" x 1/2" slots on 1" centers.

➤ Customer to furnish connecting hardware. (Refer to Installation Instructions for appropriate hardware.)  
➤ Includes a cover for top of channel.

⚠ **Worksurfaces should not be supported with Cantilever brackets when using Permanent-Wall Hanger Kit.**

## GSA SIN 711-1

## Systems Standard Height Support Pedestals

- 28"H fits under all HON worksurfaces and desk shells.
- Ball-bearing suspension on file drawer (90% extension), and box drawer (90% extension on both drawers).

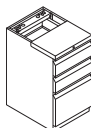

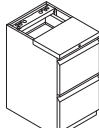

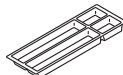

- File drawers have high sides for filing front-to-back.
- Front casters are fixed, rear casters swivel on mobile pedestals.

- Available in "R" pull only.
- Freestanding models have a partial top and must be used under a worksurface only.

- Mobile pedestal models do not possess a counterweight which must be ordered separately if not positioned under a worksurface.

⚠ **Freestanding support pedestals that are not positioned and attached under a worksurface, require a counterweight kit found on page 436.**

## Edge Treatments

"T" Thin T-Mold

"P" Edgeband

(Color must be selected.)

## WORKING WITH ABODE™ COMPONENTS

### Configurations

### End Panels and Support Legs

Each are available in two options: freestanding or panel-mount. The only difference between the two options are the panel-mount models come with a left- or right-handed bracket to attach the support to a panel in a systems application.

The 11"D end panel is used to support peninsulas.

### Corner Desk Legs

Corner desk legs have a 90-degree bend and welded construction. The strong construction allows gussets or half-height modesty panels to be used with corner legs.

### Bridge Kits

Bridge kits include: two flat brackets, two modesty panel-to-end panel attachment brackets, and two tie straps. This kit is used when attaching a bridge unit between two rectangular worksurfaces.

There are some bridge instances where only half of a bridge kit is needed (e.g., using a bridge between a rectangular worksurface and a corner or peninsula). A return kit may be ordered for these instances.

### Support Column

Support columns are used to support one end of curvilinear worksurfaces. Includes column, worksurface bracket kit HWSA2, attaching hardware, and adjustable glides.

### Return Kits

Return kits include: one flat bracket, one modesty panel-to-end panel attachment bracket, and one tie strap. These are used when attaching a return to a primary desk. Return kits can also be used in some bridge applications — one example is shown below when using a peninsula.

### Desk-to-Panel Attachment Kits

Desk-to-panel attachment kits are used to connect a worksurface and modesty panel perpendicular to a panel of corresponding width. Opposing end of worksurface must be attached with an end panel, support leg, or corner leg mounted directly under this worksurface.

When using a corner or corner cove worksurface with the rear corner attached to a panel, and opposing end of worksurface is attached to a freestanding desk, use corner w/desk attachment kit. Hand of unit is determined from the user's side of the desk (right-hand unit attaches to right side of modesty).

### Corner w/Desk Panel Attachment Kit

Corner w/desk panel attachment kit connects the rear corner of a corner or corner cove worksurface and modesty panel to a panel when the opposing end of the worksurface shares a support leg with an adjacent freestanding desk and the support leg is mounted under the freestanding desk. Hand of unit is determined from the user's side of the desk (left-hand unit attaches to left side of modesty).

### Corner Worksurfaces

Corner worksurfaces accommodate 90-degree corner desk legs.

### In-Line Connections of Desks

Shared leg can be used at in-line connections to support adjacent rectangular desks.

### Pedestals and Storage

Pedestals must be ordered smaller than the depth of the worksurface. For example, 20"D peds should be used with 24"D worksurfaces. 20"D or 23"D pedestals can be used with 30"D worksurfaces. Using 18"D laterals or personal files provide additional storage options under 24"D worksurfaces.

### Modesty Panels

The following are some general guidelines for Abode™ modesty panels:

- **Desk:** Modesty panel width is the same width as the worksurface
- **Return:** Modesty panel width is 6" greater than the width of the worksurface
- **Bridge connecting two rectangular worksurfaces:**  
Modesty panel width is 12" greater than the width of the bridge worksurface
- **Bridge connecting a rectangular worksurface and corner or peninsula:**  
Modesty panel width is 6" greater than the width of the worksurface
- **Corner connecting to an adjacent worksurface:**  
Modesty panel width is the same width as the worksurface.

### Stand-Alone Corner Modesty Panels

Stand-alone corner modesty panels are used only when one or both sides of a corner or corner cove worksurface are freestanding and NOT attached to another worksurface. Specify the width the same as the width of the worksurface.

### Gussets "G"

Gussets can be used in place of a modesty panel with desks 36"W to 60"W. Gussets can also be used with corner desk legs.

The following five pages contain examples of Abode™ workstations. Each “typical” is shown in 3D hidden line perspective. Along with each typical is a complete listing of all the components. Use the information and format to better understand the layout and specifying of Abode™.

### Recommended Edgeband Color Selection:

Laminate	Edgeband
Bourbon Cherry H	Bourbon Cherry H
Cognac COGN	Cognac COGN
Harvest C	Harvest C
Mahogany N	Mahogany N
Mocha MOCH	Mocha MOCH
Natural Maple D	Natural Maple D
Pinnacle PINC	Pinnacle PINC
Shaker Cherry F	Shaker Cherry F
Brilliant White WHIT	Brilliant White WHIT
Sheer Mesh A5	Muslin T
Silver Mesh B9	Loft LOFT

Replacement Duplex Receptacle Covers are made from a polymer material and are available in the following colors only:

Black P  
Muslin T3  
Shadow SHDW

Below is a list of suggested Receptacle Cover colors that will coordinate with HON Paint options:

Paint	Receptacle Color
Brilliant White WHIT	Muslin T3
Charcoal S	Black P
Greige T5	Muslin T3
Light Gray Q	Muslin T3
Loft LOFT	Muslin T3
Muslin T3	Muslin T3
Putty L	Muslin T3
Shadow SHDW	Shadow SHDW

## Accelerate® Ordering Information

## ► FOR PANELS

SPECIFY: Model Number

### Intersecting connections

**"L", "T" and "X" connector kits** are used when connecting frames at intersecting runs. For "L", "T" and "X" connector kits, add 2 1/4" to the total length of the panel run for each intersection, whether located in the middle or at the end of the run.

**Wall starter kits** provide a means to affix a panel run to a permanent building wall. Kit adds 7/8" to length of panel run.

### Stacking panels

Stackers add 15" to the height of the base panel and can be ordered separately or as part of the panel model, see pages 362 and 366.

When adding stackers to an existing panel, a new connector must be ordered, to the tallest panel height. Please note that Stacking Panels are not to be used freestanding and must match the panel width of the panel it is stacking on.

Cannot use a stacking panel on a Top Tier Glass Panel model.

Stackers ship with pins to connect stacker to post connector for added rigidity.

Stackers can be stacked up to 80"H on a base panel. Stackers are weight bearing and can accommodate overhead storage.

### Extended straight connector kit "S"

can be used to keep continuous runs dimensionally consistent with opposing panel runs which incorporate "T" or "X" intersections. (Add 2 1/4" to the length of the run for every extended straight connector used.)

### In-line connections

There is no incremental increase in dimension along the panel run when using an in-line connector kit.

### End of run

Finished end trim must be specified for the unconnected sides of panel. When adding a stacking panel, order finished end trim in the height that matches the total stacked height. Move the end cap from the standard frame end trim to the stacking frame end trim.

Accelerate® frameless glass is single pane, 3/8" thick laminate safety glass, available in clear or frosted glass.

Frameless glass can only be used on the tallest panel in a typical, not at inline or post connectors with variable

height. Frameless glass is not allowed on top of glass stackers or glass header panels and hanging or stacking on frameless glass is not permitted.

Frameless glass can span multiple panels with one piece of glass, creating a clean, seamless look.

**In-line Variable Height Trim** In-line connections between different height panels require trim to cover the exposed frame of the taller panel.

### Variable Height Connector Trim

L, X and T connections between different height panels require trim to cover the exposed connector. The bottom of the trim is flat to match the profile of the top cap. Models are designated as "Variable Height Connector Trim". For variable height connections in a Y configuration, contact the Accelerate Specials Department.

**Multiple-height connections** are accomplished by combining standard height panel connectors (35"H, 42"H, 50"H and 65"H) with shorter trim kits (7"H, 15"H, 22"H and 30"H). Start from the top-down — select the standard connector that corresponds to the height and connection type of the tallest panel. (See examples.)

#### Example 1

Connectors required:  
1-50"H "T" Connector  
2-15"H Connector VH Kit  
2-35"H End Trim  
1-65"H End Trim

In variable height "T" connections — as shown above — you would use the connectors as indicated.

#### Example 2

Connectors required:  
1-50"H "X" Connector  
2-7 1/2"H Connector VH Kit  
2-50"H End Trim  
2-42"H End Trim

#### Example 3

Connectors required:  
1-65"H "T" Connector  
1-15"H Connector VH Kit  
1-22 1/2"H Connector VH Kit  
1-65"H End Trim  
1-50"H End Trim  
1-42"H End Trim

Example above represents Accelerate variable height "L" for 65" to 50".

### Tackable and Non-Tackable Panels

Non-tackable panels have a unique substrate which may cause a slight color variation with certain, light-colored fabrics.

### Top Caps

Top caps must be specified as a separate model from the panel. Top caps can span more than one panel when panels are connected in an in-line.

## Accelerate® Working with Panels

# HON

### Panels

- Accelerate® Panels are 2 1/8" thick and available in 4 heights / 8 widths.

**NOTE:** Actual panel height varies depending on position of levelers.

NOMINAL PANEL HEIGHT	PANEL WIDTHS							
35"	20"	24"	30"	36"	42"	48"	60"	72"
42 1/2"	20"	24"	30"	36"	42"	48"	60"	72"
50"	20"	24"	30"	36"	42"	48"	60"	72"
65"	20"	24"	30"	36"	42"	48"	60"	72"

### Maximum Receptacle Capacity in Panel Base Pathways

Widths	20	24	30	36	42	48	60	72
Maximum of 1 duplex per panel side	N/A	X						
Maximum of 2 duplexes per panel side	N/A		X	X	X	X	X	X

The center of the duplex is always 12" from the end of the panel on all Accelerate® panels.

### Panel Specification and Installation Notes

#### Definitions:

**Parent Panel Run** – Panels (or a single panel) configured in a straight line intended to divide space. It is usually longer than the panels used to stabilize it.

**Return Panels** – Panels attached to a parent run for the purpose of stabilizing it. Return panels may also have the effect of dividing space.

**Note:** Return panels must be no more than 30" lower than the maximum height of the parent panel run. When stacking, the maximum height allowed is 80". This includes frameless glass. If attaching overhead storage, return panels must be the same height as parent run.

#### Method 1: Opposing Returns

A parent panel run must be a minimum of 4 feet and a maximum of 10 feet, and must have a minimum of two return panels extended in opposing directions on each side of the parent run.

Minimum Return Panels	Minimum Return Panels with Stack-ons

20"	20"
24"	24"
24"	24"

#### Method 2: Single Sided

A parent panel run must be a minimum of 4 feet and a maximum of 10 feet, and must have a minimum of two return panels (X+Y) extended in one direction (one at the beginning and at the end of the parent run) as defined below.

Minimum Return Panels Total (X+Y)	Minimum Return Panels Total (X+Y) with Stack-ons

84"	96"
84"	96"

Worksurfaces are 1¼" thick with particle-board core and with top surfaces finished in high-pressure laminate. Bottom surfaces are covered with a backer sheet.

**Primary worksurfaces** are available in 18", 24" and 30" depths. Nominal worksurface width is equal to nominal panel width. Other support hardware is ordered separately.

**Corner Dual-Surface Worksurfaces** provide maximum worksurface adjustability for seated individuals of all heights. Corner dual-surface worksurfaces can be mounted to panel at any basic product height. Corner worksurface must match exactly, the panel behind them. Requires adjustable height mechanism, ordered separately.

**Corner worksurfaces** with woodgrain laminate have grain direction diagonal to adjacent worksurfaces. One rear center support bracket is included. All other support hardware is ordered separately.

**Wire management grommets** are standard in most worksurfaces. Grommets are available in the same colors as t-mold and edgeband. Worksurfaces less than 48"W have one grommet/scalloped centered on edge of worksurface. Rectangular worksurfaces over 42"W have two grommets/scallops. Peninsulas have one grommet or scallop. Corner Worksurfaces have one grommet or two scallops (one on each back edge). D-Shaped worksurfaces and countertops do not have grommets or scallops.

**Edgeband and T-Mold Edge trim** is available on laminate tops in standard colors (customer specified) to match or complement solid, patterned, or woodgrain laminates.

## Connector Kits — Accelerate®

<b>TPS</b>	In-line Connector
<b>PS</b>	Extended Straight Connector
<b>PL</b>	"L" Connector
<b>PT</b>	"T" Connector
<b>PX</b>	"X" Connector
<b>P2</b>	120° 2-way Connector
<b>P3</b>	120° 3-way Connector
<b>CV</b>	Connector Variable Height Finishing Kit
<b>VH</b>	In-line Variable Height Finishing Kit

## Additional Models for Use with Connector Kits

<b>FE</b>	Finished End Covers
<b>WS</b>	Wall Starter Kit
<b>WT</b>	Wall Track

## Panel-to-Panel Connector

- Attaches same height, panel-to-panel in a straight run with screws.
- Ensures alignment on panels in a straight run.

## Wall Starter Kit (see page 369)

- Anchor devices are not supplied with the wall starter kit. Refer to Accelerate® Installation Instructions for appropriate hardware.
- Adds 7/8" to length of run.

**Optional width worksurfaces** are available for use with panel runs having a TEE or Extended Straight connection.

**Worksurfaces** can be configured at 29 1/2" with end-panel supports and support legs, or at various heights on 1" increments using specific product configurations.

### Worksurface support options include:

- Open leg models
- Support column
- Flat brackets
- Worksurface bracket kit
- Cantilever bracket
- Universal support leg
- End-panel support
- Freestanding pedestal

### Other worksurface supports include:

- Support columns
- External channel supports
- Support pedestals
- Pedestals with panel-to-pedestal bracket
- Desking freestanding shared leg

### Support Guidelines:

- Unsupported panel runs greater than 72"W need floor support for improved stability.
- Worksurface bracket kit should be used to tie panels to worksurfaces for added stability.
- A panel run without a return needs a floor support.
- Unsupported worksurface spans of 60"W-84"W require an external worksurface support channel. It is recommended for 48"W-60"W.
- Cantilevers only to be used on worksurface runs 48"W or less.

**Worksurface bracket kit** allows one end of a worksurface to be supported by a return panel. Return panel width must be the same as the depth of the worksurface.

**Flat brackets** can be used to connect one worksurface perpendicular to another work-surface.

**Cantilever brackets** are left or right handed. They can be inserted into panel reveals in 1" vertical increments. One size is used for both 24" and 30"D worksurfaces. 18" Cantilever brackets are used for 18"D worksurfaces. Both left and right brackets are required in shared applications.

**Important:** Do not use cantilever brackets at the end of a worksurface where no 90° return panel is positioned.

- Do not use to support worksurfaces from which a hanging pedestal is suspended, or which a peninsula worksurface is attached.
- Do not use to support worksurfaces supported with permanent wall hanger kit.

**Universal support legs** are used to support worksurfaces only in a shared position.

**End-panel supports** are used in place of return panels at the end of worksurface runs. Straight worksurfaces adjacent to 120° connections must be supported by full end panels. End-panel supports are ordered for right- or left-handed application. Leveling glides provide 1 1/2" of adjustment.

