Great design translates into all languages and Accent speaks volumes. Graceful lines and contours are exercised in extra-thick solid wood frames with multistep finishes. Choose finishes that complement HPFI wood veneer or laminate casegoods. Triple-groove construction of seat frame rails and corner blocks increases rigidity and long-term durability. All at modest prices for an affordable seating solution in many different areas. All models are available with casters for use as conference seating.

Radiance RA-014 Blue Topaz

Keys to comfort

Accent chairs feature separate seat components with structural outer, flexible center and high-comfort cushioning. Flexible seat-center reduces pressure on the spine for comfortable sitting. Contoured 3" thick cushioning provides a soft, supportive seat. All designs feature generous scale and proportion.