**Open Leg** models are used to support various worksurface configurations and include attaching hardware and leveling glides.

**D-Shaped, Peninsula and Jetty worksurfaces** require support columns (ordered separately).

**Countertops** are available in straight or corner configurations. Mounting hardware is included.

**Corner shelves** are available in T-Mold or Edgeband options. Attachment brackets are included.

- Unsupported worksurface spans of 60"W-84"W require an external worksurface support channel. It is recommended for 48"W-60"W.

### EXTERNAL CHANNEL SELECTION GUIDE

Support Combination		Rectangle Worksurface Width			
		Recommended		Required	
Worksurface End Support 1	Worksurface End Support 2	54	60	66	72
End Panel	End Panel	42"	48"	54"	60"

End Panel	Cantilever	42"	48"	54"	60"
End Panel	Open Leg	42"	48"	54"	60"
Pedestal	Pedestal	NA	NA	NA	NA
Pedestal	Worksurface Brackets	NA	NA	NA	42"
Pedestal	Cantilever	NA	NA	NA	42"
Pedestal	Open Leg	NA	NA	NA	42"
Worksurface Brackets	Worksurface Brackets	42"	48"	54"	60"
Worksurface Brackets	Cantilever	42"	48"	54"	60"
Worksurface Brackets	Open Leg	42"	48"	54"	60"

See page 85 for External Channel models.  
Supports above are recommended for worksurfaces 54"W or 60"W. For 66"-72" worksurfaces, the supports are required.

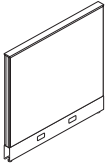

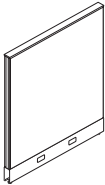

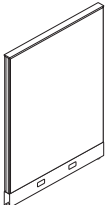

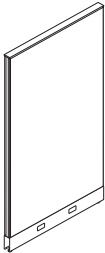

## Accelerate® Tackable Raceway Panels

Not on GSA Contract

HON

- ▶ Panels are 2 1/8" thick.
- ▶ Panels have steel top caps and steel baserails.
- ▶ Baserails ship standard with panels.
- ▶ Top caps ordered separately; see page 365.
- ▶ Packaging: stretch wrapped with edge protection.
- ▶ Base rail matches trim color.
- ▶ For worksurfaces that can be used with Abound® and Accelerate® systems, see pages 314-327.
- ▶ Specify top caps separately; see page 365.
- ▶ Panel end trim ordered separately; see page 369.
- ▶ Panels may be connected end to end, with wall starter kit, or with panel connectors; see pages 368-369.
- ▶ Order connecting hardware separately; see page 368.
- ▶ Order Accelerate® connectors separately; see page 368.
- ▶ Panels have a class A fire rating.
- ▶ Bulk packing is available in quantities of 3 or 9.
- ▶ Fabrics and finishes available on pages 349 and 351.
- ▶ For information regarding the use of tackable and non-tackable panels in the same application, see page 355.
- ▶ Baserail cutout covers are not replaceable once removed.
- ▶ Raceway panels option only.
- ▶ Do not remove electrical knock outs unless duplex is needed. For replacement covers, see page 311.
- ▶ Caution when mixing Non-Tackable and Tackable panels in an in-line run, as non-tackable panels have a unique substrate which may cause a slight color variation with certain, lightcolored fabrics.
- ▶ Accepts electrical power kits, except for 20" W. See page 310 for electrical.
- ▶ Stack on panels add 15" of height and can be added to any monolithic panel. See stackers on page 366.
- ▶ Stackers are weight bearing and can accommodate overhead storage.

## Accelerate® Top-Tier Glass Panels

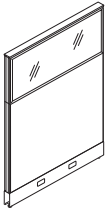

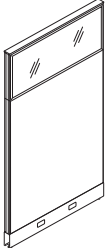

Not on GSA Contract

HON

- On top-tier panel models, the glass tier is 15"H.
- Glass is clear or frosted, tempered safety glass.
- Panels are 2 1/8" thick.
- Panels have steel baserails.
- Packaging: stretch wrapped with edge protection.
- Base rail matches trim color.
- Top caps ordered separately; see page 365.
- For worksurfaces that can be used with Abound® and Accelerate® systems, see pages 314-327.
- Panel end trim ordered separately; see page 369.
- Panels may be connected end to end, with wall starter kit, or with panel connectors; see pages 368-369.
- Order connecting hardware separately; see page 368.
- Order Accelerate® connectors separately; see page 368.
- Panels have a class A fire rating.
- Bulk packing is available in quantities of 3 or 9.
- Fabrics and finishes available on pages 349 and 351.
- For information regarding the use of tackable and non-tackable panels in the same application, see page 355.

- ⚠ Raceway panels option only.
- ⚠ Do not remove electrical knock outs unless duplex is needed. For replacement covers, see page 311.
- ⚠ Accepts electrical power kits, except for 20"W. See page 310 for electrical.
- ⚠ Cannot stack stacker on top-tier glass panels.

- On top-tier panel models, each tier is 15"H.
- Glass is tempered safety glass.
- Panels are 2 1/8" thick.
- Panels have steel baserails.
- Top caps ordered separately; see page 365.
- Packaging: stretch wrapped with edge protection.

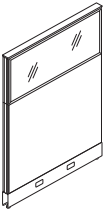

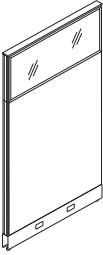

- Base rail matches trim color.
- Panel end trim ordered separately; see page 369.
- Panels may be connected end to end, with wall starter kit, or with panel connectors; see pages 368-369.
- For work surfaces that can be used with Abound® and Accelerate® systems, see pages 314-327.

- Order connecting hardware separately; see page 368.
- Order Accelerate® connectors separately; see page 368.
- Panels have a class C fire rating.
- Bulk packing is available in quantities of 3 or 9.
- Fabrics and finishes available on pages 349 and 351.

- For information regarding the use of tackable and non-tackable panels in the same application, see page 355.

- ⚠ **Accepts electrical power kits, except for 20"W. See page 310 for electrical.**
- ⚠ **Raceway panels option only.**
- ⚠ **Baserail cutout covers are not replaceable once removed.**
- ⚠ **Do not remove electrical knockouts unless duplex is needed. For replacement covers, see page 311.**

## Accelerate® Panel Door

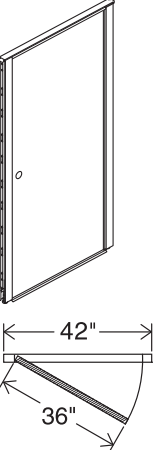

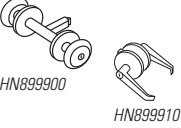

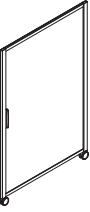

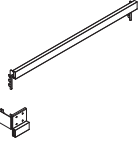

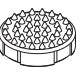

GSA SIN 711-1 Except as Noted

HON

- Order handle separately. See handle model options below.
- Door is non-handed.
- Door measures 36"W, opening needed for door is 42"W.
- Specify top caps separately when ordering the laminate panel door; see page 365.
- Order connecting hardware separately; see page 368.
- Order Accelerate® connectors separately; see page 368.
- Fabrics and finishes available on pages 349 and 351.
- The Sliding Doors are available in 50", 65", and 80"H models and can mount to 30", 36", 42", and 48"W panels.
- All doors are 42" wide, provide a 36"W opening, and are non-handed.
- For information regarding the use of tackable and non-tackable panels in the same application, see page 355.

- ⚠ **Must be used with a base panel and stacker equalling 80"H.**
- ⚠ **A Mounting Bracket Kit must be ordered for each sliding door corresponding to the mounting panels width (30", 36", 42", or 48"W).**

## Accelerate® Stacking Panels

GSA SIN 711-1

HON

- Stacking panels ship without top caps.  
➤ Stackers add 15" or 30" to the height of the base panel.

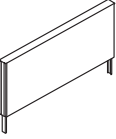

- Stacker ships with pins to connect stacker to post connector for added rigidity.

- Select complete panels with top-tier glass, or add glass/fabric stackers separately to existing panels. See page 362 for complete panels information.

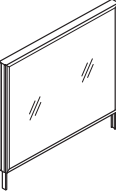

- ⚠ **Not to be used freestanding.**  
⚠ **Stackers can be stacked up to 80" H on a base panel.**  
⚠ **Stackers are weight bearing and can accommodate overhead storage.**  
⚠ **Stacking model must match the width of the panel it is stacking on.**

- ⚠ **Total panel height cannot exceed 80" high. Glass stacker must be the top tier. A stacking panel cannot be placed above a glass panel or glass stacker. Frameless Glass can be installed on a fabric stacker.**

⚠ Frameless Glass can only be used on the tallest panel of the typical.

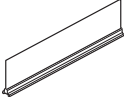

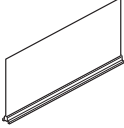

⚠ Frameless Glass comes with a panel top cap. Do not order a separate top cap model for your panel frame when using Frameless Glass.

- Glass is a single-pane, 3/8" laminated safety glass.
- Available in clear or frosted glass.
- Frameless Glass can span multiple panels with one piece of glass.

☑ Glass tiles have a Class A fire rating.  
⚠ Frameless Glass cannot be used on top of glass stackers or headers.

⚠ Frameless Glass can only be used on the top of panels. Glass integrates into top cap trim.  
⚠ Cannot hang or stack on top of Frameless Glass.

**Accelerate® Electrical and Data****HON**

Accelerate® features capabilities for cable management, including electrical, voice, and data. The 8-wire electrical system can be integrated at base pathway. See Systems electrical pages 310-313 for electrical models to be used with Accelerate® Systems products.

### The Accelerate electrical systems

Accelerate offers a choice of three electrical systems:

- Four-circuit, 3 + 1
- Four-circuit, 2 + 2
- Three-circuit, separate neutrals

All three systems utilize an 8-wire electrical system, rated at 20 amps per circuit (15 amps Canadian). See pages 305-306 for a detailed explanation of each electrical system.

Accelerate panels and electrical components are UL Listed. Electrical components are also CSA certified.

Installation and use of the electrical system, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes.

**Caution: Electrical equipment cords or extension cords MUST NOT BE ROUTED through cable openings in frame sides.**

Accelerate's electrical harnesses are UL listed and are considered raceways themselves as defined by the National Electrical Code. This means there is no separation requirement between the electrical harnesses and communications cables per Sec. 800-52 of the National Electrical Code. Communication cables may be placed next to Accelerate's electrical components without a metal septum and will still meet the guidelines of the Telecommunications Industry Association for separation of power and data.

### In-feeds

**Power in-feed cables** deliver power from building to system. In-feed cables are housed in conduit to separate electrical system from communications and data lines.

**Integrated power and communications poles** provide capacity for routing power supply directly through the top of any connector. Power pole has a cavity on each side of a center septum. When using a ceiling power in-feed, consider that the in-feed must connect into an electrical harness located in an adjacent panel. (See pages 307-309 for cable capacity.)

**Ceiling power in-feed** connects to a prewired electrical harness in the beltline or base pathway, traverses through an adjacent panel and terminates in the junction box at the top of the integrated power pole. For use with integrated power pole models HECPP. No portion of the flex cable can be exposed after installation.

**Sealtight base pathway power in-feed** attaches to a receptacle opening at the base pathway. A heavy rubber sheathing shields conduit, allowing in-feed to be exposed.

**Hardwire (New York Code) Power In-Feed** (model H871400) is used when local electrical codes require hardwire entry. When used in 24"W, 30"W and 36"W panels, power can be routed only in one direction. When used in 42", 48"W and 60"W panels, an electrical pass-thru cable or harness for that panel width can be used to route power back in the opposite direction. Unit must connect to a power or pass-thru harness positioned in the base pathway area of an adjacent panel. Customer to furnish all cabling and wiring from power entry to power source. Junction box can be positioned at any duplex receptacle location.

### Hardwire (Chicago Code) Junction Box

Wiring harnesses and snap connectors are not allowed in Chicago — base pathways must be comprised of all metallic components. Concealed mounting is the only option at beltline. For the base pathway, junction box (model HH871500) clips directly into receptacle locations. Customer must furnish conduit, wiring, standard duplex receptacles with metal covers for the beltline and designer-type receptacles for the base pathway. Power entry can be routed from the ceiling, via an Accelerate power pole, or from the floor into a junction box (model HH871500). See Systems electrical pages 310-313 for electrical models to be used with Accelerate® Systems products.

### Duplex Receptacles

For Duplex Receptacle models that can be used on Accelerate® panel systems, please see page 312.

All Systems electrical components can be found on page 310.

# Voi® Laminate Support Pedestals

GSA SIN 711-3

# HON

- Please see Voi® section of the pricer for full Voi® laminate offering, which is compatible with all HON systems series.
  - Voi® Support and Power-Ready Pedestals can be used with workspaces.
  - A variety of pedestals, end panels, and O-legs can be combined to create a conventional or contemporary desk.
  - Chassis and drawer front woodgrain and solid laminates are specified separately (see SIF options below).
  - File drawers accept hanging folders in letter or legal size.
  - Multiple handle locations possible per customer preference.
  - Ships with one handle per drawer.
  - Drawer Organizer model HSLDRWORG works with box drawers.
  - Box and file drawers operate on ball-bearing suspension with full extension.
  - Adjustable hex leveling glides allow floor-standing furniture to be easily leveled without lifting the unit; glides have 1/4" adjustable range.
- ⚠ **Locking units equipped with HON "One Key" interchangeable core removable locks. Keyed alike core must be ordered separately.**
- ⚠ **Pedestals ship fully assembled but must attach to a worksurface with a quick release bracket, provided. Pedestals are non-handed and are interchangeable.**

## Overhead Storage

GSA SIN 711-1

HON

- Storage Cabinets with doors are standard with a factory installed core removable lock located on the underside of the cabinet.
- Compatible with Abound® and Accelerate® panels.
- All units feature an anti-dislodgement device.
- Storage Cabinets can be mounted on a panel of the same width, or up to or equal to 18" narrower than the cabinet.
- 60" and 72" units are one piece cabinet with two doors.
- Storage Cabinets and Shelves are shipped pre-assembled.
- For undercabinet lighting options, see page 380.
- Keyed alike cores must be ordered separately — see page 684.**

- Voi® Overhead Storage can be used with Accelerate® and Abound® panels.
- All Overhead Cabinets shown below can be used as a wall mount, panel mount or stack-on storage with O-leg.
- Can be mounted on O-legs, panel brackets or wall mount brackets. See page 378.
- Tackboards are available for wall mount storage applications.
- Sliding Door pulls are specified and ship with all models (use is optional).
- Overhead cabinets with four doors are available in laminate or mixed materials.
- Overhead and Stack-on storage units do not lock.
- For all color specifying combinations, see matrix on pages 72-73.
- Storage cases accept binder height items.
- Multiple handle locations possible per customer preference.
- Storage cube fits inside stack-on storage or overhead cabinet units to provide paper management.
- Wall mount brackets specified with unit. Brackets attach to case horizontally.
- For panel mounted applications, brackets and hardware are ordered separately, see page 337. Brackets attach to panel and case is screwed into brackets. Two brackets needed for 60" unit; three brackets needed for 66" and larger.
- If Wall Bracket option is selected, \$150 upcharge applies.

⚠ **Stack-on Storage must be placed over two full-height supports. Cannot be placed over non-supported sections such as returns using a flat bracket or tower-to-worksurface bracket.**

## Voi® Overhead and Stack-on Storage

GSA SIN as Noted

HON

- Voi® Overhead Storage can be used with Accelerate™ and Abound® panels.
- Overhead and Stack-on storage units do not lock.

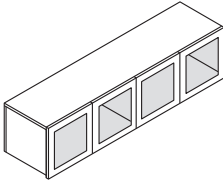

- Use O-Leg Support models for Overhead Cabinets.
- If Wall Bracket option is selected, \$150 upcharge applies.

- Storage cube fits inside stack-on storage or wall mount units to provide paper management.

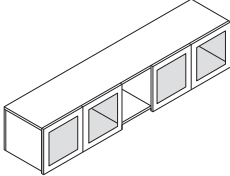

- Storage Cubes are available in the following colors: Autumn (AUTM), Citron (CITR), Flame (FLAM), Pool (POOL) and Sisal (SISL).

⚠ **Stack-on Storage must be placed over two full-height supports. Cannot be placed over non-supported sections such as returns using a flat bracket or tower-to-worksurface bracket.**

- Overall case depth is 19"D including the sliding door.
- Use Shared Overhead and attachments in small footprint applications.

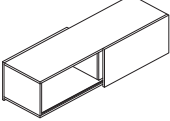

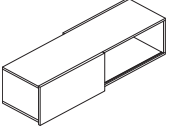

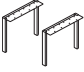

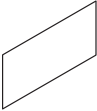

- Sliding door is 15"H, providing a 1" valance below the case which can be used as a finger pull if desired.

- Shared Overhead panel mount brackets and overhead post legs allow overhead to span over all panel systems or run down the spine wall, centered on top of the panel.

- Post legs can attach to all low credenza models and all worksurface models.
- Markerboard insert is laminate with black edges, no frame.

- ⚠ Overhead units do not lock.
- ⚠ Shared Overhead must be ordered as left or right to determine open storage location.

Undercabinet Occupancy Sensor with 1" End to End Connector	HLEDOSA	0.2	0.01	\$ 75	N/A
NOTES: To use the daisy chain application, must start with model HLED17A or HLED31A. No finish specification required. Attaches magnetically to underside of overhead storage, or attaches with provided screws or double-sided tape. Occupancy sensor attaches to a single or starter LED light and will automatically turn the light off after no motion is detected for 30 minutes. Just like all the LED light models, the occupancy sensor features a soft-touch on/off switch. LED task lights have a lifetime of 50,000 hours and have a dimmer feature that allows the user to adjust the amount of light output.

### FEATURES

#### Panels

- Use Versé as a privacy panel (stand alone) to create space division.

#### QuickConnect (See page 368 for more details on this hardware.)

- Our QuickConnect connectors allow for easy installation. Simply snap on the connectors at the top and bottom of the panel and slide the panels together. There are only two connectors to specify for almost all configurations.

#### Storage

- Shelving capabilities. Each shelf width must match width of panel.

### PANEL DIMENSIONS AND GROWTH ALLOWANCES

- All panel runs must be supported at each end of the panel run and supported at least every 8' within the panel run (maximum of 8' between supports).
- Support can be in the form of an adjustable wall bracket or return panel at 90° to the run.
- When using an "L" configuration, the return panel must measure at least 60% (minimum 36") of the unsupported run.
- When using a "T" configuration, each return panel must measure at least 20% of the unsupported run.
- Return panels can be no more than 24" lower than the panel height in the unsupported run.
- When used in conjunction with hanging shelves, panel width must match width of shelf.

### VERSÉ PANELS

#### Includes

- Adjustable glides with all panels.

#### What Do I Need?

- QuickConnect Connectors.

#### Special Notes

- Versé panels feature a soft, padded look.
- Panels packed two per carton when possible.

CONNECTING HARDWARE

Versé QuickConnect User Instructions

- Versé QuickConnect is easy to install. Simply snap on the connectors at the top and bottom of the panel and slide the panels together. There are only two connectors to specify for almost all configurations, including multi-height connections.
- 180° Straight Connector – use when connecting two panels together for a straight connection or for multi-height straight connections.
- 90° Corner Connector – use for 2-way, 3-way and 4-way corner connections. Only one pair is needed per corner connection or for multi-height corner connections.

Connection Type	Connectors Needed
Straight	1 pair – 180°
2-way (L)	1 pair – 90°
3-way (T)	2 pair – 90°
4-way (X)	3 pair – 90°

HARDWARE

Special Notes

- Connectors add to the overall dimensions of the panel installation.
- These connector dimensions are important when space planning and sizing your panel layout.
- All hardware items may ship by a parcel service.
- Use HBV-PBS bracket with freestanding furniture for optimal workstation rigidity.

SHELVES

- Steel shelves are 14 ½" high.
- End brackets included.
- Must match panel width.
- Easy assembly; no tools required.

### LATERAL FILES

#### Advantages:

a) The most efficient means of conventional filing; b) Ideal for active filing in workstations, where higher volume capacity is necessary and retrieval is frequent

#### Considerations:

2-drawer steel lateral files fit under standard-height worksurfaces when using panel systems.

### VERTICAL FILES

#### Advantages:

a) Economical; b) The most widely used filing method; c) requires minimal floor space

#### Considerations:

Vertical files are best suited for long-term storage, where retrieval is less frequent. For larger banks of files, lateral files are more space-efficient than vertical files.

### SHELF FILES

#### Advantages:

a) The highest density method of filing; b) Specially designed for end-tab long-term filing

#### Considerations:

Ideal for medical or dental offices, available as open shelves or with flipper doors.

### BOOKCASES

#### Advantages:

a) These units are ideal for binders, reference books or other items; b) Available with your choice of fixed or movable shelves

#### Considerations:

If working with panel systems, it is more attractive to specify units that are lower than the panel height.

### FILING TECHNIQUES

Type	Standing Files	Hanging Files	End-tab Files
Advantages	Inexpensive. Uses existing file folders.	Easier organization and identification of the file folders. Files viewed from top. Remaining files hold their place when folders are removed. Easier to re-stock.	Easiest and fastest file identification. Files viewed from side. Preferred solution for health care, insurance and other critical files with frequent retrieval. Easiest to re-stock.
Requirements	Follower block or Dividers	Hangrails or high-drawer sides	Front-access shelves
Can be used in	<ul style="list-style-type: none"> <li>Vertical files (front-to-back only)</li> <li>Lateral files (side-to-side only in drawers or roll-out shelves)</li> <li>Shelf files (side-to-side only)</li> </ul>	<ul style="list-style-type: none"> <li>Vertical files (front-to-back only)</li> <li>Lateral files (front-to-back or side-to-side in drawers or roll-out shelves)</li> </ul>	<ul style="list-style-type: none"> <li>Lateral files (side-to-side only in roll-out shelves or fixed shelves)</li> <li>Shelf files (side-to-side only — ideal for high-density)</li> </ul>

### Contain<sup>®</sup>/Flagship<sup>®</sup>/Brigade<sup>®</sup> Series Pedestals Utilization with 38000 Series and 66000 Series.

Pedestal Depths	Abound <sup>®</sup> and Accelerate <sup>®</sup> Panel-Hung Worksurfaces			66000 StationMaster		38000 Series Modular Desks		
	18" Deep	24" Deep	30" Deep	24" Deep	29 1/2" Deep	24" Deep	30" Deep	36" Deep
16 1/4" Deep	•	•	•	•	•	•	•	•
22 1/4" Deep		•	•		•	•*	•	•
28 1/4" Deep			•				•	•

\* Cannot attach 22 1/4" D Hanging Pedestal.

### WORKING WITH STORAGE PEDESTALS

Storage Pedestals are available in 5 styles:

- Box/File Mobile .....(Model Nos. beginning with HSPM)
- Freestanding .....(Model Nos. beginning with HSPF)
- Hanging .....(Model Nos. beginning with HSPH)
- Worksurface Supporting\*\* .....(Model Nos. beginning with HSPS)
- Under Worksurface Mobile .....(Model Nos. beginning with HSPM)

Worksurface height supporting pedestals have a taller base plate, resulting in a taller overall cabinet height. Consideration must be made to ensure that units align visually with each other. The accompanying chart will help you select the correct pedestal for your application.

Pedestal Models (Nos. begin with)	Style	Overall Height	Base Height	Spacer Required Below Worksurface
HSPM or H15	Box/File mobile	22 1/4"	N/A	N/A
HSPF	Freestanding	28"	3 1/2"	NO
HSPH or H14	Hanging	19 1/4"	N/A	N/A
HSPS or H19 or H36	Worksurface supporting**	28"	3 1/4"	NO
HSPM or H18 or H33	Under Worksurface mobile	28"	3 1/4"	NO

\*\* Units will support conventional 29 1/2" H worksurfaces, WITHOUT SPACERS.

### LATERAL FILING OPTIONS

#### Front-to-back filing:

**30" wide files\***: 30 1/2" of filing with letter/letter rows.

**36" wide files\***: 30 1/2" of filing with letter/letter, legal/legal, or letter/legal rows.

**42" wide files\*\***: 45 1/4" of filing with 3 rows letter or 30 1/2" of 2 rows legal, or 2 standard printout rows.

#### Side-to-side filing:

**30" wide files**: 27" of filing with letter or legal.

**36" wide files**: 33" of filing with letter or legal.

**42" wide files**: 39" of filing with letter or legal.

#### Combination filing:

(front-to-back with side-to-side in one drawer)

**30" wide files**: not recommended.

**36" wide files**: 15 1/4" of front-to-back filing and 20 1/4" of side-to-side legal filing.

**42" wide files**: 15 1/4" of front-to-back filing and 26 1/4" of side-to-side legal filing.

\* Requires H919491 optional hangrails.

\*\* Requires H919492 optional hangrails.

For Champagne Metallic Paint, Greige is the suggested edgeband color. When Champagne Metallic Paint is selected, pulls are standard in Greige.

<sup>1</sup>Haworth Chalk is the same as HON Muslin. When ordering this color use the HON Muslin paint code T3.

<sup>2</sup>Knoll Jet Black is the same as HON Black. When ordering this color use the HON Black paint code P.

<sup>3</sup>Steelcase Black is the same as HON Black. When ordering this color use the HON Black paint code P.

NOTES: Choice color selections do not require a customer approval. The colors can be ordered with the HON paint code noted above. If unsure of the color, please request a metal sample from HON Literature Fulfillment.

For HON's ColorCorrect® program, any textured paint will be matched as smooth paint.

Pricing for eligible product is listed on the individual list/pricer pages under the column Choice/Metallic column.

No minimum order is required for Choice Colors.

Refer to page 9 for detailed information on the ColorCorrect® program.

#### Custom Paint Colors

Custom Paint Colors require a special request submitted within MyProjects. Refer to page 9 for detailed information regarding Custom Paints.

### Metal Credenzas with Panel Frames

Guidelines for using Contain® Credenzas in place of standard panel systems configurations

GSA Reference Page

#### Side-mounted Credenzas

##### Use 1 storage-to-panel bracket set.

The minimum credenza size is 22"H x 36"W x 18"D.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run panel attached floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 22"H side mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 68".

Counterweight is required, if using unit with drawers.

#### Back-mounted Credenzas — Modular

##### Use 2 storage-to-panel bracket sets per Credenza — 2 LH and 2 RH.

The minimum credenza size is 22"H x 36"W x 18"D.

The maximum panel run between back-mounted credenzas is 60".

Overheads and shelves cannot be used with 22"H back mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 68".

Counterweights are required in a single side run configuration as shown.

#### Side-mounted Credenzas — with Return Panel

##### Use 1 storage-to-panel bracket on Credenza LH or RH of set.

The minimum credenza size is 22"H x 36"W x 18"D.

The minimum size for panel return is 35"H x 36"W.

With a mid-run panel attached floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 22"H side mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 68".

Counterweight is required, if using unit with drawers.

Mid-run floor support options include:

Back-to-Back Credenzas

Panel Attached O-legs

Panel Attached Support Legs

#### Counterweight Requirements for Contain® Credenzas

	24"W Box/File Unit	30"W Box/File Unit	36"W Box/File Unit	42"W Combo Unit	48"W Combo Unit	60"W Combo Unit	72"W Combo Unit
18"D	HSCACW35 35 lbs. (two 12½ lb. and two 5 lb. counterweights)	HSCACW50 50 lbs. (four 12½ lb. counterweights)	HSCACW50 50 lbs. (four 12½ lb. counterweights)	HSCACW25 25 lbs. (two 12½ lb. counterweights)	HSCACW25 25 lbs. (two 12½ lb. counterweights)	HSCACW35 35 lbs. (two 12½ lb. and two 5 lb. counterweights)	HSCACW35 35 lbs. (two 12½ lb. and two 5 lb. counterweights)

Counterweight is not required if credenzas are used within a standard Systems set up and attached with the Credenza Storage-to-Panel Brackets.

Contain<sup>®</sup> Metal Credenzas

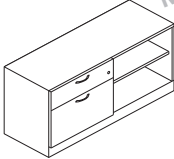

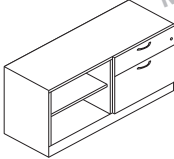

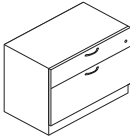

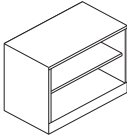

HON

- Metal chassis and drawer fronts.
- Lateral and wide box drawers operate on ball-bearing suspension with full extension.
- Steel ball-bearing drawer suspensions.
- Ships complete with standard kickplate.
- Field installable counterweight sold separately.
- File drawers accept hanging folders in letter or legal size.
- Steel frame provides durability.
- Use with laminate tops and credenza seat cushions. Order separately — see pages 398-399.

⚠ **All models available with Platinum Metallic Arch Pulls only.**

⚠ **Locking units equipped with HON "One Key" interchangeable core removable locks. Keyed alike core model HF23S, in Satin, must be ordered separately. See page 398.**

# Flagship® Personal Storage Tower

GSA SIN 711-3

HON

- Available in two heights.
- 24"W x 24"D footprint allows use within Systems applications by matching 24"D worksurfaces.
- Four adjustable leveling glides.
- Equipped with HON "One Key" interchangeable core removable locks.
- Each box drawer contains one divider, file drawers contain one follower block and one crossrail.
- Steel ball-bearing suspension on box and file drawers.
- Full extension on file drawers.
- Available in Arch (A), Full Face Integral (N) and Full Radius (R) Drawer Pulls. See page 391 for pull options.
- Choose from any of three pull options with no upcharge.
- Arch pull available in Satin Chrome only.
- Omit lock-option available. See page 684 for ordering instructions.
- To provide a flush appearance to coordinate with laterals and file centers, order Flush Front Kick Plates. See page 414.
- See pages 436-437 for pedestal accessories.

# Flagship® 18" Deep Lateral Files with Drawers

GSA SIN 711-3

# HON

- 27 1/4" H lateral file fit under minimum worksurface height of 28 1/2" H.
- 28" H lateral fit under standard 38000 Series and worksurfaces.
- 5 Drawer model complements Simplicity® II Panel heights.
- Flush top and sides.
- Reinforced case construction.
- Lock mechanism serves both sides of drawer.
- Equipped with HON "One Key" interchangeable core removable locks.
- Counterweight included where applicable to meet ANSI/BIFMA stability requirements.
- Three-part, telescoping, steel ball-bearing suspension.
- Features drawer extension restraint; mechanical interlock inhibits the extension of more than one drawer at a time.
- Optional laminate tops and accessories — see page 435.
- Matching Pedestals — see page 418.
- Optional Posting Shelf on five-opening units.
- Omit lock-option available. See page 684 for ordering instructions.
- Arch pull available in Satin Chrome only.
- Choose from any of three pull options with no upcharge.
- Available in Arch (A), Full Face Integral (N) and Full Radius (R) Drawer Pulls. See below and page 391 for pull options.

Brigade® Metal Overfiles

GSA SIN 711-3

- Maximizes use of space above lateral files.
- One adjustable shelf per cabinet, adjustable at 1" increments, up to 6" from center position.
- Capable of accepting two tiers of 12"H binders (depending on shelf location).
- Can be used on the floor under 29½"H worksurfaces.
- Four wire dividers supplied per shelf (total 8 per unit) with locating slots every 3" along shelf and base.
- Units fasten to new or existing lateral file cabinets (attaching hardware included).
- Units can be attached to wall behind lateral file, and/or "ganged" together for added stability.
- Compatible with Flagship, and Brigade 800, 700, 600 Lateral Files.
- "Slide-by" door design does not intrude into office or aisle space.
- Units are 18" deep, and available in 30", 36" and 42" widths.
- When fully opened, door opening is 13¼"W, 16¼"W or 19¼"W.

Icon Legend on page 10

- 28"H fits under all HON workspaces and desk shells.
- Pencil tray standard in top box drawer.

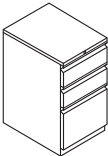

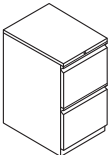

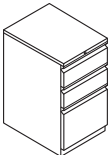

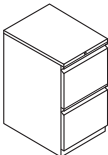

- Ball-bearing suspension on file and box drawers with 90% extension.
- File drawers have high sides for filing front-to-back.
- See pages 436-437 for accessories and pedestal utilization information.

- Equipped with HON "One Key" interchangeable core removable locks.
- Front casters are fixed, rear casters swivel on mobile pedestals.

- "R" pull matches Brigade 800 Series Lateral Pull.
- "N" Pull matches Brigade 700 Series lateral file pull.

⚠ **Freestanding support pedestals that are not positioned and attached under a worksurface, require a counterweight kit found on page 436.**

## Brigade® 800 Series Lateral Files w/Storage

GSA SIN 711-3

- 30", 36" & 42" case widths, 19 1/4" case depth.
- 67"H case — matches height of 800 Series 5 Drawer laterals.
- Bottom two openings are lateral drawers, remainder of case is storage shelves.

- Lateral file drawer features are same as 800 Series Laterals shown above.
- Inside dimension of storage case is 36 1/4"H. Includes 2 adjustable shelves, adjustable in 2" increments. Bottom shelves accept two rows of 3-ring binders; top opening measures: 10 1/4".

- Storage case is standard with 2 hinged doors. Door pulls match lateral file drawer pulls.
- Equipped with HON "One Key" interchangeable core removable locks. Locks on storage case and lateral file are keyed alike. Lateral file drawers lock independently from storage case.

- Four adjustable leveling glides.

## Brigade® 600 Series Lateral Files w/Storage

GSA SIN 711-3

- 30", 36" & 42" case widths, 19 1/4" case depth.
- 67"H case — matches height of 600 Series 5 Drawer laterals.
- Bottom two openings are lateral drawers, remainder of case is storage shelves.

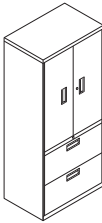

- Lateral file drawer features are same as 600 Series Laterals shown above.
- Inside dimension of storage case is 36 1/4"H. Includes 2 adjustable shelves, adjustable in 2" increments. Bottom shelves accept two rows of 3-ring binders; top opening measures: 10 1/4".

- Storage case is standard with 2 hinged doors. Door pulls match lateral file drawer pulls.

- Equipped with HON "One Key" interchangeable core removable locks. Locks on storage case and lateral file are keyed alike. Lateral file drawers lock independently from storage case.

- Four adjustable leveling glides.

- 30", 36" & 42" case widths with roll-out shelves, 19 1/4" case depth.
- Flush top and sides.
- Reinforced case construction.
- Four adjustable leveling glides.
- Fixed bottom drawer on all roll-out shelf units (standard drawer).

- Features drawer extension restraint; mechanical interlock inhibits the extension of more than one shelf at a time.
- Three-part, telescoping, steel ball-bearing suspension.
- Two adjustable hangrails per opening for side-to-side filing.

- Counterweight included where applicable to meet ANSI/BIFMA stability requirements.
- Lock mechanism secures both sides of drawer.
- Baked enamel finish over rust-inhibiting phosphate pre-treatment.

- Bright anodized aluminum recessed drawer pull.
- Equipped with HON "One Key" interchangeable core removable locks.
- Optional laminate tops and accessories — see page 435.

⚠ **Keyed alike cores must be ordered separately — see page 684.**

## Brigade® 600 Series Shelf Files

GSA SIN 711-3

HON

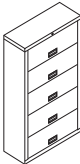

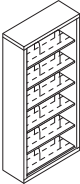

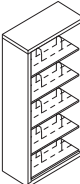

- 36" wide 5 and 6 fixed shelf files are offered in letter and legal depths, and in jumbo height in legal depth; locking models have one receding door per shelf.
- Shelf files accept letter or legal files side-to-side.
- Double wall construction provides extra strength.
- Receding door models operate on nylon glides installed in the door tracks.
- Two wire dividers per shelf are standard. Additional dividers available in 6 or 12 packs.

- Can be ganged back-to-back.
- Four adjustable leveling glides.
- Bright anodized aluminum recessed door pull.
- Baked enamel finish over rust-inhibiting phosphate pre-treatment.

- All receding door models are equipped with HON "One Key" interchangeable core removable locks operating two 16 gauge lock bars with tabs, which engage both sides of doors.

⚠ **Keyed alike cores must be ordered separately — see page 684.**

## 10500 Series™ Laminate Bookcases

GSA SIN 711-8

HON

Square Corner  
Edge Detail

- 10500 Series™ Caseloads smooth, flat edge detail (see pages 197-229) complements many furniture designs.
- Fully finished back.
- Replaces 1980 Series Laminate Bookcases
- Bottom shelf, top and end panels are 1 1/8" thick. Interior shelves are 3/4" thick.
- All surfaces finished in abrasion- and stain-resistant thermal-fused laminate over solid core high-performance particleboard.
- Adjustable hex leveling glides allow floorstanding bookcases to be easily leveled without lifting the unit; glides have 3/4" adjustable range.

Work/task chairs need to be adjusted to deliver optimum support. Cross-reference the letter key below to identify the chairs in this section that best meet your needs.

### PROPORTIONAL ADJUSTMENTS

These controls adapt the dimensions of the chair to fit the user.

**A. Pneumatic seat height adjustment** — Regulates height of chair relative to floor.

**B. Back height adjustment** — Positions lumbar support within a fixed range.

**C. Seat depth adjustment** — Positions chair back relative to seat.

**D. Seat glide mechanism** — Seat cushion travels forward and back, then locks into position.

### ARM OPTIONS

These adjustments accommodate different sized users and support keyboarding.

**Q. Adjustable height arms** — Provide improved upper-torso support. Can be adjusted periodically to relieve strain and provide variety.

**R. Adjustable width arms (patented)** — Quick-adjust design places arms close to body for keyboarding, or out to sides for ease of entry.

**S. Height and width adjustable arms** — Controls both height and width of arms for optimum comfort.

**T. Loop arms** — Largely specified for aesthetics. Frequently used in management settings.

**B-A. All-adjustable arms** — Arms adjust in height, width, and depth.

### POSTURE CONTROLS

The controls modify the position and angle of the seat and back to respond to changing tasks.

**E. 360° Swivel**

**F. Tilt** — Pivot point located directly above center of chair base.

**G. Mid-range knee tilt** — Pivot point located slightly ahead of center of chair base. Allows user to recline at a slightly more relaxed angle than conventional tilt.

**H. Knee tilt** — Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

**I. Synchronized knee tilt** — Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair.

**J. Synchro-tilt** — Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor.

**K. Tilt tension** — Controls rate and ease of recline.

**L. Tilt lock** — Locks out tilt function when chair is in upright position.

**M. Posture mechanism/lock** — Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

**N. Multi-task control** — Adjusts seat and back angles independently with a single lever (infinite locking within a fixed range).

**O. Asynchronous control** — High performance system with three levers to modify:

- Angle of back relative to seat
- Tilt (free float or infinite locking)
- Forward tilt.

**W. Integral lumbar support** — Easily adjusts to enhance comfort.

**X. Dual-clutch posture control** — Adjusts seat and back angles independently with two levers (infinite locking within a fixed range).

**A-C. Synchronized tilt** — Back reclines at a 2.5 to 1 ratio to seat angle. Variable lock.

**A-D. Side tilt tension** — Controls rate and ease of recline. Conveniently located on the right side.

**A-E. Back reclines at a 2 to 1 ratio to seat angle.** Back angle adjusts independently of seat and can be locked in infinite number of positions within a fixed range.

## Fire Safety Without Compromise

### ELEVATE FIRE SAFETY TO A HIGHER STANDARD

- You asked for more seating choices that meet the CAL 133 standard. Here they are. Many of The HON Company's most popular chair models are now available in an array of fabrics that include an advanced barrier of fire protection. This barrier helps HON chairs comply with CAL 133 (California Technical Bulletin 133), the industry's most stringent test for fire-retardant furniture.

### DEFINITIVE PROTECTION

- The resilient filling materials used in upholstered seating manufactured by The HON Company meet or exceed the flame retardant requirements of the State of California, Department of Consumer Affairs, Bureau of Electronic and Home Appliance Repair, Home Furnishings and Thermal Insulation Technical Bulletin 117-2013. The label attached to the seat bottom indicates compliance with these requirements.
- For public buildings with at least 10 chairs in use, CAL 133 sets the bar as the accepted standard of fire safety. The CAL-TB 117-2013 standard referenced above evaluates the fire resistance of fabric, but only CAL 133 tests the entire assembled chair.  
Result: Greater assurance that your seating will not accelerate an actual fire.

### HOW TO ORDER

- To ensure that the chairs you order comply with CAL 133, specify one of the fabrics listed here on any of the seating models from the pages that follow. Then simply add "FC" to the model number when ordering. **SPECIFYING EXAMPLE: H7808FC.NR62.T.**

A standard upcharge of \$90 will be applied per seat model for all single seat chairs.

**For Lounge Seating, the following upcharges will apply: (Please note, the lounge upcharges do not apply to the Ignition® or Versant® seating lines. For these models, the \$90 per seat applies.)**

**Single Seat/Club Lounge: \$250 list**

**2-Seat/Love Seat Lounge: \$325 list**

**3-Seat/Sofa: \$400 list**

## Moisture Barrier

- This extra layer of protection prevents moisture from penetrating the foam to improve cleanability and extend product longevity. Moisture barrier is available as an option for the seat only. The recliner gets moisture barrier on seat and footrest.
- Moisture barrier is not available for the fire code models.**

### HOW TO ORDER

- Fire Code:** To ensure that the chairs you order comply with CAL 133, specify one of the fabrics listed here on any of the seating models from the pages that follow. Then simply add "FC" to the model number when ordering. **SPECIFYING EXAMPLE: HHCG11FC.S.AI90.P6N.**
- Moisture Barrier:** When specifying Moisture Barrier simply add "MB" to the model number when ordering. **SPECIFYING EXAMPLE: HHCG11MB.S.AI90.P6N.**

Upcharges for Fire Code and Moisture Barrier on Soothe™ models

Model	Fire Code	Moisture Barrier
HHCG11	\$ 90	\$ 80
HHCG50	\$ 90	\$120
HHCG21	\$180	\$160
HHCGB21	\$180	\$160
HHCGB31	\$270	\$240
HHCP1	\$ 90	\$ 80

## Wood Seating Ordering Information

- SPECIFY: Model Number  
Finish  
Upholstery/Color Code.  
EXAMPLE: H5001.N.AB10
- Seating pages are now arranged in alpha, then numeric, order.
- **All specifications in this publication are based on the latest product information available at the time of print.**
- COM Ordering Information and pricing on page 6.
- Remember to add an FC to the base model number when fire code fabric is selected. New Models with FC Fire Code suffix meet CA Technical Bulletin 133. See pages 459-461 for available models/fabrics.
- Wood components are well-seasoned select hardwoods, chosen for their strength, their ability to machine well and their superior uniformity of stain and finish.
- Chairs with leather upholstery feature matching vinyl backs and vinyl seat bottom when applicable (Non-contact areas are vinyl).

## How To Order — Wood Seating

Ordering codes are composed of:  
model number + finish + upholstery/color code.

Illustration of ordering codes.

Model Number 4-5 Digits					Finish 1 Digit	Upholstery 2 Digits		Upholstery Color 2 Digits	
H	5	0	0	1	N .	A	B	1	0

This above ordering code specifies a Model H5001 with Mahogany finish and Confetti upholstery in Burgundy.

### Casters/Glides

Dual-wheel hooded casters are standard on all models.

Special field-installable black soft-tread casters and glides can be ordered from HON Parts Department at 1-800-336-8398.

## Options

## Codes

Models H6551, H6552: Nail Trim around the Seat . . . . . B  
Add \$25.00 upcharge.

**FIRE CODE (CAL133)**

Refer to CAL133 Compliant Seating matrices on pages 459-461 for a list of compliant models and fabrics. Add EC to the base model number.

Examples:

STANDARD: H2111.J.AB10

FIRE CODE: H2111FC.J.AB10

[illegible]

Note: Gathers and creases may be more visible with AI and OP upholsteries due to the inherent design and construction of these fabrics.

# Riley™ Seating Specifying Information

# HON

Riley models can be ganged to create seating areas in Office, Education or Health care settings. Using Four different seating models as well as two table styles, the possibilities are limitless. Shown below are the Riley models and examples of ganged seating applications. *NOTE THAT ALL REFERENCES TO SIDE ARE FROM THE SEATED PERSPECTIVE.*

## HWGN1

Guest Chair

- May be used as a standalone model or for use with table models HWGNC or HWGNT on either side.
- Not for use in ganging with other seating models. No chair connection on either side.

## HWGN2

Starter Gang Chair

- May always be part of a ganged seating solution.
- May be used with HWGN3 or tables HWGNC or HWGNT on the left side.
- Left side no connection, right side holes.

## HWGN3

In-Line Gang Chair

- Used for in-line positions only. Not for use in a starting or end position due to exposed connection points.
- Left side dowels & bracket, Right side holes.

## HWGN4

End Gang Chair

- Connects only to HWGN2 or HWGN3.
- Must be used in the end position.
- Tables may be connected to the Right side.

## HWGN5

Bariatric Single Seat

- Standalone model only.
- May not be ganged with other seating or table models.

## HWGNC

Corner Ganging Table

- For use with models  
HWGN1 — Either side  
HWGN2 — Left side  
HWGN4 — Right side.

## HWGNT

In-Line Ganging Table

- For use with models  
HWGN1 — Either side  
HWGN2 — Left side  
HWGN4 — Right side.

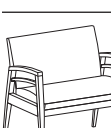

See below for Typical layouts using the models listed above.

- HWGN1 is a stand alone guest chair that can be used with tables on either side.
- Start with model HWGN2 for an in-line ganging layout. Add model HWGN3 in between and end with HWGN4 to complete the grouping.
- Coordinating ganging tables available for use with Riley series seating. See page 475.
- Catalyzed finish for enhanced stain and mar resistance.
- Select finish grade hardwood.
- Molded nylon glides.
- For additional HON to Supply COM fabric grade pricing, go to [honready.hon.com](http://honready.hon.com) and click on the HON to Supply COM link.
- ☑ For Fire Code model, availability and ordering method, refer to matrix on pages 459-461.
- ⚠ **HWGN5 is a Single-seat Bariatric chair warranted to 500 lbs. Not designed to be used for ganging.**

## Steel Seating — Ordering Information

► SPECIFY: Model Number  
Caster Option  
Upholstery/Color Code  
Frame Color  
EXAMPLE: H5901.H.AB10.T

► COM Ordering Information and pricing on page 6.  
► Fire Code fabrics with FC foam meet requirements for CA Technical Bulletin 133.

Ordering codes are composed of: model number + upholstery/color code + frame color. Example: Use the following formula to construct ordering codes.

## Options by Series

This table shows Ordering Codes for Frame Options by series. Color matched dual-wheel hooded casters are standard on all models.

FIRE CODE (CAL133)

Refer to CAL133 Compliant Seating matrices on pages 459-461 for a list of compliant models and fabrics. Add FC to the base model number.

Examples:

STANDARD: H1EH1.N.H.U.AB10.T

FIRE CODE: H1EH1FC.N.U.AB10.T

The following upholstery pattern will be railroaded on Flock® Seating (does not apply to stool model HFSS7):

RI Stitchery

## Endorse™ Seating

GSA SIN 711-18

HON

- Specifying options that include arms, casters and base allow you to customize your chair to fit the way you work.
- Seat depth adjustment is included when specifying controls Y2, Y3, Y4 and W5 Endorse™ controls.

- Big and Tall models are warranted for users up to 450 lbs.
- The Mid-back models are available in two back options — upholstered and ilira®-stretch.
- ☐ For Fire Code model, availability and ordering method, refer to pages 459-461. Available on select models, contact HON Customer Support for availability.

⚠ The mid-back ilira®-Stretch model HLWMBT is available with a headrest option. See specifying option below. Available in Black and on this model only.

⚠ Endorse™ Big and Tall models are available with a Synchronized Tilt (Y4) control only.

⚠ When ordering the ilira®-Stretch Back Stool model, you must specify the back option. Available in Black ilira®-stretch only.

⚠ The Executive High-back models are available with an upholstered back only.

- For additional HON to Supply COM fabric grade pricing, go to [honready.hon.com](http://honready.hon.com) and click on the HON to Supply COM link.

NOTES: Due to the inherent design of the Round Lounge chair, material gathers will be present in the back.

⚠ **Round Lounge models HFLRC1 / HFLRC1DF are offered in select upholsterys; for availability, please see the Upholstery Matrix on pages 480-481. Also approved in limited Partnership Fabrics.**

The following upholstery pattern will be railroaded on Flock® Seating (does not apply to HFLRC1DF):

**RI** Stitchery

For dual fabric models, start with the base price, then add the additional amount for the back and seat from the corresponding matrix to determine the final list price. Choose any combination of upholstery grades for the back and seat.

Example: HFLSC1DF base price (\$1696) + Grade 2 back upholstery (add \$80) + Grade 4 seat upholstery (add \$84) = Total \$1860 List  
HFLSC1DF base price (\$1696) + Grade 5 back upholstery (add \$343) + Grade 3 seat upholstery (add \$56) = Total \$2095 List

# Ignition® Seating

GSA SIN 711-18

# HON

- 4-Leg Multi-purpose Stack Chair stacks up to 4 on the floor.
- All models shown below have the wall-saver design which is engineered to save both the chair and wall.
- Multi-purpose and Cafe-height stool models are available with or without arms. Specify below.
- Arm caps come standard in black on both the Textured Black frame as well as the Textured Platinum Metallic frame option.
- Durable steel frame construction.
- Specify Mesh or Upholstered back for Multi-purpose and Cafe-height stool models.
- All models ship assembled.
- Contoured back on all models offers greater comfort than typical stack chairs or stools.
- Multi-purpose Stack chairs and Cafe Height stool are warranted for users up to 300 lbs.

☐ For Fire Code model, availability and ordering method, refer to matrix on pages 459-461.

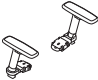

⚠ **Ganging brackets work with armless Guest/Multi-purpose models only.**

# Nucleus® — Series Seating

GSA SIN 711-18

► Nucleus uses an advanced suspension material for the internal structure of the seat, which is slung over a frame, then over-molded with foam.

► The multi-directional stretch of ilira®-stretch M4, which flexes four ways, puts instant lumbar support right where you need it as you sit up, recline, stretch, and move.

► For additional HON to Supply COM fabric grade pricing, go to [honready.hon.com](http://honready.hon.com) and click on the HON to Supply COM link.

► For Fire Code model, availability and ordering method, refer to matrix on pages 459-461.

► Models H2091 and H2092 feature exceptional quality visco-elastic memory foam in seat cushion which reduces pressure points and responds to contours of the body for lasting comfort over extended use periods.

► Fully-upholstered outer back.  
► Models H2091 and H2092 swivel chairs are standard with pneumatic seat height adjustment, tilt, tilt tension and tilt lock.

► Chair is warranted for users up to 300 lbs.  
► For additional HON to Supply COM fabric grade pricing, go to **honready.hon.com** and click on the HON to Supply COM link.

☐ For Fire Code model, availability and ordering method, refer to matrix on pages 459-461.

⚠ Available in black frame only.  
⚠ When selecting Leather, the 2090 Series is available in SR Leather only.

## Purpose® Seating

GSA SIN 711-18

HON

► Purpose® does not require multiple manual adjustments. Using YouFit™ Technology, the design responds to your movement, needing only a seat height adjustment.

► Available in Task Chair and Stool models.  
► Seat and back move independently of one another.  
► Shell color options include Onyx (ON) or Platinum (PT).

► See page 538 for Fixed or Adjustable Arm packs.  
► Chairs warranted for users up to 300 lbs.

► Purpose® Seating is available in Fire Code upholstery and shell options. Upholstery is available in Centurion (CU) and Silvertex™ (SX) colors and shell colors are available in Onyx (ON) and Platinum (PT).

△ **Pneumatic seat height adjustment is standard and is the only manual adjustment.**

### PATIENT RECLINER STANDARD FEATURES

#### 1. PIVOT ARM

The pivoting transfer arm can be easily activated to move the arms up and out of the way during patient transfers or examinations.

#### 2. INDIVIDUALLY LOCKING CASTERS

Casters lock independently to keep the recliner stationary during treatment.

#### 3. CHAIR TRANSFERS

The seat height and pivot arm enable convenient caregiver assisted patient transfers.

#### 4. INFINITE RECLINE

The chair back and footrest are designed to allow the patient or caregiver to select from an infinite number of configurations.

### PATIENT RECLINER OPTIONS

Customize the functionality of your Soothe™ recliner with the following optional features.

#### CENTRAL LOCK

Foot activated pedal immediately locks the recliner in place.

#### PUSH HANDLE

Ergonomically designed to reduce back strain and support the caregiver as they reposition the chair.

#### FOLEY HOOK

A foley hook holds tubes, medical bags, and other equipment vital to treatment.

#### IV POLE MOUNT

Customize with an IV pole mount to limit patient transfers and save valuable floor space.

#### FOOT PLATFORM

Foot platform elevates patient's feet to accommodate users of all sizes.

#### MOISTURE BARRIER

This extra layer of protection prevents moisture from penetrating the foam to improve cleanability and extend product longevity.

## Soothe™ Recliners

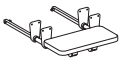

Not on GSA Contract

HON

- Soothe™ recliner back and footrest are designed to allow the patient or caregiver to select from an infinite number of configurations. Positions include: upright, reclined with footrest, and fully reclined.
- Recliner models include a pivot arm and locking casters as standard features.
- Optional features include: Central locking casters, push handle, foley hook, and an IV pole mount.
- Optional foot platform elevates patient's feet to accommodate users of all sizes.
- The Soothe™ recliner is warranted for users up to 350 lbs.
- For Fire Code and Moisture Barrier model availability and ordering method, refer to matrix on pages 459-461.

## BASES

## ANCILLARY COMPONENTS

Preside conference tops come in single piece or multi-piece sections depending on specified size. See below for top sizes, sections, and suggested seating capacity.

### Product Reference: Sizes, Sections, Seating Capacity

#### Multi-piece tops: Rectangle, Racetrack, Boat and Arc End Tops

	Feet	Inches	30"D	36"D	48"D	54"D	Suggested Capacity
	30	360"					28-30
	28	336"					26-28
	26	312"					24-26
	24	288"					22-24
	22	264"					20-22
	20	240"					18-20
	18	216"					16-18
	16	192"					14-16
	15	180"					14-16
	14	168"					12-14
	12	144"					10-12
	10	120"					8-10
	9	108"					8-10

#### Single-piece tops: Rectangle, Racetrack, Boat, Soft Wedge, Arc End and Peninsula Tops

	Feet	Inches	30"D	36"D	42"D	48"D	
	8	96"					6-8
	7	84"					4-6
	6	72"					4-6
	5	60"					4-6
							
							

#### Single-piece tops: Round and Square

		36"	42"	48"	
	Round				2-4
	Square				2-4

**Note:** Single- and two-piece tops ship in one carton, three-piece tops ship in two cartons.

Preside Base Compatibility

Bases compatible with 48"D and 54"D Rectangle, Boat, Racetrack, Soft Wedge, Arc End and Peninsula Tops

Bases compatible with 30"D and 36"D Rectangle, Boat, Racetrack, Soft Wedge, Arc End and Peninsula Tops

Bases compatible with Round and Square Tops

Bases that accommodate power and data

Power and data can be routed through select bases. Bases with removable doors provide easy access to concealed cabling and technology, such as wireless internet routers. Bases with door accessibility

Bases with wire routing capabilities

### Specify Preside tables with two steps—select a top and select a base.

#### 1. Select desired top size, shape, and edge profile.

##### Multi-piece Tops:

Multi-piece tops are made of 108", 120", 144" and 168" two-piece "starter-sections" in rectangle, boat, arc end, or racetrack shapes in 48" or 54" depths. For tables up to 20', models are preconfigured for you. If you need a table top longer than 20', add as many 72" adder sections as you need. The examples below illustrate preconfigured sizes as well as how starter section and adder section tops can be used to create tables in virtually any length. Please note that 2-piece tops, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected. For tops utilizing an adder section, there will not be a grain match for those pieces.

##### Preconfigured and Modular Size Examples

	Feet	Inches	Ex. Top Starter Section	Quantity	Adder Section	Quantity	Total Number of Top Sections
Preconfigured Sizes	9'	108"	HTLC48108	1	n/a	n/a	2

## 2. Select desired base style and identify model that coincides with top length.

### Bases for Tops in Preconfigured Sizes

Bases include the appropriate number of supports for tables up to 20'. Simply identify the length of the table top in inches and specify the base with the same length in the model number. The example below illustrates how to select a base for a preconfigured size top.

### Examples of Base for Preconfigured Top Size

Example top: HTLC48240 Top Description: 240" Rectangle Top  
Example base: HTLHP240 Base Description: Hollow Panel Base for 240" Top

Example: HTLHP240

### Bases for Tops in User Configured Modular Sizes

If you need a table top longer than 20', add as many 72" adder section bases as needed. The examples below illustrate preconfigured sizes as well as how starter section and adder section bases can be used to create tables in any desired length.

### Examples of Tops and Bases for User Configured Modular Top

	Feet	Inches	Ex. Top Starter Section	Quantity	Ex. Top Adder Section	Quantity	Ex. Base Starter Section	Quantity	Ex. Base Adder Section	Quantity	Total # of Top Sections

# Preside® Veneer Table Tops

GSA SIN 711-11

# HON

- See base options on pages 590-593.
- Veneer tops are available in six different edge details. Specify G, C, J, T, H or V as the first option after the base model.
- Tops with G, C, J, T edge detail feature 1 1/8" edge thickness and finished MDF rim.
- Tops with H and V edge detail feature 1 1/2" edge thickness and feature hardwood rims.
- Tops are available in eight shapes: Racetrack (A), Boat (B), Rectangle (C), Arc End (E), Peninsula (F), Soft V Wedge (G), Round (D), Square (S). Replace the (?) shown in each model with A, B, C, E, F, G, D or S to specify shape. Tops with traditional (T) edge available in rectangle, round and square shapes only.
- Table tops sit 29 1/2" above floor with glide half way seated.
- Tops 96" and greater, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected.
- Tops greater than 96" ship in multiple pieces to facilitate handling and installation. For details see page 581.
- Woodgrain pattern runs parallel to seam on multi-piece tops.
- Veneer color match for adder sections may vary depending on date of purchase.
- For best veneer color match, product should be specified on same order.
- Flip-top Port options are not available on Round or Square tops; Pop-up ports only.
- Cannot specify a Port option for 48" Round or Square Table Tops with Traditional edge.
- See page 585 for number of cutouts for each table top size.
- Optional cutouts are available to accommodate power ports. One centered cutout per top section. Power ports must be ordered separately. For power port specification details see page 595.
- Single and two-piece tops ship in one carton, three piece tops ship in two cartons.
- Underside of tops feature alignment guide for base placement.
- △ Tops with traditional edge available in Mahogany only.**

# Preside® Veneer Tables — Bases

GSA SIN 711-11

# HON

- Tops and bases are sold and shipped separately.
- For Base and Top compatibility, see base information on pages 581-584.
- All bases allow table tops to sit 29½" above floor with leveling glides half-way retracted.
- Bases ship with appropriate number of supports for table width. See page 584 for details.
- Veneer panel bases feature dual aluminum support beams with integrated wire management. Support beam ships with tops on 60" and 72"W tables and with the base on tables 96"W and greater.
- Aluminum T-legs for tops 96"W and greater feature dual aluminum support beams with integrated wire management. Aluminum T-legs for 60" and 72" tops do not include aluminum beams.
- Efficient design of Aluminum T-leg maximizes leg space. The T-leg features a removable door for wire access.
- Traditional panel base for 168"W Top includes two traditional panels and one standard panel.

Icon Legend on page 10

- Tops and bases are sold and shipped separately.
- For Base and Top compatibility, see base information on pages 581-584.
- Standing-height Cube Bases are 39"H.
- Cube base requires 150 pounds of sand or other ballast in each base for stability (customer to supply).
- Veneer cube bases for tops 120"W and greater feature dual aluminum support beams with integrated wire management.
- Hollow Panel and aluminum T-legs for tops 96"W and greater feature dual aluminum support beams with integrated wire management.
- End caps for Hollow Panel bases can be matched to wood grain finishes or specified in select solid colors.
- Hollow Panel and Cube bases feature a removable door to allow access to cable and enable wire routing through bases.
- New Standing Height Bases feature a hinged door for easy access and for cable routing through the base.

⚠ **Veneer Standing Height Cube bases do not require ballast.**

# Preside® Veneer Tables — Bases

GSA SIN 711-11

# HON

- Tops and bases are sold and shipped separately.
- Bases ship with appropriate number of supports for table width. See page 584 for details.
- For Base and Top compatibility, see base information on pages 581-584.

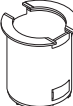

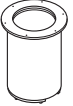

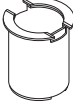

- Cylinder base requires 150 pounds of sand or other ballast in each base for stability (customer to supply).
- Cylinder bases facilitate wire management with integrated wire channel and plinth.

- Veneer cylinder bases for tops 120"W and greater feature dual aluminum support beams with integrated wire management.

- New Veneer Cylinder Bases with Wire Management include a unique design that allows cords to be routed through the base with easy access to electrical outlets.

△ **New Veneer Cylinder Bases with Wire Management support 48" D and 54" D table tops only.**

# Preside® Laminate Table Tops

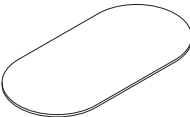

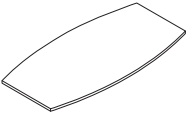

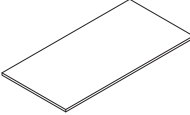

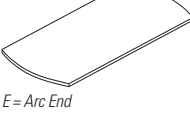

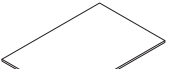

GSA SIN 711-11

# HON

- Tops are available in eight shapes: Racetrack (A), Boat (B), Rectangle (C), Arc End (E), Peninsula (F), Soft Wedge (G), Round (D), Square (S). Replace the (?) shown in each model with A, B, C, E, F, G, D or S to specify shape. Tops with traditional (T) edge available in rectangle, round and square shapes only.
- See base options on pages 598-601.
- Tops 96" and greater, in woodgrain colors, will not have exact grain alignment in the center where the two halves meet, a reasonable match can be expected.
- Tops greater than 96" ship in multiple pieces to facilitate handling and installation. For details see page 581.
- Tops with E, G, V, H, K and T edge details feature durable laminate tops over solid core high-performance particleboard. Tops with J edge feature an MDF core.
- Laminate tops with traditional (T) edge feature high gloss laminate and wood edge to coordinate with 94000 Series Desks.
- Table tops sit 29 1/2" above floor with glide half way seated.
- Laminate tops are available in seven different edge details. Specify E, G, V, H, K and J as the first option after the base model. For laminate tops with traditional (T) edge, specify "T" in the base model. See specifying information below.
- E, G, V, J, T edge details feature 1 1/8" edge thickness. H, K edge details feature 1 1/2" edge thickness.
- Tops with E and V edge detail have 3" radius corners. All other edge details have 90 degree corners.
- Optional cutouts are available to accommodate power ports. One centered cutout per top section. Power ports must be ordered separately. For power port specification details see page 595.
- See page 585 for number of cutouts for each table top size.
- Underside of tops feature alignment guide for base placement.
- Single and two-piece tops ship in one carton, three piece tops ship in two cartons.

⚠ **Tops with traditional edge available in Mahogany only.**  
 ⚠ **3-piece or more tops will not contain any grain match.**

# Preside® Laminate Tables — Bases

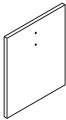

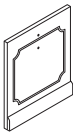

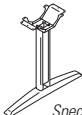

GSA SIN 711-11

# HON

- Tops and bases are sold and shipped separately.
- All bases allow table tops to sit 29½" above floor with leveling glides half-way seated.
- Bases ship with appropriate number of supports for table width. See page 584 for details.
- Laminate panel bases feature sturdy 1½" thick x 12"H particleboard support beam in matching finish. Support beam ships with tops on 60" and 72"W tables and with the base on tables 96"W and greater.
- Traditional panel base for 168"W Top includes two traditional panels and one standard panel.
- For Base and Top compatibility, see base information on pages 581-584.
- Aluminum T-legs for tops 96"W and greater feature dual aluminum support beams with integrated wire management. Aluminum T-legs for 60" and 72" tops do not include aluminum beams.
- Efficient design of Aluminum T-leg maximizes leg space. The T-leg features a removable door for wire access.

⚠ Traditional style bases available in Mahogany (N) only.

Icon Legend on page 10

► Tops and Modesty Panels are 1 1/8" Melamine.

► 168"W Boat-Shaped Top needs 3 bases; 72"W Middle Adder needs 1 base. All other tops need 2 bases.

► 120", 144", and 168"W Tops ship in 2 pieces to facilitate handling and installation; these top sizes will not have an exact grain alignment where the two halves meet, a reasonable match can be expected.

△ Available in Harvest (C) and Mahogany (N) finishes only.  
△ Tops available in Boat Shape with G edge (2mm self edge) only; Middle Adder is rectangular with G edge.

△ Edge finish always matches top finish.

### 3" ROUND GROMMET LOCATIONS

NOTE: 3" round grommet color will need to be specified for tops. Grommet will coordinate with paint color specified for cube/cylinder tables. Charcoal grommets will be used with Textured Charcoal paint and Platinum Metallic grommets will be used with Textured Satin Chrome paint. Grommet options can be used in conjunction with accessory ports on cube/cylinder tables. Grommet models HGRMTAC and HGRMTDATA on page 611 can also be used with Flock® tables.

### ACCESSORY PORT LOCATIONS

Only applies to models HFTLS24, HFTLD26, HFTVS24, and HFTVD26.

### NOTE:

Port location 1 allows for either one tablet or one lamp accessory — see models on pages 610-611.  
Port location 2 allows for either one tablet and one lamp accessory or two tablet accessories (two lamps cannot be used) — see models on pages 610-611.  
Port location 2D allows for either one tablet and one lamp accessory or two tablet accessories (two lamps cannot be used) — see models on pages 610-611.  
Port location 3 allows for two tablets accessories and one lamp accessory (two lamps cannot be used; three tablets cannot be used; three lamps cannot be used) — see models on pages 610-611.

## Flock® Collaborative Veneer and Laminate Table Tops

GSA SIN 711-11

HON

- Choose from Square, Round, Rectangle or Racetrack shaped table tops.
- Grommet models HGRMTAC and HGRMTDATA on page 611 can also be used with Flock® tables.
- Specify table tops with or without grommets. See page 607.
- Specify bases separately, see page 609.
- Rectangle and Racetrack tops come with 2 grommet cutouts if specified with Round grommet.
- For a complete line of compatible Flock® collaborative seating solutions, please see pages 499-506 of the seating section.

- Select from the 2mm (G) or Ergo Edge (R).
- Specification includes top and base, however, top and base are boxed separately.
- Ergo edge is a bullnose on user side and 3mm on all other sides.
- Tops are 1 1/8" thick.
- Fixed Height base is standard 29 1/2" worksurface height.
- External stiffener on underside of surfaces 60" and larger deters warping and bowing.
- Specify tops without a grommet (N) with a 3" Round Grommet (G) or an Electrical Port opening (G1).
- See grommet matrix on page 623 for grommet location/placement.
- Specify Multi-surface Casters or Glides. Casters are locking.
- 36" and 42" Rectangular tops and all Half-Round and Trapezoid tops are standard with one 3" round grommet (\$15 upcharge per top applies).
- 48"-96" Rectangular tops are standard with two 3" round grommets (\$30 upcharge per top applies).

## Edge Treatments

### HOW TO ORDER

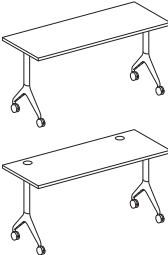

- 1) Select desired model numbers.
- 2) Select desired top edge treatment.
- 3) Replace the (?) after each model number with the suffix representing the chosen top edge treatment.

- Select from the 2mm (G) or Ergo Edge (R).
- Ergo edge is a bullnose on user side and 3mm on all other sides.
- Tops are 1/8" thick.

- Specification includes top and base, however, top and base are boxed separately.
- Seated height adjustment from 27 1/2"-32 1/2" in 1" increments.
- External stiffener on underside of surfaces 60" and larger deters warping and bowing.

- Specify tops without a grommet (N) with a 3" Round Grommet (G) or an Electrical Port opening (G1).
- See grommet matrix on page 623 for grommet location/placement.
- Specify Multi-surface Casters or Glides. Casters are locking.

- 36" and 42" Rectangular tops are standard with one 3" round grommet (\$10 upcharge per top applies).
- 48"-96" Rectangular tops are standard with two 3" round grommets (\$30 upcharge per top applies).

⚠ **No tool required, adjustable bases have ratchet style adjustment mechanism.**

### Edge Treatments

- **HOW TO ORDER**
- 1) Select desired model numbers.
- 2) Select desired top edge treatment.
- 3) Replace the (?) after each model number with the suffix representing the chosen top edge treatment.

- Table Modesty Panels are hinged for use with Nesting Table models.
- Fixed and adjustable height Rectangular tops. Not available for Folding Tables, Trapezoid and Half-Round tops.

- 2-Sided Mobile Markerboard is porcelain over steel with four locking casters.
- Mobile Markerboard includes marker tray and flip-chart paper clips.
- Presentation Carts are available with a Fixed Leg, Adjustable Height, Seated Leg or Adjustable Height, Standing Leg.

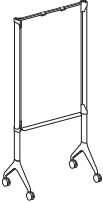

- Presentation Cart tops are 1 1/8" thick with a concave user side. Choose from a 2mm or Ergo edge.
- Presentation Cart Modesty Panel fits between legs.
- Metallic paint carries a \$20 upcharge per model.

- Storage Shelves for Presentation Carts are available in three pre-configured sizes and may be used on fixed or adjustable height models.
- Desk Top Lectern may be used on the Presentation Cart or is removable for use on table tops.

- Desktop Lectern only available with 2mm edge.
- Use field installed Table Modesty Panels with all table widths 36"-96". Cannot be used with folding bases or Half-Round or Trapezoid tables.

► Interlink IQ Electrical is a pluggable, single circuit electrical system.

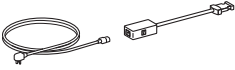

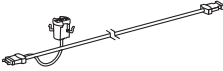

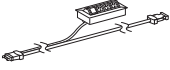

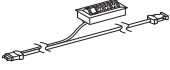

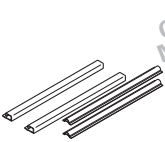

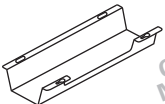

► All electrical models include wire management clips and hardware.

► Interlink IQ Electrical is non-sequential/non-directional.

► Interlink IQ Electrical is UL Recognized as a Powered Table System and meets the requirements of UL 962 when paired with Motivate® or Huddle tables.

△ **40' maximum run, or no more than 8 units. Maximum run is based upon electrical harness width, not table width.**

## Specification guide for IQ Electrical on Motivate® tables

Determine table width, the type of power access being used (3" grommet or 4x8 pop-up) and the desired number per table (Columns 1, 2 or 3). The table will then identify the type and quantity of components needed per table along with the maximum table run. Note that this is in addition to the Power base in-feed which is needed for each run. For example, a 48"W table with two 3" power grommets per table will require (1) HQH5-3 harness and (1) HQH1-3 harness per table with a maximum run of four tables.

Top Width	POWER ONE (1) PER TABLE 3" ROUND POWER GROMMET		POWER TWO (2) PER TABLE 3" ROUND POWER GROMMETS		POWER ONE (1) PER TABLE 4x8 POP-UP PORT

## 4-Trac Electrical System

### 4-Trac Electrical System

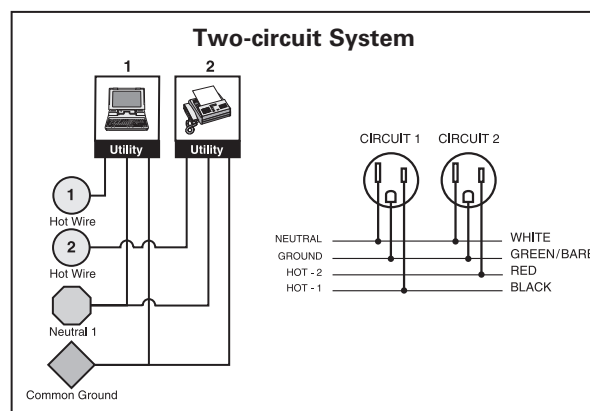

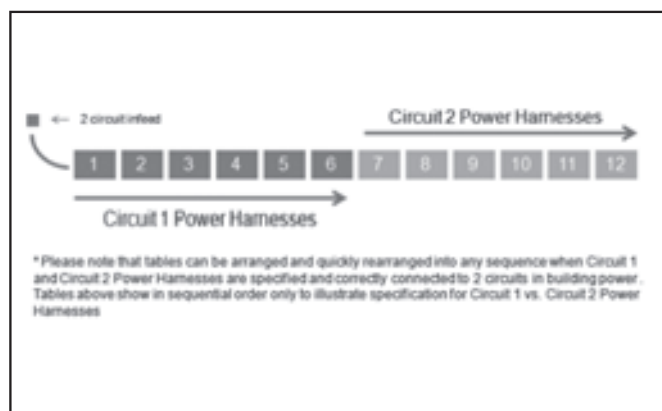

The 4-Trac Electrical System is a UL-recognized Manufactured Wiring System that seamlessly passes power from one worksurface to another. This low-profile non-sequential electrical system allows tables to be "daisy-chained" together in any desired order and allows users to reconfigure quickly due to simple connectable/disconnectable links.

- Meets requirements of UL 183 and National Electric Code Article 604
- 4-Wires, 2-circuits, 20 Amps each (Circuit 1 and Circuit 2 only)
- 13 Duplex Receptacles per circuit, 26, 15 Amp Duplex receptacle per power in-feed
- Electrical system attaches directly to underside of worksurface with included brackets
- Up to twelve tables can be linked together

### Steps for Electrical Specifications:

1. Determine how many rows of tables are needed and order the following:
  - One HHMAPLATE per row (or power in-feed)
  - One HHMACABLE per row (or power in-feed)
2. Order one power harness per table in each row
  - For 1-6 tables in a row (see illustration 1)
    - Order Circuit 1 Power Harnesses (ex. If powering six 24x60 tables order six sets of HHMAPOWER60)
  - For 7-12 tables in a row (see illustration 1)
    - Order Circuit 1 Power Harness for first six tables and Circuit 2 Power Harness for remaining tables (ex. If powering eight 24x60 tables, order six sets of HHMAPOWER60 and two sets of HHMAPOWER602)
3. Order one set of ganging hardware per table (ex. HMAGANG)
4. Determine which accessories are needed:
  - a. Power Hub model HGRMTAC — to access power at worksurface.
  - b. Data Grommet model HGRMTDATA — to access data at worksurface.
  - c. Wire Management strips model HBTMS — for vertical and horizontal wire management.
  - d. Wire Trough models HWTROUGH1, HWTROUGH2, HHWTROUGH34 or HHWTROUGH58 — oversized horizontal wire trough.

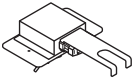

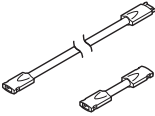

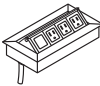

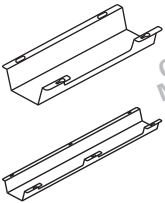

➤ Each power kit includes two duplex receptacles and attaches to the underside of the worksurface with included brackets.

➤ Power kits are compatible with various base types including Flip-Top and T-Leg.

## Huddle Multi-Purpose Tables

# HON

Huddle Multi-Purpose Tables are ready to jump into action for training, meetings, collaboration and more. Thoughtful design, flexibility and plenty of base, edge and finish options, make Huddle tables capable of meeting the needs of smart, agile businesses.

### Tops – Rectangle

\*84" and 96" Tops require flip-top bases and are available in Edgeband only

### Edge Options

### Tops – Half-Round and Extended Half-Round

### Bases

Post Leg w/Casters

T-Leg w/Casters

Flip-top w/Casters

Post Leg w/Glides

T-Leg w/Glides

### Accessories

## Huddle Multi-Purpose Table Tops

GSA SIN 711-11

HON

- ▶ Table tops are 1 1/8" thick.
- ▶ Tables available in two edge options T-mold or Edgeband.

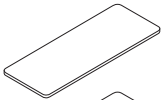

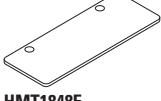

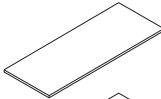

- ▶ Tops and bases are ordered and sold separately.
- ▶ Underside of tops include pilot holes to accommodate all base types, optional ganging hardware.

- ▶ Optional wire management strips attach to underside of table. See page 634.

- ▶ External stiffener on underside of surfaces 72" and larger deters warping and bowing.
- ▶ When post legs are used with 18"W tops, post leg to be specified with glides only.

- △ Grommets available in Black only.
- △ Pop-up Port option (G1). Available in Silver only.

# Huddle Multi-Purpose Table Bases

GSA SIN 711-11

# HON

- Tops and bases are ordered and sold separately.
- All bases allow tops to sit at 29½" from the floor with glides half-way seated.
- Both glides and casters attach to the foot easily without tools for assembly.
- Bases specified with casters include two locking and two non-locking casters.
- Bases specified with glides have four adjustable glides, which adjust 1".
- Flip-top base is standard with casters.
- When post legs are used with 18"W tops, post leg to be specified with glides only.

### 4-Trac Electrical System

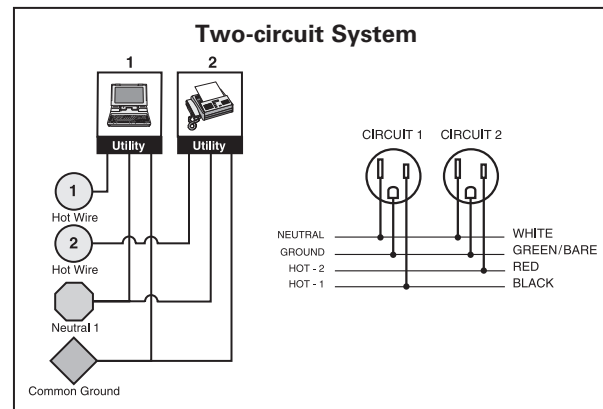

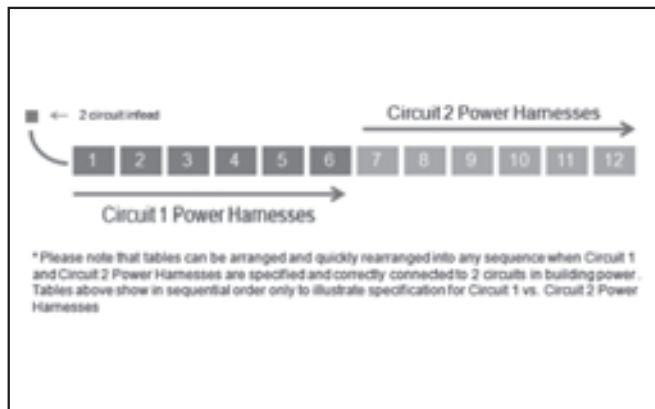

The 4-Trac Electrical System is a UL-recognized Manufactured Wiring System that seamlessly passes power from one worksurface to another. This low-profile non-sequential electrical system allows tables to be "daisy-chained" together in any desired order and allows users to reconfigure quickly due to simple connectable/disconnectable links.

- Meets requirements of UL 183 and National Electric Code Article 604
- 4-Wires, 2-circuits, 20 Amps each (Circuit 1 and Circuit 2 only)
- 13 Duplex Receptacles per circuit, 26, 15 Amp Duplex receptacle per power in-feed
- Electrical system attaches directly to underside of worksurface with included brackets
- Up to twelve tables can be linked together

### Steps for Electrical Specifications:

1. Determine how many rows of tables are needed and order the following:
  - One HHMAPLATE per row (or power in-feed)
  - One HHMACABLE per row (or power in-feed)
2. Order one power harness per table in each row
  - For 1-6 tables in a row (see illustration 1)
    - Order Circuit 1 Power Harnesses (ex. If powering six 24x60 tables order six sets of HHMAPOWER60)
  - For 7-12 tables in a row (see illustration 1)
    - Order Circuit 1 Power Harness for first six tables and Circuit 2 Power Harness for remaining tables (ex. If powering eight 24x60 tables, order six sets of HHMAPOWER60 and two sets of HHMAPOWER602)
3. Order one set of ganging hardware per table (ex. HMAGANG)
4. Determine which accessories are needed:
  - a. Power Hub model HGRMTAC — to access power at worksurface.
  - b. Data Grommet model HGRMTDATA — to access data at worksurface.
  - c. Wire Management strips model HBTMS — for vertical and horizontal wire management.
  - d. Wire Trough models HWTROUGH1, HWTROUGH2, HHWTROUGH34 or HHWTROUGH58 — oversized horizontal wire trough.

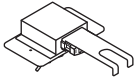

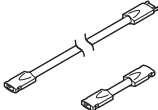

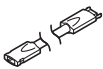

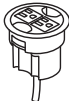

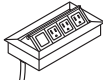

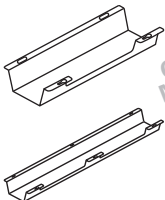

## Huddle Electrical

GSA SIN 711-11 Except as Noted

HON

- Ganging Hardware must be ordered and installed on tables when using 4-trac electrical systems. See page 634 for Ganging Hardware.
- Each power kit includes two duplex receptacles and attaches to the underside of the worksurface with included brackets.
- Power kits are compatible with various base types including Flip-Top, T-Leg and Post-Leg.

## Specification guide for IQ Electrical on Huddle tables

Determine table width, the type of power access being used (3" grommet or 4x8 pop-up) and the desired number per table (Columns 1, 2 or 3). The table will then identify the type and quantity of components needed per table along with the maximum table run. Note that this is in addition to the Power base in-feed which is needed for each run. For example, a 48"W table with two 3" power grommets per table will require (1) HQH5-3 harness and (1) HQH1-3 harness per table with a maximum run of four tables.

Top Width	POWER ONE (1) PER TABLE 3" ROUND POWER GROMMET		POWER TWO (2) PER TABLE 3" ROUND POWER GROMMETS		POWER ONE (1) PER TABLE 4x8 POP-UP PORT	
36"	(1) HQH5-3	8 Table Run Maximum	N/A	N/A	(1) HQH5-P	8 Max Table Run

## Coordinate™ Height Adjustable Base

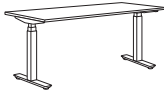

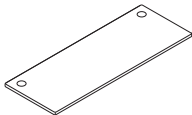

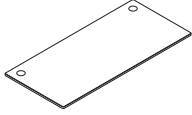

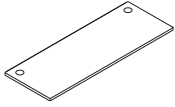

GSA SIN 711-2 Except as Noted

HON

- ▶ Height Adjustable Base is a 3-stage column design.
- ▶ Frame rises from 23<sup>5</sup>/<sub>8</sub>" to 49<sup>1</sup>/<sub>4</sub>" for a sit-to-stand desk option.
- ▶ Height Adjustable Bases shipped complete with a preassembled motor.
- ▶ Base telescopes to accommodate any worksurface between 48"W and 72"W.
- ▶ Height Adjustable Base accommodates rectangular worksurfaces between 24"D x 48"W and 36"D x 72"W. Systems, Voi®, 10500, and Preside® all have worksurfaces within this range.
- ▶ Systems Rectangle Worksurfaces for Height Adjustable Bases designed for use in panel systems. Worksurface is 2" shorter in width and 3/4" shorter in depth to provide clearance between panels and other worksurfaces.
- ▶ Standard height-adjustable control ships with base.
- ▶ Dynamic load capacity when worksurface is moving is 300 lbs.
- ▶ Optional Memory Control allows preset worksurface heights for consistency. Ships separately.
- ▶ Silver finish matches any neutral HON paint or finish color.

△ **HON's Optional Memory Control (HHABMEM) does not work with the *basyx* by HON® Height Adjustable Base.**

## Laminate Occasional Tables

GSA SIN 711-11

HON

► Durable material and construction make laminate occasional tables ideal for high traffic areas such as lobbies, reception rooms and lounges. Versatile design is also well suited to private offices.

► Coffee, Corner and End Tables feature top-over-apron styling with square corner detail, which complements many interiors and furniture designs, including the 10500 Series.

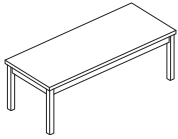

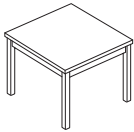

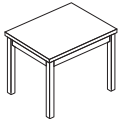

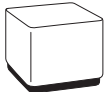

► Tables accommodate lamps, magazines, telephones, plants, laptops and more.

► Tops are abrasion- and stain-resistant laminate over 1 1/8" thick solid core high-performance particleboard.

► Cylinder and cube tables have recessed black plinth base with tack glides. Tops and sides are covered with laminate.

- 5/8" thick laminate top and bench (where applicable).
- Width shown is the table top width only, not overall including seating.

- Benches are 10"D.
- All table tops and benches feature a permanent polyurea bonded edge. This sealed edge offers superior resistance to moisture and eliminates unsanitary food traps.

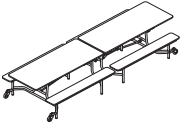

- Leg design allows table to be folded for compact storage.
- High strength steel frame with a durable powder-coated finish.

- Polyolefin wheel and non-marring casters.
- All tables are GREENGUARD Indoor Air Quality and GREENGUARD Children and Schools certified.

- Units ship blanket wrapped from the factory.

⚠ **Only Cafeteria Tables with Benches are UL Listed.**

## STUDENT DESK

With the SmartLink® student desk's innovative shape, you can create dynamic learning environments and every space can be tailored to fit the lesson plan whether the need is for individual, student/group collaboration or teacher centered layouts. In addition to the desk's innovative top shape you can also select from three leg configurations to meet your specific needs for classroom or collaborative spaces.

### Individual Layouts

- The non-handed top allows the desk to be positioned to better support right-handed or left-handed individuals or be used in a forward position.
- 30" distance between legs is wheelchair friendly.

LH Position

### Group/Collaborative Layouts

Below are examples of how the student desks can be configured to support multiple students or group activities.

Student Desk  
2-Desk Configuration

Opposing Student Desk  
2-Desk Configuration

Student Desk  
4-Desk Configuration

Student Desk  
4-Desk Cluster Configuration

Student Desk  
4-Desk Work Group Configuration  
*Can accommodate up to 8 students*

### Teacher Centered Layouts

- Reverse the layout and use the student desks instead of activity tables to create layouts for teacher centers that can accommodate up to 6 students.
- 23<sup>5</sup>/<sub>8</sub>" distance between legs when used from either side.

Teacher Centered Layout

### Standard Row Layout

While a variety of classroom configurations are possible, a standard row layout shown below with 25 student desks utilizes a footprint of 199" deep by 284" wide. A 30 student desk row layout (5 rows deep by 6 rows wide) will require a footprint of 199" deep by 348" wide.

These dimensions are based upon 36"W aisles. Actual dimensions should be based upon local building codes.

**TEACHER STATION****SmartLink®**

The following planning and specifying information is intended to help you imagine and create stimulating SmartLink classrooms that can integrate technology while helping rooms stay adaptable, organized and attractive. With just four basic product categories, SmartLink offers you everything you need to create flexible, clutter-free learning environments for students of all ages.

Teacher stations are available in two sizes. Select from the standard double pedestal model (26 x 72) or the compact single pedestal model (24 x 60) based upon your specific storage, technology and space needs. A laminate top with a soft feel t-mold edge provides a classic look with exceptional durability.

**Teacher Station – Standard Double Pedestal**

HLT2672-23.C

*Storage*

- Box/box/file pedestal is always standard on the right-hand side. Pedestal is locking.
- Available kneespace is 33<sup>1</sup>/<sub>4</sub>"W x 20"D for all models.
- Trays and 12"W shelves are specified and sold separately.
- Non-locking Center Drawer (HD8X) may be field installed in the kneespace. Tops are pre-drilled to accept the drawer.
- Center drawers and CPU holders cannot be installed together.

*Cable Management*

- Both the left-hand and right-hand end panels may be removed to provide access to power and cable management within the side power cabinet.
- Grommets are standard in each removable end panel allow a power cord to exit and be plugged into a floor or wall outlet.
- Two "Smart Grommets" with a wireway cover are standard on each station's top surface.

**Teacher Station – Compact Single Pedestal**

HLT2460-L3

*Storage*

- Single pedestal desk available in Left-hand or Right-hand pedestal/storage configurations.
- Pedestal options include Box/Box/File locking.

*Technology*

- The pedestals end panel may be removed to provide access to power and cable management within the side power cabinet.
- A grommet is standard in the removable end panel to allow a power cord to exit and be plugged into a floor or wall outlet.
- Side power cabinet accommodates the HLPC-PK06 plug strip and may be secured in the base without hardware or tools.
- A single "Smart Grommet" with a wireway cover is standard on each station's top surface.

### MODULAR STORAGE

SmartLink® Modular Storage is comprised of cases, accessories and support rails. However, only the cases and accessories need to be specified. The following guidelines should help you plan and specify SmartLink Storage.

#### Planning Notes

##### Cases

- A laminate top with a soft feel vinyl edge provides a classic look with exceptional durability.
- Storage cases do NOT include accessories. Accessories are specified and sold separately.
- Case configurations are based off of 12"W or 30"W columns.
- Internal case configurations cannot be changed (i.e., cannot change an HLSF52-3 to a HLSF52-21).
- Cases are designed to allow the users to create a variety of accessory configurations using different tray heights and shelves.
- Cases must be specified with or without locking doors.
- Door models may be converted to non-door models in the field.

##### Accessories

- Accessories include trays in 3", 6" and 12" heights, shelves in 12" and 30" widths and a 12"W coat rod.
- All accessories are sold and specified separately as kits and include 1 pair of storage rails per tray or shelf.
- The support rails simple "no tool" attachment method allows users to easily install and change rail (tray or shelf) positions as needed.
- Kits include:

Accessory	Quantity Per Kit	Where Used
3"H trays	7 trays / 14 support rails	12"W columns only
6"H trays	4 trays / 8 support rails	12"W columns only
12"H trays	2 trays / 4 support rails	12"W columns only
12"W shelf	2 shelves / 4 support rails	12"W columns only
30"W shelf	2 shelves / 4 support rails	30"W columns only
Coat Rod	1 coat rod	12"W columns — Full Height case only

- Cabinet Whiteboard Bracket kit is available which allows whiteboards to be mounted to the back of the full height cabinets. Kit includes upper and lower rails with integrated marker tray and attachment hardware. Use wall rail sliding whiteboards. Rails will accept one (1) 48" x 48" board or two (2) 24" x 48" boards.

#### Specification Notes

- Number of accessory openings

SmartLink storage cases are available in six (6) standard case types that feature combinations of 12" or 30" internal column widths. The following illustration shows the number of openings by column width for each case configuration.

### WALL RAIL SYSTEM

The SmartLink® wall rail is a multi-layered, multi-functional system that can accommodate a variety of presentation boards and accessories. The multiple tracks allow boards to be easily positioned and changed to support today's interactive learning environments.

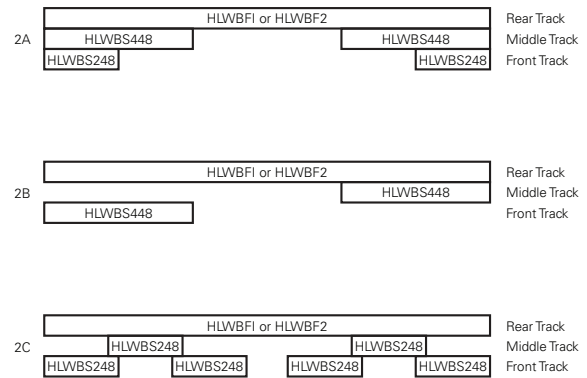

#### Planning Notes

- Installation of the wall rail system over existing white or chalkboards is not recommended.
- The rail and wall bracket provide three separate tracks for the Learning boards. The REAR or wall/bracket track is occupied by the fixed wall board. The MIDDLE and FRONT tracks are for sliding boards.
- To allow for greater utilization of the rear fixed board a maximum width of 96" of sliding boards on the middle or front track is recommended.

The illustration below shows the overall wall space requirements for the rail system and recommended mounting height for use in K-12 classroom applications.

Sliding boards are removable and reversible so a wide variety of layouts are possible. The following illustrations highlight a couple of the more common applications. Layouts 2A and 2B provide the greatest amount of board space and overall flexibility. When used with rail mounted worksurfaces, use 24"W boards on the front rail as shown in 2C in front of each worksurface to provide information specific to that work area. Boards could then be added to the middle rail for information/work to be shared between the stations.

#### Specification Notes

- Boards are specified individually.
- Hardware to mount to the wall brackets is not provided by HON and MUST BE SOURCED LOCALLY.
- Learning board only applications require two (2) HLWR-12 rails to be specified.
- REFER TO PRODUCT INSTALLATION INSTRUCTIONS FOR DETAILED INSTALLATION INFORMATION.

- ▶ Laminate desk top constructed of 3/4" thick particleboard, high-pressure laminate top with SecurEdge for superior durability. Tamper and moisture resistant.
- ▶ Non-handed desk top constructed of 3/4" hard plastic, includes dual pencil grooves.
- ▶ Hard plastic top features comfort edge on user side and soft radius with rounded corners on all sides.
- ▶ Legs ship unattached for easy field installation on E♦A models.
- ▶ May also be specified to ship fully assembled, with or without HLDA-15 Book Box.
- ▶ Upper leg is painted, lower leg standard chrome finish on Adjustable and Sit-to-Stand models.
- ▶ Nylon swivel glides are standard on adjustable and fixed leg models.
- ▶ Hard plastic tops include pencil grooves. Laminate tops do not.
- ▶ All student desk models ship 2 per cartan.
- ▶ Accepts optional felt glide caps (HGDK3-F) which are recommended for softer floors including VCT.
- ▶ Wheelchair friendly, 29.60" distance between legs on user side. Outside distance between legs is 23 3/8".
- ▶ Sit-to-Stand model features bell glides.
- ▶ Sit-to-Stand is height adjustable from 30"-43"H and includes a footrest.
- ▶ Accepts optional book basket (HLDA-15) and backpack hooks (HCLA65). Not for use with HCLA50 or HCLA45 book baskets.
- ⚠ **Field installed felt glide caps (HGDK3-F) are recommended for use on VCT flooring.**

- Laminate desk top constructed of 3/4" thick particleboard, high-pressure laminate top with SecurEdge for superior durability. Tamper and moisture resistant.
- Hard plastic tops include pencil grooves. Laminate tops do not.

- Nylon swivel glides are standard on adjustable and fixed leg models.
- Fixed Height models ship fully assembled. Adjustable models have the upper leg and cross-brace installed. The lower leg ships unattached for field installation.

- Wheelchair friendly, 29.60" distance between legs on user side. Outside distance between legs is 23 3/8".
- Accepts optional book basket (HLDA-15) and requires cross-brace repositioning and backpack hooks (HCLA65). Not for use with HCLA50 or HCLA45 book baskets.

- Book boxes are only available as an accessory for field installation on Value Series desks.

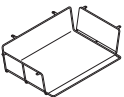

⚠ **Field installed felt glide caps (HGDK3-F) are recommended for use on VCT flooring.**

	Description	Model	Ship Weight	Cube	List
	Student Desk, Fixed Height 28"W x 28"W, User side 36 1/4"W 30" Fixed Height <b>Hard Plastic Top</b>	<b>HLDV-M3F</b> E♦A	63	5.5	\$ 539
	<b>Laminate Top, with SecurEdge</b>	<b>HLDV-L3F</b> E♦A	63	5.5	\$ 472
	NOTES: The cross-brace is installed to maximize kneespace but will not allow for book basket (HLDA-15) installation. The cross-brace orientation can be switched in the field to allow for book basket install.				
	📦 <b>Student Desks are ordered and shipped two (2) desks per carton. Legs and cross-brace ship attached. The cross-brace is installed to maximize kneespace but will not allow for book basket (HLDA-15) installation. Pricing shown is per carton. Ordering two of model HLDV-M3F will result in 2 cartons being shipped, giving you 4 desks.</b>				
	Student Desk, Adjustable Height 28"W x 28"W, User side 36 1/4"W Adjustable: 23"-33" height adjustment range. <b>Hard Plastic Top</b>	<b>HLDV-M3A</b> E♦A	59	5.5	\$ 539
	<b>Laminate Top, with SecurEdge</b>	<b>HLDV-L3A</b> E♦A	59	5.5	\$ 472
	SPECIFICATION TIP: Consider available kneespace when specifying under desk storage Wire Book Box. Available kneespace will vary significantly given set desk height. Use the following example to calculate the available and usable kneespace.				
	EXAMPLE: HLDV-M3A Student Desk, HCL18 Accomplish Chair, HLDA-15 Wire Book Box (user set desk height – top thickness – seat height = available kneespace) (29"H – 1" thickness – 18" seat height = 10" available kneespace) (available kneespace – book basket/box height = usable kneespace) (10" available kneespace – 5" basket height = 5" usable kneespace)				
	NOTES: The cross-brace is installed to maximize kneespace but will not allow for book basket (HLDA-15) installation. The cross-brace orientation can be switched in the field to allow for book basket install.				
	📦 <b>Student Desks are ordered and shipped two (2) desks per carton. Upper Leg and Cross-brace ship attached. Lower adjustable legs ship unattached for field installation. Pricing shown is per carton. Ordering two of model HLDV-M3A will result in 2 cartons being shipped, giving you 4 desks.</b>

- Tops/Bases are Laminate with T-mold edge.
- Larger top size provides ample work/conference area or space for equipment.
- Standard with Heavy-duty 3", 360-degree swivel casters, 4-locking, 4-non-locking.

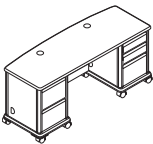

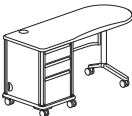

- Storage options include: Locking box/box/file and locking file/file.
- Kneewell space accommodates separately specified and field installed non-locking center drawer and CPU holders (see page 667).

- End panels are removable to access standard power management cabinets on both ends of the station for safe and secure storage of plug-strips, power cords and cables.
- Power Management Cabinet accommodates HLPC-PK06 power kit. (specified separately)

- Removable end panels have one outside cord management grommet.
- Full width cable management system provides easy access to and from each side cabinet.
- Standard with two Smart Grommets with wireway covers.
- Smart Grommets accept optional power inserts (see page 667).

- Single pedestal available in right and left handed configurations.
- D-shape top encourages conferencing and provides ample work and conference area.
- Standard with modesty panel.
- Modesty and column leg will match the specified metal surface color.

- Multi-functional wall rails can accommodate whiteboards, worksurfaces and organizational accessories. See below and page 672.
- Sliding learning boards may be attached to the back of Mobile, full height cabinets with bracket kit HLSA-WBK52 (see page 670).
- Multi-track rail allows for up to three layers of whiteboards. Rear track supports a fixed board, middle and front tracks support sliding boards. Outer rail channel is for attachment of worksurfaces and organizational accessories.
- Sliding learning boards are removable and reversible.
- All fixed and sliding boards:
  - Require two (upper and lower) rails for installation.
  - Feature a full aluminum frame.
  - Are high quality porcelain over steel and non-shadowing.
  - Are low gloss for projection use and allows for use of magnets.

## SmartLink® Wall Rail System Accessories

GSA SIN 71-302 Except as Noted

# HON

- Accessories below to be used on the Wall Rail System — see page 671.
  - All accessories mount on the rail's outer channel and may be used with sliding boards.
  - All accessories may be mounted and moved to any position along the width of the rail.
  - All accessories may be easily removed from the rail with the exception of the All-Purpose Hook. All-Purpose Hook can slide horizontally along the rail but cannot be removed without removing a rail end cap.
- ⚠ **All-Purpose Hook Model HPPMHK is available in Platinum Metallic (T1) only.**

**SPECIFICATION TIP:** Consider available kneespace when specifying under desk storage accessories (HCLA45, HCLA50) for Accomplish and Proficiency adjustable desk models. Available kneespace will vary significantly, given set desk height and model of under-desk basket. Use the following example to easily calculate the available and usable kneespace.

**EXAMPLE:** HCL40 Accomplish Cantilever Desk, HCL18 Accomplish Chair, HCLA50 Wire Basket

(user set desk height – top thickness – seat height = available kneespace)

(29"H – 1" thickness – 18" seat height = 10" available kneespace)

(available kneespace – book basket/box height = usable kneespace)

(10" available kneespace – 5" basket height = 5" usable kneespace)

**Student Desks are ordered and shipped two (2) desks per carton. Pricing shown is per carton. Each set of two desks (one carton), must have the same plastic/laminate color combination. Ordering 2 of Model HCL40 or HCL30 will result in 2 cartons being shipped, giving you 4 desks.**

**NOTE: See pages 681-682 for Accessories.**

**All new Cantilever Chairs and Desks must now be specified with a glide, effective 12/17/2007.**

## Core Removable Lock Kits

GSA SIN As Noted

HON

- HON "One Key" interchangeable core removable locks are standard on most HON products. Look for the HON "One Key" icon.
- Keyed alike cores are listed below.
- If key number is not specified, number will be at random.
- For keyed alike locks:
  - Order standard product which will be shipped with factory installed locks and random numbered cores or omit lock option where offered.
  - Order the appropriate quantity of like numbered cores required for each workstation or keyed area.
  - Simply replace the factory installed cores with the replacement cores after product has been installed.
- To install new core:
  - Lock must be in the unlocked position.
  - Insert core removal key and pull core straight out.
  - Insert new core with core removable key, hold core into lock and withdraw core removal key.
  - Retain original core for future use.
- To provide normal lead times, key numbers cannot be specified on HON products at time of order. This also eliminates need for tagging and tracking each product's lock number during installation.
- Black removable lock core kit used on laminate casegoods.
- Chrome removable lock core kit used on metal casegoods.
- Removable lock core kit for all Arrive and Pennsylvania Avenue products; for Announce and Park Avenue Veneer products manufactured after November 2009 — see model HF27 on page 67.

NOTES: To use the daisy chain application, must start with model HLED17A or HLED31A. No finish specification required. Attaches magnetically to underside of overhead storage or attaches with provided screws. Occupancy sensor attaches to a single or starter LED light and will automatically turn the light off after no motion is detected for 30 minutes. Just like all the LED light models, the occupancy sensor features a soft-touch on/off switch. LED task lights have a lifetime of 50,000 hours and have a dimmer feature that allows the user to adjust the amount of light output.

### What is a Bundled Solution?

A bundled solution is comprised of several individual components and is ordered with a single, all-encompassing number (SKU).

### Why Bundles?

With bundles, you identify one SKU rather than multiple models/SKUs. Order one SKU and get everything you need!

### How do you order a bundle?

Get everything in this picture with one number.

### Still Prefer Ordering Individual Components?

You can do that! See the "bundle components" section for individual item SKUs.

### Contemporary U-Station SKU

VC7292U1B

With this bundle you get the following components:

### Availability

Specific bundle options are now available in the following HON Series:

## Voi® Bundles Typicals

## Replacement Parts Order Form

# HON

Copy this form as needed — Fill out order — Please print — **Bold Information Required**

Date \_\_\_\_\_

Submit to:

Page \_\_\_\_\_ of \_\_\_\_\_

## THE HON COMPANY

**Parts Phone Number (800) 336-8398 • Email: PartsWeb@honcompany.com**

**Customer:** \_\_\_\_\_

**Customer Acct #:** \_\_\_\_\_

**Contact Person:** \_\_\_\_\_

**Purchase Order #:** \_\_\_\_\_

**Phone #:** ( \_\_\_\_\_ ) \_\_\_\_\_ - \_\_\_\_\_

**FAX #:** ( \_\_\_\_\_ ) \_\_\_\_\_ - \_\_\_\_\_

### THE FOLLOWING INFORMATION IS REQUIRED FOR REPLACEMENT KEYS/PARTS.

**NOTE: Parts orders CANNOT be returned. There are NO discounts applied on parts orders.**

**When ordering keys,** please specify the number of keys and the letter designator on all key orders —  
example: E, R, H, 2X, etc. \_\_\_\_\_

**When ordering parts,** please provide:

Serial #: \_\_\_\_\_

Model #: \_\_\_\_\_

Color: \_\_\_\_\_

Date Code: \_\_\_\_\_

Billed: \_\_\_\_\_

Warranty: \_\_\_\_\_

(Even if it is a charge item, we require the serial number or date code from the unit so we can be sure to send the correct style part you need.)

Warranty reason: (This is required to receive parts under warranty. Please be very specific.) \_\_\_\_\_

Description of part needed: \_\_\_\_\_

### Bill To:

Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_

State: \_\_\_\_\_ Zip: \_\_\_\_\_

Country: \_\_\_\_\_

### Ship To:

Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_

State: \_\_\_\_\_ Zip: \_\_\_\_\_

Country: \_\_\_\_\_

When parts are needed to repair HON products, the following guidelines should be followed to expedite the process.

1. Contact the Parts Department at **Consumer Number: 1-800-336-8398**. Direct Dealers: Use standard HON 800 number. They will assist you with your order and answer any questions on parts.
2. There are no discounts applied to parts. Pricing quoted is the net value. Parts pricing is subject to change without notice.
3. The minimum order for a part not covered by warranty is \$7.50 (includes shipping and handling).
4. All keys are \$6.00 each plus a shipping and handling fee of \$3.00 per shipping location.
5. Touch-up paint brush bottles are \$7.00 each, spray cans of paint are \$14.50 each, plus shipping and handling. Note: All aerosol spray paint will be shipped via FedEx ground only.
6. Parts may be paid for with an approved credit card. Approved Cards: MasterCard, VISA and American Express.
7. Payment terms for invoiced parts are Net 30 days.
8. Due to short leadtimes on parts, no changes will be accepted after the order has been placed.
9. When placing a **warranty** parts order:

**If the product is under warranty, the product serial number must be provided.** Most finished goods products have a serial number placed on them at the factory. The label containing the serial number is located:

**Vertical Files** — right side of the uppermost drawer

**Lateral Files** — left side of the uppermost drawer or shelf

**Desk Towers** — outside of top drawer

**Desks, Credenzas, & Returns** — on the outside, kneespace side of the top drawer. Fully extend the drawer to find it.

**Desks, Credenzas, Corner Units, Bridges, Peninsulas & Returns without drawers** — underside of top

**Tables and Stands** — underside of the top

**Table Trucks** — underside of side rail

**Cabinets & Bookcases** — left inner side of the case

**Modular Component Top and Backs** — underside of top

**Modular End Panels** — top inside surface

**Reception Stations** — top inside surface of back panel

**Organizers** — top inside surface of left end panel near back panel

**Vertical Paper Manager** — back panel inside surface near top

**Pedestals** — bottom drawer right side exterior

**Seating** — underside of the seat

**Panels** — underside of the top cap

**Hutches, Storage Units, Overhead Storage** — underside of the shelf

**Hanging Bookshelves** — underside of shelf

NOTE: Removal of the serial number tag from the product voids the warranty.

**An important note regarding Product Serial Numbers:**

HON desks, tables, chairs, files and systems components are tagged with a serial number. This number helps us identify *when and where your product was made*, and to identify and correct the root causes for the problem. NEITHER THE DEALER NOR THE CONSUMER SHOULD REMOVE THIS TAG UNDER ANY CIRCUMSTANCES. To do so immediately voids your Warranty coverage for that particular item *and prevents us from further identifying it*. Instead, please transcribe the number and call your Dealer.
